DECLARATION OF SCOTT I. DAVIDSON

I, Scott I. Davidson, hereby declare under the penalty of perjury, pursuant to 28 U.S.C. § 1746, that the following is true and correct to the best of my knowledge, information and belief.

1. I am counsel in the law firm of King & Spalding LLP, attorneys for General Motors LLC ("**New GM**") in the above-captioned matter. I am familiar with the statements set forth below based on my personal knowledge, and my review of relevant documents. I submit this declaration in support of the *Opening Brief By General Motors LLC On Threshold Issues Concerning Its Motions To Enforce The Sale Order And Injunction*, filed simultaneously herewith.

2. On June 1, 2009, General Motors Corporation (now known as Motors Liquidation Company) ("**Old GM**") filed for bankruptcy protection in the United States Bankruptcy Court for the Southern District of New York ("**Bankruptcy Court**"). On June 12, 2009, Old GM sought approval from the Bankruptcy Court to retain and employ The Garden City Group ("**GCG**") as Old GM's claim and noticing agent. *See Application Of Debtors For Entry Of Order Pursuant To 28 U.S.C. § 156(C) Authorizing Retention And Employment Of The Garden*

City Group, Inc. As Notice And Claims Agent Nunc Pro Tunc To The Commencement Date, dated June 12, 2009 [Dkt. No. 953] ("**GCG Application**").[1]

3. GCG's engagement letter (attached as Exhibit "A" to the GCG Application) sets forth certain fees GCG was proposing to charge Old GM for various tasks. Included in the proposal was a charge for mailing notices ("**Sale Notice**") of the sale ("**363 Sale**") of substantially all of the assets from Old GM to New GM. Specifically, Schedule "A" attached to GCG's engagement letter provides as follows:

> The notice of commencement, which is usually a 2-4 page document, would be quoted in the range of $0.15 per packet plus postage if mailed to 1.5 million addresses and within these specifications. ***The notice of sale, assuming it is 4-6 pages, is quoted at $.20 per packet.*** This is an "all in" price and there are no extra charges for labor, copy charges, envelopes, labels. stuffing, etc. All of our volume discount quotes will be "all in." ***The only additional cost will be postage*** and we will do a zip code presort to get the best postage discount rate for the mailing. [emphasis added]

4. On June 25, 2009, the Bankruptcy Court authorized Old GM to retain GCG as its claims and noticing agent. *See Order Pursuant To 28 U.S.C. § 156(C) Authorizing Retention And Employment Of The Garden City Group, Inc. As Notice And Claims Agent Nunc Pro Tunc To The Commencement Date*, dated June 25, 2009 [Dkt. No. 2549] ("**GCG Order**").[2]

5. According to an inquiry I made to GCG in June 2014, GCG informed me that direct mail notice of the Sale Notice was provided to approximately 4,350,000 individuals and entities at a cost of approximately $3 million. *See* E-mail ("**Gargan E-Mail**")[3] from Kimberly Gargan (from GCG) to Scott Davidson, dated June 16, 2014 at 5:11 p.m. According to the

---

[1] A true and correct copy of the GCG Application is annexed hereto as Exhibit "A."

[2] A true and correct copy of the GCG Order is annexed hereto as Exhibit "B."

[3] A true and correct copy of the Gargan E-Mail is annexed hereto as Exhibit "C."

Gargan E-mail, printing labor and materials for the three-page Sale Notice cost $0.175 per notice; postage for the notice was $0.44, for a total of $0.615 per notice.

6. According to the Declaration of Michael Yakima, which is being filed with the Bankruptcy Court simultaneously herewith, there were a total of 70,535,565 Old GM manufactured vehicles in operation in the United States as of June 30, 2009.

7. Assuming the same GCG pricing structure, if Old GM had provided direct mail notice of the Sale Notice to all owners of Old GM manufactured vehicles in operation in the United States as of June 30, 2009, it would have cost Old GM approximately $43.4 million – or more than 14 times greater than what it actually cost Old GM to provide direct mail notice of the 363 Sale.

Attorneys for Debtors
and Debtors in Possession

UNITED STATES BANKRUPTCY COURT
SOUTHERN DISTRICT OF NEW YORK

In re	:	**Chapter 11 Case No.**
GENERAL MOTORS CORP., *et al.*,	:	**09-50026 (REG)**
Debtors.	:	**(Jointly Administered)**

APPLICATION OF DEBTORS FOR ENTRY OF ORDER PURSUANT TO 28 U.S.C. § 156(c) AUTHORIZING RETENTION AND EMPLOYMENT OF THE GARDEN CITY GROUP, INC. AS NOTICE AND CLAIMS AGENT *NUNC PRO TUNC* TO THE COMMENCEMENT DATE

TO THE HONORABLE ROBERT E. GERBER,
UNITED STATES BANKRUPTCY JUDGE:

General Motors Corporation and certain of its subsidiaries, as debtors and debtors in possession in the above-captioned chapter 11 cases (collectively, the "**Debtors**"), respectfully represent:

Jurisdiction

1. This Court has jurisdiction to consider this matter pursuant to 28 U.S.C. §§ 157 and 1334. This is a core proceeding pursuant to 28 U.S.C. § 157(b). Venue is proper before this Court pursuant to 28 U.S.C. §§ 1408 and 1409.

Relief Requested

2. By this Application, the Debtors seek entry of an order pursuant to 28 U.S.C. § 156(c) to approve the retention and employment The Garden City Group, Inc. ("**GCG**") as notice and claims agent ("**Agent**") of the Clerk of the Bankruptcy Court ("**Court**") *nunc pro tunc* to the Commencement Date, and to approve the assumption of a related agreement, in order to assume full responsibility for the distribution of notices and proofs of claim, to maintain, process and docket proofs of claim filed in the chapter 11 cases, and to perform such other services as the Debtors and the Court require. The Debtors' selection of GCG to act as the Agent has satisfied the Court's protocol for the retention of GCG, where the Debtors have obtained and reviewed engagement proposals from other Court approved claims agents to ensure selection through a competitive process. Moreover, the Debtors submit that based on all engagement proposals obtained and reviewed, that GCG would provide the most cost effective and efficient service as Agent in these chapter 11 cases.

3. In view of the complexity of these chapter 11 cases and the anticipated number of entities to be noticed, the Debtors submit that the appointment of an Agent is both necessary and in the best interests of the Debtors' estate and their creditors. GCG is one of the country's leading Chapter 11 administrators with expertise in noticing, claims processing, balloting administration and distribution. GCG has also acted as the Agent in several cases which are currently pending in this Court. GCG is well qualified to provide experienced noticing, claims processing and balloting administration services in connection with these chapter 11 cases.

Services To Be Provided

4. GCG is authorized and directed to perform all related tasks to process the proofs of claims and maintain a claims register including, without limitation:

a. notify all potential creditors of the filing of the bankruptcy petition and of the setting of the first meeting of creditors, pursuant to §341(a) of the Bankruptcy Code, under the proper provisions of the Bankruptcy Code and the Federal Rules of Bankruptcy Procedure;

b. maintain an official copy of the Debtors' schedules of assets and liabilities and statement of financial affairs (collectively, "**Schedules**"), listing the Debtors' known creditors and the amounts owed thereto;

c. notify all potential creditors of the existence and amount of their respective claims as evidenced by the Debtors' books and records and set forth in the Schedules;

d. furnish a notice of the last date for the filing of proofs of claim and a form for the filing of a proof of claim, after such notice and form are approved by this Court;

e. file with the Court a copy of the notice, a list of persons to whom it was mailed (in alphabetical order), and the date the notice was mailed, within ten (10) days of service;

f. docket all claims received and maintain the official claims register (the "**Claims Register**") on behalf of the Court;

g. specify, in the Claims Register, the following information for each claim docketed: (i) the claim number assigned, (ii) the date received, (iii) the name and address of the claimant and agent, if applicable, who filed the claim, and (iv) the classification(s) of the claim (e.g., secured, unsecured, priority, etc.);

h. record all transfers of claims and provide any notices of such transfers required by Rule 3001 of the Federal Rules of Bankruptcy Procedure;

i. make changes in the Claims Register pursuant to Court Order;

j. maintain the official mailing list for the Debtors of all entities that have filed a proof of claim, which list shall be available upon request by a party-in-interest or the Court;

k. assist with, among other things, solicitation and calculation of votes and distribution as required in furtherance of confirmation of a plan of reorganization;

l. thirty (30) days prior to the close of these chapter 11 cases, an Order dismissing GCG shall be submitted terminating the services of the GCG upon completion of its duties and responsibilities and upon the closing of these chapter 11 cases; and

m. at the close of these chapter 11 cases, box and transport all original documents in proper format, as provided by the Court, to the Federal Records Center.

5. In connection with retention as Agent, GCG will not employ any past or present employees of the Debtors in connection with its work as Agent. The terms of GCG's retention are set forth in Exhibit A annexed hereto.

6. As more fully described in the Affidavit of Neil L. Zola, President and Chief Operating Officer of GCG, annexed hereto as Exhibit B, neither GCG nor any of its employees have any connection with or any interest adverse to the Debtors, their creditors, or any other party in interest, or their professionals.

7. GCG has received a retainer in the amount of $1,850,000.00 from the Debtors and will apply same first against all pre-petition fees and expenses and then against the last bill for fees and expenses that GCG will render in these chapter 11 cases.

Notice

8. Notice of this Application has been provided to (i) the Office of the United States Trustee for the Southern District of New York, (ii) the attorneys for the United States Department of the Treasury, (iii) the attorneys for Export Development Canada, (iv) the attorneys for the agent under GM's prepetition secured term loan agreement, (v) the attorneys for the agent under GM's prepetition amended and restated secured revolving credit agreement, (vi) the attorneys for the statutory committee of unsecured creditors appointed in these chapter 11 cases, (vii) the attorneys for the International Union, United Automobile, Aerospace and Agricultural Implement Workers of America, (viii) the attorneys for the International Union of Electronic, Electrical, Salaried, Machine and Furniture Workers—Communications Workers of America, (ix) the United States Department of Labor, (x) the attorneys for the National

Automobile Dealers Association, (xi) the attorneys for the ad hoc bondholders committee, (xii) the U.S. Attorney's Office, and (xiii) all entities that requested notice in these chapter 11 cases under Fed. R. Bankr. P. 2002. The Debtors submit that, in view of the facts and circumstances, such notice is sufficient and no other or further notice need be provided.

9. No previous request for the relief sought herein has been made by the Debtors to this or any other Court.

WHEREFORE the Debtors respectfully request entry of an order granting the relief requested herein and such other and further relief as is just.

Dated: New York, New York
June 12, 2009

EXHIBIT A
(Engagement Letter)

The Garden City Group, Inc.

COURT ADMINISTRATION AGREEMENT

This Court Administration Agreement, dated as of May 19, 2009, is between The Garden City Group, Inc., a Delaware corporation (the "Company"), and Chevrolet-Saturn of Harlem, Inc., General Motors Corporation, Saturn, LLC and Saturn Distribution Corporation, Debtors (the "Clients").

The Clients desire to retain the Company to perform certain noticing, claims processing and other administration services for the Clients in their Chapter 11 cases anticipated to be filed in the United States Bankruptcy Court for the Southern District of New York (such Court or such other Bankruptcy Court where said case may actually be filed in lieu thereof), (the "Bankruptcy Court"), and the Company desires to be so retained, in accordance with the terms and conditions of this Agreement.

In consideration of the mutual covenants herein contained, the parties hereby agree as follows:

1. Services. The Company agrees to provide the services necessary to perform the tasks specified in the pricing schedule that has been supplied to the Clients and which has been attached hereto as Schedule A. Such services are hereinafter referred to as "Services." The Clients agree and understand that none of the Services constitute legal advice. The Company designates Angela Ferrante as the Project Team Leader of this case and the Company represents that it will, in performing its services and while following any and all court instructions and orders, take its day to day directions from AlixPartners LLP and Weil, Gotshal & Manges LLP or any other professionals designated by those entities in this case.

2. Payment for Services; Expenses.

2.1 Compensation. As full compensation for the Services to be provided by the Company, the Clients agree to pay the Company its fees as outlined in the pricing schedule that has been supplied to the Clients and which has been attached hereto as Schedule A (subject to Bankruptcy Court approval in the event of an unresolved dispute). Billing rates may be adjusted from time to time by the Company in its reasonable discretion, although billing rates generally are changed on an annual basis. The Clients agree to pay the Company a retainer of $1.85 million, to be applied first against the pre-petition fees and expenses incurred by the Clients in connection with Services rendered by the Company and then against the final bill that will be rendered by the Company to the Clients for the post-petition fees and expenses incurred by the Clients in connection with Services rendered by the Company.

2.2 Expenses. In addition to the compensation set forth in Section 2.1, the Clients shall reimburse the Company for all out-of-pocket expenses reasonably incurred by the Company in connection with the performance of the Services (subject to Bankruptcy Court determination in the event of an unresolved dispute). The out-of-pocket expenses will be billed on the expense (non-fee) portion of the Company's invoice to the Clients and may include, but are not limited to, postage, banking fees, brokerage fees, costs of messenger and delivery service, travel, filing fees, staff overtime meal expenses and other similar expenses. In some cases, the Company may receive a rebate at the end of a year from a vendor.

2.3 Billing and Payment. Except as provided in Section 2.2, the Company shall bill the Clients for its fees and expenses on a monthly basis, and the Clients shall pay the Company within thirty (30) days of its receipt of each such bill in the ordinary course of business (subject to Bankruptcy Court approval in the event of an unresolved dispute). Unless otherwise agreed to in writing, the fees for print notice and media publication (including commissions) as well as certain expenses such as postage must be paid at least three (3) business days in advance of those fees and expenses being incurred. Each of the Clients is jointly and severally liable for the Company's fees and expenses. Nothing contained in this Agreement shall obligate the clients to pay the Company for any fees or expenses incurred by the Company in connection with work performed negligently, with willful or wanton misconduct or outside the scope of services requested by the Clients, AlixPartners LLP or Weil, Gotshal & Manges LLP, or in connection with correcting any such identified work, except that in the event Company has to redo a project it shall be entitled to charge and be paid once for said project or work.

3. Term and Termination.

3.1 Term. The term of this Agreement shall commence on the date hereof and shall continue until performance in full of the Services, unless earlier terminated as set forth herein.

3.2 Termination.

(a) In the event of any material breach of this Agreement by either party hereto, either party may apply to the Bankruptcy Court for an order allowing termination of the Agreement. Grounds for termination include: (i) failure to cure a material breach within thirty (30) days after receipt of the notice by the non-breaching party or (ii) in the case of any breach which requires more than thirty (30) days to effect a cure, failure to commence and continue in good faith efforts to cure such breach, provided that such cure shall be effected no later than ninety (90) days after receipt of such notice of such breach. Waiver of any such default or material breach by either party hereto shall not be construed as limiting any right of termination for a subsequent default or material breach.

(b) The Company shall be entitled to an administrative claim for all fees and expenses outstanding at the time of termination (subject to Bankruptcy Court approval in the event of an unresolved dispute).

4. Independent Contractor. It is understood and agreed that the Company, through itself or any of its agents, shall perform the Services as an independent contractor. Neither the Company nor any of its employees shall be deemed to be an employee of the Clients. Neither the Company nor any of its employees shall be entitled to any benefits provided by the Clients to their employees, and the Clients will make no deductions from any of the payments due to the Company hereunder for state or federal tax purposes. The Company agrees that the Company shall be responsible for any and all taxes and other payments due on payments received hereunder by the Company from the Clients. Nothing in this Agreement requires the Clients to use the Company for any future work relating to the Services and, in the event the Clients decide to use another party for such future work, the Company agrees to cooperate fully with the Clients to ensure a smooth transition to the new party.

5. Accuracy of Client Supplied Information. The Clients are responsible for the accuracy of all programs, data and other information it submits to the Company (including all information for schedule and statement preparation) and for the output of such information. The Company may undertake to place that data and information into certain systems and programs, including in connection with the generation of Schedules of Assets and Liabilities ("Schedules") and Statements of Financial Affairs ("Statements"). The Company does not verify information provided by the Clients and, with respect to Schedules and Statements preparation, all decisions are at the sole discretion and direction of the Clients.

All Schedules and Statements filed on behalf of, or by, the Clients are reviewed and ultimately approved by the Clients, and the Company bears no responsibility for the accuracy or contents therein.

6. Confidential Information.

6.1 Confidentiality. In connection with this Agreement, each of the Clients and the Company (as the case may be, the "Disclosing Party") may disclose to the Company or the Clients (as the case may be, the "Receiving Party") certain information (a) that is marked or otherwise identified in writing as confidential or proprietary information of the Disclosing Party ("Confidential Information") prior to or upon receipt by the Receiving Party; or (b) which the Receiving Party reasonably should recognize from the circumstances surrounding the disclosure to be Confidential Information. The Receiving Party (x) shall hold all Confidential Information in confidence and will use such information only for the purposes of fulfilling the Receiving Party's obligations hereunder and for no other purpose, and (y) shall not disclose, provide, disseminate or otherwise make available any Confidential Information to any third party other than for the purposes of fulfilling the Receiving Party's obligations hereunder, in either case without the express prior written permission of the Disclosing Party. Notwithstanding the foregoing, the Receiving Party may disclose Confidential Information pursuant to a validly issued subpoena or order of a court of competent jurisdiction.

6.2 Protection of Intellectual Property. The Clients acknowledge that the Company's intellectual property, including, without limitation, the Company's inventions (whether or not patentable), processes, trade secrets and know how are of ultimate importance to the Company. Accordingly, the Clients agree to use their best efforts to protect such intellectual property, and shall not, either during the term of this Agreement or subsequent to its termination, utilize, reveal or disclose any of such intellectual property. The Clients understand that the software programs and other materials furnished by the Company pursuant to this Agreement and/or developed during the course of this Agreement by the Company are the sole property of the Company. The term "program" shall include, without limitation, data processing programs, check printing programs, specifications, applications, routines, sub-routines, procedural manuals, and documentation. The Clients further agree that any ideas, concepts, know-how or techniques relating to the claims management software used or developed by the Company during the course of this Agreement shall be the exclusive property of the Company.

6.3 Scope. The foregoing obligations in Sections 6.1 and 6.2 shall not apply to (a) information that is or becomes generally known or available by publication, commercial use or otherwise through no fault of the Receiving Party; (b) information that is known by the Receiving Party prior to the time of disclosure by the Disclosing Party to the Receiving Party; (c) information that is obtained from a third party who, to the Receiving Party's knowledge, has the right to make such disclosure without restriction; (d) any disclosure required by applicable law; or (e) information that is released for publication by the Disclosing Party in writing. The obligations set forth under Sections 6.1 and 6.2 shall survive the termination of this Agreement.

7. Limitation on Damages. The Company shall be without liability to the Clients with respect to anything done or omitted to be done, in accordance with the terms of this Agreement or instructions properly received pursuant hereto, if done in good faith and without negligence or willful or wanton misconduct. In no event shall liability to the Clients for any claims, losses, costs, fines, penalties or damages, including court costs and reasonable attorneys' fees (collectively, "Losses"), whether direct or indirect, arising out of or in connection with or related to this Agreement, exceed the total amount billed or billable to the Clients for the portion of the particular work which gave rise to the Losses. Under no circumstances will the Company be liable to the Clients for any special, consequential or incidental damages incurred by the Client relating to this Agreement or the performance of Services hereunder, regardless of whether the Clients' claim is for breach of warranty, contract, tort (including negligence),

strict liability or otherwise. To the extent there is any conflict between this provision and paragraph 2.3, the terms of paragraph 2.3 control.

8. Indemnification. The Clients, jointly and severally, hereby indemnify and hold harmless the Company and its directors, officers, employees, affiliates and agents against any Losses incurred by the Company arising out of or in connection with or related to (a) any gross negligence or willful misconduct by Clients, their employees, agents or representatives, or any misrepresentations made by such persons to third parties in connection with the Company's acts or omissions in connection with its rendition of the Services; (b) any breach of this Agreement by any of the Clients; or (c) any erroneous instructions or information provided to the Company by any of the Clients for use in providing the Services. To the extent there is any conflict between this provision and paragraph 2.3, the terms of paragraph 2.3 control.

9. Jurisdiction. This Agreement is subject to the approval of the Bankruptcy Court, and such Court shall retain jurisdiction over all matters regarding this Agreement.

10. Force Majeure. Whenever performance by the Company of any of its obligations hereunder is substantially prevented by reason of any act of God, strike, lock-out or other industrial or transportational disturbance, fire, lack of materials, law, regulation or ordinance, war or war conditions, or by reason of any other matter beyond the Company's reasonable control, then such performance shall be excused and this Agreement shall be deemed suspended during the continuation of such prevention and for a reasonable time thereafter.

11. Notice. Any notice or other communication required or permitted hereunder shall be in writing and shall be delivered personally, or sent by registered mail, postage prepaid, or overnight courier. Any such notice shall be deemed given when so delivered personally, or, if mailed, five days after the date of deposit in the United States mail, or, if sent by overnight courier, one business day after delivery to such courier, as follows: if to the Company, to The Garden City Group, Inc., 105 Maxess Road, Melville, New York 11747-3836, Attention: David Isaac, President; and if to the Clients, to Weil, Gotshal & Manges LLP, 767 Fifth Avenue, New York, New York 10153, Attention: Stephen Karotkin, Esquire.

12. Governing Law. This contract will be governed by and construed in accordance with the laws of the State of New York (without reference to its conflict of laws provisions).

13. Severability. All clauses and covenants contained in this Agreement are severable and in the event any of them are held to be invalid by any court, such clause or covenant shall be valid and enforced to the maximum extent as to which it may be valid and enforceable, and this Agreement will be interpreted as if such invalid clauses or covenants were not contained herein.

14. Assignment. This Agreement and the rights and obligations of the Company and the Clients hereunder shall bind and inure to the benefit of any successors or assigns thereto.

15. General. This Agreement supersedes and replaces any existing agreement entered into by the Company and the Clients relating generally to the same subject matter, and may be modified only in a writing signed by the Company and the Clients. The paragraph headings in this Agreement are included only for convenience, do not in any manner modify or limit any of the provisions of this Agreement and may not be used in the interpretation of this Agreement. Failure to enforce any provision of this Agreement shall not constitute a waiver of any term hereof. This Agreement contains the entire agreement between the parties with respect to the subject matter hereof. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one in the same instrument. The Clients shall file an application with the Bankruptcy

Court seeking approval of this Agreement (the "Application"). If an order is entered approving such Application (the "Order"), any discrepancies between this Agreement, the Application and the Order shall be controlled by the Application and Order.

IN WITNESS WHEREOF, the parties have executed this Agreement as of the day and year set forth above.

Schedule A

GCG Fees

Service	**Claims Agent Pricing**
Matter and database set-up	Waived
Transfer of data from company/AlixPartners to claims agent database	$.02 per creditor
Storage of data	$.002 per electronic record/image per month; $1.50 per box (capped at $100,000 for electronic storage)
Tailoring of proof of claim form by creditor/schedules, including bar coding	$100 per hour
Intake of creditor proofs of claim and scanning to claims agent electronic system	$.11 per image scanned $.15 per claim associated to database
Application of message codes and processing non-conforming claims	$55 per hour
Claims or Docket Reports	$150 per hour
Copy charges for mailings	$.10 per page for copy jobs of under 5,000 addresses or where document is less than 8 pages. Volume discount quotes for larger jobs. See Note below.
Preparation of mailings (folding, etc.)	Standard Hourly Rates for smaller jobs under 5,000 pieces. For larger jobs, in excess of 5,000 pieces, no hourly rate for prep, including folding, insertion, etc. Those tasks are included in the volume discount quote.
Address labels and envelopes for mailings	No charge for any mailing to more than 5,000 people. For smaller mailings, the charge is $.05 per label or window envelope (we do not

	charge for both).
Email Noticing	$100 per 1,000 names
Fax notice	$.10 per page
Website design	$3,500
Website hosting	$200 per month
Charges for public to access web site	No
Website updates (docket; claims register)	$125 per hour
Incoming mail sorting	$.45 each
Accepting data from AlixPartners for creation of Schedules and SOFAs	$150 per hour
Handling undeliverable mail & recording in database	$.25 each
Handling remails & forwarding notices	$.55 each
Supervisory Review by Project Manager leaders	Standard hourly rates
Quality Assurance Review	Standard hourly rates
Beneficial Stockholder search	Standard hourly rates
Balloting and Solicitation	Standard hourly rates
Call Center Set-up	$10,000
IVR Set-up and monthly fee - IVR minutes - Live Operators	Waived .32 cents per minute 1-74 $34.50 per hour 75-100 $32.50 per hour 75-101 $30.00 per hour 151 plus $28.50 per hour
Call Center Training and Managers	Standard hourly rates

Note: The notice of commencement, which is usually a 2-4 page document, would be quoted in the range of $0.15 per packet plus postage if mailed to 1.5 million addresses and within these specifications. The notice of sale, assuming it is 4-6 pages, is quoted at $.20 per packet. This is an "all in" price and there are no extra charges for labor, copy charges, envelopes, labels, stuffing, etc. All of our volume discount quotes will be "all in." The only additional cost will be postage and we will do a zip code-presort to get the best postage discount rate for the mailing.

If the bar date notice is about 6 pages, including a 2 page personalized POC, and is mailed to 1.5 million addresses, the likely quote would be around $0.20 per packet. Again, these quotes are provided to demonstrate the volume discounts we provide and the "all in" nature of our quotes. Actual quotes are provided once set specifications are provided.

The Garden City Group, Inc. Standard Hourly Billing Rates

GCG will cap the hourly rates of its Senior Management at $250 and there will be no charge for overtime.

Administrative	$45-$70
Data Entry Processors	$55
Mailroom and Claims Control	$55
Customer Service Rep's	$57
Project Administrators	$70-$85
Quality Assurance Staff	$80-$125
Project Supervisors	$95-$110
Systems & Technology Staff	$100-$200
Graphic Support	$125
Project Managers, Senior Project Managers, and Department Managers	$125-$150
Directors, Senior Consultants, and Assistant Vice Presidents	$175-$250
Senior Management	$250

EXHIBIT B
(Affidavit of Neil L. Zola)

UNITED STATES BANKRUPTCY COURT
SOUTHERN DISTRICT OF NEW YORK

In re	:	**Chapter 11 Case No.**
GENERAL MOTORS CORP., *et al.*,	:	**09-50026 (REG)**
Debtors.	:	**(Jointly Administered)**

AFFIDAVIT OF NEIL L. ZOLA IN SUPPORT OF THE APPLICATION FOR ORDER UNDER 28 U.S.C. § 156(c) AUTHORIZING THE RETENTION OF THE GARDEN CITY GROUP, INC. AS NOTICE AND CLAIMS AGENT AND APPROVING ASSUMPTION OF RELATED AGREEMENT

Neil L. Zola, being duly sworn, deposes and says:

1. I am the President and Chief Operating Officer of The Garden City Group, Inc. ("**GCG**"), and I am authorized to make and submit this affidavit on behalf of GCG. This affidavit is submitted in support of the application (the "**Application**") of Chevrolet-Saturn of Harlem, Inc., General Motors Corporation, Saturn, LLC and Saturn Distribution Corporation, debtors and debtors in possession (collectively, the "**Debtors**"), for authorization to retain GCG as official notice and claims agent ("**Claims Agent**") for the above-captioned Chapter 11 case (the "**Case**"), pursuant to 28 U.S.C. § 156(c) and to approve the assumption of a related agreement. The statements contained herein are based upon personal knowledge.

2. GCG is one of the country's leading Chapter 11 administrators with expertise in noticing, claims processing, balloting administration and distribution. GCG is well qualified to provide experienced noticing, claims processing and balloting administration services in connection with this Case. Among the large Chapter 11 cases in which GCG is or was retained as noticing and claims agent to debtors are: In re BearingPoint, Inc., Case No. 09-10691

(REG), In re Fortunoff Holdings, LLC, Case No. 09-10497 (RDD), In re Star Tribune Holdings Corp., Case No. 09-10244 (RDD), In re Lenox Sales, Inc., Case No. 08-14679 (ALG), In re IBP Corp., Case No. 08-11181 (AJG), In re Alper Holdings USA, Inc., Case No. 07-12148 (BRL), In re The New York Racing Ass'n Inc., Case No. 06-12618 (JMP), In re Our Lady of Mercy Med. Ctr., Case No. 07-10609 (REG), In re Saltire Industrial, Inc., Case No. 04-15389 (BRL), In re Sure Fit, Inc., Case No. 04-11495 (BRL) and In re General Media, Inc., Case No. 03-15078 (SMB), which were filed in the Southern District of New York; In re Forward Foods LLC, case no. 09-10545 (KJC), In re Nailite International, Inc., case no. 09-10526 (MFW), In re Foothills Texas, Inc., case no. 09-10452 (CSS), In re Jancor Companies Inc., et al., case no. 08-12556 (MFW), In re Comfort Co., Inc., case no. 08-12305 (MFW), In re DG Liquidation Corp., case no. 08-10601 (CSS), In re KCMVNO, Inc., case no. 08-10600 (BLS), In re Supplements LT Inc., case no. 08-10446 (KJC), In re ProRhythm, Inc., case no. 07-11861 (KJC), In re S-Tran Holdings, Inc., et al., case no. 05-11391 (RB), In re Flintkote Company, case no. 04-11300 (JKF), In re Factory 2-U Stores, Inc., case no. 04-10111 (PJW), In re Magnatrax Corporation, case no. 03-11402 (PJW), In re HQ Global Holdings, Inc., et al., case no. 02-10760 (MFW), In re Federal-Mogul Global, Inc., case no. 01-10578 (AMW) and In re ACandS, Inc., case no. 02-12687 (RJN), which were filed in the District of Delaware; In re Commercial Mortgage & Finance Co., case no. 08-73242 (MB), In re Printers Row, LLC, case no. 08-17301 (ERW) and In re Gateway Home Care Inc., et al., case no. 03-17457 (JPC), which were filed in the Northern District of Illinois; In re Zurich Depository Corp., case no. 07-71352 (JBR), In re Copperfield Investment, LLC, case no. 07-71327 (JBR), In re The Brunswick Hospital Center, Inc., case no. 07-40290 (CEC), In re Photocircuits Corporation, case no. 05-89022 (SB), In re MetroTec Communications, Inc., et al., case no. 05-20953 (DEM), In re Allou Distributors Inc., et al., case no.03-82321 (ESS) and In re

CyberRebate.com, Inc., case no. 01-16534 (CEC), which were filed in the Eastern District of New York; In re Foxtons, Inc., et al., case no. 07-24496 (MBK), In re NJ Affordable Homes Corp., case no. 05-60442 (DHS), In re Omne Staffing Inc., et al., case no. 04-22316 (RG), In re NorVergence, Inc., case no. 04-32079 (RG), In re Muralo Company, Inc., case no. 03-26723 (MS) and In re AremisSoft, case no. 02-32621 (RG), which were filed in the District of New Jersey; In re O'Sullivan Industries, Inc., et al., case no. 05-83049 (CRM) and In re Galey & Lord, Inc., et al., case no. 04-43098 (MGC), which were filed in the Northern District of Georgia; In re SENCORP, Case No. 09-12869 (JVA) and In re United Producers, Inc., case no. 05-55272 (CMC), which were filed in the Southern District of Ohio; In re Boyds Collection, Ltd., et al., case no. 05-43793 (DWK), which was filed in the District of Maryland; In re Romacorp, Inc., case no. 05-86818 (BJH), which was filed in the Northern District of Texas; In re Mercury Companies, Inc., case no. 08-23125 (MER), which was filed in the District of Colorado; and In re Hawaiian Airlines, Inc., case no. 03-00817 (RJF), which was filed in the District of Hawaii.

3. The Debtors selected GCG to serve as the Claims Agent for the Debtors' estates, as set forth in more detail in the Application filed contemporaneously herewith. To the best of my knowledge, neither GCG, nor any of its professional personnel, have any relationship with the Debtors that would impair GCG's ability to serve as Claims Agent. Although certain GCG personnel may own or lease certain automobiles produced and/or sold by the Debtors, may have utilized repair facilities operated by the Debtors, may have automotive warranties issued by the Debtors or may own General Motors Corporation ("**GM**") stock, these relationships are merely personal in nature and in no way affect GCG's ability to serve as Claims Agent in the Case. In addition, GCG does have relationships with some of the Debtors' creditors, but they are in matters completely unrelated to this Case, either as vendors or in cases where GCG serves in a

neutral capacity as a class action settlement claims administrator. In addition, GCG has acted as a class action settlement claims administrator for GM. GCG's assistance in the cases where GCG acts as a class action settlement claims administrator has been primarily related to the design and dissemination of legal notice and other administrative functions in class actions. At the time of the filing of this Case, GCG was acting as a settlement claims administrator for GM in two class actions matters. For its work in the first of those two cases, Sadowski v. GM, which is pending in California state court (with a companion Missouri state court case), as of the date of the filing of this Case, GCG was owed $19,381.631. For its work in the second of those two cases, Soders v. GM, which is pending in a Pennsylvania state court, as of the date of the filing of this Case, GCG was owed $2,737.71. GCG agrees to waive payment for any and all unpaid pre-petition sums owed by Debtors; that waived sum totals $22,119.34. GCG has working relationships with certain of the professionals retained by the Debtors and other parties herein but such relationships are completely unrelated to this Case. Two Directors at GCG, Craig Johnson and Angela Ferrante, are attorneys formerly associated with the Debtors' bankruptcy counsel, Weil, Gotshal & Manges LLP ("**WGM**"). Mr. Johnson and Ms. Ferrante were employed by WGM from October 2001 through September 2005 and October 2000 through May 2003, respectively. I have also been advised that while employed at WGM, neither Mr. Johnson nor Ms. Ferrante worked on any matters involving the Debtors. Mr. Johnson and Ms. Ferrante were not employed by WGM when this Case was filed. I have further been advised that Jeffrey Stein, a Vice President at GCG, was employed by WGM as a paralegal from June 1977 through August 1978, and was a summer associate at WGM from June 1979 through August 1979. Mr. Stein was not employed by WGM when this Case was filed. I have also been advised that William A. Brandt, Assistant Vice President, Compliance at GCG, is an attorney formerly associated with

Davis Polk & Wardwell ("**Davis Polk**"), a law firm employed by the Debtors. Mr. Brandt was employed by Davis Polk from 1989 to 1996. I have also been advised that while employed at Davis Polk, Mr. Brandt did not work on any matters involving the Debtors. Mr. Brandt was not employed by Davis Polk when this Case was filed. I have been further advised that Donna Zeiser, a Bankruptcy Consultant hired by GCG on June 1, 2009, was formerly employed as a Senior Bankruptcy Paralegal at Sonnenschein Nath & Rosenthal LLP, which represents the United States Treasury in connection with its recent dealings with GM. I have been advised that Ms. Zeiser performed certain ministerial tasks in connection therewith. Ms. Zeiser will not be working on the Case while employed by GCG. In addition, GCG personnel may have relationships with some of the Debtors' creditors; however, such relationships are of a personal, financial nature and completely unrelated to this Case. GCG has and will continue to represent clients in matters unrelated to this Case and has had and will continue to have relationships in the ordinary course of its business with certain vendors and professionals in connection with matters unrelated to this Case.

4. Since 1999, GCG has been a wholly owned subsidiary of Crawford & Company ("**Crawford**"). I have been advised that Crawford is one of the Debtors unsecured creditors in the amount of approximately $2,650.50. I am also advised that KPMG and Ernst & Young LLP are professionals retained by the Debtors. More than fifteen years ago, certain employees of GCG worked with a practice group at KPMG, which was spun off in 1994 and renamed GCG. From time to time, GCG retains KPMG to provide tax consulting advice in connection with its settlement administrative and related work, which is completely unrelated to this Case. Ernst & Young LLP serves as Crawford's auditor in matters completely unrelated to this Case. I am advised that Crawford & Company has no material relationship with the Debtors,

and while it may have rendered services to certain creditors or have a vendor relationship with some creditors, such relationships were (or are) in no way connected to GCG's representation of the Debtors in this Case.

5. GCG is a "disinterested person," as that term is defined in section 101(14) of the Bankruptcy Code, in that GCG and its professional personnel:

(a) are not creditors, equity security holders or insiders of the Debtors;

(b) are not and were not, within two years before the date of the filing of this Case, directors, officers or employees of the Debtors; and

(c) do not have an interest materially adverse to the interests of the Debtors' estates or any class of creditors or equity security holders, by reason of any direct or indirect relationship to, connection with, or interest in, the Debtors.

6. GCG has not been retained to assist any entity or person other than the Debtors on matters relating to, or in connection with, this Case. If GCG's proposed retention is approved by this Court, GCG will not accept any engagement or perform any service for any entity or person other than the Debtors in this Case. GCG may, however, provide professional services to entities or persons that may be creditors or parties in interest in this Case, which services do not relate to, or have any direct connection with, this Case or the Debtors.

7. GCG represents, among other things, that:

(a) It will not consider itself employed by the United States government and shall not seek any compensation from the United States government in its capacity as Claims Agent;

(b) By accepting employment in this Case, GCG waives any right to receive compensation from the United States government;

(c) In its capacity as Claims Agent, GCG will not be an agent of the United States and will not act on behalf of the United States; and

(d) GCG will not employ any past or present employees of the Debtors in connection with its work as Claims Agent.

8. Subject to the Court's approval, the Debtors have agreed to compensate GCG for professional services rendered in connection with this Case pursuant to the retention agreement by and between the Debtors and GCG, a true and correct copy of which is attached as Exhibit A. Payments are to be based upon the submission to the Debtors by GCG of a billing statement, which includes a detailed listing of services and expenses, at the end of each calendar month. GCG has received a $1,850,000.00 retainer from the Debtors and will apply same first against all pre-petition fees and expenses and then against the first post-petition invoice for fees and expenses that GCG will render in this Case.

9. GCG will comply with all requests of the Clerk of the Court and the guidelines promulgated by the Judicial Conference of the United States for the implementation of 28 U.S.C. § 156(c).

In re	:	**Chapter 11 Case No.**
GENERAL MOTORS CORP., *et al.*,	:	**09-50026 (REG)**
Debtors.	:	**(Jointly Administered)**

ORDER PURSUANT TO 28 U.S.C. § 156(c) AUTHORIZING RETENTION AND EMPLOYMENT OF THE GARDEN CITY GROUP, INC. AS NOTICE AND CLAIMS AGENT *NUNC PRO TUNC* TO THE COMMENCEMENT DATE

Upon the Application, dated June 12, 2009 (the "**Application**"),[1] of General Motors Corporation and certain of its subsidiaries, as debtors and debtors in possession in the above-captioned chapter 11 cases (collectively, "**Debtors**"), pursuant to 28 U.S.C. § 156(c) to approve the retention and employment The Garden City Group, Inc. ("**GCG**") as notice and claims agent ("**Agent**") of the Clerk of the Bankruptcy Court ("**Court**") in the above chapter 11 cases (the "**Chapter 11 Cases**") *nunc pro tunc* to the Commencement Date and to approve the assumption of a related agreement, pursuant to the terms of the Claims Agent Agreement annexed to the Application as Exhibit A ("**Agency Agreement**") to, among other things, (i) distribute required notices to parties in interest, (ii) receive, maintain, docket and otherwise administer the proofs of claims filed in the chapter 11 cases, (iii) assist in the tabulation of acceptances and rejections of the Debtors' plan of reorganization, and (iv) provide such other administrative services that the Debtors may require; and upon the affidavit of Neil L. Zola, President and Chief Operating Officer of GCG submitted in support of the Application; and the

[1] Capitalized terms used but not defined herein shall have the meanings ascribed to them in the Application.

Debtors having estimated that there are in excess of 1,000 creditors in these chapter 11 cases, many of which are expected to file proofs of claims, and it appearing that the receiving, docketing and maintaining of proofs of claims would be unduly time consuming and burdensome for the Court; and the Court being authorized under 28 U.S.C. §156(c) to utilize, at the Debtors' expense, outside agents and facilities to provide notices to parties in title 11 cases and to receive, docket, maintain, photocopy and transmit proofs of claim; and the Court being satisfied that GCG has the capability and experience to provide such services and that GCG does not hold an interest adverse to the Debtors or their estate with respect to the matters upon which they are to be engaged; and due and proper notice of the Application having been provided to (i) the Office of the United States Trustee for the Southern District of New York, (ii) the attorneys for the United States Department of the Treasury, (iii) the attorneys for Export Development Canada, (iv) the attorneys for the agent under GM's prepetition secured term loan agreement, (v) the attorneys for the agent under GM's prepetition amended and restated secured revolving credit agreement, (vi) the attorneys for the statutory committee of unsecured creditors appointed in these chapter 11 cases, (vii) the attorneys for the International Union, United Automobile, Aerospace and Agricultural Implement Workers of America, (viii) the attorneys for the International Union of Electronic, Electrical, Salaried, Machine and Furniture Workers—Communications Workers of America, (ix) the United States Department of Labor, (x) the attorneys for the National Automobile Dealers Association, (xi) the attorneys for the ad hoc bondholders committee, (xii) the U.S. Attorney's Office, S.D.N.Y., and (xiii) all entities that requested notice in these chapter 11 cases under Fed. R. Bankr. P. 2002; and no other or further notice being required; and it appearing that the employment of GCG is in the best interests of the Debtors, their estate and creditors; and sufficient cause appearing therefor; it is hereby

ORDERED, that the Debtors are authorized to retain GCG, *nunc pro tunc* to the Commencement Date, to perform the noticing and other services set forth in the Application and to receive, maintain, record and otherwise administer the proofs of claim filed in these Chapter 11 Cases; and it is further

ORDERED, that GCG is appointed as Agent for the Court and custodian of court records and, as such, is designated as the authorized repository for all proofs of claims filed in these Chapter 11 Cases and is authorized and directed to maintain the official claims register for the Debtors; and it is further

ORDERED, that GCG is authorized and directed to perform all related tasks to process the proofs of claims and maintain a claims register including, without limitation:

a. notify all potential creditors of the filing of the bankruptcy petition and of the setting of the first meeting of creditors, pursuant to §341(a) of the Bankruptcy Code, under the proper provisions of the Bankruptcy Code and the Federal Rules of Bankruptcy Procedure;

b. maintain an official copy of the Debtors' schedules of assets and liabilities and statement of financial affairs (collectively, "**Schedules**"), listing the Debtors' known creditors and the amounts owed thereto;

c. notify all potential creditors of the existence and amount of their respective claims as evidenced by the Debtors' books and records and set forth in the Schedules;

d. furnish a notice of the last date for the filing of proofs of claim and a form for the filing of a proof of claim, after such notice and form are approved by this Court;

e. file with the Court a copy of the notice, a list of persons to whom it was mailed (in alphabetical order), and the date the notice was mailed, within ten (10) days of service;

f. docket all claims received, maintain the official claims register (the "**Claims Register**") for the Debtors on behalf of the Court;

g. specify, in the applicable Claims Register, the following information for each claim docketed: (i) the claim number assigned, (ii) the date received, (iii) the name and address of the claimant and agent, if applicable, who filed the claim, and (iv) the classification(s) of the claim (e.g., secured, unsecured, priority, etc.);

h. record all transfers of claims and provide any notices of such transfers required by Rule 3001 of the Federal Rules of Bankruptcy Procedure;

i. make changes in the Claims Registers pursuant to Court Order;

j. maintain the official mailing list for the Debtors of all entities that have filed a proof of claim, which list shall be available upon request by a party-in-interest or the Court;

k. assist with, among other things, solicitation and calculation of votes and distribution as required in furtherance of confirmation of plan(s) of reorganization;

l. thirty (30) days prior to the close of these chapter 11 cases, an Order dismissing GCG shall be submitted terminating the services of GCG upon completion of its duties and responsibilities and upon the closing of these chapter 11 cases; and

m. at the close of the chapter 11 cases, box and transport all original documents in proper format, as provided by the Court, to the Federal Records Center; and it is further

ORDERED, that GCG is authorized to take such other action to comply with all duties set forth in the application; and it is further

ORDERED, that the Debtors are authorized to compensate GCG on a monthly basis, in accordance with the Agency Agreement, upon the receipt of reasonably detailed invoices setting forth the services provided by GCG in the prior month and the rates charged for each, and to reimburse GCG for all reasonable and necessary expenses it may incur, upon the presentation of appropriate documentation; and it is further

ORDERED, if these Chapter 11 Cases convert to cases under Chapter 7, GCG will continue to be paid for its services until the claims filed in the Chapter 11 Cases have been completely processed; if claims agent representation is necessary in the converted chapter 7 cases, GCG will continue to be paid in accordance with 28 U.S.C. §156(c) under the terms set out herein; and it is further

ORDERED, that in the event GCG is unable to provide the services set out in this order, GCG will immediately notify the Court and the Debtors' attorney and cause to have all

original proofs of claim and computer information turned over to another claims agent with the advice and consent of the Court and Debtors' attorney; and it is further

ORDERED, that the Debtors are granted a waiver of the requirement, under Local Bankruptcy Rule 9013-1(b), that a memorandum of law be submitted.

In re	:	**Chapter 11 Case No.**
GENERAL MOTORS CORP., *et al.*,	:	**09-50026 (REG)**
Debtors.	:	**(Jointly Administered)**

ORDER PURSUANT TO 28 U.S.C. § 156(c) AUTHORIZING RETENTION AND EMPLOYMENT OF THE GARDEN CITY GROUP, INC. AS NOTICE AND CLAIMS AGENT *NUNC PRO TUNC* TO THE COMMENCEMENT DATE

Upon the Application, dated June 12, 2009 (the "**Application**"),[1] of General Motors Corporation and certain of its subsidiaries, as debtors and debtors in possession in the above-captioned chapter 11 cases (collectively, "**Debtors**"), pursuant to 28 U.S.C. § 156(c) to approve the retention and employment The Garden City Group, Inc. ("**GCG**") as notice and claims agent ("**Agent**") of the Clerk of the Bankruptcy Court ("**Court**") in the above chapter 11 cases (the "**Chapter 11 Cases**") *nunc pro tunc* to the Commencement Date and to approve the assumption of a related agreement, pursuant to the terms of the Claims Agent Agreement annexed to the Application as Exhibit A ("**Agency Agreement**") to, among other things, (i) distribute required notices to parties in interest, (ii) receive, maintain, docket and otherwise administer the proofs of claims filed in the chapter 11 cases, (iii) assist in the tabulation of acceptances and rejections of the Debtors' plan of reorganization, and (iv) provide such other administrative services that the Debtors may require; and upon the affidavit of Neil L. Zola, President and Chief Operating Officer of GCG submitted in support of the Application; and the

[1] Capitalized terms used but not defined herein shall have the meanings ascribed to them in the Application.

Debtors having estimated that there are in excess of 1,000 creditors in these chapter 11 cases, many of which are expected to file proofs of claims, and it appearing that the receiving, docketing and maintaining of proofs of claims would be unduly time consuming and burdensome for the Court; and the Court being authorized under 28 U.S.C. §156(c) to utilize, at the Debtors' expense, outside agents and facilities to provide notices to parties in title 11 cases and to receive, docket, maintain, photocopy and transmit proofs of claim; and the Court being satisfied that GCG has the capability and experience to provide such services and that GCG does not hold an interest adverse to the Debtors or their estate with respect to the matters upon which they are to be engaged; and due and proper notice of the Application having been provided to (i) the Office of the United States Trustee for the Southern District of New York, (ii) the attorneys for the United States Department of the Treasury, (iii) the attorneys for Export Development Canada, (iv) the attorneys for the agent under GM's prepetition secured term loan agreement, (v) the attorneys for the agent under GM's prepetition amended and restated secured revolving credit agreement, (vi) the attorneys for the statutory committee of unsecured creditors appointed in these chapter 11 cases, (vii) the attorneys for the International Union, United Automobile, Aerospace and Agricultural Implement Workers of America, (viii) the attorneys for the International Union of Electronic, Electrical, Salaried, Machine and Furniture Workers—Communications Workers of America, (ix) the United States Department of Labor, (x) the attorneys for the National Automobile Dealers Association, (xi) the attorneys for the ad hoc bondholders committee, (xii) the U.S. Attorney's Office, S.D.N.Y., and (xiii) all entities that requested notice in these chapter 11 cases under Fed. R. Bankr. P. 2002; and no other or further notice being required; and it appearing that the employment of GCG is in the best interests of the Debtors, their estate and creditors; and sufficient cause appearing therefor; it is hereby

ORDERED, that the Debtors are authorized to retain GCG, *nunc pro tunc* to the Commencement Date, to perform the noticing and other services set forth in the Application and to receive, maintain, record and otherwise administer the proofs of claim filed in these Chapter 11 Cases; and it is further

ORDERED, that GCG is appointed as Agent for the Court and custodian of court records and, as such, is designated as the authorized repository for all proofs of claims filed in these Chapter 11 Cases and is authorized and directed to maintain the official claims register for the Debtors; and it is further

ORDERED, that GCG is authorized and directed to perform all related tasks to process the proofs of claims and maintain a claims register including, without limitation:

a. notify all potential creditors of the filing of the bankruptcy petition and of the setting of the first meeting of creditors, pursuant to §341(a) of the Bankruptcy Code, under the proper provisions of the Bankruptcy Code and the Federal Rules of Bankruptcy Procedure;

b. maintain an official copy of the Debtors' schedules of assets and liabilities and statement of financial affairs (collectively, "**Schedules**"), listing the Debtors' known creditors and the amounts owed thereto;

c. notify all potential creditors of the existence and amount of their respective claims as evidenced by the Debtors' books and records and set forth in the Schedules;

d. furnish a notice of the last date for the filing of proofs of claim and a form for the filing of a proof of claim, after such notice and form are approved by this Court;

e. file with the Court a copy of the notice, a list of persons to whom it was mailed (in alphabetical order), and the date the notice was mailed, within ten (10) days of service;

f. docket all claims received, maintain the official claims register (the "**Claims Register**") for the Debtors on behalf of the Court;

g. specify, in the applicable Claims Register, the following information for each claim docketed: (i) the claim number assigned, (ii) the date received, (iii) the name and address of the claimant and agent, if applicable, who filed the claim, and (iv) the classification(s) of the claim (e.g., secured, unsecured, priority, etc.);

h. record all transfers of claims and provide any notices of such transfers required by Rule 3001 of the Federal Rules of Bankruptcy Procedure;

i. make changes in the Claims Registers pursuant to Court Order;

j. maintain the official mailing list for the Debtors of all entities that have filed a proof of claim, which list shall be available upon request by a party-in-interest or the Court;

k. assist with, among other things, solicitation and calculation of votes and distribution as required in furtherance of confirmation of plan(s) of reorganization;

l. thirty (30) days prior to the close of these chapter 11 cases, an Order dismissing GCG shall be submitted terminating the services of GCG upon completion of its duties and responsibilities and upon the closing of these chapter 11 cases; and

m. at the close of the chapter 11 cases, box and transport all original documents in proper format, as provided by the Court, to the Federal Records Center; and it is further

ORDERED, that GCG is authorized to take such other action to comply with all duties set forth in the application; and it is further

ORDERED, that the Debtors are authorized to compensate GCG on a monthly basis, in accordance with the Agency Agreement, upon the receipt of reasonably detailed invoices setting forth the services provided by GCG in the prior month and the rates charged for each, and to reimburse GCG for all reasonable and necessary expenses it may incur, upon the presentation of appropriate documentation; and it is further

ORDERED, if these Chapter 11 Cases convert to cases under Chapter 7, GCG will continue to be paid for its services until the claims filed in the Chapter 11 Cases have been completely processed; if claims agent representation is necessary in the converted chapter 7 cases, GCG will continue to be paid in accordance with 28 U.S.C. §156(c) under the terms set out herein; and it is further

ORDERED, that in the event GCG is unable to provide the services set out in this order, GCG will immediately notify the Court and the Debtors' attorney and cause to have all

original proofs of claim and computer information turned over to another claims agent with the advice and consent of the Court and Debtors' attorney; and it is further

ORDERED, that the Debtors are granted a waiver of the requirement, under Local Bankruptcy Rule 9013-1(b), that a memorandum of law be submitted.

Scott,

As per yesterday's email exchange below, please find our updated numbers in regard to the Sale Notice mailing handled in June, 2009. As an update, the original cost provided to you on Friday did include the printing, labor and materials costs. Below please find the additional cost of postage and the costs for Broadridge (which include labor, postage, and materials).

Printing, Labor and Materials for the 3 pg. Sale Notice :
Quantity - 4,350,000
Rate - $0.175
Cost - $761,250.00

Postage for 3 pg. Sale Notice
Quantity - 2,000,000 (to the creditor matrix)
Rate - $0.44
Cost - $880,000.00

Broadridge – To equity and bondholders
Quantity – 2,350,000
Cost - $1,358.008.59 (excluding printing and related costs captured above)

Total (printing, postage, labor & materials)- $2,999,258.59

Please let us know if you need anything further at this time. Thank you

MOTORS LIQUIDATION COMPANY, *et al.*, f/k/a General Motors Corp., *et al.*	:	Case No.: 09-50026 (REG)
Debtors.	:	(Jointly Administered)

DECLARATION OF MICHAEL YAKIMA

I, Michael Yakima, hereby declare under the penalty of perjury, pursuant to 28 U.S.C. § 1746, that the following is true and correct to the best of my knowledge, information and belief.

1. I am currently employed as a product manager for R. L. Polk & Co., recently acquired by IHS Global, Inc. (hereinafter referred to as "**Polk**"). Prior to my current position, I was a PolkInsight Advisor assigned to the General Motors ("**GM**") account, and I maintained an office at GM's Headquarters in The Renaissance Center in Detroit, Michigan. I have been employed by Polk for approximately ten years. Unless otherwise stated, all of the information contained herein is based on my personal knowledge, or the review of information contained within Polk's books and records.

2. Polk compiles and maintains a proprietary database of motor vehicle registrations, which includes registration transfers and renewals throughout the United States ("Polk Database").

3. In 2009, one of my job responsibilities, pursuant to a service contract which existed between Polk and General Motors Corporation (n/k/a Motors Liquidation Company) ("**Old GM**"), was to serve as an on-site advisor to Old GM to act as the primary Polk point-

person to provide assistance with reporting (including the provision of supporting information for such), application usage and analysis of the Polk system from which Old GM would use to pull statistical analyses of automotive information. The total number of Old GM manufactured vehicles that were in operation in the United States was among the information provided to Old GM. This data is sometimes referred to as "vehicles in operation" or "VIO". Polk assembles VIO information from various sources, including the information from the Polk Database. Polk provides the VIO information to various vehicle manufactures and this data is routinely relied on in the automotive industry for a variety of business purposes.

4. Under Polk's arrangement with Old GM, Polk provided Old GM (and then General Motors LLC ("**New GM**") after it acquired substantially all of the assets of Old GM in July 2010) with the VIO information for GM manufactured vehicles on a quarterly basis.

5. Attached hereto as Exhibit "A" is a true and accurate copy of a spreadsheet I provided to Old GM in early July 2009 which shows the total number of Old GM manufactured vehicles in operation in the United States in the second quarter of 2009 (ending June 30 2009). There were a total of 70,535,565 Old GM manufactured vehicles in operation in the United States as of that date.

DECLARATION OF HERB KIEFER

I, Herb Keifer, hereby declare under the penalty of perjury, pursuant to 28 U.S.C. § 1746, that the following is true and correct.

1. I am currently employed by General Motors LLC ("**New GM**") as Controller of the Americas. Prior to July 2009, I was employed by the former General Motors Corporation ("**Old GM**") in various financial and accounting-related positions. My employment with Old GM began in 1983. I am familiar with the statements set forth below based on my personal knowledge, and my review of relevant materials. I submit this declaration in support of the *Opening Brief By General Motors LLC On Threshold Issues Concerning Its Motions To Enforce The Sale Order And Injunction*, filed simultaneously herewith.

2. As part of my current job responsibilities, I have access to the accounting records of New GM. In addition, I have access to the accounting records of Old GM, a copy of which New GM has maintained since the sale of certain of Old GM's assets to New GM in July 2009. With respect to records showing the creditors of Old GM as of June 2009, the General Ledger provides the total dollar amounts of Old GM's obligations. The Payable Ledger provides the name of the entity or individual to which a particular amount or obligation was due. In addition, Old GM's system (and New GM's system since July 2009) for paying obligations due third

parties is called the DACOR system. The DACOR system contains the names of entities or individuals who were due a payment as of a specific time.

3. In the normal course of business, neither the General Ledger nor Payable Ledger for Old GM for June 2009 would include any of the named plaintiffs in the Ignition Switch Actions and Non-Ignition Switch Actions, or any owner of any Old GM vehicle, as being listed as a creditor of Old GM in June 2009 by reason of the fact that they were an owner of an Old GM vehicle.

4. In addition, a review of records in the DACOR system was undertaken for both June 1st and July 1st 2009 for the names which New GM counsel provided that are the named plaintiffs in the Ignition Switch Actions and Non-Ignition Switch Actions, most of which are in the MDL Litigation pending in federal court in New York. That review showed only that a person named "Steve Berry" was sent a check on June 22, 2009 for $195.85 as a result of a goodwill reimbursement of repair expenses for a 2002 Chevrolet Impala with a vehicle identification number of 2G1WF52E929290383.

DECLARATION OF ANDREW B. BLOOMER IN SUPPORT OF NEW GM'S MOTION TO ENFORCE SALE ORDER AND INJUNCTION

I, Andrew B. Bloomer, hereby declare under the penalty of perjury, pursuant to 28 U.S.C. § 1746, that the following is true and correct to the best of my knowledge, information and belief.

1. I am a partner of the law firm Kirkland & Ellis LLP. I am one of the counsel of record in this action for General Motors LLC ("**New GM**"). I submit this declaration in support of New GM's Motion to Enforce the Court's July 5, 2009 Sale Order and Injunction. Unless otherwise indicated, I have personal knowledge of the matters set forth below. If called as a witness, I could and would testify competently as follows:

2. Old GM filed for Chapter 11 bankruptcy on June 1, 2009. Between June 1, 2009 and July 10, 2009, more than 1,250 media articles reporting on Old GM's prospective or actual bankruptcy were published in virtually every major newspaper in each of the fifty United States and the District of Columbia, each of the national wire services, as well as in many leading foreign newspapers. These newspapers and wire services include but are not limited to: The New York Times, The Wall Street Journal, USA Today, The Washington Post, Chicago Tribune, Daily News, New York Post, Chicago Sun-Times, Los Angeles Times, Associated Press, Reuters, The Independent, and The Guardian.

3. Media articles between June 1, 2009 and July 10, 2009 reporting on Old GM's prospective or actual bankruptcy can be identified by using the following search criteria in LexisNexis databases such as "US Newspapers and Wires," "MegaNews, US News," "Mega News, Major Newspapers," and "Global publications: Non-US database": "headline ((caps(general motors) or allcaps(gm)) w/25 (restructur! or bankrupt! or insolven!)) and date (geq(6/1/2009) and leq(7/11/2009))."

4. Attached as **Exhibit 1** are true and accurate screenshots of abstracts from articles identified using the databases and search criteria described above. Below are examples of articles located using such databases and search criteria.

5. Attached as **Exhibit 2** is a true and correct copy of a June 4, 2009 article entitled *Accident Victims Fight For Carmaker Payouts; Chrysler, GM Bankruptcies Affect Liability*, published in The Washington Times. The article reported that "Accident victims and their lawyers descended on Capitol Hill on Wednesday [June 3, 2009], urging Congress and the Obama administration to guarantee their ability to seek medical reimbursement from Chrysler and General Motors. The companies' Chapter 11 filings treat victims as unsecured creditors who must wait in line to receive their payouts." (John P. Krudy, *Accident Victims Fight For Carmaker Payouts; Chrysler, GM Bankruptcies Affect Liability*, The Washington Times, June 4, 2009.)

6. Attached as **Exhibit 3** is a true and correct copy of a June 19, 2009 article entitled *Bondholders, Unions Object to GM Asset Sale*, published by the Associated Press. On June 19, 2009, the Associated Press reported that a group of bondholders and some of the automaker's labor unions filed objections to Old GM's proposed Section 363 sale and that "additional objections filed by consumer groups, a handful of states and cities, and individual retirees,

shareholders and bondholders, threaten[ ] to put the brakes on what has so far been a speedy trip through the Chapter 11 process." (Bree Fowler, *Bondholders, Unions Object to GM Asset Sale*, Associated Press, June 19, 2009.)

7. Attached as **Exhibit 4** and **Exhibit 5** are true and correct copies of a June 22, 2009 article entitled *Missouri Challenges GM Bankruptcy Plan*, published in the St. Louis Business Journal, and a June 23, 2009 article entitled *37 States Claim GM Using Court to Skirt State Laws; AGs File Objection in Bankruptcy Proceedings*, published in The Washington Times. The articles reported that 37 state Attorney Generals objected to Old GM's bankruptcy plan on the ground that the plan "would free the automaker of lemon law and product liability requirements, hurting customers who recently bought cars." (Kelsey Volkmann, *Missouri Challenges GM Bankruptcy Plan*, St. Louis Business Journal, June 22, 2009; William Ehart, *37 States Claim GM Using Court To Skirt State Laws; AGs File Objection In Bankruptcy Proceedings*, The Washington Times, June 23, 2009.)

8. Attached as **Exhibit 6** is a true and correct copy of a June 29, 2009 article entitled *GM Agrees to Liability for Defects After Bankruptcy — Auto Maker's Decision Comes Amid Pressure from States, Consumer Advocates in Advance of Tuesday Hearing*, published in The Wall Street Journal. The article reported that "victims with pending lawsuits, those who won damages against [Old] GM before it filed for bankruptcy and those who get in accidents while the auto maker is under bankruptcy protection will still be unable to bring claims against the new GM. They would remain with other unsecured creditors making claims against the old GM. Those victims are likely to recover little or nothing." (Mike Spector, *GM Agrees to Liability for Defects After Bankruptcy — Auto Maker's Decision Comes Amid Pressure from States, Consumer Advocates in Advance of Tuesday Hearing*, The Wall Street Journal, June 29, 2009.)

9. Attached as **Exhibit 7** is a true and correct copy of a July 1, 2009 article entitled *GM Faces July 10 Liquidation if Asset Sale Is Denied*, published in The Detroit News. The article reported that "[m]otorists injured in crashes and accidents involving General Motors Corp. vehicles protested outside U.S. Bankruptcy Court this morning ahead of this key hearing in the automaker's bankruptcy case. The victims and their relatives, who have pending lawsuits against GM, likely will be left with no opportunity to collect damages if a judge, as expected, allows the automaker to sell its best assets to a government-sponsored company. The judge's approval could come this week." (Robert Snell, *GM Faces July 10 Liquidation if Asset Sale Is Denied*, The Detroit News, July 1, 2009.)

10. Attached as **Exhibit 8** is a true and correct copy of a July 2, 2009 article entitled *GM Says Approval of Restructuring is Urgent*, published in The Washington Post. The article reported that "the new GM would assume responsibility for claims arising from accidents that occur after the sales transaction, even if they involve GM vehicles made before the sale of the company. Those who suffered injuries before that would have to pursue the old GM, which means they would probably recover little, if any, money." (Tomoeh Murakami Tse, *GM Says Approval of Restructuring is Urgent*, The Washington Post, July 2, 2009.)

11. Attached as **Exhibit 9** is a true and correct copy of a July 7, 2009 article entitled *GM Ruling Blow to Crash Victims; Bankruptcy Plan Would Limit Existing Liability Claims*, published in the Sacramento Bee. The article reported that "Attorney Christine Spagnoli, president of the Sacramento-based Consumer Attorneys of California, said if the judge's ruling stands, consumers with existing claims are 'pretty much going to be out of luck, pennies on the dollar.'" (Mark Glover, *GM Ruling Blow to Crash Victims; Bankruptcy Plan Would Limit Existing Liability Claims*, Sacramento Bee, July 7, 2009.)

12. Attached as **Exhibit 10** is a true and correct copy of a July 7, 2009 article entitled *Car Accident Plaintiffs Scurry to File Appeals vs. GM Plan; They Say Bankruptcy Strategy Would Free Automaker from Liability*, published in the Grand Rapid Press. The article reported that "Steve Jakubowski, who filed the appeal notice for the accident litigants, said his appeal would assert the bankruptcy judge overstepped his authority by preventing victims from pursuing litigation under their state product liability laws." (*Car Accident Plaintiffs Scurry to File Appeals vs. GM Plan; They Say Bankruptcy Strategy Would Free Automaker from Liability*, Grand Rapid Press, July 7, 2009.)

HEADLINE: Accident victims fight for carmaker payouts;
Chrysler, GM bankruptcies affect liability

BYLINE: By John P. Krudy, THE WASHINGTON TIMES

BODY:

Accident victims and their lawyers descended on Capitol Hill on Wednesday, urging Congress and the Obama administration to guarantee their ability to seek medical reimbursement from Chrysler and General Motors. The companies' Chapter 11 filings treat victims as unsecured creditors who must wait in line to receive their payouts.

"Our tax dollars are now being used to take away our right for compensation," said Jeremy Warriner of Indianapolis, who lost both of his legs in 2005 after suffering severe burns when his Jeep Wrangler crashed. "I'm here to make certain this is fixed, and other Americans don't have to fight this fight."

Bankruptcy Judge Arthur Gonzalez overruled the objections of the Ad Hoc Committee of Consumer-Victims of Chrysler LLC on Monday when he approved the company's sale to Fiat. The group sought a fund or a retroactive insurance policy to cover the cost of lawsuits and medical treatment. A policy like that would cost $300 million a year, enough to cover the $250 million Chrysler paid last year in medical settlements, according to the group.

"This is an unprecedented use of the bankruptcy system, to not pass on successor liability [to Fiat]," said James Lowe, an attorney for the group. "This filing was obviously prepackaged, pre-engineered and backed by the White House. It went through that judge like butter."

Mr. Lowe said a rushed bankruptcy could cause a similar loss of rights in GM's case.

Clarence Ditlow, director of the Center for Auto Safety, said Fiat "was willing to assume the liabilities" of Chrysler.

"When [Chrysler and Fiat] met with the auto task force, that changed," he told reporters at a Capitol news briefing Wednesday. "The [task force] is guiding this bankruptcy, and it left the consumers out in the cold."

Victims and their families at the news conference said they were surprised to lose their rights in bankruptcy.

"I want to go to court and plead our case," said Bob Dinnigan, whose daughter Amanda suffered spinal cord injuries and is now a paraplegic after what Mr. Dinnigan described as a "seat-belt defect" injured her in a February 2007 crash.

A spokesman for Chrysler defended the decisions made by the bankruptcy court.

"The other option - liquidation - would have had far more dire consequences for employees, retirees, dealers, suppliers and creditors - including unsecured tort claimants," Chrysler spokesman Michael Palese said. "All these people are considered unsecured creditors, and they can bring their complaints to the bankruptcy process."

Some observers described Wednesday's media event, in the Rayburn House Office Building, as a publicity stunt staged by trial lawyers who wish to ignore bankruptcy law.

"The Obama administration is abusing bankruptcy process, but the bar on these legal claims is the same whatever type of bankruptcy you use," said Andrew Grossman, senior legal policy analyst for the Heritage Foundation, a conservative D.C. think tank. "That's the case in all bankruptcies: It cleanses the company of existing obligations."

"Those who in fact were injured and can make a plausible case should do so," said Darren McKinney, director of communications for the American Tort Reform Association, which seeks to reduce the number of lawsuits clogging the civil justice system. "But the bankruptcy judge takes that into account, and that's the way the cookie crumbles."

HEADLINE: Bondholders, unions object to GM asset sale

BYLINE: By BREE FOWLER, AP Auto Writer

DATELINE: NEW YORK

BODY:

A group of General Motors Corp. bondholders and some of the automaker's labor unions filed objections Friday to GM's plan to sell its assets to a new company that can emerge from bankruptcy protection.

Their opposition, along with additional objections filed by consumer groups, a handful of states and cities, and individual retirees, shareholders and bondholders, threatens to put the brakes on what has so far been a speedy trip through the Chapter 11 process.

The Unofficial Committee of Family & Dissident GM Bondholders claim they are being treated unfairly compared with the automaker's other stakeholders and deserve more than the 10 percent stake in the new company that they would receive if the sale goes through.

In its motion, the bondholders group accused GM and the U.S. government of unjustly speeding the case through the bankruptcy process at the expense of the bondholders and dividing the new company's assets "among a few select favored classes."

"GM's bondholders appear to be the most disfavored and discriminated class in the scheme," the group wrote, pointing to the larger 17.5 percent stake the United Auto Workers union is slated to get under the sale.

The group claims to represent about 1,500 bondholders with holdings worth more than $400 million. It's also asking the court to grant it permission to form a formal committee that would be able to negotiate with GM separately from larger bank and investment firm bondholders. A hearing on that request is

scheduled for Tuesday.

GM spokeswoman Renee Rashid-Merem declined to comment on the group's objection, saying that the company doesn't discuss specific claims or possible outcomes that will be determined by the bankruptcy court.

As part of GM's restructuring plan, the automaker wants to sell the bulk of its assets to a new company in which the U.S. government will take a 60 percent ownership stake. The Canadian government would get 12.5 percent of the new GM, with the UAW taking a 17.5 percent share and unsecured bondholders receiving 10 percent. Existing GM shareholders are expected to be wiped out.

The support of bondholders is seen as a key step toward moving the bankruptcy process along quickly and allowing GM to meet its goal of emerging from court oversight in 60 to 90 days.

The day before GM's June 1 bankruptcy protection filing, a group of ad hoc institutional bondholders said that 54 percent of the automaker's bondholders had agreed to exchange their shares of automaker's $27 billion in unsecured bonds for the 10 percent stake and warrants to purchase a greater stake in the new company later.

Chrysler LLC also tried to hammer out a deal in the days leading to its April 30 Chapter 11 filing, but it faced heavy resistance from debtholders representing a fraction of its $6.9 billion in secured debt.

That group objected to Chrysler's plan to sell the bulk of its assets to Italy's Fiat Group SpA, and took the case all the way to the U.S. Supreme Court before the sale ultimately went through. Attorneys for consumer groups and people with product liability lawsuits against Chrysler also appealed the sale to the high court.

Several of the same consumer groups are also objecting to the GM sale, because like in the case of Chrysler, the new company would not be responsible for product liability claims related to vehicles produced and sold by the old company.

Consumers would be left to file claims against the assets remaining after the sale, and it is unlikely that there will be anything left to pay those claims.

Meanwhile, the IUE-CWA, United Steelworkers and International Union of Operating Engineers claimed Friday that the GM sale will ultimately take away the health care benefits of their 50,000 retirees.

Before it filed for bankruptcy protection, GM reached a deal to give the UAW a stake in the new company to help fund retiree heath care benefits, but no such agreement has been reached with the other unions.

"If GM succeeds in leaving behind these union-represented retirees and dependents, they will be left with only an unsecured claim against old GM for more than $3 billion in retiree health care and hundreds of millions more for retirement life insurance," the unions said in their objection.

Rashid-Merem said discussions related to the non-UAW health care benefits are ongoing, and the company hopes to reach final decisions about their future soon.

A hearing on the sale of GM's assets to the new government-led entity is scheduled for June 30. The deadline to file objections with the court was 5 p.m. Friday.

HEADLINE: Missouri challenges GM bankruptcy plan

BYLINE: Kelsey Volkmann

BODY:

Missouri Attorney General Chris Koster is challenging General Motors Corp.'s bankruptcy plan, calling it unfair for both consumers and dealerships.

GM's plan would free the automaker of lemon law and product liability requirements, hurting customers who recently bought cars, Koster's office said Monday.

Attorneys general from Connecticut, Kentucky, Maryland, Minnesota, Missouri, Nebraska, North Dakota and Vermont filed an objection about the provision Friday in U.S. Bankruptcy Court in New York.

But Chrysler emerged from bankruptcy earlier this month free of the same liabilities for vehicle defects.

Koster said he also is concerned about how GM's bankruptcy plan treats automobile dealerships.

The current agreement allows the post-bankruptcy GM to decide unilaterally what contractual provisions to insert into dealership contracts and requires the dealerships to accept the contracts as written by the automaker.

The agreement takes away the dealerships' right to object, even if the contract does not give them the protections they have in state law, Koster's office said.

"The current agreement is terribly unfair to these dealership owners, many of whom have been loyal GM dealers for decades and have invested their life savings in these family businesses," Koster said in a statement. "It is unconscionable to force a dealership to waive its rights under Missouri law simply because GM has floundered."

Sam Barbee, president and chief executive officer of the Missouri Automobile Dealers Association, praised Koster's objections to GM's bankruptcy plan. "His efforts are focused not just on ensuring the legal rights of affected Missouri dealers and their businesses, but also protecting Missouri's consumers," he said in a statement.

HEADLINE: 37 states claim GM using court to skirt state laws;
AGs file objection in bankruptcy proceedings

BYLINE: By William Ehart, THE WASHINGTON TIMES

BODY:

General Motors came under attack Monday from another quarter when 37 states, including Maryland and Virginia, filed an objection in the automaker's bankruptcy proceedings.

The objection, filed by Nebraska Attorney General Jon Bruning on behalf of the other states, argues that the company should not be able to use bankruptcy court to skirt state laws, including franchise laws protecting dealers' relationship with the automaker.

The states find fault not just with GM's 1,350 dealer terminations, but with the terms it is forcing continuing dealers to accept.

"The attorneys general have grave concerns over what GM is doing," said Mr. Bruning, a Republican. "Ignoring state law is not only illegal, it's just plain bad business, and we're going to try and stop it."

The objection also covers such ground as environmental and personal-injury liability and consumer warranty claims.

Mr. Bruning is president of the National Association of Attorneys General.

GM is also under fire from its dealers, some of its bondholders and Congress, which has introduced legislation on the dealer issue.

The states filed objections in Chrysler's bankruptcy case without success, though Mr. Bruning said some of their concerns were addressed. The issue of continuing dealers was not a factor in Chrysler's proceedings.

"In the GM case, we also are objecting to the treatment of the dealers being retained," said Raquel Guillory, a spokeswoman for Maryland Attorney General Douglas F. Gansler, a Democrat. "They want them to sign away any rights they have under state law.

"We don't think they should ask them to do that, and we don't think that they should be allowed to ask the dealers to do that."

States involved in the objection also include California, Massachusetts, Michigan, New Jersey and Pennsylvania. Texas filed a similar objection on its own.

Mr. Bruning said later Monday that he and representatives from four other states had a "very productive" conference call with Matt Feldman, a bankruptcy lawyer for President Obama's auto task force.

"I said the closings need to be a transparent process, that if there are metrics, those metrics need to be clear," Mr. Bruning said. "He agreed that transparency would be useful in the process, and he wants to be more transparent going forward.

"He assured me that the government was not involved in choosing which of the dealers would be closed."

Mr. Bruning said there are examples of GM dealer closings in his state that put the fairness of the process in doubt.

"One dealer bought his dealership for $2 million four years ago. He has tripled his sales, and they are shutting him down and giving him $70,000," he said. "They relocate the franchise in the same town, and the new dealer doesn't have to pay anything."

HEADLINE: Corporate News: GM Agrees to Liability for Defects After Bankruptcy --- Auto Maker's Decision Comes Amid Pressure From States, Consumer Advocates in Advance of Tuesday Hearing

BYLINE: By Mike Spector

BODY:

General Motors Corp., under pressure from state attorneys general, agreed to assume legal responsibility for injuries drivers suffer from vehicle defects after the auto maker emerges from U.S. bankruptcy protection.

The concession means consumers who are injured in car accidents after GM emerges from bankruptcy protection will be able to bring product-liability claims against the government-owned auto maker.

Under GM's original bankruptcy plan, the auto maker planned to leave such liabilities behind after selling its "good" assets to a new GM owned by the government. That meant future car-accident victims who believe that faulty manufacturing by the old GM caused their injuries would be unable to sue the new GM. Instead, they would have been treated as unsecured creditors, fighting over the remains of GM's old bankruptcy estate.

GM's agreement to take responsibility for future product-liability claims, outlined in a court filing late Friday, represents a partial victory for more than a dozen state attorneys general and several consumer-advocacy groups. They had objected to GM's original plan to shed these liabilities, arguing it would

rob future car-accident victims of their legal rights because they would have no way of knowing they might be entitled to claims.

GM advisers, members of President Barack Obama's auto task force and the attorneys general negotiated for several days to address concerns about product-liability claims, among other issues. The talks heated up Friday ahead of GM's Tuesday court date, when it will ask a judge to approve the auto maker's plan to create a new GM by selling its desirable assets to the government.

An administration official recently said the government had become concerned about murky legal precedent surrounding the issue of future product-liability claims. The official said case law was "unclear and ambiguous on the issue of future product-liability claims" making it sensible "for both sides to settle."

GM maintained in court papers that it wasn't legally required to take on the claims, saying federal pre-emption meant the bankruptcy code overrode state laws governing the rights of car-accident victims to sue the new GM. It also noted that Chrysler Group LLC, which recently emerged from bankruptcy in a deal with Fiat SpA, wouldn't be responsible for such claims, after a bankruptcy judge dismissed objections to its plan.

GM said it ultimately agreed to take on future product-liability claims "to alleviate certain concerns that have been raised on behalf of consumers."

Car-accident victims with pending lawsuits, those who won damages against GM before it filed for bankruptcy and those who get in accidents while the auto maker is under bankruptcy protection will still be unable to bring claims against the new GM. They would remain with other unsecured creditors making claims against the old GM. Those victims are likely to recover little or nothing.

Attorneys general were expected to "keep pressing" for the new GM to take on those liabilities ahead of Tuesday's court hearing, a person involved in the discussions said. But the person said GM and the government were unlikely to capitulate further.

An ad hoc committee representing car-accident victims who have sued GM said there are more than 300 people with personal-injury claims exceeding $1.25 billion.

A committee representing GM and Chrysler car-accident victims called GM's move "a positive development."

The committee said new GM should take on claims from victims already hurt from defective GM vehicles. It said Chrysler also should take responsibility for future claims as well as those with pending lawsuits and successful cases brought against Chrysler before it filed for bankruptcy.

The committee said Chrysler's unwillingness to take on future claims as GM has represented "an unacceptable double standard."

A Chrysler spokeswoman declined to comment. A GM spokesman declined to comment beyond the auto maker's court filing.

Separately, talks were expected to continue over further compensation for dealers whose contracts were terminated as part of GM's bankruptcy. GM so far

has signaled it won't compensate dealers beyond programs the auto maker already outlined.

HEADLINE: Henderson: GM faces July 10 liquidation if asset sale is denied

BYLINE: Robert Snell

BODY:

The Detroit News

New York - General Motors Corp. will face liquidation July 10 unless a federal bankruptcy judge approves the sale of the automaker's best assets to a new company, President and CEO Fritz Henderson testified today.

The U.S. Treasury Department has told GM it will provide no additional financing if the assets are not sold by July 10, Henderson said during early testimony in U.S. Bankruptcy Court.

If that deadline is missed, "we will liquidate," Henderson testified.

After a late court start, Henderson was questioned by attorneys representing GM creditors such as asbestos claimants and their families, and dissident bondholders.

Henderson also said that once a new GM emerges from bankruptcy court, the company will not change its operating name: It will still be called General Motors.

Henderson's testimony could last several days.

Motorists injured in crashes and accidents involving General Motors Corp. vehicles protested outside U.S. Bankruptcy Court this morning ahead of this key hearing in the automaker's bankruptcy case.

The victims and their relatives, who have pending lawsuits against GM, likely will be left with no opportunity to collect damages if a judge, as expected,

allows the automaker to sell its best assets to a government-sponsored company. The judge's approval could come this week.

The protestors, along with a parade of union workers chanting "Save our benefits," added drama at the start of a historic day for GM, which is trying to emerge from bankruptcy court as a new, largely debt-free company.

"GM is trying to weasel out of its obligations," said Missouri resident Terry Cole, 53, who sued after a fiery accident involving his Cadillac Escalade two years ago left the wheelchair-bound man with third-degree burns. He sued, but the lawsuit was put on hold after GM filed Chapter 11 bankruptcy June 1.

The start of today's hearing was delayed by more than an hour, as technical issues were worked out to ensure that the proceedings could be broadcast to overflow rooms.

During the delay, Judge Robert Gerber also told participants - including Henderson - that the heat and rising temperatures in the courtroom didn't warrant strict adherence to formal protocol. Typically, men are not allowed to remove their suit coats in the courtroom, but that rule was waived today.

"Anything you want to do to be more comfortable," Gerber said.

Henderson then took off his jacket.

GM on Friday agreed to cover future liability claims no matter when the vehicles involved were built, but liability claims pending before GM filed for bankruptcy are still likely to be classified as bad assets and left behind in bankruptcy.

"They want to leave us in the gutter," Cole said. "I can't believe the president would let GM be this immoral."

Minutes later, dozens of retirees from Ohio marched past, carrying yellow signs reading "Save the Middle Class," in a show of protest against GM's attempt to terminate retiree health care benefits. The groups clogged the entrance to the U.S. Bankruptcy Court, where dozens of lawyers, reporters and the curious waited in line to witness GM's court hearing.

Outside the courthouse, it was a sea of sad tales, like Jones, and the surreal.

A busker dressed as a bright yellow ball milled about, advertising tonight's $94 million MegaMillions lottery.

U.S. Homeland Security agents and NYPD officers stood guard outside while subway riders spilled from a station just outside the courthouse entrance.

Nearby, newspaper peddlers rubbed shoulders with a guy hawking bootleg CDs alongside vendors selling farm-fresh green beans and beets, and pound cake.

GM is using Section 363 of the Chapter 11 bankruptcy code that allows for assets to be divided into the good ones that will be assumed by a new automaker and the bad that are deemed of little value and will remain in court to be liquidated.

HEADLINE: GM Says Approval of Restructuring Is Urgent

BYLINE: Tomoeh Murakami Tse; Washington Post Staff Writer

DATELINE: NEW YORK, July 1

BODY:

General Motors mounted a final push for its historic restructuring plan, arguing before a federal bankruptcy judge Wednesday that the U.S. government would cut off funding -- in effect risking liquidation of the automaker -- unless it won quick approval for the turnaround proposal.

The government has "no intention to further fund this company if the sale order is not entered by July 10," said Harry Wilson, a member of the Obama administration's auto task force who oversaw the government's day-to-day dealings with GM.

Wilson's testimony came during the second day of hearings on a request to approve the sale of the automaker's assets to a "new" GM that would be 61 percent owned by the U.S. government.

Wilson told the court that he expected an initial public offering of the new GM's stock in 2010. That would allow the Obama administration, which has said it

does not want to run private companies, to sell its GM stake.

In closing arguments, attorneys for GM, and the governments of the United States and Canada, which has also provided funding, urged Judge Robert Gerber to approve the sale quickly. Speed, they said, was of the essence, because GM's assets -- as well as consumer confidence -- are fragile.

Under the proposed agreement, the government can walk away if the judge does not approve the deal by July 10 or if the sale is not completed by Aug. 15.

According to a source familiar with the matter, GM and the Obama administration's auto task force are aiming to close the sale Tuesday. That would mean GM would emerge from bankruptcy 37 days after seeking court protection, or five days faster than Chrysler managed the same feat.

Unlike the Chrysler case, GM has faced no major threat to its sale, in part because the legal path for the type of speedy bankruptcy being sought had been tested by Chrysler.

Despite the more than 700 objections that have been filed by bondholders, unions and other GM stakeholders, no one has seriously questioned the fundamental merits of the government-orchestrated plan to revitalize the largest U.S. automaker, attorneys for GM and the federal government said during closing arguments. Under the proposed sale, GM would sell its profitable assets to the new GM. Left behind in bankruptcy with the "old" GM would be liabilities and assets that would be a drag on the new, leaner company, they said.

"No party has come forward with another source of financing or proposed higher value for assets to be sold," said bankruptcy lawyer Harvey Miller, who is representing GM.

The objectors, Miller said, largely want more money, or more time to gain negotiating leverage.

Aside from the precedent set by Chrysler, there are several factors contributing to GM's fast trip through bankruptcy proceedings so far.

Last week, the Treasury Department struck a deal with a number of state attorneys general who had objected to the sale of GM assets "free and clear" of liens, removing a potential hurdle.

Under the plan, the new GM would assume responsibility for claims arising from accidents that occur after the sales transaction, even if they involve GM vehicles made before the sale of the company. Those who suffered injuries before that would have to pursue the old GM, which means they would probably recover little, if any, money. Some of those claimants showed up in court in wheelchairs or with pictures of loved ones lost.

Under repeated questioning from attorneys for people who would be forced to seek claims against the old company, Wilson of the auto task force said GM's commercial viability was the sole factor the government used when deciding which liabilities the new automaker would assume.

"This entity that's going forward has a challenge before it," Miller told the court. "It has to materially increase sales. It has to lower its costs of operations. It cannot afford to take on unnecessary liabilities."

GM also faced no court objections from dealers it is seeking to shed. GM is allowing more time than Chrysler for the dealers to wind down their operations. In addition, the company has set up a system for dealers to appeal, Miller said. Sixty dealers have successfully won reversals, the company has said.

GM and the federal government had also secured agreements before the June 1 bankruptcy filing with more than half of GM's bondholders, a group that collectively holds $27 billion in unsecured loans. They are to receive a 10 percent stake in the new company, plus warrants for an additional 15 percent if certain conditions are met.

Michael Richman, an attorney for three dissenting bondholders, plans to offer his closing argument Thursday. GM's Miller challenged the bondholders' standing in court, arguing that those individuals hold a mere $2.3 million in bonds purchased for no more than $20 per $1,000 in face value.

The judge overruled Miller on the matter.

HEADLINE: GM ruling blow to crash victims;
BANKRUPTCY PLAN WOULD LIMIT EXISTING LIABILITY CLAIMS

BYLINE: Mark Glover mglover@sacbee.com

BODY:

The head of a Sacramento-based consumer advocacy group says a judge's ruling Sunday in the General Motors bankruptcy case is a stinging blow to those who have been injured by defective GM cars but is still a better deal for consumers than the plan for Chrysler.

"It's a partial victory for consumers," said Rosemary Shahan, president of the Sacramento-based nonprofit Consumers for Auto Reliability and Safety.

U.S. Bankruptcy Judge Robert Gerber late Sunday approved a crucial step of GM's reorganization plan, allowing the troubled automaker to sell its assets to a new company. Gerber said the deal was in the best interest of both the automaker and its creditors, who would get nothing if GM was forced to liquidate.

The plan would free the "new GM" from liability for people injured by a defective GM product before June 1. People injured before that date would have to seek compensation from the "old GM," a collection of assets left over from the sale.

Shahan, who has been at the center of numerous battles between the auto industry and consumers, said Gerber's ruling is "better than what we saw with Chrysler, because it (protects) consumers injured in the future, including those who are in (GM) vehicles produced prior to the bankruptcy."

Shahan said covering future claims is important because of the large volume of GM vehicles on the roadways, compared with Chrysler.

She said CARS would not appeal Sunday's ruling, "because we're focused on future claims."

However, she said the ruling's lack of consumer protection on existing claims against GM, which Shahan said is in the $1.25 billion range, was a major shortfall and something worth challenging by other groups.

"No, we don't accept that," Shahan said. "Consumers deserve those protections. The other thing I'm concerned about is I hope (GM) doesn't go bankrupt again."

Attorney Christine Spagnoli, president of the Sacramento-based Consumer Attorneys of California, said if the judge's ruling stands, consumers with existing claims are "pretty much going to be out of luck, pennies on the dollar."

A Chicago law firm representing people who have sued GM has announced plans to appeal the judge's ruling. The deadline to appeal the case to the U.S. District Court is noon Thursday, after which point Gerber's order takes effect and the sale is free to close.

Steve Jakubowski, who filed the appeal notice for the accident litigants, said his appeal would assert that the bankruptcy judge overstepped his authority by preventing victims from pursuing litigation under their state product liability laws.

He estimated that about 1,000 lawsuits could be pending with potential damages in the range of hundreds of millions of dollars.

Robert Dinnigan, whose 10-year-old daughter, Amanda, was paralyzed from the neck down in an accident aboard a 2003 GMC Envoy two years ago, said the court decision may have doomed the chances of a lawsuit he filed against GM after the February 2007 crash.

"Our only recourse is the old GM. There isn't going to be anything left even if we get a chance to go to court," said Dinnigan, who faces medical bills of around $500,000 per year. It cost about $100,000 to retrofit Dinnigan's Smithtown, N.Y., home to accommodate Amanda's needs, he said.

To date, the courts have sided primarily with the beleaguered carmakers rather than consumer groups.

In May, CARS and other advocacy groups asked a federal bankruptcy court to bar a restructured Chrysler from escaping liability in connection with past and future consumer claims of defective cars produced by the automaker.

Shahan said advocates were "giddy with hope" before their proposals ultimately were turned aside by the U.S. Supreme Court.

Steve Rattner, the head of the Obama administration's auto task force, said the government was "confident that (Gerber's) decision will stand and the sale of GM's assets to new GM will proceed expeditiously."

The bankruptcy judge's ruling followed a three-day hearing that wrapped up Thursday. GM and government officials had urged a quick approval of the sale, saying it was needed to keep the automaker from selling itself off piece by

piece. The Treasury Department, which is expected to provide about $50 billion to the automaker, has vowed to cut off funding to GM if the sale doesn't go through by Friday.

GM will leave bankruptcy court with significantly reduced debt and labor costs, as well as fewer dealerships and brands. But the automaker still faces a challenging U.S. auto market, where auto companies are on pace to sell around 9.7 million vehicles this year compared with sales of more than 16 million vehicles in 2007.

HEADLINE: Car accident plaintiffs scurry to file appeals vs. GM plan; They say bankruptcy strategy would free automaker from liability

BODY:

NEW YORK -- Groups representing plaintiffs in car accidents said Monday they would oppose General Motors' attempt to quickly exit bankruptcy protection, arguing hundreds of victims could be hurt by the government-led plan.

U.S. Judge Robert Gerber approved a crucial step of the plan late Sunday, allowing the troubled automaker to sell its assets to a new company and saying the deal was in the best interest of the automaker and its creditors, who would get nothing if the automaker was forced to liquidate.

The Detroit carmaker's Chapter 11 filing June 1 was the fourth-largest in U.S. history. Under Chapter 11 reorganization, a company can stay in operation under court protection while it sheds debts and unprofitable assets.

General Motors and the Obama administration praised the judge's decision, but opponents readied an appeal to the U.S. District Court in New York. A Chicago law firm representing people who have sued GM in several auto accident cases said they objected to parts of the plan that would free the "new GM" from liability for people injured by a defective GM product before June 1.

Steve Jakubowski, who filed the appeal notice for the accident litigants, said his appeal would assert the bankruptcy judge overstepped his authority by preventing victims from pursuing litigation under their state product liability laws.

He estimated about 1,000 lawsuits could be pending with potential damages in the range of hundreds of millions of dollars.

"It affects ... virtually every walk of life in this country," he said.

The deadline to appeal the case to the District Court is noon Thursday, after which point Gerber's order takes effect and the sale can close.

Steve Rattner, the head of the Obama administration's auto task force, said the government was "confident that (Gerber's) decision will stand and the sale of GM's assets to new GM will proceed expeditiously."

The bankruptcy judge's ruling followed a three-day hearing that wrapped up Thursday. GM and government officials urged a quick approval of the sale, saying it was needed to keep the automaker from selling itself off piece by piece. The Treasury Department, which is expected to provide about $50 billion in aid to the automaker, has vowed to cut off funding to GM if the sale doesn't go through by Friday.

"Now, it's our responsibility to fix this business and place the company on a clear path to success without delay," GM CEO Fritz Henderson said.

Litigants injured by a defective GM product before June 1 would have to seek compensation from the "old GM," the collection of assets leftover from the sale, where they would be less likely to receive compensation.

Robert Dinnigan, whose 10-year-old daughter Amanda was paralyzed from the neck down in an accident aboard a 2003 GMC Envoy two years ago, said the court decision may have doomed the chances of a lawsuit he filed against GM after the February 2007 crash.

"Our only recourse is the old GM. There isn't going to be anything left even if we get a chance to go to court," said Dinnigan, who faces medical bills of about $500,000 per year. It cost about $100,000 to retrofit Dinnigan's Smithtown, N.Y., home to accommodate Amanda's needs.

Last month, objectors to Chrysler LLC's sale plan failed to convince an appellate court and the Supreme Court to block the automaker's sale to Italy's Fiat in appeals that lasted about a week after the bankruptcy judge cleared the deal.

Jakubowski said the 2nd Circuit's ruling in the Chrysler case created "a big hurdle" that may require an appeal to the Supreme Court. "At the end of the day, I think we're going to need Supreme Court review of this issue," he said.

David Neier, a New York-based bankruptcy lawyer who has followed the auto industry cases, said it was possible the court could determine the amount of consumer liability the new GM should be responsible for.

The new GM has agreed to take on responsibility for future product liability claims involving vehicles made by the old company.

In related news, The Lansing State Journal today reported the new GM will retain two Lansing-area assembly plants and a parts warehouse but four other area GM properties, sites of former metal stamping, assembly and engine plants, will be sold.

INTRODUCTION

In June 2009, General Motors LLC ("**New GM**") was a newly formed entity, created by the U.S. Treasury, to purchase substantially all of the assets of Motors Liquidation Company, formerly known as General Motors Corporation ("**Old GM**"). Through a bankruptcy-approved sale process, New GM acquired Old GM's assets, free and clear of all liens, claims, liabilities and encumbrances of Old GM, other than liabilities expressly assumed by New GM under a June 26, 2009 Amended and Restated Master Sale and Purchase Agreement ("**MSPA**").[1] The Bankruptcy Court approved the asset purchase transaction and the terms of the MSPA in its "**Sale Order and Injunction**," dated July 5, 2009.[2]

This Motion to Enforce does not address any litigation involving an accident or incident causing personal injury, loss of life or property damage. Further, this Motion to Enforce does not involve whether New GM should repair the ignition switch defect. New GM has committed to replacing the defective ignition switch as a result of the recall being conducted under the supervision of the National Highway Traffic Safety Administration ("**NHTSA**"), the government agency with jurisdiction over recalls. Instead, this Motion to Enforce involves *only* litigation in which the plaintiffs seek economic losses against New GM relating to an Old GM vehicle or part, including, for example, for the claimed diminution in the vehicle's value, and for loss of use, alternative transportation, child care or lost wages for time spent in seeking prior repairs. Those types of claims were never assumed by New GM and are barred by the Court's Sale Order and Injunction.

---

1 *See* Exhibit A, MSPA. Exhibits to this Motion are contained in the Compendium of Exhibits, filed simultaneously herewith.

2 *See* Exhibit B, "Order (i) Authorizing Sale of Assets Pursuant to Amended and Restated Master Sale and Purchase Agreement with NGMCO, Inc., a U.S. Treasury-Sponsored Purchaser; (ii) Authorizing Assumption and Assignment of Certain Executory Contracts and Unexpired Leases in Connection with the Sale; and (iii) Granting Related Relief, entered by the Court on July 5, 2009."

Under the MSPA approved by the Court, New GM assumed only three expressly defined categories of liabilities for vehicles and parts sold by Old GM: (a) post-sale accidents involving Old GM vehicles causing personal injury, loss of life or property damage; (b) repairs provided for under the "Glove Box Warranty"— a specific written warranty, of limited duration, that only covers repairs and replacement of parts and (c) Lemon Law claims essentially tied to the failure to honor the Glove Box Warranty.[3] All other liabilities relating to vehicles and parts sold by Old GM were legacy liabilities that were retained by Old GM. *See* MSPA § 2.3(b).

New GM's assumption of just these limited categories of liabilities was based on the independent judgment of U.S. Treasury officials as to which liabilities, if paid, would best position New GM for a successful business turnaround. It was an absolute condition of New GM's purchase offer that New GM not take on all of Old GM's liabilities. That was the bargain struck by New GM and Old GM, and approved by the Court as being in the best interests of Old GM's bankruptcy estate and the public interest.

The primary objections to the sale were made by prepetition creditors who essentially wanted New GM to assume their liabilities. But the Court found that, if not for New GM's purchase offer, which provided for a meaningful distribution to prepetition unsecured creditors, Old GM would have liquidated and those creditors would have received nothing. Indeed, had the objectors been successful in opposing the Sale Order and Injunction, it would have been a pyrrhic victory, and disaster not only for them but for thousands of others who relied on the continued viability of the business being sold to New GM. Judge Lewis Kaplan aptly summarized the point: "No sentient American is unaware of the travails of the automobile

[3] *See also* MSPA § 1.1, at p. 11 (defining "Lemon Laws" as "a state statute requiring a vehicle manufacturer to provide a consumer remedy when such manufacturer is unable to conform a vehicle to the express written warranty after a reasonable number of attempts, as defined in the applicable statute.").

industry in general and of General Motors Corporation ([Old] GM) in particular. As the Bankruptcy Court found, [Old] GM will be forced to liquidate — with appalling consequences for its creditors, its employees, and our nation — unless the proposed sale of its core assets to a newly constituted purchaser is swiftly consummated." *In re Gen. Motors Corp.*, No. M 47 (LAK), 2009 WL 2033079, at *1 (S.D.N.Y. July 9, 2009).

One of the most vigorous groups that objected to Old GM's asset sale motion was a coalition representing Old GM vehicle owners. That group included State Attorneys General, individual accident victims, the Center for Auto Safety, Consumer Action and other consumer advocacy groups. The gist of their objections was: as long as New GM was assuming any of Old GM liabilities, then it should assume *all* vehicle owner liabilities as well. In particular, the objectors argued, unsuccessfully, that New GM should assume successor liability claims, all warranty claims (express and implied), economic damages claims based upon defects in Old GM vehicles and parts, and tort claims, in addition to the limited categories of claims that New GM already agreed to assume.

A critical element of protecting the integrity of the bankruptcy sale process, however, was to ensure that New GM, as the good faith purchaser for substantial value, received the benefit of its Court-approved bargain. This meant that New GM would be insulated from lawsuits by Old GM's creditors based on Old GM liabilities it did not assume. The MSPA and the Sale Order and Injunction were expressly intended to provide such protections. The Order thus enjoined such proceedings against New GM, and expressly reserved exclusive jurisdiction to this Court to ensure that the sale transaction it approved would not be undermined or collaterally attacked.

As this Court undoubtedly is aware, New GM recently sent notices to NHTSA concerning problems with ignition switches and ignition switch repairs in certain vehicles and parts manufactured by Old GM. Shortly after New GM issued the recall notice, numerous plaintiffs throughout the country sued New GM for claimed economic losses allegedly resulting from ignition switch defects in Old GM vehicles and parts — the very type of claims retained by Old GM for which New GM has no liability.

GM's Motion to Enforce thus presents a single, simple, overarching question for the Court to decide:

> **May New GM be sued in violation of this Court's Sale Order and Injunction for economic damages relating to vehicles and parts sold by Old GM?**

To ask the question is to answer it. In all of the cases based on the ignition switch defect that are the subject of this Motion to Enforce, plaintiffs assert claims for liabilities that, under the Sale Order and Injunction, were retained by Old GM. Plaintiffs apparently decided to not appear in this Court to challenge the Sale Order and Injunction — and with good reason: this Court has rejected prior challenges to that Order and it is now too late, as the Order has been affirmed by the appellate courts and has been a final Order for several years. Faced with a fundamental bar to many of their claims against New GM, the ignition switch plaintiffs simply have decided to ignore the Court's Sale Order and Injunction, and proceed as though it never existed. The law is settled, however, that persons subject to a Court's injunction do not have that option. As the United States Supreme Court explained in *Celotex Corp. v. Edwards*, the rule is "well-established" that "'persons subject to an injunctive order issued by a court with jurisdiction are expected to obey that decree until it is modified or reversed, even if they have proper grounds to object to the order.'" 514 U.S. 300, 306 (1995).

Based on this Court's prior proceedings and Orders, New GM has brought this Motion to Enforce to require the plaintiffs (collectively, the "**Plaintiffs**") in the actions listed in Schedule 1 attached hereto ("**Ignition Switch Actions**") to comply with the Court's Sale Order and Injunction by directing Plaintiffs to (a) cease and desist from further prosecuting against New GM claims that are barred by the Sale Order and Injunction, (b) dismiss with prejudice those void claims because they were brought by the Plaintiffs in violation of the Sale Order and Injunction, and (c) show cause whether they have any claims against New GM not otherwise already barred by the Sale Order and Injunction.[4]

BACKGROUND STATEMENT OF FACTS

1. In June 2009, in the midst of a national financial crisis, Old GM was insolvent with no alternative other than to seek bankruptcy protection to sell its assets. New GM, a newly created, government-sponsored entity, was the only viable purchaser, but it would not purchase Old GM's assets unless the sale was free and clear of all liens and claims (except for the claims it expressly agreed to assume). The Court approved this sale transaction, which set the framework for New GM to begin its business operations. During the last five years, New GM has operated its business based on the fundamental structure of the MSPA and Sale Order and Injunction — that its new business enterprise would not be burdened with liabilities retained by Old GM. The Ignition Switch Actions represent a collateral attack on this Court's Sale Order and Injunction. The Plaintiffs may not rewrite, years later, the Court-approved sale to a good faith purchaser, which was affirmed on appeal, and which has been the predicate ever since for literally millions of transactions between New GM and third parties.

[4] New GM reserves the right to supplement the list of Ignition Switch Actions contained in Schedule 1 in the event additional cases are brought against New GM after the filing of this Motion to Enforce that implicate similar provisions of the Sale Order and Injunction.

I. OLD GM FILED FOR PROTECTION UNDER THE BANKRUPTCY CODE IN JUNE 2009.

2. On June 1, 2009, Old GM and certain of its affiliates filed for protection under Chapter 11 of the Bankruptcy Code in the United States Bankruptcy Court for the Southern District of New York. Old GM simultaneously filed a motion seeking approval of the original version of the MSPA ("**Original MSPA**"), pursuant to which substantially all of Old GM's assets were to be sold to New GM ("**Sale Motion**"). The Original MSPA (like the MSPA) provided that New GM would assume only certain specifically identified liabilities (*i.e.*, the "**Assumed Liabilities**"); all other liabilities would be retained by Old GM (*i.e.*, the "**Retained Liabilities**").

A. Objectors to the Sale Motion Argued that New GM Should Assume Additional Liabilities of the Type Plaintiffs Now Assert in the Ignition Switch Actions.

3. Many objectors, including various State Attorneys General, certain individual accident victims ("**Product Liability Claimants**"), the Center for Auto Safety, Consumer Action, Consumers for Auto Reliability and Safety, National Association of Consumer Advocates, and Public Citizens (collectively, the "**Consumer Organizations**"), the Ad Hoc Committee of Consumer Victims, and the Official Committee of Unsecured Creditors challenged various provisions in the Original MSPA relating to actual and potential tort and contract claims held by Old GM vehicle owners. These objectors argued that the Court should not approve the Original MSPA unless New GM assumed additional Old GM liabilities (beyond the Glove Box Warranty), including those now being asserted by the Plaintiffs in the Ignition Switch Actions.

4. The Original MSPA was amended so that New GM would assume (for vehicles and parts sold by Old GM) Lemon Law claims, as well as personal injury, loss of life and

property damage claims for accidents taking place after the closing of the sale.[5] Product Liability Claimants and the Consumer Organizations were not satisfied and pressed their objections, arguing that New GM should assume broader warranty-related claims as well as successor liability claims.[6] Representatives from the U.S. Treasury declined to make further changes. *See* Hr'g Tr. 151:1 – 10, July 1, 2009. The Court found that New GM would not have consummated the "[t]ransaction (i) if the sale . . . was not free and clear of all liens, claims, encumbrances, and other interests . . . , including rights or claims based on any successor or transferee liability or (ii) if [New GM] would, or in the future could, be liable for any such liens, claims, encumbrances, and other interests, including rights or claims based on any successor or transferee liability (collectively, the 'Retained Liabilities'), other than, in each case, the Assumed Liabilities." *See* Sale Order and Injunction ¶ DD. The Court ultimately overruled the objectors on these issues. *See id.*, ¶ 2.

B. The Court Issued Its Sale Order And Injunction, And The Product Liability Claimants And Others Appealed Because They Objected to the Fact That New GM Was Not Assuming *Their* Liabilities

5. The Court held a three-day hearing on the Sale Motion, then issued its Sale Decision on July 5, 2009, finding that the only alternative to the immediate sale to New GM pursuant to the MSPA was a liquidation of Old GM, in which case unsecured creditors, such as the Plaintiffs now suing New GM, would receive nothing. *See In re Gen. Motors Corp.*, 407

---

[5] Assumption of the Glove Box Warranty was provided for in the Original MSPA.

[6] As noted in the Court's *Castillo* decision, numerous State Attorneys General also objected, seeking to expand the definition of New GM's Assumed Liabilities to include implied warranty claims. *Castillo v. Gen. Motors LLC (In re Motors Liquidation Co.),* Adv. Proc. No. 09–00509, 2012 WL 1339496, at *5 (Bankr. S.D.N.Y. April 17, 2012), *aff'd*, 500 B.R. 333 (S.D.N.Y. 2013).

B.R. 463, 474 (Bankr. S.D.N.Y. 2009). The Court analyzed the law of successor liability, devoted several pages of its opinion to this issue (*id.* at 499-506), and ruled that: "[T]he law in this Circuit and District is clear; the Court will permit (Old) GM's assets to pass to the purchaser (New GM) ***free and clear of successor liability claims***, and in that connection, will issue the requested findings and associated injunction." *Id*. at 505-06 (emphasis added).

6. In approving the sale, the Court specifically found that New GM was a "good faith purchaser, for sale-approval purposes, and also for the purpose of the protections section 363(m) provides." *Id.* at 494 (citing 11 U.S.C. § 363(m)). The Sale Order and Injunction expressly enjoined parties (like the Plaintiffs in the Ignition Switch Actions) from proceeding against New GM with respect to Retained Liabilities at any time in the future. *See* Sale Order and Injunction, ¶¶ 8, 47. This Court well understood the circumstances of accident victims (who are not the subject of this Motion to Enforce), and that if they could not look to New GM as an additional source of recovery, they would recover only modest amounts on their claims from Old GM. *See Gen. Motors*, 407 B.R. at 505. But the Court also recognized that if a Section 363 purchaser like New GM did not obtain protection against claims against Old GM, like successor liability claims, it would pay less for the assets because of the risks of known and unknown liabilities. *Id.* at 500; *see* 11 U.S.C. § 363. The Court further recognized that, under the law, a Section 363 purchaser could choose which liabilities of the debtors to assume, and not assume (*id.* at 496), and that the U.S. Treasury, on New GM's behalf, could rightfully condition its purchase offer on its refusal to assume the liabilities now being asserted by Plaintiffs in the Ignition Switch Actions.

7. Old GM, the proponent of the asset sale transaction, presented evidence that established that if the MSPA was not approved, Old GM would liquidate. If it did, objecting

creditors seeking incremental recoveries would end up with nothing, given that the book value of Old GM's global assets was $82 billion, the book value of its global liabilities was $172 billion (s*ee Gen. Motors*, 407 B.R. at 475), and that, in a liquidation, the value of Old GM's assets was probably less than 10% of stated book value (*id.*).

8. Objectors also presented evidence that the book value of certain contingent liabilities was about $934 million. *Id.* at 483. The Court noted that contingent liabilities were "difficult to quantify." *Id.* And, if the book value of all contingent liabilities was understated, that simply meant Old GM was even more insolvent — an even greater reason for New GM to decline to assume the liabilities retained by GM.

9. Whether Old GM presented evidence regarding a particular claim or specific defect was not germane to this Court's approval of the Sale Order and Injunction. Indeed, as the Court found in the Sale Order and Injunction, the proper analysis for approving the asset sale is whether Old GM obtained the "highest or best" available offer for the Purchased Assets. *See* Sale Order and Injunction, ¶ G. In contrast, the quantification of liabilities left behind with Old GM (*i.e.*, the Retained Liabilities) was pertinent to a different phase of the bankruptcy case (the claims process) which did not involve New GM.

10. New GM's refusal to assume a substantial portion of Old GM's liabilities was fundamental to the sale transaction and was widely disclosed by Old GM to all interested parties. Indeed, the Product Liability Claimants objected to and appealed the Sale Order and Injunction to specifically challenge this aspect of the sale. *See Callan v. Motors Liquidation Co. (In re Motors Liquidation Co.)*, 428 B.R. 43 (S.D.N.Y. 2010). Although on appeal, the District Court focused on the appellants' failure to seek a stay of the Sale and on equitable mootness principles, the District Court also found that this Court had jurisdiction to enjoin successor liability claims.

See id. at 59-60. Indeed, the Sale Order and Injunction was affirmed on appeal by two different District Court Judges. *Id.; Parker v. Motors Liquidation Co. (In re Motors Liquidation Co.),* 430 B.R. 65 (S.D.N.Y. 2010). There were no further appeals.

C. Upon Approval Of The MSPA And Issuance Of The Sale Order And Injunction, New GM Assumed Certain Narrowly Defined Liabilities, But The Bulk Of Old GM's Liabilities Remained With Old GM.

11. Under the MSPA and the Sale Order and Injunction, New GM became responsible for "Assumed Liabilities." *See* MSPA § 2.3(a). These included New GM's assumption of liability claims for post-sale accidents and Lemon Law claims, as well as the Glove Box Warranty—a written warranty of limited duration (typically three years or 36,000 miles, whichever comes first) provided at the time of sale, for repairs and replacement of parts. The Glove Box Warranty expressly excludes economic damages.[7] New GM assumed no other Old GM warranty obligations, express or implied:

> The Purchaser is assuming the obligations of the Sellers pursuant to and subject to conditions and limitations contained in their express written warranties, which were delivered in connection with the sale of vehicles and vehicle components prior to the Closing of the 363 Transaction and specifically identified as a "warranty." ***The Purchaser is not assuming responsibility for Liabilities contended to arise by virtue of other alleged warranties, including implied warranties and statements in materials such as, without limitation, individual customer communications, owner's manuals, advertisements, and other promotional materials, catalogs, and point of purchase materials.***

Sale Order and Injunction, ¶ 56 (emphasis added).

12. Independent of the Assumed Liabilities under the MSPA, New GM covenanted to perform Old GM's recall responsibilities under federal law. *See* MSPA ¶ 6.15(a). But there were no third party beneficiary rights granted under the MSPA with respect to that covenant (*see* MSPA § 9.11), and there is no private right of action for third parties to sue for a breach of a

[7] A copy of a typical Glove Box Warranty is annexed in the Compendium of Exhibits as Exhibit C.

recall obligation. *See Ayers v. Gen. Motors*, 234 F.3d 514, 522-24 (11th Cir. 2000); *Handy v. Gen. Motors Corp*., 518 F.2d 786, 787-88 (9th Cir 1975). Thus, New GM's recall covenant does not create a basis for the Plaintiffs to sue New GM for economic damages relating to a vehicle or part sold by Old GM.

13. All liabilities of Old GM not expressly defined as Assumed Liabilities constituted "Retained Liabilities" that remained an obligation of Old GM. MSPA §§ 2.3(a), 2.3(b). Retained Liabilities include economic damage claims relating to vehicles and parts manufactured by Old GM (the primary claims asserted by the Plaintiffs in the Ignition Switch Actions) such as:

(a) liabilities "arising out of, relating to or in connection with any (A) implied warranty or other implied obligation arising under statutory or common law without the necessity of an express warranty or (B) allegation, statement or writing by or attributable to Sellers." MSPA § 2.3(b)(xvi), *see also* MSPA ¶ 6.15(a). This would include liability based on state consumer statutes, except Lemon Law claims.

(b) All liabilities (other than Assumed Liabilities) of Old GM based upon contract, tort or any other basis. MSPA § 2.3(b)(xi). This covers claims based on negligence, concealment and fraud.

(c) All liabilities relating to vehicles and parts sold by Old GM with a design defect (*i.e*., the ignition switch).[8]

(d) All Liabilities based on the conduct of Old GM including any allegation, statement or writing attributable to Old GM. This covers fraudulent concealment type claims. *See* Sale Order and Injunction, ¶ 56.

(e) All claims based on the doctrine of "successor liability." *See*, *e.g.*, Sale Order and Injunction, ¶ 46.

D. The Court's Sale Order And Injunction Expressly Protects New GM From Litigation Over Retained Liabilities.

14. On July 10, 2009, the parties consummated the Sale. New GM acquired substantially all of the assets of Old GM free and clear of all liens, claims and encumbrances,

[8] *See* Sale Order and Injunction, ¶ AA; *see also Trusky v. Gen. Motors LLC (In re Motors Liquidation Co.),* Adv. Proc. No. 09–09803, 2013 WL 620281, at *2 (Bankr. S.D.N.Y. Feb. 19, 2013).

except for the narrowly defined Assumed Liabilities. In particular, paragraphs 46, 9 and 8 of the Sale Order and Injunction provide that New GM would have no responsibility for any liabilities (except for Assumed Liabilities) relating to the operation of Old GM's business, or the production of vehicles and parts before July 10, 2009:

> Except for the Assumed Liabilities expressly set forth in the [MSPA] . . . [New GM] . . . shall [not] have any liability for any claim that arose prior to the Closing Date, ***relates to the production of vehicles prior to the Closing Date***, or otherwise is assertable against [Old GM] . . . prior to the Closing Date . . . . Without limiting the foregoing, [New GM] shall not have any successor, transferee, derivative, or vicarious liabilities of any kind or character for any claims, including, but not limited to, under any theory of successor or transferee liability, de facto merger or continuity . . . and products . . . liability, ***whether known or unknown*** as of the Closing, now existing or hereafter arising, asserted or unasserted, fixed or contingent, liquidated or unliquidated.

Sale Order and Injunction, ¶ 46 (emphasis added); *see also id.*, ¶ 9(a) ("(i) no claims other than Assumed Liabilities, will be assertable against the Purchaser; (ii) the Purchased Assets [are] transferred to the Purchaser free and clear of all claims (other than Permitted Encumbrances) . . ."); and *id.*, ¶ 8 ("All persons and entities . . . holding claims against [Old GM] or the Purchased Assets arising under or out of, in connection with, or in any way relating to [Old GM], the Purchased Assets, ***the operation of the Purchased Assets*** prior to the Closing . . . are forever barred, estopped, and permanently enjoined . . . from asserting [such claims] against [New GM]. . . .") (emphasis added).

15. Anticipating the possibility that New GM might be wrongfully sued for Retained Liabilities, the Sale Order and Injunction contains an injunction permanently enjoining claimants from asserting claims of the type made in the Ignition Switch Actions:

> [A]ll persons and entities . . . holding liens, claims and encumbrances, and other interests of any kind or nature whatsoever, including rights or claims based on any successor or transferee liability, against [Old GM] or the Purchased Assets (whether legal or equitable, secured or unsecured, ***matured or unmatured***, ***contingent or noncontingent***, senior or subordinated), ***arising under or out of, in connection with, or in any way relating to [Old GM], the Purchased Assets, the***

> ***operation of the Purchased Assets prior to the Closing*** *. . .* ***are forever barred, estopped, and permanently enjoined . . . from asserting against [New GM] . . . such persons' or entities' liens, claims, encumbrances, and other interests, including rights or claims based on any successor or transferee liability***.

Sale Order and Injunction, ¶ 8 (emphasis added); *see also id.*, ¶ 47.

16. The Court specifically found that the provisions of the Sale Order and Injunction, as well as the MSPA, were binding on all creditors, ***known and unknown*** alike. *See* Sale Order and Injunction, ¶ 6 ("This [Sale] Order and M[S]PA "shall be binding in all respects upon the Debtors, their affiliates, ***all known and unknown creditors*** of, and holders of equity security interests in, any Debtor, including any holders of liens, claims, encumbrances, or other interests, including rights or claims based on any successor or transferee liability . . . ." (emphasis added)); *see also id.*, ¶ 46. In short, except for Assumed Liabilities, claims based on Old GM vehicles and parts remained the legal responsibility of Old GM, and are not the responsibility of New GM.

17. Finally, paragraph 71 of the Sale Order and Injunction makes this Court the gatekeeper to enforce its own Order. It provides for this Court's ***exclusive jurisdiction*** over matters and claims regarding the Sale, including jurisdiction to protect New GM against any Retained Liabilities of Old GM:

> ***This Court retains exclusive jurisdiction to enforce and implement the terms and provisions of this Order, the M[S]PA,*** all amendments thereto, any waivers and consents thereunder, and each of the agreements executed in connection therewith, . . ., in all respects, including, but not limited to, ***retaining jurisdiction to . . . (c) resolve any disputes arising under or related to the M[S]PA,*** except as otherwise provided therein, (d) ***interpret, implement, and enforce the provisions of this Order, (e) protect the Purchaser against any of the Retained Liabilities*** or the assertion of any lien, claim, encumbrance, or other interest, of any kind or nature whatsoever, against the Purchased Assets . . . . (Emphasis added.)

II. NEW GM HAS RECALLED CERTAIN VEHICLES AND IN RESPONSE, PLAINTIFFS HAVE FILED MULTIPLE IGNITION SWITCH ACTIONS.

18. Consistent with its obligations under the Sale Order and Injunction, New GM informed NHSTA on February 7, 2014, of a problem with ignition switches in certain vehicles and parts manufactured by Old GM, and that a recall would be conducted by New GM to replace the ignition switches (at no cost to the owners). (*See* Exhibit D.) A short time later, New GM sent NHTSA a second letter, dated February 24, 2014, which gave NHTSA additional information about the ignition switch and the defect, and what owners should do to ameliorate the problem while waiting for their vehicles to be repaired. (*See* Exhibit E.) GM sent recall notices approved by NHTSA to all vehicle owners subject to the recall (Exhibit F), which informed owners about how to safely drive the vehicles prior to the recall.

19. In March 2014, New GM sent another notice to NHTSA concerning a problem with Old GM ignition switches that may have been installed during repairs to certain Old GM and New GM vehicles, and that a recall would be conducted for those vehicles. (Exhibit G.) The notice contained the same safety instruction, and the same repair and reimbursement statements made by New GM for the earlier recall. New GM expects that only a small fraction of the cars being recalled for potentially faulty repairs actually have the defective ignition switch part in them at this time.[9]

20. The recall is underway and New GM already has started to replace the ignition switches. NHTSA, as the government agency responsible for overseeing the technical and highly-specialized domain of automotive safety defects and recalls, administers the rules concerning the content, timing, and means of delivering a recall notice to affected motorists and

[9] In April 2014, New GM sent a recall notice to NHTSA concerning an ignition cylinder lock issue that is different than the issue presented in the Ignition Switch Actions.

dealers. *See* 49 C.F.R. § 554.1; 49 U.S.C. § 30119. Other governmental agencies and the Congress are also examining various issues relating to the ignition switch recall.

21. Since the recall was announced, numerous Ignition Switch Actions have been filed against New GM based upon vehicles and parts sold by Old GM, and virtually each day, additional cases are being filed. (*See* Schedule 1, attached to this Motion.) These cases include over 50 class actions and two individual actions. The Ignition Switch Actions have been brought in over 20 federal courts and two state courts. Plaintiffs in some of those actions have filed motions with the Judicial Panel for Multidistrict Litigation ("**MDL**") to consolidate at least 19 actions for pre-trial purposes. It is expected that the number of Ignition Switch Actions identified to the MDL Panel for consolidation will grow.[10]

22. The Ignition Switch Actions assert claims that are barred by the MSPA and the Sale Order and Injunction. The primary claims at issue are for economic losses premised on alleged defects in vehicles and components designed and sold by Old GM, which are unrelated to any accident causing personal injury, loss of life or property damage. In their complaints, the Plaintiffs conflate Old GM and New GM, but the Sale Order and Injunction is clear that New GM is a separate entity from Old GM (*see* Sale Order and Injunction, ¶ R), and is not liable for successor liability claims (*see, e.g., id.*, ¶¶ 46, 47). To be sure, the causes of action asserted by the Plaintiffs in the Ignition Switch Actions are varied, and in some instances, because of the imprecise factual allegations, it is unclear whether there might be a viable cause of action (of the many) being asserted against New GM. What is clear, however, is that the crux of virtually all of Plaintiffs' claims is a problem in the ignition switch in vehicles and parts sold by Old GM.

[10] The MDL Panel has scheduled a hearing on the motions for May 29, 2014.

Claims based on that factual predicate are Retained Liabilities and may not be brought against New GM.[11]

23. This Court is uniquely situated to enforce its own Order and interpret what the parties to the MSPA agreed to, and what issues were raised and resolved in connection with the asset sale. This Motion to Enforce respectfully requests that the Court enforce the Sale Order and Injunction by directing Plaintiffs to cease and desist from pursuing claims for Retained Liabilities of Old GM against New GM, direct Plaintiffs to dismiss with prejudice those void claims that are barred by the Sale Order and Injunction, and direct Plaintiffs to show cause whether there is any claim that they may properly pursue against New GM that is not in violation of the Court's Sale Order and Injunction.

NEW GM'S ARGUMENT TO ENFORCE THE COURT'S SALE ORDER AND INJUNCTION

24. The Plaintiffs do not have the choice of simply ignoring the Court's Sale Order and Injunction. As the Supreme Court expressed in its *Celotex* decision: "If respondents believed the Section 105 Injunction was improper, they should have challenged it in the Bankruptcy Court, like other similarly situated bonded judgment creditors have done . . . Respondents chose not to pursue this course of action, but instead to collaterally attack the Bankruptcy Court's Section 105 Injunction in the federal courts in Texas. This they cannot be permitted to do without seriously undercutting the orderly process of the law." 514 U.S. at 313. These settled principles bind Plaintiffs in the Ignition Switch Actions. Those who purchased vehicles or parts from Old GM before the Sale, whether they were a known or unknown creditor

[11] The allegations and claims asserted in the Ignition Switch Actions include Retained Liabilities, such as implied warranty claims, successor liability claims, and miscellaneous tort and statutory claims premised in whole or in part on the alleged acts or omissions of Old GM. *See* para. 39 *infra*, and Schedule 2, attached to this Motion to Enforce, for a sample of such statements, allegations and/or causes of action.

at the time, are subject to the terms of the Court's Sale Order and Injunction, and are barred by this Court's Injunction from suing New GM on account of Old GM's Retained Liabilities.

I. THIS COURT'S SALE ORDER AND INJUNCTION SHOULD BE ENFORCED.

25. It is well settled that a "Bankruptcy Court plainly ha[s] jurisdiction to interpret and enforce its own prior orders." *See Travelers Indem. Co. v. Bailey*, 557 U.S. 137, 151 (2009); *In re Wilshire Courtyard*, 729 F.3d 1279, 1290 (9th Cir. 2013) (affirming bankruptcy court's post-confirmation jurisdiction to interpret and enforce its orders; "[i]nterpretation of the Plan and Confirmation Order is the only way for a court to determine the essential character of the negotiated Plan transactions in a way that reflects the deal the parties struck in chapter 11 proceedings"); *In re Cont'l Airlines, Inc.*, 236 B.R. 318, 326 (Bankr. D. Del. 1999) ("In the bankruptcy context, courts have specifically, and consistently, held that the bankruptcy court retains jurisdiction, *inter alia*, to enforce its confirmation order."); *U.S. Lines, Inc. v. GAC Marine Fuels, Ltd. (In re McClean Indus., Inc.)*, 68 B.R. 690, 695 (Bankr. S.D.N.Y. 1986) ("[a]ll courts, whether created pursuant to Article I or Article III, have inherent contempt power to enforce compliance with their lawful orders. The duty of any court to hear and resolve legal disputes carries with it the power to enforce the order."). In addition, Section 105(a) of the Bankruptcy Code provides that "[t]he court may issue any order, process, or judgment that is necessary or appropriate to carry out" the Bankruptcy Code's provisions, and this section "codif[ies] the bankruptcy court's inherent power to enforce its own orders." *Back v. LTV Corp. (In re Chateaugay Corp.)*, 213 B.R. 633, 640 (S.D.N.Y. 1997); 11 U.S.C. § 105(a).

26. Consistent with these authorities, this Court retained subject matter jurisdiction to enforce its Sale Order and Injunction. Indeed, this is not the first time that this Court has been asked to enforce its injunction against plaintiffs improperly seeking to sue New GM for Old GM's Retained Liabilities. *See In re Motors Liquidation Co.*, No. 09-50026 (REG), 2011 WL

6119664 (Bankr. S.D.N.Y. 2011) (ordering various plaintiffs to dismiss with prejudice civil actions in which they had brought claims against New GM that are barred by the Sale Order and Injunction); *Castillo v. Gen. Motors Co. (In re Motors Liquidation Co.)*, Adv. Proc. No. 09-00509 (Bankr. S.D.N.Y.), Hr'g Tr. 9:3-9:14, May 6, 2010 ("when you are looking for a declaratory judgment on an agreement that I approved [*i.e.*, the MSPA] that was affected by an order that I entered [*i.e.*, the Sale Order and Injunction], and with the issues permeated by bankruptcy law as they are, and which also raise issues as to one or more injunctions that I entered, how in the world would you have brought this lawsuit in Delaware Chancery Court. I'm not talking about getting in personam jurisdiction or whether you can get venue over a Delaware corporation in Delaware. I'm talking about what talks and walks and quacks like an intentional runaround of something that's properly on the watch of the U.S. Bankruptcy Court for the Southern District of New York."); *Castillo*, 2012 WL 1339496 (entering judgment in favor of New GM) (affirmed by 500 B.R. 333, 335 (S.D.N.Y. 2013)); *see also Trusky*, 2013 WL 620281, at *2 (finding that "claims for design defects [of 2007-2008 Chevrolet Impalas] may not be asserted against New GM and that "New GM is not liable for Old GM's conduct or alleged breaches of warranty").

27. Contrary to New GM's bargained for rights under the MSPA and the Court's Sale Order and Injunction, Plaintiffs in the Ignition Switch Actions are suing New GM for defects in Old GM vehicles and/or parts in courts across the country. Plaintiffs may not simply ignore the Court's injunction through these collateral attacks, especially when the Sale Order and Injunction is a final order no longer subject to appeal. *See Celotex Corp.*, 514 U.S. at 306, 313 ("'persons subject to an injunctive order issued by a court with jurisdiction are expected to obey that decree until it is modified or reversed'") (quoting *GTE Sylvania, Inc. v. Consumers Union of U. S., Inc.*,

445 U.S. 375, 386 (1980)); *Pratt v. Ventas, Inc.*, 365 F.3d 514, 520 (6th Cir. 2004) (applying doctrine to dismiss suits filed in violation of injunction in confirmation order entered by bankruptcy court); *In re McGhan*, 288 F.3d 1172, 1180-81 (9th Cir. 2002) (applying doctrine to enforce discharge order in favor of debtors and holding that only the bankruptcy court could grant relief from the order); *see also In re Gruntz*, 202 F.3d 1074, 1082 (9th Cir. 2000) (applying this doctrine in the context of an automatic stay entered by the bankruptcy court); *Spartan Mills v. Bank of Am. Ill.*, 112 F.3d 1251, 1255 (4th Cir. 1997) (applying doctrine to bankruptcy court order approving sales of assets free and clear of liens).

II. NEW GM CANNOT BE HELD LIABLE FOR OLD GM'S ALLEGED CONDUCT, EITHER DIRECTLY OR AS OLD GM'S ALLEGED "SUCCESSOR."

28. Plaintiffs acknowledge that most of the vehicles and parts at issue in the Ignition Switch Actions were manufactured, marketed, and sold by Old GM prior to the Sale Order and Injunction. *See, e.g.*, *Benton* Compl., ¶ 31 (discussing Plaintiff's alleged review of Old GM advertisements and purchase of a 2005 Chevy Cobalt); *Ponce* Compl., ¶ 35 ("In or about 2007 or early 2008, Plaintiff purchased a 2007 Chevrolet HHR in Southern California."); *Maciel* Compl., ¶¶ 21, 25, 33, 38, 46, 50, 58, 62 (alleging named plaintiffs own, among other vehicles, 2005, 2007 and 2008 Chevrolet Cobalts; a 2007 Chevrolet HHR; and 2003, 2004, 2006 Saturn Ions); *Jawad* Compl., ¶ 8; *Jones* Compl., preamble paragraph at p. 1; *Maciel* Compl., ¶¶ 1, 196-97.

29. Many of the complaints in the Ignition Switch Actions are similar, and while several reflect an effort to plead around the Court's Sale Order and Injunction, in fact they all generally assert the same underlying allegations made about Old GM: that it designed and sold vehicles with a defective ignition switch. (*See* Schedules 1 and 2 attached hereto.) And, they all seek to hold New GM liable for economic damages based on Old GM's conduct — claims that are prohibited by the Sale Order and Injunction. In short, New GM did not agree, and this Court

previously held, that New GM did not assume any economic injury liabilities based on design defects in any of Old GM's vehicles and parts. *See Trusky*, 2013 WL 620281, at *2.

30. Similarly, various Plaintiffs attempt to impose "successor" liability upon New GM, but New GM is not a successor to Old GM and did not assume any liabilities in connection with successor or transferee liability. This is expressly provided by the Court's Sale Order and Injunction:

> ***The Purchaser shall not be deemed***, as a result of any action taken in connection with the M[S]PA or any of the transactions or documents ancillary thereto or contemplated thereby or in connection with the acquisition of the Purchased Assets, ***to: (i) be a legal successor***, or otherwise be deemed a successor to the Debtors (other than with respect to any obligations arising under the Purchased Assets from and after the Closing); ***(ii) have, de facto or otherwise, merged with or into the Debtors; or (iii) be a mere continuation or substantial continuation of the Debtors or the enterprise of the Debtors***. Without limiting the foregoing, the Purchaser (New GM) shall not have any successor, transferee, derivative, or vicarious liabilities of any kind or character for any claims, including, but not limited to, under any theory of successor or transferee liability, de facto merger or continuity, environmental, labor and employment, and products or antitrust liability, whether known or unknown as of the Closing, now existing or hereafter arising, asserted, or unasserted, fixed or contingent, liquidated or unliquidated.

Sale Order and Injunction ¶ 46 (emphasis added); *see also id.*, ¶¶ AA, BB, DD, 6, 7, 8, 10 and 47; MSPA § 9.19.

31. Plaintiffs' express successor liability allegations are simply a violation of this Court's Sale Order and Injunction. But whether or not Plaintiffs' claims expressly allege successor liability, their claims against New GM based on Old GM's conduct are essentially successor liability claims cast in a different way and are precluded by that Order.

III. PLAINTIFFS' WARRANTY ASSERTIONS AND STATE LEMON LAW ALLEGATIONS DO NOT ENABLE THEM TO CIRCUMVENT THE COURT'S SALE ORDER AND INJUNCTION.

A. The Limited Glove Box Warranty is Not Applicable. But As a Practical Matter, Plaintiffs Already Are Obtaining Such Relief As Part of the Recall.

32. The Glove Box Warranty is for a limited duration and virtually all of the vehicles that are the subject of the Ignition Switch Actions were sold more than three years ago. Thus, the Glove Box Warranty has expired. In any event, the Glove Box Warranty provides only for repairs and replacement parts; the economic losses asserted by Plaintiffs in the Ignition Switch Actions are of an entirely different character and are expressly barred by the Glove Box Warranty. This distinction is not unique to Old GM's Sale. In the Chrysler bankruptcy case, the court likewise found that the assumed liabilities were limited to the standard limited warranty of repair issued in connection with sales of vehicles. *See, e.g., Burton v. Chrysler Group, LLC (In re Old Carco LLC)*, 492 B.R. 392, 404 (Bankr. S.D.N.Y. 2013) ("New Chrysler did agree to honor warranty claims — the Repair Warranty. None of the statements attributed to New Chrysler state or imply that it assumed liability to pay consequential or other damages based upon pre-existing defects in vehicles manufactured and sold by Old Carco.").[12] Finally, as a practical matter, New GM will make the necessary ignition switch repairs as part of the recall, which is all that the Glove Box Warranty would have required New GM to do anyway. Hence, any claims, if they existed, are moot.

33. Similarly, the MSPA and the Sale Order and Injunction provide that the implied warranty and other implied obligation claims asserted by Plaintiffs here are Retained Liabilities for which New GM is not responsible. *See* Sale Order and Injunction, ¶ 56 (New GM "is not

[12] *See also*; *Tulacro v. Chrysler Group LLC, et al.*, Adv. Proc. No. 11-09401 (Bankr. S.D.N.Y. Oct. 28, 2011) [Dkt. No. 18] (Exhibit H, Compendium of Exhibits); *Tatum v. Chrysler Group LLC*, Adv. Proc. No. 11-09411 (Bankr. S.D.N.Y. Feb. 15, 2012) [Dkt. No. 73] (Exhibit I, Compendium of Exhibits).

assuming responsibility for Liabilities contended to arise by virtue of other alleged warranties, ***including implied warranties*** and statements in materials such as, without limitation, individual customer communications, owner's manuals, advertisements, and other promotional materials, catalogs and point of purchase materials." (emphasis added)); *see also* MSPA § 2.3(b)(xvi) (one of the Retained Liabilities of Old GM was any liabilities "arising out of, related to or in connection with any (A) ***implied warranty*** or other ***implied obligation arising under statutory or common law*** without the necessity of an express warranty or (B) allegation, statement or writing by or attributable to [Old GM]." (emphasis added)).

34. In short, any breach of warranty claims Plaintiffs pursue relating to Old GM vehicles or parts (whether express or implied) improperly seek damages against New GM in violation of the Sale Order and Injunction.

B. Any Purported State Lemon Law Claims Are Premature At Best, And Cannot Be Adequately Pled.

35. In an apparent attempt to circumvent the Court's Sale Order and Injunction, certain of the Ignition Switch Actions purport to assert claims based on alleged violations of state Lemon Laws. But merely referencing state Lemon Laws is not sufficient. Plaintiffs must actually plead facts giving rise to Lemon Law liability as defined by the MSPA. Even a cursory review of the complaints reveals they have not done so.

36. New GM agreed to assume Old GM's "obligations under state 'lemon law' statutes, which require a manufacturer to provide a consumer remedy when the manufacturer is unable to conform the vehicle to the warranty, as defined in the applicable statute, after a ***reasonable number of attempts*** as further defined in the statute, and other related regulatory obligations under such statutes." Sale Order and Injunction, ¶ 56 (emphasis added). None of the Plaintiffs has alleged that New GM has not conformed the vehicle "after a reasonable number of

attempts." And not only is New GM in the process of conforming the vehicles (through the recall), but the statutes of limitations on Lemon Law claims as defined in the MSPA have expired.

37. As Judge Bernstein found in *Old Carco*, whether claimants can assert a valid Lemon Law claim "depends on the law that governs each plaintiff's claim and whether the plaintiff can plead facts that satisfy the requirements of the particular Lemon Law." 492 B.R. at 406. He further held as follows:

> With some variation, the party asserting a Lemon Law claim must typically plead and ultimately prove that (1) the vehicle does not conform to a warranty, (2) the nonconformity substantially impairs the use or value of the vehicle, and (3) the nonconformity continues to exist after a reasonable number of repair attempts.[13]

Judge Bernstein ultimately found that the claimants there did "not plead that any of the[m] brought their vehicles in for servicing, or that New Chrysler was unable to fix the problem after a reasonable number of attempts." *Id.* at 407. As was the case in *Old Carco*, none of the Plaintiffs here have pled that they brought their vehicles in to be fixed and, after a reasonable number of attempts, that they could not be fixed. They merely base their claims on the recall notices and letters to owners that New GM previously issued.

CONCLUSION

38. New GM was created to purchase the assets of Old GM pursuant to the MSPA. The limited category of liabilities it agreed to assume as part of the purchase was the product of a negotiated bargain, which was approved by this Court in July 2009. Plaintiffs in the Ignition Switch Actions have essentially ignored this; they wrongfully treat New GM and Old GM

[13] *Old Carco*, 492 B.R. at 406 (citing *Sipe v. Fleetwood Motor Homes of Penn., Inc.*, 574 F. Supp. 2d 1019, 1028 (D. Minn. 2008); *McLaughlin v. Chrysler Corp.*, 262 F. Supp. 2d 671, 679 (N.D.W. Va. 2002); *Baker v. Chrysler Corp.*, Civ. A. No. 91–7092, 1993 WL 18099, at *1–2 (E.D. Pa. Jan. 25, 1993); *Palmer v. Fleetwood Enterp., Inc.*, Nos. C040161, C040765, 2003 WL 21228864, at *4 (Cal. Ct. App. May 28, 2003); *Iams v. DaimlerChrysler Corp.*, 174 Ohio App. 3d 537, 883 N.E.2d 466, 470 (2007); *DiVigenze v. Chrysler Corp.*, 345 N.J. Super. 314, 785 A.2d 37, 48 (App. Div. 2001)).

interchangeability and are pursuing Old GM claims that they cannot lawfully pursue against New GM.

39. Schedule 2 provides examples of allegations that on their face relate to the Retained Liabilities asserted by the Plaintiffs in the Ignition Switch Actions. Set forth below are illustrations of what Plaintiffs have improperly alleged in such Actions.

(a) **Express Warranty, other than the Glove Box Warranty**. *See, e.g.*, Ashbridge Compl., ¶¶ 164-65 (New GM's "express warranties are written warranties within the meaning of the Magnuson-Moss Warranty Act" and New GM "breached these express . . . warranties as described in more detail above."); Maciel Compl., ¶¶ 212-13 (same) and fifth, eleventh, thirteenth, and fifteenth, seventeenth, and nineteenth causes of action assert claims for beach of express warranty); Balls Compl., ¶¶ 137-141 (alleging a breach of an express warranty); Cox Compl., ¶¶ 124-127 (the third cause action asserts a breach of express warranty).

(b) **Implied Warranty**. *See, e.g.*, DePalma Compl. (Count IV asserts a breach of implied warranty of merchantability); Jawad Compl. ¶¶ 41, 42 (alleging New GM "breached its implied warranty in the design of the Defective GM Vehicles" and that New GM "breached its implied warranty in the manufacturing of Defective GM Vehicles"); Ross Compl., ¶¶ 124-125 (asserting that "GM gave an implied warranty . . . namely, the implied warranty of merchantability" and that GM "breached the implied warranty of merchantability"); Maciel Compl., ¶¶ 274 (New GM "breached the implied warranty of merchantability by manufacturing and selling Defective Vehicles that are defective.").

(c) **Implied Obligations under Statute or Common Law**. *See, e.g.*, Heuler Compl. (asserting causes of action under state consumer protection statutes); Jones Compl. (asserting violations of numerous state consumer protection and unfair competition statutes); Benton Compl., (asserting violations of numerous state consumer protection and unfair competition statutes); Maciel Compl., (asserting violations of numerous state consumer protection and unfair competition statutes).

(d) **Successor Liability**. *See, e.g.*, Malaga Compl., ¶ 117 (alleging that New GM "has successor liability for GM Corporation's acts and omissions in the marketing and sale of the Defective Vehicles"); McConnell Compl., ¶ 12 (alleging that New GM "has successor liability for the deceptive and unfair acts and omissions of Old GM because GM has continued the business enterprise of Old GM with full knowledge of the ignition switch defect"); Phillip Compl., ¶ 50 (alleging that "[b]ecause GM acquired and operated Old GM and ran it as a continuing business enterprise, and because GM was aware from its inception of the ignition switch defects in the Defective Vehicles, GM is liable through successor liability . . ."); Maciel Compl. ¶¶ 70, 80 ("GM, which is the successor GM entity resulting from

the GM chapter 11 bankruptcy proceeding, contractually assumed liability [in the MSPA] for the claims in this lawsuit" and "is liable under theories of successor liability in addition to, or in the alternative to, other bases of liability.").

(e) **Design Defect**. *See, e.g.*, Brown Compl. (the fifth cause of action is premised on a design defect theory); Stafford Compl. (the fifth cause of action is premised on a design defect theory); Ramirez Compl., ¶ 150(f) (alleging that had "Plaintiff and other Class Members known that the Class Vehicles had the Ignition Switch Defect, they would not have purchased a Class Vehicle"); Maciel Compl. ¶¶ 213, 232, 257, 271, 282, 310, 336, 362 (first, third, fifth, sixth, seventh, ninth, twelfth, and fourteenth causes of action are premised on claim that "the Defective Vehicles share a common design defect").

(f) **Tort, Contract or Otherwise**. *See, e.g.*, Ashworth Compl., ¶¶ 519-523 (second cause of action asserts a claim based on, among other things, common law breach of contract); Ratzlaff Compl. (Count II asserts a fraudulent concealment theory); Shollenberger Compl., ¶ 69 (alleging that New GM "breached its contractual duties by, inter alia, selling Class Vehicles with a known safety defect and failing to timely recall them"); Maciel Compl. ¶¶ 218-28 (second cause of action asserts fraudulent concealment theory).

(g) **The Conduct of Old GM**. *See, e.g.*, Brandt Compl., ¶ 48 (asserting that "GM knew at the time they sold the vehicles to the Plaintiffs that such vehicles would be used for" a specific purpose); Darby Compl., ¶ 131 (alleging that "Defendants actively concealed and/or suppressed these material facts, in whole or in part, with the intent to induce Plaintiff and the Class to purchase Vehicles at a higher price for the vehicles, which did not match the vehicles' true value"); DeSutter Compl., ¶¶ 12, 67(e) (alleging that the Named Plaintiffs own a 2006 Saturn Ion or a 2006 Chevrolet Cobalt, that such vehicles were purchased new, and that "GM intended for Plaintiffs, Class Members, the public, and the government to rely on its misrepresentations and omissions, so that Plaintiffs and Class Members would purchase or lease the Defective Vehicles"); Maciel Compl. ¶ 155 (alleging that "neither old GM, nor GM disclosed its knowledge about the dangerous Key System defects to its customers."

40. New GM has no liability or responsibility for these Retained Liability claims and, under the Sale Order and Injunction, Plaintiffs in the Ignition Switch Actions are enjoined from bringing them against New GM. *See, e.g.,* Sale Order and Injunction, ¶¶ 8, 47. Accordingly, the Court should enforce the terms of its Sale Order and Injunction by ordering Plaintiffs to promptly dismiss all of their claims that violate the provisions of that Order, to cease and desist from all efforts to assert such claims against New GM that are void because of the Sale Order

and Injunction, and to show cause whether they have any claims that are not already barred by this Court's Sale Order and Injunction.

NOTICE AND NO PRIOR REQUESTS

41. Notice of this Motion to Enforce has been provided to (a) counsel for Plaintiffs in each of the Ignition Switch Actions, (b) counsel for Motors Liquidation Company General Unsecured Creditors Trust, and (c) the Office of the United States Trustee. New GM submits that such notice is sufficient and no other or further notice need be provided.

42. No prior request for the injunctive relief sought in this Motion has been made to this or any other Court.

WHEREFORE, New GM respectfully requests that this Court: (i) enter an order substantially in the form set forth as Exhibit "J" in the Compendium of Exhibits, granting the relief sought herein; and (ii) grant New GM such other and further relief as the Court may deem just and proper.

Dated: New York, New York
April 21, 2014

SCHEDULE "1"

CHART OF IGNITION SWITCH ACTIONS

	Name	Class Models	Plaintiffs' Model[1]	Court	Filing Date
1	Silvas[2]	N/A	2006 Chevy Cobalt	Southern District of Texas 2:14-cv-00089	2/27/2014[3]
2	Brandt (Class Action)[4]	Various models from 2003 to 2007	2007 Chevy Cobalt	Southern District of Texas 2:14-cv-00079	3/13/14
3	Woodward (Class Action)[5]	Various models from 2003 to 2007	2007 Chevy HHR	Northern District of Illinois 1:14-cv-01877	3/17/14
4	Jawad (Class Action)[6]	Various models from 2003 to 2007	2007 Chevy Cobalt	Eastern District of Michigan 4:14-cv-11151	3/19/14
5	McConnell (Class Action)[7]	Various models from 2003 to 2007	2007 Saturn Ion	Central District of California 8:14-cv-00424	3/19/14
6	Jones (Class Action)[8]	Various models from 2003 to 2007	2006 Saturn Ion	Eastern District of Michigan 4:14-cv-11197	3/21/14

[1] The purported class in an alleged class action should not be greater in scope than the claims related to the named representative plaintiffs. Except for a portion of four Ignition Switch Actions (Camlan, Maciel, McCarthy, and Saclo), the proposed representative plaintiffs all owned vehicles designed and manufactured by Old GM. In Camlan, Maciel, McCarthy, and Saclo, the overwhelming majority of the named plaintiffs claim to own vehicles designed and manufactured by Old GM.

[2] A copy of the complaint filed in the Silvas Action is contained in the Compendium of Exhibits as Exhibit "K."

[3] The Silvas Action was originally commenced in State Court in Texas. New GM removed the Silvas Action to the Southern District of Texas on March 21, 2014.

[4] A copy of the complaint filed in the Brandt Action is contained in the Compendium of Exhibits as Exhibit "L."

[5] A copy of the complaint filed in the Woodward Action is contained in the Compendium of Exhibits as Exhibit "M."

[6] A copy of the complaint filed in the Jawad Action is contained in the Compendium of Exhibits as Exhibit "N."

[7] A copy of the complaint filed in the McConnell Action is contained in the Compendium of Exhibits as Exhibit "O."

[8] A copy of the complaint filed in the Jones Action is contained in the Compendium of Exhibits as Exhibit "P."

7	Ponce (Class Action)[9]	Various models from 2003 to 2007	2007 Chevy HHR	Central District of California 2:14-cv-02161	3/21/14
8	Maciel (Class Action)[10]	Various models from 2003 to 2007, and 2005 to 2010 Chevrolet Cobalts	2010 Chevy Cobalt 2007 Chevy Cobalt 2008 Chevy Cobalt 2010 Chevy Cobalt 2005 Chevy Cobalt 2003 Saturn Ion 2010 Chevy Cobalt 2004 Saturn Ion 2007 Chevy HHR 2006 Saturn Ion	Northern District of California 4:14-cv-01339	3/24/14
9	Benton (Class Action)[11]	Various models from 2003 to 2007	2005 Chevy Cobalt	Central District of California 5:14-cv-00590	3/26/14
10	Kelley (Class Action)[12]	Various models from 2003 to 2007	2007 Chevy Cobalt 2007 Chevy HHR	Central District of California 8:14-cv-00465	3/26/14
11	Shollenberger (Class Action)[13]	Various models from 2003 to 2007	2006 Chevy Cobalt	Middle District of Pennsylvania 1:14-cv-00582	3/27/14
12	Ramirez (Class Action)[14]	Various models from 2003 to 2007	2007 Saturn Ion 2006 Saturn Ion 2007 Saturn Sky 2007 Saturn Sky 2007 Chevy Cobalt 2005 Chevy Cobalt 2005 Saturn Ion 2004 Saturn Ion 2006 Chevy Cobalt 2007 Chevy Cobalt 2007 Chevy Cobalt	Central District of California 2:14-cv-02344	3/27/14

[9] A copy of the complaint filed in the Ponce Action is contained in the Compendium of Exhibits as Exhibit "Q."
[10] A copy of the complaint filed in the Maciel Action is contained in the Compendium of Exhibits as Exhibit "R."

SCHEDULE "2"

SAMPLE ALLEGATIONS/CAUSES OF ACTION IN IGNITION SWITCH COMPLAINTS[1]

Lead Plaintiff	Allegations
Ashbridge	"In addition to the liability arising out of the statutory obligations assumed by GM, it is also subject to successor liability for the deceptive and unfair acts and omissions of Old GM because, as described below, Defendant has continued the business enterprise of Old GM with full knowledge of the ignition switch defects. In light of this continuing course of business, GM and Old GM together will be referred to as 'GM' hereafter, unless noted otherwise." Compl., ¶ 8. Alleging Named Plaintiffs own a 2003 Saturn ION, purchased in 2002, and that Plaintiff would not have purchased the vehicle if she knew about the defect. Compl., ¶ 15. "Because GM acquired and operated Old GM and ran it as a continuing business enterprise, and because GM was aware from its inception of the Vehicles' ignition switch defects, GM is liable through successor liability for the deceptive and unfair acts and omissions of Old GM, as alleged herein." Compl., ¶ 114. A few of the Class questions are: (i) "Whether Defendants were negligent in the design, manufacturing, and distribution of the Vehicles" (Compl., ¶ 119(c)); (ii) "Whether Defendants designed, advertised, marketed, distributed, leased, sold, or otherwise placed defectively designed Vehicles into the stream of commerce in the United States" (Compl., ¶ 119(d)); and (iii) "Whether Class members overpaid for their Vehicles as a result of the defects alleged herein (Compl., ¶ 119(h)). "Defendants actively concealed and/or suppressed these material facts, in whole or in part, with the intent to induce Plaintiff and the Class to purchase Vehicles at a higher price for the vehicles, which did not match the vehicles' true value." Compl., ¶ 131. "GM's express warranties are written warranties within the meaning of the Magnuson-Moss Warranty Act, 15 U.S.C. §2301(6). The Vehicles' implied warranties are covered under 15 U.S.C. §2301(7)." Compl., ¶ 164. "GM breached these express and implied warranties as described in more detail above . . . ." Compl., ¶ 165.
Ashworth	"Defendant, GM and its predecessor [footnote omitted], manufactured and distributed the [subject] vehicles [various models from 2003 through 2007] during the class period . . . ." Compl., ¶ 2.

[1] Due to space limitations and the ever increasing number of Ignition Switch Actions, this chart contains only a ***sample*** of statements, allegations and/or causes of action contained in certain complaints filed in the Ignition Switch Actions. This chart does ***not*** contain ***all*** statements, allegations and/or causes of action that New GM believes violates the provisions of the Court's Sale Order and Injunction and the MSPA.

	"GM and its predecessor marketed, warranted and sold the Class Models as safe and reliable." Compl., ¶ 3. There are well over 50 individuals identified in the Complaint, all of whom either purchased or leased a vehicle that was designed and manufactured by Old GM prior to the closing of the 363 Sale, and an allegation that they would not have purchased or leased the vehicle if they knew about the defect. "GM is liable through successor liability for the deceptive and unfair acts and omissions of GM Corp., as alleged in the Compliant." Compl., ¶ 469. Alleging that GM breached express warranties. Compl., ¶¶ 513-14. Asserting causes of Action for breach of contract and breach of warranty. Compl., ¶ 519-523.
Balls	Alleging Named Plaintiffs own a 2007 Saturn ION and that Plaintiffs would not have purchased the vehicle if they knew about the defect. Compl., ¶ 31. Discussing Old GM's promotion and marketing of vehicles. Compl., ¶¶ 80-87. Asserting that New GM "has successor liability for Old GM's acts and omissions in the marketing and sale of the Subject Vehicles . . . ." Compl., ¶ 96; *see also* Compl., ¶ 145. Asserting that the "sale of the Subject Vehicles to Plaintiffs and the Class occurred within 'trade and commerce' within the meaning of" the Michigan Consumer Protection Act ("**MCPA**"). Compl., ¶ 115. Alleging numerous violations of the MCPA by Old GM. *See* Compl., ¶¶ 119-123. Alleging a breach of an express warranty. *See* Compl., ¶¶ 137-141.
Bedford	"In addition to the liability arising out of the statutory obligations assumed by GM, GM also has successor liability for the deceptive and unfair acts and omissions of Old GM because GM has continued the business enterprise of Old GM with full knowledge of the ignition switch defects." Compl., 12; *see also* Compl., ¶¶ 34, 86, 97(j). Allegations that Old GM promoted the Defective Vehicles as safe and reliable, referring to advertisements from 2001, 2003 and 2006. Compl., ¶¶ 70-75. Count II concerns a "breach of implied warranty," and Count III concerns a "breach of implied warranty of fitness for a particular purpose."
Benton[2]	Asserting that if Plaintiff and others knew about the defect, she would not have purchased the vehicle (a 2005 Chevy Cobalt). Compl., ¶ 31. Asserting that "GM is liable through successor liability for deceptive and unfair acts and omissions of Old GM, as alleged in the Compliant." Compl., ¶ 35; *see also* Compl., ¶ 88. One of the Class questions is "[w]hether, and to what extent, GM has successor liability for the acts and omissions of Old GM." Compl., ¶ 100(i).

[2] The *Ratzlaff* Action was commenced by the same attorneys as those that commenced the *Benton* Action, and the complaints are very similar.

Brandt	Discussing "implied terms of sale" (Compl., ¶ 35) and referencing "advertising and marketing materials emphasizing the safety quality of its vehicles" (Compl., ¶ 36). Stating "GM knew at the time they sold the vehicles to the Plaintiffs that such vehicles would be used for" a specific purpose. Compl., ¶ 48.
Brown	"In addition to the liability arising out of the statutory obligations assumed by GM, GM also has successor liability for the deceptive and unfair acts and omissions of Old GM because GM has continued the business enterprise of Old GM with full knowledge of the ignition switch defects." Compl., ¶ 15; *see also* Compl., ¶ 104. Alleging that in connection with their purchase of a 2006 HHR, the Named Plaintiffs "saw advertisements for Old GM vehicles before they purchased the HHR. Plaintiffs do recall that safety and quality were consistent themes in the advertisements they saw. These representations about safety and quality influenced Plaintiffs' decision to purchase the HHR." Compl., ¶ 35. "Had Old GM and/or Defendant disclosed the ignition switch defects, Plaintiffs would not have purchased the HHR, or would have paid less than they did, and would not have retained the vehicle." Compl., ¶ 35. A Class question is "whether Defendant is liable for a design defect." Compl., ¶ 114(f). "At all times relevant, Defendant sold, marketed, advertised, distributed, and otherwise placed Defective Vehicles into the stream of commerce in an unlawful, unfair, fraudulent, and/or deceptive manner that was likely to deceive the public." Compl., ¶ 143. The Fifth Cause of Action is premised on a design defect theory. "As a direct and proximate result of Defendant's breach of written warranties, Plaintiffs and Class members sustained damages and other losses." Compl., ¶ 171. "Defendant breached the implied warranty of merchantability by manufacturing and selling Defective Vehicles containing the ignition switch defects." Compl., ¶ 182.
Burton	Alleging that the Named Plaintiff's 2007 Saturn Ion was "manufactured, sold, distributed, advertised, marketed, and warranted by GM." Compl., ¶ 17. "At all times relevant herein, General Motors Corporation and its successor in interest General Motors LLC were engaged in the business of designing, manufacturing, constructing, assembling, marketing, warranting, distributing, selling, leasing, and servicing automobiles, including the Class Vehicles, and other motor vehicles and motor vehicle components throughout the United States." Compl., ¶ 22. Two Class questions are: (i) "whether the defective nature of the Class Vehicles constitutes a material fact reasonable consumers would have considered in deciding whether to purchase a GM Vehicle" (Compl., ¶ 106 (c)), (ii) "whether the Class Vehicles were unfit for the ordinary purposes for which they were used, in violation of the implied warranty of merchantability" (Compl., ¶ 106 (j)).

	"In furtherance of its scheme to defraud, GM's February 28, 2005 Service Bulletin was issued in furtherance of its scheme to defraud." Compl., ¶ 123. "In June of 2005, GM issued a public statement through the mail and wires in furtherance of its scheme to defraud." Compl., ¶ 124. "Defendants intended that Plaintiff and Class Members rely on their misrepresentations and omissions, so that Plaintiff and other Class Members would purchase or lease the Class Vehicles." Compl., ¶ 140(h). "Defendants actively concealed and/or suppressed these material facts, in whole or in part, with the intent to induce Plaintiff and Class Members to purchase Class Vehicles at a higher price for the vehicles, which did not match the vehicles' true value." Compl., ¶ 149. "GM breached its implied warranty of merchantability to Plaintiff and the Nationwide, Multi-State and Oklahoma Class because the Class Vehicles were not fit for the ordinary purposes for which they are used - a safe passenger motor vehicle." Compl., ¶ 164. The Fifth Claim for Relief is based on a "breach of implied warranty."
Camlan	Class questions include: (i) "whether and to what extent GM breached its express warranties relating to the safety and quality of its vehicles" (Compl., ¶ 32(b)), and (ii) "whether and to what extent GM breached any implied warranties relating to the safety and quality of its vehicles (Compl., ¶ 32(c)). Allegations that New GM is liable to Plaintiffs on a successor liability theory. Compl., ¶¶ 121-125. Allegation that New GM's "business practices include, without limitation: (a) Selling to Plaintiffs and the Class vehicles which contain defects or design flaws which make them inherently more dangerous than other similar vehicles . . . ." Compl., ¶ 135(a). "Defendant engaged in the advertising and the failure to disclose the defects and design flaws in its products herein alleged with the intent to induce Plaintiffs and the Class to purchase Defendant's products." Compl., ¶ 147.
Coleman	"In addition to the liability arising out of the statutory obligations assumed by GM, GM also has successor liability for the deceptive and unfair acts and omissions of Old GM because GM has continued the business enterprise of Old GM with full knowledge of the ignition switch defects." Compl., ¶ 12; *see also* Compl., ¶84. Alleging that in connection with her purchase of a 2007 Pontiac G5, the Named Plaintiff "saw advertisements for Old GM vehicles before she purchased the G5, and, although she does recall the specifics of the advertisements, she does recall that safety and quality were consistent themes across the advertisements she saw. These representations about safety and quality influenced Plaintiff's decision to purchase the G5.." Compl., ¶ 30. "Had Old GM disclosed the ignition switch defects, Plaintiff would not have purchased her G5, or would have paid less than she did, and would not have retained the vehicle."

	Compl., ¶ 30. Allegations that Old GM promoted the Defective Vehicles as safe and reliable, referring to advertisements from 2001, 2003 and 2006. Compl., ¶¶ 70-75. Three Class questions are (i) "Whether GM's practices in connection with the promotion, marketing, advertising, packaging, labeling and sale of the Defective Vehicles unjustly enriched GM at the expense of, and to the detriment of, Plaintiffs and the other members of the Class" (Compl., ¶ 94(i)); (ii) "Whether GM breached implied warranties in its sale and lease of the Defective Vehicles, thereby causing harm to Plaintiffs and the other members of the Class" (Compl., ¶ 94(j)); and (iii) "Whether, and to what extent, GM has successor liability for the acts and omissions of Old GM" (Compl., ¶ 94(m)). "GM's express warranties are written warranties within the meaning of the Magnuson-Moss Warranty Act, 15 U.S.C. § 2301(6). The Defective Vehicles' implied warranties are covered under 15 U.S.C. § 2301(7). MG [sic] breached these warranties as described in more detail above." Compl., ¶¶ 107-108. "The sale of the Defective Vehicles to Plaintiffs and the Class occurred within 'trade and commerce' within the meaning of" the MCPA. Compl., ¶ 116. "While Old GM knew of the ignition switch defects by 2001, it continued to design, manufacture, and market the Defective Vehicles until 2007." Compl., ¶ 123. Count IV concerns a breach of implied warranty.
Cox	Old GM and New GM "are the alter-egos of one another and [Old GM] exercised decision-making and control over [New GM] with respect to the conduct giving rise to Plaintiffs' claims." Compl., ¶ 6. "Because GM is a mere continuation of Old GM, GM has successor liability for the conduct of Old GM as alleged herein." Compl., 15. A Class question is "whether GM has successor liability for the acts of Old GM." Compl., ¶ 92(p). A cause of action asserts a breach of express warranty. Compl., ¶¶124-127
Darby	Alleging Named Plaintiff owns a 2006 Chevy HHR and that Plaintiff would not have purchased the vehicle if he knew about the defect. Compl., ¶ 15. "Because GM acquired and operated Old GM and ran it as a continuing business enterprise, and because GM was aware from its inception of the Vehicles' ignition switch defects, GM is liable through successor liability for deceptive and unfair acts and omissions of Old GM, as alleged herein." Compl., ¶ 114. Class questions include (i) "[w]hether GM was negligent in the design, manufacturing, and distribution of the Vehicles" (Compl., ¶ 119(c)); and (ii) "[w]hether GM designed, advertised, marketed, distributed, leased, sold, or otherwise placed defectively designed Vehicles into the stream of commerce in the United States" (Compl., ¶ 119(d)). "Defendants actively concealed and/or suppressed these material facts, in whole or in

	part, with the intend to induce Plaintiff and the Class to purchase Vehicles at a higher price for the vehicles, which did not match the vehicles' true value." Compl., ¶ 131
DeLuco	The Named Plaintiff purchased a new 2006 Saturn Ion in 2006 after seeing advertisements for G.M. vehicles . . . and, although she does not recall the specifics of the advertisements, she recalls that safety and quality were consistent themes across the advertisements she saw before making the purchase of her 2006 Saturn Ion. She also recalls seeing promotional materials about the Saturn at the dealership where she purchased her 2006 Saturn Ion and spoke with Saturn salespeople who told her that the Saturn Ion was one of the safest vehicles in its class." Compl., ¶¶ 11-12. "Because G.M. acquired and operated Old G.M. and ran it as a continuing business enterprise, and because G.M. was aware from its inception of the ignition switch defects in the Defective Vehicles G.M. is liable through successor liability for the deceptive and unfair acts and omissions of Old G.M., as alleged in this Complaint." Compl., ¶ 17; *see also* Compl., ¶¶ 56, 80, 89, 107, 124. Two Class questions are: (i) "Whether G.M. and its predecessor breached its applicable warranties" and (ii) "Whether G.M. bears successor liability for Defective Vehicles that Class Members purchased or leased before July 10, 2009, the date G.M. acquired substantially all of the assets of its predecessor." Compl., ¶ 65. "As more fully described above, G.M. breached its express and implied warranties to Plaintiff and the members of the Class . . . ." Compl., ¶ 78. "Old G.M. and G.M. caused to be made or disseminated in New York, through advertising, marketing and other publications, statements regarding the quality, safety and reliability of the Defective Vehicles that were untrue or misleading." Compl., ¶ 120
DePalma	"This case arises from GM's breach of express warranties, as well as its obligations and duties, including GM's failure to disclose . . . ." Compl., ¶ 8. "Plaintiffs and the Class were also damaged by the acts and omissions of Old GM for which GM is liable through successor liability because the defective Vehicles they purchased are worth less than they would have been without the ignition switch defect." Compl., ¶ 19. Allegations that Old GM promoted the Defective Vehicles as safe and reliable, referring to advertisements from 2001, 2003 and 2006. Compl., ¶¶ 74-77. Allegations that "GM has successor liability for Old GM's acts and omissions in the marketing and sale of" the vehicles "because it continued the business enterprise of Old GM . . . ." Compl., ¶ 91. "Concealment of the known ignition switch defects at the time of sale denied the Class an opportunity to refuse delivery of the Defective Vehicles." Compl., ¶ 123. Count IV asserts a breach of implied warranty of merchantability, and Counts VI and VII assert breaches of express warranty.

DeSutter	Alleging Named Plaintiffs own a 2006 Saturn Ion or a 2006 Chevrolet Cobalt, each purchased new, and that Plaintiffs would not have purchased the vehicles if he knew about the defect. Compl., ¶ 12. GM is also liable through successor liability for the deceptive and unfair acts and omissions of Old GM, as alleged in this Complaint, because GM acquired and operated Old GM and ran it as a continuing business enterprise, utilizing substantially the same brand names, logos, plants, offices, leadership, personnel, engineers, and employees, GM was aware from its inception of the Ignition Switch Defect and Power Steering Defect in the Defective Vehicles, and GM and Old GM concealed both Defects from the public, regulators, and the bankruptcy court. Because GM is liable for the wrongful conduct of Old GM, there is no need to distinguish between the conduct of Old GM and GM, and the complaint will hereinafter simply refer to GM as the corporate actor when describing the relevant facts." Compl., ¶ 16. "GM intended for Plaintiffs, Class Members, the public, and the government to rely on its misrepresentations and omissions, so that Plaintiffs and Class Members would purchase or lease the Defective Vehicles." Compl., ¶ 67(e); *see also* Compl., ¶ 89(e). "GM actively concealed and/or suppressed these material facts, in whole or in part, to induce Plaintiffs and Class Members to purchase or lease the Defective Vehicles at high prices, and to protect its profits and avoid a costly recall, and it did so at the expense of Plaintiffs and the Class." Compl., ¶ 78.
Deushane	"Through advertising, marketing, and other publications, GM caused statements to be disseminated that were untrue or misleading . . . ." Compl., ¶ 31. "Had Plaintiff and the other California Sub Class members known this, they would not have purchased or leased their Defective Cobalts and/or paid as much for them." Compl., ¶ 34. "GM made express warranties to Plaintiff" (Compl., ¶ 44), the "Defective Cobalts are covered by GM's express warranties" (Compl., ¶ 46), and "GM breach[ed] its express warranties . . . . (Compl., ¶ 47). Asserting that "GM is a 'manufacturer' of the Defective Vehicles" (Compl., ¶ 54) and that "GM impliedly warranted" to Plaintiff and the Class that the vehicles were "merchantable" (Compl., ¶ 55).
Deighan	"In addition to the liability arising out of the statutory obligations assumed by GM, it is also subject to successor liability for the deceptive and unfair acts and omissions of Old GM because, as described below, Defendant has continued the business enterprise of Old GM with full knowledge of the ignition switch defects. In light of this continuing course of business, GM and Old GM together will be referred to as 'GM' hereafter, unless noted otherwise." Compl., ¶ 8. "Because GM acquired and operated Old GM and ran it as a continuing business enterprise, and because GM was aware from its inception of the Vehicles' ignition switch defects, GM is liable through successor liability for the deceptive and unfair acts and

	omissions of Old GM, as alleged herein." Compl., ¶ 114.
Forbes	"Plaintiff and the Class either paid more for the Defective Vehicles than they would have had they known of the ignition switch defects, or they would not have purchased the Defective Vehicles at all had they known of the defects." Compl., ¶ 34. "GM has successor liability for Old GM's acts and omissions in the marketing and sale of the Defective Vehicles because it continued the business enterprise of Old GM, for the following reasons . . ." Compl., ¶ 36.
Foster	Alleging that the Named Plaintiff's 2006 Chevrolet Cobalt was "manufactured, sold, distributed, advertised, marketed, and warranted by GM." Compl., ¶ 17. "At all times relevant herein, General Motors Corporation and its successor in interest General Motors LLC were engaged in the business of designing, manufacturing, constructing, assembling, marketing, warranting, distributing, selling, leasing, and servicing automobiles, including the Class Vehicles, and other motor vehicles and motor vehicle components throughout the United States." Compl., ¶ 22. Two Class questions are: (i) "whether the defective nature of the Class Vehicles constitutes a material fact reasonable consumers would have considered in deciding whether to purchase a GM Vehicle" (Compl., ¶ 104 (c)), (ii) "whether the Class Vehicles were fit for their ordinary and intended use, in violation of the implied warranty of merchantability" (Compl., ¶ 106 (h)). "Defendants intended that Plaintiff and Class Members rely on their misrepresentations and omissions, so that Plaintiff and other Class Members would purchase or lease the Class Vehicles." Compl., ¶ 116(h). "GM is liable to Plaintiff and the Nationwide Class pursuant to 15 U.S.C. § 2310(d)(1), because it breached the implied warranty of merchantability." Compl., ¶ 127. "GM breached its implied warranty of merchantability to Plaintiff and the Nationwide, Class because the Class Vehicles were not fit for the ordinary purposes for which they are used – namely a safe passenger motor vehicle." Compl., ¶ 128. The Third Claim for Relief is based on a "breach of implied warranties" and the Sixth Claim for Relief is based on a "tortious breach of warranty." "Defendants actively concealed and/or suppressed these material facts, in whole or in part, with the intent to induce Plaintiff and Class Members to purchase Class Vehicles at a higher price for the vehicles, which did not match the vehicles' true value." Compl., ¶ 153. "Defendants violated the CSPA when they represented, through advertising, warranties, and other express representations, that the Class Vehicles had characteristics and benefits that they did not actually have." Compl., ¶ 163. "Defendants failed to use appropriate design, engineering, and parts in manufacturing the Class Vehicles, and in other respects, Defendants breached its duties by being wantonly reckless, careless, and negligent." Compl., ¶ 185.

Groman	Referencing a 2008 Chevrolet HHR, "Groman saw advertisements for G .M. vehicles before he purchased the car and . . . safety and quality were consistent themes across the advertisements . . . . These representations about safety and quality influenced Groman's decision to purchase the 2008 Chevrolet HHR. . . . Had G.M. disclosed the ignition switch defects , he would not have purchased the vehicle and would not have paid as much for it." Compl., ¶ 12. "G.M. actively concealed and/or suppressed these material facts, in whole or in part, with the intent to induce Plaintiff and the other members of the Class to purchase Defective Vehicles at a higher price for the Defective Vehicles. Compl., ¶ 98. "Plaintiff and the other members of the Class reasonably relied on G.M.'s statements in its marketing and advertising that the Defective Vehicles were safe, and would not have purchased or leased the Defective Vehicles had they known of the defects in the ignition switches, or would not have paid as much as they did." Compl., ¶ 100, 129. "Old G.M. and G.M. caused to be made or disseminated . . . through advertising, marketing and other publications, statements regarding the quality, safety and reliability of the Defective Vehicles that were untrue or misleading." Compl., ¶ 124. With respect to the breach of express warranty of merchantability count, "at the time that Old G.M. and G.M. warranted, sold and leased the Defective Vehicles, it knew that the Defective Vehicles did not conform to the warranties and were inherently defective, and wrongfully and fraudulently misrepresented and/or concealed material facts regarding the Defective Vehicles." Compl., ¶ 142. "G.M. has successor liability for Old G.M.'s acts and omissions in the marketing and sale of the Defective Vehicles during the Class Period because G.M. has continued the business enterprise of Old G.M., for the following reasons . . ." Compl., ¶ 60.
Grumet	Referencing the Saturn Ion and a 2007 advertisement that the car was "safe and sound", "G.M. knew this flaw existed from the moment the car hit dealers' floors . . . ." Compl., ¶ 45. G.M. breached its express and implied warranties . . . by, among other things: selling and/or leasing the Defective Vehicles in an unmerchantable condition; selling and/or leasing the Defective Vehicles when they were not fit for the ordinary purposes for which vehicles are used, and which were not fully operational, safe or reliable." Compl., ¶ 88. "Plaintiffs and the other members of the Class reasonably relied on G.M.'s statements in its marketing and advertising that the Defective Vehicles were safe, and would not have purchased or leased the Defective Vehicles had they known of the defects in the ignition switches, or would not have paid as much as they did." Compl., ¶ 106, 139. Referencing the express warranty of merchantability, "[t]he Defective Vehicles are covered by Old G.M.'s and G.M.'s express warranties." Compl., ¶ 152.

	"Old G.M. and G.M. breached the implied warranty of merchantability by manufacturing and selling the Defective Vehicles with defective ignition switch systems." Compl., ¶ 168. "G.M. has successor liability for Old G.M.'s acts and omissions in the marketing and sale of the Defective Vehicles during the Class Period because G.M. has continued the business enterprise of Old G.M., for the following reasons . . ." Compl., ¶ 65.
Hamid	"Had Plaintiff known of the ignition problem, he would not have purchased his Cobalt or, at a minimum, would have paid less than he did." Compl., ¶ 10. With respect to consumer protection act count, "GM had a statutory duty to refrain from misleading and confusing unfair or deceptive acts in the manufacture, marketing and/or sale or leasing of the recalled vehicles . . . ." Compl., ¶ 16. "GM expressly warranted that the recalled vehicles were safe and were merchantable and fit for use for particular purposes at the time of purchase and sale." Compl., ¶ 21. "GM implicitly warranted that the recalled vehicles were safe and were merchantable and fit for use for particular purposes at the time of purchase and sale." Compl., ¶ 26.
Henry	"In addition to the liability arising out of the statutory obligations assumed by GM, GM also has successor liability for the deceptive and unfair acts and omissions of Old GM because GM has continued the business enterprise of Old GM with full knowledge of the ignition switch defects." Compl., ¶ 12; *see also* Compl., ¶ 86. Alleging Named Plaintiffs own a 2004 Saturn Ion and a 2005 Chevrolet Cobalt and that Plaintiffs would not have purchased their vehicle if they knew about the defect. Compl., ¶¶ 30, 31. Alleging that Old GM promoted the Defective Vehicles as safe and reliable. Compl., ¶¶ 71-75. Two Class questions are: (i) "Whether GM's practices in connection with the promotion, marketing, advertising, packaging, labeling and sale of the Defective Vehicles unjustly enriched GM at the expense of, and to the detriment of, Plaintiffs and the other members of the Class" (Compl., ¶ 97(i)), and (ii) "Whether GM breached implied warranties in its sale and lease of the Defective Vehicles, thereby causing harm to Plaintiffs and the other members of the Class" (Compl., ¶ 97(j)). Count IV concerns breach of implied warranty.
Heuler	Alleging Named Plaintiff owns a 2006 Chevy Cobalt and that Plaintiffs would not have purchased the vehicle if they knew about the defect. Compl., ¶ 31. "GM is liable through successor liability for the deceptive and unfair acts and omissions of GM Corp., as alleged in the Compliant." Compl., ¶ 35; *see also* Compl., ¶ 87. One of the Class questions is "[w]hether, and to what extent, GM has successor liability for the acts and omissions of Old GM." Compl., ¶ 99(k).

	Alleging that Old GM promoted the Defective Vehicles as safe and reliable. Compl., ¶¶ 70-75
Hurst	"On information and belief, in marketing and advertising materials, Old GM consistently promoted the Defective Vehicles as safe and reliable." Compl., ¶ 39. "Purchasers and lessees paid more for the Defective Vehicles, through a higher purchase price or higher lease payments, than they would have had the ignition switch defects been disclosed, or they would not have purchased or leased the vehicle at all had they known the truth." Compl., ¶ 51. "Old GM and Defendant's nondisclosure about safety considerations of the Defective Vehicles while selling and advertising the products were material." Compl., ¶ 92. "GM has successor liability for Old GM's acts and omissions in the marketing and sale of the Defective Vehicles because it has continued the business enterprise of Old GM . . ." Compl., ¶ 62.
Jawad	In the negligence count, stating "GM designed, manufactured, tested, inspected, marketed, labeled and sold the Defective Vehicles . . . ." Compl., ¶ 30. "GM owed Plaintiff a duty of care in the design, manufacture, testing, inspecting, marketing, labeling and sale of its product." Compl., ¶ 31. "The Defective GM Vehicles was [sic] defective at the time it left GM's control . . . . Compl., ¶ 37. "GM breached its implied warranty in the design of the Defective GM Vehicles . . . . Compl., ¶ 41. "GM breached its implied warranty in the manufacturing of Defective GM Vehicles . . . ." Compl., ¶ 42. "An implied term of the sale . . . ." Compl., ¶ 53. "GM knew at the time they sold the vehicles to the Plaintiffs that such vehicles would be used for" a specific purpose. Compl., ¶ 59.

Jones	Asserting that if Plaintiff and others knew about the defect, she would not have purchased the vehicle (a 2006 Saturn Ion). Compl., ¶ 10. Referencing advertisements and promotion of the vehicles at issue which, according to the complaint were all manufactured prior to the closing of the 363 Sale. Compl., ¶¶ 2, 11. An advertisement for a 2006 Saturn Ion was attached to the Complaint as Exhibit "B." Plaintiff also references advertisements from 2003 through 2007. Compl., ¶ 29. Allegations that "GM has successor liability for GM Corp.'s acts and omissions in the marketing and sale of" the vehicles. Compl., ¶ 77. A question common to the class is "[w]hether GM and its predecessor breached its express or implied warranties." Compl., ¶ 87; *see also* ¶¶ 97, 101-106 (breach of express warranty), 107-166 (breach of contract and implied warranty). Alleging that Defendant "engaged in unfair competition or unfair, unconscionable, deceptive, or fraudulent acts or practices with respect to the sale of" the vehicles in violation of statutes in numerous States. Compl., ¶¶ 132-177.
Letterio	"In addition to the liability arising out of the statutory obligations assumed by GM, it is also subject to successor liability for the deceptive and unfair acts and omissions of Old GM because, as described below, Defendant has continued the business enterprise of Old GM with full knowledge of the ignition switch defects. In light of this continuing course of business, GM and Old GM together will be referred to as "GM" hereafter, unless noted otherwise." Compl., ¶ 8; *see also* Compl., ¶ 114. "GM designed, manufactured, marketed, advertised, and warranted that all of its Vehicles were safe and reliable and fit for the ordinary purpose such Vehicles are used for, and were free from defects in materials and workmanship." Compl., ¶ 11. Named Plaintiff purchased a new 2007 Pontiac Solstice on November 30, 2007, and asserts that had "Defendants disclosed the ignition switch defect, Plaintiff would not have purchased her 2007 Pontiac Solstice." Compl., ¶ 15. A Class question includes "[w]hether Defendants were negligent in the design, manufacturing, and distribution of the Vehicles." Compl., ¶ 119(c). "Such misconduct materially affected the purchasing decisions of Plaintiff and the members of the Pennsylvania Subclass as Plaintiff and the Pennsylvania Subclass relied on Defendants' misstatements and omissions regarding the Vehicles' safety and/or reliability when purchasing or leasing the Vehicles." Compl., ¶ 156. "GM breached these express and implied warranties as described in more detail above . . . ." Compl., ¶ 165.
Leval	"In addition to the liability arising out of the statutory obligations assumed by GM, GM also has successor liability for the deceptive and unfair acts and omissions of Old GM because GM has continued the business enterprise of Old GM with full knowledge of the

	ignition switch defects." Compl., ¶ 12, *see also* Compl., ¶¶ 33, 84. The Named Plaintiff owns a 2007 Chevy HHR which was purchased "in part because she [sic] wanted a safely designed and manufactured vehicle. Plaintiff saw advertisements for Old GM vehicles before he purchased the HHR . . . ." Compl., ¶ 30. "Had Old GM disclosed the ignition switch defects, Plaintiff would not have purchased his HHR, or would have paid less than he did, and would not have retained the vehicle." Compl., ¶ 30. Allegations that Old GM promoted the Defective Vehicles as safe and reliable, referring to advertisements from 2001, 2003 and 2006. Compl., ¶¶ 70-75. A Class question is "[w]hether GM breached implied warranties in its sale and lease of the Defective Vehicles, thereby causing harm to Plaintiffs and the other members of the Class." Compl., ¶ 94(j). GM's express warranties are written warranties within the meaning of the Magnuson-Moss Warranty Act, 15 U.S.C. § 2301(6). The Defective Vehicles' implied warranties are covered under 15 U.S.C. § 2301(7). GM breached these warranties as described in more detail above." Compl., ¶¶ 107-108. "While Old GM knew of the ignition switch defects by 2001, it continued to design, manufacture, and market the Defective Vehicles until 2007." Compl., ¶ 123. Count IV is based on a "breach of implied warranty." "Defendants, as manufacturer of the defective vehicle, are responsible for damages caused by the failure of its product to conform to well-defined standards." Compl., ¶ 148. "The vehicle as sold and promoted by Defendants possessed a redhibitory defect because it was not manufactured and marketed in accordance with industry standards and/or was unreasonably dangerous as described above, which rendered the vehicle useless or its use so inconvenient that it must presumed that a buyer would not have bought the vehicle had she known of the defect." Compl., ¶ 151.
Lewis	Plaintiffs 2007 Chevrolet HHR "was manufactured, sold, distributed, advertised, marketed, and warranted by GM . . . ." Compl., ¶ 12. "At all relevant times herein, General Motors Corporation and its successor in interest General Motors LLC were engaged in the business of designing, manufacturing, constructing, assembling, marketing, warranting, distributing, selling, leasing, and servicing automobiles, including the Class Vehicles, and other motor vehicles and motor vehicle components throughout the United States." Compl., ¶ 18. A Class question is "whether the defective nature of the Class Vehicles constitutes a material fact reasonable consumers would have considered in deciding whether to purchase a GM Vehicle." Compl., ¶ 87(c). "Defendants actively concealed and/or suppressed these material facts, in whole or in part, with the intent to induce Plaintiff and Class Members to purchase Class Vehicles at

	a higher price for the vehicles, which did not match the vehicles' true value." Compl., ¶ 107.
Maciel	Certain of the Named Plaintiffs purchased a subject vehicle prior to the closing of the 363 Sale, and assert that they would not have purchased the vehicle if they knew about the defect. See, e.g., Compl., ¶¶ 23, 36, 48. "GM, which is the successor GM entity resulting from the GM chapter 11 bankruptcy proceeding, contractually assumed liability for the claims in this lawsuit and "is liable under theories of successor liability in addition to, or in the alternative to, other bases of liability." Compl., ¶¶ 70, 80. "[N]ew GM, the Defendant here, is the owner of all 'vehicles' and 'finished goods' (such as cars) of old GM, 'wherever [they are] located,' and including any such vehicles or finished goods in the 'possession of' 'customers.'" Compl., ¶ 74. Allegations regarding breaches of express warranties. *See, e.g.*, Compl., ¶¶ 212, 213. "By failing to disclose these material facts, GM intended to induce Plaintiffs and other Class members to purchase or lease the Defective Vehicles." Compl., ¶ 223.
Malaga	Referencing the 2006 Chevrolet Cobalt, ". . . Plaintiff bought a dangerous vehicle that was not of the quality that was advertised. . . . If GM had disclosed the nature and extent of its problems, Plaintiff would not have purchased a vehicle from GM, or would not have purchased that the vehicle for the price paid." Compl., ¶ 18, 21. "In leasing and/or purchasing the vehicles . . . Plaintiffs and the Class . . . reasonably believed and/or depended on the material false and/or misleading information . . . with respect to the safety and quality of the vehicles manufactured and sold by Defendant. . . . Defendant induced Plaintiffs and the Class to purchase the Defective Vehicles . . ." Compl., ¶ 136. "Defendant engaged in the advertising and the failure to disclose the defects and design flaws in its products herein alleged with the intent to induce Plaintiffs and the Class to purchase Defendant's products." Compl., ¶ 142. "Plaintiffs and the Class were exposed to Defendant's advertising and its false and misleading statements and were affected by the advertising in that Plaintiffs and the Class believed it to be true and/or relied on it when making purchasing decisions." Compl., ¶ 145. "At the time of the sale, Defendant had knowledge of the purpose for which its products were purchased and impliedly warranted the same to be, in all respects, fit and proper for this purpose." Compl., ¶ 167. With respect to the negligence count, "[d]efendant breached that duty by designing, manufacturing, and selling products to Plaintiffs and the Class that had a serious ignition switch defect without disclosing . . ." Compl., ¶ 187. "GM also has successor liability for GM Corporation's acts and omissions in the marketing and sale of the Defective Vehicles . . ." Compl., ¶ 117.

Mazzocchi	Named Plaintiff's vehicle is a 2003 Saturn Ion which "was manufactured, sold, distributed, advertised, marketed, and warranted by GM." Compl., ¶ 17. "At all times relevant herein, General Motors Corporation and its successor in interest General Motors LLC were engaged in the business of designing, manufacturing, constructing, assembling, marketing, warranting, distributing, selling, leasing, and servicing automobiles, including the Class Vehicles, and other motor vehicles and motor vehicle components throughout the United States." Compl., ¶ 21. Two Class question are: (i) "whether the defective nature of the Class Vehicles constitutes a material fact reasonable consumers would have considered in deciding whether to purchase a GM Vehicle" (Compl., ¶ 110(c)), and (ii) "whether the Class Vehicles were fit for their ordinary and intended use, in violation of the implied warranty of merchantability" (Compl., ¶ 110(i)). "In furtherance of its scheme to defraud, GM issued the February 28, 2005 Service Bulletin. It instructed GM's dealers to disseminate false and misleading information about the dangerous and defective condition of the Defective Vehicles to customers, including Plaintiff and other members of the Class." Compl., ¶ 127. "In June of 2005, GM issued a public statement through the mail and wires in furtherance of its scheme to defraud." Compl., ¶ 128. "GM is liable to Plaintiffs and the Nationwide Class pursuant to 15 U.S.C. § 2310(d)(l), because it breached the implied warranty of merchantability." Compl., ¶ 155. "GM breached its implied warranty of merchantability to Plaintiffs and the Nationwide Class because the Class Vehicles were not fit for the ordinary purposes for which they are used~namely, as a safe passenger motor vehicle." Compl., ¶ 156. The Fourth Claim for Relief is based on a "breach of implied warranty."
McCarthy	"At all times relevant herein, General Motors Corporation and its successor in interest General Motors LLC were engaged in the business of designing, manufacturing, constructing, assembling, marketing, warranting, distributing, selling, leasing, and servicing automobiles, including the Class Vehicles, and other motor vehicles and motor vehicle components throughout the United States." Compl., ¶ 20. Two Class questions are: (i) "whether the defective nature of the Class Vehicles constitutes a material fact reasonable consumers would have considered in deciding whether to purchase a GM Vehicle" (Compl., ¶ 100(c)), and (ii) "whether GM concealment of the true defective nature of the Class Vehicles induced Plaintiff and Class Members to act to their detriment by purchasing the Vehicles" (Compl., ¶ 100(f)). "Defendants designed, manufactured, sold and distributed the Class Vehicles which Defendants placed into the stream of commerce. Under Louisiana law, the seller warrants the buyer against redhibitory defects, or vices, in the thing sold. La. C.C. art. 2520." Compl., ¶ 108.

	Allegations that GM breached the implied warranty of merchantability." Compl., ¶¶ 117-121. The Third Claim for Relief is based on a "breach of implied warranties of merchantability and fitness," and the Fourth Claim for Relief is based on a "breach of warranty of fitness for ordinary use."
McConnell	"GM . . . has successor liability for the deceptive and unfair acts and omissions of Old GM because GM has continued the business enterprise of Old GM with full knowledge of the ignition switch defect." Compl., ¶ 12; *see also* Compl., ¶ 87. With reference to a 2007 Saturn Ion Coupe, "Plaintiff saw advertisements for Old GM vehicles before she purchased the Saturn" and would not have purchased it if she knew about the defect. Compl., ¶ 31. "On information and belief, in marketing and advertising materials, Old GM consistently promoted the Defective Vehicles as safe and reliable." Compl., ¶ 70. Referencing the "sale of the Defective Vehicle" in the cause of action alleging violations of the Michigan Consumer Protection Act. Compl., ¶ 108.
Phillip	"[H]ad Old GM or GM disclosed the ignition switch defects and safety risks presented sooner . . . Plaintiffs and members of the Class . . . would not have purchased the vehicles they did; would have paid less than they did. . ." Compl., ¶ 26. "Although it had actual knowledge of the ignition switch defects that it was concealing, Old GM continued to sell hundreds of thousands of Defective Vehicles . . ." Compl., ¶ 80. "GM and Old GM also expressly warranted through statements and advertisements that the Defective Vehicles were of high quality, and at a minimum, would actually work properly and safety." Compl., ¶ 292. "Contrary to the applicable implied warranties, Old GM's and GM's Defective Vehicles at the time of sale and thereafter were not fit for their ordinary and intended purpose." Compl., ¶ 319. "GM also has successor liability for the deceptive and unfair acts and omissions of Old GM because GM has continued the business enterprise of Old GM with full knowledge of the ignition switch defects." Compl., ¶ 11. "Because GM acquired and operated Old GM and ran it as a continuing business enterprise, and because GM was aware from its inception of the ignition switch defects in the Defective Vehicles, GM is liable through successor liability . . . ." Compl., ¶ 50.
Ponce	The Named Plaintiff purchased a 2007 Chevrolet HHR in "2007 or 2008" and, based on Chevrolet's reputation, representations and advertising," he alleges that had "he known about the defect, he would not have purchased this vehicle, would not have paid a premium price, and would not have retained the vehicle." Compl., ¶ 9; *see also* Compl., ¶¶ 35-36, 40.

	"GM is liable for both its own acts and omissions, and the acts and omissions of Old GM, as alleged in the Complaint." Compl., ¶ 14. Class questions include: (i) Whether Defendant's practices and representations made in connection with the labeling, advertising, marketing, promotion and sale of the Subject Vehicles" violated certain statutes. Compl., ¶¶ 46(e), 46(f) Count one asserts a breach of express and implied warranties with respect to the Subject Vehicles (which are various models manufactured from 2003 through 2007). *See* Compl., ¶¶ 56-62.
Ramirez	"Defendants intended that Plaintiffs and Class Members rely on their misrepresentations and omissions, so that Plaintiffs and other Class Members would purchase or lease the Class Vehicles . . ." Compl., ¶ 110(h). Defendant engaged in deceptive business practices in violation of California's Consumer Legal Remedies Act by, among other things, "advertising Class Vehicles with the intent not to sell or lease them as advertised . . ." Compl., ¶ 147(c). "Had Plaintiff and other Class Members known that the Class Vehicles had the Ignition Switch Defect, they would not have purchased a Class Vehicle." Compl., ¶ 150(f). "Defendants made express warranties to Plaintiffs and Class Members both in its warranty manual and advertising . . ." Compl., ¶ 190. Defendants allegedly violated the Maryland Consumer Protection Act "when it falsely represented, throughout its advertising, warranties and other express representations, that the Class Vehicles were of certain quality or standard when they were not." Compl., ¶ 210. Mentions that New GM expressly assumed certain liabilities, including statutory requirements, citing the MSA. *See* Compl., ¶ 27. "At all times relevant herein, General Motors Corporation and its successor in interest General Motors LLC were engaged in the business of designing, manufacturing, constructing, assembling, marketing, warranting, distributing, selling, leasing, and servicing automobiles, including the Class Vehicles, and other motor vehicles and motor vehicle components throughout the United States." Compl., ¶ 29.
Roach	"In addition to the liability arising out of the statutory obligations assumed by GM, it is also subject to successor liability for the deceptive and unfair acts and omissions of Old GM because, as described below, Defendant has continued the business enterprise of Old GM with full knowledge of the ignition switch defects. In light of this continuing course of business, GM and Old GM together will be referred to as "GM" hereafter, unless noted otherwise." Compl., ¶ 8; *see also* Compl., ¶ 114. "Had Defendants disclosed the ignition switch defect, Plaintiff would not have purchased his 2008 Chevy Malibu LS." Compl., ¶ 15. Two Class Questions are (i) "Whether Defendants were negligent in the design, manufacturing, and distribution of the Vehicles" (Compl., ¶ 119(c)), and (ii) "Whether

	Defendants designed, advertised, marketed, distributed, leased, sold, or otherwise placed defectively designed Vehicles into the stream of commerce in the United States" (Compl., ¶ 119(d)). "A reasonable consumer with knowledge of the defective nature of the defective GM Models ignition switch would not have purchased the defective GM Models equipped with a defective ignition switch or would have paid less for them." Compl., ¶ 158. "GM's express warranties are written warranties within the meaning of the Magnuson-Moss Warranty Act, 15 U.S.C. §2301(6). The Vehicles' implied warranties are covered under 15 U.S.C. §2301(7). GM breached these express and implied warranties as described in more detail above . . . ." Compl., ¶ 169-170.
Robinson	Referencing alleged violation of the California False Advertising Law, "Defendants caused to be made or disseminated to consumers throughout California and the United States, advertising, marketing and other publications, statements about the Defective Vehicles that were untrue or misleading." Compl., ¶ 137. "Defendants violated Minn. Stat. § 325D.44(9) by advertising, marketing, and selling the Defective Vehicles as reliable and without a known defect while knowing those claims were false." Compl., ¶ 145. "GM also has successor liability for the deceptive and unfair acts and omissions of Old GM because GM has continued the business enterprise of Old GM with full knowledge of the ignition switch defects." Compl., ¶ 13. "Because GM acquired and operated Old GM and ran it as a continuing business enterprise, and because GM was aware from its inception of the ignition switch defects in the Defective Vehicles, GM is liable through successor liability for the deceptive and unfair acts and omissions of Old GM, as alleged in this Complaint." Compl., ¶ 27.
Ross	With respect to alleged violations of the Michigan Consumer Protection Act, "Defendants provided, disseminated, marketed, and otherwise distributed uniform false and misleading advertisements, technical data and other information to consumers regarding the safety, performance, reliability, quality, and nature of the Class Vehicles . . . " Compl., ¶114(b). "GM gave an implied warranty . . . namely, the implied warranty of merchantability." Compl., ¶ 124. "Defendants violated [New York's Deceptive Trade Practices Act] when they represented, through advertising, warranties, and other express representations, that the Class Vehicles had characteristics and benefits that they did not actually have." Compl., ¶ 161. "At all times relevant herein, General Motors Corporation and its successor in interest General Motors LLC were engaged in the business of designing, manufacturing, constructing, assembling, marketing, warranting, distributing, selling, leasing, and servicing automobiles, including the Class Vehicles . . . ." Compl., ¶ 22.

Roush	"Had Plaintiffs known of the defect, they would not have purchased the vehicle." Compl., ¶ 18. Referencing the alleged violation of Missouri's Merchandising Practices Act, "GM has used and/or continues to use unfair practices, concealment, suppression and/or omission of material facts in connection with the advertising, marketing, and offering for sale of Class Vehicles." Compl., ¶ 48.
Ruff	Alleging Named Plaintiffs own a 2009 Chevrolet Cobalt or a 2006 Chevrolet Cobalt, each of which were purchased new. With respect to the 2006 Chevrolet Cobalt, Plaintiffs assert that it "was manufactured, sold, distributed, advertised, marketed, and warranted by GM." Compl. ¶ 16. "At all times relevant herein, General Motors Corporation and its successor in interest General Motors LLC were engaged in the business of designing, manufacturing, constructing, assembling, marketing, warranting, distributing, selling, leasing, and servicing automobiles, including the Class Vehicles, and other motor vehicles and motor vehicle components throughout the United States." Compl., ¶ 21. A Class question is "whether the Class Vehicles were fit for their ordinary and intended use, in violation of the implied warranty of merchantability." Compl., ¶ 108(g). The second claim for relief asserts a breach of implied warranties. "Defendants actively concealed and/or suppressed these material facts, in whole or in part, with the intent to induce Plaintiffs and Class Members to purchase Class Vehicles at a higher price for the vehicles, which did not match the vehicles' true value." Compl., ¶ 142.
Saclo	"GM breached these warranties as described in more detail above. Without limitation, the Defective Vehicles share a common design defect . . . ." Compl., ¶ 314. "By failing to disclose these material facts, GM intended to induce Plaintiffs and the other Class members to purchase or lease the Defective Vehicles." Compl., ¶ 325. Through advertising, marketing, and other publications, OM caused statements to be disseminated that were untrue or misleading, and that were known, or that by the exercise of reasonable care should have been known to GM, to be untrue and misleading to consumers, including Plaintiff Cohen and the other California State Class members." Compl., ¶ 346. "GM made express warranties to Plaintiff Cohen and the other California State Class members within the meaning of [California statutes] in its warranty, manual, and advertising, as described above." Compl., ¶ 359. "The Defective Vehicles are covered by GM's express warranties." Compl., ¶ 361. "GM breached the implied warranty of merchantability by manufacturing and selling Defective Vehicles that are defective." Compl., ¶ 377.

	"GM has defectively designed, manufactured, sold, or otherwise placed in the stream of commerce Defective Vehicles as set forth above. GM impliedly warranted that the Defective Vehicles were merchantable for the ordinary purpose for which they were designed, manufactured, and sold." Compl., ¶¶ 553-554.
Salerno	The Named Plaintiff alleges that she "owns a 2006 Saturn Ion," which was manufactured, sold, distributed, advertised, marketed, and warranted by GM." Compl., ¶ 15. One of the Class questions is "whether the Class Vehicles were fit for their ordinary and intended use, in violation of the implied warranty of merchantability." Compl., ¶ 101(g). "Defendants provided, disseminated, marketed, and otherwise distributed uniform false and misleading advertisements, technical data and other information to consumers regarding the safety, performance, reliability, quality, and nature of the Class Vehicles." Compl., ¶ 113(b). "Defendants intended that Plaintiff and Class Members rely on their misrepresentations and omissions, so that Plaintiff and other Class Members would purchase or lease the Class Vehicles." Compl., ¶ 113(h). "In connection with its sales of the Class Vehicles, GM gave an implied warranty as defined in IS U.S.C. § 2301(7); namely, the implied warranty of merchantability" (Compl., ¶ 123), and "GM is liable to Plaintiff and the Nationwide Class pursuant to 15 U.S.C. § 2310(d)(l), because it breached the implied warranty of merchantability" (Compl., ¶ 124). Count III concerns breach of implied warranty. "Defendants actively concealed and/or suppressed these material facts, in whole or in part, with the intent to induce Plaintiff and Class Members to purchase Class Vehicles at a higher price for the vehicles, which did not match the vehicles' true value." Compl., ¶ 151.
Santiago	Alleging that New GM is liable under a successor liability theory, Plaintiffs allege: "Because GM is liable for the wrongful conduct of Old GM, there is no need to distinguish between the conduct of Old GM and GM, and the complaints will hereinafter simply refer to GM as the corporate actor when describing relevant facts." Compl., ¶ 16. Named Plaintiff bought a 2007 Saturn Ion Coupe new, and alleged that "[h]ad Plaintiffs and the Class known about the full extent of the Ignition Switch Defect, they would either not have purchased the vehicle at all or would have paid less for them . . . ." Compl., ¶ 102. "GM actively concealed and/or suppressed these material facts, in whole or in part, to induce Plaintiff and Class Members to purchase or lease the Defective Vehicles . . . ." Compl., ¶ 110.

Shollenberger	"GM expressly warranted that the Class Vehicles were of high quality and, at minimum, would actually work properly." Compl., ¶ 52. "Plaintiff relied on GM's express warranty when purchasing his Class Vehicles." Compl., ¶ 53. "GM breached this warranty by selling to Plaintiff and the Class members the Class Vehicles with known ignition switch defects . . ." Compl., ¶ 54. "GM manufactured and/or supplied the Class Vehicles, and prior to the time these goods were purchased by Plaintiff and the putative Class, GM impliedly warranted to Plaintiff that they would be merchantable." Compl., ¶ 60. "GM breached its contractual duties by, *inter alia*, selling Class Vehicles with a known safety defect and failing to timely recall them." Compl., ¶ 69.
Stafford	"In addition to the liability arising out of the statutory obligations assumed by GM, GM also has successor liability for the deceptive and unfair acts and omissions of Old GM because GM has continued the business enterprise of Old GM with full knowledge of the ignition switch defects." Compl., ¶ 15; *see also* Compl., ¶ 104. Alleging that in connection with his purchase of a 2004 Saturn Ion, the Named Plaintiff "saw advertisements for Old GM vehicles before he purchased the Ion. Plaintiff does recall that safety and quality were consistent themes in the advertisements he saw. These representations about safety and quality influenced Plaintiff's decision to purchase the Ion." Compl., ¶ 35. "Had Old GM and/or Defendant disclosed the ignition switch defects, Plaintiff would not have purchased the Ion, or would have paid less than he did." Compl., ¶ 35. A Class question is "whether Defendant is liable for design defect." Compl., ¶ 114(f). "As a direct and proximate result of Defendant's violations, Plaintiff suffered injury in fact and lost money because they purchased the Defective Vehicle and paid the price they paid believing it to be free of defects when it was not." Compl., ¶ 137. "At all times relevant, Defendant sold, marketed, advertised, distributed, and otherwise placed Defective Vehicles into the stream of commerce in an unlawful, unfair, fraudulent, and/or deceptive manner that was likely to deceive the public." Compl., ¶ 143. The Fifth Cause of Action is premised on a design defect theory. "As a direct and proximate result of Defendant's breach of written warranties, Plaintiff and Class members sustained damages and other losses." Compl., ¶ 171. "Defendant breached the implied warranty of merchantability by manufacturing and selling Defective Vehicles containing the ignition switch defects." Compl., ¶ 182.

INTRODUCTION

In June 2009, General Motors LLC ("**New GM**") was a newly formed entity, created by the U.S. Treasury, to purchase substantially all of the assets of Motors Liquidation Company, formerly known as General Motors Corporation ("**Old GM**"). Through a bankruptcy-approved sale process, New GM acquired Old GM's assets, free and clear of all liens, claims, liabilities and encumbrances, other than liabilities that New GM expressly assumed under a June 26, 2009 Amended and Restated Master Sale and Purchase Agreement ("**Sale Agreement**").[1] The Bankruptcy Court approved the sale ("**363 Sale**") from Old GM to New GM and the terms of the Sale Agreement in its "**Sale Order and Injunction**," dated July 5, 2009.[2]

This Motion does not address the approximately 90 lawsuits ("**Ignition Switch Actions**") against New GM that seek monetary relief (*i.e.*, where there was no accident causing personal injury, loss of life, or property damage) relating to allegedly defective ignition switches ("**Ignition Switch**") in certain vehicle models. New GM previously filed a motion with this Court on April 21, 2014 ("**Ignition Switch Motion to Enforce**") seeking to enforce the Sale Order and Injunction with respect to the Ignition Switch Actions, the Court held Scheduling Conferences on May 2, 2014 and July 2, 2014 with respect to that Motion, and the initial phase of that contested proceeding is being governed by Scheduling Orders entered by the Court on May 16, 2014 and July 11, 2014 ("**Scheduling Orders**")[3]

---

[1] A copy of the Sale Agreement is annexed hereto as Exhibit "A."

[2] The full title of the Sale Order and Injunction is "Order (i) Authorizing Sale of Assets Pursuant to Amended and Restated Master Sale and Purchase Agreement with NGMCO, Inc., a U.S. Treasury-Sponsored Purchaser; (ii) Authorizing Assumption and Assignment of Certain Executory Contracts and Unexpired Leases in Connection with the Sale; and (iii) Granting Related Relief, entered by the Court on July 5, 2009." A copy of the Sale Order and Injunction is annexed hereto as Exhibit "B."

[3] As New GM did when it filed the Ignition Switch Motion to Enforce, New GM will seek a conference before the Court upon filing this Motion to Enforce to discuss procedural issues raised by the relief sought herein, including the possibility of consolidating this Motion with the Ignition Switch Motion to Enforce.

At the time the Ignition Switch Motion to Enforce was filed, New GM had recently instituted a recall ("**Ignition Switch Recall**") covering vehicles that had an allegedly defective Ignition Switch, and New GM subsequently was named as a defendant in numerous lawsuits that referenced the Ignition Switch Recall. New GM later instituted various other recalls regarding vehicles and/or parts designed, manufactured and/or sold by Old GM. Like the plaintiffs in the actions that are covered by the Ignition Switch Motion to Enforce, other plaintiffs have filed actions against New GM based on these later recalls. These lawsuits were served on New GM beginning in late May 2014, and could not have been included in the Ignition Switch Motion to Enforce.

The timing of the filing of this Motion is dictated by the Scheduling Orders which set forth specific deadlines for the development of agreed upon factual stipulations, and the briefing of Threshold Issues (as defined in the Scheduling Orders). Generally, the Plaintiffs' counsel related to this Motion are already involved in the Ignition Switch Motion to Enforce.[4] However, to the extent there is not complete overlap, and to ensure that all parties in interest have an opportunity to address common issues before the Court, this Motion is being filed now.

This Motion to Enforce also does not address any litigation involving an accident or incident causing personal injury, loss of life or property damage. Any such lawsuits against New GM that concern accidents or incidents that occurred prior to the closing of the 363 Sale are the subject of a separate motion filed by New GM at this time.[5]

---

[4] It is significant, and unexplainable that, in connection with the Ignition Switch Actions, Plaintiffs' attorneys entered into Voluntary Stay Stipulations recognizing the Court's exclusive jurisdiction to decide issues relating to the Sale Order and Injunction. Yet the same counsel continue to file law suits against New GM in other courts for Retained Liabilities as if the Sale Order and Injunction does not exist (thus necessitating the filing of this Motion and other motions to enforce).

[5] Liabilities related to accidents or incidents that occurred after the closing of the 363 Sale that allegedly caused personal injury, loss of life or property damage were assumed by New GM pursuant to the Sale Order and

Furthermore, New GM has committed to repairing (at no cost to the owners) such vehicles that are the subject of a recalls conducted by New GM under the supervision of the National Highway Traffic Safety Administration ("**NHTSA**"). This Motion does not involve those repairs or costs.

Instead, this Motion to Enforce involves *only* litigation in which Plaintiffs seek economic losses, monetary and other relief against New GM relating to an Old GM vehicle or part (other than the Ignition Switch). Like the Ignition Switch Actions, liabilities for these types of claims were never assumed by New GM and are barred by the Court's Sale Order and Injunction.[6]

Under the Sale Agreement approved by the Court, New GM assumed only three expressly defined categories of liabilities for vehicles and parts sold by Old GM: (a) post-sale accidents involving Old GM vehicles causing personal injury, loss of life or property damage; (b) repairs provided for under the "Glove Box Warranty"— a specific written warranty, of limited duration, that only covers repairs and replacement of parts; and (c) Lemon Law[7] claims essentially tied to the failure to honor the Glove Box Warranty. All other liabilities relating to vehicles and parts sold by Old GM were "Retained Liabilities" of Old GM. *See* Sale Agreement § 2.3(b).

New GM's assumption of just these limited categories of liabilities was based on the independent judgment of U.S. Treasury officials as to which liabilities, if paid, would best

---

Injunction, and the Sale Agreement. Lawsuits based on such circumstances are not the subject of this or any other motion filed by New GM with the Bankruptcy Court.

[6] To the extent the lawsuits that are the subject of this Motion to Enforce concern vehicles that were manufactured solely by New GM, and do not concern any allegedly defective parts manufactured by Old GM or concern Old GM conduct, those portions of such lawsuits are not implicated by this Motion to Enforce.

[7] *See* Sale Agreement § 1.1, at p. 11 (defining "Lemon Laws" as "a state statute requiring a vehicle manufacturer to provide a consumer remedy when such manufacturer is unable to conform a vehicle to the express written warranty after a reasonable number of attempts, as defined in the applicable statute.").

position New GM for a successful business turnaround. It was an absolute condition of New GM's purchase offer that New GM not take on all of Old GM's liabilities. That was the bargain struck by New GM and Old GM, and approved by the Court as being in the best interests of Old GM's bankruptcy estate and the public.

The primary objections to the 363 Sale were made by prepetition creditors who essentially wanted New GM to assume their liabilities. But the Court found that, if not for New GM's purchase offer, which provided for a meaningful distribution to prepetition unsecured creditors, Old GM would have liquidated its assets and those unsecured creditors would have received nothing. Indeed, had the objectors been successful in opposing the Sale Order and Injunction, it would have been a pyrrhic victory, and disaster not only for them but for thousands of others who relied on the continued viability of the assets being sold to New GM. Judge Lewis Kaplan aptly summarized the point: "No sentient American is unaware of the travails of the automobile industry in general and of General Motors Corporation ([Old] GM) in particular. As the Bankruptcy Court found, [Old] GM will be forced to liquidate — with appalling consequences for its creditors, its employees, and our nation — unless the proposed sale of its core assets to a newly constituted purchaser is swiftly consummated." *In re Gen. Motors Corp.*, No. M 47 (LAK), 2009 WL 2033079, at *1 (S.D.N.Y. July 9, 2009).

One of the groups that objected most vigorously to the 363 Sale was a coalition representing Old GM vehicle owners. That group included State Attorneys General, individual accident victims, the Center for Auto Safety, Consumer Action, and other consumer advocacy groups. The gist of their objections was: as long as New GM was assuming any of Old GM liabilities, then it should assume *all* vehicle-owner liabilities as well. In particular, the objectors argued, unsuccessfully, that New GM should assume successor liability claims, all warranty

claims (express and implied), economic damages claims based upon defects in Old GM vehicles and parts, and tort claims, in addition to the limited categories of claims that New GM already agreed to assume.

A critical element of protecting the integrity of the bankruptcy sale process, however, was to ensure that New GM, as the good faith purchaser for substantial value, received the benefit of its Court-approved bargain. This meant that New GM would be insulated from lawsuits by Old GM's creditors based on Old GM liabilities it did not assume. The Sale Agreement and the Sale Order and Injunction were expressly intended to provide such protections. The Order thus enjoined such proceedings against New GM, and expressly reserved exclusive jurisdiction to this Court to ensure that the sale transaction it approved would not be undermined or collaterally attacked.

As this Court may be aware, New GM recently sent various recall notices to NHTSA concerning issues in certain vehicles and parts, many of which were manufactured by Old GM. Shortly after New GM issued these recall notices, various Plaintiffs sued New GM for claimed economic losses, monetary and other relief allegedly resulting from the issues addressed by the recalls. These lawsuits, in part, concern Old GM vehicles and/or parts—the very type of claims retained by Old GM for which New GM has no liability.

This Motion to Enforce, thus, presents the very same issue that the Court is addressing in the Ignition Switch Motion to Enforce:

> **May New GM be sued in violation of this Court's Sale Order and Injunction for economic losses, monetary and other relief relating to vehicles and parts manufactured and/or sold by Old GM?**

As is the case in the Ignition Switch Actions, Plaintiffs in the cases based on the later recalls assert claims, either in whole or in part, for liabilities that Old GM retained under the Sale

Order and Injunction. Plaintiffs apparently decided to not appear in this Court to challenge the Sale Order and Injunction; and with good reason: they know that this Court has previously enforced the Sale Order and Injunction, and they were seeking to evade this Court's injunction that bars them from suing New GM on account of liabilities retained by Old GM.

Simply put, Plaintiffs cannot ignore the Court's Sale Order and Injunction, and proceed in other courts as though it never existed. The law is settled that persons subject to a Court's injunction do not have that option. As the United States Supreme Court explained in *Celotex Corp. v. Edwards*, the rule is "well-established" that "'persons subject to an injunctive order issued by a court with jurisdiction are expected to obey that decree until it is modified or reversed, even if they have proper grounds to object to the order.'" 514 U.S. 300, 306 (1995).

Based on this Court's prior proceedings and Orders, New GM has brought this Motion to Enforce to require the plaintiffs (collectively, the "**Plaintiffs**") in the actions listed in Schedule 1 attached hereto ("**Monetary Relief Actions**") to comply with the Court's Sale Order and Injunction by directing Plaintiffs to (a) cease and desist from further prosecuting against New GM claims that are barred by the Sale Order and Injunction, (b) dismiss with prejudice those void claims brought in violation of the Sale Order and Injunction, and (c) specifically identify which claims against New GM they believe are not otherwise barred by the Sale Order and Injunction.[8]

[8] At this time, the following Monetary Relief Actions have been commenced against New GM: (i) *Yagman v. General Motors Company, et al.* (a copy of the *Yagman* Complaint is annexed hereto as Exhibit "C"); (ii) *Andrews v. General Motors LLC* (a copy of the *Andrews* Complaint is annexed hereto as Exhibit "D"); (iii) *Stevenson v. General Motors LLC* (a copy of the *Stevenson* Complaint is annexed hereto as Exhibit "E"); and (iv) *Jones v. General Motors LLC* (a copy of the *Jones* Complaint is annexed hereto as Exhibit "F).

New GM reserves the right to supplement the list of Monetary Relief Actions contained in Schedule 1 in the event additional cases are brought against New GM that implicate similar provisions of the Sale Order and Injunction.

BACKGROUND STATEMENT OF FACTS

1. In June 2009, in the midst of a national financial crisis, Old GM was insolvent with no alternative other than to seek bankruptcy protection to sell its assets. New GM, a newly created, government-sponsored entity, was the only viable purchaser, but it would not purchase Old GM's assets unless the sale was free and clear of all liens and claims (except for the claims it expressly agreed to assume). The Court approved this sale transaction, which set the framework for New GM to begin its business operations. During the last five years, New GM has operated its business based on the fundamental structure of the Sale Agreement and Sale Order and Injunction — a new business enterprise that would not be burdened with liabilities retained by Old GM. The Monetary Relief Actions represent a collateral attack on this Court's Sale Order and Injunction. The Plaintiffs may not rewrite, years later, the Court-approved sale to a good faith purchaser, which was affirmed on appeal, and which has been the predicate ever since for literally millions of transactions between New GM and third parties.

I. OLD GM FILED FOR PROTECTION UNDER THE BANKRUPTCY CODE IN JUNE 2009.

2. On June 1, 2009, Old GM and certain of its affiliates filed for protection under Chapter 11 of the Bankruptcy Code in the United States Bankruptcy Court for the Southern District of New York. Old GM simultaneously filed a motion seeking approval of the original version of the Sale Agreement ("**Original Sale Agreement**"), pursuant to which substantially all of Old GM's assets were to be sold to New GM ("**Sale Motion**"). The Original Sale Agreement (like the Sale Agreement) provided that New GM would assume only certain specifically identified liabilities (*i.e.*, the "**Assumed Liabilities**"); all other liabilities would be retained by Old GM (*i.e.*, the "**Retained Liabilities**").

A. Objectors to the Sale Motion Argued that New GM Should Assume Additional Liabilities of the Type Plaintiffs Now Assert in the Monetary Relief Actions.

3. Many objectors, including various State Attorneys General, certain individual accident victims ("**Product Liability Claimants**"), the Center for Auto Safety, Consumer Action, Consumers for Auto Reliability and Safety, National Association of Consumer Advocates, and Public Citizens (collectively, the "**Consumer Organizations**"), the Ad Hoc Committee of Consumer Victims, and the Official Committee of Unsecured Creditors challenged various provisions in the Original Sale Agreement relating to actual and potential tort and contract claims held by Old GM vehicle owners. These objectors argued that the Court should not approve the Original Sale Agreement unless New GM assumed additional Old GM liabilities (beyond the Glove Box Warranty), including those now being asserted by the Plaintiffs in the Monetary Relief Actions.

4. The Original Sale Agreement was amended so that New GM would assume Lemon Law claims, as well as personal injury, loss of life and property damage claims for accidents taking place after the closing of the 363 Sale.[9] Product Liability Claimants and the Consumer Organizations were not satisfied and pressed their objections, arguing that New GM should assume broader warranty-related claims as well as successor liability claims.[10] Representatives from the U.S. Treasury declined to make further changes. *See* Hr'g Tr. 151:1 – 10, July 1, 2009. The Court found that New GM would not have consummated the "[t]ransaction (i) if the sale . . . was not free and clear of all liens, claims, encumbrances, and

[9] Assumption of the Glove Box Warranty was provided for in the Original Sale Agreement.

[10] Numerous State Attorneys General also objected, seeking to expand the definition of New GM's Assumed Liabilities to include implied warranty claims. *Castillo v. Gen. Motors LLC (In re Motors Liquidation Co.)*, Adv. Proc. No. 09–00509, 2012 WL 1339496, at *5 (Bankr. S.D.N.Y. April 17, 2012), *aff'd*, 500 B.R. 333 (S.D.N.Y. 2013). The *Castillo* decision has been appealed to the Second Circuit and that appeal remains pending.

other interests . . . , including rights or claims based on any successor or transferee liability or (ii) if [New GM] would, or in the future could, be liable for any such liens, claims, encumbrances, and other interests, including rights or claims based on any successor or transferee liability (collectively, the 'Retained Liabilities'), other than, in each case, the Assumed Liabilities." *See* Sale Order and Injunction ¶ DD. The Court ultimately overruled the objectors on these issues. *See id.*, ¶ 2.

B. The Court Issued Its Sale Order And Injunction, And The Product Liability Claimants And Others Appealed Because They Objected To The Fact That New GM Was Not Assuming *Their* Liabilities.

5. The Court held a three-day hearing on the Sale Motion, then issued its Sale Decision on July 5, 2009, finding that the only alternative to the immediate sale to New GM pursuant to the Sale Agreement was a liquidation of Old GM, in which case unsecured creditors, such as the Plaintiffs now suing New GM, would receive nothing. *See In re Gen. Motors Corp.*, 407 B.R. 463, 474 (Bankr. S.D.N.Y. 2009). The Court analyzed the law of successor liability at length (*see id.* at 499-506), and ruled that: "[T]he law in this Circuit and District is clear; the Court will permit [Old] GM's assets to pass to the purchaser [New GM] ***free and clear of successor liability claims***, and in that connection, will issue the requested findings and associated injunction." *Id*. at 505-06 (emphasis added).

6. In approving the 363 Sale, the Court specifically found that New GM was a "good faith purchaser, for sale-approval purposes, and also for the purpose of the protections section 363(m) provides." *Id.* at 494 (citing 11 U.S.C. § 363(m)). The Sale Order and Injunction expressly enjoined parties (like the Plaintiffs in the Monetary Relief Actions) from proceeding against New GM with respect to Retained Liabilities at any time in the future. *See* Sale Order and Injunction, ¶¶ 8, 47. The Court recognized that if a Section 363 purchaser like New GM did not obtain protection from claims against Old GM, like successor liability claims, it would pay

less for the assets because of the risks of known and unknown liabilities. *Id.* at 500; *see* 11 U.S.C. § 363. The Court further recognized that, under the law, a Section 363 purchaser could choose which liabilities of the debtors to assume (*id.* at 496), and that the U.S. Treasury, on New GM's behalf, could rightfully condition its purchase offer on its refusal to assume the liabilities now being asserted by Plaintiffs in the Ignition Switch Actions.

7. Old GM, the proponent of the asset sale transaction, presented evidence establishing that if the Sale Agreement was not approved, Old GM would have liquidated. In a liquidation, objecting creditors seeking incremental recoveries would have ended up with nothing, given that the book value of Old GM's global assets was $82 billion, the book value of its global liabilities was $172 billion (s*ee Gen. Motors*, 407 B.R. at 475), and that, in a liquidation, the value of Old GM's assets was probably less than 10% of stated book value (*id.*).

8. Objectors also presented evidence that the book value of certain contingent liabilities was about $934 million. *Id.* at 483. The Court noted that contingent liabilities were "difficult to quantify." *Id.* And, if the book value of all contingent liabilities was understated, that simply meant Old GM was even more insolvent—an even greater reason for New GM to decline to assume the liabilities retained by GM.

9. Whether Old GM presented evidence regarding a particular claim or specific defect was not germane to this Court's approval of the Sale Order and Injunction. Indeed, as the Court found in the Sale Order and Injunction, the proper analysis for approving the asset sale was whether Old GM obtained the "highest or best" available offer for the Purchased Assets. *See* Sale Order and Injunction, ¶ G. In contrast, the quantification of liabilities left behind with Old GM (*i.e.*, the Retained Liabilities) was pertinent to a different phase of the bankruptcy case (the claims process) which did not involve New GM.

10. New GM's refusal to assume a substantial portion of Old GM's liabilities was fundamental to the sale transaction and was widely disclosed by Old GM to all interested parties. Indeed, the Product Liability Claimants objected to and appealed the Sale Order and Injunction to specifically challenge this aspect of the sale. *See Campbell v. Motors Liquidation Co. (In re Motors Liquidation Co.)*, 428 B.R. 43 (S.D.N.Y. 2010). On appeal, although the District Court focused on the appellants' failure to seek a stay of the Sale and on equitable mootness principles, it also found that this Court had jurisdiction to enjoin successor liability claims. *See id. at* 59-60Indeed, the Sale Order and Injunction was affirmed on appeal by two different District Court Judges. *Id. ; Parker v. Motors Liquidation Co. (In re Motors Liquidation Co.)*, 430 B.R. 65 (S.D.N.Y. 2010). There were no further appeals.[11]

C. Upon Approval Of The Sale Agreement And Issuance Of The Sale Order And Injunction, New GM Assumed Certain Narrowly Defined Liabilities, But The Bulk Of Old GM's Liabilities Remained With Old GM.

11. Under the Sale Agreement and the Sale Order and Injunction, New GM became responsible for "Assumed Liabilities." *See* Sale Agreement § 2.3(a). These included liability claims for post-sale accidents and Lemon Law claims, as well as the Glove Box Warranty—a written warranty of limited duration (typically three years or 36,000 miles, whichever comes first) provided at the time of sale for repairs and replacement of parts. The Glove Box Warranty expressly excludes economic damages. New GM assumed no other Old GM warranty obligations, express or implied:

> The Purchaser is assuming the obligations of the Sellers pursuant to and subject to conditions and limitations contained in their express written warranties, which were delivered in connection with the sale of vehicles and vehicle components

[11] The Product Liability Claimants appealed the District Court's decision, but pursuant to a stipulation so-ordered by the Second Circuit Court of Appeals on September 23, 2010, the appeal was withdrawn. The *Parker* decision was also appealed, but that appeal was dismissed as equitably moot because the appellant had not obtained a stay pending appeal. *See Parker v. Motors Liquidation Company*, Case No. 10-4882-bk (2d Cir. July 28, 2011).

> prior to the Closing of the 363 Transaction and specifically identified as a "warranty." ***The Purchaser is not assuming responsibility for Liabilities contended to arise by virtue of other alleged warranties, including implied warranties and statements in materials such as, without limitation, individual customer communications, owner's manuals, advertisements, and other promotional materials, catalogs, and point of purchase materials.***

Sale Order and Injunction, ¶ 56 (emphasis added).

12. Independent of the Assumed Liabilities under the Sale Agreement, New GM covenanted to perform Old GM's recall responsibilities under federal law. *See* Sale Agreement ¶ 6.15(a). But there were no third party beneficiary rights granted under the Sale Agreement with respect to that covenant (*see* Sale Agreement § 9.11), and there is no private right of action for third parties to sue for a breach of a recall obligation. *See Ayers v. Gen. Motors*, 234 F.3d 514, 522-24 (11th Cir. 2000); *Handy v. Gen. Motors Corp.*, 518 F.2d 786, 787-88 (9th Cir 1975). Thus, New GM's recall covenant provides no basis for the Plaintiffs to sue New GM for economic losses, monetary or other relief relating to a vehicle or part sold by Old GM.

13. All liabilities of Old GM not expressly defined as Assumed Liabilities constituted "Retained Liabilities" that remained obligations of Old GM. *See* Sale Agreement §§ 2.3(a), 2.3(b). Retained Liabilities include economic losses and other monetary relief relating to vehicles and parts manufactured by Old GM (the primary claims asserted by the Plaintiffs in the Monetary Relief Actions) such as:

(a) liabilities "arising out of, relating to or in connection with any (A) implied warranty or other implied obligation arising under statutory or common law without the necessity of an express warranty or (B) allegation, statement or writing by or attributable to Sellers." Sale Agreement § 2.3(b)(xvi), *see also id.* ¶ 6.15(a). This would include liability based on state consumer statutes, except Lemon Law claims.

(b) All liabilities (other than Assumed Liabilities) of Old GM based upon contract, tort or any other basis. Sale Agreement § 2.3(b)(xi). This covers claims based on negligence, concealment and fraud.

(c) All liabilities relating to vehicles and parts sold by Old GM with a design defect.[12]

(d) All Liabilities based on the conduct of Old GM including any allegation, statement or writing attributable to Old GM. This covers fraudulent concealment type claims. *See* Sale Order and Injunction, ¶ 56.

(e) All claims based on the doctrine of "successor liability." *See, e.g.*, Sale Order and Injunction, ¶ 46.

D. The Court's Sale Order And Injunction Expressly Protects New GM From Litigation Over Retained Liabilities.

14. On July 10, 2009, the parties consummated the Sale. New GM acquired substantially all of the assets of Old GM free and clear of all liens, claims and encumbrances, except for the narrowly defined Assumed Liabilities. In particular, paragraphs 46, 9, and 8 of the Sale Order and Injunction provide that New GM would have no responsibility for any liabilities (except for Assumed Liabilities) relating to the operation of Old GM's business, or the production of vehicles and parts before July 10, 2009:

> Except for the Assumed Liabilities expressly set forth in the [Sale Agreement] . . . [New GM] . . . shall [not] have any liability for any claim that arose prior to the Closing Date, ***relates to the production of vehicles prior to the Closing Date***, or otherwise is assertable against [Old GM] . . . prior to the Closing Date . . . . Without limiting the foregoing, [New GM] shall not have any successor, transferee, derivative, or vicarious liabilities of any kind or character for any claims, including, but not limited to, under any theory of successor or transferee liability, de facto merger or continuity . . . and products . . . liability, ***whether known or unknown*** as of the Closing, now existing or hereafter arising, asserted or unasserted, fixed or contingent, liquidated or unliquidated.

Sale Order and Injunction, ¶ 46 (emphasis added); *see also id.*, ¶ 9(a) ("(i) no claims other than Assumed Liabilities, will be assertable against the Purchaser; (ii) the Purchased Assets [are] transferred to the Purchaser free and clear of all claims (other than Permitted Encumbrances) . . ."); and *id.*, ¶ 8 ("All persons and entities . . . holding claims against [Old GM]

[12] *See* Sale Order and Injunction, ¶ AA; *see also Trusky v. Gen. Motors LLC (In re Motors Liquidation Co.)*, Adv. Proc. No. 09–09803, 2013 WL 620281, at *2 (Bankr. S.D.N.Y. Feb. 19, 2013).

or the Purchased Assets arising under or out of, in connection with, or in any way relating to [Old GM], the Purchased Assets, ***the operation of the Purchased Assets*** prior to the Closing . . . are forever barred, estopped, and permanently enjoined . . . from asserting [such claims] against [New GM]. . . .") (emphasis added).

15. Anticipating the possibility that New GM might be wrongfully sued for Retained Liabilities, the Sale Order and Injunction permanently enjoins claimants from asserting claims of the type made in the Monetary Relief Actions:

> [A]ll persons and entities . . . holding liens, claims and encumbrances, and other interests of any kind or nature whatsoever, including rights or claims based on any successor or transferee liability, against [Old GM] or the Purchased Assets (whether legal or equitable, secured or unsecured, ***matured or unmatured***, ***contingent or noncontingent***, senior or subordinated), ***arising under or out of, in connection with, or in any way relating to [Old GM], the Purchased Assets, the operation of the Purchased Assets prior to the Closing . . . are forever barred, estopped, and permanently enjoined . . . from asserting against [New GM] . . . such persons' or entities' liens, claims, encumbrances, and other interests, including rights or claims based on any successor or transferee liability***.

Sale Order and Injunction, ¶ 8 (emphasis added); *see also id.*, ¶ 47.

16. The Court specifically found that the provisions of the Sale Order and Injunction, as well as the Sale Agreement, were binding on all creditors, ***known and unknown*** alike. *See* Sale Order and Injunction, ¶ 6 ("This [Sale] Order and [Sale Agreement] "shall be binding in all respects upon the Debtors, their affiliates, ***all known and unknown creditors*** of, and holders of equity security interests in, any Debtor, including any holders of liens, claims, encumbrances, or other interests, including rights or claims based on any successor or transferee liability . . . ." (emphasis added)); *see also id.*, ¶ 46. In short, except for Assumed Liabilities, claims based on Old GM vehicles and parts remained the legal responsibility of Old GM, and are not the responsibility of New GM.

17. Finally, paragraph 71 of the Sale Order and Injunction makes this Court the gatekeeper to enforce its own Order. It provides for this Court's ***exclusive jurisdiction*** over matters and claims regarding the 363 Sale, including jurisdiction to protect New GM against any Retained Liabilities of Old GM:

> ***This Court retains exclusive jurisdiction to enforce and implement the terms and provisions of this Order, the [Sale Agreement],*** all amendments thereto, any waivers and consents thereunder, and each of the agreements executed in connection therewith, . . ., in all respects, including, but not limited to, ***retaining jurisdiction to . . . (c) resolve any disputes arising under or related to the [Sale Agreement],*** except as otherwise provided therein, (d) ***interpret, implement, and enforce the provisions of this Order, (e) protect the Purchaser against any of the Retained Liabilities*** or the assertion of any lien, claim, encumbrance, or other interest, of any kind or nature whatsoever, against the Purchased Assets . . . . (Emphasis added.)

II. NEW GM HAS RECALLED CERTAIN VEHICLES AND IN RESPONSE, PLAINTIFFS HAVE FILED MONETARY RELIEF ACTIONS.

18. Consistent with its obligations under the Sale Order and Injunction, New GM, over the last several months, has informed NHSTA of certain issues in various vehicles and parts, including those manufactured by Old GM, and that New GM would conduct recalls to remedy the problems (at no cost to the owners). New GM sent NHTSA-approved recall notices to all vehicle owners subject to the recalls. All of the recalls are underway and New GM already has started to fix the vehicles identified by the recalls. NHTSA, as the government agency responsible for overseeing the technical and highly-specialized domain of automotive safety defects and recalls, administers the rules concerning the content, timing, and means of delivering a recall notice to affected motorists and dealers. *See* 49 C.F.R. § 554.1; 49 U.S.C. § 30119.

19. Since the various recalls were announced, Monetary Relief Actions have been filed against New GM related to these recalls, including recalls of vehicles and parts sold or manufactured by Old GM (*see* Schedule 1, attached to this Motion); additional similar cases will likely be filed in the future. At this time, these cases include four class actions.

20. The non-ignition switch Monetary Relief Actions assert claims that are barred by the Sale Agreement and the Sale Order and Injunction. The claims at issue that are the subject of this Motion to Enforce are for economic losses, monetary and other relief premised on alleged defects in vehicles and components manufactured and/or sold by Old GM, which are unrelated to any accident causing personal injury, loss of life or property damage. In their complaints, the Plaintiffs, at times, conflate Old GM and New GM, but the Sale Order and Injunction is clear that New GM is a separate entity from Old GM (*see* Sale Order and Injunction, ¶ R), and is not liable for successor liability claims (*see, e.g.*, *id.*, ¶¶ 46, 47). To be sure, the claims asserted by the Plaintiffs in the Monetary Relief Actions are varied, and in some instances, because of the imprecise factual allegations, it is unclear whether there might be a viable cause of action (of the many) being asserted against New GM. What is clear, however, is that the crux of certain of the Plaintiffs' claims is a problem in vehicles and/or parts manufactured and/or sold by Old GM. Claims based on that factual predicate are Retained Liabilities and may not be brought against New GM.[13]

21. This Court is uniquely situated to enforce its own Order and interpret what the parties to the Sale Agreement agreed to, and what issues were raised and resolved in connection with the 363 Sale. This Motion to Enforce requests that the Court enforce the Sale Order and Injunction by directing Plaintiffs to cease and desist from pursuing claims against New GM for Retained Liabilities of Old GM, direct Plaintiffs to dismiss with prejudice those void claims that are barred by the Sale Order and Injunction, and direct Plaintiffs to specifically identify which

[13] The allegations and claims asserted in the Monetary Relief Actions include Retained Liabilities, such as implied warranty claims, successor liability claims, and miscellaneous tort and statutory claims premised in whole or in part on the alleged acts or omissions of Old GM. *See* Schedule 2 annexed hereto for a sample of such statements, allegations and/or causes of action.

claims they may properly pursue against New GM that are not in violation of the Court's Sale Order and Injunction.

NEW GM'S ARGUMENT TO ENFORCE THE COURT'S SALE ORDER AND INJUNCTION

22. The Plaintiffs do not have the choice of simply ignoring the Court's Sale Order and Injunction. As the Supreme Court expressed in its *Celotex* decision:

> If respondents believed the Section 105 Injunction was improper, they should have challenged it in the Bankruptcy Court, like other similarly situated bonded judgment creditors have done . . . Respondents chose not to pursue this course of action, but instead to collaterally attack the Bankruptcy Court's Section 105 Injunction in the federal courts in Texas. This they cannot be permitted to do without seriously undercutting the orderly process of the law.

514 U.S. at 313. These settled principles bind Plaintiffs in the Monetary Relief Actions. Those who purchased vehicles or parts manufactured by Old GM, whether they were a known or unknown creditor at the time, are subject to the terms of the Court's Sale Order and Injunction, and are barred by this Court's Injunction from suing New GM on account of Old GM's Retained Liabilities.

I. THIS COURT'S SALE ORDER AND INJUNCTION SHOULD BE ENFORCED.

23. It is well settled that a "Bankruptcy Court plainly ha[s] jurisdiction to interpret and enforce its own prior orders." *See Travelers Indem. Co. v. Bailey*, 557 U.S. 137, 151 (2009); *In re Wilshire Courtyard*, 729 F.3d 1279, 1290 (9th Cir. 2013) (affirming bankruptcy court's post-confirmation jurisdiction to interpret and enforce its orders; "[i]nterpretation of the Plan and Confirmation Order is the only way for a court to determine the essential character of the negotiated Plan transactions in a way that reflects the deal the parties struck in chapter 11 proceedings"); *In re Cont'l Airlines, Inc.*, 236 B.R. 318, 326 (Bankr. D. Del. 1999) ("In the bankruptcy context, courts have specifically, and consistently, held that the bankruptcy court retains jurisdiction, *inter alia*, to enforce its confirmation order."); *U.S. Lines, Inc. v. GAC*

Marine Fuels, Ltd. (In re McClean Indus., Inc.), 68 B.R. 690, 695 (Bankr. S.D.N.Y. 1986) ("[a]ll courts, whether created pursuant to Article I or Article III, have inherent contempt power to enforce compliance with their lawful orders. The duty of any court to hear and resolve legal disputes carries with it the power to enforce the order."). In addition, Section 105(a) of the Bankruptcy Code provides that "[t]he court may issue any order, process, or judgment that is necessary or appropriate to carry out" the Bankruptcy Code's provisions, and this section "codif[ies] the bankruptcy court's inherent power to enforce its own orders." *Back v. LTV Corp. (In re Chateaugay Corp.)*, 213 B.R. 633, 640 (S.D.N.Y. 1997); 11 U.S.C. § 105(a).

24. Consistent with these authorities, this Court retained subject matter jurisdiction to enforce its Sale Order and Injunction. Indeed, this is not the first time that this Court has been asked to enforce its injunction against plaintiffs improperly seeking to sue New GM for Old GM's Retained Liabilities. *See In re Motors Liquidation Co.*, No. 09-50026 (REG), 2011 WL 6119664 (Bankr. S.D.N.Y. 2011) (ordering various plaintiffs to dismiss with prejudice civil actions in which they had brought claims against New GM that are barred by the Sale Order and Injunction); *Castillo v. Gen. Motors Co. (In re Motors Liquidation Co.)*, Adv. Proc. No. 09-00509 (Bankr. S.D.N.Y.), Hr'g Tr. 9:3-9:14, May 6, 2010 ("when you are looking for a declaratory judgment on an agreement that I approved [*i.e.*, the Sale Agreement] that was affected by an order that I entered [*i.e.*, the Sale Order and Injunction], and with the issues permeated by bankruptcy law as they are, and which also raise issues as to one or more injunctions that I entered, ***how in the world would you have brought this lawsuit in Delaware Chancery Court. I'm not talking about getting in personam jurisdiction or whether you can get venue over a Delaware corporation in Delaware. I'm talking about what talks and walks and quacks like an intentional runaround of something that's properly on the watch of the***

U.S. Bankruptcy Court for the Southern District of New York.") (emphasis added); *Castillo*, 2012 WL 1339496 (entering judgment in favor of New GM) (affirmed by 500 B.R. 333, 335 (S.D.N.Y. 2013)); *see also Trusky*, 2013 WL 620281, at *2 (finding that "claims for design defects [of 2007-2008 Chevrolet Impalas] may not be asserted against New GM and that "New GM is not liable for Old GM's conduct or alleged breaches of warranty").

25. This Court is also presently addressing New GM's Ignition Switch Motion to Enforce, which raises issues that overlap and are indistinguishable from the issues raised herein. Specifically, both this Motion to Enforce and the Ignition Switch Motion to Enforce concern Retained Liabilities stemming from vehicles and/or parts manufactured and/or sold by Old GM. This Court has exercised jurisdiction over the issues raised in the Ignition Switch Motion to Enforce; the Court should do the same here.

26. Contrary to New GM's bargained for rights under the Sale Agreement and the Court's Sale Order and Injunction, Plaintiffs in the Monetary Relief Actions are suing New GM, in part, for defects in Old GM vehicles and/or parts in various courts. As in the Ignition Switch Actions, Plaintiffs may not simply ignore the Court's injunction through these collateral attacks, especially when the Sale Order and Injunction is a final order no longer subject to appeal. *See Celotex Corp.*, 514 U.S. at 306, 313 ("'persons subject to an injunctive order issued by a court with jurisdiction are expected to obey that decree until it is modified or reversed'") (quoting *GTE Sylvania, Inc. v. Consumers Union of U. S., Inc.*, 445 U.S. 375, 386 (1980)); *Pratt v. Ventas, Inc.*, 365 F.3d 514, 520 (6th Cir. 2004) (applying doctrine to dismiss suits filed in violation of injunction in confirmation order entered by bankruptcy court); *In re McGhan*, 288 F.3d 1172, 1180-81 (9th Cir. 2002) (applying doctrine to enforce discharge order in favor of debtors and holding that only the bankruptcy court could grant relief from the order); *see also In re Gruntz*,

202 F.3d 1074, 1082 (9th Cir. 2000) (applying this doctrine in the context of an automatic stay entered by the bankruptcy court); *Spartan Mills v. Bank of Am. Ill.*, 112 F.3d 1251, 1255 (4th Cir. 1997) (applying doctrine to bankruptcy court order approving sales of assets free and clear of liens).

II. NEW GM CANNOT BE HELD LIABLE FOR OLD GM'S ALLEGED CONDUCT, EITHER DIRECTLY OR AS OLD GM'S ALLEGED "SUCCESSOR."

27. Many of the vehicles and parts at issue in the Monetary Relief Actions were manufactured, marketed, and sold by Old GM prior to the Sale Order and Injunction. *See, e.g.*, *Yagman* Compl., ¶ 5 (alleging the named plaintiff owns a 2007 Buick Lucerne); *Andrews* Compl., ¶ 25 (alleging that the class includes all persons who own or lease any new or used GM-branded vehicle sold between July 10, 2009, and April 1, 2014); *Stevenson* Compl., ¶ 17 (alleging that the named plaintiff purchased a 2007 Saturn Ion in or around November 2007).

28. Certain of the Monetary Relief Actions reflect an effort to plead around the Court's Sale Order and Injunction. In fact they all generally assert the same underlying allegations made about Old GM: that it manufactured and/or sold vehicles with some type of defect. (*See* Schedules 1 and 2 attached hereto.) And, they all seek, at least in part, to hold New GM liable for economic losses, monetary and other relief based on Old GM's conduct — claims that are prohibited by the Sale Order and Injunction.

29. For example, in *Andrews*, the Plaintiffs seek to limit their class to people who purchased GM vehicles after July 10, 2009. However, vehicles are not limited to only New GM vehicles; the "Affected Vehicles" as defined in the Andrews complaint encompasses all new and used GM vehicles subject to a recall (other than the Ignition Switch Recall). The Complaint specifically excludes from the class "owners and lessors of model year 2005-2010 Chevrolet Cobalts, 2005-2011 Chevrolet HHRs, 2007-2010 Pontiac G5s, 2003-2007 Saturn Ions, and 2007-

2010 Saturn Skys, whose vehicles were recalled for an ignition switch defect." Id., ¶ 25. There are no other specific exclusions from the purported class of plaintiffs and, thus, such class necessarily includes vehicles manufactured by Old GM.

30. In connection with the Ignition Switch Motion to Enforce, this Court addressed similar allegations by a group of plaintiffs (*i.e.*, the *Phaneuf* Plaintiffs) in an Ignition Switch Action. The *Phaneuf* Plaintiffs argued that the Sale Order and Injunction did not apply to them because the class was also limited to individuals who purchased GM vehicles after July 10, 2009. However, because the vehicles in question were not limited to New GM vehicles, but included Old GM vehicles as well, this Court ruled

> that the sale order now applies, though it is possible, without prejudging any issues, that, after I hear from the other 87 litigants, I might ultimately rule that it does not apply to some kinds of claims and that, even if the sale order didn't apply, that New GM would be entitled to a preliminary injunction temporarily staying the Phaneuf plaintiffs' action from going forward, pending a determination by me on the other 87 litigants' claims under the standards articulated by the circuit in Jackson Dairy and its progeny.

Hr'g Tr. 91:12-21, July 2, 2014. Accordingly, as was the case with the *Phaneuf* Plaintiffs, the Sale Order and Injunction applies to the *Andrews* Action in the first instances, subject to the rights of the *Andrews* Plaintiff – in this Court -- to argue that it should not apply.

31. Similarly, as in the Ignition Switch Actions, certain Plaintiffs attempt to impose "successor" liability upon New GM, but New GM is not a successor to Old GM and did not assume any liabilities in connection with successor or transferee liability. This is expressly provided by the Court's Sale Order and Injunction:

> ***The Purchaser shall not be deemed***, as a result of any action taken in connection with the [Sale Agreement] or any of the transactions or documents ancillary thereto or contemplated thereby or in connection with the acquisition of the Purchased Assets, ***to: (i) be a legal successor***, or otherwise be deemed a successor to the Debtors (other than with respect to any obligations arising under the Purchased Assets from and after the Closing); ***(ii) have, de facto or otherwise, merged with or into the Debtors; or (iii) be a mere continuation or substantial***

> ***continuation of the Debtors or the enterprise of the Debtors***. Without limiting the foregoing, the Purchaser (New GM) shall not have any successor, transferee, derivative, or vicarious liabilities of any kind or character for any claims, including, but not limited to, under any theory of successor or transferee liability, de facto merger or continuity, environmental, labor and employment, and products or antitrust liability, whether known or unknown as of the Closing, now existing or hereafter arising, asserted, or unasserted, fixed or contingent, liquidated or unliquidated.

Sale Order and Injunction ¶ 46 (emphasis added); *see also id.*, ¶¶ AA, BB, DD, 6, 7, 8, 10 and 47; Sale Agreement § 9.19.

32. Plaintiffs' successor liability allegations are simply a violation of this Court's Sale Order and Injunction. But whether or not Plaintiffs' claims expressly allege successor liability, their claims against New GM based on Old GM's conduct are essentially successor liability claims cast in a different way and are precluded by that Order.

III. PLAINTIFFS' WARRANTY ASSERTIONS AND STATE LEMON LAW ALLEGATIONS DO NOT ENABLE THEM TO CIRCUMVENT THE COURT'S SALE ORDER AND INJUNCTION.

A. The Limited Glove Box Warranty is Not Applicable. But As a Practical Matter, Plaintiffs Already Are Obtaining Such Relief As Part of the Recall.

33. The Glove Box Warranty is for a limited duration and many of the vehicles that are the subject of the Monetary Relief Actions were sold more than three years ago. Thus, the Glove Box Warranty has expired for those vehicles. In any event, the Glove Box Warranty provides only for repairs and replacement parts; the economic losses asserted by Plaintiffs in the Monetary Relief Actions are of an entirely different character and are expressly barred by the Glove Box Warranty. This distinction is not unique to Old GM's 363 Sale. In the Chrysler bankruptcy case, the court likewise found that the assumed liabilities were limited to the standard limited warranty of repair issued in connection with sales of vehicles. *See, e.g., Burton v. Chrysler Group, LLC (In re Old Carco LLC)*, 492 B.R. 392, 404 (Bankr. S.D.N.Y. 2013) ("New Chrysler did agree to honor warranty claims — the Repair Warranty. None of the

statements attributed to New Chrysler state or imply that it assumed liability to pay consequential or other damages based upon pre-existing defects in vehicles manufactured and sold by Old Carco.").[14] Finally, as a practical matter, New GM will make the necessary repairs as part of the various on-going recalls, which is all that the Glove Box Warranty would have required. Hence, any claims, if they existed, are moot.

34. Similarly, the Sale Agreement and the Sale Order and Injunction provide that the implied warranty and other implied obligation claims that Plaintiffs assert here are Retained Liabilities for which New GM is not responsible. *See* Sale Order and Injunction, ¶ 56 (New GM "is not assuming responsibility for Liabilities contended to arise by virtue of other alleged warranties, ***including implied warranties*** and statements in materials such as, without limitation, individual customer communications, owner's manuals, advertisements, and other promotional materials, catalogs and point of purchase materials." (emphasis added)); *see also* Sale Agreement § 2.3(b)(xvi) (one of the Retained Liabilities of Old GM was any liabilities "arising out of, related to or in connection with any (A) ***implied warranty*** or other ***implied obligation arising under statutory or common law*** without the necessity of an express warranty or (B) allegation, statement or writing by or attributable to [Old GM]." (emphasis added)).

35. In short, any breach of warranty claims Plaintiffs pursue relating to Old GM vehicles or parts (whether express or implied) improperly seek damages against New GM in violation of the Sale Order and Injunction.

[14] *See also Tulacro v. Chrysler Group LLC, et al.*, Adv. Proc. No. 11-09401 (Bankr. S.D.N.Y. Oct. 28, 2011) [Dkt. No. 18] (Exhibit "G" annexed hereto); *Tatum v. Chrysler Group LLC*, Adv. Proc. No. 11-09411 (Bankr. S.D.N.Y. Feb. 15, 2012) [Dkt. No. 73] (Exhibit "H" annexed hereto).

B. Any Purported State Lemon Law Claims Are Premature At Best, And Cannot Be Adequately Pled.

36. In an apparent attempt to circumvent the Court's Sale Order and Injunction, certain of the Monetary Relief Actions purport to assert claims based on alleged violations of state Lemon Laws. But merely referencing state Lemon Laws is not sufficient. Plaintiffs must actually plead facts giving rise to Lemon Law liability as defined in the Sale Agreement. Even a cursory review of the complaints reveals they have not done so.

37. New GM agreed to assume Old GM's "obligations under state 'lemon law' statutes, which require a manufacturer to provide a consumer remedy when the manufacturer is unable to conform the vehicle to the warranty, as defined in the applicable statute, after a ***reasonable number of attempts*** as further defined in the statute, and other related regulatory obligations under such statutes." Sale Order and Injunction, ¶ 56 (emphasis added). None of the Plaintiffs has alleged that New GM has not conformed the vehicle "after a reasonable number of attempts." And, not only is New GM in the process of conforming the vehicles (through the various recalls), but the statutes of limitations on Lemon Law claims as defined in the Sale Agreement have expired for many of the Old GM vehicles referenced in the Monetary Relief Actions.

38. As Judge Bernstein found in *Old Carco*, whether claimants can assert a valid Lemon Law claim "depends on the law that governs each plaintiff's claim and whether the plaintiff can plead facts that satisfy the requirements of the particular Lemon Law." 492 B.R. at 406. He further held as follows:

> With some variation, the party asserting a Lemon Law claim must typically plead and ultimately prove that (1) the vehicle does not conform to a warranty, (2) the

> nonconformity substantially impairs the use or value of the vehicle, and (3) the nonconformity continues to exist after a reasonable number of repair attempts.[15]

Judge Bernstein ultimately found that the claimants there did "not plead that any of the[m] brought their vehicles in for servicing, or that New Chrysler was unable to fix the problem after a reasonable number of attempts." *Id.* at 407. As was the case in *Old Carco*, none of the Plaintiffs here have pled that they brought their vehicles in to be fixed and, after a reasonable number of attempts, that they could not be fixed. They merely base their claims on the recall notices and letters to owners that New GM previously issued.

CONCLUSION

39. New GM was created to purchase the assets of Old GM pursuant to the Sale Agreement. The limited category of liabilities that New GM agreed to assume as part of the purchase was the product of a negotiated bargain, which was approved by this Court in July 2009. Plaintiffs in the Monetary Relief Actions have essentially ignored this; they wrongfully treat New GM and Old GM interchangeably and are pursuing Old GM claims that they cannot lawfully pursue against New GM.

40. Schedule 2 provides examples of allegations that on their face relate to the Retained Liabilities asserted by the Plaintiffs in the Monetary Relief Actions. Set forth below are illustrations of what Plaintiffs have improperly alleged in such Actions.

(a) **Implied Warranty**. *See, e.g.*, *See, e.g.*, *Yagman* Compl., ¶ 16 ("defendants and each of them violated the warranty of merchantability . . . ."); *id.*, ¶ 17 ("defendants violated the warranty of fitness for a particular use of their product"); *Stevenson* Compl., ¶ 185 ("Old GM breached the implied warranty of

Va. 2002); *Baker v. Chrysler Corp.*, Civ. A. No. 91–7092, 1993 WL 18099, at *1–2 (E.D. Pa. Jan. 25, 1993); *Palmer v. Fleetwood Enterp., Inc.*, Nos. C040161, C040765, 2003 WL 21228864, at *4 (Cal. Ct. App. May 28, 2003); *Iams v. DaimlerChrysler Corp.*, 174 Ohio App. 3d 537, 883 N.E.2d 466, 470 (2007); *DiVigenze v. Chrysler Corp.*, 345 N.J. Super. 314, 785 A.2d 37, 48 (App. Div. 2001)).

merchantability by manufacturing and selling Defective Vehicles containing defects leading to the potential safety issues during ordinary driving conditions.").

(b) **Implied Obligations under Statute or Common Law**. *See, e.g.*, *Andrews* Compl. (asserting causes of action under California Consumer Legal Remedies Act and California Unfair Competition Law); *Stevenson* Compl. (asserting causes of action under California Consumer Legal Remedies Act and California Unfair Competition Law); *Jones* Complaint (asserting causes of action under States' consumer protection statutes).

(c) **Successor Liability**. *See, e.g.*, *Yagman* Compl. (not differentiating between Old GM and New GM); *Andrews* Compl., ¶ 59 ("GM inherited from Old GM a company that valued cost-cutting over safety . . . ."); *id.*, ¶ 24 (alleging that New GM knew "[f]rom its inception" about many of the defects that existed in Old GM vehicles); *Stevenson* Compl, ¶¶ 65, 72-74 (allegations discussing Old GM's conduct).

(d) **Design Defect**. *See, e.g.*, *Yagman* Compl., ¶ 12 ("Defendant GM manufactured a defective vehicle"); *id.*, ¶ 13 ("Defendant GM sold a defective vehicle."); *Andrews* Compl., ¶¶ 17-21 (alleging that vehicles manufactured by Old GM were sold with a defect); *id.*, ¶ 232 (asserting as a common class question "[w]hether numerous GM vehicles suffer from serious defects").

(e) **Tort, Contract or Otherwise**. *See, e.g.*, *Andrews* Compl. (asserting a cause of action based on fraudulent concealment); *Stevenson* Compl. (asserting causes of action based on fraudulent concealment and tortious interference with contract); *Jones* Complaint (asserting causes of action based on fraudulent concealment and tortious interference with contract).

(f) **The Conduct of Old GM**. *See, e.g.*, *Yagman* Compl., ¶ 14 ("Defendant GM knew the vehicle [*i.e.*, a 2007 Buick Lucerne] was defective at the time it was put into the stream of commerce for sale and was sold); *Andrews* Compl., ¶ 3 ("GM enticed Plaintiff and all GM vehicle purchasers [not differentiating between purchasers who bought from Old GM and New GM] to buy vehicles that have now diminished in value as the truth about the GM brand has come out, and a stigma has attached to all GM-branded vehicles."); *Stevenson* Compl., ¶¶ 65, 72-74 (allegations discussing Old GM's conduct); *Jones* Compl., ¶¶ 65, 72-74 (allegations discussing Old GM's conduct).

41. New GM has no liability or responsibility for these Retained Liability claims and, under the Sale Order and Injunction, Plaintiffs in the Monetary Relief Actions are enjoined from bringing them against New GM, and their pursuit of these claims violates the Court's injunction. *See, e.g.*, Sale Order and Injunction, ¶¶ 8, 47. Accordingly, the Court should enforce the terms

of its Sale Order and Injunction by ordering Plaintiffs to promptly dismiss all of their claims that violate the provisions of that Order, to cease and desist from all efforts to assert such claims against New GM that are void because of the Sale Order and Injunction, and to specifically identify which claims, if any, they might have which are not barred by this Court's Sale Order and Injunction.

NOTICE AND NO PRIOR REQUESTS

42. Notice of this Motion to Enforce has been provided to (a) counsel for Plaintiffs in each of the Monetary Relief Actions, (b) Designated Counsel and other lead counsel involved in the Ignition Switch Motion to Enforce, (c) counsel for Motors Liquidation Company General Unsecured Creditors Trust, and (d) the Office of the United States Trustee. New GM submits that such notice is sufficient and no other or further notice need be provided.

43. No prior request for the relief sought in this Motion has been made to this or any other Court.

WHEREFORE, New GM respectfully requests that this Court: (i) enter an order substantially in the form set forth as Exhibit "I" annexed hereto, granting the relief sought herein; and (ii) grant New GM such other and further relief as the Court may deem just and proper.

INTRODUCTION

In June 2009, General Motors LLC ("**New GM**") was a newly-formed entity, created by the U.S. Treasury, to purchase substantially all of the assets of Motors Liquidation Company, formerly known as General Motors Corporation ("**Old GM**"). Through a bankruptcy-approved sale process, New GM acquired Old GM's assets, free and clear of all liens, claims, liabilities and encumbrances of Old GM, other than a limited and defined set of liabilities that New GM expressly assumed under a June 26, 2009 Amended and Restated Master Sale and Purchase Agreement ("**Sale Agreement**").[1] The Bankruptcy Court approved the sale from Old GM to New GM ("**363 Sale**") and the terms of the Sale Agreement in its "**Sale Order and Injunction**," dated July 5, 2009.[2]

This Motion does not address the approximately 90 lawsuits ("**Ignition Switch Actions**") against New GM that seek economic losses (*i.e.*, where there was no post-363 Sale accident causing personal injury, loss of life, or property damage) against New GM relating to allegedly defective ignition switches in certain vehicle models. New GM previously filed a motion with this Court on April 21, 2014 ("**Ignition Switch Motion to Enforce**") seeking relief with respect to the Ignition Switch Actions, the Court held Scheduling Conferences on May 2, 2014, and July 2, 2014, with respect to that Motion, and the initial phase of that contested

---

[1] A copy of the Sale Agreement is annexed hereto as Exhibit "A."

[2] The full title of the Sale Order and Injunction is "Order (i) Authorizing Sale of Assets Pursuant to Amended and Restated Master Sale and Purchase Agreement with NGMCO, Inc., a U.S. Treasury-Sponsored Purchaser; (ii) Authorizing Assumption and Assignment of Certain Executory Contracts and Unexpired Leases in Connection with the Sale; and (iii) Granting Related Relief," entered by the Court on July 5, 2009. A copy of the Sale Order and Injunction is annexed hereto as Exhibit "B."

proceeding is being governed by Scheduling Orders entered by the Court on May 16, 2014, and July 11, 2014 (collectively, the "**Scheduling Orders**")[3]

This Motion also does not concern any litigation involving an accident that occurred ***after*** the closing of the 363 Sale that caused personal injury, loss of life, or property damage; New GM assumed such liabilities pursuant to the Sale Agreement and is addressing issues respecting those claims in appropriate non-bankruptcy forums.

Instead, this Motion involves ***only*** litigation in which Plaintiffs are asserting claims against New GM that emanate from an accident that occurred ***prior to*** the closing of the 363 Sale. Such claims do not involve New GM in any way, were never assumed by New GM as part of the Sale Agreement, and are barred by the Court's Sale Order and Injunction.

The subject matter of this Motion was not included in the Ignition Switch Motion to Enforce because, at the time that Motion was filed, New GM already had announced that it had retained Kenneth Feinberg to develop and design a protocol ("**Feinberg Protocol**")[4] for the submission, evaluation, and settlement of death or physical injury claims resulting from accidents allegedly caused by defective ignition switches in certain vehicles. New GM delayed filing this Motion so that the Feinberg Protocol could be developed, formally announced, and implemented. By filing this Motion in conjunction with the launch of the Feinberg Protocol, GM has provided eligible Plaintiffs with an alternative (*i.e.*, a source of recovery under the Feinberg Protocol) to the enforcement of the Sale Order and Injunction against them. Participation in the

---

[3] As New GM did when it filed the Ignition Switch Motion to Enforce, New GM will seek a conference before the Court upon filing this Motion to Enforce to discuss procedural issues raised by the relief sought herein, including the possibility of consolidating this Motion and the Monetary Relief Motion to Enforce (as herein defined and discussed *infra*) with the Ignition Switch Motion to Enforce.

[4] A copy of the Feinberg Protocol is attached hereto as Exhibit "C". It can also be accessed at: http://www.gmignitioncompensation.com/docs/FINAL%20PROTOCOL%20June%2030%20%202014.pdf. The Feinberg Protocol encompasses claims resulting from accidents that occurred both before and after the closing of the 363 Sale that allegedly were caused by defective ignition switches in certain vehicles.

Feinberg Protocol is voluntary, and if eligible claimants decline to participate, New GM seeks by this Motion to enforce the Sale Order and Injunction against them.

The timing of the filing of this Motion is also dictated by the Scheduling Orders which set forth specific deadlines for the development of agreed upon factual stipulations, and the briefing of Threshold Issues (as defined in the Scheduling Orders). Generally, the Plaintiffs' counsel related to this Motion are already involved in the Ignition Switch Motion to Enforce.[5] However, to the extent there is not complete overlap, and to ensure that all parties in interest have an opportunity to address common issues before the Court at the same time, this Motion is being filed now.

It is also for this reason that, simultaneously with the filing of this Motion, New GM is filing a motion ("**Monetary Relief Motion to Enforce**") to enforce the Sale Order and Injunction with respect to other litigations brought against New GM for Retained Liabilities (as defined in the Sale Order and Injunction) of Old GM, that are unrelated to the alleged ignition switch issue. Since announcing the Ignition Switch recalls, New GM has announced other recalls unrelated to the alleged ignition switch defect with respect to vehicles manufactured and sold by Old GM. Notwithstanding the Sale Order and Injunction, New GM has been sued in other courts for such Retained Liabilities. Again, generally, counsel in those litigations are already involved in the Ignition Switch Motion to Enforce. But, to the extent there is not complete overlap, and to ensure that all parties in interest have an opportunity to address

---

[5] It is significant and unexplainable that, in connection with the Ignition Switch Actions, Plaintiffs' attorneys entered into Voluntary Stay Stipulations recognizing the Court's exclusive jurisdiction to decide issues relating to the Sale Order and Injunction. Yet, the same counsel continue to file law suits against New GM in other courts for Retained Liabilities as if the Sale Order and Injunction does not exist (thus necessitating the filing of this Motion and the Monetary Relief Motion to Enforce.

common issues before the Court at the same time, the Monetary Relief Switch Motion to Enforce is also being filed now.

It must be emphasized that the Feinberg Protocol is strictly a voluntary action by New GM which addresses specific claims which New GM never assumed. New GM has nevertheless made this commitment to address a unique series of events involving the vehicles in the Cobalt/Ion Recall.

However, to be clear, the Feinberg Protocol does not modify New GM's protections under the Sale Agreement and the Sale Order and Injunction. Under the Sale Agreement approved by the Court, New GM assumed only three expressly defined categories of liabilities for vehicles sold by Old GM: (a) ***post-363 Sale*** accidents involving Old GM vehicles causing personal injury, loss of life or property damage; (b) repairs provided for under the "Glove Box Warranty"—a specific written warranty, of limited duration, that only covers repairs and replacement of parts; and (c) Lemon Law claims (as defined in the Sale Agreement) essentially tied to the failure to honor the Glove Box Warranty. All other liabilities relating to vehicles sold by Old GM were legacy liabilities that were retained by Old GM. *See* Sale Agreement § 2.3(b).

New GM's assumption of just these limited categories of liabilities was based on the independent judgment of U.S. Treasury officials as to which liabilities, if paid, would best position New GM for a successful business turnaround. It was an absolute condition of New GM's purchase offer that New GM not take on all of Old GM's liabilities. That was the bargain struck by New GM and Old GM, and approved by the Court as being in the best interests of Old GM's bankruptcy estate and the public interest.

Objections to the 363 Sale were made by, among others, prepetition product liability claimants who essentially wanted New GM to assume their liabilities. But the Court found that, if not for New GM's purchase offer, which provided for a meaningful distribution to prepetition

unsecured creditors, Old GM would have liquidated and those unsecured creditors—like the Plaintiffs that are the subject of this Motion—would have received nothing. Indeed, had the objectors been successful in opposing the Sale Order and Injunction, it would not only have been a pyrrhic victory for them, but a disaster for many thousands of others who relied on the continued viability of the assets being sold to New GM. Judge Lewis Kaplan aptly summarized the point:

> No sentient American is unaware of the travails of the automobile industry in general and of General Motors Corporation ([Old] GM) in particular. As the Bankruptcy Court found, [Old] GM will be forced to liquidate — with appalling consequences for its creditors, its employees, and our nation — unless the proposed sale of its core assets to a newly constituted purchaser is swiftly consummated.

In re Gen. Motors Corp., No. M 47 (LAK), 2009 WL 2033079, at *1 (S.D.N.Y. July 9, 2009).

One of the groups that most vigorously objected to Old GM's asset sale motion was a coalition representing Old GM vehicle owners. That group included State Attorneys General, individual accident victims, the Center for Auto Safety, Consumer Action and other consumer advocacy groups. The gist of their objections was: as long as New GM was assuming any of Old GM liabilities, then it should assume ***all*** vehicle owner liabilities as well. In particular, the objectors argued, unsuccessfully, that New GM should assume pre-363 Sale accident claims, based upon defects in Old GM vehicles and parts, in addition to the limited categories of claims that New GM already agreed to assume.

A critical element of protecting the integrity of the bankruptcy sale process was to ensure that New GM, as the good faith purchaser for substantial value, received the benefit of its Court-approved bargain. This meant that New GM would be insulated from lawsuits by Old GM's creditors based on Old GM liabilities that it did not assume. The Sale Agreement and the Sale Order and Injunction were expressly intended to provide such protections. The Order thus enjoined such proceedings against New GM, and expressly reserved exclusive jurisdiction to this

Court to ensure that the sale transaction it approved would not be undermined or collaterally attacked.

As has been widely reported (and as discussed in the Ignition Switch Motion to Enforce), beginning in February, 2014, New GM sent notices to NHTSA concerning problems with ignition switches and ignition switch repairs in certain vehicles and parts manufactured by Old GM. New GM has also recently issued recalls concerning other defects in other Old GM vehicles. Shortly after New GM issued the recall notices, Plaintiffs sought to use the recalls as a basis to commence actions against New GM for damages arising from accidents that occurred prior to the closing of the 363 Sale—claims expressly retained by Old GM for which New GM has no liability.

Thus, the issue to be addressed in this Motion is:

> **May New GM be sued, in clear violation of this Court's Sale Order and Injunction, for damages relating to vehicles sold by Old GM that were involved in accidents that occurred *prior* to the closing of the 363 Sale?**

A review of the Sale Agreement and previous decisions of this Court provide the unambiguous answer: Under the Sale Order and Injunction, all such claims were retained by Old GM, and not assumed by New GM. Plaintiffs' tactical decision to not appear in this Court to challenge the Sale Order and Injunction is telling: they know that this Court previously has enforced the Sale Order and Injunction, and they are seeking to evade this Court's injunction that bars them from suing New GM on account of pre-363 Sale accidents involving Old GM vehicles and parts.

Simply put, Plaintiffs cannot ignore the Court's Sale Order and Injunction, and proceed in other courts as though the Sale Order and Injunction never existed. The law is settled that persons subject to a Court's injunction simply do not have that option. As the United States Supreme Court explained in *Celotex Corp. v. Edwards*, the rule is "well-established" that "'persons subject to an injunctive order issued by a court with jurisdiction are expected to obey

that decree until it is modified or reversed, even if they have proper grounds to object to the order.'" 514 U.S. 300, 306 (1995). Plaintiffs and their counsel are bound by this rule of law and were required to seek and obtain relief from this Court before commencing any lawsuits against New GM. They did not.

Accordingly, based on this Court's prior proceedings and Orders, New GM brings this Motion to enforce the Sale Order and Injunction by:

(a) directing the Plaintiffs ("**Plaintiffs**") in lawsuits ("**Pre-Closing Accident Lawsuits**")[6] commenced against New GM that concern damages arising from accidents that occurred prior to the closing of the 363 Sale, to cease and desist from further prosecuting against New GM, or otherwise pursuing against New GM, the claims asserted in the Pre-Closing Accident Lawsuits, and

(b) directing Plaintiffs to dismiss the Pre-Closing Accident Lawsuits with prejudice immediately.

BACKGROUND STATEMENT OF FACTS

1. In June 2009, in the midst of a national financial crisis, Old GM was insolvent with no alternative other than to seek bankruptcy protection to sell its assets. New GM, a newly

---

[6] The Pre-Closing Accident Lawsuits, at this time, include: (i) *Phillips, et al. v. General Motors Corporation, et al.*, pending in the United States District Court for the Southern District of Texas ("**Phillips Action**"); (ii) *Boyd, et al. v. General Motors LLC*, pending in the United States District Court for the Eastern District of Missouri ("**Boyd Action**"); (iii) *Vest v. General Motors LLC, et al.*, pending in the Circuit Court of Mercer County, West Virginia ("**Vest Action**"); and (iv) *Abney et al. v. General Motors LLC*, pending in the Southern District of New York ("**Abney Action**"). A copy of the complaint or petition in the foregoing Actions are annexed hereto as Exhibits "D" through "G" respectively.

Certain other lawsuits were previously commenced against New GM that related to accidents that occurred prior to the closing of the 363 Sale. The Plaintiffs have voluntarily dismissed those lawsuits, without prejudice, pending their review of the relief available to them under the Feinberg Protocol. These other lawsuits are not referenced herein because of such dismissal.

New GM reserves the right to supplement the list of Pre-Closing Accident Lawsuits set forth above in the event additional cases are brought against New GM that implicate similar provisions of the Sale Order and Injunction, including without limitation those lawsuits which have previously been dismissed without prejudice if they are re-filed in any court, and the Purported Edwards Plaintiffs discussed *infra*.

created, government-sponsored entity, was the only viable purchaser, but it would not purchase Old GM's assets unless the sale was free and clear of all liens and claims (except for the claims it expressly agreed to assume). After a contested hearing, the Court approved this sale transaction, which set the framework for New GM to begin its business operations. During the last five years, New GM has operated its business based on the fundamental structure of the Sale Agreement and Sale Order and Injunction — that its new business enterprise would not be burdened with liabilities retained by Old GM. The Pre-Closing Accident Lawsuits represent an impermissible collateral attack on this Court's Sale Order and Injunction. The Plaintiffs may not rewrite, years later, the Court-approved sale to a good faith purchaser, which was affirmed on appeal, and has been the predicate for literally millions of transactions between New GM and third parties.

A. Old GM Filed For Protection Under The Bankruptcy Code In June 2009

2. On June 1, 2009 ("**Petition Date**"), Old GM and certain of its affiliates filed for protection under Chapter 11 of the Bankruptcy Code in the United States Bankruptcy Court for the Southern District of New York. Old GM simultaneously filed a motion seeking approval of the original version of the Sale Agreement ("**Original Sale Agreement**"), pursuant to which substantially all of Old GM's assets were to be sold to New GM ("**Sale Motion**"). The Original Sale Agreement (like the Sale Agreement) provided that New GM would assume only certain specifically identified liabilities (*i.e.*, the "**Assumed Liabilities**"); all other liabilities would be retained by Old GM (*i.e.*, the "**Retained Liabilities**").

B. Objectors To The Sale Motion Argued That New GM Should Assume Additional Liabilities Of The Type Plaintiffs Now Assert In The Pre-Closing Accident Lawsuits

3. Many objectors, including various State Attorneys General, certain individual accident victims ("**Product Liability Claimants**"), the Center for Auto Safety, Consumer Action, Consumers for Auto Reliability and Safety, National Association of Consumer Advocates, and Public Citizens (collectively, the "**Consumer Organizations**"), the Ad Hoc Committee of Consumer Victims, and the Official Committee of Unsecured Creditors challenged various provisions in the Original Sale Agreement relating to actual and potential tort and contract claims held by Old GM vehicle owners. These objectors argued that the Court should not approve the Original Sale Agreement unless New GM assumed additional Old GM liabilities, including those now being asserted by Plaintiffs in the Pre-Closing Accident Lawsuits.

4. The Original Sale Agreement was amended so that New GM would assume liabilities for personal injury, loss of life, and property damage claims for ***accidents taking place after the closing of the 363 Sale*** that concern vehicles manufactured and sold by Old GM. The Original Sale Agreement provided that New GM would only assume such liabilities for vehicles ***delivered*** to consumers after the closing of the 363 Sale. This change was negotiated with the State Attorneys General after the Petition Date, who sought the inclusion of additional liabilities as Assumed Liabilities. The U.S. Treasury agreed to make this change (and to assume Lemon Law claims), but would not go further. *See* Hr'g Tr. 194:13 – 18, July 2, 2009 (when discussing improvements to the Sale Agreement, counsel for the State Attorneys General referred to a change to "the assumption of the future product liability claims. Obviously, we -- you know, in a perfect world, we would not be distinguishing between those two categories, but certainly that's better than none of them. And it certainly goes a ways to addressing issues that were raised by the state Attorney Generals.").

5. However, the Product Liability Claimants and the Consumer Organizations were not satisfied and continued to press their objections, arguing that New GM should assume broader claims relating to pre-363 Sale accidents, as well as successor liability claims. Representatives from the U.S. Treasury declined to make further changes. *See* Hr'g Tr. 151:1 – 10, July 1, 2009. The Court found that New GM would not have consummated the "[t]ransaction (i) if the sale . . . was not free and clear of all liens, claims, encumbrances, and other interests . . . , including rights or claims based on any successor or transferee liability or (ii) if [New GM] would, or in the future could, be liable for any such liens, claims, encumbrances, and other interests, including rights or claims based on any successor or transferee liability (collectively, the 'Retained Liabilities'), other than, in each case, the Assumed Liabilities." *See* Sale Order and Injunction ¶ DD. The Court ultimately overruled the objectors on these issues. *See id.*, ¶ 2.

C. The Court Issued Its Sale Order And Injunction, And The Product Liability Claimants And Others Appealed Because They Objected To The Fact That New GM Was Not Assuming *Their* Liabilities For Any Claims They Might Have Then Or In The Future

6. The Court held a three-day hearing on the Sale Motion, then issued its Sale Decision on July 5, 2009, finding that the only alternative to the immediate sale to New GM pursuant to the Sale Agreement was a liquidation of Old GM, in which case unsecured creditors, such as the Plaintiffs now suing New GM, would receive nothing. *See In re Gen. Motors Corp.*, 407 B.R. 463, 474 (Bankr. S.D.N.Y. 2009). The Court analyzed the law of successor liability at length (*see id.* at 499-506), and ruled that: "[T]he law in this Circuit and District is clear; the Court will permit [Old] GM's assets to pass to the purchaser [New GM] ***free and clear of successor liability claims***, and in that connection, will issue the requested findings and associated injunction." *Id*. at 505-06 (emphasis added).

7. In approving the 363 Sale, the Court specifically found that New GM was a "good faith purchaser, for sale-approval purposes, and also for the purpose of the protections section 363(m) provides." *Id.* at 494 (citing 11 U.S.C. § 363(m)). The Sale Order and Injunction expressly enjoined parties (like Plaintiffs in the Pre-Closing Accident Lawsuits) from proceeding against New GM with respect to Retained Liabilities at any time in the future. *See* Sale Order and Injunction, ¶¶ 8, 47. This Court well understood that accident victims—like Plaintiffs in the Pre-Closing Accident Lawsuits—would recover only modest amounts on their claims from Old GM if they could not look to New GM as an additional source of recovery. *See Gen. Motors*, 407 B.R. at 505.

8. But the Court also recognized that if a Section 363 purchaser like New GM did not obtain protection against claims against Old GM, like successor liability claims, it would pay less for the assets because of the risks of known and unknown liabilities. *Id.* at 500. The Court further recognized that, under the law, a Section 363 purchaser could choose which liabilities of the debtors to assume, and not assume (*id.* at 496), and that the U.S. Treasury, on New GM's behalf, could rightfully condition its purchase offer on its refusal to assume the liabilities now being asserted by Plaintiffs in the Pre-Closing Accident Lawsuits.

9. Old GM, the proponent of the asset sale transaction, presented evidence establishing that if the Sale Agreement was not approved, Old GM would have liquidated. If it did, objecting creditors seeking incremental recoveries would have ended up with nothing, given that the book value of Old GM's global assets was $82 billion, the book value of its global liabilities was $172 billion (s*ee Gen. Motors*, 407 B.R. at 475), and that, in a liquidation, the value of Old GM's assets was probably less than 10% of stated book value (*id.*).

10. Objectors also presented evidence that the book value of certain contingent liabilities was about $934 million. *Id.* at 483. As discussed at the trial, these contingent

liabilities concerned product liability claims, including both "reported cases" and "incurred but not reported cases." Hr'g Tr. 161:23 – 162:8, June 30, 2009. The Court noted in its Sale Decision that contingent liabilities were "difficult to quantify." *Gen. Motors*, 407 B.R. at 483. And, if the book value of all contingent liabilities was understated, that simply meant Old GM was even more insolvent—an even greater reason for New GM to decline to assume the liabilities retained by GM.

11. Whether Old GM presented evidence regarding a particular claim or specific defect was not germane to this Court's approval of the Sale Order and Injunction. Indeed, as the Court found in the Sale Order and Injunction, the proper analysis for approving the asset sale is whether Old GM obtained the "highest or best" available offer for the Purchased Assets. *See* Sale Order and Injunction, ¶ G. In contrast, the quantification of liabilities left behind with Old GM (*i.e.*, the Retained Liabilities) was only relevant to a different phase of the bankruptcy case (the claims process) which did not involve New GM.

12. New GM's refusal to assume a substantial portion of Old GM's liabilities was fundamental to the sale transaction and was widely disclosed by Old GM to all interested parties. Indeed, the Product Liability Claimants objected to and appealed the Sale Order and Injunction to specifically challenge this aspect of the 363 Sale. *See Campbell v. Motors Liquidation Co. (In re Motors Liquidation Co.)*, 428 B.R. 43 (S.D.N.Y. 2010). On appeal, although the District Court focused on the appellants' failure to seek a stay of the 363 Sale and on equitable mootness principles, it also found that this Court had jurisdiction to enjoin successor liability claims. *See id.* at 59-60. In its decision, the District Court further noted that the Sale Agreement and Sale Order and Injunction "made clear that [New GM] would not pursue the 363 Transaction unless the assets were sold free and clear of those liabilities [New GM] had not agreed to assume,

including the Existing Products Claims of Appellants . . . ." *Id.* at 48 (citing to Sale Order and Injunction, ¶ DD).

13. The Sale Order and Injunction was affirmed on appeal by two different District Court Judges. *Id.; Parker v. Motors Liquidation Co. (In re Motors Liquidation Co.)*, 430 B.R. 65 (S.D.N.Y. 2010). There were no further appeals.[7]

D. Upon Approval Of The Sale Agreement And Issuance Of The Sale Order And Injunction, New GM Assumed Certain Narrowly Defined Liabilities, But The Bulk Of Old GM's Liabilities Remained With Old GM

14. Under the Sale Agreement and the Sale Order and Injunction, New GM only became responsible for "Assumed Liabilities." *See* Sale Agreement § 2.3(a). These included liability claims for ***post-363 Sale accidents***, as well as the Glove Box Warranty, a warranty of limited duration (typically three years or 36,000 miles, whichever comes first) provided at the time of sale for repairs and replacement of parts. New GM assumed no other Old GM warranty obligations, express or implied:

> The Purchaser is assuming the obligations of the Sellers pursuant to and subject to conditions and limitations contained in their express written warranties, which were delivered in connection with the sale of vehicles and vehicle components prior to the Closing of the 363 Transaction and specifically identified as a "warranty." ***The Purchaser is not assuming responsibility for Liabilities contended to arise by virtue of other alleged warranties, including implied warranties and statements in materials such as, without limitation, individual customer communications, owner's manuals, advertisements, and other promotional materials, catalogs, and point of purchase materials.***

Sale Order and Injunction, ¶ 56 (emphasis added).

---

[7] The Product Liability Claimants appealed the District Court's decision, but pursuant to a stipulation so-ordered by the Second Circuit Court of Appeals on September 23, 2010, the appeal was withdrawn. The *Parker* decision was also appealed, but that appeal was dismissed as equitably moot because the appellant had not obtained a stay pending appeal. *See Parker v. Motors Liquidation Company*, Case No. 10-4882-bk (2d Cir. July 28, 2011).

15. Independent of the Assumed Liabilities under the Sale Agreement, New GM covenanted to perform Old GM's recall responsibilities under federal law. *See* Sale Agreement ¶ 6.15(a). But, with respect to pre-363 Sale accidents, there was nothing for New GM to recall.[8] Thus, New GM's recall covenant does not create a basis for Plaintiffs to sue New GM for damages relating to a vehicle sold by Old GM that was involved in an accident prior to the closing of the 363 Sale—events that predated New GM's very existence.

16. All liabilities of Old GM that were not expressly defined as Assumed Liabilities constituted "Retained Liabilities" that remained obligations of Old GM. Sale Agreement §§ 2.3(a), 2.3(b). Retained Liabilities include the claims asserted by Plaintiffs in the Pre-Closing Accident Lawsuits such as:

i. "[A]ll Product Liabilities arising in whole or in part from any accidents, incidents or other occurrences that happen prior to the Closing Date." Sale Agreement, § 2.3(b)(ix).

ii. [L]iabilities "arising out of, relating to or in connection with any (A) implied warranty or other implied obligation arising under statutory or common law without the necessity of an express warranty or (B) allegation, statement or writing by or attributable to Sellers." Sale Agreement § 2.3(b)(xvi), *see also id.* ¶ 6.15(a). This would include liability based on implied warranty and state consumer statutes (except Lemon Law claims).

iii. All liabilities (other than Assumed Liabilities) of Old GM based upon contract, tort or any other basis. Sale Agreement § 2.3(b)(xi). This covers claims based on, among others, negligence, conspiracy, concealment and fraud.

iv. All liabilities relating to vehicles sold by Old GM with a design defect.[9]

---

[8] In any event, there are no third-party beneficiary rights granted under the Sale Agreement with respect to the covenant to comply with NHTSA (*see* Sale Agreement § 9.11), and there is no private right of action for third parties to sue for a breach of a recall obligation. *See Ayers v. Gen. Motors*, 234 F.3d 514, 522-24 (11th Cir. 2000); *Handy v. Gen. Motors Corp.*, 518 F.2d 786, 787-88 (9th Cir 1975). Thus, New GM's recall covenant does not create any basis for the Plaintiffs to sue New GM.

[9] *See* Sale Order and Injunction, ¶ AA; *see also Trusky v. Gen. Motors LLC (In re Motors Liquidation Co.)*, Adv. Proc. No. 09–09803, 2013 WL 620281, at *2 (Bankr. S.D.N.Y. Feb. 19, 2013).

v. All Liabilities based on the conduct of Old GM including any allegation, statement or writing attributable to Old GM. This covers fraudulent concealment type claims. *See* Sale Order and Injunction, ¶ 56.

vi. All claims based on the doctrine of "successor liability." *See*, *e.g.*, Sale Order and Injunction, ¶ 46.

E. The Court's Sale Order And Injunction Expressly Protects New GM From Litigation Over Retained Liabilities, And The Injunction Expressly Bars Plaintiffs From Initiating And Pursuing Litigation Against New GM.

17. On July 10, 2009, the parties consummated the Sale. New GM acquired substantially all of the assets of Old GM free and clear of all liens, claims and encumbrances, except for the narrowly defined Assumed Liabilities. In particular, paragraphs 46, 9, and 8 of the Sale Order and Injunction provide that New GM would have no responsibility for any liabilities (except for Assumed Liabilities) relating to the operation of Old GM's business, or the production of vehicles and parts before July 10, 2009:

> Except for the Assumed Liabilities expressly set forth in the [Sale Agreement] . . . [New GM] . . . shall [not] have any liability for any claim that arose prior to the Closing Date, ***relates to the production of vehicles prior to the Closing Date***, or otherwise is assertable against [Old GM] . . . prior to the Closing Date . . . . Without limiting the foregoing, [New GM] shall not have any successor, transferee, derivative, or vicarious liabilities of any kind or character for any claims, including, but not limited to, under any theory of successor or transferee liability, de facto merger or continuity . . . and products . . . liability, ***whether known or unknown*** as of the Closing, now existing or hereafter arising, asserted or unasserted, fixed or contingent, liquidated or unliquidated.

Sale Order and Injunction, ¶ 46 (emphasis added); *see also id.*, ¶ 9(a) ("(i) no claims other than Assumed Liabilities, will be assertable against the Purchaser; (ii) the Purchased Assets [are] transferred to the Purchaser free and clear of all claims (other than Permitted Encumbrances) . . ."); and *id.*, ¶ 8 ("All persons and entities . . . holding claims against [Old GM] or the Purchased Assets arising under or out of, in connection with, or in any way relating to [Old GM], the Purchased Assets, ***the operation of the Purchased Assets*** prior to the Closing . . .

are forever barred, estopped, and permanently enjoined . . . from asserting [such claims] against [New GM]. . . .") (emphasis added).

18. Anticipating the possibility that New GM might be wrongfully sued for Retained Liabilities, the Sale Order and Injunction permanently enjoins claimants from asserting claims of the type made in the Pre-Closing Accident Lawsuits:

> [A]ll persons and entities . . . holding liens, claims and encumbrances, and other interests of any kind or nature whatsoever, including rights or claims based on any successor or transferee liability, against [Old GM] or the Purchased Assets (whether legal or equitable, secured or unsecured, ***matured or unmatured***, ***contingent or noncontingent***, senior or subordinated), ***arising under or out of, in connection with, or in any way relating to [Old GM], the Purchased Assets, the operation of the Purchased Assets prior to the Closing . . . are forever barred, estopped, and permanently enjoined . . . from asserting against [New GM] . . . such persons' or entities' liens, claims, encumbrances, and other interests, including rights or claims based on any successor or transferee liability***.

Sale Order and Injunction, ¶ 8 (emphasis added); *see also id.*, ¶ 47.

19. The Court specifically found that the provisions of the Sale Order and Injunction, as well as the Sale Agreement, were binding on all creditors, ***known and unknown*** alike. *See* Sale Order and Injunction, ¶ 6 ("This [Sale] Order and [Sale Agreement] "shall be binding in all respects upon the Debtors, their affiliates, ***all known and unknown creditors*** of, and holders of equity security interests in, any Debtor, including any holders of liens, claims, encumbrances, or other interests, including rights or claims based on any successor or transferee liability . . . ." (emphasis added)); *see also id.*, ¶ 46.

20. Because the Plaintiffs in the *Phillips* Action commenced a lawsuit against Old GM prior to the Petition Date, they were known creditors of Old GM and received notice of the Sale Motion and the relief requested therein.[10] *See* Certificate of Service, filed on June 15, 2009

[10] The Plaintiffs in the *Phillips* Action also filed four proofs of claim in Old GM's bankruptcy case and, after mediation, entered into a settlement with Old GM resolving those claims. Under the settlement, the Court

[Dkt. No. 973]. Upon information and belief, the Plaintiffs in the other Pre-Closing Accident Lawsuit had not filed a lawsuit against Old GM prior to the Petition Date, they were not listed as creditors on Old GM's books and records, and therefore they received notice of the 363 Sale by publication.

21. In short, except for Assumed Liabilities, claims based on Old GM vehicles remained the legal responsibility of Old GM, and are not the responsibility of New GM.

22. Finally, paragraph 71 of the Sale Order and Injunction makes this Court the gatekeeper to enforce its own Order. It provides for this Court's ***exclusive jurisdiction*** over matters and claims regarding the Sale, including jurisdiction to protect New GM against any Retained Liabilities of Old GM:

> ***This Court retains exclusive jurisdiction to enforce and implement the terms and provisions of this Order, the [Sale Agreement],*** all amendments thereto, any waivers and consents thereunder, and each of the agreements executed in connection therewith, . . ., in all respects, including, but not limited to, ***retaining jurisdiction to . . . (c) resolve any disputes arising under or related to the [Sale Agreement],*** except as otherwise provided therein, (d) ***interpret, implement, and enforce the provisions of this Order, (e) protect the Purchaser against any of the Retained Liabilities*** or the assertion of any lien, claim, encumbrance, or other interest, of any kind or nature whatsoever, against the Purchased Assets . . . . (Emphasis added.)

F. New GM Has Recalled Certain Vehicles And In Response, Plaintiffs Have Filed The Pre-Closing Accident Lawsuits

23. New GM informed NHTSA of a recall on February 7, 2014, of 2005-2007 model year (MY) Chevrolet Cobalt and 2007 Pontiac G5 vehicles. GM expanded this ignition switch recall on February 25, 2014 to include 2006-2007 MY Chevrolet HHR and Pontiac Solstice, 2003-2007 MY Saturn Ion, and 2007 MY Saturn Sky vehicles, and on March 27, 2014 to include certain Ignition & Start Switch service parts and Ignition & Start Switch Housing Kits that may

retained exclusive jurisdiction with respect to any claims thereunder. As part of their current lawsuit, the Plaintiffs in the *Phillips* Action are seeking to undo the settlement with Old GM.

have been installed during repairs in some 2008-2011 MY Chevrolet HHR, 2008-2010 MY Pontiac Solstice, 2008-2010 MY Pontiac G5, and 2008-2010 MY Saturn Sky vehicles (collectively referred to as the "**Cobalt/Ion Recall**"). This recall pertains to a problem with ignition switches in the above identified vehicles and parts manufactured by Old GM. Pursuant to the Cobalt/Ion Recall, New GM is to replace the ignition switches (at no cost to the owners). New GM sent recall notices approved by NHTSA to all vehicle owners subject to this recall.

24. The Cobalt/Ion Recall is underway and New GM already has started to replace the ignition switches. NHTSA, as the government agency responsible for overseeing the technical and highly-specialized domain of automotive safety defects and recalls, administers the rules concerning the content, timing, and means of delivering a recall notice to affected motorists and dealers. *See* 49 C.F.R. § 554.1; 49 U.S.C. § 30119. Other governmental agencies and Congress are also examining various issues relating to the Cobalt/Ion Recall.

25. Three of the four Pre-Closing Accident Lawsuits (as well as many of the Purported Edwards Plaintiffs (as defined below)) that are the subject of this Motion concerns vehicles that are the subject of the Cobalt/Ion Recall, and the Feinberg Protocol.

26. In addition to the Cobalt/Ion Recall, New GM has also instituted recalls for other model vehicles that concern different issues. The vehicle at issue in the *Phillips* Action is subject to a different ignition switch recall that is not eligible for the Feinberg Protocol. Moreover, while the Plaintiffs in the *Phillips* Action assert that the subject 2004 Chevrolet Malibu Classic was subject to recalls related to electric power steering and increased resistance in the Body Control Module, these recalls are inapplicable to the subject model vehicle. Even so, given the date of the accident in question, the Phillips' vehicle has not been in use since before the 363 Sale closed.

27. After the Cobalt/Ion Recall was announced, the Plaintiffs filed the Pre-Closing Accident Lawsuits against New GM, each of which has its genesis in accidents that occurred prior to the closing of the 363 Sale. It is expected that the number of Pre-Closing Accident Lawsuits will increase.

28. The Pre-Closing Accident Lawsuits assert claims that are barred by the Sale Agreement and the Sale Order and Injunction. Each of the Pre-Closing Accident Lawsuits are premised on an accident involving a vehicle manufactured and sold by Old GM that occurred prior to the closing of the 363 Sale. In their complaints, the Plaintiffs conflate Old GM and New GM, but the Sale Order and Injunction is clear that New GM is a separate entity from Old GM (*see* Sale Order and Injunction, ¶ R), and is not liable for successor liability claims (*see, e.g., id.*, ¶¶ 46, 47). Claims based on that factual predicate are Retained Liabilities and may not be brought against New GM.

29. This Court is uniquely situated to enforce its own Order. By this Motion, New GM requests that the Court enforce the Sale Order and Injunction by directing Plaintiffs (i) to cease and desist from pursuing claims for Retained Liabilities of Old GM against New GM, and (ii) to dismiss with prejudice the Pre-Closing Accident Lawsuits immediately.

G. <u>The Pre-Closing Accident Lawsuits</u>

30. While the Plaintiffs in the Pre-Closing Accident Lawsuits contort allegations in an effort to frame a cause of action against New GM, their efforts are futile. As demonstrated in the chart below, each of the complaints/petitions in the Pre-Closing Accident Lawsuits concern (i) a vehicle manufactured and sold ***by Old GM, and not New GM***, and (ii) an accident that occurred ***prior to the Closing Date of the 363 Sale***:[11]

---

[11] As noted above, certain similar lawsuits not listed in the chart have been voluntarily dismissed, without prejudice, by the Plaintiffs, pending their review of the Feinberg Protocol.

	Plaintiff Name	Date of Accident[12]	Vehicle Year and Model
1	Phillips	October 18, 2005	2004 Chevy Malibu Classic
2	Boyd[13]	January 22, 2008 (Marino) September 13, 2008 (Suarez-Marquez)	2007 Chevy Cobalt 2006 Chevy Cobalt
3	Vest	May 2, 2006	2005 Chevy Cobalt
4	Abney[14]	July 4, 2009 (Gray) July 6, 2009 (Page, A.) July 6, 2009 (Page, S.) July 9, 2009 (Stivers)	2006 Chevy Cobalt 2008 Chevy Cobalt 2009 Chevy Cobalt 2006 Chevy Cobalt

31. In addition to the Plaintiffs set forth in the chart above, a group of over 150 would-be plaintiffs (collectively, the "**Purported Edwards Plaintiffs**"), who are represented by counsel already involved in the Ignition Switch Motion to Enforce and in the Multi-District Litigation ("**MDL**") currently pending in the Southern District of New York relating to the Ignition Switch Actions, filed a motion ("**Motion for Leave**") on July 31, 2014 with the MDL court – and ***not*** this Court -- seeking leave to file a consolidated complaint against New GM based on claims that emanate from accidents that occurred ***prior to*** the closing of the 363 Sale.

32. Also on July 31, 2014, the Purported Edwards Plaintiffs filed with this Court a *Notice of Filing of Motion for Leave to File Omnibus Complaint with MDL Court* [Dkt. No. 12796] ("**Notice of Filing**"), which discusses the Motion for Leave, but does not seek relief

---

[12] Names in parentheses denote the individual plaintiffs that were in the referenced accidents.

[13] The *Boyd* Action concerns four different accidents, two that occurred prior to the closing of the 363 Sale and two that occurred after the closing of the 363 Sale. This Motion to Enforce concerns only the two accidents that occurred prior to the closing of the 363 Sale, and which are referenced in the chart above.

[14] The *Abney* Action was filed on behalf of 658 plaintiffs and concerns hundreds of different accidents, four of which occurred prior to the closing of the 363 Sale; the remainder occurred after the closing of the 363 Sale. This Motion to Enforce concerns only the four accidents that occurred prior to the closing of the 363 Sale, and which are referenced in the chart above.

from this Court.[15] In their Notice of Filing, the Purported Edwards Plaintiff clearly recognize that their purported claims are subject to the injunction provisions contained in the Sale Order and Injunction. *See* Notice of Filing, ¶ 3 (asserting that the Purported Edwards Plaintiffs are "mindful of this Court's sale order, plan injunction and various stay stipulations" and that if the Motion for Leave was granted, the Purported Edwards Plaintiffs "expect to enter into a stay stipulation" with respect to their claims so this Court can conduct an "orderly and coordinated process"). Yet, instead of filing the Motion for Leave in this Court – which would have been the proper procedure in view of the Court's exclusive jurisdiction over this issue -- they inexplicably filed the Motion for Leave with the MDL court. Given their actions, the Purported Edwards Plaintiffs are, for purposes herein, included within the defined term "Plaintiffs."

33. The Plaintiffs in the Pre-Closing Accident Lawsuits allege various facts based on New GM's recent recalls of various models of pre-closing date vehicles. However, such recalls do not change the fact that New GM did not assume these liabilities. All of the accidents and injuries at issue in these lawsuits occurred prior to the closing date of the 363 Sale and therefore relate solely to Old GM's conduct. Plaintiffs have not, and cannot, allege any cognizable facts against New GM that would form the basis of valid claims against New GM.

H. <u>New GM Has Adopted the Feinberg Protocol</u>

34. On April 1, 2014, New GM announced that it retained Kenneth Feinberg as a consultant to explore and evaluate actions it may take to assist families of accident victims whose vehicles were the subject of the Cobalt/Ion Recall. Mr. Feinberg was asked to consider, in an independent, balanced and objective manner, the options available to New GM for

---

[15] A copy of the Notice of Filing is annexed hereto as Exhibit "H."

addressing issues related to the Cobalt/Ion Recall and possible compensation for accident victims.

35. On or about June 30, 2014, Mr. Feinberg presented his protocol to the public. The Feinberg Protocol sets forth the eligibility and process requirements for individual claimants to submit and settle claims alleging that a defective ignition switch subject to the Cobalt/Ion Recall caused a death or physical injury in an automobile accident. The individual on whose behalf a claim is filed must have been the driver, a passenger, a pedestrian, or the occupant of another vehicle in an accident involving one of the "Eligible Vehicles" (as defined in the Feinberg Protocol). Pursuant to the Feinberg Protocol, claims will be accepted beginning August 1, 2014.

36. The Feinberg Protocol creates a Claims Resolution Facility ("**Facility**") under which Mr. Feinberg (as an independent administrator) will process and evaluate claims to determine: (i) whether a submitted claim meets the eligibility requirements under the Feinberg Protocol, and (ii) the compensation to be paid for eligible claims. The Facility is authorized to process ***only*** those eligible claims involving death or physical injury (as defined in the Feinberg Protocol) caused by a defective ignition switch in an Eligible Vehicle. No claims for economic injury or other allegations of damage (whether based on a defective ignition switch or otherwise) are eligible under the Feinberg Protocol.

37. Accident victims who are eligible under the Feinberg Protocol may choose to participate in that program and, if their claims are accepted, will be compensated in an amount determined by the Facility. Claimant eligibility and compensation awards under the Feinberg Protocol are decided by Mr. Feinberg in his sole discretion. Eligible accident victims who fail or decline to opt into the Feinberg Protocol, and other parties who are not eligible under the

Feinberg Protocol, are barred pursuant to the Sale Order and Injunction from asserting claims against New GM that are based on Retained Liabilities of Old GM.[16]

NEW GM'S ARGUMENT TO ENFORCE THE COURT'S SALE ORDER AND INJUNCTION AGAINST THE PLAINTIFFS IN THE PRE-CLOSING ACCIDENT LAWSUITS

38. The Plaintiffs in the Pre-Closing Accident Lawsuits do not have the choice of simply ignoring the Court's Sale Order and Injunction. As the Supreme Court expressed in its *Celotex* decision:

> If respondents believed the Section 105 Injunction was improper, they should have challenged it in the Bankruptcy Court, like other similarly situated bonded judgment creditors have done . . . Respondents chose not to pursue this course of action, but instead to collaterally attack the Bankruptcy Court's Section 105 Injunction in the federal courts in Texas. This they cannot be permitted to do without seriously undercutting the orderly process of the law.

514 U.S. at 313. These settled principles bind Plaintiffs in the Pre-Closing Accident Lawsuits. Those who purchased vehicles from Old GM and were involved in accidents that occurred before the 363 Sale are subject to the terms of the Court's Sale Order and Injunction, whether they were known or unknown by Old GM at the time, and are barred by this Court's Injunction from suing New GM on account of Old GM's Retained Liabilities.

A. This Court's Sale Order And Injunction Should Be Enforced

39. It is well settled that a "Bankruptcy Court plainly ha[s] jurisdiction to interpret and enforce its own prior orders." *See Travelers Indem. Co. v. Bailey*, 557 U.S. 137, 151 (2009); *In re Wilshire Courtyard*, 729 F.3d 1279, 1290 (9th Cir. 2013) (affirming bankruptcy court's post-confirmation jurisdiction to interpret and enforce its orders; "[i]nterpretation of the Plan and

---

[16] The Plaintiffs in the *Boyd*, *Vest* and *Abney* Actions, as well as many of the Purported Edwards Plaintiffs, may be eligible under the Feinberg Protocol. While the Plaintiffs in the *Philips* Action are not eligible under the Feinberg Protocol (as their accident did not concern an Eligible Vehicle), they have already received compensation from the Old GM bankruptcy estate pursuant to their previous settlement with Old GM.

Confirmation Order is the only way for a court to determine the essential character of the negotiated Plan transactions in a way that reflects the deal the parties struck in chapter 11 proceedings"); *In re Cont'l Airlines, Inc.*, 236 B.R. 318, 326 (Bankr. D. Del. 1999) ("In the bankruptcy context, courts have specifically, and consistently, held that the bankruptcy court retains jurisdiction, inter alia, to enforce its confirmation order."); *U.S. Lines, Inc. v. GAC Marine Fuels, Ltd. (In re McClean Indus., Inc.)*, 68 B.R. 690, 695 (Bankr. S.D.N.Y. 1986) ("[a]ll courts, whether created pursuant to Article I or Article III, have inherent contempt power to enforce compliance with their lawful orders. The duty of any court to hear and resolve legal disputes carries with it the power to enforce the order."). In addition, Section 105(a) of the Bankruptcy Code provides that "[t]he court may issue any order, process, or judgment that is necessary or appropriate to carry out" the Bankruptcy Code's provisions, and this section "codif[ies] the bankruptcy court's inherent power to enforce its own orders." *Back v. LTV Corp. (In re Chateaugay Corp.)*, 213 B.R. 633, 640 (S.D.N.Y. 1997); 11 U.S.C. § 105(a).

40. Consistent with these authorities, this Court retained subject matter jurisdiction to enforce its Sale Order and Injunction. Indeed, this is not the first time that this Court has been asked to enforce its injunction against plaintiffs improperly seeking to sue New GM for Old GM's Retained Liabilities. *See In re Motors Liquidation Co.*, No. 09-50026 (REG), 2011 WL 6119664 (Bankr. S.D.N.Y. 2011) (ordering various plaintiffs to dismiss with prejudice civil actions in which they had brought claims against New GM that are barred by the Sale Order and Injunction); *Castillo v. Gen. Motors Co. (In re Motors Liquidation Co.)*, Adv. Proc. No. 09-00509 (Bankr. S.D.N.Y.), Hr'g Tr. 9:3-9:14, May 6, 2010 ("when you are looking for a declaratory judgment on an agreement that I approved [*i.e.*, the Sale Agreement] that was affected by an order that I entered [*i.e.*, the Sale Order and Injunction], and with the issues permeated by bankruptcy law as they are, and which also raise issues as to one or more

injunctions that I entered, ***how in the world would you have brought this lawsuit in Delaware Chancery Court. I'm not talking about getting in personam jurisdiction or whether you can get venue over a Delaware corporation in Delaware. I'm talking about what talks and walks and quacks like an intentional runaround of something that's properly on the watch of the U.S. Bankruptcy Court for the Southern District of New York.***" (emphasis added)); *Castillo*, 2012 WL 1339496 (entering judgment in favor of New GM) (affirmed by 500 B.R. 333, 335 (S.D.N.Y. 2013)); *see also Trusky*, 2013 WL 620281, at *2 (finding that "claims for design defects [of 2007-2008 Chevrolet Impalas] may not be asserted against New GM and that "New GM is not liable for Old GM's conduct or alleged breaches of warranty").

41. New GM also recently filed a motion to enforce the Sale Order and Injunction against the plaintiffs who filed the Ignition Switch Actions. Recognizing its continuing jurisdiction over the issues raised in those actions, this Court entered Scheduling Orders on May 16, 2014 and July 11, 2014, establishing procedures for the resolution of the issues raised in that motion by this Court.

42. Much like the plaintiffs in the Ignition Switch Actions, and contrary to New GM's bargained for rights under the Sale Agreement and the Court's Sale Order and Injunction, Plaintiffs in the Pre-Closing Accident Lawsuits are suing New GM for alleged defects in Old GM vehicles. Plaintiffs may not simply ignore the Court's injunction through these collateral attacks, especially when the Sale Order and Injunction is a final order no longer subject to appeal. *See Celotex*, 514 U.S. at 306, 313 ("'persons subject to an injunctive order issued by a court with jurisdiction are expected to obey that decree until it is modified or reversed'") (quoting *GTE Sylvania, Inc. v. Consumers Union of U.S., Inc.*, 445 U.S. 375, 386 (1980)); *Pratt v. Ventas, Inc.*, 365 F.3d 514, 520 (6th Cir. 2004) (applying doctrine to dismiss suits filed in violation of injunction in confirmation order entered by bankruptcy court); *In re McGhan*, 288

F.3d 1172, 1180-81 (9th Cir. 2002) (applying doctrine to enforce discharge order in favor of debtors and holding that only the bankruptcy court could grant relief from the order); *see also In re Gruntz*, 202 F.3d 1074, 1082 (9th Cir. 2000) (applying this doctrine in the context of an automatic stay entered by the bankruptcy court); *Spartan Mills v. Bank of Am. Ill.*, 112 F.3d 1251 (4th Cir. 1997) (applying doctrine to bankruptcy court order approving sales of assets free and clear of liens).

B. New GM Is Not Liable For Damages Arising From Accidents That Took Place Prior to the Closing Of The 363 Sale

43. The Sale Order and Injunction could not be more clear. Retained Liabilities of Old GM for which New GM has no liability expressly include "all Product Liabilities arising in whole or in part from any accidents, incidents or other occurrences that happen prior to the Closing Date." Sale Agreement, § 2.3(b)(ix). "Product Liabilities" was defined by the Sale Agreement as

> all Liabilities to third parties for death, personal injury, or other injury to Persons or damage to property caused by motor vehicles designed for operation on public roadways or by the component parts of such motor vehicles and, in each case, manufactured, sold or delivered by Sellers (collectively, "Product Liabilities") . . .

Sale Agreement, § 2.3(a)(ix).

44. In its objection to the 363 Sale, the Ad Hoc Committee of Consumer Victims recognized that while New GM was agreeing to assume certain liabilities of Old GM, it was not agreeing to assume "Product Liabilities" arising out of accidents that took place prior to the 363 Sale. The Ad Hoc Committee of Consumer Victims argued, among other things, that New GM's refusal to "assume successor for pre-closing product liability claims . . . [was] not in good faith." Objection to 363 Sale by Ad Hoc Committee of Consumer Victims [Dkt. No. 1997], ¶ 33. As noted, the Court considered that and other objections, and after a contested hearing, overruled all

objections to the Sale Motion, including those raised by the Ad Hoc Committee of Consumer Victims.[17] *See* Sale Order and Injunction, ¶ 2.

45. In addition, the Court previously was asked to decide whether a claim against New GM that was based on a prepetition accident was barred by the Sale Order and Injunction. Specifically, after the Estate of Beverly Deutsch ("**Deutsch**") commenced a state court action against New GM that arose from an accident in June, 2007, New GM asked this Court to enjoin Deutsch from prosecuting the state court action because it was barred by the terms of the Sale Agreement and Sale Order and Injunction. While the issue in Deutsch concerned an interpretation of the difference between "accident" and "incident" (as Deutsch argued that the accident occurred before the 363 Sale, but the death of the driver was a separate "incident" that occurred after the 363 Sale), the end result is applicable here. Deutsch did not have a claim against New GM because the accident occurred prior to the closing of the 363 Sale.[18]

46. Like the claimant in Deutsch, Plaintiffs have no claims against New GM. The claims asserted by the Plaintiffs in each of the Pre-Closing Accident Lawsuits (i) concern a vehicle manufactured and sold by Old GM; (ii) arise directly from an accident that occurred prior to the Closing Date; and (iii) arise from the vehicles' operation or performance. Accordingly, Plaintiffs' claims in the Pre-Closing Accident Lawsuits fit squarely within the definition of Retained Liabilities in Section 2.3(b)(ix) of the Sale Agreement. Such claims were not assumed by New GM as part of the 363 Sale but were, for all purposes, retained by Old GM. Thus, Plaintiffs' prosecution against New GM of the Pre-Closing Accident Lawsuits is a direct

---

[17] The Ad Hoc Committee of Consumer Victims had "more than 300 members who each have product liability tort claims involving personal injuries (including derivative claims and wrongful death claims) against GM." Objection to 363 Sale by Ad Hoc Committee of Consumer Victims, ¶ 4.

[18] *See* "Decision on New GM's Motion to Enforce Section 363 Order With Respect To Product Liability Claim of Estate of Beverly Deutsch," dated January 5, 2011 [Dkt. No. 8383] ("**Deutsch Decision**"). A copy of the Deutsch Decision is annexed hereto as Exhibit "I."

violation of the Sale Order and Injunction, and Plaintiffs should be barred from continuing to prosecute those cases.

C. New GM Cannot Be Held Liable For Old GM's Alleged Conduct, Either Directly Or As Old GM's Alleged "Successor"

47. Each of the Pre-Closing Accident Lawsuits involve vehicles manufactured and sold by Old GM prior to the Sale Order and Injunction. *See* Chart, *supra*, at ¶ 30. The complaints in the Pre-Closing Accident Lawsuits are similar, and while they reflect an effort to plead around the Court's Sale Order and Injunction, they in fact all make the same allegations concerning Old GM: it designed and sold vehicles with a defect that caused personal injuries prior to the closing of the 363 Sale. Additionally, they all seek to hold New GM liable for damages based on Old GM's conduct—claims that are prohibited by the Sale Order and Injunction. In short, as this Court previously held, New GM did not assume any liabilities based on Old GM's conduct or design defects in any of Old GM's vehicles. *See Trusky*, 2013 WL 620281, at *2.

48. Similarly, by conflating Old GM and New GM, Plaintiffs attempt to impose "successor" liability upon New GM, but New GM is not a successor to Old GM and did not assume any liabilities in connection with successor or transferee liability. This is expressly provided by the Court's Sale Order and Injunction:

> The Purchaser shall not be deemed, as a result of any action taken in connection with the [Sale Agreement] or any of the transactions or documents ancillary thereto or contemplated thereby or in connection with the acquisition of the Purchased Assets, to: (i) be a legal successor, or otherwise be deemed a successor to the Debtors (other than with respect to any obligations arising under the Purchased Assets from and after the Closing); (ii) have, de facto or otherwise, merged with or into the Debtors; or (iii) be a mere continuation or substantial continuation of the Debtors or the enterprise of the Debtors. Without limiting the foregoing, the Purchaser (New GM) shall not have any successor, transferee, derivative, or vicarious liabilities of any kind or character for any claims, including, but not limited to, under any theory of successor or transferee liability,

> de facto merger or continuity, environmental, labor and employment, and products or antitrust liability, whether known or unknown as of the Closing, now existing or hereafter arising, asserted, or unasserted, fixed or contingent, liquidated or unliquidated.

Sale Order and Injunction ¶ 46; *see also id.*, ¶¶ AA, BB, DD, 6, 7, 8, 10 and 47; Sale Agreement § 9.19.

49. **P**laintiffs' successor liability allegations are simply a violation of this Court's Sale Order and Injunction. But whether or not they expressly allege successor liability, Plaintiffs' claims against New GM based on Old GM's conduct are essentially successor liability claims cast in a different way and are precluded by that Order.

D. Plaintiffs' Warranty Assertions Do Not Enable Them To Circumvent The Court's Sale Order And Injunction

50. The Glove Box Warranty is for a limited duration and all of the vehicles that are the subject of the Pre-Closing Accident Lawsuits were sold considerably more than three years ago (the most recent accident occurred almost six years ago). Thus, the Glove Box Warranty for each vehicle at issue has expired. In any event, the Glove Box Warranty provides only for repairs and replacement parts.

51. This distinction is not unique to Old GM's Sale. In the *Chrysler* bankruptcy case, the court likewise found that the assumed liabilities were limited to the standard limited warranty of repair issued in connection with sales of vehicles. *See, e.g., Burton v. Chrysler Group, LLC (In re Old Carco LLC)*, 492 B.R. 392, 404 (Bankr. S.D.N.Y. 2013) ("New Chrysler did agree to honor warranty claims — the Repair Warranty. None of the statements attributed to New Chrysler state or imply that it assumed liability to pay consequential or other damages based upon pre-existing defects in vehicles manufactured and sold by Old Carco.").

52. Similarly, the Sale Agreement and the Sale Order and Injunction provide that the implied warranty claims asserted by Plaintiffs here are Retained Liabilities for which New GM is

not responsible. *See* Sale Order and Injunction, ¶ 56 (New GM "is not assuming responsibility for Liabilities contended to arise by virtue of other alleged warranties, including implied warranties and statements in materials such as, without limitation, individual customer communications, owner's manuals, advertisements, and other promotional materials, catalogs and point of purchase materials." (emphasis added)); *see also* Sale Agreement § 2.3(b)(xvi) (one of the Retained Liabilities of Old GM was any liabilities "arising out of, related to or in connection with any (A) implied warranty or other implied obligation arising under statutory or common law without the necessity of an express warranty or (B) allegation, statement or writing by or attributable to [Old GM]." (emphasis added)).

53. In short, any breach of warranty claims Plaintiffs pursue relating to Old GM vehicles (whether express or implied) improperly seek damages against New GM in violation of the Sale Order and Injunction.

CONCLUSION

54. New GM was created to purchase the assets of Old GM pursuant to the Sale Agreement. The limited category of liabilities it agreed to assume as part of the purchase was the product of a negotiated bargain, which was approved by this Court in July 2009. Plaintiffs in the Pre-Closing Accident Lawsuits have completely ignored this; they improperly treat New GM and Old GM interchangeability and are pursuing Old GM claims that they cannot lawfully pursue against New GM; and they wrongfully have filed suit in violation of this Court's Sale Order and Injunction.

55. New GM has no liability or responsibility for the Retained Liability claims asserted in the Pre-Closing Accident Lawsuits and, under the Sale Order and Injunction, Plaintiffs in such Actions are enjoined from bringing them against New GM. *See, e.g.*, Sale Order and Injunction, ¶¶ 8, 47. Accordingly, the Court should enforce the terms of its Sale Order

and Injunction by ordering Plaintiffs to promptly dismiss the Pre-Closing Accident Lawsuits, and to cease and desist from all efforts to assert such claims against New GM that are barred by the Sale Order and Injunction. Of course, as noted, those Plaintiffs eligible to participate in the Feinberg Protocol may do so.

NOTICE AND NO PRIOR REQUESTS

56. Notice of this Motion has been provided to (a) counsel for Plaintiffs in each of the Pre-Closing Accident Lawsuits, (b) counsel for Motors Liquidation Company General Unsecured Creditors Trust, and (c) the Office of the United States Trustee. New GM submits that such notice is sufficient and no other or further notice need be provided.

57. No prior request for the relief sought in this Motion has been made to this or any other Court.

WHEREFORE, New GM respectfully requests that this Court: (i) enter an order substantially in the form set forth as Exhibit "J" hereto, granting the relief sought herein; and (ii) grant New GM such other and further relief as the Court may deem just and proper.

AMENDED AND RESTATED MASTER SALE AND PURCHASE AGREEMENT

THIS AMENDED AND RESTATED MASTER SALE AND PURCHASE AGREEMENT (this "Agreement"), dated as of June 26, 2009, is made by and among General Motors Corporation, a Delaware corporation ("Parent"), Saturn LLC, a Delaware limited liability company ("S LLC"), Saturn Distribution Corporation, a Delaware corporation ("S Distribution"), Chevrolet-Saturn of Harlem, Inc., a Delaware corporation ("Harlem," and collectively with Parent, S LLC and S Distribution, "Sellers," and each a "Seller"), and NGMCO, Inc., a Delaware corporation and successor-in-interest to Vehicle Acquisition Holdings LLC, a Delaware limited liability company ("Purchaser").

WHEREAS, on June 1, 2009 (the "Petition Date"), the Parties entered into that certain Master Sale and Purchase Agreement (the "Original Agreement"), and, in connection therewith, Sellers filed voluntary petitions for relief (the "Bankruptcy Cases") under Chapter 11 of Title 11, U.S.C. §§ 101 et seq., as amended (the "Bankruptcy Code"), in the United States Bankruptcy Court for the Southern District of New York (the "Bankruptcy Court");

WHEREAS, pursuant to Sections 363 and 365 of the Bankruptcy Code, Sellers desire to sell, transfer, assign, convey and deliver to Purchaser, and Purchaser desires to purchase, accept and acquire from Sellers all of the Purchased Assets (as hereinafter defined) and assume and thereafter pay or perform as and when due, or otherwise discharge, all of the Assumed Liabilities (as hereinafter defined), in each case, in accordance with the terms and subject to the conditions set forth in this Agreement and the Bankruptcy Code;

WHEREAS, on the Petition Date, Purchaser entered into equity subscription agreements with each of Canada, Sponsor and the New VEBA (each as hereinafter defined), pursuant to which Purchaser has agreed to issue, on the Closing Date (as hereinafter defined), the Canada Shares, the Sponsor Shares, the VEBA Shares, the VEBA Note and the VEBA Warrant (each as hereinafter defined);

WHEREAS, pursuant to the equity subscription agreement between Purchaser and Canada, Canada has agreed to (i) contribute on or before the Closing Date an amount of Indebtedness (as hereinafter defined) owed to it by General Motors of Canada Limited ("GMCL"), which results in not more than $1,288,135,593 of such Indebtedness remaining an obligation of GMCL, to Canada immediately following the Closing (the "Canadian Debt Contribution") and (ii) exchange immediately following the Closing the $3,887,000,000 loan to be made by Canada to Purchaser for additional shares of capital stock of Purchaser;

WHEREAS, the transactions contemplated by this Agreement are in furtherance of the conditions, covenants and requirements of the UST Credit Facilities (as hereinafter defined) and are intended to result in a rationalization of the costs, capitalization and capacity with respect to the manufacturing workforce of, and suppliers to, Sellers and their Subsidiaries (as hereinafter defined);

WHEREAS, it is contemplated that Purchaser may, in accordance with the terms of this Agreement, prior to the Closing (as hereinafter defined), engage in one or more related transactions (the "Holding Company Reorganization") generally designed to reorganize

Purchaser and one or more newly-formed, direct or indirect, wholly-owned Subsidiaries of Purchaser into a holding company structure that results in Purchaser becoming a direct or indirect, wholly-owned Subsidiary of a newly-formed Delaware corporation ("Holding Company"); and

WHEREAS, it is contemplated that Purchaser may, in accordance with the terms of this Agreement, direct the transfer of the Purchased Assets on its behalf by assigning its rights to purchase, accept and acquire the Purchased Assets and its obligations to assume and thereafter pay or perform as and when due, or otherwise discharge, the Assumed Liabilities, to Holding Company or one or more newly-formed, direct or indirect, wholly-owned Subsidiaries of Holding Company or Purchaser.

NOW, THEREFORE, in consideration of the foregoing and the mutual agreements contained in this Agreement, and for other good and valuable consideration, the value, receipt and sufficiency of which are acknowledged, the Parties (as hereinafter defined) hereby agree as follows:

ARTICLE I
DEFINITIONS

Section 1.1 Defined Terms. As used in this Agreement, the following terms have the meanings set forth below or in the Sections referred to below:

"Adjustment Shares" has the meaning set forth in **Section 3.2(c)(i)**.

"Advisory Fees" has the meaning set forth in **Section 4.20**.

"Affiliate" has the meaning set forth in Rule 12b-2 of the Exchange Act.

"Affiliate Contract" means a Contract between a Seller or a Subsidiary of a Seller, on the one hand, and an Affiliate of such Seller or Subsidiary of a Seller, on the other hand.

"Agreed G Transaction" has the meaning set forth in **Section 6.16(g)(i)**.

"Agreement" has the meaning set forth in the Preamble.

"Allocation" has the meaning set forth in **Section 3.3**.

"Alternative Transaction" means the sale, transfer, lease or other disposition, directly or indirectly, including through an asset sale, stock sale, merger or other similar transaction, of all or substantially all of the Purchased Assets in a transaction or a series of transactions with one or more Persons other than Purchaser (or its Affiliates).

"Ancillary Agreements" means the Parent Warrants, the UAW Active Labor Modifications, the UAW Retiree Settlement Agreement, the VEBA Warrant, the Equity Registration Rights Agreement, the Bill of Sale, the Assignment and Assumption Agreement, the Novation Agreement, the Government Related Subcontract Agreement, the Intellectual Property Assignment Agreement, the Transition Services Agreement, the Quitclaim Deeds, the

Assignment and Assumption of Real Property Leases, the Assignment and Assumption of Harlem Lease, the Master Lease Agreement, the Subdivision Master Lease (if required), the Saginaw Service Contracts (if required), the Assignment and Assumption of Willow Run Lease, the Ren Cen Lease, the VEBA Note and each other agreement or document executed by the Parties pursuant to this Agreement or any of the foregoing and each certificate and other document to be delivered by the Parties pursuant to **ARTICLE VII**.

"Antitrust Laws" means all Laws that (i) are designed or intended to prohibit, restrict or regulate actions having the purpose or effect of monopolization or restraint of trade or the lessening of competition through merger or acquisition or (ii) involve foreign investment review by Governmental Authorities.

"Applicable Employee" means all (i) current salaried employees of Parent and (ii) current hourly employees of any Seller or any of its Affiliates (excluding Purchased Subsidiaries and any dealership) represented by the UAW, in each case, including such current salaried and current hourly employees who are on (a) long-term or short-term disability, military leave, sick leave, family medical leave or some other approved leave of absence or (b) layoff status or who have recall rights.

"Arms-Length Basis" means a transaction between two Persons that is carried out on terms no less favorable than the terms on which the transaction would be carried out by unrelated or unaffiliated Persons, acting as a willing buyer and a willing seller, and each acting in his own self-interest.

"Assignment and Assumption Agreement" has the meaning set forth in **Section 7.2(c)(v)**.

"Assignment and Assumption of Harlem Lease" has the meaning set forth in **Section 7.2(c)(xiii)**.

"Assignment and Assumption of Real Property Leases" has the meaning set forth in **Section 7.2(c)(xii)**.

"Assignment and Assumption of Willow Run Lease" has the meaning set forth in **Section 6.27(e)**.

"Assumable Executory Contract" has the meaning set forth in **Section 6.6(a)**.

"Assumable Executory Contract Schedule" means Section 1.1A of the Sellers' Disclosure Schedule.

"Assumed Liabilities" has the meaning set forth in **Section 2.3(a)**.

"Assumed Plans" has the meaning set forth in **Section 6.17(e)**.

"Assumption Effective Date" has the meaning set forth in **Section 6.6(d)**.

"Bankruptcy Avoidance Actions" has the meaning set forth in **Section 2.2(b)(xi)**.

"Bankruptcy Cases" has the meaning set forth in the Recitals.

"Bankruptcy Code" has the meaning set forth in the Recitals.

"Bankruptcy Court" has the meaning set forth in the Recitals.

"Benefit Plans" has the meaning set forth in **Section 4.10(a)**.

"Bidders" has the meaning set forth in **Section 6.4(c)**.

"Bids" has the meaning set forth in **Section 6.4(c)**.

"Bill of Sale" has the meaning set forth in **Section 7.2(c)(iv)**.

"Business Day" means any day that is not a Saturday, Sunday or other day on which banks are required or authorized by Law to be closed in the City of New York, New York.

"CA" has the meaning set forth in **Section 6.16(g)(i)**.

"Canada" means 7176384 Canada Inc., a corporation organized under the Laws of Canada, and a wholly-owned subsidiary of Canada Development Investment Corporation, and its successors and assigns.

"Canada Affiliate" has the meaning set forth in **Section 9.22**.

"Canada Shares" has the meaning set forth in **Section 5.4(c)**.

"Canadian Debt Contribution" has the meaning set forth in the Recitals.

"Claims" means all rights, claims (including any cross-claim or counterclaim), investigations, causes of action, choses in action, charges, suits, defenses, demands, damages, defaults, assessments, rights of recovery, rights of set-off, rights of recoupment, litigation, third party actions, arbitral proceedings or proceedings by or before any Governmental Authority or any other Person, of any kind or nature, whether known or unknown, accrued, fixed, absolute, contingent or matured, liquidated or unliquidated, due or to become due, and all rights and remedies with respect thereto.

"Claims Estimate Order" has the meaning set forth in **Section 3.2(c)(i)**.

"Closing" has the meaning set forth in **Section 3.1**.

"Closing Date" has the meaning set forth in **Section 3.1**.

"Collective Bargaining Agreement" means any collective bargaining agreement or other written or oral agreement, understanding or mutually recognized past practice with respect to Employees, between any Seller (or any Subsidiary thereof) and any labor organization or other Representative of Employees (including the UAW Collective Bargaining Agreement, local agreements, amendments, supplements and letters and memoranda of understanding of any kind).

"Common Stock" has the meaning set forth in **Section 5.4(b)**.

"Confidential Information" has the meaning set forth in **Section 6.24.**

"Confidentiality Period" has the meaning set forth in **Section 6.24**.

"Continuing Brand Dealer Agreement" means a United States dealer sales and service Contract related to one or more of the Continuing Brands, together with all other Contracts between any Seller and the relevant dealer that are related to the dealership operations of such dealer other than Contracts identified on Section 1.1B of the Sellers' Disclosure Schedule, each of which Contract identified on Section 1.1B of the Sellers' Disclosure Schedule shall be deemed to be a Rejectable Executory Contract.

"Continuing Brands" means each of the following vehicle line-makes, currently distributed in the United States by Parent or its Subsidiaries: Buick, Cadillac, Chevrolet and GMC.

"Contracts" means all purchase orders, sales agreements, supply agreements, distribution agreements, sales representative agreements, employee or consulting agreements, leases, subleases, licenses, product warranty or service agreements and other binding commitments, agreements, contracts, arrangements, obligations and undertakings of any nature (whether written or oral, and whether express or implied).

"Copyright Licenses" means all Contracts naming a Seller as licensee or licensor and providing for the grant of any right to reproduce, publicly display, publicly perform, distribute, create derivative works of or otherwise exploit any works covered by any Copyright.

"Copyrights" means all domestic and foreign copyrights, whether registered or unregistered, including all copyright rights throughout the universe (whether now or hereafter arising) in any and all media (whether now or hereafter developed), in and to all original works of authorship (including all compilations of information or marketing materials created by or on behalf of any Seller), acquired, owned or licensed by any Seller, all applications, registrations and recordings thereof (including applications, registrations and recordings in the United States Copyright Office or in any similar office or agency of the United States or any other country or any political subdivision thereof) and all reissues, renewals, restorations, extensions and revisions thereof.

"Cure Amounts" means all cure amounts payable in order to cure any monetary defaults required to be cured under Section 365(b)(1) of the Bankruptcy Code or otherwise to effectuate, pursuant to the Bankruptcy Code, the assumption by the applicable Seller and assignment to Purchaser of the Purchased Contracts.

"Damages" means any and all Losses, other than punitive damages.

"Dealer Agreement" has the meaning set forth in **Section 4.17**.

"Deferred Executory Contract" has the meaning set forth in **Section 6.6(c)**.

"Deferred Termination Agreements" has the meaning set forth in **Section 6.7(a)**.

"Delayed Closing Entities" has the meaning set forth in **Section 6.35**.

"Delphi" means Delphi Corporation.

"Delphi Motion" means the motion filed by Parent with the Bankruptcy Court in the Bankruptcy Cases on June 20, 2009, seeking authorization and approval of (i) the purchase, and guarantee of purchase, of certain assets of Delphi, (ii) entry into certain agreements in connection with the sale of substantially all of the remaining assets of Delphi to a third party, (iii) the assumption of certain Executory Contracts in connection with such sale, (iv) entry into an agreement with the PBGC in connection with such sale and (v) entry into an alternative transaction with the successful bidder in the auction for the assets of Delphi.

"Delphi Transaction Agreements" means (i) either (A) the MDA, the SPA, the Loan Agreement, the Operating Agreement, the Commercial Agreements and any Ancillary Agreements (in each case, as defined in the Delphi Motion), which any Seller is a party to, or (B) in the event that an Acceptable Alternative Transaction (as defined in the Delphi Motion) is consummated, any agreements relating to the Acceptable Alternative Transaction, which any Seller is a party to, and (ii) in the event that the PBGC Agreement is entered into at or prior to the Closing, the PBGC Agreement (as defined in the Delphi Motion) and any ancillary agreements entered into pursuant thereto, which any Seller is a party to, as each of the agreements described in clauses (i) or (ii) hereof may be amended from time to time.

"DIP Facility" means that certain Secured Superpriority Debtor-in-Possession Credit Agreement entered into or to be entered into by Parent, as borrower, certain Subsidiaries of Parent listed therein, as guarantors, Sponsor, as lender, and Export Development Canada, as lender.

"Discontinued Brand Dealer Agreement" means a United States dealer sales and service Contract related to one or more of the Discontinued Brands, together with all other Contracts between any Seller and the relevant dealer that are related to the dealership operations of such dealer other than Contracts identified on Section 1.1B of the Sellers' Disclosure Schedule, each of which Contract identified on Section 1.1B of the Sellers' Disclosure Schedule shall be deemed to be a Rejectable Executory Contract.

"Discontinued Brands" means each of the following vehicle line-makes, currently distributed in the United States by Parent or its Subsidiaries: Hummer, Saab, Saturn and Pontiac.

"Disqualified Individual" has the meaning set forth in **Section 4.10(f)**.

"Employees" means (i) each employee or officer of any of Sellers or their Affiliates (including (a) any current, former or retired employees or officers, (b) employees or officers on long-term or short-term disability, military leave, sick leave, family medical leave or some other approved leave of absence and (c) employees on layoff status or with recall rights); (ii) each consultant or other service provider of any of Sellers or their Affiliates who is a former employee, officer or director of any of Sellers or their Affiliates; and (iii) each individual recognized under any Collective Bargaining Agreement as being employed by or having rights to

employment by any of Sellers or their Affiliates. For the avoidance of doubt, Employees includes all employees of Sellers or any of their Affiliates, whether or not Transferred Employees.

"Employment-Related Obligations" means all Liabilities arising out of, related to, in respect of or in connection with employment relationships or alleged or potential employment relationships with Sellers or any Affiliate of Sellers relating to Employees, leased employees, applicants, and/or independent contractors or those individuals who are deemed to be employees of Sellers or any Affiliate of Sellers by Contract or Law, whether filed or asserted before, on or after the Closing. "Employment-Related Obligations" includes Claims relating to discrimination, torts, compensation for services (and related employment and withholding Taxes), workers' compensation or similar benefits and payments on account of occupational illnesses and injuries, employment Contracts, Collective Bargaining Agreements, grievances originating under a Collective Bargaining Agreement, wrongful discharge, invasion of privacy, infliction of emotional distress, defamation, slander, provision of leave under the Family and Medical Leave Act of 1993, as amended, or other similar Laws, car programs, relocation, expense-reporting, Tax protection policies, Claims arising out of WARN or employment, terms of employment, transfers, re-levels, demotions, failure to hire, failure to promote, compensation policies, practices and treatment, termination of employment, harassment, pay equity, employee benefits (including post-employment welfare and other benefits), employee treatment, employee suggestions or ideas, fiduciary performance, employment practices, the modification or termination of Benefit Plans or employee benefit plans, policies, programs, agreements and arrangements of Purchaser, including decisions to provide plans that are different from Benefit Plans, and the like. Without limiting the generality of the foregoing, with respect to any Employees, leased employees, and/or independent contractors or those individuals who are deemed to be employees of Sellers or any Affiliate of Sellers by Contract or Law, "Employment-Related Obligations" includes payroll and social security Taxes, contributions (whether required or voluntary) to any retirement, health and welfare or similar plan or arrangement, notice, severance or similar payments required under Law, and obligations under Law with respect to occupational injuries and illnesses.

"Encumbrance" means any lien (statutory or otherwise), charge, deed of trust, pledge, security interest, conditional sale or other title retention agreement, lease, mortgage, option, charge, hypothecation, easement, right of first offer, license, covenant, restriction, ownership interest of another Person or other encumbrance.

"End Date" has the meaning set forth in **Section 8.1(b)**.

"Environment" means any surface water, groundwater, drinking water supply, land surface or subsurface soil or strata, ambient air, natural resource or wildlife habitat.

"Environmental Law" means any Law in existence on the date of the Original Agreement relating to the management or Release of, or exposure of humans to, any Hazardous Materials; or pollution; or the protection of human health and welfare and the Environment.

"Equity Incentive Plans" has the meaning set forth in **Section 6.28**.

"Equity Interest" means, with respect to any Person, any shares of capital stock of (or other ownership or profit interests in) such Person, warrants, options or other rights for the purchase or other acquisition from such Person of shares of capital stock of (or other ownership or profit interests in) such Person, securities convertible into or exchangeable for shares of capital stock of (or other ownership or profit interests in) such Person or warrants, options or rights for the purchase or other acquisition from such Person of such shares (or such other ownership or profits interests) and other ownership or profit interests in such Person (including partnership, member or trust interests therein), whether voting or nonvoting.

"Equity Registration Rights Agreement" has the meaning set forth in **Section 7.1(c)**.

"ERISA" means the Employee Retirement Income Security Act of 1974, as amended, and the rules and regulations promulgated thereunder.

"ERISA Affiliate" means any trade or business (whether or not incorporated) that is part of the same controlled group, or under common control with, or part of an affiliated service group that includes any Seller, within the meaning of Section 414(b), (c), (m) or (o) of the Tax Code or Section 4001(a)(14) of ERISA.

"Exchange Act" means the Securities Exchange Act of 1934, as amended, and the rules and regulations promulgated thereunder.

"Excluded Assets" has the meaning set forth in **Section 2.2(b)**.

"Excluded Cash" has the meaning set forth in **Section 2.2(b)(i)**.

"Excluded Continuing Brand Dealer Agreements" means all Continuing Brand Dealer Agreements, other than those that are Assumable Executory Contracts.

"Excluded Contracts" has the meaning set forth in **Section 2.2(b)(vii)**.

"Excluded Entities" has the meaning set forth in **Section 2.2(b)(iv)**.

"Excluded Insurance Policies" has the meaning set forth in **Section 2.2(b)(xiii)**.

"Excluded Personal Property" has the meaning set forth in **Section 2.2(b)(vi)**.

"Excluded Real Property" has the meaning set forth in **Section 2.2(b)(v)**.

"Excluded Subsidiaries" means, collectively, the direct Subsidiaries of Sellers included in the Excluded Entities and their respective direct and indirect Subsidiaries, in each case, as of the Closing Date.

"Executory Contract" means an executory Contract or unexpired lease of personal property or nonresidential real property.

"Executory Contract Designation Deadline" has the meaning set forth in **Section 6.6(a)**.

"Existing Internal VEBA" has the meaning set forth in **Section 6.17(h)**.

"Existing Saginaw Wastewater Facility" has the meaning set forth in **Section 6.27(b)**.

"Existing UST Loan and Security Agreement" means the Loan and Security Agreement, dated as of December 31, 2008, between Parent and Sponsor, as amended.

"FCPA" has the meaning set forth in **Section 4.19**.

"Final Determination" means (i) with respect to U.S. federal income Taxes, a "determination" as defined in Section 1313(a) of the Tax Code or execution of an IRS Form 870-AD and, (ii) with respect to Taxes other than U.S. federal income Taxes, any final determination of Liability in respect of a Tax that, under applicable Law, is not subject to further appeal, review or modification through proceedings or otherwise, including the expiration of a statute of limitations or a period for the filing of Claims for refunds, amended Tax Returns or appeals from adverse determinations.

"Final Order" means (i) an Order of the Bankruptcy Court or any other court or adjudicative body as to which the time to appeal, petition for certiorari or move for reargument or rehearing has expired and as to which no appeal, petition for certiorari or other proceedings for reargument or rehearing shall then be pending, or (ii) in the event that an appeal, writ of certiorari, reargument or rehearing thereof has been sought, such Order of the Bankruptcy Court or any other court or adjudicative body shall have been affirmed by the highest court to which such Order was appealed, or certiorari has been denied, or from which reargument or rehearing was sought, and the time to take any further appeal, petition for certiorari or move for reargument or rehearing shall have expired; provided, however, that no Order shall fail to be a Final Order solely because of the possibility that a motion pursuant to Rule 60 of the Federal Rules of Civil Procedure or Bankruptcy Rule 9024 may be filed with respect to such Order.

"FSA Approval" has the meaning set forth in **Section 6.34**.

"G Transaction" has the meaning set forth in **Section 6.16(g)(i)**.

"GAAP" means the United States generally accepted accounting principles and practices as in effect from time to time, consistently applied throughout the specified period.

"GMAC" means GMAC LLC.

"GM Assumed Contracts" has the meaning set forth in the Delphi Motion.

"GMCL" has the meaning set forth in the Recitals.

"Governmental Authority" means any United States or non-United States federal, national, provincial, state or local government or other political subdivision thereof, any entity, authority, agency or body exercising executive, legislative, judicial, regulatory or administrative functions of any such government or political subdivision, and any supranational organization of sovereign states exercising such functions for such sovereign states.

"Government Related Subcontract Agreement" has the meaning set forth in **Section 7.2(c)(vii)**.

"Harlem" has the meaning set forth in the Preamble.

"Hazardous Materials" means any material or substance that is regulated, or can give rise to Claims, Liabilities or Losses, under any Environmental Law or a Permit issued pursuant to any Environmental Law, including any petroleum, petroleum-based or petroleum-derived product, polychlorinated biphenyls, asbestos or asbestos-containing materials, lead and any noxious, radioactive, flammable, corrosive, toxic, hazardous or caustic substance (whether solid, liquid or gaseous).

"Holding Company" has the meaning set forth in the Recitals.

"Holding Company Reorganization" has the meaning set forth in the Recitals.

"Indebtedness" means, with respect to any Person, without duplication: (i) all obligations of such Person for borrowed money (including all accrued and unpaid interest and all prepayment penalties or premiums in respect thereof); (ii) all obligations of such Person to pay amounts evidenced by bonds, debentures, notes or similar instruments (including all accrued and unpaid interest and all prepayment penalties or premiums in respect thereof); (iii) all obligations of others, of the types set forth in clauses (i)-(ii) above that are secured by any Encumbrance on property owned or acquired by such Person, whether or not the obligations secured thereby have been assumed, but only to the extent so secured; (iv) all unreimbursed reimbursement obligations of such Person under letters of credit issued for the account of such Person; (v) obligations of such Person under conditional sale, title retention or similar arrangements or other obligations, in each case, to pay the deferred purchase price for property or services, to the extent of the unpaid purchase price (other than trade payables and customary reservations or retentions of title under Contracts with suppliers, in each case, in the Ordinary Course of Business); (vi) all net monetary obligations of such Person in respect of interest rate, equity and currency swap and other derivative transaction obligations; and (vii) all guarantees of or by such Person of any of the matters described in clauses (i)-(vi) above, to the extent of the maximum amount for which such Person may be liable pursuant to such guarantee.

"Intellectual Property" means all Patents, Trademarks, Copyrights, Trade Secrets, Software, all rights under the Licenses and all concepts, ideas, know-how, show-how, proprietary information, technology, formulae, processes and other general intangibles of like nature, and other intellectual property to the extent entitled to legal protection as such, including products under development and methodologies therefor, in each case acquired, owned or licensed by a Seller.

"Intellectual Property Assignment Agreement" has the meaning set forth in **Section 7.2(c)(viii)**.

"Intercompany Obligations" has the meaning set forth in **Section 2.2(a)(iv)**.

"Inventory" has the meaning set forth in **Section 2.2(a)(viii)**.

"IRS" means the United States Internal Revenue Service.

"Key Subsidiary" means any direct or indirect Subsidiary (which, for the avoidance of doubt, shall only include any legal entity in which a Seller, directly or indirectly, owns greater than 50% of the outstanding Equity Interests in such legal entity) of Sellers (other than trusts) with assets (excluding any Intercompany Obligations) in excess of Two Hundred and Fifty Million Dollars ($250,000,000) as reflected on Parent's consolidated balance sheet as of March 31, 2009 and listed on Section 1.1C of the Sellers' Disclosure Schedule.

"Knowledge of Sellers" means the actual knowledge of the individuals listed on Section 1.1D of the Sellers' Disclosure Schedule as to the matters represented and as of the date the representation is made.

"Law" means any and all applicable United States or non-United States federal, national, provincial, state or local laws, rules, regulations, directives, decrees, treaties, statutes, provisions of any constitution and principles (including principles of common law) of any Governmental Authority, as well as any applicable Final Order.

"Landlocked Parcel" has the meaning set forth in **Section 6.27(c)**.

"Leased Real Property" means all the real property leased or subleased by Sellers, except for any such leased or subleased real property subject to any Contracts designated as Excluded Contracts.

"Lemon Laws" means a state statute requiring a vehicle manufacturer to provide a consumer remedy when such manufacturer is unable to conform a vehicle to the express written warranty after a reasonable number of attempts, as defined in the applicable statute.

"Liabilities" means any and all liabilities and obligations of every kind and description whatsoever, whether such liabilities or obligations are known or unknown, disclosed or undisclosed, matured or unmatured, accrued, fixed, absolute, contingent, determined or undeterminable, on or off-balance sheet or otherwise, or due or to become due, including Indebtedness and those arising under any Law, Claim, Order, Contract or otherwise.

"Licenses" means the Patent Licenses, the Trademark Licenses, the Copyright Licenses, the Software Licenses and the Trade Secret Licenses.

"Losses" means any and all Liabilities, losses, damages, fines, amounts paid in settlement, penalties, costs and expenses (including reasonable and documented attorneys', accountants', consultants', engineers' and experts' fees and expenses).

"LSA Agreement" means the Amended and Restated GM-Delphi Agreement, dated as of June 1, 2009, and any ancillary agreements entered into pursuant thereto, which any Seller is a party to, as each such agreement may be amended from time to time.

"Master Lease Agreement" has the meaning set forth in **Section 7.2(c)(xiv)**.

"Material Adverse Effect" means any change, effect, occurrence or development that, individually or in the aggregate, has or would reasonably be expected to have a material adverse effect on the Purchased Assets, Assumed Liabilities or results of operations of Parent and its

Purchased Subsidiaries, taken as a whole; provided, however, that the term "Material Adverse Effect" does not, and shall not be deemed to, include, either alone or in combination, any changes, effects, occurrences or developments: (i) resulting from general economic or business conditions in the United States or any other country in which Sellers and their respective Subsidiaries have operations, or the worldwide economy taken as a whole; (ii) affecting Sellers in the industry or the markets where Sellers operate (except to the extent such change, occurrence or development has a disproportionate adverse effect on Parent and its Subsidiaries relative to other participants in such industry or markets, taken as a whole); (iii) resulting from any changes (or proposed or prospective changes) in any Law or in GAAP or any foreign generally accepted accounting principles; (iv) in securities markets, interest rates, regulatory or political conditions, including resulting or arising from acts of terrorism or the commencement or escalation of any war, whether declared or undeclared, or other hostilities; (v) resulting from the negotiation, announcement or performance of this Agreement or the DIP Facility, or the transactions contemplated hereby and thereby, including by reason of the identity of Sellers, Purchaser or Sponsor or any communication by Sellers, Purchaser or Sponsor of any plans or intentions regarding the operation of Sellers' business, including the Purchased Assets, prior to or following the Closing; (vi) resulting from any act or omission of any Seller required or contemplated by the terms of this Agreement, the DIP Facility or the Viability Plans, or otherwise taken with the prior consent of Sponsor or Purchaser, including Parent's announced shutdown, which began in May 2009; and (vii) resulting from the filing of the Bankruptcy Cases (or any other bankruptcy, insolvency or similar proceeding filed by any Subsidiary of Parent) or from any action approved by the Bankruptcy Court (or any other court in connection with any such other proceedings).

"New VEBA" means the trust fund established pursuant to the Settlement Agreement.

"Non-Assignable Assets" has the meaning set forth in **Section 2.4(a)**.

"Non-UAW Collective Bargaining Agreements" has the meaning set forth in **Section 6.17(m)(i)**.

"Non-UAW Settlement Agreements" has the meaning set forth in **Section 6.17(m)(ii)**.

"Notice of Intent to Reject" has the meaning set forth in **Section 6.6(b)**.

"Novation Agreement" has the meaning set forth in **Section 7.2(c)(vi)**.

"Option Period" has the meaning set forth in **Section 6.6(b)**.

"Order" means any writ, judgment, decree, stipulation, agreement, determination, award, injunction or similar order of any Governmental Authority, whether temporary, preliminary or permanent.

"Ordinary Course of Business" means the usual, regular and ordinary course of business consistent with the past practice thereof (including with respect to quantity and frequency) as and to the extent modified in connection with (i) the implementation of the Viability Plans; (ii) Parent's announced shutdown, which began in May 2009; and (iii) the Bankruptcy Cases (or any other bankruptcy, insolvency or similar proceeding filed by or in respect of any Subsidiary of

Parent), in the case of clause (iii), to the extent such modifications were approved by the Bankruptcy Court (or any other court or other Governmental Authority in connection with any such other proceedings), or in furtherance of such approval.

"Organizational Document" means (i) with respect to a corporation, the certificate or articles of incorporation and bylaws or their equivalent; (ii) with respect to any other entity, any charter, bylaws, limited liability company agreement, certificate of formation, articles of organization or similar document adopted or filed in connection with the creation, formation or organization of a Person; and (iii) in the case of clauses (i) and (ii) above, any amendment to any of the foregoing other than as prohibited by **Section 6.2(b)(vi)**.

"Original Agreement" has the meaning set forth in the Recitals.

"Owned Real Property" means all real property owned by Sellers (including all buildings, structures and improvements thereon and appurtenances thereto), except for any such real property included in the Excluded Real Property.

"Parent" has the meaning set forth in the Preamble.

"Parent Employee Benefit Plans and Policies" means all (i) "employee benefit plans" (as defined in Section 3(3) of ERISA) and all pension, savings, profit sharing, retirement, bonus, incentive, health, dental, life, death, accident, disability, stock purchase, stock option, stock appreciation, stock bonus, other equity, executive or deferred compensation, hospitalization, post-retirement (including retiree medical or retiree life, voluntary employees' beneficiary associations, and multiemployer plans (as defined in Section 3(37) of ERISA)), severance, retention, change in control, vacation, cafeteria, sick leave, fringe, perquisite, welfare benefits or other employee benefit plans, programs, policies, agreements or arrangements (whether written or oral), including those plans, programs, policies, agreements and arrangements with respect to which any Employee covered by the UAW Collective Bargaining Agreement is an eligible participant, (ii) employment or individual consulting Contracts and (iii) employee manuals and written policies, practices or understandings relating to employment, compensation and benefits, and in the case of clauses (i) through (iii), sponsored, maintained, entered into, or contributed to, or required to be maintained or contributed to, by Parent.

"Parent SEC Documents" has the meaning set forth in **Section 4.5(a)**.

"Parent Shares" has the meaning set forth in **Section 3.2(a)(iii)**.

"Parent Warrant A" means warrants to acquire 45,454,545 shares of Common Stock issued pursuant to a warrant agreement, substantially in the form attached hereto as **Exhibit A**.

"Parent Warrant B" means warrants to acquire 45,454,545 shares of Common Stock issued pursuant to a warrant agreement, substantially in the form attached hereto as **Exhibit B**.

"Parent Warrants" means collectively, Parent Warrant A and Parent Warrant B.

"Participation Agreement" has the meaning set forth in **Section 6.7(b)**.

"Parties" means Sellers and Purchaser together, and "Party" means any of Sellers, on the one hand, or Purchaser, on the other hand, as appropriate and as the case may be.

"Patent Licenses" means all Contracts naming a Seller as licensee or licensor and providing for the grant of any right to manufacture, use, lease, or sell any invention, design, idea, concept, method, technique or process covered by any Patent.

"Patents" means all inventions, patentable designs, letters patent and design letters patent of the United States or any other country and all applications (regular and provisional) for letters patent or design letters patent of the United States or any other country, including applications in the United States Patent and Trademark Office or in any similar office or agency of the United States, any state thereof or any other country or any political subdivision thereof, and all reissues, divisions, continuations, continuations in part, revisions, reexaminations and extensions or renewals of any of the foregoing.

"PBGC" has the meaning set forth in **Section 4.10(a)**.

"Permits" has the meaning set forth in **Section 2.2(a)(xi)**.

"Permitted Encumbrances" means all (i) purchase money security interests arising in the Ordinary Course of Business; (ii) security interests relating to progress payments created or arising pursuant to government Contracts in the Ordinary Course of Business; (iii) security interests relating to vendor tooling arising in the Ordinary Course of Business; (iv) Encumbrances that have been or may be created by or with the written consent of Purchaser; (v) mechanic's, materialmen's, laborer's, workmen's, repairmen's, carrier's liens and other similar Encumbrances arising by operation of law or statute in the Ordinary Course of Business for amounts that are not delinquent or that are being contested in good faith by appropriate proceedings and for which appropriate reserves have been established; (vi) liens for Taxes, the validity or amount of which is being contested in good faith by appropriate proceedings, and statutory liens for current Taxes not yet due, payable or delinquent (or which may be paid without interest or penalties); (vii) with respect to the Transferred Real Property that is Owned Real Property, other than Secured Real Property Encumbrances at and following the Closing: (a) matters that a current ALTA/ACSM survey, or a similar cadastral survey in any country other than the United States, would disclose, the existence of which, individually or in the aggregate, would not materially and adversely interfere with the present use of the affected property; (b) rights of the public, any Governmental Authority and adjoining property owners in streets and highways abutting or adjacent to the applicable Owned Real Property; (c) easements, licenses, rights-of-way, covenants, servitudes, restrictions, encroachments, site plans, subdivision plans and other Encumbrances of public record or that would be disclosed by a current title commitment of the applicable Owned Real Property, which, individually or in the aggregate, would not materially and adversely interfere with the present use of the applicable Owned Real Property; and (d) such other Encumbrances, the existence of which, individually or in the aggregate, would not materially and adversely interfere with or affect the present use or occupancy of the applicable Owned Real Property; (viii) with respect to the Transferred Real Property that is Leased Real Property: (1) matters that a current ALTA/ACSM survey, or a similar cadastral survey in any country other than the United States, would disclose; (2) rights of the public, any Governmental Authority and adjoining property owners in streets and highways

abutting or adjacent to the applicable Leased Real Property; (3) easements, licenses, rights-of-way, covenants, servitudes, restrictions, encroachments, site plans, subdivision plans and other Encumbrances of public record or that would be disclosed by a current title commitment of the applicable Leased Real Property or which have otherwise been imposed on such property by landlords; (ix) in the case of the Transferred Equity Interests, all restrictions and obligations contained in any Organizational Document, joint venture agreement, shareholders agreement, voting agreement and related documents and agreements, in each case, affecting the Transferred Equity Interests; (x) except to the extent otherwise agreed to in the Ratification Agreement entered into by Sellers and GMAC on June 1, 2009 and approved by the Bankruptcy Court on the date thereof or any other written agreement between GMAC or any of its Subsidiaries and any Seller, all Claims (in each case solely to the extent such Claims constitute Encumbrances) and Encumbrances in favor of GMAC or any of its Subsidiaries in, upon or with respect to any property of Sellers or in which Sellers have an interest, including any of the following: (1) cash, deposits, certificates of deposit, deposit accounts, escrow funds, surety bonds, letters of credit and similar agreements and instruments; (2) owned or leased equipment; (3) owned or leased real property; (4) motor vehicles, inventory, equipment, statements of origin, certificates of title, accounts, chattel paper, general intangibles, documents and instruments of dealers, including property of dealers in-transit to, surrendered or returned by or repossessed from dealers or otherwise in any Seller's possession or under its control; (5) property securing obligations of Sellers under derivatives Contracts; (6) rights or property with respect to which a Claim or Encumbrance in favor of GMAC or any of its Subsidiaries is disclosed in any filing made by Parent with the SEC (including any filed exhibit); and (7) supporting obligations, insurance rights and Claims against third parties relating to the foregoing; and (xi) all rights of setoff and/or recoupment that are Encumbrances in favor of GMAC and/or its Subsidiaries against amounts owed to Sellers and/or any of their Subsidiaries with respect to any property of Sellers or in which Sellers have an interest as more fully described in clause (x) above; it being understood that nothing in this clause (xi) or preceding clause (x) shall be deemed to modify, amend or otherwise change any agreement as between GMAC or any of its Subsidiaries and any Seller.

"Person" means any individual, partnership, firm, corporation, association, trust, unincorporated organization, joint venture, limited liability company, Governmental Authority or other entity.

"Personal Information" means any information relating to an identified or identifiable living individual, including (i) first initial or first name and last name; (ii) home address or other physical address, including street name and name of city or town; (iii) e-mail address or other online contact information (e.g., instant messaging user identifier); (iv) telephone number; (v) social security number or other government-issued personal identifier such as a tax identification number or driver's license number; (vi) internet protocol address; (vii) persistent identifier (e.g., a unique customer number in a cookie); (viii) financial account information (account number, credit or debit card numbers or banking information); (ix) date of birth; (x) mother's maiden name; (xi) medical information (including electronic protected health information as defined by the rules and regulations of the Health Information Portability and Privacy Act, as amended); (xii) digitized or electronic signature; and (xiii) any other information that is combined with any of the above.

"Personal Property" has the meaning set forth in **Section 2.2(a)(vii)**.

"Petition Date" has the meaning set forth in the Recitals.

"PLR" has the meaning set forth in **Section 6.16(g)(i)**.

"Post-Closing Tax Period" means any taxable period beginning after the Closing Date and the portion of any Straddle Period beginning after the Closing Date.

"Pre-Closing Tax Period" means any taxable period ending on or before the Closing Date and the portion of any Straddle Period ending on the Closing Date.

"Preferred Stock" has the meaning set forth in **Section 5.4(b)**.

"Privacy Policy" means, with respect to any Person, any written privacy policy, statement, rule or notice regarding the collection, use, access, safeguarding and retention of Personal Information or "Personally Identifiable Information" (as defined by Section 101(41A) of the Bankruptcy Code) of any individual, including a customer, potential customer, employee or former employee of such Person, or an employee of any of such Person's automotive or parts dealers.

"Product Liabilities" has the meaning set forth in **Section 2.3(a)(ix)**.

"Promark UK Subsidiaries" has the meaning set forth in **Section 6.34**.

"Proposed Rejectable Executory Contract" has the meaning set forth in **Section 6.6(b)**.

"Purchase Price" has the meaning set forth in **Section 3.2(a)**.

"Purchased Assets" has the meaning set forth in **Section 2.2(a)**.

"Purchased Contracts" has the meaning set forth in **Section 2.2(a)(x)**.

"Purchased Subsidiaries" means, collectively, the direct Subsidiaries of Sellers included in the Transferred Entities, and their respective direct and indirect Subsidiaries, in each case, as of the Closing Date.

"Purchased Subsidiaries Employee Benefit Plans" means any (i) defined benefit or defined contribution retirement plan maintained by any Purchased Subsidiary and (ii) severance, change in control, bonus, incentive or any similar plan or arrangement maintained by a Purchased Subsidiary for the benefit of officers or senior management of such Purchased Subsidiary.

"Purchaser" has the meaning set forth in the Preamble.

"Purchaser Assumed Debt" has the meaning set forth in **Section 2.3(a)(i)**.

"Purchaser Expense Reimbursement" has the meaning set forth in **Section 8.2(b)**.

"Purchaser Material Adverse Effect" has the meaning set forth in **Section 5.3(a)**.

"Purchaser's Disclosure Schedule" means the Schedule pertaining to, and corresponding to the Section references of this Agreement, delivered by Purchaser immediately prior to the execution of the Original Agreement.

"Quitclaim Deeds" has the meaning set forth in **Section 7.2(c)(x)**.

"Receivables" has the meaning set forth in **Section 2.2(a)(iii)**.

"Rejectable Executory Contract" has the meaning set forth in **Section 6.6(b)**.

"Release" means any spilling, leaking, pumping, pouring, emitting, emptying, discharging, injecting, escaping, leaching, migrating, dumping, discarding, burying, abandoning or disposing into the Environment of Hazardous Materials that is prohibited under, or reasonably likely to result in a Liability under, any applicable Environmental Law.

"Relevant Information" has the meaning set forth in **Section 6.16(g)(ii)**.

"Relevant Transactions" has the meaning set forth in **Section 6.16(g)(i)**.

"Ren Cen Lease" has the meaning set forth in **Section 6.30**.

"Representatives" means all officers, directors, employees, consultants, agents, lenders, accountants, attorneys and other representatives of a Person.

"Required Subdivision" has the meaning set forth in **Section 6.27(a)**.

"Restricted Cash" has the meaning set forth in **Section 2.2(a)(ii)**.

"Retained Liabilities" has the meaning set forth in **Section 2.3(b)**.

"Retained Plans" means any Parent Employee Benefit Plan and Policy that is not an Assumed Plan.

"Retained Subsidiaries" means all Subsidiaries of Sellers and their respective direct and indirect Subsidiaries, as of the Closing Date, other than the Purchased Subsidiaries.

"Retained Workers' Compensation Claims" has the meaning set forth in **Section 2.3(b)(xii)**.

"RHI" has the meaning set forth in **Section 6.30**.

"RHI Post-Closing Period" has the meaning set forth in **Section 6.30**.

"S Distribution" has the meaning set forth in the Preamble.

"S LLC" has the meaning set forth in the Preamble.

"Saginaw Landfill" has the meaning set forth in **Section 6.27(b)**.

"Saginaw Metal Casting Land" has the meaning set forth in **Section 6.27(b)**.

"Saginaw Nodular Iron Land" has the meaning set forth in **Section 6.27(b)**.

"Saginaw Service Contracts" has the meaning set forth in **Section 6.27(b)**.

"Sale Approval Order" has the meaning set forth in **Section 6.4(b)**.

"Sale Hearing" means the hearing of the Bankruptcy Court to approve the Sale Procedures and Sale Motion and enter the Sale Approval Order.

"Sale Procedures and Sale Motion" has the meaning set forth in **Section 6.4(b)**.

"Sale Procedures Order" has the meaning set forth in **Section 6.4(b)**.

"SEC" means the United States Securities and Exchange Commission.

"Secured Real Property Encumbrances" means all Encumbrances related to the Indebtedness of Sellers, which is secured by one or more parcels of the Owned Real Property, including Encumbrances related to the Indebtedness of Sellers under any synthetic lease arrangements at the White Marsh, Maryland GMPT - Baltimore manufacturing facility and the Memphis, Tennessee (SPO - Memphis) facility.

"Securities Act" means the Securities Act of 1933, as amended, and the rules and regulations promulgated thereunder.

"Seller" or "Sellers" has the meaning set forth in the Preamble.

"Seller Group" means any combined, unitary, consolidated or other affiliated group of which any Seller or Purchased Subsidiary is or has been a member for federal, state, provincial, local or foreign Tax purposes.

"Seller Key Personnel" means those individuals described on Section 1.1E of the Sellers' Disclosure Schedule.

"Seller Material Contracts" has the meaning set forth in **Section 4.16(a)**.

"Sellers' Disclosure Schedule" means the Schedule pertaining to, and corresponding to the Section references of this Agreement, delivered by Sellers to Purchaser immediately prior to the execution of this Agreement, as updated and supplemented pursuant to **Section 6.5**, **Section 6.6** and **Section 6.26**.

"Series A Preferred Stock" has the meaning set forth in **Section 5.4(b)**.

"Settlement Agreement" means the Settlement Agreement, dated February 21, 2008 (as amended, supplemented, replaced or otherwise altered from time to time), among Parent, the UAW and certain class representatives, on behalf of the class of plaintiffs in the class action of

Int'l Union, UAW, et al. v. General Motors Corp., Civil Action No. 07-14074 (E.D. Mich. filed Sept. 9, 2007).

"Shared Executory Contracts" has the meaning set forth in **Section 6.6(d)**.

"Software" means all software of any type (including programs, applications, middleware, utilities, tools, drivers, firmware, microcode, scripts, batch files, JCL files, instruction sets and macros) and in any form (including source code, object code, executable code and user interface), databases and associated data and related documentation, in each case owned, acquired or licensed by any Seller.

"Software Licenses" means all Contracts naming a Seller as licensee or licensor and providing for the grant of any right to use, modify, reproduce, distribute or create derivative works of any Software.

"Sponsor" means the United States Department of the Treasury.

"Sponsor Affiliate" has the meaning set forth in **Section 9.22**.

"Sponsor Shares" has the meaning set forth in **Section 5.4(c)**.

"Straddle Period" means a taxable period that includes but does not end on the Closing Date.

"Subdivision Master Lease" has the meaning set forth in **Section 6.27(a)**.

"Subdivision Properties" has the meaning set forth in **Section 6.27(a)**.

"Subsidiary" or "Subsidiaries" means, with respect to any Person, any corporation, limited liability company, partnership or other legal entity (in each case, other than a joint venture if such Person is not empowered to control the day-to-day operations of such joint venture) of which such Person (either alone or through or together with any other Subsidiary) owns, directly or indirectly, more than fifty percent (50%) of the Equity Interests, the holder of which is entitled to vote for the election of the board of directors or other governing body of such corporation, limited liability company, partnership or other legal entity.

"Superior Bid" has the meaning set forth in **Section 6.4(d)**.

"TARP" means the Troubled Assets Relief Program established by Sponsor under the Emergency Economic Stabilization Act of 2008, Public Law No. 110-343, effective as of October 3, 2008, as amended by Section 7001 of Division B, Title VII of the American Recovery and Reinvestment Act of 2009, Public Law No. 111-5, effective as of February 17, 2009, as may be further amended and in effect from time to time and any guidance issued by a regulatory authority thereunder and other related Laws in effect currently or in the future in the United States.

"Tax" or "Taxes" means any federal, state, provincial, local, foreign and other income, alternative minimum, accumulated earnings, personal holding company, franchise, capital stock,

net worth or gross receipts, income, alternative or add-on minimum, capital, capital gains, sales, use, ad valorem, franchise, profits, license, privilege, transfer, withholding, payroll, employment, social, excise, severance, stamp, occupation, premium, goods and services, value added, property (including real property and personal property taxes), environmental, windfall profits or other taxes, customs, duties or similar fees, assessments or charges of any kind whatsoever, together with any interest and any penalties, additions to tax or additional amounts imposed by any Governmental Authority, including any transferee, successor or secondary liability for any such tax and any Liability assumed by Contract or arising as a result of being or ceasing to be a member of any affiliated group or similar group under state, provincial, local or foreign Law, or being included or required to be included in any Tax Return relating thereto.

"Tax Code" means the Internal Revenue Code of 1986, as amended, and the rules and regulations promulgated thereunder.

"Taxing Authority" means, with respect to any Tax, the Governmental Authority thereof that imposes such Tax and the agency, court or other Person or body (if any) charged with the interpretation, administration or collection of such Tax for such Governmental Authority.

"Tax Return" means any return, report, declaration, form, election letter, statement or other information filed or required to be filed with any Governmental Authority with respect to Taxes, including any schedule or attachment thereto or amendment thereof.

"Trademark Licenses" means all Contracts naming any Seller as licensor or licensee and providing for the grant of any right concerning any Trademark together with any goodwill connected with and symbolized by any such Trademark or Trademark Contract, and the right to prepare for sale or lease and sell or lease any and all products, inventory or services now or hereafter owned or provided by any Seller or any other Person and now or hereafter covered by such Contracts.

"Trademarks" means all domestic and foreign trademarks, service marks, collective marks, certification marks, trade dress, trade names, business names, d/b/a's, Internet domain names, designs, logos and other source or business identifiers, and all general intangibles of like nature, now or hereafter owned, adopted, used, acquired, or licensed by any Seller, all applications, registrations and recordings thereof (including applications, registrations and recordings in the United States Patent and Trademark Office or in any similar office or agency of the United States, any state thereof or any other country or any political subdivision thereof) and all reissues, extensions or renewals thereof, together with all goodwill of the business symbolized by or associated with such marks.

"Trade Secrets" means all trade secrets or Confidential Information, including any confidential technical and business information, program, process, method, plan, formula, product design, compilation of information, customer list, sales forecast, know-how, Software, and any other confidential proprietary intellectual property, and all additions and improvements to, and books and records describing or used in connection with, any of the foregoing, in each case, owned, acquired or licensed by any Seller.

"Trade Secret Licenses" means all Contracts naming a Seller as licensee or licensor and providing for the grant of any rights with respect to Trade Secrets.

"Transfer Taxes" means all transfer, documentary, sales, use, stamp, registration and other similar Taxes and fees (including any penalties and interest) incurred in connection with this Agreement and the transactions contemplated hereby and not otherwise exempted under the Bankruptcy Code, including relating to the transfer of the Transferred Real Property.

"Transfer Tax Forms" has the meaning set forth in **Section 7.2(c)(xi)**.

"Transferred Employee" has the meaning set forth in **Section 6.17(a)**.

"Transferred Entities" means all of the direct Subsidiaries of Sellers and joint venture entities or other entities in which any Seller has an Equity Interest, other than the Excluded Entities.

"Transferred Equity Interests" has the meaning set forth in **Section 2.2(a)(v)**.

"Transferred Real Property" has the meaning set forth in **Section 2.2(a)(vi)**.

"Transition Services Agreement" has the meaning set forth in **Section 7.2(c)(ix)**.

"Transition Team" has the meaning set forth in **Section 6.11(c)**.

"UAW" means the International Union, United Automobile, Aerospace and Agricultural Implement Workers of America.

"UAW Active Labor Modifications" means the modifications to the UAW Collective Bargaining Agreement, as agreed to in the 2009 Addendum to the 2007 UAW-GM National Agreement, dated May 17, 2009, the cover page of which is attached hereto as **Exhibit C** (the 2009 Addendum without attachments), which modifications were ratified by the UAW membership on May 29, 2009.

"UAW Collective Bargaining Agreement" means any written or oral Contract, understanding or mutually recognized past practice between Sellers and the UAW with respect to Employees, including the UAW Active Labor Modifications, but excluding the agreement to provide certain retiree medical benefits specified in the Memorandum of Understanding Post-Retirement Medical Care, dated September 26, 2007, between Parent and the UAW, and the Settlement Agreement. For purpose of clarity, the term "UAW Collective Bargaining Agreement" includes all special attrition programs, divestiture-related memorandums of understanding or implementation agreements relating to any unit or location where covered UAW-represented employees remain and any current local agreement between Parent and a UAW local relating to any unit or location where UAW-represented employees are employed as of the date of the Original Agreement. For purposes of clarity, nothing in this definition extends the coverage of the UAW-GM National Agreement to any Employee of S LLC, S Distribution, Harlem, a Purchased Subsidiary or one of Parent's Affiliates; nothing in this Agreement creates a direct employment relationship with a Purchased Subsidiary's employee or an Affiliate's Employee and Parent.

"UAW Retiree Settlement Agreement" means the UAW Retiree Settlement Agreement to be executed prior to the Closing, substantially in the form attached hereto as **Exhibit D**.

"Union" means any labor union, organization or association representing any employees (but not including the UAW) with respect to their employment with any of Sellers or their Affiliates.

"United States" or "U.S." means the United States of America, including its territories and insular possessions.

"UST Credit Bid Amount" has the meaning set forth in **Section 3.2(a)(i)**.

"UST Credit Facilities" means (i) the Existing UST Loan and Security Agreement and (ii) those certain promissory notes dated December 31, 2008, April 22, 2009, May 20, 2009, and May 27, 2009, issued by Parent to Sponsor as additional compensation for the extensions of credit under the Existing UST Loan and Security Agreement, in each case, as amended.

"UST Warrant" means the warrant issued by Parent to Sponsor in consideration for the extension of credit made available to Parent under the Existing UST Loan and Security Agreement.

"VEBA Shares" has the meaning set forth in **Section 5.4(c)**.

"VEBA Note" has the meaning set forth in **Section 7.3(g)(iv)**.

"VEBA Warrant" means warrants to acquire 15,151,515 shares of Common Stock issued pursuant to a warrant agreement, substantially in the form attached hereto as **Exhibit E**.

"Viability Plans" means (i) Parent's Restructuring Plan for Long-Term Viability, dated December 2, 2008; (ii) Parent's 2009-2014 Restructuring Plan, dated February 17, 2009; (iii) Parent's 2009-2014 Restructuring Plan: Progress Report, dated March 30, 2009; and (iv) Parent's Revised Viability Plan, all as described in Parent's Registration Statement on Form S-4 (Reg. No 333-158802), initially filed with the SEC on April 27, 2009, in each case, as amended, supplemented and/or superseded.

"WARN" means the Workers Adjustment and Retraining Notification Act of 1988, as amended, and similar foreign, state and local Laws.

"Willow Run Landlord" means the Wayne County Airport Authority, or any successor landlord under the Willow Run Lease.

"Willow Run Lease" means that certain Willow Run Airport Lease of Land dated October 11, 1985, as the same may be amended, by and between the Willow Run Landlord, as landlord, and Parent, as tenant, for certain premises located at the Willow Run Airport in Wayne and Washtenaw Counties, Michigan.

"Willow Run Lease Amendment" has the meaning set forth in **Section 6.27(e)**.

"Wind Down Facility" has the meaning set forth in **Section 6.9(b)**.

Section 1.2 Other Interpretive Provisions. The words "hereof", "herein" and "hereunder" and words of similar import when used in this Agreement refer to this Agreement as a whole (including the Sellers' Disclosure Schedule) and not to any particular provision of this Agreement, and all Article, Section, Sections of the Sellers' Disclosure Schedule and Exhibit references are to this Agreement unless otherwise specified. The words "include", "includes" and "including" are deemed to be followed by the phrase "without limitation." The meanings given to terms defined herein are equally applicable to both the singular and plural forms of such terms. Whenever the context may require, any pronoun includes the corresponding masculine, feminine and neuter forms. Except as otherwise expressly provided herein, all references to "Dollars" or "$" are deemed references to lawful money of the United States. Unless otherwise specified, references to any statute, listing rule, rule, standard, regulation or other Law (a) include a reference to the corresponding rules and regulations and (b) include a reference to each of them as amended, modified, supplemented, consolidated, replaced or rewritten from time to time, and to any section of any statute, listing rule, rule, standard, regulation or other Law, including any successor to such section. Where this Agreement states that a Party "shall" or "will" perform in some manner or otherwise act or omit to act, it means that the Party is legally obligated to do so in accordance with this Agreement.

ARTICLE II
PURCHASE AND SALE

Section 2.1 Purchase and Sale of Assets; Assumption of Liabilities. On the terms and subject to the conditions set forth in this Agreement, other than as set forth in **Section 6.30**, **Section 6.34** and **Section 6.35**, at the Closing, Purchaser shall (a) purchase, accept and acquire from Sellers, and Sellers shall sell, transfer, assign, convey and deliver to Purchaser, free and clear of all Encumbrances (other than Permitted Encumbrances), Claims and other interests, the Purchased Assets and (b) assume and thereafter pay or perform as and when due, or otherwise discharge, all of the Assumed Liabilities.

Section 2.2 Purchased and Excluded Assets.

(a) The "Purchased Assets" shall consist of the right, title and interest that Sellers possess and have the right to legally transfer in and to all of the properties, assets, rights, titles and interests of every kind and nature, owned, leased, used or held for use by Sellers (including indirect and other forms of beneficial ownership), whether tangible or intangible, real, personal or mixed, and wherever located and by whomever possessed, in each case, as the same may exist as of the Closing, including the following properties, assets, rights, titles and interests (but, in every case, excluding the Excluded Assets):

(i) all cash and cash equivalents, including all marketable securities, certificates of deposit and all collected funds or items in the process of collection at Sellers' financial institutions through and including the Closing, and all bank deposits, investment accounts and lockboxes related thereto, other than the Excluded Cash and Restricted Cash;

(ii) all restricted or escrowed cash and cash equivalents, including restricted marketable securities and certificates of deposit (collectively, "Restricted Cash") other than the Restricted Cash described in **Section 2.2(b)(ii)**;

(iii) all accounts and notes receivable and other such Claims for money due to Sellers, including the full benefit of all security for such accounts, notes and Claims, however arising, including arising from the rendering of services or the sale of goods or materials, together with any unpaid interest accrued thereon from the respective obligors and any security or collateral therefor, other than intercompany receivables (collectively, "Receivables");

(iv) all intercompany obligations ("Intercompany Obligations") owed or due, directly or indirectly, to Sellers by any Subsidiary of a Seller or joint venture or other entity in which a Seller or a Subsidiary of a Seller has any Equity Interest;

(v) (A) subject to **Section 2.4**, all Equity Interests in the Transferred Entities (collectively, the "Transferred Equity Interests") and (B) the corporate charter, qualification to conduct business as a foreign corporation, arrangements with registered agents relating to foreign qualifications, taxpayer and other identification numbers, corporate seal, minute books, stock transfer books, blank stock certificates and any other documents relating to the organization, maintenance and existence of each Transferred Entity;

(vi) all Owned Real Property and Leased Real Property (collectively, the "Transferred Real Property");

(vii) all machinery, equipment (including test equipment and material handling equipment), hardware, spare parts, tools, dies, jigs, molds, patterns, gauges, fixtures (including production fixtures), business machines, computer hardware, other information technology assets, furniture, supplies, vehicles, spare parts in respect of any of the foregoing and other tangible personal property (including any of the foregoing in the possession of manufacturers, suppliers, customers, dealers or others and any of the foregoing in transit) that does not constitute Inventory (collectively, "Personal Property"), including the Personal Property located at the Excluded Real Property and identified on Section 2.2(a)(vii) of the Sellers' Disclosure Schedule;

(viii) all inventories of vehicles, raw materials, work-in-process, finished goods, supplies, stock, parts, packaging materials and other accessories related thereto (collectively, "Inventory"), wherever located, including any of the foregoing in the possession of manufacturers, suppliers, customers, dealers or others and any of the foregoing in transit or that is classified as returned goods;

(ix) (A) all Intellectual Property, whether owned, licensed or otherwise held, and whether or not registrable (including any Trademarks and other Intellectual Property associated with the Discontinued Brands), and (B) all rights

and benefits associated with the foregoing, including all rights to sue or recover for past, present and future infringement, misappropriation, dilution, unauthorized use or other impairment or violation of any of the foregoing, and all income, royalties, damages and payments now or hereafter due or payable with respect to any of the foregoing;

(x) subject to **Section 2.4**, all Contracts, other than the Excluded Contracts (collectively, the "Purchased Contracts"), including, for the avoidance of doubt, (A) the UAW Collective Bargaining Agreement and (B) any Executory Contract designated as an Assumable Executory Contract as of the applicable Assumption Effective Date;

(xi) subject to **Section 2.4**, all approvals, Contracts, authorizations, permits, licenses, easements, Orders, certificates, registrations, franchises, qualifications, rulings, waivers, variances or other forms of permission, consent, exemption or authority issued, granted, given or otherwise made available by or under the authority of any Governmental Authority, including all pending applications therefor and all renewals and extensions thereof (collectively, "Permits"), other than to the extent that any of the foregoing relate exclusively to the Excluded Assets or Retained Liabilities;

(xii) all credits, deferred charges, prepaid expenses, deposits, advances, warranties, rights, guarantees, surety bonds, letters of credit, trust arrangements and other similar financial arrangements, in each case, relating to the Purchased Assets or Assumed Liabilities, including all warranties, rights and guarantees (whether express or implied) made by suppliers, manufacturers, contractors and other third parties under or in connection with the Purchased Contracts;

(xiii) all Claims (including Tax refunds) relating to the Purchased Assets or Assumed Liabilities, including the Claims identified on Section 2.2(a)(xiii) of the Sellers' Disclosure Schedule and all Claims against any Taxing Authority for any period, other than Bankruptcy Avoidance Actions and any of the foregoing to the extent that they relate exclusively to the Excluded Assets or Retained Liabilities;

(xiv) all books, records, ledgers, files, documents, correspondence, lists, plats, specifications, surveys, drawings, advertising and promotional materials, reports and other materials (in whatever form or medium), including Tax books and records and Tax Returns used or held for use in connection with the ownership or operation of the Purchased Assets or Assumed Liabilities, including the Purchased Contracts, customer lists, customer information and account records, computer files, data processing records, employment and personnel records, advertising and marketing data and records, credit records, records relating to suppliers, legal records and information and other data;

(xv) all goodwill and other intangible personal property arising in connection with the ownership, license, use or operation of the Purchased Assets or Assumed Liabilities;

(xvi) to the extent provided in **Section 6.17(e)**, all Assumed Plans;

(xvii) all insurance policies and the rights to the proceeds thereof, other than the Excluded Insurance Policies;

(xviii) any rights of any Seller, Subsidiary of any Seller or Seller Group member to any Tax refunds, credits or abatements that relate to any Pre-Closing Tax Period or Straddle Period; and

(xix) any interest in Excluded Insurance Policies, only to the extent such interest relates to any Purchased Asset or Assumed Liability.

(b) Notwithstanding anything to the contrary contained in this Agreement, Sellers shall retain all of their respective right, title and interest in and to, and shall not, and shall not be deemed to, sell, transfer, assign, convey or deliver to Purchaser, and the Purchased Assets shall not, and shall not be deemed to, include the following (collectively, the "Excluded Assets"):

(i) cash or cash equivalents in an amount equal to $950,000,000 (the "Excluded Cash");

(ii) all Restricted Cash exclusively relating to the Excluded Assets or Retained Liabilities;

(iii) all Receivables (other than Intercompany Obligations) exclusively related to any Excluded Assets or Retained Liabilities;

(iv) all of Sellers' Equity Interests in (A) S LLC, (B) S Distribution, (C) Harlem and (D) the Subsidiaries, joint ventures and the other entities in which any Seller has any Equity Interest and that are identified on Section 2.2(b)(iv) of the Sellers' Disclosure Schedule (collectively, the "Excluded Entities");

(v) (A) all owned real property set forth on **Exhibit F** and such additional owned real property set forth on Section 2.2(b)(v) of the Sellers' Disclosure Schedule (including, in each case, any structures, buildings or other improvements located thereon and appurtenances thereto) and (B) all real property leased or subleased that is subject to a Contract designated as an "Excluded Contract" (collectively, the "Excluded Real Property");

(vi) all Personal Property that is (A) located at the Transferred Real Property and identified on Section 2.2(b)(vi) of the Sellers' Disclosure Schedule, (B) located at the Excluded Real Property, except for those items identified on Section 2.2(a)(vii) of the Sellers' Disclosure Schedule or (C) subject to a Contract

designated as an Excluded Contract (collectively, the "Excluded Personal Property");

(vii) (A) all Contracts identified on Section 2.2(b)(vii) of the Sellers' Disclosure Schedule immediately prior to the Closing, (B) all pre-petition Executory Contracts designated as Rejectable Executory Contracts, (C) all pre-petition Executory Contracts (including, for the avoidance of doubt, the Delphi Transaction Agreements and GM Assumed Contracts) that have not been designated as or deemed to be Assumable Executory Contracts in accordance with **Section 6.6** or **Section 6.31**, or that are determined, pursuant to the procedures set forth in the Sale Procedures Order, not to be assumable and assignable to Purchaser, (D) all Collective Bargaining Agreements not set forth on the Assumable Executory Contract Schedule and (E) all non-Executory Contracts for which performance by a third-party or counterparty is substantially complete and for which a Seller owes a continuing or future obligation with respect to such non-Executory Contracts (collectively, the "Excluded Contracts"), including any accounts receivable arising out of or in connection with any Excluded Contract; it being understood and agreed by the Parties hereto that, notwithstanding anything to the contrary herein, in no event shall the UAW Collective Bargaining Agreement be designated or otherwise deemed or considered an Excluded Contract;

(viii) all books, records, ledgers, files, documents, correspondence, lists, plats, specifications, surveys, drawings, advertising and promotional materials, reports and other materials (in whatever form or medium) relating exclusively to the Excluded Assets or Retained Liabilities, and any books, records and other materials that any Seller is required by Law to retain;

(ix) the corporate charter, qualification to conduct business as a foreign corporation, arrangements with registered agents relating to foreign qualifications, taxpayer and other identification numbers, corporate seal, minute books, stock transfer books, blank stock certificates and any other documents relating to the organization, maintenance and existence of each Seller and each Excluded Entity;

(x) all Claims against suppliers, dealers and any other third parties relating exclusively to the Excluded Assets or Retained Liabilities;

(xi) all of Sellers' Claims under this Agreement, the Ancillary Agreements and the Bankruptcy Code, of whatever kind or nature, as set forth in Sections 544 through 551 (inclusive), 553, 558 and any other applicable provisions of the Bankruptcy Code, and any related Claims and actions arising under such sections by operation of Law or otherwise, including any and all proceeds of the foregoing (the "Bankruptcy Avoidance Actions"), but in all cases, excluding all rights and Claims identified on Section 2.2(b)(xi) of the Sellers' Disclosure Schedule;

(xii) all credits, deferred charges, prepaid expenses, deposits and advances, warranties, rights, guarantees, surety bonds, letters of credit, trust arrangements and other similar financial arrangements, in each case, relating exclusively to the Excluded Assets or Retained Liabilities;

(xiii) all insurance policies identified on Section 2.2(b)(xiii) of the Sellers' Disclosure Schedule and the rights to proceeds thereof (collectively, the "Excluded Insurance Policies"), other than any rights to proceeds to the extent such proceeds relate to any Purchased Asset or Assumed Liability;

(xiv) all Permits, to the extent that they relate exclusively to the Excluded Assets or Retained Liabilities;

(xv) all Retained Plans; and

(xvi) those assets identified on Section 2.2(b)(xvi) of the Sellers' Disclosure Schedule.

Section 2.3 Assumed and Retained Liabilities.

(a) The "Assumed Liabilities" shall consist only of the following Liabilities of Sellers:

(i) $7,072,488,605 of Indebtedness incurred under the DIP Facility, to be restructured pursuant to the terms of **Section 6.9** (the "Purchaser Assumed Debt");

(ii) all Liabilities under each Purchased Contract;

(iii) all Intercompany Obligations owed or due, directly or indirectly, by Sellers to (A) any Purchased Subsidiary or (B) any joint venture or other entity in which a Seller or a Purchased Subsidiary has any Equity Interest (other than an Excluded Entity);

(iv) all Cure Amounts under each Assumable Executory Contract that becomes a Purchased Contract;

(v) all Liabilities of Sellers (A) arising in the Ordinary Course of Business during the Bankruptcy Case through and including the Closing Date, to the extent such Liabilities are administrative expenses of Sellers' estates pursuant to Section 503(b) of the Bankruptcy Code and (B) arising prior to the commencement of the Bankruptcy Cases to the extent approved by the Bankruptcy Court for payment by Sellers pursuant to a Final Order (and for the avoidance of doubt, Sellers' Liabilities in clauses (A) and (B) above include Sellers' Liabilities for personal property Taxes, real estate and/or other ad valorem Taxes, use Taxes, sales Taxes, franchise Taxes, income Taxes, gross receipt Taxes, excise Taxes, Michigan Business Taxes and Michigan Single Business Taxes), in each case, other than (1) Liabilities of the type described in

Section 2.3(b)(iv), **Section 2.3(b)(vi)** and **Section 2.3(b)(ix)**, (2) Liabilities arising under any dealer sales and service Contract and any Contract related thereto, to the extent such Contract has been designated as a Rejectable Executory Contract, and (3) Liabilities otherwise assumed in this **Section 2.3(a)**;

(vi) all Transfer Taxes payable in connection with the sale, transfer, assignment, conveyance and delivery of the Purchased Assets pursuant to the terms of this Agreement;

(vii) (A) all Liabilities arising under express written warranties of Sellers that are specifically identified as warranties and delivered in connection with the sale of new, certified used or pre-owned vehicles or new or remanufactured motor vehicle parts and equipment (including service parts, accessories, engines and transmissions) manufactured or sold by Sellers or Purchaser prior to or after the Closing and (B) all obligations under Lemon Laws;

(viii) all Liabilities arising under any Environmental Law (A) relating to conditions present on the Transferred Real Property, other than those Liabilities described in **Section 2.3(b)(iv)**, (B) resulting from Purchaser's ownership or operation of the Transferred Real Property after the Closing or (C) relating to Purchaser's failure to comply with Environmental Laws after the Closing;

(ix) all Liabilities to third parties for death, personal injury, or other injury to Persons or damage to property caused by motor vehicles designed for operation on public roadways or by the component parts of such motor vehicles and, in each case, manufactured, sold or delivered by Sellers (collectively, "Product Liabilities"), which arise directly out of accidents, incidents or other distinct and discreet occurrences that happen on or after the Closing Date and arise from such motor vehicles' operation or performance (for avoidance of doubt, Purchaser shall not assume, or become liable to pay, perform or discharge, any Liability arising or contended to arise by reason of exposure to materials utilized in the assembly or fabrication of motor vehicles manufactured by Sellers and delivered prior to the Closing Date, including asbestos, silicates or fluids, regardless of when such alleged exposure occurs);

(x) all Liabilities of Sellers arising out of, relating to, in respect of, or in connection with workers' compensation claims against any Seller, except for Retained Workers' Compensation Claims;

(xi) all Liabilities arising out of, relating to, in respect of, or in connection with the use, ownership or sale of the Purchased Assets after the Closing;

(xii) all Liabilities (A) specifically assumed by Purchaser pursuant to **Section 6.17** and (B) arising out of, relating to or in connection with the salaries and/or wages and vacation of all Transferred Employees that are accrued and unpaid (or with respect to vacation, unused) as of the Closing Date;

(xiii) (A) all Employment-Related Obligations and (B) Liabilities under any Assumed Plan, in each case, relating to any Employee that is or was covered by the UAW Collective Bargaining Agreement, except for Retained Workers Compensation Claims;

(xiv) all Liabilities of Sellers underlying any construction liens that constitute Permitted Encumbrances with respect to Transferred Real Property; and

(xv) those other Liabilities identified on Section 2.3(a)(xv) of the Sellers' Disclosure Schedule.

(b) Each Seller acknowledges and agrees that pursuant to the terms and provisions of this Agreement, Purchaser shall not assume, or become liable to pay, perform or discharge, any Liability of any Seller, whether occurring or accruing before, at or after the Closing, other than the Assumed Liabilities. In furtherance and not in limitation of the foregoing, and in all cases with the exception of the Assumed Liabilities, neither Purchaser nor any of its Affiliates shall assume, or be deemed to have assumed, any Indebtedness, Claim or other Liability of any Seller or any predecessor, Subsidiary or Affiliate of any Seller whatsoever, whether occurring or accruing before, at or after the Closing, including the following (collectively, the "Retained Liabilities"):

(i) all Liabilities arising out of, relating to, in respect of or in connection with any Indebtedness of Sellers (other than Intercompany Obligations and the Purchaser Assumed Debt), including those items identified on Section 2.3(b)(i) of the Sellers' Disclosure Schedule;

(ii) all Intercompany Obligations owed or due, directly or indirectly, by Sellers to (A) another Seller, (B) any Excluded Subsidiary or (C) any joint venture or other entity in which a Seller or an Excluded Subsidiary has an Equity Interest (other than a Transferred Entity);

(iii) all Liabilities arising out of, relating to, in respect of or in connection with the Excluded Assets, other than Liabilities otherwise retained in this **Section 2.3(b)**;

(iv) all Liabilities (A) associated with noncompliance with Environmental Laws (including for fines, penalties, damages and remedies); (B) arising out of, relating to, in respect of or in connection with the transportation, off-site storage or off-site disposal of any Hazardous Materials generated or located at any Transferred Real Property; (C) arising out of, relating to, in respect of or in connection with third-party Claims related to Hazardous Materials that were or are located at or that migrated or may migrate from any Transferred Real Property, except as otherwise required under applicable Environmental Laws; (D) arising under Environmental Laws related to the Excluded Real Property; or (E) for environmental Liabilities with respect to real property formerly owned, operated or leased by Sellers (as of the Closing), which, in the case of clauses (A),

(B) and (C), arose prior to or at the Closing, and which, in the case of clause (D) and (E), arise prior to, at or after the Closing;

(v) except for Taxes assumed in **Section 2.3(a)(v)** and **Section 2.3(a)(vi)**, all Liabilities with respect to any (A) Taxes arising in connection with Sellers' business, the Purchased Assets or the Assumed Liabilities and that are attributable to a Pre-Closing Tax Period (including any Taxes incurred in connection with the sale of the Purchased Assets, other than all Transfer Taxes), (B) other Taxes of any Seller and (C) Taxes of any Seller Group, including any Liability of any Seller or any Seller Group member for Taxes arising as a result of being or ceasing to be a member of any Seller Group (it being understood, for the avoidance of doubt, that no provision of this Agreement shall cause Sellers to be liable for Taxes of any Purchased Subsidiary for which Sellers would not be liable absent this Agreement);

(vi) all Liabilities for (A) costs and expenses relating to the preparation, negotiation and entry into this Agreement and the Ancillary Agreements (and the consummation of the transactions contemplated by this Agreement and the Ancillary Agreements, which, for the avoidance of doubt, shall not include any Transfer Taxes), including Advisory Fees, (B) administrative fees, professional fees and all other expenses under the Bankruptcy Code and (C) all other fees and expenses associated with the administration of the Bankruptcy Cases;

(vii) all Employment-Related Obligations not otherwise assumed in **Section 2.3(a)** and **Section 6.17**, including those arising out of, relating to, in respect of or in connection with the employment, potential employment or termination of employment of any individual (other than any Employee that is or was covered by the UAW Collective Bargaining Agreement) (A) prior to or at the Closing (including any severance policy, plan or program that exists or arises, or may be deemed to exist or arise, as a result of, or in connection with, the transactions contemplated by this Agreement) or (B) who is not a Transferred Employee arising after the Closing and with respect to both clauses (A) and (B) above, including any Liability arising out of, relating to, in respect of or in connection with any Collective Bargaining Agreement (other than the UAW Collective Bargaining Agreement);

(viii) all Liabilities arising out of, relating to, in respect of or in connection with Claims for infringement or misappropriation of third party intellectual property rights;

(ix) all Product Liabilities arising in whole or in part from any accidents, incidents or other occurrences that happen prior to the Closing Date;

(x) all Liabilities to third parties for death, personal injury, other injury to Persons or damage to property, in each case, arising out of asbestos exposure;

(xi) all Liabilities to third parties for Claims based upon Contract, tort or any other basis;

(xii) all workers' compensation Claims with respect to Employees residing in or employed in, as the case may be as defined by applicable Law, the states set forth on **Exhibit G** (collectively, "Retained Workers' Compensation Claims");

(xiii) all Liabilities arising out of, relating to, in respect of or in connection with any Retained Plan;

(xiv) all Liabilities arising out of, relating to, in respect of or in connection with any Assumed Plan or Purchased Subsidiaries Employee Benefit Plan, but only to the extent such Liabilities result from the failure of such Assumed Plan or Purchased Subsidiaries Employee Benefit Plan to comply in all respects with TARP or such Liability related to any changes to or from the administration of such Assumed Plan or Purchased Subsidiaries Employee Benefit Plan prior to the Closing Date;

(xv) the Settlement Agreement, except as provided with respect to Liabilities under Section 5A of the UAW Retiree Settlement Agreement; and

(xvi) all Liabilities arising out of, related to or in connection with any (A) implied warranty or other implied obligation arising under statutory or common law without the necessity of an express warranty or (B) allegation, statement or writing by or attributable to Sellers.

Section 2.4 Non-Assignability.

(a) If any Contract, Transferred Equity Interest (or any interest therein), Permit or other asset, which by the terms of this Agreement, is intended to be included in the Purchased Assets is determined not capable of being assigned or transferred (whether pursuant to Sections 363 or 365 of the Bankruptcy Code) to Purchaser at the Closing without the consent of another party thereto, the issuer thereof or any third party (including a Governmental Authority) ("Non-Assignable Assets"), this Agreement shall not constitute an assignment thereof, or an attempted assignment thereof, unless and until any such consent is obtained. Subject to **Section 6.3**, Sellers shall use reasonable best efforts, and Purchaser shall use reasonable best efforts to cooperate with Sellers, to obtain the consents necessary to assign to Purchaser the Non-Assignable Assets before, at or after the Closing; provided, however, that neither Sellers nor Purchaser shall be required to make any expenditure, incur any Liability, agree to any modification to any Contract or forego or alter any rights in connection with such efforts.

(b) To the extent that the consents referred to in **Section 2.4(a)** are not obtained by Sellers, except as otherwise provided in the Ancillary Documents to which one or more Sellers is a party, Sellers' sole responsibility with respect to such Non-Assignable Assets shall be to use reasonable best efforts, at no cost to Sellers, to (i) provide to Purchaser the benefits of any Non-Assignable Assets; (ii) cooperate in any

reasonable and lawful arrangement designed to provide the benefits of any Non-Assignable Assets to Purchaser without incurring any financial obligation to Purchaser; and (iii) enforce for the account of Purchaser and at the cost of Purchaser any rights of Sellers arising from any Non-Assignable Asset against such party or parties thereto; provided, however, that any such efforts described in clauses (i) through (iii) above shall be made only with the consent, and at the direction, of Purchaser. Without limiting the generality of the foregoing, with respect to any Non-Assignable Asset that is a Contract of Leased Real Property for which a consent is not obtained on or prior to the Closing Date, Purchaser shall enter into a sublease containing the same terms and conditions as such lease (unless such lease by its terms prohibits such subleasing arrangement), and entry into and compliance with such sublease shall satisfy the obligations of the Parties under this **Section 2.4(b)** until such consent is obtained.

(c) If Purchaser is provided the benefits of any Non-Assignable Asset pursuant to **Section 2.4(b)**, Purchaser shall perform, on behalf of the applicable Seller, for the benefit of the issuer thereof or the other party or parties thereto, the obligations (including payment obligations) of the applicable Seller thereunder or in connection therewith arising from and after the Closing Date and if Purchaser fails to perform to the extent required herein, Sellers, without waiving any rights or remedies that they may have under this Agreement or applicable Laws, may (i) suspend their performance under **Section 2.4(b)** in respect of the Non-Assignable Asset that is the subject of such failure to perform unless and until such situation is remedied, or (ii) perform at Purchaser's sole cost and expense, in which case, Purchaser shall reimburse Sellers' costs and expenses of such performance immediately upon receipt of an invoice therefor. To the extent that Purchaser is provided the benefits of any Non-Assignable Asset pursuant to **Section 2.4(b),** Purchaser shall indemnify, defend and hold Sellers harmless from and against any and all Liabilities relating to such Non-Assignable Asset and arising from and after the Closing Date (other than such Damages that have resulted from the gross negligence or willful misconduct of Sellers).

(d) For the avoidance of doubt, the inability of any Contract, Transferred Equity Interest (or any other interest therein), Permit or other asset, which by the terms of this Agreement is intended to be included in the Purchased Assets to be assigned or transferred to Purchaser at the Closing shall not (i) give rise to a basis for termination of this Agreement pursuant to **ARTICLE VIII** or (ii) give rise to any right to any adjustment to the Purchase Price.

ARTICLE III
CLOSING; PURCHASE PRICE

Section 3.1 Closing. The closing of the transactions contemplated by this Agreement (the "Closing") shall occur on the date that falls at least three (3) Business Days following the satisfaction and/or waiver of all conditions to the Closing set forth in **ARTICLE VII** (other than any of such conditions that by its nature is to be satisfied at the Closing, but subject to the satisfaction or waiver of such conditions), or on such other date as the Parties mutually agree, at the offices of Jenner & Block LLP, 919 Third Avenue, New York City, New York 10022-3908, or at such other place or such other date as the Parties may agree in

writing. The date on which the Closing actually occurs shall be referred to as the "Closing Date," and except as otherwise expressly provided herein, the Closing shall for all purposes be deemed effective as of 9:00 a.m., New York City time, on the Closing Date.

Section 3.2 Purchase Price.

(a) The purchase price (the "Purchase Price") shall be equal to the sum of:

(i) a Bankruptcy Code Section 363(k) credit bid in an amount equal to: (A) the amount of Indebtedness of Parent and its Subsidiaries as of the Closing pursuant to the UST Credit Facilities, and (B) the amount of Indebtedness of Parent and its Subsidiaries as of the Closing under the DIP Facility, less $8,022,488,605 of Indebtedness under the DIP Facility (such amount, the "UST Credit Bid Amount");

(ii) the UST Warrant (which the Parties agree has a value of no less than $1,000);

(iii) the valid issuance by Purchaser to Parent of (A) 50,000,000 shares of Common Stock (collectively, the "Parent Shares") and (B) the Parent Warrants; and

(iv) the assumption by Purchaser or its designated Subsidiaries of the Assumed Liabilities.

(b) On the terms and subject to the conditions set forth in this Agreement, at the Closing, Purchaser shall (i) offset, pursuant to Section 363(k) of the Bankruptcy Code, the UST Credit Bid Amount against Indebtedness of Parent and its Subsidiaries owed to Purchaser as of the Closing under the UST Credit Facilities and the DIP Facility; (ii) transfer to Parent, in accordance with the instructions provided by Parent to Purchaser prior to the Closing, the UST Warrant; and (iii) issue to Parent, in accordance with the instructions provided by Parent to Purchaser prior to the Closing, the Parent Shares and the Parent Warrants.

(c)

(i) Sellers may, at any time, seek an Order of the Bankruptcy Court (the "Claims Estimate Order"), which Order may be the Order confirming Sellers' Chapter 11 plan, estimating the aggregate allowed general unsecured claims against Sellers' estates. If in the Claims Estimate Order, the Bankruptcy Court makes a finding that the estimated aggregate allowed general unsecured claims against Sellers' estates exceed $35,000,000,000, then Purchaser will, within five (5) days of entry of the Claims Estimate Order, issue 10,000,000 additional shares of Common Stock (the "Adjustment Shares") to Parent, as an adjustment to the Purchase Price.

(ii) The number of Adjustment Shares shall be adjusted to take into account any stock dividend, stock split, combination of shares, recapitalization,

merger, consolidation, reorganization or similar transaction with respect to the Common Stock, effected from and after the Closing and before issuance of the Adjustment Shares.

(iii) At the Closing, Purchaser shall have authorized and, thereafter, shall reserve for issuance the Adjustment Shares that may be issued hereunder.

Section 3.3 Allocation. Following the Closing, Purchaser shall prepare and deliver to Sellers an allocation of the aggregate consideration among Sellers and, for any transactions contemplated by this Agreement that do not constitute an Agreed G Transaction pursuant to **Section 6.16**, Purchaser shall also prepare and deliver to the applicable Seller a proposed allocation of the Purchase Price and other consideration paid in exchange for the Purchased Assets, prepared in accordance with Section 1060, and if applicable, Section 338, of the Tax Code (the "Allocation"). The applicable Seller shall have thirty (30) days after the delivery of the Allocation to review and consent to the Allocation in writing, which consent shall not be unreasonably withheld, conditioned or delayed. If the applicable Seller consents to the Allocation, such Seller and Purchaser shall use such Allocation to prepare and file in a timely manner all appropriate Tax filings, including the preparation and filing of all applicable forms in accordance with applicable Law, including Forms 8594 and 8023, if applicable, with their respective Tax Returns for the taxable year that includes the Closing Date and shall take no position in any Tax Return that is inconsistent with such Allocation; provided, however, that nothing contained herein shall prevent the applicable Seller and Purchaser from settling any proposed deficiency or adjustment by any Governmental Authority based upon or arising out of such Allocation, and neither the applicable Seller nor Purchaser shall be required to litigate before any court, any proposed deficiency or adjustment by any Taxing Authority challenging such Allocation. If the applicable Seller does not consent to such Allocation, the applicable Seller shall notify Purchaser in writing of such disagreement within such thirty (30) day period, and thereafter, the applicable Seller shall attempt in good faith to promptly resolve any such disagreement. If the Parties cannot resolve a disagreement under this **Section 3.3**, such disagreement shall be resolved by an independent accounting firm chosen by Purchaser and reasonably acceptable to the applicable Seller, and such resolution shall be final and binding on the Parties. The fees and expenses of such accounting firm shall be borne equally by Purchaser, on the one hand, and the applicable Seller, on the other hand. The applicable Seller shall provide Purchaser, and Purchaser shall provide the applicable Seller, with a copy of any information described above required to be furnished to any Taxing Authority in connection with the transactions contemplated herein.

Section 3.4 Prorations.

(a) The following prorations relating to the Purchased Assets shall be made:

(i) Except as provided in **Section 2.3(a)(v)** and **Section 2.3(a)(vi)**, in the case of Taxes with respect to a Straddle Period, for purposes of Retained Liabilities, the portion of any such Tax that is allocable to Sellers with respect to any Purchased Asset shall be:

(A) in the case of Taxes that are either (1) based upon or related to income or receipts, or (2) imposed in connection with any sale or other transfer or assignment of property (real or personal, tangible or intangible), other than Transfer Taxes, equal to the amount that would be payable if the taxable period ended on the Closing Date; and

(B) in the case of Taxes imposed on a periodic basis, or otherwise measured by the level of any item, deemed to be the amount of such Taxes for the entire Straddle Period (after giving effect to amounts which may be deducted from or offset against such Taxes) (or, in the case of such Taxes determined on an arrears basis, the amount of such Taxes for the immediately preceding period), multiplied by a fraction, the numerator of which is the number of days in the period ending on the Closing Date and the denominator of which is the number of days in the entire Straddle Period.

In the case of any Tax based upon or measured by capital (including net worth or long-term debt) or intangibles, any amount thereof required to be allocated under this clause (i) shall be computed by reference to the level of such items on the Closing Date. All determinations necessary to effect the foregoing allocations shall be made in a manner consistent with prior practice of the applicable Seller, Seller Group member, or Seller Subsidiary.

(ii) All charges for water, wastewater treatment, sewers, electricity, fuel, gas, telephone, garbage and other utilities relating to the Transferred Real Property shall be prorated as of the Closing Date, with Sellers being liable to the extent such items relate to the Pre-Closing Tax Period, and Purchaser being liable to the extent such items relate to the Post-Closing Tax Period.

(b) If any of the foregoing proration amounts cannot be determined as of the Closing Date due to final invoices not being issued as of the Closing Date, Purchasers and Sellers shall prorate such items as and when the actual invoices are issued to the appropriate Party. The Party owing amounts to the other by means of such prorations shall pay the same within thirty (30) days after delivery of a written request by the paying Party.

Section 3.5 Post-Closing True-up of Certain Accounts.

(a) Sellers shall promptly reimburse Purchaser in U.S. Dollars for the aggregate amount of all checks, drafts and similar instruments of disbursement, including wire and similar transfers of funds, written or initiated by Sellers prior to the Closing in respect of any obligations that would have constituted Retained Liabilities at the Closing, and that clear or settle in accounts maintained by Purchaser (or its Affiliates) at or following the Closing.

(b) Purchaser shall promptly reimburse Sellers in U.S. Dollars for the aggregate amount of all checks, drafts and similar instruments of disbursement, including

wire and similar transfers of funds, written or initiated by Sellers following the Closing in respect of any obligations that would have constituted Assumed Liabilities at the Closing, and that clear or settle in accounts maintained by Sellers (or their Affiliates) at or following the Closing.

ARTICLE IV
REPRESENTATIONS AND WARRANTIES OF SELLERS

Except as disclosed in the Parent SEC Documents or in the Sellers' Disclosure Schedule, each Seller represents and warrants severally, and not jointly, to Purchaser as follows:

Section 4.1 Organization and Good Standing. Each Seller and each Purchased Subsidiary is duly organized and validly existing under the Laws of its jurisdiction of organization. Subject to the limitations imposed on Sellers as a result of having filed the Bankruptcy Cases, each Seller and each Purchased Subsidiary has all requisite corporate, limited liability company, partnership or similar power, as the case may be, and authority to own, lease and operate its properties and assets and to carry on its business as now being conducted. Each Seller and each Purchased Subsidiary is duly qualified or licensed or admitted to do business, and is in good standing in (where such concept is recognized under applicable Law), the jurisdictions in which the ownership of its property or the conduct of its business requires such qualification or license, in each case, except where the failure to be so qualified, licensed or in good standing would not reasonably be expected to have a Material Adverse Effect. Sellers have made available to Purchaser prior to the execution of this Agreement true and complete copies of Sellers' Organizational Documents, in each case, as in effect on the date of this Agreement.

Section 4.2 Authorization; Enforceability. Subject to the entry and effectiveness of the Sale Approval Order, each Seller has the requisite corporate or limited liability company power and authority, as the case may be, to (a) execute and deliver this Agreement and the Ancillary Agreements to which such Seller is a party; (b) perform its obligations hereunder and thereunder; and (c) consummate the transactions contemplated by this Agreement and the Ancillary Agreements to which such Seller is a party. Subject to the entry and effectiveness of the Sale Approval Order, this Agreement constitutes, and each Ancillary Agreement, when duly executed and delivered by each Seller that is a party thereto, shall constitute, a valid and legally binding obligation of such Seller (assuming that this Agreement and such Ancillary Agreements constitute valid and legally binding obligations of Purchaser), enforceable against such Seller in accordance with its respective terms and conditions, except as enforceability may be limited by applicable bankruptcy, reorganization, insolvency, moratorium, fraudulent transfer and other similar Laws relating to or affecting the enforcement of creditors' rights generally from time to time in effect and by general equitable principles relating to enforceability, including principles of commercial reasonableness, good faith and fair dealing.

Section 4.3 Noncontravention; Consents.

(a) Subject, in the case of clauses (i), (iii) and (iv), to the entry and effectiveness of the Sale Approval Order, the execution, delivery and performance by each Seller of this Agreement and the Ancillary Agreements to which it is a party, and (subject to the entry of the Sale Approval Order) the consummation by such Seller of the

transactions contemplated hereby and thereby, do not (i) violate any Law to which the Purchased Assets are subject; (ii) conflict with or result in a breach of any provision of the Organizational Documents of such Seller; (iii) result in a material breach or constitute a material default under, or create in any Person the right to terminate, cancel or accelerate any material obligation of such Seller pursuant to any material Purchased Contract (including any material License); or (iv) result in the creation or imposition of any Encumbrance, other than a Permitted Encumbrance, upon the Purchased Assets, except for any of the foregoing in the case of clauses (i), (iii) and (iv), that would not reasonably be expected to have a Material Adverse Effect.

(b) Subject to the entry and effectiveness of the Sale Approval Order, no consent, waiver, approval, Order, Permit, qualification or authorization of, or declaration or filing with, or notification to, any Person or Governmental Authority (other than the Bankruptcy Court) is required by any Seller for the consummation by each Seller of the transactions contemplated by this Agreement or by the Ancillary Agreements to which such Seller is a party or the compliance by such Seller with any of the provisions hereof or thereof, except for (i) compliance with the applicable requirements of any Antitrust Laws and (ii) such consent, waiver, approval, Order, Permit, qualification or authorization of, or declaration or filing with, or notification to, any Person or Governmental Authority, the failure of which to be received or made would not reasonably be expected to have a Material Adverse Effect.

Section 4.4 Subsidiaries. Section 4.4 of the Sellers' Disclosure Schedule identifies each Purchased Subsidiary and the jurisdiction of organization thereof. There are no Equity Interests in any Purchased Subsidiary issued, reserved for issuance or outstanding. All of the outstanding shares of capital stock, if applicable, of each Purchased Subsidiary have been duly authorized, validly issued, are fully paid and nonassessable and are owned, directly or indirectly, by Sellers, free and clear of all Encumbrances other than Permitted Encumbrances. Sellers, directly or indirectly, have good and valid title to the outstanding Equity Interests of the Purchased Subsidiaries and, upon delivery by Sellers to Purchaser of the outstanding Equity Interests of the Purchased Subsidiaries (either directly or indirectly) at the Closing, good and valid title to the outstanding Equity Interests of the Purchased Subsidiaries will pass to Purchaser (or, with respect to any Purchased Subsidiary that is not a direct Subsidiary of a Seller, the Purchased Subsidiary with regard to which it is a Subsidiary will continue to have good and valid title to such outstanding Equity Interests). None of the outstanding Equity Interests in the Purchased Subsidiaries has been conveyed in violation of, and none of the outstanding Equity Interests in the Purchased Subsidiaries has been issued in violation of (a) any preemptive or subscription rights, rights of first offer or first refusal or similar rights or (b) any voting trust, proxy or other Contract (including options or rights of first offer or first refusal) with respect to the voting, purchase, sale or other disposition thereof.

Section 4.5 Reports and Financial Statements; Internal Controls.

(a) (i) Parent has filed or furnished, or will file or furnish, as applicable, all forms, documents, schedules and reports, together with any amendments required to be made with respect thereto, required to be filed or furnished with the SEC from April 1, 2007 until the Closing (the "Parent SEC Documents"), and (ii) as of their respective

filing dates, or, if amended, as of the date of the last such amendment, the Parent SEC Documents complied or will comply in all material respects with the requirements of the Securities Act and the Exchange Act, as applicable, and none of the Parent SEC Documents contained or will contain any untrue statement of a material fact or omitted or will omit to state any material fact required to be stated therein or necessary to make the statements therein, in light of the circumstances under which they were made, not misleading, subject, in the case of Parent SEC Documents filed or furnished during the period beginning on the date of the Original Agreement and ending on the Closing Date, to any modification by Parent of its reporting obligations under Section 12 or Section 15(d) of the Exchange Act as a result of the filing of the Bankruptcy Cases.

(b) (i) The consolidated financial statements of Parent included in the Parent SEC Documents (including all related notes and schedules, where applicable) fairly present or will fairly present in all material respects the consolidated financial position of Parent and its consolidated Subsidiaries, as at the respective dates thereof, and (ii) the consolidated results of their operations and their consolidated cash flows for the respective periods then ended (subject, in the case of the unaudited statements, to normal year-end audit adjustments and to any other adjustments described therein, including the notes thereto) in conformity with GAAP (except, in the case of the unaudited statements, as permitted by the SEC) applied on a consistent basis during the periods involved (except as may be indicated therein or in the notes thereto), subject, in the case of Parent SEC Documents filed or furnished during the period beginning on the date of the Original Agreement and ending on the Closing Date, to any modification by Parent of its reporting obligations under Section 12 or Section 15(d) of the Exchange Act as a result of the filing of the Bankruptcy Cases.

(c) Parent maintains a system of internal control over financial reporting designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for inclusion in the Parent SEC Documents in accordance with GAAP and maintains records that (i) in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of Parent and its consolidated Subsidiaries, (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP, and that receipts and expenditures are made only in accordance with appropriate authorizations and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of assets. There are no (A) material weaknesses in the design or operation of the internal controls of Parent or (B) to the Knowledge of Sellers, any fraud, whether or not material, that involves management or other employees of Parent or any Purchased Subsidiary who have a significant role in internal control.

Section 4.6 Absence of Certain Changes and Events. From January 1, 2009 through the date hereof, except as otherwise contemplated, required or permitted by this Agreement, there has not been:

(a) (i) any declaration, setting aside or payment of any dividend or other distribution (whether in cash, securities or other property or by allocation of additional Indebtedness to any Seller or any Key Subsidiary without receipt of fair value) with

respect to any Equity Interests in any Seller or any Key Subsidiary or any repurchase for value of any Equity Interests or rights of any Seller or any Key Subsidiary (except for dividends and distributions among its Subsidiaries) or (ii) any split, combination or reclassification of any Equity Interests in Sellers or any issuance or the authorization of any issuance of any other Equity Interests in respect of, in lieu of or in substitution for Equity Interests of Sellers;

(b) other than as is required by the terms of the Parent Employee Benefit Plans and Policies, the Settlement Agreement, the UAW Collective Bargaining Agreement or consistent with the expiration of a Collective Bargaining Agreement or as may be required by applicable Law, in each case, as may be permitted by TARP or under any enhanced restrictions on executive compensation agreed to by Parent and Sponsor, any (i) grant to any Seller Key Personnel of any increase in compensation, except increases required under employment Contracts in effect as of January 1, 2009, or as a result of a promotion to a position of additional responsibility, (ii) grant to any Seller Key Personnel of any increase in retention, change in control, severance or termination compensation or benefits, except as required under any employment Contracts in effect as of January 1, 2009, (iii) other than in the Ordinary Course of Business, adoption, termination of, entry into or amendment or modification of, in a material manner, any Benefit Plan, (iv) adoption, termination of, entry into or amendment or modification of, in a material manner, any employment, retention, change in control, severance or termination Contract with any Seller Key Personnel or (v) entry into or amendment, modification or termination of any Collective Bargaining Agreement or other Contract with any Union of any Seller or Purchased Subsidiary;

(c) any material change in accounting methods, principles or practices by any Seller, Purchased Subsidiary or Seller Group member or any material joint venture to which any Seller or Purchased Subsidiary is a party, in each case, materially affecting the consolidated assets or Liabilities of Parent, except to the extent required by a change in GAAP or applicable Law, including Tax Laws;

(d) any sale, transfer, pledge or other disposition by any Seller or any Purchased Subsidiary of any portion of its assets or properties not in the Ordinary Course of Business and with a sale price or fair value in excess of $100,000,000;

(e) aggregate capital expenditures by any Seller or any Purchased Subsidiary in excess of $100,000,000 in a single project or group of related projects or capital expenditures in excess of $100,000,000 in the aggregate;

(f) any acquisition by any Seller or any Purchased Subsidiary (including by merger, consolidation, combination or acquisition of any Equity Interests or assets) of any Person or business or division thereof (other than acquisitions of portfolio assets and acquisitions in the Ordinary Course of Business) in a transaction (or series of related transactions) where the aggregate consideration paid or received (including non-cash equity consideration) exceeded $100,000,000;

(g) any discharge or satisfaction of any Indebtedness by any Seller or any Purchased Subsidiary in excess of $100,000,000, other than the discharge or satisfaction of any Indebtedness when due in accordance with its terms;

(h) any alteration, whether through a complete or partial liquidation, dissolution, merger, consolidation, restructuring, reorganization or in any other manner, the legal structure or ownership of any Seller or any Key Subsidiary or any material joint venture to which any Seller or any Key Subsidiary is a party, or the adoption or alteration of a plan with respect to any of the foregoing;

(i) any amendment or modification to the material adverse detriment of any Key Subsidiary of any material Affiliate Contract or Seller Material Contract, or termination of any material Affiliate Contract or Seller Material Contract to the material adverse detriment of any Seller or any Key Subsidiary, in each case, other than in the Ordinary Course of Business;

(j) any event, development or circumstance involving, or any change in the financial condition, properties, assets, liabilities, business, or results of operations of Sellers or any circumstance, occurrence or development (including any adverse change with respect to any circumstance, occurrence or development existing on or prior to the end of the most recent fiscal year end) of Sellers that has had or would reasonably be expected to have a Material Adverse Effect; or

(k) any commitment by any Seller, any Key Subsidiary (in the case of clauses (a), (g) and (h) above) or any Purchased Subsidiary (in the case of clauses (b) through (f) and clauses (h) and (j) above) to do any of the foregoing.

Section 4.7 Title to and Sufficiency of Assets.

(a) Subject to the entry and effectiveness of the Sale Approval Order, at the Closing, Sellers will obtain good and marketable title to, or a valid and enforceable right by Contract to use, the Purchased Assets, which shall be transferred to Purchaser, free and clear of all Encumbrances other than Permitted Encumbrances.

(b) The tangible Purchased Assets of each Seller are in normal operating condition and repair, subject to ordinary wear and tear, and sufficient for the operation of such Seller's business as currently conducted, except where such instances of noncompliance with the foregoing would not reasonably be expected to have a Material Adverse Effect.

Section 4.8 Compliance with Laws; Permits.

(a) Each Seller and each Purchased Subsidiary is in compliance with and is not in default under or in violation of any applicable Law, except where such non-compliance, default or violation would not reasonably be expected to have a Material Adverse Effect. Notwithstanding anything contained in this **Section 4.8(a)**, no representation or warranty shall be deemed to be made in this **Section 4.8(a)** in respect of

the matters referenced in **Section 4.5**, **Section 4.9**, **Section 4.10**, **Section 4.11** or **Section 4.13**, each of which matters is addressed by such other Sections of this Agreement.

(b) (i) Each Seller has all Permits necessary for such Seller to own, lease and operate the Purchased Assets and (ii) each Purchased Subsidiary has all Permits necessary for such entity to own, lease and operate its properties and assets, except in each case, where the failure to possess such Permits would not reasonably be expected to have a Material Adverse Effect. All such Permits are in full force and effect, except where the failure to be in full force and effect would not reasonably be expected to have a Material Adverse Effect.

Section 4.9 Environmental Laws. Except as would not reasonably be expected to have a Material Adverse Effect, to the Knowledge of Sellers, (a) each Seller and each Purchased Subsidiary has conducted its business on the Transferred Real Property in compliance with all applicable Environmental Laws; (b) none of the Transferred Real Property currently contains any Hazardous Materials, which could reasonably be expected to give rise to an undisclosed Liability under applicable Environmental Laws; (c) as of the date of this Agreement, no Seller or Purchased Subsidiary has received any currently unresolved written notices, demand letters or written requests for information from any Governmental Authority indicating that such entity may be in violation of any Environmental Law in connection with the ownership or operation of the Transferred Real Property; and (d) since April 1, 2007, no Hazardous Materials have been transported in violation of any applicable Environmental Law, or in a manner reasonably foreseen to give rise to any Liability under any Environmental Law, from any Transferred Real Property as a result of any activity of any Seller or Purchased Subsidiary. Except as provided in **Section 4.8(b)** with respect to Permits under Environmental Laws, Purchaser agrees and understands that no representation or warranty is made in respect of environmental matters in any Section of this Agreement other than this **Section 4.9**.

Section 4.10 Employee Benefit Plans.

(a) Section 4.10 of the Sellers' Disclosure Schedule sets forth all material Parent Employee Benefit Plans and Policies and Purchased Subsidiaries Employee Benefit Plans (collectively, the "Benefit Plans"). Sellers have made available, upon reasonable request, to Purchaser true, complete and correct copies of (i) each material Benefit Plan, (ii) the three (3) most recent annual reports on Form 5500 (including all schedules, auditor's reports and attachments thereto) filed with the IRS with respect to each such Benefit Plan (if any such report was required by applicable Law), (iii) the most recent actuarial or other financial report prepared with respect to such Benefit Plan, if any, (iv) each trust agreement and insurance or annuity Contract or other funding or financing arrangement relating to such Benefit Plan and (v) to the extent not subject to confidentiality restrictions, any material written communications received by Sellers or any Subsidiaries of Sellers from any Governmental Authority relating to a Benefit Plan, including any communication from the Pension Benefit Guaranty Corporation (the "PBGC"), in respect of any Benefit Plan, subject to Title IV of ERISA.

(b) Except as would not reasonably be expected to have a Material Adverse Effect, (i) each Benefit Plan has been administered in accordance with its terms, (ii) each

of Sellers, any of their Subsidiaries and each Benefit Plan is in compliance with the applicable provisions of ERISA, the Tax Code, all other applicable Laws (including Section 409A of the Tax Code, TARP or under any enhanced restrictions on executive compensation agreed to by Sellers with Sponsor) and the terms of all applicable Collective Bargaining Agreements, (iii) there are no (A) investigations by any Governmental Authority, (B) termination proceedings or other Claims (except routine Claims for benefits payable under any Benefit Plans) or (C) Claims, in each case, against or involving any Benefit Plan or asserting any rights to or Claims for benefits under any Benefit Plan that could give rise to any Liability, and there are not any facts or circumstances that could give rise to any Liability in the event of any such Claim and (iv) each Benefit Plan that is intended to be a Tax-qualified plan under Section 401(a) of the Tax Code (or similar provisions for Tax-registered or Tax-favored plans of non-United States jurisdictions) is qualified and any trust established in connection with any Benefit Plan that is intended to be exempt from taxation under Section 501(a) of the Tax Code (or similar provisions for Tax-registered or Tax-favored plans of non-United States jurisdictions) is exempt from United States federal income Taxes under Section 501(a) of the Tax Code (or similar provisions under non-United States law). To the Knowledge of Sellers, no circumstance and no fact or event exists that would be reasonably expected to adversely affect the qualified status of any Benefit Plan.

(c) None of the Parent Employee Benefit Plans and Policies or any material Purchased Subsidiaries Employee Benefit Plans that is an "employee pension benefit plan" (as defined in Section 3(2) of ERISA) has failed to satisfy, as applicable, the minimum funding standards (as described in Section 302 of ERISA or Section 412 of the Tax Code), whether or not waived, nor has any waiver of the minimum funding standards of Section 302 of ERISA or Section 412 of the Tax Code been requested.

(d) No Seller or any ERISA Affiliate of any Seller (including any Purchased Subsidiary) (i) has any actual or contingent Liability (A) under any employee benefit plan subject to Title IV of ERISA other than the Benefit Plans (except for contributions not yet due), (B) to the PBGC (except for the payment of premiums not yet due), which Liability, in each case, has not been fully paid as of the date hereof, or, if applicable, which has not been accrued in accordance with GAAP or (C) under any "multiemployer plan" (as defined in Section 3(37) of ERISA), or (ii) will incur withdrawal Liability under Title IV of ERISA as a result of the consummation of the transactions contemplated hereby, except for Liabilities with respect to any of the foregoing that would not reasonably be expected to have a Material Adverse Effect.

(e) Neither the execution of this Agreement or any Ancillary Agreement nor the consummation of the transactions contemplated hereby (alone or in conjunction with any other event, including termination of employment) will entitle any member of the board of directors of Parent or any Applicable Employee who is an officer or member of senior management of Parent to any increase in compensation or benefits, any grant of severance, retention, change in control or other similar compensation or benefits, any acceleration of the time of payment or vesting of any compensation or benefits (but not including, for this purpose, any retention, stay bonus or other incentive plan, program, arrangement that is a Retained Plan) or will require the securing or funding of any

compensation or benefits or limit the right of Sellers, any Subsidiary of Sellers or Purchaser or any Affiliates of Purchaser to amend, modify or terminate any Benefit Plan. Any new grant of severance, retention, change in control or other similar compensation or benefits to any Applicable Employee, and any payout to any Transferred Employee under any such existing arrangements, that would otherwise occur as a result of the execution of this Agreement or any Ancillary Agreement (alone or in conjunction with any other event, including termination of employment), has been waived by such Applicable Employee or otherwise cancelled.

(f) No amount or other entitlement currently in effect that could be received (whether in cash or property or the vesting of property) as a result of the actions contemplated by this Agreement and the Ancillary Agreements (alone or in combination with any other event) by any Person who is a "disqualified individual" (as defined in Treasury Regulation Section 1.280G-1) (each, a "Disqualified Individual") with respect to Sellers would be an "excess parachute payment" (as defined in Section 280G(b)(1) of the Tax Code). No Disqualified Individual or Applicable Employee is entitled to receive any additional payment (e.g., any Tax gross-up or any other payment) from Sellers or any Subsidiaries of Sellers in the event that the additional or excise Tax required by Section 409A or 4999 of the Tax Code, respectively is imposed on such individual.

(g) All individuals covered by the UAW Collective Bargaining Agreement are either Applicable Employees or employed by a Purchased Subsidiary.

(h) Section 4.10(h) of the Sellers' Disclosure Schedule lists all non-standard individual agreements currently in effect providing for compensation, benefits and perquisites for any current and former officer, director or top twenty-five (25) most highly paid employee of Parent and any other such material non-standard individual agreements with non-top twenty-five (25) employees.

Section 4.11 Labor Matters. There is not any labor strike, work stoppage or lockout pending, or, to the Knowledge of Sellers, threatened in writing against or affecting any Seller or any Purchased Subsidiary. Except as would not reasonably be expected to have a Material Adverse Effect: (a) none of Sellers or any Purchased Subsidiary is engaged in any material unfair labor practice; (b) there are not any unfair labor practice charges or complaints against Sellers or any Purchased Subsidiary pending, or, to the Knowledge of Sellers, threatened, before the National Labor Relations Board; (c) there are not any pending or, to the Knowledge of Sellers, threatened in writing, union grievances against Sellers or any Purchased Subsidiary as to which there is a reasonable possibility of adverse determination; (d) there are not any pending, or, to the Knowledge of Sellers, threatened in writing, charges against Sellers or any Purchased Subsidiary or any of their current or former employees before the Equal Employment Opportunity Commission or any state or local agency responsible for the prevention of unlawful employment practices; (e) no union organizational campaign is in progress with respect to the employees of any Seller or any Purchased Subsidiary and no question concerning representation of such employees exists; and (f) no Seller nor any Purchased Subsidiary has received written communication during the past five (5) years of the intent of any Governmental Authority responsible for the enforcement of labor or employment Laws to conduct an investigation of or

affecting Sellers or any Subsidiary of Sellers and, to the Knowledge of Sellers, no such investigation is in progress.

Section 4.12 Investigations; Litigation. (a) To the Knowledge of Sellers, there is no investigation or review pending by any Governmental Authority with respect to any Seller that would reasonably be expected to have a Material Adverse Effect, and (b) there are no actions, suits, inquiries or proceedings, or to the Knowledge of Sellers, investigations, pending against any Seller, or relating to any of the Transferred Real Property, at law or in equity before, and there are no Orders of or before, any Governmental Authority, in each case that would reasonably be expected to have a Material Adverse Effect.

Section 4.13 Tax Matters. Except as would not reasonably be expected to have a Material Adverse Effect, (a) all Tax Returns required to have been filed by, with respect to or on behalf of any Seller, Seller Group member or Purchased Subsidiary have been timely filed (taking into account any extension of time to file granted or obtained) and are correct and complete in all respects, (b) all amounts of Tax required to be paid with respect to any Seller, Seller Group member or Purchased Subsidiary (whether or not shown on any Tax Return) have been timely paid or are being contested in good faith by appropriate proceedings and have been reserved for in accordance with GAAP in Parent's consolidated audited financial statements, (c) no deficiency for any amount of Tax has been asserted or assessed by a Taxing Authority in writing relating to any Seller, Seller Group member or Purchased Subsidiary that has not been satisfied by payment, settled or withdrawn, (d) there are no audits, Claims or controversies currently asserted or threatened in writing with respect to any Seller, Seller Group member or Purchased Subsidiary in respect of any amount of Tax or failure to file any Tax Return, (e) no Seller, Seller Group member or Purchased Subsidiary has agreed to any extension or waiver of the statute of limitations applicable to any Tax Return, or agreed to any extension of time with respect to a Tax assessment or deficiency, which period (after giving effect to such extension or waiver) has not yet expired, (f) no Seller, Seller Group member or Purchased Subsidiary is a party to or the subject of any ruling requests, private letter rulings, closing agreements, settlement agreements or similar agreements with any Taxing Authority for any periods for which the statute of limitations has not yet run, (g) no Seller, Seller Group member or Purchased Subsidiary (A) has any Liability for Taxes of any Person (other than any Purchased Subsidiary), including as a transferee or successor, or pursuant to any contractual obligation (other than pursuant to any commercial Contract not primarily related to Tax), or (B) is a party to or bound by any Tax sharing agreement, Tax allocation agreement or Tax indemnity agreement (in every case, other than this Agreement and those Tax sharing, Tax allocation or Tax indemnity agreements that will be terminated prior to Closing and with respect to which no post-Closing Liabilities will exist), (h) each of the Purchased Subsidiaries and each Seller and Seller Group member has withheld or collected all Taxes required to have been withheld or collected and, to the extent required, has paid such Taxes to the proper Taxing Authority, (i) no Seller, Seller Group member or Purchased Subsidiary will be required to make any adjustments in taxable income for any Tax period (or portion thereof) ending after the Closing Date, including pursuant to Section 481(a) or 263A of the Tax Code or any similar provision of foreign, provincial, state, local or other Law as a result of transactions or events occurring, or accounting methods employed, prior to the Closing, nor is any application pending with any Taxing Authority requesting permission for any changes in accounting methods that relate to any Seller, Seller Group member or Purchased Subsidiary, (j) the Assumed Liabilities were incurred through the

Ordinary Course of Business, (k) there are no Tax Encumbrances on any of the Purchased Assets or the assets of any Purchased Subsidiary (other than Permitted Encumbrances for which appropriate reserves have been established (and to the extent that such liens relate to a period ending on or before December 31, 2008, the amount of any such Liability is accrued or reserved for as a Liability in accordance with GAAP in the audited consolidated balance sheet of Sellers at December 31, 2008)), (l) none of the Purchased Subsidiaries or Sellers has been a "distributing corporation" or a "controlled corporation" in a distribution intended to qualify under Section 355(a) of the Tax Code, (m) none of the Purchased Subsidiaries, Sellers or Seller Group members has participated in any "listed transactions" or "reportable transactions" within the meaning of Treasury Regulations Section 1.6011-4, (n) there are no unpaid Taxes with respect to any Seller, Seller Group member or Purchased Asset for which Purchaser will have liability as a transferee or successor and (o) the most recent financial statements contained in the Parent SEC Documents reflect an adequate reserve for all Taxes payable by Sellers, the Purchased Subsidiaries and the members of all Seller Groups for all taxable periods and portions thereof through the date of such financial statements.

Section 4.14 Intellectual Property and IT Systems.

(a) Except as would not reasonably be expected to have a Material Adverse Effect: (i) each Seller and each Purchased Subsidiary owns, controls, or otherwise possesses sufficient rights to use, free and clear of all Encumbrances (other than Permitted Encumbrances) all Intellectual Property necessary for the conduct of its business in substantially the same manner as conducted as of the date hereof; and (ii) all Intellectual Property owned by Sellers that is necessary for the conduct of the business of Sellers and each Purchased Subsidiary as conducted as of the date hereof is subsisting and in full force and effect, has not been adjudged invalid or unenforceable, has not been abandoned or allowed to lapse, in whole or in part, and to the Knowledge of Sellers, is valid and enforceable.

(b) Except as would not reasonably be expected to have a Material Adverse Effect, all necessary registration, maintenance and renewal fees in connection with the Intellectual Property owned by Sellers have been paid and all necessary documents and certificates in connection with such Intellectual Property have been filed with the relevant patent, copyright, trademark or other authorities in the United States or applicable foreign jurisdictions, as the case may be, for the purposes of prosecuting, maintaining or renewing such Intellectual Property.

(c) Except as would not reasonably be expected to have a Material Adverse Effect, no Intellectual Property owned by Sellers is the subject of any licensing or franchising Contract that prohibits or materially restricts the conduct of business as presently conducted by any Seller or Purchased Subsidiary or the transfer of such Intellectual Property.

(d) Except as would not reasonably be expected to have a Material Adverse Effect: (i) the Intellectual Property or the conduct of Sellers' and the Purchased Subsidiaries' businesses does not infringe, misappropriate, dilute, or otherwise violate or conflict with the trademarks, patents, copyrights, inventions, trade secrets, proprietary

information and technology, know-how, formulae, rights of publicity or any other intellectual property rights of any Person; (ii) to the Knowledge of Sellers, no other Person is now infringing or in conflict with any Intellectual Property owned by Sellers or Sellers' rights thereunder; and (iii) no Seller or any Purchased Subsidiary has received any written notice that it is violating or has violated the trademarks, patents, copyrights, inventions, trade secrets, proprietary information and technology, know-how, formulae, rights of publicity or any other intellectual property rights of any third party.

(e) Except as would not reasonably be expected to have a Material Adverse Effect, no holding, decision or judgment has been rendered by any Governmental Authority against any Seller, which would limit, cancel or invalidate any Intellectual Property owned by Sellers.

(f) No action or proceeding is pending, or to the Knowledge of Sellers, threatened, on the date hereof that (i) seeks to limit, cancel or invalidate any Intellectual Property owned by Sellers or such Sellers' ownership interest therein; and (ii) if adversely determined, would reasonably be expected to have a Material Adverse Effect.

(g) Except as would not reasonably be expected to have a Material Adverse Effect, Sellers and the Purchased Subsidiaries have taken reasonable actions to (i) maintain, enforce and police their Intellectual Property; and (ii) protect their material Software, websites and other systems (and the information therein) from unauthorized access or use.

(h) Except as would not reasonably be expected to have a Material Adverse Effect: (i) each Seller and Purchased Subsidiary has taken reasonable steps to protect its rights in, and confidentiality of, all the Trade Secrets, and any other confidential information owned by such Seller or Purchased Subsidiary; and (ii) to the Knowledge of Sellers, such Trade Secrets have not been disclosed by Sellers to any Person except pursuant to a valid and appropriate non-disclosure, license or any other appropriate Contract that has not been breached.

(i) Except as would not reasonably be expected to have a Material Adverse Effect, there has not been any malfunction with respect to any of the Software, electronic data processing, data communication lines, telecommunication lines, firmware, hardware, Internet websites or other information technology equipment of any Seller or Purchased Subsidiary since April 1, 2007, which has not been remedied or replaced in all respects.

(j) Except as would not reasonably be expected to have a Material Adverse Effect: (i) the consummation of the transactions contemplated by this Agreement will not cause to be provided or licensed to any third Person, or give rise to any rights of any third Person with respect to, any source code that is part of the Software owned by Sellers; and (ii) Sellers have implemented reasonable disaster recovery and back-up plans with respect to the Software.

Section 4.15 Real Property. Each Seller owns and has valid title to the Transferred Real Property that is Owned Real Property owned by it and has valid leasehold or

subleasehold interests, as the case may be, in all of the Transferred Real Property that is Leased Real Property leased or subleased by it, in each case, free and clear of all Encumbrances, other than Permitted Encumbrances. Each of Sellers and the Purchased Subsidiaries has complied with the terms of each lease, sublease, license or other Contract relating to the Transferred Real Property to which it is a party, except any failure to comply that would not reasonably be expected to have a Material Adverse Effect.

Section 4.16 Material Contracts.

(a) Except for this Agreement, the Parent Employee Benefit Plans and Policies, except as filed with, or disclosed or incorporated in, the Parent SEC Documents or except as set forth on Section 4.16 of the Sellers' Disclosure Schedule, as of the date hereof, no Seller is a party to or bound by (i) any "material contract" (as such term is defined in Item 601(b)(10) of Regulation S-K of the SEC); (ii) any non-compete or exclusivity agreement that materially restricts the operation of Sellers' core business; (iii) any asset purchase agreement, stock purchase agreement or other agreement entered into within the past six years governing a material joint venture or the acquisition or disposition of assets or other property where the consideration paid or received for such assets or other property exceeded $500,000,000 (whether in cash, stock or otherwise); (iv) any agreement or series of related agreements with any supplier of Sellers who directly support the production of vehicles, which provided collectively for payments by Sellers to such supplier in excess of $250,000,000 during the 12-month period ended December 31, 2008; (v) any agreement or series of related agreements with any supplier of Sellers who does not directly support the production of vehicles, which, provided collectively for payments by Sellers to such supplier in excess of $100,000,000 during the 12-month period ended April 30, 2009; (vi) any Contract relating to the lease or purchase of aircraft; (vii) any settlement agreement where a Seller has paid or may be required to pay an amount in excess of $100,000,000 to settle the Claims covered by such settlement agreement; (viii) any material Contract that will, following the Closing, as a result of transactions contemplated hereby, be between or among a Seller or any Retained Subsidiary, on the one hand, and Purchaser or any Purchased Subsidiary, on the other hand (other than the Ancillary Agreements); and (ix) agreements entered into in connection with a material joint venture (all Contracts of the type described in this **Section 4.16(a)** being referred to herein as "Seller Material Contracts").

(b) No Seller is in breach of or default under, or has received any written notice alleging any breach of or default under, the terms of any Seller Material Contract or material License, where such breach or default would reasonably be expected to have a Material Adverse Effect. To the Knowledge of Sellers, no other party to any Seller Material Contract or material License is in breach of or default under the terms of any Seller Material Contract or material License, where such breach or default would reasonably be expected to have a Material Adverse Effect. Except as would not reasonably be expected to have a Material Adverse Effect, each Seller Material Contract or material License is a valid, binding and enforceable obligation of such Seller that is party thereto and, to the Knowledge of Sellers, of each other party thereto, and is in full force and effect, except as enforceability may be limited by applicable bankruptcy, reorganization, insolvency, moratorium, fraudulent transfer and other similar Laws

relating to or affecting the enforcement of creditors' rights generally from time to time in effect and by general equitable principles relating to enforceability, including principles of commercial reasonableness, good faith and fair dealing.

Section 4.17 Dealer Sales and Service Agreements for Continuing Brands. Parent is not in breach of or default under the terms of any United States dealer sales and service Contract for Continuing Brands other than any Excluded Continuing Brand Dealer Agreement (each, a "Dealer Agreement"), where such breach or default would reasonably be expected to have a Material Adverse Effect. To the Knowledge of Sellers, no other party to any Dealer Agreement is in breach of or default under the terms of such Dealer Agreement, where such breach or default would not reasonably be expected to have a Material Adverse Effect. Except as would not reasonably be expected to have a Material Adverse Effect, each Dealer Agreement is a valid and binding obligation of Parent and, to the Knowledge of Sellers, of each other party thereto, and is in full force and effect, except as enforceability may be limited by applicable bankruptcy, reorganization, insolvency, moratorium, fraudulent transfer and other similar Laws relating to or affecting the enforcement of creditors' rights generally from time to time in effect and by general equitable principles relating to enforceability, including principles of commercial reasonableness, good faith and fair dealing.

Section 4.18 Sellers' Products.

(a) To the Knowledge of Sellers, since April 1, 2007, neither Sellers nor any Purchased Subsidiary has conducted or decided to conduct any material recall or other field action concerning any product developed, designed, manufactured, sold, provided or placed in the stream of commerce by or on behalf of any Seller or any Purchased Subsidiary.

(b) As of the date hereof, there are no material pending actions for negligence, manufacturing negligence or improper workmanship, or material pending actions, in whole or in part, premised upon product liability, against or otherwise naming as a party any Seller, Purchased Subsidiary or any predecessor-in-interest of any of the foregoing Persons, or to the Knowledge of Sellers, threatened in writing or of which Seller has received written notice that involve a product liability Claim resulting from the ownership, possession or use of any product manufactured, sold or delivered by any Seller, any Purchased Subsidiary or any predecessor-in-interest of any of the foregoing Persons, which would reasonably be expected to have a Material Adverse Effect.

(c) To the Knowledge of Sellers and except as would not reasonably be expected to have a Material Adverse Effect, no supplier to any Seller has threatened in writing to cease the supply of products or services that could impair future production at a major production facility of such Seller.

Section 4.19 Certain Business Practices. Each of Sellers and the Purchased Subsidiaries is in compliance with the legal requirements under the Foreign Corrupt Practices Act, as amended (the "FCPA"), except for such failures, whether individually or in the aggregate, to maintain books and records or internal controls as required thereunder that are not

material. To the Knowledge of Sellers, since April 1, 2007, no Seller or Purchased Subsidiary, nor any director, officer, employee or agent thereof, acting on its, his or her own behalf or on behalf of any of the foregoing Persons, has offered, promised, authorized the payment of, or paid, any money, or the transfer of anything of value, directly or indirectly, to or for the benefit of: (a) any employee, official, agent or other representative of any foreign Governmental Authority, or of any public international organization; or (b) any foreign political party or official thereof or candidate for foreign political office for the purpose of influencing any act or decision of such recipient in the recipient's official capacity, or inducing such recipient to use his, her or its influence to affect any act or decision of such foreign government or department, agency or instrumentality thereof or of such public international organization, or securing any improper advantage, in the case of both clause (a) and (b) above, in order to assist any Seller or any Purchased Subsidiary to obtain or retain business for, or to direct business to, any Seller or any Purchased Subsidiary and under circumstances that would subject any Seller or any Purchased Subsidiary to material Liability under any applicable Laws of the United States (including the FCPA) or of any foreign jurisdiction where any Seller or any Purchased Subsidiary does business relating to corruption, bribery, ethical business conduct, money laundering, political contributions, gifts and gratuities, or lawful expenses.

Section 4.20 Brokers and Other Advisors. No broker, investment banker, financial advisor, counsel (other than legal counsel) or other Person is entitled to any broker's, finder's or financial advisor's fee or commission (collectively, "Advisory Fees") in connection with the transactions contemplated by this Agreement based upon arrangements made by or on behalf of Sellers or any Affiliate of any Seller.

Section 4.21 Investment Representations.

(a) Each Seller is acquiring the Parent Shares for its own account solely for investment and not with a view to, or for sale in connection with, any distribution thereof in violation of the Securities Act or the applicable securities Laws of any jurisdiction. Each Seller agrees that it shall not transfer any of the Parent Shares, except in compliance with the Securities Act and with the applicable securities Laws of any other jurisdiction.

(b) Each Seller is an "Accredited Investor" as defined in Rule 501(a) promulgated under the Securities Act.

(c) Each Seller understands that the acquisition of the Parent Shares to be acquired by it pursuant to the terms of this Agreement involves substantial risk. Each Seller and its officers have experience as an investor in the Equity Interests of companies such as the ones being transferred pursuant to this Agreement and each Seller acknowledges that it can bear the economic risk of its investment and has such knowledge and experience in financial or business matters that it is capable of evaluating the merits and risks of its investment in the Parent Shares to be acquired by it pursuant to the transactions contemplated by this Agreement.

(d) Each Seller further understands and acknowledges that the Parent Shares have not been registered under the Securities Act or under the applicable securities Laws of any jurisdiction and agrees that the Parent Shares may not be sold, transferred, offered

for sale, pledged, hypothecated or otherwise disposed of without registration under the Securities Act or under the applicable securities Laws of any jurisdiction, or, in each case, an applicable exemption therefrom.

(e) Each Seller acknowledges that the offer and sale of the Parent Shares has not been accomplished by the publication of any advertisement.

Section 4.22 No Other Representations or Warranties of Sellers. EXCEPT FOR THE REPRESENTATIONS AND WARRANTIES CONTAINED IN THIS **ARTICLE IV**, NONE OF SELLERS AND ANY PERSON ACTING ON BEHALF OF A SELLER MAKES ANY OTHER EXPRESS OR IMPLIED REPRESENTATION OR WARRANTY WITH RESPECT TO SELLERS, ANY OF THEIR AFFILIATES, SELLERS' BUSINESS, THE PURCHASED ASSETS, THE ASSUMED LIABILITIES OR WITH RESPECT TO ANY OTHER INFORMATION PROVIDED TO PURCHASER OR ANY OF ITS AFFILIATES OR REPRESENTATIVES IN CONNECTION WITH THE TRANSACTIONS CONTEMPLATED BY THIS AGREEMENT. WITHOUT LIMITING THE FOREGOING, EXCEPT AS SET FORTH IN THE REPRESENTATIONS AND WARRANTIES OF SELLERS CONTAINED IN THIS **ARTICLE IV**, SELLERS MAKE NO REPRESENTATION OR WARRANTY, EXPRESS OR IMPLIED, AT LAW OR IN EQUITY, WITH RESPECT TO (A) MERCHANTABILITY, FITNESS FOR ANY PARTICULAR PURPOSE OR USE, TITLE OR NON-INFRINGEMENT OF THE PURCHASED ASSETS, (B) ANY INFORMATION, WRITTEN OR ORAL AND IN ANY FORM PROVIDED OR MADE AVAILABLE (WHETHER BEFORE OR, IN CONNECTION WITH ANY SUPPLEMENT, MODIFICATION OR UPDATE TO THE SELLERS' DISCLOSURE SCHEDULE PURSUANT TO **SECTION 6.5**, **SECTION 6.6** OR **SECTION 6.26,** AFTER THE DATE HEREOF) TO PURCHASER OR ANY OF ITS AFFILIATES OR REPRESENTATIVES, INCLUDING IN "DATA ROOMS" (INCLUDING ON-LINE DATA ROOMS), MANAGEMENT PRESENTATIONS, FUNCTIONAL "BREAK-OUT" DISCUSSIONS, RESPONSES TO QUESTIONS SUBMITTED ON BEHALF OF THEM OR OTHER COMMUNICATIONS BETWEEN THEM OR ANY OF THEIR REPRESENTATIVES, ON THE ONE HAND, AND SELLERS, THEIR AFFILIATES, OR ANY OF THEIR REPRESENTATIVES, ON THE OTHER HAND, OR ON THE ACCURACY OR COMPLETENESS OF ANY SUCH INFORMATION, OR ANY PROJECTIONS, ESTIMATES, BUSINESS PLANS OR BUDGETS DELIVERED TO OR MADE AVAILABLE TO PURCHASER OR ANY OF ITS AFFILIATES OR REPRESENTATIVES OR (C) FUTURE REVENUES, EXPENSES OR EXPENDITURES, FUTURE RESULTS OF OPERATIONS (OR ANY COMPONENT THEREOF), FUTURE CASH FLOWS OR FUTURE FINANCIAL CONDITION (OR ANY COMPONENT THEREOF) OF SELLERS' BUSINESS OR THE PURCHASED ASSETS.

ARTICLE V
REPRESENTATIONS AND WARRANTIES OF PURCHASER

Purchaser hereby represents and warrants to Sellers as follows:

Section 5.1 Organization and Good Standing. Purchaser is a legal entity duly organized, validly existing and in good standing under the Laws of its jurisdiction of

incorporation. Purchaser has the requisite corporate power and authority to own, lease and operate its assets and to carry on its business as now being conducted.

Section 5.2 Authorization; Enforceability.

(a) Purchaser has the requisite corporate power and authority to (i) execute and deliver this Agreement and the Ancillary Agreements to which it is a party; (ii) perform its obligations hereunder and thereunder; and (iii) consummate the transactions contemplated by this Agreement and the Ancillary Agreements to which it is a party.

(b) This Agreement constitutes, and each of the Ancillary Agreements to which Purchaser is a party, when duly executed and delivered by Purchaser, shall constitute, a valid and legally binding obligation of Purchaser (assuming that this Agreement and such Ancillary Agreements constitute valid and legally binding obligations of each Seller that is a party thereto and the other applicable parties thereto), enforceable against Purchaser in accordance with its respective terms and conditions, except as may be limited by applicable bankruptcy, reorganization, insolvency, moratorium, fraudulent transfer and other similar Laws relating to or affecting the enforcement of creditors' rights generally from time to time in effect and by general equitable principles relating to enforceability, including principles of commercial reasonableness, good faith and fair dealing.

Section 5.3 Noncontravention; Consents.

(a) The execution and delivery by Purchaser of this Agreement and the Ancillary Agreements to which it is a party, and (subject to the entry of the Sale Approval Order) the consummation by Purchaser of the transactions contemplated hereby and thereby, do not (i) violate any Law to which Purchaser or its assets is subject; (ii) conflict with or result in a breach of any provision of the Organizational Documents of Purchaser; or (iii) create a breach, default, termination, cancellation or acceleration of any obligation of Purchaser under any Contract to which Purchaser is a party or by which Purchaser or any of its assets or properties is bound or subject, except for any of the foregoing in the cases of clauses (i) and (iii), that would not reasonably be expected to have a material adverse effect on Purchaser's ability to consummate the transactions contemplated hereby or thereby or to perform any of its obligations under this Agreement or any Ancillary Agreement to which it is a party (a "Purchaser Material Adverse Effect").

(b) No consent, waiver, approval, Order, Permit or authorization of, or declaration or filing with, or notification to, any Person or Governmental Authority is required by Purchaser for the consummation by Purchaser of the transactions contemplated by this Agreement or the Ancillary Agreements to which it is a party or the compliance by Purchaser with any of the provisions hereof or thereof, except for (i) compliance with the applicable requirements of any Antitrust Laws and (ii) such consent, waiver, approval, Order, Permit, qualification or authorization of, or declaration or filing with, or notification to, any Governmental Authority, the failure of which to be received

or made would not, individually or in the aggregate, reasonably be expected to have a Purchaser Material Adverse Effect.

Section 5.4 Capitalization.

(a) As of the date hereof, Sponsor holds beneficially and of record 1,000 shares of common stock, par value $0.01 per share, of Purchaser, which constitutes all of the outstanding capital stock of Purchaser, and all such capital stock is validly issued, fully paid and nonassessable.

(b) Immediately following the Closing, the authorized capital stock of Purchaser (or, if a Holding Company Reorganization has occurred prior to the Closing, Holding Company) will consist of 2,500,000,000 shares of common stock, par value $0.01 per share ("Common Stock"), and 1,000,000,000 shares of preferred stock, par value $0.01 per share ("Preferred Stock"), of which 360,000,000 shares of Preferred Stock are designated as Series A Fixed Rate Cumulative Perpetual Preferred Stock, par value $0.01 per share (the "Series A Preferred Stock").

(c) Immediately following the Closing, (i) Canada or one or more of its Affiliates will hold beneficially and of record 58,368,644 shares of Common Stock and 16,101,695 shares of Series A Preferred Stock (collectively, the "Canada Shares"), (ii) Sponsor or one or more of its Affiliates collectively will hold beneficially and of record 304,131,356 shares of Common Stock and 83,898,305 shares of Series A Preferred Stock (collectively, the "Sponsor Shares") and (iii) the New VEBA will hold beneficially and of record 87,500,000 shares of Common Stock and 260,000,000 shares of Series A Preferred Stock (collectively, the "VEBA Shares"). Immediately following the Closing, there will be no other holders of Common Stock or Preferred Stock.

(d) Except as provided under the Parent Warrants, VEBA Warrants, Equity Incentive Plans or as disclosed on the Purchaser's Disclosure Schedule, there are and, immediately following the Closing, there will be no outstanding options, warrants, subscriptions, calls, convertible securities, phantom equity, equity appreciation or similar rights, or other rights or Contracts (contingent or otherwise) (including any right of conversion or exchange under any outstanding security, instrument or other Contract or any preemptive right) obligating Purchaser to deliver or sell, or cause to be issued, delivered or sold, any shares of its capital stock or other equity securities, instruments or rights that are, directly or indirectly, convertible into or exercisable or exchangeable for any shares of its capital stock. There are no outstanding contractual obligations of Purchaser to repurchase, redeem or otherwise acquire any shares of its capital stock or to provide funds to, or make any material investment (in the form of a loan, capital contribution or otherwise) in, any other Person. There are no voting trusts, shareholder agreements, proxies or other Contracts or understandings in effect with respect to the voting or transfer of any of the shares of Common Stock to which Purchaser is a party or by which Purchaser is bound. Except as provided under the Equity Registration Rights Agreement or as disclosed in the Purchaser's Disclosure Schedule, Purchaser has not granted or agreed to grant any holders of shares of Common Stock or securities

convertible into shares of Common Stock registration rights with respect to such shares under the Securities Act.

(e) Immediately following the Closing, (i) all of the Canada Shares, the Parent Shares and the Sponsor Shares will be duly and validly authorized and issued, fully paid and nonassessable, and will be issued in accordance with the registration or qualification provisions of the Securities Act or pursuant to valid exemptions therefrom and (ii) none of the Canada Shares, the Parent Shares or the Sponsor Shares will be issued in violation of any preemptive rights.

Section 5.5 Valid Issuance of Shares. The Parent Shares, Adjustment Shares and the Common Stock underlying the Parent Warrants, when issued, sold and delivered in accordance with the terms and for the consideration set forth in this Agreement and the related warrant agreement, as applicable, will be (a) validly issued, fully paid and nonassessable and (b) free of restrictions on transfer other than restrictions on transfer under applicable state and federal securities Laws and Encumbrances created by or imposed by Sellers. Assuming the accuracy of the representations of Sellers in **Section 4.21**, the Parent Shares, Adjustment Shares and Parent Warrants will be issued in compliance with all applicable federal and state securities Laws.

Section 5.6 Investment Representations.

(a) Purchaser is acquiring the Transferred Equity Interests for its own account solely for investment and not with a view to, or for sale in connection with, any distribution thereof in violation of the Securities Act or the applicable securities Laws of any jurisdiction. Purchaser agrees that it shall not transfer any of the Transferred Equity Interests, except in compliance with the Securities Act and with the applicable securities Laws of any other jurisdiction.

(b) Purchaser is an "Accredited Investor" as defined in Rule 501(a) promulgated under the Securities Act.

(c) Purchaser understands that the acquisition of the Transferred Equity Interests to be acquired by it pursuant to the terms of this Agreement involves substantial risk. Purchaser and its officers have experience as an investor in Equity Interests of companies such as the ones being transferred pursuant to this Agreement and Purchaser acknowledges that it can bear the economic risk of its investment and has such knowledge and experience in financial or business matters that it is capable of evaluating the merits and risks of its investment in the Transferred Equity Interests to be acquired by it pursuant to the transactions contemplated hereby.

(d) Purchaser further understands and acknowledges that the Transferred Equity Interests have not been registered under the Securities Act or under the applicable securities Laws of any jurisdiction and agrees that the Transferred Equity Interests may not be sold, transferred, offered for sale, pledged, hypothecated or otherwise disposed of without registration under the Securities Act or under the applicable securities Laws of any jurisdiction, or, in each case, an applicable exemption therefrom.

(e) Purchaser acknowledges that the offer and sale of the Transferred Equity Interests has not been accomplished by the publication of any advertisement.

Section 5.7 Continuity of Business Enterprise. It is the present intention of Purchaser to directly, or indirectly through its Subsidiaries, continue at least one significant historic business line of each Seller, or use at least a significant portion of each Seller's historic business assets in a business, in each case, within the meaning of Treas. Reg. § 1.368-1(d).

Section 5.8 Integrated Transaction. Sponsor has contributed, or will, prior to the Closing, contribute the UST Credit Facilities, a portion of the DIP Facility that is owed as of the Closing and the UST Warrant to Purchaser solely for the purposes of effectuating the transactions contemplated by this Agreement.

Section 5.9 No Other Representations or Warranties of Sellers. PURCHASER HEREBY ACKNOWLEDGES AND AGREES THAT, EXCEPT FOR THE REPRESENTATIONS AND WARRANTIES CONTAINED IN **ARTICLE IV**, NONE OF SELLERS AND ANY PERSON ACTING ON BEHALF OF A SELLER MAKES ANY OTHER EXPRESS OR IMPLIED REPRESENTATION OR WARRANTY WITH RESPECT TO SELLERS, ANY OF THEIR AFFILIATES, SELLERS' BUSINESS, THE PURCHASED ASSETS, THE ASSUMED LIABILITIES OR WITH RESPECT TO ANY OTHER INFORMATION PROVIDED TO PURCHASER OR ANY OF ITS AFFILIATES OR REPRESENTATIVES IN CONNECTION WITH THE TRANSACTIONS CONTEMPLATED BY THIS AGREEMENT. WITHOUT LIMITING THE FOREGOING, EXCEPT AS SET FORTH IN THE REPRESENTATIONS AND WARRANTIES OF SELLERS CONTAINED IN **ARTICLE IV**, PURCHASER FURTHER HEREBY ACKNOWLEDGES AND AGREES THAT SELLERS MAKE NO REPRESENTATION OR WARRANTY, EXPRESS OR IMPLIED, AT LAW OR IN EQUITY, WITH RESPECT TO (A) MERCHANTABILITY, FITNESS FOR ANY PARTICULAR PURPOSE OR USE, TITLE OR NON-INFRINGEMENT OF THE PURCHASED ASSETS, (B) ANY INFORMATION, WRITTEN OR ORAL AND IN ANY FORM PROVIDED OR MADE AVAILABLE (WHETHER BEFORE OR, IN CONNECTION WITH ANY SUPPLEMENT, MODIFICATION OR UPDATE TO THE SELLERS' DISCLOSURE SCHEDULE PURSUANT TO **SECTION 6.5**, **SECTION 6.6** OR **SECTION 6.26,** AFTER THE DATE HEREOF) TO PURCHASER OR ANY OF ITS REPRESENTATIVES, INCLUDING IN "DATA ROOMS" (INCLUDING ON-LINE DATA ROOMS), MANAGEMENT PRESENTATIONS, FUNCTIONAL "BREAK-OUT" DISCUSSIONS, RESPONSES TO QUESTIONS SUBMITTED ON BEHALF OF IT OR OTHER COMMUNICATIONS BETWEEN IT OR ANY OF ITS AFFILIATES OR REPRESENTATIVES, ON THE ONE HAND, AND SELLERS, THEIR AFFILIATES, OR ANY OF THEIR REPRESENTATIVES, ON THE OTHER HAND, OR ON THE ACCURACY OR COMPLETENESS OF ANY SUCH INFORMATION OR (C) ANY PROJECTIONS, ESTIMATES, BUSINESS PLANS OR BUDGETS DELIVERED TO OR MADE AVAILABLE TO PURCHASER OR ANY OF ITS AFFILIATES OR REPRESENTATIVES OR (D) FUTURE REVENUES, EXPENSES OR EXPENDITURES, FUTURE RESULTS OF OPERATIONS (OR ANY COMPONENT THEREOF), FUTURE CASH FLOWS OR FUTURE FINANCIAL CONDITION (OR ANY COMPONENT THEREOF) OF SELLERS' BUSINESS OR THE PURCHASED ASSETS.

ARTICLE VI
COVENANTS

Section 6.1 Access to Information.

(a) Sellers agree that, until the earlier of the Executory Contract Designation Deadline and the termination of this Agreement, Purchaser shall be entitled, through its Representatives or otherwise, to have reasonable access to the executive officers and Representatives of Sellers and the properties and other facilities, businesses, books, Contracts, personnel, records and operations (including the Purchased Assets and Assumed Liabilities) of Sellers and their Subsidiaries, including access to systems, data, databases for benefit plan administration; provided however, that no such investigation or examination shall be permitted to the extent that it would, in Sellers' reasonable determination, require any Seller, any Subsidiary of any Seller or any of their respective Representatives to disclose information subject to attorney-client privilege or in conflict with any confidentiality agreement to which any Seller, any Subsidiary of any Seller or any of their respective Representatives are bound (in which case, to the extent requested by Purchaser, Sellers will use reasonable best efforts to seek an amendment or appropriate waiver, or necessary consents, as may be required to avoid such conflict, or restructure the form of access, so as to permit the access requested); provided further, that notwithstanding the notice provisions in **Section 9.2** hereof, all such requests for access to the executive officers of Sellers shall be directed, prior to the Closing, to the Chief Financial Officer of Parent or his designee, and following the Closing, to the Chief Restructuring Officer of Parent or his or her designee. If any material is withheld pursuant to this **Section 6.1(a)**, Seller shall inform Purchaser in writing as to the general nature of what is being withheld and the reason for withholding such material.

(b) Any investigation and examination contemplated by this **Section 6.1** shall be subject to restrictions set forth in **Section 6.24** and under applicable Law. Sellers shall cooperate, and shall cause their Subsidiaries and each of their respective Representatives to cooperate, with Purchaser and its Representatives in connection with such investigation and examination, and each of Purchaser and its Representatives shall use their reasonable best efforts to not materially interfere with the business of Sellers and their Subsidiaries. Without limiting the generality of the foregoing, subject to **Section 6.1(a),** such investigation and examination shall include reasonable access to Sellers' executive officers (and employees of Sellers and their respective Subsidiaries identified by such executive officers), offices, properties and other facilities, and books, Contracts and records (including any document retention policies of Sellers) and access to accountants of Sellers and each of their respective Subsidiaries (provided that Sellers and each of their respective Subsidiaries, as applicable, shall have the right to be present at any meeting between any such accountant and Purchaser or Representative of Purchaser, whether such meeting is in person, telephonic or otherwise) and Sellers and each of their respective Subsidiaries and their Representatives shall prepare and furnish to Purchaser's Representatives such additional financial and operating data and other information as Purchaser may from time to time reasonably request, subject, in each case, to the confidentiality restrictions outlined in this **Section 6.1**. Notwithstanding anything contained herein to the contrary, Purchaser shall consult with Sellers prior to conducting

any environmental investigations or examinations of any nature, including Phase I and Phase II site assessments and any environmental sampling in respect of the Transferred Real Property.

Section 6.2 Conduct of Business.

(a) Except as (i) otherwise expressly contemplated by or permitted under this Agreement, including the DIP Facility; (ii) disclosed on Section 6.2 of the Sellers' Disclosure Schedule; (iii) approved by the Bankruptcy Court (or any other court or other Governmental Authority in connection with any other bankruptcy, insolvency or similar proceeding filed by or in respect of any Subsidiary of Parent); or (iv) required by or resulting from any changes to applicable Laws, from and after the date of this Agreement and until the earlier of the Closing and the termination of this Agreement, Sellers shall and shall cause each Purchased Subsidiary to (A) conduct their operations in the Ordinary Course of Business, (B) not take any action inconsistent with this Agreement or with the consummation of the Closing, (C) use reasonable best efforts to preserve in the Ordinary Course of Business and in all material respects the present relationships of Sellers and each of their Subsidiaries with their respective customers, suppliers and others having significant business dealings with them, (D) not take any action to cause any of Sellers' representations and warranties set forth in **ARTICLE IV** to be untrue in any material respect as of any such date when such representation or warranty is made or deemed to be made and (E) not take any action that would reasonably be expected to materially prevent or delay the Closing.

(b) Subject to the exceptions contained in clauses (i) through (iv) of **Section 6.2(a)**, each Seller agrees that, from and after the date of this Agreement and until the earlier of the Closing and the termination of this Agreement, without the prior written consent of Purchaser (which consent shall not be unreasonably withheld, conditioned or delayed), such Seller shall not, and shall not permit any of the Key Subsidiaries (and in the case of clauses (i), (ix), (xiii) or (xvi), shall not permit any Purchased Subsidiary) to:

(i) take any action with respect to which any Seller has granted approval rights to Sponsor under any Contract, including under the UST Credit Facilities, without obtaining the prior approval of such action from Sponsor;

(ii) issue, sell, pledge, create an Encumbrance or otherwise dispose of or authorize the issuance, sale, pledge, Encumbrance or disposition of any Equity Interests of the Transferred Entities, or grant any options, warrants or other rights to purchase or obtain (including upon conversion, exchange or exercise) any such Equity Interests;

(iii) declare, set aside or pay any dividend or make any distribution (whether in cash, securities or other property or by allocation of additional Indebtedness to any Seller or any Key Subsidiary without receipt of fair value with respect to any Equity Interest of Seller or any Key Subsidiary), except for dividends and distributions among the Purchased Subsidiaries;

(iv) directly or indirectly, purchase, redeem or otherwise acquire any Equity Interests or any rights to acquire any Equity Interests of any Seller or Key Subsidiary;

(v) materially change any of its financial accounting policies or procedures or any of its methods of reporting income, deductions or other material items for financial accounting purposes, except as permitted by GAAP, a SEC rule, regulation or policy or applicable Law, or as modified by Parent as a result of the filing of the Bankruptcy Cases;

(vi) adopt any amendments to its Organizational Documents or permit the adoption of any amendment of the Organizational Documents of any Key Subsidiary or effect a split, combination or reclassification or other adjustment of Equity Interests of any Purchased Subsidiary or a recapitalization thereof;

(vii) sell, pledge, lease, transfer, assign or dispose of any Purchased Asset or permit any Purchased Asset to become subject to any Encumbrance, other than a Permitted Encumbrance, in each case, except in the Ordinary Course of Business or pursuant to a Contract in existence as of the date hereof (or entered into in compliance with this **Section 6.2**);

(viii) (A) incur or assume any Indebtedness for borrowed money or issue any debt securities, except for Indebtedness for borrowed money incurred by Purchased Subsidiaries under existing lines of credit (including through the incurrence of Intercompany Obligations) to fund operations of Purchased Subsidiaries and Indebtedness for borrowed money incurred by Sellers under the DIP Facility or (B) assume, guarantee, endorse or otherwise become liable or responsible (whether directly, contingently or otherwise) for the obligations of any other Person, except for Indebtedness for borrowed money among any Seller and Subsidiary or among the Subsidiaries;

(ix) discharge or satisfy any Indebtedness in excess of $100,000,000 other than the discharge or satisfaction of any Indebtedness when due in accordance with its originally scheduled terms;

(x) other than as is required by the terms of a Parent Employee Benefit Plan and Policy (in effect on the date hereof and set forth on Section 4.10 of the Sellers' Disclosure Schedule), any Assumed Plan (in effect on the date hereof) the UAW Collective Bargaining Agreement or consistent with the expiration of a Collective Bargaining Agreement, the Settlement Agreement, the UAW Retiree Settlement Agreement or as may be required by applicable Law or TARP or under any enhanced restrictions on executive compensation agreed to by Sellers and Sponsor, (A) increase the compensation or benefits of any Employee of Sellers or any Purchased Subsidiary (except for increases in salary or wages in the Ordinary Course of Business with respect to Employees who are not current or former directors or officers of Sellers or Seller Key Personnel), (B) grant any severance or termination pay to any Employee of Sellers or any Purchased

Subsidiary except for severance or termination pay provided under any Parent Employee Benefit Plan and Policy or as the result of a settlement of any pending Claim or charge involving a Governmental Authority or litigation with respect to Employees who are not current or former officers or directors of Sellers or Seller Key Personnel), (C) establish, adopt, enter into, amend or terminate any Benefit Plan (including any change to any actuarial or other assumption used to calculate funding obligations with respect to any Benefit Plan or any change to the manner in which contributions to any Benefit Plan are made or the basis on which such contributions are determined), except where any such action would reduce Sellers' costs or Liabilities pursuant to such plan, (D) grant any awards under any Benefit Plan (including any equity or equity-based awards), (E) increase or promise to increase or provide for the funding under any Benefit Plan, (F) forgive any loans to Employees of Sellers or any Purchased Subsidiary (other than as part of a settlement of any pending Claim or charge involving a Governmental Authority or litigation in the Ordinary Course of Business or with respect to obligations of Employees whose employment is terminated by Sellers or a Purchased Subsidiary in the Ordinary Course of Business, other than Employees who are current or former officers or directors of Sellers or Seller Key Personnel or directors of Sellers or a Purchased Subsidiary) or (G) exercise any discretion to accelerate the time of payment or vesting of any compensation or benefits under any Benefit Plan;

(xi) modify, amend, terminate or waive any rights under any Affiliate Contract or Seller Material Contract (except for any dealer sales and service Contracts or as contemplated by **Section 6.7**) in any material respect in a manner that is adverse to any Seller that is a party thereto, other than in the Ordinary Course of Business;

(xii) enter into any Seller Material Contract other than as contemplated by **Section 6.7**;

(xiii) acquire (including by merger, consolidation, combination or acquisition of Equity Interests or assets) any Person or business or division thereof (other than acquisitions of portfolio assets and acquisitions in the Ordinary Course of Business) in a transaction (or series of related transactions) where the aggregate consideration paid or received (including non-cash equity consideration) exceeds $100,000,000;

(xiv) alter, whether through a complete or partial liquidation, dissolution, merger, consolidation, restructuring, reorganization or in any other manner, the legal structure or ownership of any Key Subsidiary, or adopt or approve a plan with respect to any of the foregoing;

(xv) enter into any Contract that limits or otherwise restricts or that would reasonably be expected to, after the Closing, restrict or limit in any material respect (A) Purchaser or any of its Subsidiaries or any successor thereto or (B) any Affiliates of Purchaser or any successor thereto, in the case of each of

clause (A) or (B), from engaging or competing in any line of business or in any geographic area;

(xvi) enter into any Contracts for capital expenditures, exceeding $100,000,000 in the aggregate in connection with any single project or group of related projects;

(xvii) open or reopen any major production facility; and

(xviii) agree, in writing or otherwise, to take any of the foregoing actions.

Section 6.3 Notices and Consents.

(a) Sellers shall and shall cause each of their Subsidiaries to, and Purchaser shall use reasonable best efforts to, promptly give all notices to, obtain all material consents, approvals or authorizations from, and file all notifications and related materials with, any third parties (including any Governmental Authority) that may be or become necessary to be given or obtained by Sellers or their Affiliates, or Purchaser, respectively, in connection with the transactions contemplated by this Agreement.

(b) Each of Purchaser and Parent shall, to the extent permitted by Law, promptly notify the other Party of any communication it or any of its Affiliates receives from any Governmental Authority relating to the transactions contemplated by this Agreement and permit the other Party to review in advance any proposed substantive communication by such Party to any Governmental Authority. Neither Purchaser nor Parent shall agree to participate in any material meeting with any Governmental Authority in respect of any significant filings, investigation (including any settlement of the investigation), litigation or other inquiry unless it consults with the other Party in advance and, to the extent permitted by such Governmental Authority, gives the other Party the opportunity to attend and participate at such meeting; provided, however, in the event either Party is prohibited by applicable Law or such Governmental Authority from participating in or attending any such meeting, then the Party who participates in such meeting shall keep the other Party apprised with respect thereto to the extent permitted by Law. To the extent permitted by Law, Purchaser and Parent shall coordinate and cooperate fully with each other in exchanging such information and providing such assistance as the other Party may reasonably request in connection with the foregoing, including, to the extent reasonably practicable, providing to the other Party in advance of submission, drafts of all material filings, submissions, correspondences or other written communications, providing the other Party with an opportunity to comment on the drafts, and, where practicable, incorporating such comments, if any, into the final documents. To the extent permitted by applicable Law, Purchaser and Parent shall provide each other with copies of all material correspondences, filings or written communications between them or any of their Representatives, on the one hand, and any Governmental Authority or members of its staff, on the other hand, with respect to this Agreement or the transactions contemplated by this Agreement.

(c) None of Purchaser, Parent or their respective Affiliates shall be required to pay any fees or other payments to any Governmental Authorities in order to obtain any authorization, consent, Order or approval (other than normal filing fees and administrative fees that are imposed by Law on Purchaser), and in the event that any fees in addition to normal filing fees imposed by Law may be required to obtain any such authorization, consent, Order or approval, such fees shall be for the account of Purchaser.

(d) Notwithstanding anything to the contrary contained herein, no Seller shall be required to make any expenditure or incur any Liability in connection with the requirements set forth in this **Section 6.3**.

Section 6.4 Sale Procedures; Bankruptcy Court Approval.

(a) This Agreement is subject to approval by the Bankruptcy Court and the consideration by Sellers and the Bankruptcy Court of higher or better competing Bids with respect to an Alternative Transaction. Nothing contained herein shall be construed to prohibit Sellers and their respective Affiliates and Representatives from soliciting, considering, negotiating, agreeing to, or otherwise taking action in furtherance of, any Alternative Transaction but only to the extent that Sellers determine in good faith that such actions are permitted or required by the Sale Procedures Order.

(b) On the Petition Date, Sellers filed with the Bankruptcy Court the Bankruptcy Cases under the Bankruptcy Code and a motion (and related notices and proposed Orders) (the "Sale Procedures and Sale Motion"), seeking entry of (i) the sale procedures order, in the form attached hereto as **Exhibit H** (the "Sale Procedures Order"), and (ii) the sale approval order, in the form attached hereto as **Exhibit I** (the "Sale Approval Order"). The Sale Approval Order shall declare that if there is an Agreed G Transaction, (A) this Agreement constitutes a "plan" of Parent and Purchaser solely for purposes of Sections 368 and 354 of the Tax Code and (B) the transactions with respect to Parent described herein, in combination with the subsequent liquidation of Sellers, are intended to constitute a reorganization of Parent pursuant to Section 368(a)(1)(G) of the Tax Code. To the extent reasonably practicable, Sellers shall consult with and provide Purchaser and the UAW a reasonable opportunity to review and comment on material motions, applications and supporting papers prepared by Sellers in connection with this Agreement prior to the filing or delivery thereof in the Bankruptcy Cases.

(c) Purchaser acknowledges that Sellers may receive bids ("Bids") from prospective purchasers (such prospective purchasers, the "Bidders") with respect to an Alternative Transaction, as provided in the Sale Procedures Order. All Bids (other than Bids submitted by Purchaser) shall be submitted with two copies of this Agreement marked to show changes requested by the Bidder.

(d) If Sellers receive any Bids, Sellers shall have the right to select, and seek final approval of the Bankruptcy Court for, the highest or otherwise best Bid or Bids from the Bidders (the "Superior Bid"), which will be determined in accordance with the Sale Procedure Order.

(e) Sellers shall use their reasonable best efforts to obtain entry of the Sale Approval Order on the Bankruptcy Court's docket as soon as practicable, and in no event no later than July 10, 2009.

(f) Sellers shall use reasonable best efforts to comply (or obtain an Order from the Bankruptcy Court waiving compliance) with all requirements under the Bankruptcy Code and the Federal Rules of Bankruptcy Procedure in connection with obtaining approval of the transactions contemplated by this Agreement, including serving on all required Persons in the Bankruptcy Cases (including all holders of Encumbrances and parties to the Purchased Contracts), a notice of the Sale Procedures and Sale Motion, the Sale Hearing and the objection deadline in accordance with Rules 2002, 6004, 6006 and 9014 of the Federal Rules of Bankruptcy Procedure (as modified by Orders of the Bankruptcy Court), the Sale Procedures Order or other Orders of the Bankruptcy Court, including General Order M-331 issued by the Bankruptcy Court, and any applicable local rules of the Bankruptcy Court.

(g) Sellers shall provide Purchaser with a reasonable opportunity to review and comment on all motions, applications and supporting papers prepared by Sellers in connection with this Agreement (including forms of Orders and of notices to interested parties) prior to the filing or delivery thereof in the Bankruptcy Cases. All motions, applications and supporting papers prepared by Sellers and relating to the approval of this Agreement (including forms of Orders and of notices to interested parties) to be filed or delivered on behalf of Sellers shall be reasonably acceptable in form and substance to Purchaser. Sellers shall provide written notice to Purchaser of all matters that are required to be served on Sellers' creditors pursuant to the Bankruptcy Code and the Federal Rules of Bankruptcy Procedure. In the event the Sale Procedures Order and the Sale Approval Order is appealed, Sellers shall use their reasonable best efforts to defend such appeal.

(h) Purchaser agrees, to the extent reasonably requested by Sellers, to cooperate with and assist Sellers in seeking entry of the Sale Procedures Order and the Sale Approval Order by the Bankruptcy Court, including attending all hearings on the Sale Procedures and Sale Motion.

Section 6.5 Supplements to Purchased Assets. Purchaser shall, from the date hereof until the Executory Contract Designation Deadline, have the right to designate in writing additional Personal Property it wishes to designate as Purchased Assets if such Personal Property is located at a parcel of leased real property where the underlying lease has been designated as a Rejectable Executory Contract pursuant to **Section 6.6** following the Closing.

Section 6.6 Assumption or Rejection of Contracts.

(a) The Assumable Executory Contract Schedule sets forth a list of Executory Contracts entered into by Sellers that Sellers may assume and assign to Purchaser in accordance with this **Section 6.6(a)** (each, an "Assumable Executory Contract"). Any Contract identified on Section 6.6(a)(i) of the Sellers' Disclosure Schedule and Section 6.6(a)(ii) of the Sellers' Disclosure Schedule shall automatically be designated as an

Assumable Executory Contract and deemed to be set forth on the Assumable Executory Contract Schedule. Purchaser may, until the Executory Contract Designation Deadline, designate in writing any additional Executory Contract it wishes to designate as an Assumable Executory Contract and include on the Assumable Executory Contract Schedule, or any Assumable Executory Contract it no longer wishes to designate as an Assumable Executory Contract and remove from the Assumable Executory Contract Schedule; provided, however, that (i) Purchaser may not designate as an Assumable Executory Contract any (A) Rejectable Executory Contract, unless Sellers have consented to such designation in writing or (B) Contract that has previously been rejected by Sellers pursuant to Section 365 of the Bankruptcy Code, and (ii) Purchaser may not remove from the Assumable Executory Contract Schedule (v) the UAW Collective Bargaining Agreement, (w) any Contract identified on Section 6.6(a)(i) of the Sellers' Disclosure Schedule or Section 6.6(a)(ii) of the Sellers' Disclosure Schedule, (x) any Contract that has been previously assumed by Sellers pursuant to Section 365 of the Bankruptcy Code, (y) any Deferred Termination Agreement (or the related Discontinued Brand Dealer Agreement or Continuing Brand Dealer Agreement) or (z) any Participation Agreement (or the related Continuing Brand Dealer Agreement). Except as otherwise provided above, for each Assumable Executory Contract, Purchaser must determine, prior to the Executory Contract Designation Deadline, the date on which it seeks to have the assumption and assignment become effective, which date may be the Closing Date or a later date (but not an earlier date). The term "Executory Contract Designation Deadline" shall mean the date that is thirty (30) calendar days following the Closing Date, or if such date is not a Business Day, the next Business Day, or if mutually agreed upon by the Parties, any later date up to and including the Business Day immediately prior to the date of the confirmation hearing for Sellers' plan of liquidation or reorganization. For the avoidance of doubt, the Executory Contract Designation Deadline may be extended by mutual agreement of the Parties with respect to any single unassumed and unassigned Executory Contract, groups of unassumed and unassigned Executory Contracts or all of the unassumed and unassigned Executory Contracts.

(b) Sellers may, until the Closing, provide written notice (a "Notice of Intent to Reject") to Purchaser of Sellers' intent to designate any Executory Contract (that has not been designated as an Assumable Executory Contract) as a Rejectable Executory Contract (each a "Proposed Rejectable Executory Contract"). Following receipt of a Notice of Intent to Reject, Purchaser shall as soon as reasonably practicable, but in no event later than fifteen (15) calendar days following receipt of a Notice of Intent to Reject (the "Option Period"), provide Sellers written notice of Purchaser's designation of one or more Proposed Rejectable Executory Contracts identified in such Notice of Intent to Reject as an Assumable Executory Contract. Each Proposed Rejectable Executory Contract that has not been designated by Purchaser as an Assumable Executory Contract during the applicable Option Period shall automatically, without further action by Sellers, be designated as a Rejectable Executory Contract. A "Rejectable Executory Contract" is an Executory Contract that Sellers may, but are not obligated to, reject pursuant Section 365 of the Bankruptcy Code.

(c) Immediately following the Closing, each Executory Contract entered into by Sellers and then in existence that has not previously been designated as an Assumable

Executory Contract, a Rejectable Executory Contract or a Proposed Rejectable Executory Contract, and that has not otherwise been assumed or rejected by Sellers pursuant to Section 365 of the Bankruptcy Code, shall be deemed to be an Executory Contract subject to subsequent designation by Purchaser as an Assumable Executory Contract or a Rejectable Executory Contract (each a "Deferred Executory Contract").

(d) All Assumable Executory Contracts shall be assumed and assigned to Purchaser on the date (the "Assumption Effective Date") that is the later of (i) the date designated by the Purchaser and (ii) the date following expiration of the objection deadline if no objection, other than to the Cure Amount, has been timely filed or the date of resolution of any objection unrelated to Cure Amount, as provided in the Sale Procedures Order; provided, however, that in the case of each (A) Assumable Executory Contract identified on Section 6.6(a)(i) of the Sellers' Disclosure Schedule, (2) Deferred Termination Agreement (and the related Discontinued Brand Dealer Agreement or Continuing Brand Dealer Agreement) designated as an Assumable Executory Contract and (3) Participation Agreement (and the related Continuing Brand Dealer Agreement) designated as an Assumable Executory Contract, the Assumption Effective Date shall be the Closing Date and (B) Assumable Executory Contract identified on Section 6.6(a)(ii) of the Sellers' Disclosure Schedule, the Assumption Effective Date shall be a date that is no later than the date set forth with respect to such Executory Contract on Section 6.6(a)(ii) of the Sellers' Disclosure Schedule. On the Assumption Effective Date for any Assumable Executory Contract, such Assumable Executory Contract shall be deemed to be a Purchased Contract hereunder. If it is determined under the procedures set forth in the Sale Procedures Order that Sellers may not assume and assign to Purchaser any Assumable Executory Contract, such Executory Contract shall cease to be an Assumable Executory Contract and shall be an Excluded Contract and a Rejectable Executory Contract. Except as provided in **Section 6.31**, notwithstanding anything else to the contrary herein, any Executory Contract that has not been specifically designated as an Assumable Executory Contract as of the Executory Contract Designation Deadline applicable to such Executory Contract, including any Deferred Executory Contract, shall automatically be deemed to be a Rejectable Executory Contract and an Excluded Contract hereunder. Sellers shall have the right, but not the obligation, to reject, at any time, any Rejectable Executory Contract; provided, however, that Sellers shall not reject any Contract that affects both Owned Real Property and Excluded Real Property (whether designated on **Exhibit F** or now or hereafter designated on Section 2.2(b)(v) of the Sellers' Disclosure Schedule), including any such Executory Contract that involves the provision of water, water treatment, electric, fuel, gas, telephone and other utilities to any facilities located at the Excluded Real Property, whether designated on **Exhibit F** or now or hereafter designated on Section 2.2(b)(v) of the Sellers' Disclosure Schedule (the "Shared Executory Contracts"), without the prior written consent of Purchaser.

(e) From and after the Closing and during the applicable period specified below, Purchaser shall be obligated to pay or cause to be paid all amounts due in respect of Sellers' performance (i) under each Proposed Rejectable Executory Contract, during the pendency of the applicable Option Period under such Proposed Rejectable Executory Contract, (ii) under each Deferred Executory Contract, for so long as such Contract remains a Deferred Executory Contract, (iii) under each Assumable Executory Contract,

as long as such Contract remains an Assumable Executory Contract and (iv) under each GM Assumed Contract, until the applicable Assumption Effective Date. At and after the Closing and until such time as any Shared Executory Contract is either (y) rejected by Sellers pursuant to the provision set forth in this **Section 6.6** or (z) assumed by Sellers and subsequently modified with Purchaser's consent so as to no longer be applicable to the affected Owned Real Property, Purchaser shall reimburse Sellers as and when requested by Sellers for Purchasers' and its Affiliates' allocable share of all costs and expenses incurred under such Shared Executory Contract.

(f) Sellers and Purchaser shall comply with the procedures set forth in the Sale Procedures Order with respect to the assumption and assignment or rejection of any Executory Contract pursuant to, and in accordance with, this **Section 6.6**.

(g) No designation of any Executory Contract for assumption and assignment or rejection in accordance with this **Section 6.6** shall give rise to any right to any adjustment to the Purchase Price.

(h) Without limiting the foregoing, if, following the Executory Contract Designation Deadline, Sellers or Purchaser identify an Executory Contract that has not previously been identified as a Contract for assumption and assignment, and such Contract is important to Purchaser's ability to use or hold the Purchased Assets or operate its businesses in connection therewith, Sellers will assume and assign such Contract and assign it to Purchaser without any adjustment to the Purchase Price; provided that Purchaser consents and agrees at such time to (i) assume such Executory Contract and (ii) and discharge all Cure Amounts in respect hereof.

Section 6.7 Deferred Termination Agreements; Participation Agreements.

(a) Sellers shall, and shall cause their Affiliates to, use reasonable best efforts to enter into short-term deferred voluntary termination agreements in substantially the form attached hereto as **Exhibit J-1** (in respect of all Saturn Discontinued Brand Dealer Agreements), **Exhibit J-2** (in respect of all Hummer Discontinued Brand Dealer Agreements) and **Exhibit J-3** (in respect of all non-Saturn and non-Hummer Discontinued Brand Dealer Agreements and all Excluded Continuing Brand Dealer Agreements) that will, when executed by the relevant dealer counterparty thereto, modify the respective Discontinued Brand Dealer Agreements and selected Continuing Brand Dealer Agreements (collectively, the "Deferred Termination Agreements"). For the avoidance of doubt, (i) each Deferred Termination Agreement, and the related Discontinued Brand Dealer Agreement or Continuing Brand Dealer Agreement modified thereby, will automatically be an Assumable Executory Contract hereunder upon valid execution of such Deferred Termination Agreement by the parties thereto and (ii) all Discontinued Brand Dealer Agreements that are not modified by a Deferred Termination Agreement, and all Continuing Brand Dealer Agreements that are not modified by either a Deferred Termination Agreement or a Participation Agreement, will automatically be a Rejectable Executory Contract hereunder.

(b) Sellers shall, and shall cause their Affiliates to, use reasonable best efforts to enter into agreements, substantially in the form attached hereto as **Exhibit K** that will modify all Continuing Brand Dealer Agreements (other than the Continuing Brand Dealer Agreements that are proposed to be modified by Deferred Termination Agreements) (the "Participation Agreements"). For the avoidance of doubt, (i) all Participation Agreements, and the related Continuing Brand Dealer Agreements, will automatically be Assumable Executory Contracts hereunder upon valid execution of such Participation Agreement and (ii) all Continuing Brand Dealer Agreements that are proposed to be modified by a Participation Agreement and are not modified by a Participation Agreement will be offered Deferred Termination Agreements pursuant to **Section 6.7(a)**.

Section 6.8 [Reserved]

Section 6.9 Purchaser Assumed Debt; Wind Down Facility.

(a) Purchaser shall use reasonable best efforts to agree with Sponsor on the terms of a restructuring of the Purchaser Assumed Debt so as to be assumed by Purchaser immediately prior to the Closing. Purchaser shall use reasonable best efforts to enter into definitive financing agreements with respect to the Purchaser Assumed Debt so that such agreements are in effect as promptly as practicable but in any event no later than the Closing.

(b) Sellers shall use reasonable best efforts to agree with Sponsor on the terms of a restructuring of $950,000,000 of Indebtedness accrued under the DIP Facility (as restructured, the "Wind Down Facility") to provide for such Wind Down Facility to be non-recourse, to accrue payment-in-kind interest at LIBOR plus 300 basis points, to be secured by all assets of Sellers (other than the Parent Shares, Adjustment Shares, Parent Warrants and any securities received in respect thereof), and to be subject to mandatory repayment from the proceeds of asset sales (other than the sale of Parent Shares, Adjustment Shares, Parent Warrants and any securities received in respect thereof). Sellers shall use reasonable best efforts to enter into definitive financing agreements with respect to the Wind Down Facility so that such agreements are in effect as promptly as practicable but in any event no later than the Closing.

Section 6.10 Litigation and Other Assistance. In the event and for so long as any Party is actively contesting or defending against any action, investigation, charge, Claim or demand by a third party in connection with any transaction contemplated by this Agreement, the other Parties shall reasonably cooperate with the contesting or defending Party and its counsel in such contest or defense, make available its personnel and provide such testimony and access to its books, records and other materials as shall be reasonably necessary in connection with the contest or defense, all at the sole cost and expense of the contesting or defending Party; provided, however, that no Party shall be required to provide the contesting or defending party with any access to its books, records or materials if such access would violate the attorney-client privilege or conflict with any confidentiality obligations to which the non-contesting or defending Party is subject. In addition, the Parties agree to cooperate in connection with the making or filing of claims, requests for information, document retrieval and other activities in connection with any

and all Claims made under insurance policies specified on Section 2.2(b)(xiii) of the Sellers' Disclosure Schedule to the extent any such Claim relates to any Purchased Asset or Assumed Liability. For the avoidance of doubt, this **Section 6.10** shall not apply to any action, investigation, charge, Claim or demand by any of Sellers or their Affiliates, on the one hand, or Purchaser or any of its Affiliates, on the other hand.

Section 6.11 Further Assurances.

(a) Upon the terms and subject to the conditions set forth in this Agreement, each of the Parties shall use their reasonable best efforts to take, or cause to be taken, all actions, and to do, or cause to be done, all actions necessary, proper or advisable to consummate and make effective as promptly as practicable, the transactions contemplated by this Agreement in accordance with the terms hereof and to bring about the satisfaction of all other conditions to the other Parties' obligations hereunder; provided, however, that nothing in this Agreement shall obligate Sellers or Purchaser, or any of their respective Affiliates, to waive or modify any of the terms and conditions of this Agreement or any documents contemplated hereby, except as expressly set forth herein. The Parties acknowledge that Sponsor's acquisition of interest is a sovereign act and that no filings should be made by Sponsor or Purchaser in non-United States jurisdictions.

(b) The Parties shall negotiate the forms, terms and conditions of the Ancillary Agreements, to the extent the forms thereof are not attached to this Agreement, on the basis of the respective term sheets attached to this Agreement, in good faith, with such Ancillary Agreements to set forth terms on an Arms-Length Basis and incorporate usual and customary provisions for similar agreements.

(c) Until the Closing, Sellers shall maintain a team of appropriate personnel (each such team, a "Transition Team") to assist Purchaser and its Representatives in connection with Purchaser's efforts to complete prior to the Closing the activities described below. Sellers shall use their reasonable best efforts to cause the Transition Team to (A) meet with Purchaser and its Representatives on a regular basis at such times as Purchaser may reasonably request and (B) take such action and provide such information, including background and summary information, as Purchaser and its Representatives may reasonably request in connection with the following activities:

(i) evaluation and identification of all Contracts that Purchaser may elect to designate as Purchased Contracts or Excluded Contracts, consistent with its rights under this Agreement;

(ii) evaluation and identification of all assets and entities that Purchaser may elect to designate as Purchased Assets or Excluded Assets, consistent with its rights under this Agreement;

(iii) maintaining and obtaining necessary governmental consents, permits, authorizations, licenses and financial assurance for operation of the business by Purchaser following the Closing;

(iv) obtaining necessary third party consents for operation of the business by Purchaser following the Closing;

(v) implementing the optimal structure for Purchaser and its subsidiaries to acquire and hold the Purchased Assets and operate the business following the Closing;

(vi) implementing the assumption of all Assumed Plans and otherwise satisfying the obligations of Purchaser as provided in **Section 6.17** with respect to Employment Related Obligations; and

(vii) such other transition matters as Purchaser may reasonably determine are necessary for Purchaser to fulfill its obligations and exercise its rights under this Agreement.

Section 6.12 Notifications.

(a) Sellers shall give written notice to Purchaser as soon as practicable upon becoming aware of any event, circumstance, condition, fact, effect or other matter that resulted in, or that would reasonably be likely to result in (i) any representation or warranty set forth in **ARTICLE IV** being or becoming untrue or inaccurate in any material respect as of any date on or after the date hereof (as if then made, except to the extent such representation or warranty is expressly made only as of a specific date, in which case, as of such date), (ii) the failure by Sellers to comply with or satisfy in any material respect any covenant, condition or agreement to be complied with or satisfied by Sellers under this Agreement or (iii) a condition to the Closing set forth in **Section 7.1** or **Section 7.2** becoming incapable of being satisfied; provided, however, that no such notification shall affect or cure a breach of any of Sellers' representations or warranties, a failure to perform any of the covenants or agreements of Sellers or a failure to have satisfied the conditions to the obligations of Sellers under this Agreement. Such notice shall be in form of a certificate signed by an executive officer of Parent setting forth the details of such event and the action which Parent proposes to take with respect thereto.

(b) Purchaser shall give written notice to Sellers as soon as practicable upon becoming aware of any event, circumstance, condition, fact, effect or other matter that resulted in, or that would reasonably be likely to result in (i) any representation or warranty set forth in **ARTICLE V** being or becoming untrue or inaccurate in any material respect with respect to Purchaser as of any date on or after the date hereof (as if then made, except to the extent such representation or warranty is expressly made only as of a specific date, in which case as of such date), (ii) the failure by Purchaser to comply with or satisfy in any material respect any covenant, condition or agreement to be complied with or satisfied by Purchaser under this Agreement or (iii) a condition to the Closing set forth in **Section 7.1** or **Section 7.3** becoming incapable of being satisfied; provided, however, that no such notification shall affect or cure a breach of any of Purchaser's representations or warranties, a failure to perform any of the covenants or agreements of Purchaser or a failure to have satisfied the conditions to the obligations of Purchaser under this Agreement. Such notice shall be in a form of a certificate signed by

an executive officer of Purchaser setting forth the details of such event and the action which Purchaser proposes to take with respect thereto.

Section 6.13 Actions by Affiliates. Each of Purchaser and Sellers shall cause their respective controlled Affiliates, and shall use their reasonable best efforts to ensure that each of their respective other Affiliates (other than Sponsor in the case of Purchaser) takes all actions reasonably necessary to be taken by such Affiliate in order to fulfill the obligations of Purchaser or Sellers, as the case may be, under this Agreement.

Section 6.14 Compliance Remediation. Except with respect to the Excluded Assets or Retained Liabilities, prior to the Closing, Sellers shall use reasonable best efforts to, and shall use reasonable best efforts to cause their Subsidiaries to use their reasonable best efforts to, cure in all material respects any instances of non-compliance with Laws or Orders, failures to possess or maintain Permits or defaults under Permits.

Section 6.15 Product Certification, Recall and Warranty Claims.

(a) From and after the Closing, Purchaser shall comply with the certification, reporting and recall requirements of the National Traffic and Motor Vehicle Safety Act, the Transportation Recall Enhancement, Accountability and Documentation Act, the Clean Air Act, the California Health and Safety Code and similar Laws, in each case, to the extent applicable in respect of vehicles and vehicle parts manufactured or distributed by Seller.

(b) From and after the Closing, Purchaser shall be responsible for the administration, management and payment of all Liabilities arising under (i) express written warranties of Sellers that are specifically identified as warranties and delivered in connection with the sale of new, certified used or pre-owned vehicles or new or remanufactured motor vehicle parts and equipment (including service parts, accessories, engines and transmissions) manufactured or sold by Sellers or Purchaser prior to or after the Closing and (ii) Lemon Laws. In connection with the foregoing clause (ii), (A) Purchaser shall continue to address Lemon Law Claims using the same procedural mechanisms previously utilized by the applicable Sellers and (B) for avoidance of doubt, Purchaser shall not assume Liabilities arising under the law of implied warranty or other analogous provisions of state Law, other than Lemon Laws, that provide consumer remedies in addition to or different from those specified in Sellers' express warranties.

(c) For the avoidance of doubt, Liabilities of the Transferred Entities arising from or in connection with products manufactured or sold by the Transferred Entities remain the responsibility of the Transferred Entities and shall be neither Assumed Liabilities nor Retained Liabilities for the purposes of this Agreement.

Section 6.16 Tax Matters; Cooperation.

(a) Prior to the Closing Date, Sellers shall prepare and timely file (or cause to be prepared and timely filed) all Tax Returns required to be filed prior to such date (taking into account any extension of time to file granted or obtained) that relate to Sellers, the Purchased Subsidiaries and the Purchased Assets in a manner consistent with

past practices (except as otherwise required by Law), and shall provide Purchaser prompt opportunity for review and comment and shall obtain Purchaser's written approval prior to filing any such Tax Returns. After the Closing Date, at Purchaser's election, Purchaser shall prepare, and the applicable Seller, Seller Subsidiary or Seller Group member shall timely file, any Tax Return relating to any Seller, Seller Subsidiary or Seller Group member for any Pre-Closing Tax Period or Straddle Period due after the Closing Date or other taxable period of any entity that includes the Closing Date, subject to the right of the applicable Seller to review any such material Tax Return. Purchaser shall prepare and file all other Tax Returns required to be filed after the Closing Date in respect of the Purchased Assets. Sellers shall prepare and file all other Tax Returns relating to the Post-Closing Tax Period of Sellers, subject to the prior review and approval of Purchaser, which approval may be withheld, conditioned or delayed with good reason. No Seller or Seller Group member shall be entitled to any payment or other consideration in addition to the Purchase Price with respect to the acquisition or use of any Tax items or attributes by Purchaser, any Purchased Subsidiary or Affiliates thereof. At Purchaser's request, any Seller or Seller Group member shall designate Purchaser or any of its Affiliates as a substitute agent for the Seller Group for Tax purposes. Purchaser shall be entitled to make all determinations, including the right to make or cause to be made any elections with respect to Taxes and Tax Returns of Sellers, Seller Subsidiaries, Seller Groups and Seller Group members with respect to Pre-Closing Tax Periods and Straddle Periods and with respect to the Tax consequences of the Relevant Transactions (including the treatment of such transactions as an Agreed G Transaction) and the other transactions contemplated by this Agreement, including (i) the "date of distribution or transfer" for purposes of Section 381(b) of the Tax Code, if applicable; (ii) the relevant Tax periods and members of the Seller Group and the Purchaser and its Affiliates; (iii) whether the Purchaser and/or any of its Affiliates shall be treated as a continuation of Seller Group; and (iv) any other determinations required under Section 381 of the Tax Code. Purchaser shall have the sole right to represent the interests, as applicable, of any Seller, Seller Group member or Purchased Subsidiary in any Tax proceeding in connection with any Tax Liability or any Tax item for any Pre-Closing Tax Period, Straddle Period or other Tax period affecting any such earlier Tax period. After the Closing, Purchaser shall have the right to assume control of any PLR or CA request filed by Sellers or any Affiliate thereof, including the right to represent Sellers and their Affiliates and to direct all professionals acting on their behalf in connection with such request, and no settlement, concession, compromise, commitment or other agreements in respect of such PLR or CA request shall be made without Purchaser's prior written consent.

(b) All Taxes required to be paid by any Seller or Seller Group member for any Pre-Closing Tax Period or any Straddle Period shall be timely paid. To the extent a Party hereto is liable for a Tax pursuant to this Agreement and such Tax is paid or payable by another Party or such other Party's Affiliates, the Party liable for such Tax shall make payment in the amount of such Tax to the other Party no later than three (3) days prior to the due date for payment of such Tax, unless a later time for payment is agreed to in writing by such other Party. To the extent that any Seller or Seller Group member receives or realizes the benefit of any Tax refund, abatement or credit that is a Purchased Asset, such Seller or Seller Group member receiving the benefit shall transfer

an amount equal to such refund, abatement or credit to Purchaser within fourteen (14) days of receipt or realization of the benefit.

(c) Purchaser and Sellers shall provide each other with such assistance and non-privileged information relating to the Purchased Assets as may reasonably be requested in connection with any Tax matter, including the matters contemplated by this **Section 6.16**, the preparation of any Tax Return or the performance of any audit, examination or other proceeding by any Taxing Authority, whether conducted in a judicial or administrative forum. Purchaser and Sellers shall retain and provide to each other all non-privileged records and other information reasonably requested by the other and that may be relevant to any such Tax Return, audit, examination or other proceeding.

(d) After the Closing, at Purchaser's election, Purchaser shall exercise exclusive control over the handling, disposition and settlement of any inquiry, examination or proceeding (including an audit) by a Governmental Authority (or that portion of any inquiry, examination or proceeding by a Governmental Authority) with respect to Sellers, any Subsidiary of Sellers or any Seller Group, provided that to the extent any such inquiry, examination or proceeding by a Governmental Authority could materially affect the Taxes due or payable by Sellers, Purchaser shall control the handling, disposition and settlement thereof, subject to reasonable consultation rights of Sellers. Each Party shall notify the other Party (or Parties) in writing promptly upon learning of any such inquiry, examination or proceeding. The Parties and their Affiliates shall cooperate with each other in any such inquiry, examination or proceeding as a Party may reasonably request. Neither Parent nor any of its Affiliates shall extend, without Purchaser's prior written consent, the statute of limitations for any Tax for which Purchaser or any of its Affiliates may be liable.

(e) Notwithstanding anything contained herein, Purchaser shall prepare and Sellers shall timely file all Tax Returns required to be filed in connection with the payment of Transfer Taxes.

(f) From the date of this Agreement to and including the Closing Date, except to the extent relating solely to an Excluded Asset or Retained Liability, no Seller, Seller Group member or Purchased Subsidiary shall, without the prior written consent of Purchaser (which consent shall not be unreasonably withheld, conditioned or delayed, and shall not be withheld if not resulting in any Tax impact on Purchaser or any Purchased Asset), (i) make, change, or terminate any material election with respect to Taxes (including elections with respect to the use of Tax accounting methods) of any Seller, Seller Group member or Purchased Subsidiary or any material joint venture to which any Seller or Purchased Subsidiary is a party, (ii) settle or compromise any Claim or assessment for Taxes (including refunds) that could be reasonably expected to result in any adverse consequence on Purchaser or any Purchased Asset following the Closing Date, (iii) agree to an extension of the statute of limitations with respect to the assessment or collection of the Taxes of any Seller, Seller Group member or Purchased Subsidiary or any material joint venture of which any Seller or Purchased Subsidiary is a party or (iv) make or surrender any Claim for a refund of a material amount of the Taxes of any of

Sellers or Purchased Subsidiaries or file an amended Tax Return with respect to a material amount of Taxes.

(g)

(i) Purchaser shall treat the transactions with respect to Parent described herein, in combination with the subsequent liquidation of Sellers (such transactions, collectively, the "Relevant Transactions"), as a reorganization pursuant to Section 368(a)(1)(G) of the Tax Code with any actual or deemed distribution by Parent qualifying solely under Sections 354 and 356 of the Tax Code but not under Section 355 of the Tax Code (a "G Transaction") if (x) the IRS issues a private letter ruling ("PLR") or executes a closing agreement ("CA"), in each case reasonably acceptable to Purchaser, confirming that the Relevant Transactions shall qualify as a G Transaction for U.S. federal income Tax purposes, or (y) Purchaser determines to treat the Relevant Transactions as so qualifying (clause (x) or (y), an "Agreed G Transaction"). In connection with the foregoing, Sellers shall use their reasonable best efforts to obtain a PLR or execute a CA with respect to the Relevant Transactions at least seven (7) days prior to the Closing Date. At least three (3) days prior to the Closing Date, Purchaser shall advise Parent in writing as to whether Purchaser has made a determination regarding the treatment of the Relevant Transactions for U.S. federal income Tax purposes and, if applicable, the outcome of any such determination.

(ii) On or prior to the Closing Date, Sellers shall deliver to Purchaser all information in the possession of Sellers and their Affiliates that is reasonably related to the determination of whether the Relevant Transactions constitute an Agreed G Transaction ("Relevant Information"), and, after the Closing, Sellers shall promptly provide to Purchaser any newly produced or obtained Relevant Information. For the avoidance of doubt, the Parties shall cooperate in taking any actions and providing any information that Purchaser determines is necessary or appropriate in furtherance of the intended U.S. federal income Tax treatment of the Relevant Transactions and the other transactions contemplated by this Agreement.

(iii) If Purchaser has not determined as of the Closing Date whether to treat the Relevant Transactions as an Agreed G Transaction, Purchaser shall make such determination in accordance with this **Section 6.16** prior to the due date (including validly obtained extensions) for filing the corporate income Tax Return for Parent's U.S. affiliated group (as defined in Section 1504 of the Tax Code) for the taxable year in which the Closing Date occurs, and shall convey such decision in writing to Parent, which decision shall be binding on Parent.

(iv) If the Relevant Transactions constitute an Agreed G Transaction under this **Section 6.16**: (A) Sellers shall use their reasonable best efforts, and Purchaser shall use reasonable best efforts to assist Sellers, to effectuate such treatment and the Parties shall not take any action or position inconsistent with, or

fail to take any necessary action in furtherance of, such treatment (subject to **Section 6.16(g)(vi)**); (B) the Parties agree that this Agreement shall constitute a "plan" of Parent and Purchaser for purposes of Sections 368 and 354 of the Tax Code; (C) the board of directors of Parent and Purchaser shall, by resolution, approve the execution of this Agreement and expressly recognize its treatment as a "plan" of Parent and Purchaser for purposes of Sections 368 and 354 of the Tax Code, and the treatment of the Relevant Transactions as a G Transaction for federal income Tax purposes; (D) Sellers shall provide Purchaser with a statement setting forth the adjusted Tax basis of the Purchased Assets and the amount of net operating losses and other material Tax attributes of Sellers and any Purchased Subsidiary that are available as of the Closing Date and after the close of any taxable year of any Seller or Seller Group member that impacts the numbers previously provided, all based on the best information available, but with no Liability for any errors or omissions in information; and (E) Sellers shall provide Purchaser with an estimate of the cancellation of Indebtedness income that Sellers and any Seller Group member anticipate realizing for the taxable year that includes the Closing Date, and shall provide revised numbers after the close of any taxable year of any Seller or Seller Group member that impacts this number.

(v) If the Relevant Transactions do not constitute an Agreed G Transaction under this **Section 6.16**, the Parties hereby agree, and Sellers hereby consent, to treat the sale of the Purchased Assets by Parent as a taxable asset sale for all Tax purposes, to make any elections pursuant to Section 338 of the Tax Code requested by Purchaser, and to report consistently herewith for purposes of **Section 3.3**. In addition, the Parties hereby agree, and Sellers hereby consent, to treat the sales of the Purchased Assets by S Distribution and Harlem as taxable asset sales for all Tax purposes, to make any elections pursuant to Section 338 of the Tax Code requested by Purchaser, and to report consistently herewith for purposes of **Section 3.3**.

(vi) No Party shall take any position with respect to the Relevant Transactions that is inconsistent with the position determined in accordance with this **Section 6.16**, unless, and then only to the extent, otherwise required to do so by a Final Determination.

(vii) Each Seller shall liquidate, as determined for U.S. federal income Tax purposes and to the satisfaction of Purchaser, no later than December 31, 2011, and each such liquidation may include a distribution of assets to a "liquidating trust" within the meaning of Treas. Reg. § 301.7701-4, the terms of which shall be satisfactory to Purchaser.

(viii) Effective no later than the Closing Date, Purchaser shall be treated as a corporation for federal income Tax purposes.

Section 6.17 Employees; Benefit Plans; Labor Matters.

(a) *Transferred Employees*. Effective as of the Closing Date, Purchaser or one of its Affiliates shall make an offer of employment to each Applicable Employee. Notwithstanding anything herein to the contrary and except as provided in an individual employment Contract with any Applicable Employee or as required by the terms of an Assumed Plan, offers of employment to Applicable Employees whose employment rights are subject to the UAW Collective Bargaining Agreement as of the Closing Date, shall be made in accordance with the applicable terms and conditions of the UAW Collective Bargaining Agreement and Purchaser's obligations under the Labor Management Relations Act of 1974, as amended. Each offer of employment to an Applicable Employee who is not covered by the UAW Collective Bargaining Agreement shall provide, until at least the first anniversary of the Closing Date, for (i) base salary or hourly wage rates initially at least equal to such Applicable Employee's base salary or hourly wage rate in effect as of immediately prior to the Closing Date and (ii) employee pension and welfare benefits, Contracts and arrangements that are not less favorable in the aggregate than those listed on Section 4.10 of the Sellers' Disclosure Schedule, but not including any Retained Plan, equity or equity-based compensation plans or any Benefit Plan that does not comply in all respects with TARP. For the avoidance of doubt, each Applicable Employee on layoff status, leave status or with recall rights as of the Closing Date, shall continue in such status and/or retain such rights after Closing in the Ordinary Course of Business. Each Applicable Employee who accepts employment with Purchaser or one of its Affiliates and commences working for Purchaser or one of its Affiliates shall become a "Transferred Employee." To the extent such offer of employment by Purchaser or its Affiliates is not accepted, Sellers shall, as soon as practicable following the Closing Date, terminate the employment of all such Applicable Employees. Nothing in this **Section 6.17(a)** shall prohibit Purchaser or any of its Affiliates from terminating the employment of any Transferred Employee after the Closing Date, subject to the terms and conditions of the UAW Collective Bargaining Agreement. It is understood that the intent of this **Section 6.17(a)** is to provide a seamless transition from Sellers to Purchaser of any Applicable Employee subject to the UAW Collective Bargaining Agreement. Except for Applicable Employees with non-standard individual agreements providing for severance benefits, until at least the first anniversary of the Closing Date, Purchaser further agrees and acknowledges that it shall provide to each Transferred Employee who is not covered by the UAW Collective Bargaining Agreement and whose employment is involuntarily terminated by Purchaser or its Affiliates on or prior to the first anniversary of the Closing Date, severance benefits that are not less favorable than the severance benefits such Transferred Employee would have received under the applicable Benefit Plans listed on Section 4.10 of the Sellers' Disclosure Schedule. Purchaser or one of its Affiliates shall take all actions necessary such that Transferred Employees shall be credited for their actual and credited service with Sellers and each of their respective Affiliates, for purposes of eligibility, vesting and benefit accrual (except in the case of a defined benefit pension plan sponsored by Purchaser or any of its Affiliates in which Transferred Employees may commence participation after the Closing that is not an Assumed Plan), in any employee benefit plans (excluding equity compensation plans or programs) covering Transferred Employees after the Closing to the same extent as such Transferred Employee was

entitled as of immediately prior to the Closing Date to credit for such service under any similar employee benefit plans, programs or arrangements of any of Sellers or any Affiliate of Sellers; provided, however, that such crediting of service shall not operate to duplicate any benefit to any such Transferred Employee or the funding for any such benefit. Such benefits shall not be subject to any exclusion for any pre-existing conditions to the extent such conditions were satisfied by such Transferred Employees under a Parent Employee Benefit Plan as of the Closing Date, and credit shall be provided for any deductible or out-of-pocket amounts paid by such Transferred Employee during the plan year in which the Closing Date occurs.

(b) *Employees of Purchased Subsidiaries*. As of the Closing Date, those employees of Purchased Subsidiaries who participate in the Assumed Plans, may, subject to the applicable Collective Bargaining Agreement, for all purposes continue to participate in such Assumed Plans, in accordance with their terms in effect from time to time. For the avoidance of any doubt, Purchaser shall continue the employment of any current Employee of any Purchased Subsidiary covered by the UAW Collective Bargaining Agreement on the terms and conditions of the UAW Collective Bargaining Agreement in effect immediately prior to the Closing Date, subject to its terms; provided, however, that nothing in this Agreement shall be construed to terminate the coverage of any UAW-represented Employee in an Assumed Plan if such Employee was a participant in the Assumed Plan immediately prior to the Closing Date. Further provided, that nothing in this Agreement shall create a direct employment relationship between Parent or Purchaser and an Employee of a Purchased Subsidiary or an Affiliate of Parent.

(c) *No Third Party Beneficiaries*. Nothing contained herein, express or implied, (i) is intended to confer or shall confer upon any Employee or Transferred Employee any right to employment or continued employment for any period of time by reason of this Agreement, or any right to a particular term or condition of employment, (ii) except as set forth in **Section 9.11**, is intended to confer or shall confer upon any individual or any legal Representative of any individual (including employees, retirees, or dependents or beneficiaries of employees or retirees and including collective bargaining agents or representatives) any right as a third-party beneficiary of this Agreement or (iii) shall be deemed to confer upon any such individual or legal Representative any rights under or with respect to any plan, program or arrangement described in or contemplated by this Agreement, and each such individual or legal Representative shall be entitled to look only to the express terms of any such plans, program or arrangement for his or her rights thereunder. Nothing herein is intended to override the terms and conditions of the UAW Collective Bargaining Agreement.

(d) *Plan Authority*. Nothing contained herein, express or implied, shall prohibit Purchaser or its Affiliates, as applicable, from, subject to applicable Law and the terms of the UAW Collective Bargaining Agreement, adding, deleting or changing providers of benefits, changing, increasing or decreasing co-payments, deductibles or other requirements for coverage or benefits (e.g., utilization review or pre-certification requirements), and/or making other changes in the administration or in the design, coverage and benefits provided to such Transferred Employees. Without reducing the obligations of Purchaser as set forth in **Section 6.17(a)**, no provision of this Agreement

shall be construed as a limitation on the right of Purchaser or its Affiliates, as applicable, to suspend, amend, modify or terminate any employee benefit plan, subject to the terms of the UAW Collective Bargaining Agreement. Further, (i) no provision of this Agreement shall be construed as an amendment to any employee benefit plan, and (ii) no provision of this Agreement shall be construed as limiting Purchaser's or its Affiliate's, as applicable, discretion and authority to interpret the respective employee benefit and compensation plans, agreements arrangements, and programs, in accordance with their terms and applicable Law.

(e) *Assumption of Certain Parent Employee Benefit Plans and Policies.* As of the Closing Date, Purchaser or one of its Affiliates shall assume (i) the Parent Employee Benefit Plans and Policies set forth on Section 6.17(e) of the Sellers' Disclosure Schedule as modified thereon, and all assets, trusts, insurance policies and other Contracts relating thereto, except for any that do not comply in all respects with TARP or as otherwise provided in **Section 6.17(h)** and (ii) all employee benefit plans, programs, policies, agreements or arrangements (whether written or oral) in which Employees who are covered by the UAW Collective Bargaining Agreement participate and all assets, trusts, insurance and other Contracts relating thereto (the "Assumed Plans"), for the benefit of the Transferred Employees and Sellers and Purchaser shall cooperate with each other to take all actions and execute and deliver all documents and furnish all notices necessary to establish Purchaser or one of its Affiliates as the sponsor of such Assumed Plans including all assets, trusts, insurance policies and other Contracts relating thereto. Other than with respect to any Employee who was or is covered by the UAW Collective Bargaining Agreement, Purchaser shall have no Liability with respect to any modifications or changes to Benefit Plans contemplated by Section 6.17(e) of the Sellers' Disclosure Schedule, or changes made by Parent prior to the Closing Date, and Purchaser shall not assume any Liability with respect to any such decisions or actions related thereto, and Purchaser shall only assume the Liabilities for benefits provided pursuant to the written terms and conditions of the Assumed Plan as of the Closing Date. Notwithstanding the foregoing, the assumption of the Assumed Plans is subject to Purchaser taking all necessary action, including reduction of benefits, to ensure that the Assumed Plans comply in all respects with TARP. Notwithstanding the foregoing, but subject to the terms of any Collective Bargaining Agreement to which Purchaser or one of its Affiliates is a party, Purchaser and its Affiliates may, in its sole discretion, amend, suspend or terminate any such Assumed Plan at any time in accordance with its terms.

(f) *UAW Collective Bargaining Agreement.* Parent shall assume and assign to Purchaser, as of the Closing, the UAW Collective Bargaining Agreement and all rights and Liabilities of Parent relating thereto (including Liabilities for wages, benefits and other compensation, unfair labor practices, grievances, arbitrations and contractual obligations). With respect to the UAW Collective Bargaining Agreement, Purchaser agrees to (i) recognize the UAW as the exclusive collective bargaining representative for the Transferred Employees covered by the terms of the UAW Collective Bargaining Agreement, (ii) offer employment to all Applicable Employees covered by the UAW Collective Bargaining Agreement with full recognition of all seniority rights, (iii) negotiate with the UAW over the terms of any successor collective bargaining agreement upon the expiration of the UAW Collective Bargaining Agreement and upon timely

demand by the UAW, (iv) with the agreement of the UAW or otherwise as provided by Law and to the extent necessary, adopt or assume or replace, effective as of the Closing Date, employee benefit plans, policies, programs, agreements and arrangements specified in or covered by the UAW Collective Bargaining Agreement as required to be provided to the Transferred Employees covered by the UAW Collective Bargaining Agreement, and (v) otherwise abide by all terms and conditions of the UAW Collective Bargaining Agreement. For the avoidance of doubt, the provisions of this **Section 6.17(f)** are not intended to (A) give, and shall not be construed as giving, the UAW or any Transferred Employee any enhanced or additional rights or (B) otherwise restrict the rights that Purchaser and its Affiliates have, under the terms of the UAW Collective Bargaining Agreement.

(g) *UAW Retiree Settlement Agreement.* Prior to the Closing, Purchaser and the UAW shall have entered into the UAW Retiree Settlement Agreement.

(h) *Assumption of Existing Internal VEBA.* Purchaser or one of its Affiliates shall, effective as of the Closing Date, assume from Sellers the sponsorship of the voluntary employees' beneficiary association trust between Sellers and State Street Bank and Trust Company dated as of December 17, 1997, that is funded and maintained by Sellers ("Existing Internal VEBA") and, in connection therewith, Purchaser shall, or shall cause one of its Affiliates to, (i) succeed to all of the rights, title and interest (including the rights of Sellers, if any) as plan sponsor, plan administrator or employer) under the Existing Internal VEBA, (ii) assume any responsibility or Liability relating to the Existing Internal VEBA and each Contract established thereunder or relating thereto, and (iii) to operate the Existing Internal VEBA in accordance with, and to otherwise comply with the Purchaser's obligations under, the New UAW Retiree Settlement Agreement between Purchaser and the UAW, effective as of the Closing and subject to approval by a court having jurisdiction over this matter, including the obligation to direct the trustee of the Existing Internal VEBA to transfer the UAW's share of assets in the Existing Internal VEBA to the New VEBA. The Parties shall cooperate in the execution of any documents, the adoption of any corporate resolutions or the taking of any other reasonable actions to effectuate such succession of the settlor rights, title, and interest with respect to the Existing Internal VEBA. For avoidance of doubt, Purchaser shall not assume any Liabilities relating to the Existing Internal VEBA except with respect to such Contracts set forth in Section 6.17(h) of the Sellers' Disclosure Schedule.

(i) *Wage and Tax Reporting.* Sellers and Purchaser agree to apply, and cause their Affiliates to apply, the standard procedure for successor employers set forth in Revenue Procedure 2004-53 for wage and employment Tax reporting.

(j) *Non-solicitation.* Sellers shall not, for a period of two (2) years from the Closing Date, without Purchaser's written consent, solicit, offer employment to or hire any Transferred Employee.

(k) *Cooperation.* Purchaser and Sellers shall provide each other with such records and information as may be reasonably necessary, appropriate and permitted under applicable Law to carry out their obligations under this **Section 6.17**; provided, that all

records, information systems data bases, computer programs, data rooms and data related to any Assumed Plan or Liabilities of such, assumed by Purchaser, shall be transferred to Purchaser.

(l) *Union Notifications.* Purchaser and Sellers shall reasonably cooperate with each other in connection with any notification required by Law to, or any required consultation with, or the provision of documents and information to, the employees, employee representatives, the UAW and relevant Governmental Authorities and governmental officials concerning the transactions contemplated by this Agreement, including any notice to any of Sellers' retired Employees represented by the UAW, describing the transactions contemplated herein.

(m) *Union-Represented Employees (Non-UAW).*

(i) Effective as of the Closing Date, Purchaser or one of its Affiliates shall assume the collective bargaining agreements, as amended, set forth on Section 6.17(m)(i) of the Sellers' Disclosure Schedule (collectively, the "Non-UAW Collective Bargaining Agreements") and make offers of employment to each current employee of Parent who is covered by them in accordance with the applicable terms and conditions of such Non-UAW Collective Bargaining Agreements, such assumption and offers conditioned upon (A) the non-UAW represented employees' ratification of the amendments thereto (including termination of the application of the Supplemental Agreements Covering Health Care Program to retirees and the reduction to retiree life insurance coverage) and (B) Bankruptcy Court approval of Settlement Agreements between Purchaser and such Unions and Proposed Memorandum of Understanding Regarding Retiree Health Care and Life Insurance between Sellers and such Unions, as identified on Section 6.17(m)(ii) of the Sellers' Disclosure Schedule and satisfaction of all conditions stated therein. Each such non-UAW hourly employee on layoff status, leave status or with recall rights as of the Closing Date shall continue in such status and/or retain such rights after the Closing in the Ordinary Course of Business, subject to the terms of the applicable Non-UAW Collective Bargaining Agreement. Other than as set forth in this **Section 6.17(m)**, no non-UAW collective bargaining agreement shall be assumed by Purchaser.

(ii) Section 6.17(m)(ii) of the Sellers' Disclosure Schedule sets forth agreements relating to post-retirement health care and life insurance coverage for non-UAW retired employees (the "Non-UAW Settlement Agreements"), including those agreements covering retirees who once belonged to Unions that no longer have any active employees at Sellers. Conditioned on both the approval of the Bankruptcy Court and the non-UAW represented employees' ratification of the amendments to the applicable Non-UAW Collective Bargaining Agreement providing for such coverage as described in **Section 6.17(m)(i)** above, Purchaser or one of its Affiliates shall assume and enter into the agreements identified on Section 6.17(m)(ii) of the Sellers' Disclosure Schedule. Except as set forth in those agreements identified on Section 6.17(m)(i) and Section 6.17(m)(ii) of the Sellers' Disclosure Schedule, Purchaser shall not assume any Liability to provide

post-retirement health care or life insurance coverage for current or future hourly non-UAW retirees.

(iii) Other than as expressly set forth in this **Section 6.17(m)**, Purchaser assumes no Employment-Related Obligations for non-UAW hourly Employees. For the avoidance of doubt, (A) the provisions of **Section 6.17(f)** shall not apply to this **Section 6.17(m)** and (B) the provisions of this **Section 6.17(m)** are not intended to (y) give, and shall not be construed as giving, any non-UAW Union or the covered employee or retiree of any Non-UAW Collective Bargaining Agreement any enhanced or additional rights or (z) otherwise restrict the rights that Purchaser and its Affiliates have under the terms of the Non-UAW Collective Bargaining Agreements identified on Section 6.17(m)(i) of the Sellers' Disclosure Schedule.

Section 6.18 TARP. From and after the date hereof and until such time as all amounts under the UST Credit Facilities have been paid in full, forgiven or otherwise extinguished or such longer period as may be required by Law, subject to any applicable Order of the Bankruptcy Court, each of Sellers and Purchaser shall, and shall cause each of their respective Subsidiaries to, take all necessary action to ensure that it complies in all material respects with TARP or any enhanced restrictions on executive compensation agreed to by Sellers and Sponsor prior to the Closing.

Section 6.19 Guarantees; Letters of Credit. Purchaser shall use its reasonable best efforts to cause Purchaser or one or more of its Subsidiaries to be substituted in all respects for each Seller and Excluded Entity, effective as of the Closing Date, in respect of all Liabilities of each Seller and Excluded Entity under each of the guarantees, letters of credit, letters of comfort, bid bonds and performance bonds (a) obtained by any Seller or Excluded Entity for the benefit of the business of Sellers and their Subsidiaries and (b) which is assumed by Purchaser as an Assumed Liability. As a result of such substitution, each Seller and Excluded Entity shall be released of its obligations of, and shall have no Liability following the Closing from, or in connection with any such guarantees, letters of credit, letters of comfort, bid bonds and performance bonds.

Section 6.20 Customs Duties. Purchaser shall reimburse Sellers for all customs-related duties, fees and associated costs incurred by Sellers on behalf of Purchaser with respect to periods following the Closing, including all such duties, fees and costs incurred in connection with co-loaded containers that clear customs intentionally or unintentionally under any Seller's importer or exporter identification numbers and bonds or guarantees with respect to periods following the Closing.

Section 6.21 Termination of Intellectual Property Rights. Each Seller agrees that any rights of any Seller, including any rights arising under Contracts, if any, to any and all of the Intellectual Property transferred to Purchaser pursuant to this Agreement (including indirect transfers resulting from the transfer of the Transferred Equity Interests and including transfers resulting from this **Section 6.21**), whether owned or licensed, shall terminate as of the Closing. Before and after the Closing, each Seller agrees to use its reasonable best efforts to cause the Retained Subsidiaries to do the following, but only to the extent that such Seller can do so

without incurring any Liabilities to such Retained Subsidiaries or their equity owners or creditors as a result thereof: (a) enter into a written Contract with Purchaser that expressly terminates any rights of such Retained Subsidiaries, including any rights arising under Contracts, if any, to any and all of the Intellectual Property transferred to Purchaser pursuant to this Agreement (including indirect transfers resulting from the transfer of the Transferred Equity Interests), whether owned or licensed; and (b) assign to Purchaser or its designee(s): (i) all domestic and foreign trademarks, service marks, collective marks, certification marks, trade dress, trade names, business names, d/b/a's, Internet domain names, designs, logos and other source or business identifiers and all general intangibles of like nature, now or hereafter owned, adopted, used, acquired, or licensed by any Seller, all applications, registrations and recordings thereof (including applications, registrations and recordings in the United States Patent and Trademark Office or in any similar office or agency of the United States, any state thereof or any other country or any political subdivision thereof), and all reissues, extensions or renewals thereof, together with all goodwill of the business symbolized by or associated with such marks, in each case, that are owned by such Retained Subsidiaries and that contain or are confusingly similar with (whether in whole or in part) any of the Trademarks; and (ii) all other intellectual property owned by such Retained Subsidiaries. Nothing in this **Section 6.21** shall preserve any rights of Sellers or the Retained Subsidiaries, or any third parties, that are otherwise terminated or extinguished pursuant to this Agreement or applicable Law, and nothing in this **Section 6.21** shall create any rights of Sellers or the Retained Subsidiaries, or any third parties, that do not already exist as of the date hereof. Notwithstanding anything to the contrary in this **Section 6.21**, Sellers may enter into (and may cause or permit any of the Purchased Subsidiaries to enter into) any of the transactions contemplated by Section 6.2 of the Sellers' Disclosure Schedule.

Section 6.22 Trademarks.

(a) At or before the Closing (i) Parent shall take any and all actions that are reasonably necessary to change the corporate name of Parent to a new name that bears no resemblance to Parent's present corporate name and that does not contain, and is not confusingly similar with, any of the Trademarks; and (ii) to the extent that the corporate name of any Seller (other than Parent) or any Retained Subsidiary resembles Parent's present corporate name or contains or is confusingly similar with any of the Trademarks, Sellers (including Parent) shall take any and all actions that are reasonably necessary to change such corporate names to new names that bear no resemblance to Parent's present corporate name, and that do not contain and are not confusingly similar with any of the Trademarks.

(b) As promptly as practicable following the Closing, but in no event later than ninety (90) days after the Closing (except as set forth in this **Section 6.22(b)**), Sellers shall cease, and shall cause the Retained Subsidiaries to cease, using the Trademarks in any form, whether by removing, permanently obliterating, covering, or otherwise eliminating all Trademarks that appear on any of their assets, including all signs, promotional or advertising literature, labels, stationery, business cards, office forms and packaging materials. During such time period, Sellers and the Retained Subsidiaries may continue to use Trademarks in a manner consistent with their usage of the Trademarks as of immediately prior to the Closing, but only to the extent reasonably necessary for them to continue their operations as contemplated by the Parties as of the

Closing. If requested by Purchaser within a reasonable time after the Closing, Sellers and Retained Subsidiaries shall enter into a written agreement that specifies quality control of such Trademarks and their underlying goods and services. For signs and the like that exist as of the Closing on the Excluded Real Property, if it is not reasonably practicable for Sellers or the Retained Subsidiaries to remove, permanently obliterate, cover or otherwise eliminate the Trademarks from such signs and the like within the time period specified above, then Sellers and the Retained Subsidiaries shall do so as soon as practicable following such time period, but in no event later than one-hundred eighty (180) days following the Closing.

(c) From and after the date of this Agreement and, until the earlier of the Closing or termination of this Agreement, each Seller shall use its reasonable best efforts to protect and maintain the Intellectual Property owned by Sellers that is material to the conduct of its business in a manner that is consistent with the value of such Intellectual Property.

(d) At or prior to the Closing, Sellers shall provide a true, correct and complete list setting forth all worldwide patents, patent applications, trademark registrations and applications and copyright registrations and applications included in the Intellectual Property owned by Sellers.

Section 6.23 Preservation of Records. The Parties shall preserve and keep all books and records that they own immediately after the Closing relating to the Purchased Assets, the Assumed Liabilities and Sellers' operation of the business related thereto prior to the Closing for a period of six (6) years following the Closing Date or for such longer period as may be required by applicable Law, unless disposed of in good faith pursuant to a document retention policy. During such retention period, duly authorized Representatives of a Party shall, upon reasonable notice, have reasonable access during normal business hours to examine, inspect and copy such books and records held by the other Parties for any proper purpose, except as may be prohibited by Law or by the terms of any Contract (including any confidentiality agreement); provided that to the extent that disclosing any such information would reasonably be expected to constitute a waiver of attorney-client, work product or other legal privilege with respect thereto, the Parties shall take all reasonable best efforts to permit such disclosure without the waiver of any such privilege, including entering into an appropriate joint defense agreement in connection with affording access to such information. The access provided pursuant to this **Section 6.23** shall be subject to such additional confidentiality provisions as the disclosing Party may reasonably deem necessary.

Section 6.24 Confidentiality. During the Confidentiality Period, Sellers and their Affiliates shall treat all trade secrets and all other proprietary, legally privileged or sensitive information related to the Transferred Entities, the Purchased Assets and/or the Assumed Liabilities (collectively, the "Confidential Information"), whether furnished before or after the Closing, whether documentary, electronic or oral, labeled or otherwise identified as confidential, and regardless of the form of communication or the manner in which it is or was furnished, as confidential, preserve the confidentiality thereof, not use or disclose to any Person such Confidential Information and instruct their Representatives who have had access to such information to keep confidential such Confidential Information. The "Confidentiality Period"

shall be a period commencing on the date of the Original Agreement and (a) with respect to a trade secret, continuing for as long as it remains a trade secret and (b) for all other Confidential Information, ending four (4) years from the Closing Date. Confidential Information shall be deemed not to include any information that (i) is now available to or is hereafter disclosed in a manner making it available to the general public, in each case, through no act or omission of Sellers, any of their Affiliates or any of their Representatives, or (ii) is required by Law to be disclosed, including any applicable requirements of the SEC or any other Governmental Authority responsible for securities Law regulation and compliance or any stock market or stock exchange on which any Seller's securities are listed.

Section 6.25 Privacy Policies. At or prior to the Closing, Purchaser shall, or shall cause its Subsidiaries to, establish Privacy Policies that are substantially similar to the Privacy Policies of Parent and the Purchased Subsidiaries as of immediately prior to the Closing, and Purchaser or its Affiliates, as applicable, shall honor all "opt-out" requests or preferences made by individuals in accordance with the Privacy Policies of Parent and the Purchased Subsidiaries and applicable Law; provided that such Privacy Policies and any related "opt-out" requests or preferences are delivered or otherwise made available to Purchaser prior to the Closing, to the extent not publicly available.

Section 6.26 Supplements to Sellers' Disclosure Schedule. At any time and from time to time prior to the Closing, Sellers shall have the right to supplement, modify or update Section 4.1 through Section 4.22 of the Sellers' Disclosure Schedule (a) to reflect changes and developments that have arisen after the date of the Original Agreement and that, if they existed prior to the date of the Original Agreement, would have been required to be set forth on such Sellers' Disclosure Schedule or (b) as may be necessary to correct any disclosures contained in such Sellers' Disclosure Schedule or in any representation and warranty of Sellers that has been rendered inaccurate by such changes or developments. No supplement, modification or amendment to Section 4.1 through Section 4.22 of the Sellers' Disclosure Schedule shall without the prior written consent of Purchaser, (i) cure any inaccuracy of any representation and warranty made in this Agreement by Sellers or (ii) give rise to Purchaser's right to terminate this Agreement unless and until this Agreement shall be terminable by Purchaser in accordance with **Section 8.1(f)**.

Section 6.27 Real Property Matters.

(a) Sellers and Purchaser acknowledge that certain real properties (the "Subdivision Properties") may need to be subdivided or otherwise legally partitioned in accordance with applicable Law (a "Required Subdivision") so as to permit the affected Owned Real Property to be conveyed to Purchaser separate and apart from adjacent Excluded Real Property. Section 6.27 of the Sellers' Disclosure Schedule contains a list of the Subdivision Properties that was determined based on the current list of Excluded Real Property. Section 6.27 of the Sellers' Disclosure Schedule may be updated at any time prior to the Closing to either (i) add additional Subdivision Properties or (ii) remove any Subdivision Properties, which have been determined to not require a Required Subdivision or for which a Required Subdivision has been obtained. Purchaser shall pay for all costs incurred to complete all Required Subdivisions. Sellers shall cooperate in good faith with Purchaser in connection with the completion with all Required

Subdivisions, including executing all required applications or other similar documents with Governmental Authorities. To the extent that any Required Subdivision for a Subdivision Property is not completed prior to Closing, then at Closing, Sellers shall lease to Purchaser only that portion of such Subdivision Property that constitutes Owned Real Property pursuant to the Master Lease Agreement (Subdivision Properties) substantially in the form attached hereto as **Exhibit L** (the "Subdivision Master Lease"). Upon completion of a Required Subdivision affecting an Owned Real Property that is subject to the Subdivision Master Lease, the Subdivision Master Lease shall be terminated as to such Owned Real Property and such Owned Real Property shall be conveyed to Purchaser by Quitclaim Deed for One Dollar ($1.00) in stated consideration.

(b) Sellers and Purchaser acknowledge that the Saginaw Nodular Iron facility in Saginaw, Michigan (the "Saginaw Nodular Iron Land") contains a wastewater treatment facility (the "Existing Saginaw Wastewater Facility") and a landfill (the "Saginaw Landfill") that currently serve the Owned Real Property commonly known as the GMPT - Saginaw Metal Casting facility (the "Saginaw Metal Casting Land"). The Saginaw Nodular Iron Land has been designated as an Excluded Real Property under Section 2.2(b)(v) of the Sellers' Disclosure Schedule. At the Closing (or within sixty (60) days after the Closing with respect to the Saginaw Landfill), Sellers shall enter into one or more service agreements with one or more third party contractors (collectively, the "Saginaw Service Contracts") to operate the Existing Saginaw Wastewater Facility and the Saginaw Landfill for the benefit of the Saginaw Metal Casting Land. The terms and conditions of the Saginaw Service Contracts shall be mutually acceptable to Purchaser and Sellers; provided that the term of each Saginaw Service Contract shall not extend beyond December 31, 2012, and Purchaser shall have the right to terminate any Saginaw Service Contract upon prior written notice of not less than forty-five (45) days. At any time during the term of the Saginaw Service Contracts, Purchaser may elect to purchase the Existing Saginaw Wastewater Facility, the Saginaw Landfill, or both, for One Dollar ($1.00) in stated consideration; provided that (i) Purchaser shall pay all costs and fees related to such purchase, including the costs of completing any Required Subdivision necessary to effectuate the terms of this **Section 6.27(b)**, (ii) Sellers shall convey title to the Existing Saginaw Wastewater Facility, the Saginaw Landfill and/or such other portion of the Saginaw Nodular Iron Land as is required by Purchaser to operate the Existing Saginaw Wastewater Facility and/or the Saginaw Landfill, including lagoons, but not any other portion of the Saginaw Nodular Iron Land, to Purchaser by quitclaim deed and (iii) Sellers shall grant Purchaser such easements for utilities over the portion of the Saginaw Nodular Iron Land retained by Sellers as may be required to operate the Existing Saginaw Wastewater Facility and/or the Saginaw Landfill.

(c) Sellers and Purchaser acknowledge that access to certain Excluded Real Property owned by Sellers or other real properties owned by Excluded Entities and certain Owned Real Property that may hereafter be designated as Excluded Real Property on Section 2.2(b)(v) of the Sellers' Disclosure Schedule (a "Landlocked Parcel") is provided over land that is part of the Owned Real Property. To the extent that direct access to a public right-of-way is not obtained for any Landlocked Parcel by the Closing, then at Closing, Purchaser, in its sole election, shall for each such Landlocked Parcel either (i) grant an access easement over a mutually agreeable portion of the adjacent

Owned Real Property for the benefit of the Landlocked Parcel until such time as the Landlocked Parcel obtains direct access to the public right-of-way, pursuant to the terms of a mutually acceptable easement agreement, or (ii) convey to the owner of the affected Landlocked Parcel by quitclaim deed such portion of the adjacent Owned Real Property as is required to provide the Landlocked Parcel with direct access to a public right-of-way.

(d) At and after Closing, Sellers and Purchasers shall cooperate in good faith to investigate and resolve all issues reasonably related to or arising in connection with Shared Executory Contracts that involve the provision of water, water treatment, electricity, fuel, gas, telephone and other utilities to both Owned Real Property and Excluded Real Property.

(e) Parent shall use reasonable best efforts to cause the Willow Run Landlord to execute, within thirty (30) days after the Closing, or at such later date as may be mutually agreed upon, an amendment to the Willow Run Lease which extends the term of the Willow Run Lease until December 31, 2010 with three (3) one-month options to extend, all at the current rental rate under the Willow Run Lease (the "Willow Run Lease Amendment"). In the event that the Willow Run Lease Amendment is approved and executed by the Willow Run Landlord, then Purchaser shall designate the Willow Run Lease as an Assumable Executory Contract and Parent and Purchaser, or one of its designated Subsidiaries, shall enter into an assignment and assumption of the Willow Run Lease substantially in the form attached hereto as **Exhibit M** (the "Assignment and Assumption of Willow Run Lease").

Section 6.28 Equity Incentive Plans. Within a reasonable period of time following the Closing, Purchaser, through its board of directors, will adopt equity incentive plans to be maintained by Purchaser for the benefit of officers, directors, and employees of Purchaser that will provide the opportunity for equity incentive benefits for such persons ("Equity Incentive Plans").

Section 6.29 Purchase of Personal Property Subject to Executory Contracts. With respect to any Personal Property subject to an Executory Contract that is nominally an unexpired lease of Personal Property, if (a) such Contract is recharacterized by a Final Order of the Bankruptcy Court as a secured financing or (b) Purchaser, Sellers and the counterparty to such Contract agree, then Purchaser shall have the option to purchase such personal property by paying to the applicable Seller for the benefit of the counterparty to such Contract an amount equal to the amount, as applicable (i) of such counterparty's allowed secured Claim arising in connection with the recharacterization of such Contract as determined by such Order or (ii) agreed to by Purchaser, Sellers and such counterparty.

Section 6.30 Transfer of Riverfront Holdings, Inc. Equity Interests or Purchased Assets; Ren Cen Lease. Notwithstanding anything to the contrary set forth in this Agreement, in lieu of or in addition to the transfer of Sellers' Equity Interest in Riverfront Holdings, Inc., a Delaware corporation ("RHI"), Purchaser shall have the right at the Closing or at any time during the RHI Post-Closing Period, to require Sellers to cause RHI to transfer good and marketable title to, or a valid and enforceable right by Contract to use, all or any portion of the assets of RHI

to Purchaser. Purchaser shall, at its option, have the right to cause Sellers to postpone the transfer of Sellers' Equity Interest in RHI and/or title to the assets of RHI to Purchaser up until the earlier of (i) January 31, 2010 and (ii) the Business Day immediately prior to the date of the confirmation hearing for Sellers' plan of liquidation or reorganization (the "RHI Post-Closing Period"); provided, however, that (a) Purchaser may cause Sellers to effectuate said transfers at any time and from time to time during the RHI-Post Closing Period upon at least five (5) Business Days' prior written notice to Sellers and (b) at the closing, RHI, as landlord, and Purchaser, or one of its designated Subsidiaries, as tenant, shall enter into a lease agreement substantially in the form attached hereto as **Exhibit N** (the "Ren Cen Lease") for the premises described therein.

Section 6.31 Delphi Agreements. Notwithstanding anything to the contrary in this Agreement, including **Section 6.6**:

(a) Subject to and simultaneously with the consummation of the transactions contemplated by the MDA or of an Acceptable Alternative Transaction (in each case, as defined in the Delphi Motion), (i) the Delphi Transaction Agreements shall, effective immediately upon and simultaneously with such consummation, (A) be deemed to be Assumable Executory Contracts and (B) be assumed and assigned to Purchaser and (ii) the Assumption Effective Date with respect thereto shall be deemed to be the date of such consummation.

(b) The LSA Agreement shall, effective at the Closing, (i) be deemed to be an Assumable Executory Contract and (B) be assumed and assigned to Purchaser and (ii) the Assumption Effective Date with respect thereto shall be deemed to be the Closing Date. To the extent that any such agreement is not an Executory Contract, such agreement shall be deemed to be a Purchased Contract.

Section 6.32 GM Strasbourg S.A. Restructuring. The Parties acknowledge and agree that General Motors International Holdings, Inc., a direct Subsidiary of Parent and the direct parent of GM Strasbourg S.A., may, prior to the Closing, dividend its Equity Interest in GM Strasbourg S.A. to Parent, such that following such dividend, GM Strasbourg S.A. will become a wholly-owned direct Subsidiary of Parent. Notwithstanding anything to the contrary in this Agreement, the Parties further acknowledge and agree that following the consummation of such restructuring at any time prior to the Closing, GM Strasbourg S.A. shall automatically, without further action by the Parties, be designated as an Excluded Entity and deemed to be set forth on Section 2.2(b)(iv) of the Sellers' Disclosure Schedule.

Section 6.33 Holding Company Reorganization. The Parties agree that Purchaser may, with the prior written consent of Sellers, reorganize prior to the Closing such that Purchaser may become a direct or indirect, wholly-owned Subsidiary of Holding Company on such terms and in such manner as is reasonably acceptable to Sellers, and Purchaser may assign all or a portion of its rights and obligations under this Agreement to Holding Company (or one or more newly formed, direct or indirect, wholly-owned Subsidiaries of Holding Company) in accordance with **Section 9.5**. In connection with any restructuring effected pursuant to this **Section 6.33**, the Parties further agree that, notwithstanding anything to the contrary in this Agreement (a) Parent shall receive securities of Holding Company with the same rights and

privileges, and in the same proportions, as the Parent Shares and the Parent Warrants, in each case, in lieu of the Parent Shares and Parent Warrants, as Purchase Price hereunder, (b) Canada, New VEBA and Sponsor shall receive securities of Holding Company with the same rights and privileges, and in the same proportions, as the Canada Shares, VEBA Shares, VEBA Warrant and Sponsor Shares, as applicable, in each case, in connection with the Closing and (c) New VEBA shall receive the VEBA Note issued by the same entity that becomes the obligor on the Purchaser Assumed Debt.

Section 6.34 Transfer of Promark Global Advisors Limited and Promark Investment Trustees Limited Equity Interests. Notwithstanding anything to the contrary set forth in this Agreement, in the event approval by the Financial Services Authority (the "FSA Approval") of the transfer of Sellers' Equity Interests in Promark Global Advisors Limited and Promark Investments Trustees Limited (together, the "Promark UK Subsidiaries") has not been obtained as of the Closing Date, Sellers shall, at their option, have the right to postpone the transfer of Sellers' Equity Interests in the Promark UK Subsidiaries until such time as the FSA Approval is obtained. If the transfer of Sellers' Equity Interests in the Promark UK Subsidiaries is postponed pursuant to this **Section 6.34**, then (a) Sellers and Purchaser shall effectuate the transfer of Sellers' Equity Interests in the Promark UK Subsidiaries no later than five (5) Business Days following the date that the FSA Approval is obtained and (b) Sellers shall enter into a transitional services agreement with Promark Global Advisors, Inc. in the form provided by Promark Global Advisors, Inc., which shall include terms and provisions regarding: (i) certain transitional services to be provided by Promark Global Advisors, Inc. to the Promark UK Subsidiaries, (ii) the continued availability of director and officer liability insurance for directors and officers of the Promark UK Subsidiaries and (iii) certain actions on the part of the Promark UK Subsidiaries to require the prior written consent of Promark Global Advisors, Inc., including changes to employee benefits or compensation, declaration of dividends, material financial transactions, disposition of material assets, entry into material agreements, changes to existing business plans, changes in management and the boards of directors of the Promark UK Subsidiaries and other similar actions.

Section 6.35 Transfer of Equity Interests in Certain Subsidiaries. Notwithstanding anything to the contrary set forth in this Agreement, the Parties may mutually agree to postpone the transfer of Sellers' Equity Interests in those Transferred Entities as are mutually agreed upon by the Parties ("Delayed Closing Entities") to a date following the Closing.

ARTICLE VII
CONDITIONS TO CLOSING

Section 7.1 Conditions to Obligations of Purchaser and Sellers. The respective obligations of Purchaser and Sellers to consummate the transactions contemplated by this Agreement are subject to the fulfillment or written waiver (to the extent permitted by applicable Law), prior to or at the Closing, of each of the following conditions:

(a) The Bankruptcy Court shall have entered the Sale Approval Order and the Sale Procedures Order on terms acceptable to the Parties and reasonably acceptable to the UAW, and each shall be a Final Order and shall not have been vacated, stayed or

reversed; provided, however, that the conditions contained in this **Section 7.1(a)** shall be satisfied notwithstanding the pendency of an appeal if the effectiveness of the Sale Approval Order has not been stayed.

(b) No Order or Law of a United States Governmental Authority shall be in effect that declares this Agreement invalid or unenforceable or that restrains, enjoins or otherwise prohibits the consummation of the transactions contemplated by this Agreement.

(c) Sponsor shall have delivered, or caused to be delivered to Sellers and Purchaser an equity registration rights agreement, substantially in the form attached hereto as **Exhibit O** (the "Equity Registration Rights Agreement"), duly executed by Sponsor.

(d) Canada shall have delivered, or caused to be delivered to Sellers and Purchaser the Equity Registration Rights Agreement, duly executed by Canada.

(e) The Canadian Debt Contribution shall have been consummated.

(f) The New VEBA shall have delivered, or caused to be delivered to Sellers and Purchaser, the Equity Registration Rights Agreement, duly executed by the New VEBA.

(g) Purchaser shall have received (i) consents from Governmental Authorities, (ii) Permits and (iii) consents from non-Governmental Authorities, in each case with respect to the transactions contemplated by this Agreement and the ownership and operation of the Purchased Assets and Assumed Liabilities by Purchaser from and after the Closing, sufficient in the aggregate to permit Purchaser to own and operate the Purchased Assets and Assumed Liabilities from and after the Closing in substantially the same manner as owned and operated by Sellers immediately prior to the Closing (after giving effect to (A) the implementation of the Viability Plans; (B) Parent's announced shutdown, which began in May 2009; and (C) the Bankruptcy Cases (or any other bankruptcy, insolvency or similar proceeding filed by or in respect of any Subsidiary of Parent).

(h) Sellers shall have executed and delivered definitive financing agreements restructuring the Wind Down Facility in accordance with the provisions of **Section 6.9(b)**.

Section 7.2 Conditions to Obligations of Purchaser. The obligations of Purchaser to consummate the transactions contemplated by this Agreement are subject to the fulfillment or written waiver, prior to or at the Closing, of each of the following conditions; provided, however, that in no event may Purchaser waive the conditions contained in **Section 7.2(d)** or **Section 7.2(e)**:

(a) Each of the representations and warranties of Sellers contained in **ARTICLE IV** of this Agreement shall be true and correct (disregarding for the purposes of such determination any qualification as to materiality or Material Adverse Effect) as of

the Closing Date as if made on the Closing Date (except for representations and warranties that speak as of a specific date or time, which representations and warranties shall be true and correct only as of such date or time), except to the extent that any breaches of such representations and warranties, individually or in the aggregate, have not had, or would not reasonably be expected to have, a Material Adverse Effect.

(b) Sellers shall have performed or complied in all material respects with all agreements and obligations required by this Agreement to be performed or complied with by Sellers prior to or at the Closing.

(c) Sellers shall have delivered, or caused to be delivered, to Purchaser:

(i) a certificate executed as of the Closing Date by a duly authorized representative of Sellers, on behalf of Sellers and not in such authorized representative's individual capacity, certifying that the conditions set forth in **Section 7.2(a)** and **Section 7.2(b)** have been satisfied;

(ii) the Equity Registration Rights Agreement, duly executed by Parent;

(iii) stock certificates or membership interest certificates, if any, evidencing the Transferred Equity Interests (other than in respect of the Equity Interests held by Sellers in RHI, Promark Global Advisors Limited, Promark Investments Trustees Limited and the Delayed Closing Entities, which the Parties agree may be transferred following the Closing in accordance with **Section 6.30**, **Section 6.34** and **Section 6.35**), duly endorsed in blank or accompanied by stock powers (or similar documentation) duly endorsed in blank, in proper form for transfer to Purchaser, including any required stamps affixed thereto;

(iv) an omnibus bill of sale, substantially in the form attached hereto as **Exhibit P** (the "Bill of Sale"), together with transfer tax declarations and all other instruments of conveyance that are necessary to effect transfer to Purchaser of title to the Purchased Assets, each in a form reasonably satisfactory to the Parties and duly executed by the appropriate Seller;

(v) an omnibus assignment and assumption agreement, substantially in the form attached hereto as **Exhibit Q** (the "Assignment and Assumption Agreement"), together with all other instruments of assignment and assumption that are necessary to transfer the Purchased Contracts and Assumed Liabilities to Purchaser, each in a form reasonably satisfactory to the Parties and duly executed by the appropriate Seller;

(vi) a novation agreement, substantially in the form attached hereto as **Exhibit R** (the "Novation Agreement"), duly executed by Sellers and the appropriate United States Governmental Authorities;

(vii) a government related subcontract agreement, substantially in the form attached hereto as **Exhibit S** (the "Government Related Subcontract Agreement"), duly executed by Sellers;

(viii) an omnibus intellectual property assignment agreement, substantially in the form attached hereto as **Exhibit T** (the "Intellectual Property Assignment Agreement"), duly executed by Sellers;

(ix) a transition services agreement, substantially in the form attached hereto as **Exhibit U** (the "Transition Services Agreement"), duly executed by Sellers;

(x) all quitclaim deeds or deeds without warranty (or equivalents for those parcels of Owned Real Property located in jurisdictions outside of the United States), in customary form, subject only to Permitted Encumbrances, conveying the Owned Real Property to Purchaser (the "Quitclaim Deeds"), duly executed by the appropriate Seller;

(xi) all required Transfer Tax or sales disclosure forms relating to the Transferred Real Property (the "Transfer Tax Forms"), duly executed by the appropriate Seller;

(xii) an assignment and assumption of the leases and subleases underlying the Leased Real Property, in substantially the form attached hereto as **Exhibit V** (the "Assignment and Assumption of Real Property Leases"), together with such other instruments of assignment and assumption that are necessary to transfer the leases and subleases underlying the Leased Real Property located in jurisdictions outside of the United States, each duly executed by Sellers; provided, however, that if it is required for the assumption and assignment of any lease or sublease underlying a Leased Real Property that a separate assignment and assumption for such lease or sublease be executed, then a separate assignment and assumption of such lease or sublease shall be executed in a form substantially similar to **Exhibit V** or as otherwise required to assume or assign such Leased Real Property;

(xiii) an assignment and assumption of the lease in respect of the premises located at 2485 Second Avenue, New York, New York, substantially in the form attached hereto as **Exhibit W** (the "Assignment and Assumption of Harlem Lease"), duly executed by Harlem;

(xiv) an omnibus lease agreement in respect of the lease of certain portions of the Excluded Real Property that is owned real property, substantially in the form attached hereto as **Exhibit X** (the "Master Lease Agreement"), duly executed by Parent;

(xv) *[Reserved]*;

(xvi) the Saginaw Service Contracts, if required, duly executed by the appropriate Seller;

(xvii) any easement agreements required under **Section 6.27(c)**, duly executed by the appropriate Seller;

(xviii) the Subdivision Master Lease, if required, duly executed by the appropriate Sellers;

(xix) a certificate of an officer of each Seller (A) certifying that attached to such certificate are true and complete copies of (1) such Seller's Organizational Documents, each as amended through and in effect on the Closing Date and (2) resolutions of the board of directors of such Seller, authorizing the execution, delivery and performance of this Agreement and the Ancillary Agreements to which such Seller is a party, the consummation of the transactions contemplated by this Agreement and such Ancillary Agreements and the matters set forth in **Section 6.16(e)**, and (B) certifying as to the incumbency of the officer(s) of such Seller executing this Agreement and the Ancillary Agreements to which such Seller is a party;

(xx) a certificate in compliance with Treas. Reg. §1.1445-2(b)(2) that each Seller is not a foreign person as defined under Section 897 of the Tax Code;

(xxi) a certificate of good standing for each Seller from the Secretary of State of the State of Delaware;

(xxii) their written agreement to treat the Relevant Transactions and the other transactions contemplated by this Agreement in accordance with Purchaser's determination in **Section 6.16**;

(xxiii) payoff letters and related Encumbrance-release documentation (including, if applicable, UCC-3 termination statements), each in a form reasonably satisfactory to the Parties and duly executed by the holders of the secured Indebtedness; and

(xxiv) all books and records of Sellers described in **Section 2.2(a)(xiv)**.

(d) The UAW Collective Bargaining Agreement shall have been ratified by the membership, shall have been assumed by the applicable Sellers and assigned to Purchaser, and shall be in full force and effect.

(e) The UAW Retiree Settlement Agreement shall have been executed and delivered by the UAW and shall have been approved by the Bankruptcy Court as part of the Sale Approval Order.

(f) The Canadian Operations Continuation Agreement shall have been executed and delivered by the parties thereto in the form previously distributed among them.

Section 7.3 Conditions to Obligations of Sellers. The obligations of Sellers to consummate the transactions contemplated by this Agreement are subject to the fulfillment or written waiver, prior to or at the Closing, of each of the following conditions; provided, however, that in no event may Sellers waive the conditions contained in **Section 7.3(h)** or **Section 7.3(i)**:

(a) Each of the representations and warranties of Purchaser contained in **ARTICLE V** of this Agreement shall be true and correct (disregarding for the purpose of such determination any qualification as to materiality or Purchaser Material Adverse Effect) as of the Closing Date as if made on such date (except for representations and warranties that speak as of a specific date or time, which representations and warranties shall be true and correct only as of such date or time), except to the extent that any breaches of such representations and warranties, individually or in the aggregate, have not had, or would not reasonably be expected to have, a Purchaser Material Adverse Effect.

(b) Purchaser shall have performed or complied in all material respects with all agreements and obligations required by this Agreement to be performed or complied with by it prior to or at the Closing.

(c) Purchaser shall have delivered, or caused to be delivered, to Sellers:

(i) Parent Warrant A (including the related warrant agreement), duly executed by Purchaser;

(ii) Parent Warrant B (including the related warrant agreement), duly executed by Purchaser;

(iii) a certificate executed as of the Closing Date by a duly authorized representative of Purchaser, on behalf of Purchaser and not in such authorized representative's individual capacity, certifying that the conditions set forth in **Section 7.3(a)** and **Section 7.3(b)** are satisfied;

(iv) stock certificates evidencing the Parent Shares, duly endorsed in blank or accompanied by stock powers duly endorsed in blank, in proper form for transfer, including any required stamps affixed thereto;

(v) the Equity Registration Rights Agreement, duly executed by Purchaser;

(vi) the Bill of Sale, together with all other documents described in **Section 7.2(c)(iv)**, each duly executed by Purchaser or its designated Subsidiaries;

(vii) the Assignment and Assumption Agreement, together with all other documents described in **Section 7.2(c)(v)**, each duly executed by Purchaser or its designated Subsidiaries;

(viii) the Novation Agreement, duly executed by Purchaser or its designated Subsidiaries;

(ix) the Government Related Subcontract Agreement, duly executed by Purchaser or its designated Subsidiary;

(x) the Intellectual Property Assignment Agreement, duly executed by Purchaser or its designated Subsidiaries;

(xi) the Transition Services Agreement, duly executed by Purchaser or its designated Subsidiaries;

(xii) the Transfer Tax Forms, duly executed by Purchaser or its designated Subsidiaries, to the extent required;

(xiii) the Assignment and Assumption of Real Property Leases, together with all other documents described in **Section 7.2(c)(xii)**, each duly executed by Purchaser or its designated Subsidiaries;

(xiv) the Assignment and Assumption of Harlem Lease, duly executed by Purchaser or its designated Subsidiaries;

(xv) the Master Lease Agreement, duly executed by Purchaser or its designated Subsidiaries;

(xvi) *[Reserved]*;

(xvii) the Subdivision Master Lease, if required, duly executed by Purchaser or its designated Subsidiaries;

(xviii) any easement agreements required under **Section 6.27(c)**, duly executed by Purchaser or its designated Subsidiaries;

(xix) a certificate of a duly authorized representative of Purchaser (A) certifying that attached to such certificate are true and complete copies of (1) Purchaser's Organizational Documents, each as amended through and in effect on the Closing Date and (2) resolutions of the board of directors of Purchaser, authorizing the execution, delivery and performance of this Agreement and the Ancillary Agreements to which Purchaser is a party, the consummation of the transactions contemplated by this Agreement and such Ancillary Agreements and the matters set forth in **Section 6.16(g)**, and (B) certifying as to the incumbency of the officer(s) of Purchaser executing this Agreement and the Ancillary Agreements to which Purchaser is a party; and

(xx) a certificate of good standing for Purchaser from the Secretary of State of the State of Delaware.

(d) *[Reserved]*

(e) Purchaser shall have filed a certificate of designation for the Preferred Stock, substantially in the form attached hereto as **Exhibit Y**, with the Secretary of State of the State of Delaware.

(f) Purchaser shall have offset the UST Credit Bid Amount against the amount of Indebtedness of Parent and its Subsidiaries owed to Purchaser as of the Closing under the UST Credit Facilities pursuant to a Bankruptcy Code Section 363(k) credit bid and delivered releases and waivers and related Encumbrance-release documentation (including, if applicable, UCC-3 termination statements) with respect to the UST Credit Bid Amount, in a form reasonably satisfactory to the Parties and duly executed by Purchaser in accordance with the applicable requirements in effect on the date hereof, (iii) transferred to Sellers the UST Warrant and (iv) issued to Parent, in accordance with instructions provided by Parent, the Purchaser Shares and the Parent Warrants (duly executed by Purchaser).

(g) Purchaser shall have delivered, or caused to be delivered, to Canada, Sponsor and/or the New VEBA, as applicable:

(i) certificates representing the Canada Shares, the Sponsor Shares and the VEBA Shares in accordance with the applicable equity subscription agreements in effect on the date hereof;

(ii) the Equity Registration Rights Agreement, duly executed by Purchaser;

(iii) the VEBA Warrant (including the related warrant agreement), duly executed by Purchaser; and

(iv) a note, in form and substance consistent with the terms set forth on **Exhibit Z** attached hereto, to the New VEBA (the "VEBA Note").

(h) The UAW Collective Bargaining Agreement shall have been ratified by the membership, shall have been assumed by Purchaser, and shall be in full force and effect.

(i) The UAW Retiree Settlement Agreement shall have been executed and delivered, shall be in full force and effect, and shall have been approved by the Bankruptcy Court as part of the Sale Approval Order.

ARTICLE VIII
TERMINATION

Section 8.1 Termination. This Agreement may be terminated, and the transactions contemplated hereby may be abandoned, at any time prior to the Closing Date as follows:

(a) by the mutual written consent of Sellers and Purchaser;

(b) by either Sellers or Purchaser, if (i) the Closing shall not have occurred on or before August 15, 2009, or such later date as the Parties may agree in writing, such date not to be later than September 15, 2009 (as extended, the "End Date"), and (ii) the Party seeking to terminate this Agreement pursuant to this **Section 8.1(b)** shall not have breached in any material respect its obligations under this Agreement in any manner that shall have proximately caused the failure of the transactions contemplated hereby to close on or before such date;

(c) by either Sellers or Purchaser, if the Bankruptcy Court shall not have entered the Sale Approval Order by July 10, 2009;

(d) by either Sellers or Purchaser, if any court of competent jurisdiction in the United States or other United States Governmental Authority shall have issued a Final Order permanently restraining, enjoining or otherwise prohibiting the transactions contemplated by this Agreement or the sale of a material portion of the Purchased Assets;

(e) by Sellers, if Purchaser shall have breached or failed to perform in any material respect any of its representations, warranties, covenants or other agreements contained in this Agreement, and such breach or failure to perform has not been cured by the End Date, provided that (i) Sellers shall have given Purchaser written notice, delivered at least thirty (30) days prior to such termination, stating Sellers' intention to terminate this Agreement pursuant to this **Section 8.1(e)** and the basis for such termination and (ii) Sellers shall not have the right to terminate this Agreement pursuant to this **Section 8.1(e)** if Sellers are then in material breach of any its representations, warranties, covenants or other agreements set forth herein;

(f) by Purchaser, if Sellers shall have breached or failed to perform in any material respect any of its representations, warranties, covenants or other agreements contained in this Agreement, which breach or failure to perform (i) would (if it occurred or was continuing as of the Closing Date) give rise to the failure of a condition set forth in **Section 7.2(a)** or **Section 7.2(b)** to be fulfilled, (ii) cannot be cured by the End Date, provided that (i) Purchaser shall have given Sellers written notice, delivered at least thirty (30) days prior to such termination, stating Purchaser's intention to terminate this Agreement pursuant to this **Section 8.1(f)** and the basis for such termination and (iii) Purchaser shall not have the right to terminate this Agreement pursuant to this **Section 8.1(f)** if Purchaser is then in material breach of any its representations, warranties, covenants or other agreements set forth herein; or

(g) by either Sellers or Purchaser, if the Bankruptcy Court shall have entered an Order approving an Alternative Transaction.

Section 8.2 Procedure and Effect of Termination.

(a) If this Agreement is terminated pursuant to **Section 8.1**, this Agreement shall become null and void and have no effect, and all obligations of the Parties hereunder shall terminate, except for those obligations of the Parties set forth this **Section 8.2** and **ARTICLE IX**, which shall remain in full force and effect; provided that nothing

herein shall relieve any Party from Liability for any material breach of any of its representations, warranties, covenants or other agreements set forth herein. If this Agreement is terminated as provided herein, all filings, applications and other submissions made pursuant to this Agreement shall, to the extent practicable, be withdrawn from the agency or other Person to which they were made.

(b) If this Agreement is terminated by Sellers or Purchaser pursuant to **Section 8.1(a)** through **Section 8.1(d)** or **Section 8.1(g)** or by Purchaser pursuant to **Section 8.1(f)**, Sellers, severally and not jointly, shall reimburse Purchaser for its reasonable, out-of-pocket costs and expenses (including reasonable attorneys' fees) incurred by Purchaser in connection with this Agreement and the transactions contemplated hereby (the "Purchaser Expense Reimbursement"). The Purchaser Expense Reimbursement shall be paid as an administrative expense Claim of Sellers pursuant to Section 503(b)(1) of the Bankruptcy Code.

(c) Except as expressly provided for in this **Section 8.2**, any termination of this Agreement pursuant to **Section 8.1** shall be without Liability to Purchaser or Sellers, including any Liability by Sellers to Purchaser for any break-up fee, termination fee, expense reimbursement or other compensation as a result of a termination of this Agreement.

(d) If this Agreement is terminated for any reason, Purchaser shall, and shall cause each of its Affiliates and Representatives to, treat and hold as confidential all Confidential Information, whether documentary, electronic or oral, labeled or otherwise identified as confidential, and regardless of the form of communication or the manner in which it was furnished. For purposes of this **Section 8.2(d)**, Confidential Information shall be deemed not to include any information that (i) is now available to or is hereafter disclosed in a manner making it available to the general public, in each case, through no act or omission of Purchaser, any of its Affiliates or any of their Representatives, or (ii) is required by Law to be disclosed.

ARTICLE IX
MISCELLANEOUS

Section 9.1 Survival of Representations, Warranties, Covenants and Agreements and Consequences of Certain Breaches. The representations and warranties of the Parties contained in this Agreement shall be extinguished by and shall not survive the Closing, and no Claims may be asserted in respect of, and no Party shall have any Liability for any breach of, the representations and warranties. All covenants and agreements contained in this Agreement, including those covenants and agreements set forth in **ARTICLE II** and **ARTICLE VI**, shall survive the Closing indefinitely.

Section 9.2 Notices. Any notice, request, instruction, consent, document or other communication required or permitted to be given under this Agreement shall be in writing and shall be deemed to have been sufficiently given or served for all purposes (a) upon delivery when personally delivered; (b) on the delivery date after having been sent by a nationally or internationally recognized overnight courier service (charges prepaid); (c) at the time received

when sent by registered or certified mail, return receipt requested, postage prepaid; or (d) at the time when confirmation of successful transmission is received (or the first Business Day following such receipt if the date of such receipt is not a Business Day) if sent by facsimile, in each case, to the recipient at the address or facsimile number, as applicable, indicated below:

If to any Seller:

Facsimile: 212-504-6666

provided, however, if any Party shall have designated a different addressee and/or contact information by notice in accordance with this **Section 9.2**, then to the last addressee as so designated.

Section 9.3 Fees and Expenses; No Right of Setoff. Except as otherwise provided in this Agreement, including **Section 8.2(b)**, Purchaser, on the one hand, and each Seller, on the other hand, shall bear its own fees, costs and expenses, including fees and disbursements of counsel, financial advisors, investment bankers, accountants and other agents and representatives, incurred in connection with the negotiation and execution of this Agreement and each Ancillary Agreement and the consummation of the transactions contemplated hereby and thereby. In furtherance of the foregoing, Purchaser shall be solely responsible for (a) all expenses incurred by it in connection with its due diligence review of Sellers and their respective businesses, including surveys, title work, title inspections, title searches, environmental testing or inspections, building inspections, Uniform Commercial Code lien and other searches and (b) any cost (including any filing fees) incurred by it in connection with notarization, registration or recording of this Agreement or an Ancillary Agreement required by applicable Law. No Party nor any of its Affiliates shall have any right of holdback or setoff or assert any Claim or defense with respect to any amounts that may be owed by such Party or its Affiliates to any other Party (or Parties) hereto or its or their Affiliates as a result of and with respect to any amount that may be owing to such Party or its Affiliates under this Agreement, any Ancillary Agreement or any other commercial arrangement entered into in between or among such Parties and/or their respective Affiliates.

Section 9.4 Bulk Sales Laws. Each Party hereto waives compliance by the other Parties with any applicable bulk sales Law.

Section 9.5 Assignment. Neither this Agreement nor any of the rights, interests or obligations provided by this Agreement may be assigned or delegated by any Party (whether by operation of law or otherwise) without the prior written consent of the other Parties, and any such assignment or delegation without such prior written consent shall be null and void; provided, however, that, without the consent of Sellers, Purchaser may assign or direct the transfer on its behalf on or prior to the Closing of all, or any portion, of its rights to purchase, accept and acquire the Purchased Assets and its obligations to assume and thereafter pay or perform as and when due, or otherwise discharge, the Assumed Liabilities, to Holding Company or one or more newly-formed, direct or indirect, wholly-owned Subsidiaries of Holding Company or Purchaser; provided, further, that no such assignment or delegation shall relieve Purchaser of any of its obligations under this Agreement. Subject to the preceding sentence and except as otherwise expressly provided herein, this Agreement shall be binding upon and inure to the benefit of the Parties hereto and their respective successors and permitted assigns.

Section 9.6 Amendment. This Agreement may not be amended, modified or supplemented except upon the execution and delivery of a written agreement executed by a duly authorized representative or officer of each of the Parties.

Section 9.7 Waiver. At any time prior to the Closing, each Party may (a) extend the time for the performance of any of the obligations or other acts of the other Parties; (b) waive any inaccuracies in the representations and warranties contained in this Agreement or in any document delivered pursuant hereto; or (c) waive compliance with any of the agreements or conditions contained herein (to the extent permitted by Law). Any such waiver or extension by a Party (i) shall be valid only if, and to the extent, set forth in a written instrument signed by a duly authorized representative or officer of the Party to be bound and (ii) shall not constitute, or be construed as, a continuing waiver of such provision, or a waiver of any other breach of, or failure to comply with, any other provision of this Agreement. The failure in any one or more instances of a Party to insist upon performance of any of the terms, covenants or conditions of this Agreement, to exercise any right or privilege in this Agreement conferred, or the waiver by said Party of any breach of any of the terms, covenants or conditions of this Agreement shall not be construed as a subsequent waiver of, or estoppel with respect to, any other terms, covenants, conditions, rights or privileges, but the same will continue and remain in full force and effect as if no such forbearance or waiver had occurred.

Section 9.8 Severability. Whenever possible, each term and provision of this Agreement will be interpreted in such manner as to be effective and valid under applicable Law. If any term or provision of this Agreement, or the application thereof to any Person or any circumstance, is held to be illegal, invalid or unenforceable, (a) a suitable and equitable provision shall be substituted therefore in order to carry out, so far as may be legal, valid and enforceable, the intent and purpose of such illegal, invalid or unenforceable provision and (b) the remainder of this Agreement or such term or provision and the application of such term or provision to other Persons or circumstances shall remain in full force and effect and shall not be affected by such illegality, invalidity or unenforceability, nor shall such invalidity or unenforceability affect the legality, validity or enforceability of such term or provision, or the application thereof, in any jurisdiction.

Section 9.9 Counterparts; Facsimiles. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, and all of which taken together shall constitute one and the same agreement. All signatures of the Parties may be transmitted by facsimile or electronic delivery, and each such facsimile signature or electronic delivery signature (including a pdf signature) will, for all purposes, be deemed to be the original signature of the Party whose signature it reproduces and be binding upon such Party.

Section 9.10 Headings. The descriptive headings of the Articles, Sections and paragraphs of, and Schedules and Exhibits to, this Agreement, and the table of contents, table of Exhibits and table of Schedules contained in this Agreement, are included for convenience only, do not constitute a part of this Agreement and shall not be deemed to limit, modify or affect any of the provisions hereof.

Section 9.11 Parties in Interest. This Agreement shall be binding upon and inure solely to the benefit of each Party hereto and their respective permitted successors and

assigns; provided, that (a) for all purposes each of Sponsor, the New VEBA, and Canada shall be express third-party beneficiaries of this Agreement and (b) for purposes of **Section 2.2(a)(x)** and **(xvi)**, **Section 2.2(b)(vii)**, **Section 2.3(a)(x)**, **(xii)**, **(xiii)** and **(xv)**, **Section 2.3(b)(xv)**, **Section 4.6(b)**, **Section 4.10**, **Section 5.4(c)**, **Section 6.2(b)(x)**, **(xv)** and **(xvii)**, **Section 6.4(a)**, **Section 6.4(b)**, **Section 6.6(a)**, **(d)**, **(f)** and **(g)**, **Section 6.11(c)(i)** and **(vi)**, **Section 6.17**, **Section 7.1(a)** and **(f)**, **Section 7.2(d)** and **(e)** and **Section 7.3(g)**, **(h)** and **(i)**, the UAW shall be an express third-party beneficiary of this Agreement. Subject to the preceding sentence, nothing express or implied in this Agreement is intended or shall be construed to confer upon or give to any Person, other than the Parties, their Affiliates and their respective permitted successors or assigns, any legal or equitable Claims, benefits, rights or remedies of any nature whatsoever under or by reason of this Agreement.

Section 9.12 Governing Law. The construction, interpretation and other matters arising out of or in connection with this Agreement (whether arising in contract, tort, equity or otherwise) shall in all respects be governed by and construed (a) to the extent applicable, in accordance with the Bankruptcy Code, and (b) to the extent the Bankruptcy Code is not applicable, in accordance with the Laws of the State of New York, without giving effect to rules governing the conflict of laws.

Section 9.13 Venue and Retention of Jurisdiction. Each Party irrevocably and unconditionally submits to the exclusive jurisdiction of the Bankruptcy Court for any litigation arising out of or in connection with this Agreement and the transactions contemplated hereby (and agrees not to commence any litigation relating thereto except in the Bankruptcy Court, other than actions in any court of competent jurisdiction to enforce any judgment, decree or award rendered by any such court as described herein); provided, however, that this **Section 9.13** shall not be applicable in the event the Bankruptcy Cases have closed, in which case the Parties irrevocably and unconditionally submit to the exclusive jurisdiction of the federal courts in the Southern District of New York and state courts of the State of New York located in the Borough of Manhattan in the City of New York for any litigation arising out of or in connection with this Agreement and the transactions contemplated hereby (and agree not to commence any litigation relating thereto except in the federal courts in the Southern District of New York and state courts of the State of New York located in the Borough of Manhattan in the City of New York, other than actions in any court of competent jurisdiction to enforce any judgment, decree or award rendered by any such court as described herein).

Section 9.14 Waiver of Jury Trial. EACH PARTY WAIVES THE RIGHT TO A TRIAL BY JURY IN ANY DISPUTE IN CONNECTION WITH OR RELATING TO THIS AGREEMENT OR ANY MATTERS DESCRIBED OR CONTEMPLATED HEREIN, AND AGREES TO TAKE ANY AND ALL ACTION NECESSARY OR APPROPRIATE TO EFFECT SUCH WAIVER.

Section 9.15 Risk of Loss. Prior to the Closing, all risk of loss, damage or destruction to all or any part of the Purchased Assets shall be borne exclusively by Sellers.

Section 9.16 Enforcement of Agreement. The Parties agree that irreparable damage would occur in the event that any provision of this Agreement were not performed in accordance with its specific terms or were otherwise breached. It is accordingly agreed that the

Parties shall, without the posting of a bond, be entitled, subject to a determination by a court of competent jurisdiction, to an injunction or injunctions to prevent any such failure of performance under, or breaches of, this Agreement, and to enforce specifically the terms and provisions hereof and thereof, this being in addition to all other remedies available at law or in equity, and each Party agrees that it will not oppose the granting of such relief on the basis that the requesting Party has an adequate remedy at law.

Section 9.17 Entire Agreement. This Agreement (together with the Ancillary Agreements, the Sellers' Disclosure Schedule and the Exhibits) contains the final, exclusive and entire agreement and understanding of the Parties with respect to the subject matter hereof and thereof and supersedes all prior and contemporaneous agreements and understandings, whether written or oral, among the Parties with respect to the subject matter hereof and thereof. Neither this Agreement nor any Ancillary Agreement shall be deemed to contain or imply any restriction, covenant, representation, warranty, agreement or undertaking of any Party with respect to the transactions contemplated hereby or thereby other than those expressly set forth herein or therein, and none shall be deemed to exist or be inferred with respect to the subject matter hereof.

Section 9.18 Publicity. Prior to the first public announcement of this Agreement and the transactions contemplated hereby, Sellers, on the one hand, and Purchaser, on the other hand, shall consult with each other regarding, and share with each other copies of, their respective communications plans, including draft press releases and related materials, with regard to such announcement. Neither Sellers nor Purchaser shall issue any press release or public announcement concerning this Agreement or the transactions contemplated hereby without obtaining the prior written approval of the other Party or Parties, as applicable, which approval shall not be unreasonably withheld, conditioned or delayed, unless, in the sole judgment of the Party intending to make such release, disclosure is otherwise required by applicable Law, or by the Bankruptcy Court with respect to filings to be made with the Bankruptcy Court in connection with this Agreement or by the applicable rules of any stock exchange on which Purchaser or Sellers list securities; provided, that the Party intending to make such release shall use reasonable best efforts consistent with such applicable Law or Bankruptcy Court requirement to consult with the other Party or Parties, as applicable, with respect to the text thereof; provided, further, that, notwithstanding anything to the contrary contained in this section, no Party shall be prohibited from publishing, disseminating or otherwise making public, without the prior written approval of the other Party or Parties, as applicable, any materials that are derived from or consistent with the materials included in the communications plan referred to above. In an effort to coordinate consistent communications, the Parties shall agree upon procedures relating to all press releases and public announcements concerning this Agreement and the transactions contemplated hereby.

Section 9.19 No Successor or Transferee Liability. Except where expressly prohibited under applicable Law or otherwise expressly ordered by the Bankruptcy Court, upon the Closing, neither Purchaser nor any of its Affiliates or stockholders shall be deemed to (a) be the successor of Sellers; (b) have, de facto, or otherwise, merged with or into Sellers; (c) be a mere continuation or substantial continuation of Sellers or the enterprise(s) of Sellers; or (d) other than as set forth in this Agreement, be liable for any acts or omissions of Sellers in the conduct of Sellers' business or arising under or related to the Purchased Assets. Without limiting

the generality of the foregoing, and except as otherwise provided in this Agreement, neither Purchaser nor any of its Affiliates or stockholders shall be liable for any Claims against Sellers or any of their predecessors or Affiliates, and neither Purchaser nor any of its Affiliates or stockholders shall have any successor, transferee or vicarious Liability of any kind or character whether known or unknown as of the Closing, whether now existing or hereafter arising, or whether fixed or contingent, with respect to Sellers' business or any obligations of Sellers arising prior to the Closing, except as provided in this Agreement, including Liabilities on account of any Taxes arising, accruing, or payable under, out of, in connection with, or in any way relating to the operation of Sellers' business prior to the Closing.

Section 9.20 Time Periods. Unless otherwise specified in this Agreement, an action required under this Agreement to be taken within a certain number of days or any other time period specified herein shall be taken within the applicable number of calendar days (and not Business Days); provided, however, that if the last day for taking such action falls on a day that is not a Business Day, the period during which such action may be taken shall be automatically extended to the next Business Day.

Section 9.21 Sellers' Disclosure Schedule. The representations and warranties of Sellers set forth in this Agreement are made and given subject to the disclosures contained in the Sellers' Disclosure Schedule. Inclusion of information in the Sellers' Disclosure Schedule shall not be construed as an admission that such information is material to the business, operations or condition of the business of Sellers, the Purchased Assets or the Assumed Liabilities, taken in part or as a whole, or as an admission of Liability of any Seller to any third party. The specific disclosures set forth in the Sellers' Disclosure Schedule have been organized to correspond to Section references in this Agreement to which the disclosure may be most likely to relate; provided, however, that any disclosure in the Sellers' Disclosure Schedule shall apply to, and shall be deemed to be disclosed for, any other Section of this Agreement to the extent the relevance of such disclosure to such other Section is reasonably apparent on its face.

Section 9.22 No Binding Effect. Notwithstanding anything in this Agreement to the contrary, no provision of this Agreement shall (i) be binding on or create any obligation on the part of Sponsor, the United States Government or any branch, agency or political subdivision thereof (a "Sponsor Affiliate") or the Government of Canada, or any crown corporation, agency or department thereof (a "Canada Affiliate") or (ii) require Purchaser to initiate any Claim or other action against Sponsor or any Sponsor Affiliate or otherwise attempt to cause Sponsor, any Sponsor Affiliate, Government of Canada or any Canada Affiliate to comply with or abide by the terms of this Agreement. No facts, materials or other information received or action taken by any Person who is an officer, director or agent of Purchaser by virtue of such Person's affiliation with or employment by Sponsor, any Sponsor Affiliate, Government of Canada or any Canada Affiliate shall be attributed to Purchaser for purposes of this Agreement or shall form the basis of any claim against such Person in their individual capacity.

FIRST AMENDMENT TO AMENDED AND RESTATED MASTER SALE AND PURCHASE AGREEMENT

THIS FIRST AMENDMENT TO AMENDED AND RESTATED MASTER SALE AND PURCHASE AGREEMENT, dated as of June 30, 2009 (this "Amendment"), is made by and among General Motors Corporation, a Delaware corporation ("Parent"), Saturn LLC, a Delaware limited liability company ("S LLC"), Saturn Distribution Corporation, a Delaware corporation ("S Distribution"), Chevrolet-Saturn of Harlem, Inc., a Delaware corporation ("Harlem," and collectively with Parent, S LLC and S Distribution, "Sellers," and each a "Seller"), and NGMCO, Inc., a Delaware corporation and successor-in-interest to Vehicle Acquisition Holdings LLC, a Delaware limited liability company ("Purchaser").

WHEREAS, Sellers and Purchaser have entered into that certain Amended and Restated Master Sale and Purchase Agreement, dated as of June 26, 2009 (the "Purchase Agreement"); and

WHEREAS, the Parties desire to amend the Purchase Agreement as set forth herein.

NOW, THEREFORE, in consideration of the foregoing and the mutual agreements contained in this Agreement, and for other good and valuable consideration, the value, receipt and sufficiency of which are acknowledged, the Parties hereby agree as follows:

Section 1. *Capitalized Terms.* All capitalized terms used but not defined herein shall have the meanings specified in the Purchase Agreement.

Section 2. *Amendments to Purchase Agreement.*

(a) **Section 2.3(a)(v)** of the Purchase Agreement is hereby amended and restated in its entirety to read as follows:

> (v) all Liabilities of Sellers (A) arising in the Ordinary Course of Business during the Bankruptcy Cases through and including the Closing Date, to the extent such Liabilities are administrative expenses of Sellers' estates pursuant to Section 503(b) of the Bankruptcy Code and (B) arising prior to the commencement of the Bankruptcy Cases, to the extent approved by the Bankruptcy Court for payment by Sellers pursuant to a Final Order (and for the avoidance of doubt, Sellers' Liabilities in clauses (A) and (B) above include all of Sellers' Liabilities for personal property Taxes, real estate and/or other ad valorem Taxes, use Taxes, sales Taxes, franchise Taxes, income Taxes, gross receipt Taxes, excise Taxes, Michigan Business Taxes and Michigan Single Business Taxes and other Liabilities mentioned in the Bankruptcy Court's Order - Docket No. 174), in each case, other than (1) Liabilities of the type described in **Section 2.3(b)(iv)**, **Section 2.3(b)(vi)**, **Section 2.3(b)(ix)** and **Section 2.3(b)(xii)**, (2) Liabilities arising under any dealer sales and service Contract and any Contract related thereto, to the extent such Contract has been designated as

a Rejectable Executory Contract, and (3) Liabilities otherwise assumed in this **Section 2.3(a)**;

(b) **Section 2.3(a)(ix)** of the Purchase Agreement is hereby amended and restated in its entirety to read as follows:

(ix) all Liabilities to third parties for death, personal injury, or other injury to Persons or damage to property caused by motor vehicles designed for operation on public roadways or by the component parts of such motor vehicles and, in each case, manufactured, sold or delivered by Sellers (collectively, "Product Liabilities"), which arise directly out of death, personal injury or other injury to Persons or damage to property caused by accidents or incidents first occurring on or after the Closing Date and arising from such motor vehicles' operation or performance (for avoidance of doubt, Purchaser shall not assume, or become liable to pay, perform or discharge, any Liability arising or contended to arise by reason of exposure to materials utilized in the assembly or fabrication of motor vehicles manufactured by Sellers and delivered prior to the Closing Date, including asbestos, silicates or fluids, regardless of when such alleged exposure occurs);

(c) **Section 2.3(b)(xii)** of the Purchase Agreement is hereby amended and restated in its entirety to read as follows:

(xii) all workers' compensation Claims with respect to Employees residing or employed in, as the case may be and as defined by applicable Law, (A) the states set forth on **Exhibit G** and (B) if the State of Michigan (1) fails to authorize Purchaser and its Affiliates operating within the State of Michigan to be a self-insurer for purposes of administering workers' compensation Claims or (2) requires Purchaser and its Affiliates operating within the State of Michigan to post collateral, bonds or other forms of security to secure workers' compensation Claims, the State of Michigan (collectively, "Retained Workers' Compensation Claims");

(d) **Section 6.6(d)** of the Purchase Agreement is hereby amended and restated in its entirety to read as follows:

(d) All Assumable Executory Contracts shall be assumed and assigned to Purchaser on the date (the "Assumption Effective Date") that is the later of (i) the date designated by the Purchaser and (ii) the date following expiration of the objection deadline if no objection, other than to the Cure Amount, has been timely filed or the date of resolution of any objection unrelated to Cure Amount, as provided in the Sale Procedures Order; provided, however, that in the case of each (A) Assumable Executory Contract identified on Section 6.6(a)(i) of the Sellers' Disclosure Schedule, (2) Deferred Termination Agreement (and the related Discontinued Brand Dealer Agreement or Continuing Brand Dealer Agreement)

designated as an Assumable Executory Contract and (3) Participation Agreement (and the related Continuing Brand Dealer Agreement) designated as an Assumable Executory Contract, the Assumption Effective Date shall be the Closing Date and (B) Assumable Executory Contract identified on Section 6.6(a)(ii) of the Sellers' Disclosure Schedule, the Assumption Effective Date shall be a date that is no later than the date set forth with respect to such Executory Contract on Section 6.6(a)(ii) of the Sellers' Disclosure Schedule. As soon as reasonably practicable following a determination that an Executory Contract shall be designated as an Assumable Executory Contract hereunder, Sellers shall use reasonable best efforts to notify each third party to such Executory Contract of their intention to assume and assign such Executory Contract in accordance with the terms of this Agreement and the Sale Procedures Order. On the Assumption Effective Date for any Assumable Executory Contract, such Assumable Executory Contract shall be deemed to be a Purchased Contract hereunder. If it is determined under the procedures set forth in the Sale Procedures Order that Sellers may not assume and assign to Purchaser any Assumable Executory Contract, such Executory Contract shall cease to be an Assumable Executory Contract and shall be an Excluded Contract and a Rejectable Executory Contract. Except as provided in **Section 6.31**, notwithstanding anything else to the contrary herein, any Executory Contract that has not been specifically designated as an Assumable Executory Contract as of the Executory Contract Designation Deadline applicable to such Executory Contract, including any Deferred Executory Contract, shall automatically be deemed to be a Rejectable Executory Contract and an Excluded Contract hereunder. Sellers shall have the right, but not the obligation, to reject, at any time, any Rejectable Executory Contract; provided, however, that Sellers shall not reject any Contract that affects both Owned Real Property and Excluded Real Property (whether designated on **Exhibit F** or now or hereafter designated on Section 2.2(b)(v) of the Sellers' Disclosure Schedule), including any such Executory Contract that involves the provision of water, water treatment, electric, fuel, gas, telephone and other utilities to any facilities located at the Excluded Real Property, whether designated on **Exhibit F** or now or hereafter designated on Section 2.2(b)(v) of the Sellers' Disclosure Schedule (the "Shared Executory Contracts"), without the prior written consent of Purchaser.

Section 3. Effectiveness of Amendment. Upon the execution and delivery hereof, the Purchase Agreement shall thereupon be deemed to be amended and restated as set forth in Section 2, as fully and with the same effect as if such amendments and restatements were originally set forth in the Purchase Agreement.

Section 4. Ratification of Purchase Agreement; Incorporation by Reference. Except as specifically provided for in this Amendment, the Purchase Agreement is hereby confirmed and ratified in all respects and shall be and remain in full force and effect in accordance with its terms. This Amendment is subject to all of the terms, conditions and limitations set forth in the Purchase Agreement, including **Article IX** thereof, which sections are hereby incorporated into this Amendment, mutatis mutandis, as if they were set forth in their entirety herein.

Section 5. *Counterparts.* This Amendment may be executed in one or more counterparts, each of which shall be deemed an original, and all of which taken together shall constitute one and the same agreement. All signatures of the Parties may be transmitted by facsimile or electronic delivery, and each such facsimile signature or electronic delivery signature (including a pdf signature) will, for all purposes, be deemed to be the original signature of the Party whose signature it reproduces and be binding upon such Party.

[Remainder of page intentionally left blank]

IN WITNESS WHEREOF, each of the Parties hereto has caused this Amendment to be executed by its duly authorized officer, in each case as of the date first written above.

SECOND AMENDMENT TO AMENDED AND RESTATED MASTER SALE AND PURCHASE AGREEMENT

THIS SECOND AMENDMENT TO AMENDED AND RESTATED MASTER SALE AND PURCHASE AGREEMENT, dated as of July 5, 2009 (this "Amendment"), is made by and among General Motors Corporation, a Delaware corporation ("Parent"), Saturn LLC, a Delaware limited liability company ("S LLC"), Saturn Distribution Corporation, a Delaware corporation ("S Distribution"), Chevrolet-Saturn of Harlem, Inc., a Delaware corporation ("Harlem," and collectively with Parent, S LLC and S Distribution, "Sellers," and each a "Seller"), and NGMCO, Inc., a Delaware corporation and successor-in-interest to Vehicle Acquisition Holdings LLC, a Delaware limited liability company ("Purchaser").

WHEREAS, Sellers and Purchaser have entered into that certain Amended and Restated Master Sale and Purchase Agreement, dated as of June 26, 2009 (as amended, the "Purchase Agreement");

WHEREAS, Sellers and Purchaser have entered into that certain First Amendment to Amended and Restated Master and Purchase Agreement; and

WHEREAS, the Parties desire to amend the Purchase Agreement as set forth herein.

NOW, THEREFORE, in consideration of the foregoing and the mutual agreements contained in this Agreement, and for other good and valuable consideration, the value, receipt and sufficiency of which are acknowledged, the Parties hereby agree as follows:

Section 1. *Capitalized Terms.* All capitalized terms used but not defined herein shall have the meanings specified in the Purchase Agreement.

Section 2. *Amendments to Purchase Agreement.*

(a) The following new definition of "Advanced Technology Credits" is hereby included in **Section 1.1** of the Purchase Agreement:

> "Advanced Technology Credits" has the meaning set forth in **Section 6.36**.

(b) The following new definition of "Advanced Technology Projects" is hereby included in **Section 1.1** of the Purchase Agreement:

> "Advanced Technology Projects" means development, design, engineering and production of advanced technology vehicles and components, including the vehicles known as "the Volt", "the Cruze" and components, transmissions and systems for vehicles employing hybrid technologies.

(c) The definition of "Ancillary Agreements" is hereby amended and restated in its entirety to read as follows:

"Ancillary Agreements" means the Parent Warrants, the UAW Active Labor Modifications, the UAW Retiree Settlement Agreement, the VEBA Warrant, the Equity Registration Rights Agreement, the Bill of Sale, the Assignment and Assumption Agreement, the Intellectual Property Assignment Agreement, the Transition Services Agreement, the Quitclaim Deeds, the Assignment and Assumption of Real Property Leases, the Assignment and Assumption of Harlem Lease, the Master Lease Agreement, the Subdivision Master Lease (if required), the Saginaw Service Contracts (if required), the Assignment and Assumption of Willow Run Lease, the Ren Cen Lease, the VEBA Note and each other agreement or document executed by the Parties pursuant to this Agreement or any of the foregoing and each certificate and other document to be delivered by the Parties pursuant to **ARTICLE VII**.

(d) The following new definition of "Excess Estimated Unsecured Claim Amount" is hereby included in **Section 1.1** of the Purchase Agreement:

"Excess Estimated Unsecured Claim Amount" has the meaning set forth in **Section 3.2(c)(i)**.

(e) The definition of "Permitted Encumbrances" is hereby amended and restated in its entirety to read as follows:

"Permitted Encumbrances" means all (i) purchase money security interests arising in the Ordinary Course of Business; (ii) security interests relating to progress payments created or arising pursuant to government Contracts in the Ordinary Course of Business; (iii) security interests relating to vendor tooling arising in the Ordinary Course of Business; (iv) Encumbrances that have been or may be created by or with the written consent of Purchaser; (v) mechanic's, materialmen's, laborer's, workmen's, repairmen's, carrier's liens and other similar Encumbrances arising by operation of law or statute in the Ordinary Course of Business for amounts that are not delinquent or that are being contested in good faith by appropriate proceedings; (vi) liens for Taxes, the validity or amount of which is being contested in good faith by appropriate proceedings, and statutory liens for current Taxes not yet due, payable or delinquent (or which may be paid without interest or penalties); (vii) with respect to the Transferred Real Property that is Owned Real Property, other than Secured Real Property Encumbrances at and following the Closing: (a) matters that a current ALTA/ACSM survey, or a similar cadastral survey in any country other than the United States, would disclose, the existence of which, individually or in the aggregate, would not materially and adversely interfere with the present use of the affected property; (b) rights of the public, any Governmental Authority and adjoining property owners in streets and highways abutting or adjacent to the applicable Owned Real Property; (c) easements, licenses, rights-of-way, covenants, servitudes, restrictions, encroachments, site plans, subdivision plans and other Encumbrances of public record or that would be disclosed by a current title commitment of the applicable Owned Real Property, which, individually or in the aggregate, would not materially and adversely interfere with the present use

of the applicable Owned Real Property; and (d) such other Encumbrances, the existence of which, individually or in the aggregate, would not materially and adversely interfere with or affect the present use or occupancy of the applicable Owned Real Property; (viii) with respect to the Transferred Real Property that is Leased Real Property: (1) matters that a current ALTA/ACSM survey, or a similar cadastral survey in any country other than the United States, would disclose; (2) rights of the public, any Governmental Authority and adjoining property owners in streets and highways abutting or adjacent to the applicable Leased Real Property; (3) easements, licenses, rights-of-way, covenants, servitudes, restrictions, encroachments, site plans, subdivision plans and other Encumbrances of public record or that would be disclosed by a current title commitment of the applicable Leased Real Property or which have otherwise been imposed on such property by landlords; (ix) in the case of the Transferred Equity Interests, all restrictions and obligations contained in any Organizational Document, joint venture agreement, shareholders agreement, voting agreement and related documents and agreements, in each case, affecting the Transferred Equity Interests; (x) except to the extent otherwise agreed to in the Ratification Agreement entered into by Sellers and GMAC on June 1, 2009 and approved by the Bankruptcy Court on the date thereof or any other written agreement between GMAC or any of its Subsidiaries and any Seller, all Claims (in each case solely to the extent such Claims constitute Encumbrances) and Encumbrances in favor of GMAC or any of its Subsidiaries in, upon or with respect to any property of Sellers or in which Sellers have an interest, including any of the following: (1) cash, deposits, certificates of deposit, deposit accounts, escrow funds, surety bonds, letters of credit and similar agreements and instruments; (2) owned or leased equipment; (3) owned or leased real property; (4) motor vehicles, inventory, equipment, statements of origin, certificates of title, accounts, chattel paper, general intangibles, documents and instruments of dealers, including property of dealers in-transit to, surrendered or returned by or repossessed from dealers or otherwise in any Seller's possession or under its control; (5) property securing obligations of Sellers under derivatives Contracts; (6) rights or property with respect to which a Claim or Encumbrance in favor of GMAC or any of its Subsidiaries is disclosed in any filing made by Parent with the SEC (including any filed exhibit); and (7) supporting obligations, insurance rights and Claims against third parties relating to the foregoing; and (xi) all rights of setoff and/or recoupment that are Encumbrances in favor of GMAC and/or its Subsidiaries against amounts owed to Sellers and/or any of their Subsidiaries with respect to any property of Sellers or in which Sellers have an interest as more fully described in clause (x) above; it being understood that nothing in this clause (xi) or preceding clause (x) shall be deemed to modify, amend or otherwise change any agreement as between GMAC or any of its Subsidiaries and any Seller.

(f) The following new definition of "Purchaser Escrow Funds" is hereby included in **Section 1.1** of the Purchase Agreement:

"Purchaser Escrow Funds" has the meaning set forth in **Section 2.2(a)(xx)**.

(g) **Section 2.2(a)(xii)** of the Purchase Agreement is hereby amended and restated in its entirety to read as follows:

> (xii) all credits, Advanced Technology Credits, deferred charges, prepaid expenses, deposits, advances, warranties, rights, guarantees, surety bonds, letters of credit, trust arrangements and other similar financial arrangements, in each case, relating to the Purchased Assets or Assumed Liabilities, including all warranties, rights and guarantees (whether express or implied) made by suppliers, manufacturers, contractors and other third parties under or in connection with the Purchased Contracts;

(h) **Section 2.2(a)(xviii)** of the Purchase Agreement is hereby amended and restated in its entirety to read as follows:

> (xviii) any rights of any Seller, Subsidiary of any Seller or Seller Group member to any Tax refunds, credits or abatements that relate to any Pre-Closing Tax Period or Straddle Period;

(i) **Section 2.2(a)(xix)** of the Purchase Agreement is hereby amended and restated in its entirety to read as follows:

> (xix) any interest in Excluded Insurance Policies, only to the extent such interest relates to any Purchased Asset or Assumed Liability; and

(j) A new **Section 2.2(a)(xx)** is hereby added to the Purchase Agreement to read as follows:

> (xx) all cash and cash equivalents, including all marketable securities, held in (1) escrow pursuant to, or as contemplated by that certain letter agreement dated as of June 30, 2009, by and between Parent, Citicorp USA, Inc., as Bank Representative, and Citibank, N.A., as Escrow Agent or (2) any escrow established in contemplation or for the purpose of the Closing, that would otherwise constitute a Purchased Asset pursuant to **Section 2.2(a)(i)** (collectively, "Purchaser Escrow Funds");

(k) **Section 2.2(b)(i)** of the Purchase Agreement is hereby amended and restated in its entirety to read as follows:

> (i) cash or cash equivalents in an amount equal to $1,175,000,000 (the "Excluded Cash");

(l) **Section 2.2(b)(ii)** of the Purchase Agreement is hereby amended and restated in its entirety to read as follows:

> (ii) all Restricted Cash exclusively relating to the Excluded Assets or Retained Liabilities, which for the avoidance of doubt, shall not be deemed to include Purchaser Escrow Funds;

(m) **Section 2.3(a)(viii)** of the Purchase Agreement is hereby amended and restated in its entirety to read as follows:

> (viii) all Liabilities arising under any Environmental Law (A) relating to the Transferred Real Property, other than those Liabilities described in **Section 2.3(b)(iv)**, (B) resulting from Purchaser's ownership or operation of the Transferred Real Property after the Closing or (C) relating to Purchaser's failure to comply with Environmental Laws after the Closing;

(n) **Section 2.3(a)(xii)** of the Purchase Agreement is hereby amended and restated in its entirety to read as follows:

> (xii) all Liabilities (A) specifically assumed by Purchaser pursuant to **Section 6.17** or (B) arising out of, relating to or in connection with the salaries and/or wages and vacation of all Transferred Employees that are accrued and unpaid (or with respect to vacation, unused) as of the Closing Date;

(o) **Section 2.3(b)(iv)** of the Purchase Agreement is hereby amended and restated in its entirety to read as follows:

> (iv) all Liabilities (A) associated with noncompliance with Environmental Laws (including for fines, penalties, damages and remedies); (B) arising out of, relating to, in respect of or in connection with the transportation, off-site storage or off-site disposal of any Hazardous Materials generated or located at any Transferred Real Property; (C) arising out of, relating to, in respect of or in connection with third party Claims related to Hazardous Materials that were or are located at or that were Released into the Environment from Transferred Real Property prior to the Closing, except as otherwise required under applicable Environmental Laws; (D) arising under Environmental Laws related to the Excluded Real Property, except as provided under Section 18.2(e) of the Master Lease Agreement or as provided under the "Facility Idling Process" section of Schedule A of the Transition Services Agreement; or (E) for environmental Liabilities with respect to real property formerly owned, operated or leased by Sellers (as of the Closing), which, in the case of clauses (A), (B) and (C), arose prior to or at the Closing, and which, in the case of clause (D) and (E), arise prior to, at or after the Closing;

(p) **Section 2.3(b)(xii)** of the Purchase Agreement is hereby amended and restated in its entirety to read as follows:

> (xii) all workers' compensation Claims with respect to Employees residing or employed in, as the case may be and as defined by applicable Law, the states set forth on **Exhibit G** (collectively, "Retained Workers' Compensation Claims");

(q) **Section 3.2(a)** of the Purchase Agreement is hereby amended and restated in its entirety to read as follows:

(a) The purchase price (the "Purchase Price") shall be equal to the sum of:

(i) a Bankruptcy Code Section 363(k) credit bid in an amount equal to: (A) the amount of Indebtedness of Parent and its Subsidiaries as of the Closing pursuant to the UST Credit Facilities, and (B) the amount of Indebtedness of Parent and its Subsidiaries as of the Closing under the DIP Facility, less $8,247,488,605 of Indebtedness under the DIP Facility (such amount, the "UST Credit Bid Amount");

(ii) the UST Warrant (which the Parties agree has a value of no less than $1,000);

(iii) the valid issuance by Purchaser to Parent of (A) 50,000,000 shares of Common Stock (collectively, the "Parent Shares") and (B) the Parent Warrants; and

(iv) the assumption by Purchaser or its designated Subsidiaries of the Assumed Liabilities.

For the avoidance of doubt, immediately following the Closing, the only indebtedness for borrowed money (or any guarantees thereof) of Sellers and their Subsidiaries to Sponsor, Canada and Export Development Canada is amounts under the Wind Down Facility.

(r) **Section 3.2(c)** of the Purchase Agreement is hereby amended and restated in its entirety to read as follows:

(c)

(i) Sellers may, at any time, seek an Order of the Bankruptcy Court (the "Claims Estimate Order"), which Order may be the Order confirming Sellers' Chapter 11 plan, estimating the aggregate allowed general unsecured claims against Sellers' estates. If in the Claims Estimate Order, the Bankruptcy Court makes a finding that the estimated aggregate allowed general unsecured claims against Sellers' estates exceed $35,000,000,000, then Purchaser will, within five (5) Business Days of entry of the Claims Estimate Order, issue additional shares of Common Stock (the "Adjustment Shares") to Parent, as an adjustment to the Purchase Price, based on the extent by which such estimated aggregate general unsecured claims exceed $35,000,000,000 (such amount, the "Excess Estimated Unsecured Claim Amount;" in the event this amount exceeds $7,000,000,000 the Excess Estimated Unsecured Claim Amount will be reduced to a cap of $7,000,000,000). The number of Adjustment Shares to be issued will be equal to the number of shares, rounded up to the next whole share, calculated by multiplying (i) 10,000,000 shares of Common Stock (adjusted to take into account any stock dividend, stock split, combination of shares, recapitalization, merger, consolidation, reorganization or similar transaction with respect to the

Common Stock, effected from and after the Closing and before issuance of the Adjustment Shares) and (ii) a fraction, (A) the numerator of which is Excess Estimated Unsecured Claim Amount (capped at $7,000,000,000) and (B) the denominator of which is $7,000,000,000.

(ii) At the Closing, Purchaser will have authorized and, thereafter, will reserve for issuance the maximum number of shares of Common Stock issuable as Adjustment Shares.

(s) **Section 6.9(b)** of the Purchase Agreement is hereby amended and restated in its entirety to read as follows:

(b) Sellers shall use reasonable best efforts to agree with Sponsor on the terms of a restructuring of $1,175,000,000 of Indebtedness accrued under the DIP Facility (as restructured, the "Wind Down Facility") to provide for such Wind Down Facility to be non-recourse, to accrue payment-in-kind interest at the Eurodollar Rate (as defined in the Wind-Down Facility) plus 300 basis points, to be secured by all assets of Sellers (other than the Parent Shares, Adjustment Shares, Parent Warrants and any securities or proceeds received in respect thereof). Sellers shall use reasonable best efforts to enter into definitive financing agreements with respect to the Wind Down Facility so that such agreements are in effect as promptly as practicable but in any event no later than the Closing.

(t) **Section 6.17(e)** of the Purchase Agreement is hereby amended and restated in its entirety to read as follows:

(e) *Assumption of Certain Parent Employee Benefit Plans and Policies*. As of the Closing Date, Purchaser or one of its Affiliates shall assume (i) the Parent Employee Benefit Plans and Policies set forth on Section 6.17(e) of the Sellers' Disclosure Schedule as modified thereon, and all assets, trusts, insurance policies and other Contracts relating thereto, except for any that do not comply in all respects with TARP or as otherwise provided in **Section 6.17(h)** and (ii) all employee benefit plans, programs, policies, agreements or arrangements (whether written or oral) in which Employees who are covered by the UAW Collective Bargaining Agreement participate and all assets, trusts, insurance and other Contracts relating thereto (collectively, the "Assumed Plans"), and Sellers and Purchaser shall cooperate with each other to take all actions and execute and deliver all documents and furnish all notices necessary to establish Purchaser or one of its Affiliates as the sponsor of such Assumed Plans including all assets, trusts, insurance policies and other Contracts relating thereto. Other than with respect to any Employee who was or is covered by the UAW Collective Bargaining Agreement, Purchaser shall have no Liability with respect to any modifications or changes to Benefit Plans contemplated by Section 6.17(e) of the Sellers' Disclosure Schedule, or changes made by Parent prior to the Closing Date, and Purchaser shall not assume any Liability with respect to any such decisions or actions related thereto, and Purchaser shall only assume the Liabilities for benefits provided pursuant to the written terms and conditions of

the Assumed Plan as of the Closing Date. Notwithstanding the foregoing, the assumption of the Assumed Plans is subject to Purchaser taking all necessary action, including reduction of benefits, to ensure that the Assumed Plans comply in all respects with TARP. Notwithstanding the foregoing, but subject to the terms of any Collective Bargaining Agreement to which Purchaser or one of its Affiliates is a party, Purchaser and its Affiliates may, in its sole discretion, amend, suspend or terminate any such Assumed Plan at any time in accordance with its terms.

(u) A new **Section 6.17(n)** is hereby added to the Purchase Agreement to read as follows:

(n) *Harlem Employees*. With respect to non-UAW employees of Harlem, Purchaser or one of its Affiliates may make offers of employment to such individuals at its discretion. With respect to UAW-represented employees of Harlem and such other non-UAW employees who accept offers of employment with Purchaser or one of its Affiliates, in addition to obligations under the UAW Collective Bargaining Agreement with respect to UAW-represented employees, Purchaser shall assume all Liabilities arising out of, relating to or in connection with the salaries and/or wages and vacation of all such individuals that are accrued and unpaid (or with respect to vacation, unused) as of the Closing Date. With respect to non-UAW employees of Harlem who accept such offers of employment, Purchaser or one of its Affiliates shall take all actions necessary such that such individuals shall be credited for their actual and credited service with Sellers and each of their respective Affiliates, for purposes of eligibility, vesting and benefit accrual in any employee benefit plans (excluding equity compensation plans or programs) covering such individuals after the Closing; provided, however, that such crediting of service shall not operate to duplicate any benefit to any such individual or the funding for any such benefit. Purchaser or one of its Affiliates, in its sole discretion, may assume certain employee benefit plans maintained by Harlem by delivering written notice (which such notice shall indentify such employee benefit plans of Harlem to be assumed) to Sellers of such assumption on or before the Closing, and upon delivery of such notice, such employee benefit plans shall automatically be deemed to be set forth on Section 6.17(e) of the Sellers' Disclosure Schedules. All such employee benefit plans that are assumed by Purchaser or one of its Affiliates pursuant to the preceding sentence shall be deemed to be Assumed Plans for purposes of this Agreement.

(v) A new **Section 6.36** is hereby added to the Purchase Agreement to read as follows:

Section 6.36 Advanced Technology Credits. The Parties agree that Purchaser shall, to the extent permissible by applicable Law (including all rules, regulations and policies pertaining to Advanced Technology Projects), be entitled to receive full credit for expenditures incurred by Sellers prior to the Closing towards Advanced Technology Projects for the purpose of any current or future program sponsored by a Governmental Authority providing financial assistance in

connection with any such project, including any program pursuant to Section 136 of the Energy Independence and Security Act of 2007 ("Advanced Technology Credits"), and acknowledge that the Purchase Price includes and represents consideration for the full value of such expenditures incurred by Sellers.

(w) **Section 7.2(c)(vi)** of the Purchase Agreement is hereby amended and restated in its entirety to read as follows:

(vi) *[Reserved]*;

(x) **Section 7.2(c)(vii)** of the Purchase Agreement is hereby amended and restated in its entirety to read as follows:

(vii) *[Reserved]*;

(y) **Section 7.3(c)(viii)** of the Purchase Agreement is hereby amended and restated in its entirety to read as follows:

(viii) *[Reserved]*;

(z) **Section 7.3(c)(ix)** of the Purchase Agreement is hereby amended and restated in its entirety to read as follows:

(ix) *[Reserved]*;

(aa) **Section 7.3(f)** of the Purchase Agreement is hereby amended and restated in its entirety to read as follows:

(f) Purchaser shall have (i) offset the UST Credit Bid Amount against the amount of Indebtedness of Parent and its Subsidiaries owed to Purchaser as of the Closing under the UST Credit Facilities and the DIP Facility pursuant to a Bankruptcy Code Section 363(k) credit bid and delivered releases and waivers and related Encumbrance-release documentation (including, if applicable, UCC-3 termination statements) with respect to the UST Credit Bid Amount, in a form reasonably satisfactory to the Parties and duly executed by Purchaser in accordance with the applicable requirements in effect on the date hereof, (ii) transferred to Sellers the UST Warrant and (iii) issued to Parent, in accordance with instructions provided by Parent, the Purchaser Shares and the Parent Warrants (duly executed by Purchaser).

(bb) **Exhibit R** to the Purchase Agreement is hereby deleted in its entirety.

(cc) **Exhibit S** to the Purchase Agreement is hereby deleted in its entirety.

(dd) **Exhibit U** to the Purchase Agreement is hereby replaced in its entirety with **Exhibit U** attached hereto.

(ee) **Exhibit X** to the Purchase Agreement is hereby replaced in its entirety with **Exhibit X** attached hereto.

(ff) Section 2.2(b)(iv) of the Sellers' Disclosure Schedule is hereby replaced in its entirety with Section 2.2(b)(iv) of the Sellers' Disclosure Schedule attached hereto.

(gg) Section 4.4 of the Sellers' Disclosure Schedule is hereby replaced in its entirety with Section 4.4 of the Sellers' Disclosure Schedule attached hereto.

(hh) Section 6.6(a)(i) of the Sellers' Disclosure Schedule is hereby replaced in its entirety with Section 6.6(a)(i) of the Sellers' Disclosure Schedule attached hereto.

Section 3. *Effectiveness of Amendment.* Upon the execution and delivery hereof, the Purchase Agreement shall thereupon be deemed to be amended and restated as set forth in Section 2, as fully and with the same effect as if such amendments and restatements were originally set forth in the Purchase Agreement.

Section 4. *Ratification of Purchase Agreement; Incorporation by Reference.* Except as specifically provided for in this Amendment, the Purchase Agreement is hereby confirmed and ratified in all respects and shall be and remain in full force and effect in accordance with its terms. This Amendment is subject to all of the terms, conditions and limitations set forth in the Purchase Agreement, including **Article IX** thereof, which sections are hereby incorporated into this Amendment, mutatis mutandis, as if they were set forth in their entirety herein.

Section 5. *Counterparts.* This Amendment may be executed in one or more counterparts, each of which shall be deemed an original, and all of which taken together shall constitute one and the same agreement. All signatures of the Parties may be transmitted by facsimile or electronic delivery, and each such facsimile signature or electronic delivery signature (including a pdf signature) will, for all purposes, be deemed to be the original signature of the Party whose signature it reproduces and be binding upon such Party.

Exhibit E

UNITED STATES BANKRUPTCY COURT
SOUTHERN DISTRICT OF NEW YORK

In re	:	**Chapter 11 Case No.**
GENERAL MOTORS CORP., *et al.*,	:	**09-50026 (REG)**
Debtors.	:	**(Jointly Administered)**

ORDER (I) AUTHORIZING SALE OF ASSETS PURSUANT TO AMENDED AND RESTATED MASTER SALE AND PURCHASE AGREEMENT WITH NGMCO, INC., A U.S. TREASURY-SPONSORED PURCHASER; (II) AUTHORIZING ASSUMPTION AND ASSIGNMENT OF CERTAIN EXECUTORY CONTRACTS AND UNEXPIRED LEASES IN CONNECTION WITH THE SALE; AND (III) GRANTING RELATED RELIEF

Upon the motion, dated June 1, 2009 (the "**Motion**"), of General Motors Corporation ("**GM**") and its affiliated debtors, as debtors in possession (collectively, the "**Debtors**"), pursuant to sections 105, 363, and 365 of title 11, United States Code (the "**Bankruptcy Code**") and Rules 2002, 6004, and 6006 of the Federal Rules of Bankruptcy Procedure (the "**Bankruptcy Rules**") for, among other things, entry of an order authorizing and approving (A) that certain Amended and Restated Master Sale and Purchase Agreement, dated as of June 26, 2009, by and among GM and its Debtor subsidiaries (collectively, the "**Sellers**") and NGMCO, Inc., as successor in interest to Vehicle Acquisition Holdings LLC (the "**Purchaser**"), a purchaser sponsored by the United States Department of the Treasury (the "**U.S. Treasury**"), together with all related documents and agreements as well as all exhibits, schedules, and addenda thereto (as amended, the "**MPA**"), a copy of which is annexed hereto as Exhibit "A" (excluding the exhibits and schedules thereto); (B) the sale of the Purchased Assets[1] to the

[1] Capitalized terms used herein and not otherwise defined shall have the meanings ascribed to such terms in the Motion or the MPA.

Purchaser free and clear of liens, claims, encumbrances, and interests (other than Permitted Encumbrances), including rights or claims based on any successor or transferee liability; (C) the assumption and assignment of the Assumable Executory Contracts; (D) the establishment of certain Cure Amounts; and (E) the UAW Retiree Settlement Agreement (as defined below); and the Court having jurisdiction to consider the Motion and the relief requested therein in accordance with 28 U.S.C. §§ 157 and 1334 and the Standing Order M-61 Referring to Bankruptcy Judges for the Southern District of New York of Any and All Proceedings Under Title 11, dated July 10, 1984 (Ward, Acting C.J.); and consideration of the Motion and the relief requested therein being a core proceeding pursuant to 28 U.S.C. § 157(b); and venue being proper before this Court pursuant to 28 U.S.C. §§ 1408 and 1409; and due and proper notice of the Motion having been provided in accordance with this Court's Order, dated June 2, 2009 (the "**Sale Procedures Order**"), and it appearing that no other or further notice need be provided; and a hearing having been held on June 30 through July 2, 2009, to consider the relief requested in the Motion (the "**Sale Hearing**"); and upon the record of the Sale Hearing, including all affidavits and declarations submitted in connection therewith, and all of the proceedings had before the Court; and the Court having reviewed the Motion and all objections thereto (the "**Objections**") and found and determined that the relief sought in the Motion is necessary to avoid immediate and irreparable harm to the Debtors and their estates, as contemplated by Bankruptcy Rule 6003 and is in the best interests of the Debtors, their estates and creditors, and other parties in interest and that the legal and factual bases set forth in the Motion establish just cause for the relief granted herein; and after due deliberation and sufficient cause appearing therefor, it is

FOUND AND DETERMINED THAT:

A. The findings and conclusions set forth herein and in the Court's Decision dated July 5, 2009 (the "**Decision**") constitute the Court's findings of fact and conclusions of law pursuant to Fed. R. Bankr. P. 7052, made applicable to this proceeding pursuant to Fed. R. Bankr. P. 9014.

Formatted: Font: Bold

B. To the extent any of the following findings of fact or Findings of Fact in the Decision constitute conclusions of law, they are adopted as such. To the extent any of the following conclusions of law or Conclusions of Law in the Decision constitute findings of fact, they are adopted as such.

C. This Court has jurisdiction over the Motion, the MPA, and the 363 Transaction pursuant to 28 U.S.C. §§ 157 and 1334, and this matter is a core proceeding pursuant to 28 U.S.C. § 157(b)(2)(A) and (N). Venue of these cases and the Motion in this District is proper under 28 U.S.C. §§ 1408 and 1409.

D. The statutory predicates for the relief sought in the Motion are sections 105(a), 363, and 365 of the Bankruptcy Code as supplemented by Bankruptcy Rules 2002, 6004, and 6006.

E. As evidenced by the affidavits and certificates of service and Publication Notice previously filed with the Court, in light of the exigent circumstances of these chapter 11 cases and the wasting nature of the Purchased Assets and based on the representations of counsel at the Sale Procedures Hearing and the Sale Hearing, (i) proper, timely, adequate, and sufficient notice of the Motion, the Sale Procedures, the 363 Transaction, the procedures for assuming and assigning the Assumable Executory Contracts as described in the Sale Procedures Order and as modified herein (the "**Modified Assumption and Assignment Procedures**"), the UAW Retiree

Settlement Agreement, and the Sale Hearing have been provided in accordance with Bankruptcy Rules 2002(a), 6004(a), and 6006(c) and in compliance with the Sale Procedures Order; (ii) such notice was good and sufficient, reasonable, and appropriate under the particular circumstances of these chapter 11 cases, and reasonably calculated to reach and apprise all holders of liens, claims, encumbrances, and other interests, including rights or claims based on any successor or transferee liability, about the Sale Procedures, the sale of the Purchased Assets, the 363 Transaction, and the assumption and assignment of the Assumable Executory Contracts, and to reach all UAW-Represented Retirees about the UAW Retiree Settlement Agreement and the terms of that certain Letter Agreement, dated May 29, 2009, between GM, the International Union, United Automobile, Aerospace and Agricultural Implement Workers of America (the "**UAW**"), and Stember, Feinstein, Doyle & Payne, LLC (the "**UAW Claims Agreement**") relating thereto; and (iii) no other or further notice of the Motion, the 363 Transaction, the Sale Procedures, the Modified Assumption and Assignment Procedures, the UAW Retiree Settlement Agreement, the UAW Claims Agreement, and the Sale Hearing or any matters in connection therewith is or shall be required. With respect to parties who may have claims against the Debtors, but whose identities are not reasonably ascertainable by the Debtors (including, but not limited to, potential contingent warranty claims against the Debtors), the Publication Notice was sufficient and reasonably calculated under the circumstances to reach such parties.

F. On June 1, 2009, this Court entered the Sale Procedures Order approving the Sale Procedures for the Purchased Assets. The Sale Procedures provided a full, fair, and reasonable opportunity for any entity to make an offer to purchase the Purchased Assets. The Debtors received no bids under the Sale Procedures for the Purchased Assets. Therefore, the Purchaser's bid was designated as the Successful Bid pursuant to the Sale Procedures Order.

G. As demonstrated by (i) the Motion, (ii) the testimony and other evidence proffered or adduced at the Sale Hearing, and (iii) the representations of counsel made on the record at the Sale Hearing, in light of the exigent circumstances presented, (a) the Debtors have adequately marketed the Purchased Assets and conducted the sale process in compliance with the Sale Procedures Order; (b) a reasonable opportunity has been given to any interested party to make a higher or better offer for the Purchased Assets; (c) the consideration provided for in the MPA constitutes the highest or otherwise best offer for the Purchased Assets and provides fair and reasonable consideration for the Purchased Assets; (d) the 363 Transaction is a sale of deteriorating assets and the only alternative to liquidation available for the Debtors; (e) if the 363 Transaction is not approved, the Debtors will be forced to cease operations altogether; (f) the failure to approve the 363 Transaction promptly will lead to systemic failure and dire consequences, including the loss of hundreds of thousands of auto-related jobs; (g) prompt approval of the 363 Transaction is the only means to preserve and maximize the value of the Debtors' assets; (h) the 363 Transaction maximizes fair value for the Debtors' parties in interest; (i) the Debtors are receiving fair value for the assets being sold; (j) the 363 Transaction will provide a greater recovery for the Debtors' creditors than would be provided by any other practical available alternative, including liquidation under chapters 7 or 11 of the Bankruptcy Code; (k) no other entity has offered to purchase the Purchased Assets for greater economic value to the Debtors or their estates; (l) the consideration to be paid by the Purchaser under the MPA exceeds the liquidation value of the Purchased Assets; and (m) the Debtors' determination that the MPA constitutes the highest or best offer for the Purchased Assets and that the 363 Transaction represents a better alternative for the Debtors' parties in interest than an immediate liquidation constitute valid and sound exercises of the Debtors' business judgment.

H. The actions represented to be taken by the Sellers and the Purchaser are appropriate under the circumstances of these chapter 11 cases and are in the best interests of the Debtors, their estates and creditors, and other parties in interest.

I. Approval of the MPA and consummation of the 363 Transaction at this time is in the best interests of the Debtors, their creditors, their estates, and all other parties in interest.

J. The Debtors have demonstrated compelling circumstances and a good, sufficient, and sound business purpose and justification for the sale of the Purchased Assets pursuant to the 363 Transaction prior to, and outside of, a plan of reorganization and for the immediate approval of the MPA and the 363 Transaction because, among other things, the Debtors' estates will suffer immediate and irreparable harm if the relief requested in the Motion is not granted on an expedited basis. In light of the exigent circumstances of these chapter 11 cases and the risk of deterioration in the going concern value of the Purchased Assets pending the 363 Transaction, time is of the essence in (i) consummating the 363 Transaction, (ii) preserving the viability of the Debtors' businesses as going concerns, and (iii) minimizing the widespread and adverse economic consequences for the Debtors, their estates, their creditors, employees, the automotive industry, and the national economy that would be threatened by protracted proceedings in these chapter 11 cases.

K. The consideration provided by the Purchaser pursuant to the MPA (i) is fair and reasonable, (ii) is the highest and best offer for the Purchased Assets, (iii) will provide a greater recovery to the Debtors' estates than would be provided by any other available alternative, and (iv) constitutes reasonably equivalent value and fair consideration under the Bankruptcy Code and under the laws of the United States, any state, territory, possession, or the District of Columbia.

L. The 363 Transaction must be approved and consummated as promptly as practicable in order to preserve the viability of the business to which the Purchased Assets relate as a going concern.

M. The MPA was not entered into and none of the Debtors, the Purchaser, or the Purchasers' present or contemplated owners have entered into the MPA or propose to consummate the 363 Transaction for the purpose of hindering, delaying, or defrauding the Debtors' present or future creditors. None of the Debtors, the Purchaser, nor the Purchaser's present or contemplated owners is entering into the MPA or proposing to consummate the 363 Transaction fraudulently for the purpose of statutory and common law fraudulent conveyance and fraudulent transfer claims whether under the Bankruptcy Code or under the laws of the United States, any state, territory, or possession thereof, or the District of Columbia, or any other applicable jurisdiction with laws substantially similar to any of the foregoing.

N. In light of the extensive prepetition negotiations culminating in the MPA, the Purchaser's commitment to consummate the 363 Transaction is clear without the need to provide a good faith deposit.

O. Each Debtor (i) has full corporate power and authority to execute the MPA and all other documents contemplated thereby, and the sale of the Purchased Assets has been duly and validly authorized by all necessary corporate action of each of the Debtors, (ii) has all of the corporate power and authority necessary to consummate the transactions contemplated by the MPA, (iii) has taken all corporate action necessary to authorize and approve the MPA and the consummation by the Debtors of the transactions contemplated thereby, and (iv) subject to entry of this Order, needs no consents or approvals, other than those expressly provided for in the MPA which may be waived by the Purchaser, to consummate such transactions.

P. The consummation of the 363 Transaction outside of a plan of reorganization pursuant to the MPA neither impermissibly restructures the rights of the Debtors' creditors, allocates or distributes any of the sale proceeds, nor impermissibly dictates the terms of a liquidating plan of reorganization for the Debtors. The 363 Transaction does not constitute a *sub rosa* plan of reorganization. The 363 Transaction in no way dictates distribution of the Debtors' property to creditors and does not impinge upon any chapter 11 plan that may be confirmed.

Q. The MPA and the 363 Transaction were negotiated, proposed, and entered into by the Sellers and the Purchaser without collusion, in good faith, and from arm's-length bargaining positions. Neither the Sellers, the Purchaser, the U.S. Treasury, nor their respective agents, officials, personnel, representatives, and advisors, has engaged in any conduct that would cause or permit the MPA to be avoided under 11 U.S.C. § 363(n).

R. The Purchaser is a newly-formed Delaware corporation that, as of the date of the Sale Hearing, is wholly-owned by the U.S. Treasury. The Purchaser is a good faith purchaser under section 363(m) of the Bankruptcy Code and, as such, is entitled to all of the protections afforded thereby.

S. Neither the Purchaser, the U.S. Treasury, nor their respective agents, officials, personnel, representatives, or advisors is an "insider" of any of the Debtors, as that term is defined in section 101(31) of the Bankruptcy Code.

T. Upon the Closing of the 363 Transaction, the Debtors will transfer to the Purchaser substantially all of its assets. In exchange, the Purchaser will provide the Debtors with (i) cancellation of billions of dollars in secured debt; (ii) assumption by the Purchaser of a portion of the Debtors' business obligations and liabilities that the Purchaser will satisfy; and (iii) no less than 10% of the Common Stock of the Purchaser as of the Closing (100% of which the

Debtors' retained financial advisor values at between $38 billion and $48 billion) and warrants to purchase an additional 15% of the Common Stock of the Purchaser as of the Closing, the combination of which the Debtors' retained financial advisor values at between $7.4 billion and $9.8 billion (which amount, for the avoidance of doubt, does not include any amount for the Adjustment Shares).

U. The Purchaser, not the Debtors, has determined its ownership composition and capital structure. The Purchaser will assign ownership interests to certain parties based on the Purchaser's belief that the transfer is necessary to conduct its business going forward, that the transfer is to attain goodwill and consumer confidence for the Purchaser and to increase the Purchaser's sales after completion of the 363 Transaction. The assignment by the Purchaser of ownership interests is neither a distribution of estate assets, discrimination by the Debtors on account of prepetition claims, nor the assignment of proceeds from the sale of the Debtors' assets. The assignment of equity to the New VEBA (as defined in the UAW Retiree Settlement Agreement) and 7176384 Canada Inc. is the product of separately negotiated arm's-length agreements between the Purchaser and its equity holders and their respective representatives and advisors. Likewise, the value that the Debtors will receive on consummation of the 363 Transaction is the product of arm's-length negotiations between the Debtors, the Purchaser, the U.S. Treasury, and their respective representatives and advisors.

V. The U.S. Treasury and Export Development Canada ("**EDC**"), on behalf of the Governments of Canada and Ontario, have extended credit to, and acquired a security interest in, the assets of the Debtors as set forth in the DIP Facility and as authorized by the interim and final orders approving the DIP Facility (Docket Nos. 292 and 2529, respectively). Before entering into the DIP Facility and the Loan and Security Agreement, dated as of December 31, 2008 (the "**Existing UST Loan Agreement**"), the Secretary of the Treasury, in

consultation with the Chairman of the Board of Governors of the Federal Reserve System and as communicated to the appropriate committees of Congress, found that the extension of credit to the Debtors is "necessary to promote financial market stability," and is a valid use of funds pursuant to the statutory authority granted to the Secretary of the Treasury under the Emergency Economic Stabilization Act of 2008, 12 U.S.C. §§ 5201 et seq. ("**EESA**"). The U.S. Treasury's extension of credit to, and resulting security interest in, the Debtors, as set forth in the DIP Facility and the Existing UST Loan Agreement and as authorized in the interim and final orders approving the DIP Facility, is a valid use of funds pursuant to EESA.

W. The DIP Facility and the Existing UST Loan Agreement are loans and shall not be recharacterized. The Court has already approved the DIP Facility. The Existing UST Loan Agreement bears the undisputed hallmarks of a loan, not an equity investment. Among other things:

(i) The U.S. Treasury structured its prepetition transactions with GM as (a) a loan, made pursuant to and governed by the Existing UST Loan Agreement, in addition to (b) a separate, and separately documented, equity component in the form of warrants;

(ii) The Existing UST Loan Agreement has customary terms and covenants of a loan rather than an equity investment. For example, the Existing UST Loan Agreement contains provisions for repayment and pre-payment, and provides for remedies in the event of a default;

(iii) The Existing UST Loan Agreement is secured by first liens (subject to certain permitted encumbrances) on GM's and the guarantors' equity interests in most of their domestic subsidiaries and certain of their foreign subsidiaries (limited in most cases to 65% of the equity interests of the pledged foreign subsidiaries), intellectual property, domestic real estate (other than manufacturing plants or facilities) inventory that was not pledged to other lenders, and cash and cash equivalents in the United States;

(iv) The U.S. Treasury also received junior liens on certain additional collateral, and thus, its claim for recovery on such collateral under the Existing UST Loan Agreement is, in part, junior to the claims of other creditors;

(v) the Existing UST Loan Agreement requires the grant of security by its terms, as well as by separate collateral documents, including: (a) a guaranty and

security agreement, (b) an equity pledge agreement, (c) mortgages and deeds of trust, and (d) an intellectual property pledge agreement;

(vi) Loans under the Existing UST Loan Agreement are interest-bearing with a rate of 3.00% over the 3-month LIBOR with a LIBOR floor of 2.00%. The Default Rate on this loan is 5.00% above the non-default rate.

(vii) The U.S. Treasury always treated the loans under the Existing UST Loan Agreement as debt, and advances to GM under the Existing Loan Agreement were conditioned upon GM's demonstration to the United States Government of a viable plan to regain competitiveness and repay the loans.

(viii) The U.S. Treasury has acted as a prudent lender seeking to protect its investment and thus expressly conditioned its financial commitment upon GM's meaningful progress toward long-term viability.

Other secured creditors of the Debtors also clearly recognized the loans under the Existing UST Loan Agreement as debt by entering into intercreditor agreements with the U.S. Treasury in order to set forth the secured lenders' respective prepetition priority.

X. This Court has previously authorized the Purchaser to credit bid the amounts owed under both the DIP Facility and the Existing UST Loan Agreement and held the Purchaser's credit bid to be, for all purposes, a "Qualified Bid" under the Sale Procedures Order.

Y. The Debtors, the Purchaser, and the UAW, as the exclusive collective bargaining representative of the Debtors' UAW-represented employees and the authorized representative of the persons in the Class and the Covered Group (as described in the UAW Retiree Settlement Agreement) (the "**UAW-Represented Retirees**") under section 1114(c) of the Bankruptcy Code, engaged in good faith negotiations in conjunction with the 363 Transaction regarding the funding of "retiree benefits" within the meaning of section 1114(a) of the Bankruptcy Code and related matters. Conditioned upon the consummation of the 363 Transaction and the approval of the Bankruptcy Court granted in this Order, the Purchaser and the UAW will enter into that certain Retiree Settlement Agreement, dated as of the Closing Date (the "**UAW Retiree Settlement Agreement**"), which is Exhibit D to the MPA, which resolves

issues with respect to the provision of certain retiree benefits to UAW-Represented Retirees as described in the UAW Retiree Settlement Agreement. As set forth in the UAW Retiree Settlement Agreement, the Purchaser has agreed to make contributions of cash, stock, and warrants of the Purchaser to the New VEBA (as defined in the UAW Retiree Settlement Agreement), which will have the obligation to fund certain health and welfare benefits for the UAW-Represented Retirees. The New VEBA will also be funded by the transfer of assets from the Existing External VEBA and the assets in the UAW Related Account of the Existing Internal VEBA (each as defined in the UAW Retiree Settlement Agreement). GM and the UAW, as the authorized representative of the UAW-Represented Retirees, as well as the representatives for the class of plaintiffs in a certain class action against GM (the "**Class Representatives**"), through class counsel, Stemper, Feinstein, Doyle and Payne LLC ("**Class Counsel**"), negotiated in good faith the UAW Claims Agreement, which requires the UAW and the Class Representatives to take actions to effectuate the withdrawal of certain claims against the Debtors, among others, relating to retiree benefits in the event the 363 Transaction is consummated and the Bankruptcy Court approves, and the Purchaser becomes fully bound by, the UAW Retiree Settlement Agreement, subject to reinstatement of such claims to the extent of any adverse impact to the rights or benefits of UAW-Represented Retirees under the UAW Retiree Settlement Agreement resulting from any reversal or modification of the 363 Transaction, the UAW Retiree Settlement Agreement, or the approval of the Bankruptcy Court thereof, the foregoing as subject to the terms of, and as set forth in, the UAW Claims Agreement.

Z. Effective as of the Closing of the 363 Transaction, the Debtors will assume and assign to the Purchaser the UAW Collective Bargaining Agreement and all liabilities thereunder. The Debtors, the Purchaser, the UAW and Class Representatives intend that their actions in connection with the UAW Retiree Settlement Agreement and related undertakings

incorporate the compromise of certain claims and rights and shall be deemed to satisfy the requirements of 29 U.S.C. § 186(c)(2).

AA. The transfer of the Purchased Assets to the Purchaser will be a legal, valid, and effective transfer of the Purchased Assets and, except for the Assumed Liabilities, will vest the Purchaser with all right, title, and interest of the Sellers to the Purchased Assets free and clear of liens, claims, encumbrances, and other interests (other than Permitted Encumbrances), including rights or claims (for purposes of this Order, the term "claim" shall have the meaning ascribed to such term in section 101(5) of the Bankruptcy Code) based on any successor or transferee liability, including, but not limited to (i) those that purport to give to any party a right or option to effect any forfeiture, modification, right of first refusal, or termination of the Sellers' or the Purchaser's interest in the Purchased Assets, or any similar rights and (ii) (a) those arising under all mortgages, deeds of trust, security interests, conditional sale or other title retention agreements, pledges, liens, judgments, demands, encumbrances, rights of first refusal or charges of any kind or nature, if any, including, but not limited to, any restriction on the use, voting, transfer, receipt of income, or other exercise of any attributes of ownership and (b) all claims arising in any way in connection with any agreements, acts, or failures to act, of any of the Sellers or any of the Sellers' predecessors or affiliates, whether known or unknown, contingent or otherwise, whether arising prior to or subsequent to the commencement of these chapter 11 cases, and whether imposed by agreement, understanding, law, equity or otherwise, including, but not limited to, claims otherwise arising under doctrines of successor or transferee liability.

BB. The Sellers may sell the Purchased Assets free and clear of all liens, claims, encumbrances, and other interests of any kind or nature whatsoever (other than Permitted Encumbrances), including rights or claims based on any successor or transferee liability, because, in each case, one or more of the standards set forth in section 363(f)(1)-(5) of the

Bankruptcy Code has been satisfied. Those (i) holders of liens, claims, encumbrances, and other interests, including rights or claims based on any successor or transferee liability, and (ii) non-Debtor parties to the Assumable Executory Contracts who did not object, or who withdrew their Objections, to the 363 Transaction or the Motion are deemed to have consented pursuant to section 363(f)(2) of the Bankruptcy Code. Those (i) holders of liens, claims, and encumbrances, and (ii) non-Debtor parties to the Assumable Executory Contracts who did object, fall within one or more of the other subsections of section 363(f) of the Bankruptcy Code and, to the extent they have valid and enforceable liens or encumbrances, are adequately protected by having such liens or encumbrances, if any, attach to the proceeds of the 363 Transaction ultimately attributable to the property against or in which they assert a lien or encumbrance. To the extent liens or encumbrances secure liabilities that are Assumed Liabilities under this Order and the MPA, no such liens or encumbrances shall attach to the proceeds of the 363 Transaction.

CC. Under the MPA, GM is transferring all of its right, title, and interest in the Memphis, TN SPO Warehouse and the White Marsh, MD Allison Transmission Plant (the "**TPC Property**") to the Purchaser pursuant to section 363(f) of the Bankruptcy Code free and clear of all liens (including, without limitation, the TPC Liens (as hereinafter defined)), claims, interests, and encumbrances (other than Permitted Encumbrances). For purposes of this Order, "**TPC Liens**" shall mean and refer to any liens on the TPC Property granted or extended pursuant to the TPC Participation Agreement and any claims relating to that certain Second Amended and Restated Participation Agreement and Amendment of Other Operative Documents (the "**TPC Participation Agreement**"), dated as of June 30, 2004, among GM, as Lessee, Wilmington Trust Company, a Delaware corporation, not in its individual capacity except as expressly stated herein but solely as Owner Trustee (the "**TPC Trustee**") under GM Facilities Trust No. 1999-I (the "**TPC Trust**"), as Lessor, GM, as Certificate Holder, Hannover Funding Company LLC, as

CP Lender, Wells Fargo Bank Northwest, N.A., as Agent, Norddeutsche Landesbank Girozentrale (New York Branch), as Administrator, and Deutsche Bank, AG, New York Branch, HSBC Bank USA, ABN AMRO Bank N.V., Royal Bank of Canada, Bank of America, N.A., Citicorp USA, Inc., Merrill Lynch Bank USA, Morgan Stanley Bank, collectively, as Purchasers (collectively, with CP Lender, Agent and Administrator, the "**TPC Lenders**"), together with the Operative Documents (as defined in the TPC Participation Agreements (the "**TPC Operative Documents**").

DD. The Purchaser would not have entered into the MPA and would not consummate the 363 Transaction (i) if the sale of the Purchased Assets was not free and clear of all liens, claims, encumbrances, and other interests (other than Permitted Encumbrances), including rights or claims based on any successor or transferee liability or (ii) if the Purchaser would, or in the future could, be liable for any such liens, claims, encumbrances, and other interests, including rights or claims based on any successor or transferee liability (collectively, the "**Retained Liabilities**"), other than, in each case, the Assumed Liabilities. The Purchaser will not consummate the 363 Transaction unless this Court expressly orders that none of the Purchaser, its affiliates, their present or contemplated members or shareholders (other than the Debtors as the holder of equity in the Purchaser), or the Purchased Assets will have any liability whatsoever with respect to, or be required to satisfy in any manner, whether at law or equity, or by payment, setoff, or otherwise, directly or indirectly, any liens, claims, encumbrances, and other interests, including rights or claims based on any successor or transferee liability or Retained Liabilities, other than as expressly provided herein or in agreements made by the Debtors and/or the Purchaser on the record at the Sale Hearing or in the MPA.

EE. The Debtors have demonstrated that it is an exercise of their sound business judgment to assume and assign the Purchased Contracts to the Purchaser in connection

with the consummation of the 363 Transaction, and the assumption and assignment of the Purchased Contracts is in the best interests of the Debtors, their estates and creditors, and other parties in interest. The Purchased Contracts being assigned to, and the liabilities being assumed by, the Purchaser are an integral part of the Purchased Assets being purchased by the Purchaser, and, accordingly, such assumption and assignment of the Purchased Contracts and liabilities are reasonable, enhance the value of the Debtors' estates, and do not constitute unfair discrimination.

FF. For the avoidance of doubt, and notwithstanding anything else in this Order to the contrary:

- The Debtors are neither assuming nor assigning to the Purchaser the agreement to provide certain retiree medical benefits specified in (i) the Memorandum of Understanding Post-Retirement Medical Care, dated September 26, 2007, between the Company and the UAW, and (ii) the Settlement Agreement, dated February 21, 2008, between the Company and the UAW (together, the "**VEBA Settlement Agreement**");

- at the Closing, and in accordance with the MPA, the UAW Collective Bargaining Agreement, and all liabilities thereunder, shall be assumed by the Debtors and assigned to the Purchaser pursuant to section 365 of the Bankruptcy Code. Assumption and assignment of the UAW Collective Bargaining Agreement is integral to the 363 Transaction and the MPA, are in the best interests of the Debtors and their estates, creditors, employees, and retirees, and represent the exercise of the Debtors' sound business judgment, enhances the value of the Debtors' estates, and does not constitute unfair discrimination;

- the UAW, as the exclusive collective bargaining representative of employees of the Purchaser and the "authorized representative" of the UAW-Represented Retirees under section 1114(c) of the Bankruptcy Code, GM, and the Purchaser engaged in good faith negotiations in conjunction with the 363 Transaction regarding the funding of retiree health benefits within the meaning of section 1114(a) of the Bankruptcy Code. Conditioned upon the consummation of the 363 Transaction, the UAW and the Purchaser have entered into the UAW Retiree Settlement Agreement, which, among other things, provides for the financing by the Purchaser of modified retiree health care obligations for the Class and Covered Group (as defined in the UAW Retiree Settlement Agreement) through contributions by the Purchaser (as referenced in paragraph Y herein). The New VEBA will also be funded by the transfer of the UAW Related Account from the Existing Internal VEBA and the assets of the Existing External VEBA to the New VEBA (each as defined in the UAW Retiree Settlement Agreement). The Debtors, the

Purchaser, and the UAW specifically intend that their actions in connection with the UAW Retiree Settlement Agreement and related undertakings incorporate the compromise of certain claims and rights and shall be deemed to satisfy the requirements of 29 U.S.C. § 186(c)(2);

- the Debtors' sponsorship of the Existing Internal VEBA (as defined in the UAW Retiree Settlement Agreement) shall be transferred to the Purchaser under the MPA.

GG. The Debtors have (i) cured and/or provided adequate assurance of cure (through the Purchaser) of any default existing prior to the date hereof under any of the Purchased Contracts that have been designated by the Purchaser for assumption and assignment under the MPA, within the meaning of section 365(b)(1)(A) of the Bankruptcy Code, and (ii) provided compensation or adequate assurance of compensation through the Purchaser to any party for any actual pecuniary loss to such party resulting from a default prior to the date hereof under any of the Purchased Contracts, within the meaning of section 365(b)(1)(B) of the Bankruptcy Code, and the Purchaser has provided adequate assurance of future performance under the Purchased Contracts, within the meaning of section 365(b)(1)(C) of the Bankruptcy Code. The Modified Assumption and Assignment Procedures are fair, appropriate, and effective and, upon the payment by the Purchaser of all Cure Amounts (as hereinafter defined) and approval of the assumption and assignment for a particular Purchased Contract thereunder, the Debtors shall be forever released from any and all liability under the Purchased Contracts.

HH. The Debtors are the sole and lawful owners of the Purchased Assets, and no other person has any ownership right, title, or interest therein. The Debtors' non-Debtor Affiliates have acknowledged and agreed to the 363 Transaction and, as required by, and in accordance with, the MPA and the Transition Services Agreement, transferred any legal, equitable, or beneficial right, title, or interest they may have in or to the Purchased Assets to the Purchaser.

II. The Debtors currently maintain certain privacy policies that govern the use of "personally identifiable information" (as defined in section 101(41A) of the Bankruptcy Code) in conducting their business operations. The 363 Transaction may contemplate the transfer of certain personally identifiable information to the Purchaser in a manner that may not be consistent with certain aspects of their existing privacy policies. Accordingly, on June 2, 2009, the Court directed the U.S. Trustee to promptly appoint a consumer privacy ombudsman in accordance with section 332 of the Bankruptcy Code, and such ombudsman was appointed on June 10, 2009. The Privacy Ombudsman is a disinterested person as required by section 332(a) of the Bankruptcy Code. The Privacy Ombudsman filed his report with the Court on July 1, 2009 (Docket No. 2873) (the "**Ombudsman Report**") and presented his report at the Sale Hearing, and the Ombudsman Report has been reviewed and considered by the Court. The Court has given due consideration to the facts, including the exigent circumstances surrounding the conditions of the sale of personally identifiable information in connection with the 363 Transaction. No showing has been made that the sale of personally identifiable information in connection with the 363 Transaction in accordance with the provisions of this Order violates applicable nonbankruptcy law, and the Court concludes that such sale is appropriate in conjunction with the 363 Transaction.

JJ. Pursuant to Section 6.7(a) of the MPA, GM offered Wind-Down Agreements and Deferred Termination Agreements (collectively, the "**Deferred Termination Agreements**") in forms prescribed by the MPA to franchised motor vehicle dealers, including dealers authorized to sell and service vehicles marketed under the Pontiac brand (which is being discontinued), dealers authorized to sell and service vehicles marketed under the Hummer, Saturn and Saab brands (which may or may not be discontinued depending on whether the brands are sold to third parties) and dealers authorized to sell and service vehicles marketed

under brands which will be continued by the Purchaser. The Deferred Termination Agreements were offered as an alternative to rejection of the existing Dealer Sales and Service Agreements of these dealers pursuant to section 365 of the Bankruptcy Code and provide substantial additional benefits to dealers which enter into such agreements. Approximately 99% of the dealers offered Deferred Termination Agreements accepted and executed those agreements and did so for good and sufficient consideration.

KK. Pursuant to Section 6.7(b) of the MPA, GM offered Participation Agreements in the form prescribed by the MPA to dealers identified as candidates for a long term relationship with the Purchaser. The Participation Agreements provide substantial benefits to accepting dealers, as they grant the opportunity for such dealers to enter into a potentially valuable relationship with the Purchaser as a component of a reduced and more efficient dealer network. Approximately 99% of the dealers offered Participation Agreements accepted and executed those agreements.

LL. This Order constitutes approval of the UAW Retiree Settlement Agreement and the compromise and settlement embodied therein.

MM. This Order constitutes a final order within the meaning of 28 U.S.C. § 158(a). Consistent with Bankruptcy Rules 6004(h) and 6006(d), the Court expressly finds that there is no just reason for delay in the implementation of this Order to the full extent to which those rules provide, but that its Order should not become effective instantaneously. Thus the Court will shorten, but not wholly eliminate, the periods set forth in Fed.R.Bankr.P. 6004(h) and 6006, and expressly directs entry of judgment as set forth in accordance with the provisions of Paragraph 70 below.

Deleted: Notwithstanding

Deleted: herein

NOW THEREFORE, IT IS HEREBY ORDERED, ADJUDGED, AND DECREED THAT:

General Provisions

1. The Motion is granted as provided herein, and entry into and performance under, and in respect of, the MPA and the 363 Transaction is approved.

2. All Objections to the Motion or the relief requested therein that have not been withdrawn, waived, settled, or resolved, and all reservation of rights included in such Objections, are overruled on the merits other than a continuing Objection (each a "**Limited Contract Objection**") that does not contest or challenge the merits of the 363 Transaction and that is limited to (a) contesting a particular Cure Amount(s) (a "**Cure Objection**"), (b) determining whether a particular Assumable Executory Contract is an executory contract that may be assumed and/or assigned under section 365 of the Bankruptcy Code, and/or (c) challenging, as to a particular Assumable Executory Contract, whether the Debtors have assumed, or are attempting to assume, such contract in its entirety or whether the Debtors are seeking to assume only part of such contract. A Limited Contract Objection shall include, until resolved, a dispute regarding any Cure Amount that is subject to resolution by the Bankruptcy Court , or pursuant to the dispute resolution procedures established by the Sale Procedures Order or pursuant to agreement of the parties, including agreements under which an objection to the Cure Amount was withdrawn in connection with a reservation of rights under such dispute resolution procedures. Limited Contract Objections shall not constitute objections to the 363 Transaction, and to the extent such Limited Contract Objections remain continuing objections to be resolved before the Court, the hearing to consider each such Limited Contract Objection shall be adjourned to August 3, 2009 at 9:00a.m. (the "**Limited Contract Objection Hearing**"). Within two (2) business days of the entry of this Order, the Debtors shall serve upon each of the counterparties to the remaining Limited Contract Objections a notice of the Limited Contract Objection Hearing. The Debtors or any party that withdraws, or has withdrawn, a Limited

Contract Objection without prejudice shall have the right, unless it has agreed otherwise, to schedule the hearing to consider a Limited Contract Objection on not less than fifteen (15) days notice to the Debtors, the counterparties to the subject Assumable Executory Contracts, the Purchaser, and the Creditors' Committee, or within such other time as otherwise may be agreed by the parties.

Approval of the MPA

3. The MPA, all transactions contemplated thereby, and all the terms and conditions thereof (subject to any modifications contained herein) are approved. If there is any conflict between the MPA, the Sale Procedures Order, and this Order, this Order shall govern.

4. Pursuant to sections 105, 363, and 365 of the Bankruptcy Code, the Debtors are authorized to perform their obligations under, and comply with the terms of, the MPA and consummate the 363 Transaction pursuant to, and in accordance with, the terms and provisions of the MPA and this Order.

5. The Debtors are authorized and directed to execute and deliver, and empowered to perform under, consummate, and implement, the MPA, together with all additional instruments and documents that the Sellers or the Purchaser deem necessary or appropriate to implement the MPA and effectuate the 363 Transaction, and to take all further actions as may reasonably be required by the Purchaser for the purpose of assigning, transferring, granting, conveying, and conferring to the Purchaser or reducing to possession the Purchased Assets or as may be necessary or appropriate to the performance of the obligations as contemplated by the MPA.

6. This Order and the MPA shall be binding in all respects upon the Debtors, their affiliates, all known and unknown creditors of, and holders of equity security interests in, any Debtor, including any holders of liens, claims, encumbrances, or other interests, including

rights or claims based on any successor or transferee liability, all non-Debtor parties to the Assumable Executory Contracts, all successors and assigns of the Purchaser, each Seller and their Affiliates and subsidiaries, the Purchased Assets, all interested parties, their successors and assigns, and any trustees appointed in the Debtors' chapter 11 cases or upon a conversion of any of such cases to cases under chapter 7 of the Bankruptcy Code and shall not be subject to rejection. Nothing contained in any chapter 11 plan confirmed in any of the Debtors' chapter 11 cases or the order confirming any such chapter 11 plan shall conflict with or derogate from the provisions of the MPA or this Order.

Transfer of Purchased Assets Free and Clear

7. Except for the Assumed Liabilities, pursuant to sections 105(a) and 363(f) of the Bankruptcy Code, the Purchased Assets shall be transferred to the Purchaser in accordance with the MPA, and, upon the Closing, shall be free and clear of all liens, claims, encumbrances, and other interests of any kind or nature whatsoever (other than Permitted Encumbrances), including rights or claims based on any successor or transferee liability, and all such liens, claims, encumbrances, and other interests, including rights or claims based on any successor or transferee liability, shall attach to the net proceeds of the 363 Transaction in the order of their priority, with the same validity, force, and effect that they now have as against the Purchased Assets, subject to any claims and defenses a Seller or any other party in interest may possess with respect thereto.

8. Except as expressly permitted or otherwise specifically provided by the MPA or this Order, all persons and entities, including, but not limited to, all debt security holders, equity security holders, governmental, tax, and regulatory authorities, lenders, trade creditors, dealers, employees, litigation claimants, and other creditors, holding liens, claims, encumbrances, and other interests of any kind or nature whatsoever, including rights or claims

based on any successor or transferee liability, against or in a Seller or the Purchased Assets (whether legal or equitable, secured or unsecured, matured or unmatured, contingent or noncontingent, senior or subordinated), arising under or out of, in connection with, or in any way relating to, the Sellers, the Purchased Assets, the operation of the Purchased Assets prior to the Closing, or the 363 Transaction, are forever barred, estopped, and permanently enjoined (with respect to future claims or demands based on exposure to asbestos, to the fullest extent constitutionally permissible) from asserting against the Purchaser, its successors or assigns, its property, or the Purchased Assets, such persons' or entities' liens, claims, encumbrances, and other interests, including rights or claims based on any successor or transferee liability.

9. This Order (a) shall be effective as a determination that, as of the Closing, (i) no claims other than Assumed Liabilities, will be assertable against the Purchaser, its affiliates, their present or contemplated members or shareholders, successors, or assigns, or any of their respective assets (including the Purchased Assets); (ii) the Purchased Assets shall have been transferred to the Purchaser free and clear of all claims (other than Permitted Encumbrances); and (iii) the conveyances described herein have been effected; and (b) is and shall be binding upon and govern the acts of all entities, including, without limitation, all filing agents, filing officers, title agents, title companies, recorders of mortgages, recorders of deeds, registrars of deeds, registrars of patents, trademarks, or other intellectual property, administrative agencies, governmental departments, secretaries of state, federal and local officials, and all other persons and entities who may be required by operation of law, the duties of their office, or contract, to accept, file, register, or otherwise record or release any documents or instruments, or who may be required to report or insure any title or state of title in or to any lease; and each of the foregoing persons and entities is directed to accept for filing any and all of the documents

and instruments necessary and appropriate to consummate the transactions contemplated by the MPA.

10. The transfer of the Purchased Assets to the Purchaser pursuant to the MPA constitutes a legal, valid, and effective transfer of the Purchased Assets and shall vest the Purchaser with all right, title, and interest of the Sellers in and to the Purchased Assets free and clear of all liens, claims, encumbrances, and other interests of any kind or nature whatsoever (other than Permitted Encumbrances), including rights or claims based on any successor or transferee liability, other than the Assumed Liabilities.

11. On the Closing of the 363 Transaction, each of the Sellers' creditors and any other holder of a lien, claim, encumbrance, or other interest, is authorized and directed to execute such documents and take all other actions as may be necessary to release its lien, claim, encumbrance (other than Permitted Encumbrances), or other interest in the Purchased Assets, if any, as such lien, claim, encumbrance, or other interest may have been recorded or may otherwise exist.

12. If any person or entity that has filed financing statements, mortgages, mechanic's liens, lis pendens, or other documents or agreements evidencing a lien, claim, encumbrance, or other interest in the Sellers or the Purchased Assets (other than Permitted Encumbrances) shall not have delivered to the Sellers prior to the Closing, in proper form for filing and executed by the appropriate parties, termination statements, instruments of satisfaction, releases of all liens, claims, encumbrances, or other interests, which the person or entity has with respect to the Sellers or the Purchased Assets or otherwise, then (a) the Sellers are authorized and directed to execute and file such statements, instruments, releases, and other documents on behalf of the person or entity with respect to the Sellers or the Purchased Assets, and (b) the Purchaser is authorized to file, register, or otherwise record a certified copy of this Order, which

shall constitute conclusive evidence of the release of all liens, claims, encumbrances, and other interests of any kind or nature whatsoever in the Sellers or the Purchased Assets.

13. All persons or entities in possession of any of the Purchased Assets are directed to surrender possession of such Purchased Assets to the Purchaser or its respective designees at the time of Closing of the 363 Transaction.

14. Following the Closing of the 363 Transaction, no holder of any lien, claim, encumbrance, or other interest (other than Permitted Encumbrances) shall interfere with the Purchaser's title to, or use and enjoyment of, the Purchased Assets based on, or related to, any such lien, claim, encumbrance, or other interest, or based on any actions the Debtors may take in their chapter 11 cases.

15. All persons and entities are prohibited and enjoined from taking any action to adversely affect or interfere with the ability of the Debtors to transfer the Purchased Assets to the Purchaser in accordance with the MPA and this Order; *provided, however*, that the foregoing restriction shall not prevent any person or entity from appealing this Order or opposing any appeal of this Order.

16. To the extent provided by section 525 of the Bankruptcy Code, no governmental unit may deny, revoke, suspend, or refuse to renew any permit, license, or similar grant relating to the operation of the Purchased Assets sold, transferred, or conveyed to the Purchaser on account of the filing or pendency of these chapter 11 cases or the consummation of the 363 Transaction contemplated by the MPA.

17. From and after the Closing, the Purchaser shall comply with the certification, reporting, and recall requirements of the National Traffic and Motor Vehicle Safety Act, as amended and recodified, including by the Transportation Recall Enhancement, Accountability and Documentation Act, the Clean Air Act, the California Health and Safety

Code, and similar Laws, in each case, to the extent applicable in respect of motor vehicles, vehicles, motor vehicle equipment, and vehicle parts manufactured or distributed by the Sellers prior to the Closing.

18. Notwithstanding anything to the contrary in this Order or the MPA, (a) any Purchased Asset that is subject to any mechanic's, materialman's, laborer's, workmen's, repairman's, carrier's liens and other similar Encumbrances arising by operation of law or statute in the Ordinary Course of Business for amounts that are not delinquent or that are being contested in good faith by appropriate proceedings, or any lien for Taxes, the validity or amount of which is being contested in good faith by appropriate proceedings, and statutory liens for current Taxes not yet due, payable, or delinquent (or which may be paid without interest or penalties) shall continue to be subject to such lien after the Closing Date if and to the extent that such lien (i) is valid, perfected and enforceable as of the Commencement Date (or becomes valid, perfected and enforceable after the Commencement Date as permitted by section 546(b) or 362(b)(18) of the Bankruptcy Code), (ii) could not be avoided by any Debtor under sections 544 to 549, inclusive, of the Bankruptcy Code or otherwise, were the Closing not to occur; and (iii) the Purchased Asset subject to such lien could not be sold free and clear of such lien under applicable non-bankruptcy law, and (b) any Liability as of the Closing Date that is secured by a lien described in clause (a) above (such lien, a "**Continuing Lien**") that is not otherwise an Assumed Liability shall constitute an Assumed Liability with respect to which there shall be no recourse to the Purchaser or any property of the Purchaser other than recourse to the property subject to such Continuing Lien. The Purchased Assets are sold free and clear of any reclamation rights, *provided, however*, that nothing, in this Order or the MPA shall in any way impair the right of any claimant against the Debtors with respect to any alleged reclamation right to the extent such reclamation right is not subject to the prior rights of a holder of a security interest in

the goods or proceeds with respect to which such reclamation right is alleged, or impair the ability of a claimant to seek adequate protection against the Debtors with respect to any such alleged reclamation right. Further, nothing in this Order or the MPA shall prejudice any rights, defenses, objections or counterclaims that the Debtors, the Purchaser, the U.S. Treasury, EDC, the Creditors' Committee or any other party in interest may have with respect to the validity or priority of such asserted liens or rights, or with respect to any claim for adequate protection.

Approval of the UAW Retiree Settlement Agreement

19. The UAW Retiree Settlement Agreement, the transactions contemplated therein, and the terms and conditions thereof, are fair, reasonable, and in the best interests of the retirees, and are approved. The Debtors, the Purchaser, and the UAW are authorized and directed to perform their obligations under, or in connection with, the implementation of the UAW Retiree Settlement Agreement and to comply with the terms of the UAW Retiree Settlement Agreement, including the obligation of the Purchaser to reimburse the UAW for certain expenses relating to the 363 Transaction and the transition to the New VEBA arrangements. The amendments to the Trust Agreement (as defined in the UAW Retiree Settlement Agreement) set forth on Exhibit E to the UAW Retiree Settlement Agreement, are approved, and the Trust Agreement is reformed accordingly.

20. In accordance with the terms of the UAW Retiree Settlement Agreement, (I) as of the Closing, there shall be no requirement to amend the Pension Plan as set forth in section 15 of the Henry II Settlement (as such terms are defined in the UAW Retiree Settlement Agreement); (II) on the later of December 31, 2009, or the Closing of the 363 Transaction (the "**Implementation Date**"), (i) the committee and the trustees of the Existing External VEBA (as defined in the UAW Retiree Settlement Agreement) are directed to transfer to the New VEBA all assets and liabilities of the Existing External VEBA and to terminate the Existing External

VEBA within fifteen (15) days thereafter, as provided under Section 12.C of the UAW Retiree Settlement Agreement, (ii) the trustee of the Existing Internal VEBA is directed to transfer to the New VEBA the UAW Related Account's share of assets in the Existing Internal VEBA within ten (10) business days thereafter as provided in Section 12.B of the UAW Retiree Settlement Agreement, and, upon the completion of such transfer, the Existing Internal VEBA shall be deemed to be amended to terminate participation and coverage regarding Retiree Medical Benefits for the Class and the Covered Group, effective as of the Implementation Date (each as defined in the UAW Retiree Settlement Agreement); and (III) all obligations of the Purchaser and the Sellers to provide Retiree Medical Benefits to members of the Class and Covered Group shall be governed by the UAW Retiree Settlement Agreement, and, in accordance with section 5.D of the UAW Retiree Settlement Agreement, all provisions of the Purchaser's Plan relating to Retiree Medical Benefits for the Class and/or the Covered Group shall terminate as of the Implementation Date or otherwise be amended so as to be consistent with the UAW Retiree Settlement Agreement (as each term is defined in the UAW Retiree Settlement Agreement), and the Purchaser shall not thereafter have any such obligations as set forth in Section 5.D of the UAW Retiree Settlement Agreement.

Approval of GM's Assumption of the UAW Claims Agreement

21. Pursuant to section 365 of the Bankruptcy Code, GM's assumption of the UAW Claims Agreement is approved, and GM, the UAW, and the Class Representatives are authorized and directed to perform their obligations under, or in connection with, the implementation of the UAW Claims Agreement and comply with the terms of the UAW Claims Agreement.

Assumption and Assignment to the Purchaser of Assumable Executory Contracts

22. Pursuant to sections 105(a), 363, and 365 of the Bankruptcy Code and subject to and conditioned upon (a) the Closing of the 363 Transaction, (b) the occurrence of the Assumption Effective Date, and (c) the resolution of any relevant Limited Contract Objections, other than a Cure Objection, by order of this Court overruling such objection or upon agreement of the parties, the Debtors' assumption and assignment to the Purchaser of each Assumable Executory Contract (including, without limitation, for purposes of this paragraph 22) the UAW Collective Bargaining Agreement) is approved, and the requirements of section 365(b)(1) of the Bankruptcy Code with respect thereto are deemed satisfied.

23. The Debtors are authorized and directed in accordance with sections 105(a) and 365 of the Bankruptcy Code to (i) assume and assign to the Purchaser, effective as of the Assumption Effective Date, as provided by, and in accordance with, the Sale Procedures Order, the Modified Assumption and Assignment Procedures, and the MPA, those Assumable Executory Contracts that have been designated by the Purchaser for assumption pursuant to sections 6.6 and 6.31 of the MPA and that are not subject to a Limited Contract Objection other than a Cure Objection, free and clear of all liens, claims, encumbrances, or other interests of any kind or nature whatsoever (other than Permitted Encumbrances), including rights or claims based on any successor or transferee liability, other than the Assumed Liabilities, and (ii) execute and deliver to the Purchaser such documents or other instruments as the Purchaser reasonably deems may be necessary to assign and transfer such Assumable Executory Contracts and Assumed Liabilities to the Purchaser. The Purchaser shall Promptly Pay (as defined below) the following (the "**Cure Amount**"): (a) all amounts due under such Assumable Executory Contract as of the Commencement Date as reflected on the website established by the Debtors (the "**Contract Website**"), which is referenced and is accessible as set forth in the Assumption and Assignment

Notice or as otherwise agreed to in writing by an authorized officer of the parties (for this purpose only, Susanna Webber shall be deemed an authorized officer of the Debtors) (the "**Prepetition Cure Amount**"), less amounts, if any, paid after the Commencement Date on account of the Prepetition Cure Amount (such net amount, the "**Net Prepetition Cure Amount**"), plus (b) any such amount past due and owing as of the Assumption Effective Date, as required under the Modified Assumption and Assignment Procedures, exclusive of the Net Prepetition Cure Amount. For the avoidance of doubt, all of the Debtors' rights to assert credits, chargebacks, setoffs, rebates, and other claims under the Purchased Contracts are purchased by and assigned to the Purchaser as of the Assumption Effective Date. As used herein, "**Promptly Pay**" means (i) with respect to any Cure Amount (or portion thereof, if any) which is undisputed, payment as soon as reasonably practicable, but not later than five (5) business days after the Assumption Effective Date, and (ii) with respect to any Cure Amount (or portion thereof, if any) which is disputed, payment as soon as reasonably practicable, but not later than five (5) business days after such dispute is resolved or such later date upon agreement of the parties and, in the event Bankruptcy Court approval is required, upon entry of a final order of the Bankruptcy Court. On and after the Assumption Effective Date, the Purchaser shall (i) perform any nonmonetary defaults that are required under section 365(b) of the Bankruptcy Code; *provided* that such defaults are undisputed or directed by this Court and are timely asserted under the Modified Assumption and Assignment Procedures, and (ii) pay all undisputed obligations and perform all obligations that arise or come due under each Assumable Executory Contract in the ordinary course. Notwithstanding any provision in this Order to the contrary, the Purchaser shall not be obligated to pay any Cure Amount or any other amount due with respect to any Assumable Executory Contract before such amount becomes due and payable under the applicable payment terms of such Contract.

24. The Debtors shall make available a writing, acknowledged by the Purchaser, of the assumption and assignment of an Assumable Executory Contract and the effective date of such assignment (which may be a printable acknowledgment of assignment on the Contract Website). The Assumable Executory Contracts shall be transferred and assigned to, pursuant to the Sale Procedures Order and the MPA, and thereafter remain in full force and effect for the benefit of, the Purchaser, notwithstanding any provision in any such Assumable Executory Contract (including those of the type described in sections 365(b)(2), (e)(1), and (f) of the Bankruptcy Code) that prohibits, restricts, or conditions such assignment or transfer and, pursuant to section 365(k) of the Bankruptcy Code, the Sellers shall be relieved from any further liability with respect to the Assumable Executory Contracts after such assumption and assignment to the Purchaser. Except as may be contested in a Limited Contract Objection, each Assumable Executory Contract is an executory contract or unexpired lease under section 365 of the Bankruptcy Code and the Debtors may assume each of their respective Assumable Executory Contracts in accordance with section 365 of the Bankruptcy Code. Except as may be contested in a Limited Contract Objection other than a Cure Objection, the Debtors may assign each Assumable Executory Contract in accordance with sections 363 and 365 of the Bankruptcy Code, and any provisions in any Assumable Executory Contract that prohibit or condition the assignment of such Assumable Executory Contract or terminate, recapture, impose any penalty, condition renewal or extension, or modify any term or condition upon the assignment of such Assumable Executory Contract, constitute unenforceable antiassignment provisions which are void and of no force and effect in connection with the transactions contemplated hereunder. All other requirements and conditions under sections 363 and 365 of the Bankruptcy Code for the assumption by the Debtors and assignment to the Purchaser of each Assumable Executory Contract have been satisfied, and, pursuant to section 365(k) of the Bankruptcy Code, the

Debtors are hereby relieved from any further liability with respect to the Assumable Executory Contracts, including, without limitation, in connection with the payment of any Cure Amounts related thereto which shall be paid by the Purchaser. At such time as provided in the Sale Procedures Order and the MPA, in accordance with sections 363 and 365 of the Bankruptcy Code, the Purchaser shall be fully and irrevocably vested in all right, title, and interest of each Purchased Contract. With respect to leases of personal property that are true leases and not subject to recharacterization, nothing in this Order or the MPA shall transfer to the Purchaser an ownership interest in any leased property not owned by a Debtor. Any portion of any of the Debtors' unexpired leases of nonresidential real property that purport to permit the respective landlords thereunder to cancel the remaining term of any such leases if the Sellers discontinue their use or operation of the Leased Real Property are void and of no force and effect and shall not be enforceable against the Purchaser, its assignees and sublessees, and the landlords under such leases shall not have the right to cancel or otherwise modify such leases or increase the rent, assert any Claim, or impose any penalty by reason of such discontinuation, the Sellers' cessation of operations, the assignment of such leases to the Purchaser, or the interruption of business activities at any of the leased premises.

25. Except in connection with any ongoing Limited Contract Objection, each non-Debtor party to an Assumable Executory Contract is forever barred, estopped, and permanently enjoined from (a) asserting against the Debtors or the Purchaser, their successors or assigns, or their respective property, any default arising prior to, or existing as of, the Commencement Date, or, against the Purchaser, any counterclaim, defense, or setoff (other than defenses interposed in connection with, or related to, credits, chargebacks, setoffs, rebates, and other claims asserted by the Sellers or the Purchaser in its capacity as assignee), or other claim asserted or assertable against the Sellers and (b) imposing or charging against the Debtors, the

Purchaser, or its Affiliates any rent accelerations, assignment fees, increases, or any other fees as a result of the Sellers' assumption and assignment to the Purchaser of the Assumable Executory Contracts. The validity of such assumption and assignment of the Assumable Executory Contracts shall not be affected by any dispute between the Sellers and any non-Debtor party to an Assumable Executory Contract.

26. Except as expressly provided in the MPA or this Order, after the Closing, the Debtors and their estates shall have no further liabilities or obligations with respect to any Assumed Liabilities other than certain Cure Amounts as provided in the MPA, and all holders of such claims are forever barred and estopped from asserting such claims against the Debtors, their successors or assigns, and their estates.

27. The failure of the Sellers or the Purchaser to enforce at any time one or more terms or conditions of any Assumable Executory Contract shall not be a waiver of such terms or conditions, or of the Sellers' and the Purchaser's rights to enforce every term and condition of the Assumable Executory Contracts.

28. The authority hereunder for the Debtors to assume and assign an Assumable Executory Contract to the Purchaser includes the authority to assume and assign an Assumable Executory Contract, as amended.

29. Upon the assumption by a Debtor and the assignment to the Purchaser of any Assumable Executory Contract and the payment of the Cure Amount in full, all defaults under the Assumable Executory Contract shall be deemed to have been cured, and any counterparty to such Assumable Executory Contract shall be prohibited from exercising any rights or remedies against any Debtor or non-Debtor party to such Assumable Executory Contract based on an asserted default that occurred on, prior to, or as a result of, the Closing, including the type of default specified in section 365(b)(1)(A) of the Bankruptcy Code.

30. The assignments of each of the Assumable Executory Contracts are made in good faith under sections 363(b) and (m) of the Bankruptcy Code.

31. Entry by GM into the Deferred Termination Agreements with accepting dealers is hereby approved. Executed Deferred Termination Agreements represent valid and binding contracts, enforceable in accordance with their terms.

32. Entry by GM into the Participation Agreements with accepting dealers is hereby approved and the offer by GM of entry into the Participation Agreements and entry into the Participation Agreements was appropriate and not the product of coercion. The Court makes no finding as to whether any specific provision of any Participation Agreement governing the obligations of Purchaser and its dealers is enforceable under applicable provisions of state law. Any disputes that may arise under the Participation Agreements shall be adjudicated on a case by case basis in an appropriate forum other than this Court.

33. Nothing contained in the preceding two paragraphs shall impact the authority of any state or of the federal government to regulate Purchaser subsequent to the Closing.

34. Notwithstanding any other provision in the MPA or this Order, no assignment of any rights and interests of the Debtors in any federal license issued by the Federal Communications Commission ("**FCC**") shall take place prior to the issuance of FCC regulatory approval for such assignment pursuant to the Communications Act of 1934, and the rules and regulations promulgated thereunder.

TPC Property

35. The TPC Participation Agreement and the other TPC Operative Documents are financing transactions secured to the extent of the TPC Value (as hereinafter defined) and shall be Retained Liabilities.

36. As a result of the Debtors' interests in the TPC Property being transferred to the Purchaser free and clear of all liens, claims, interests, and encumbrances (other than Permitted Encumbrances), including, without limitation, the TPC Lenders' Liens and Claims, pursuant to section 363(e) of the Bankruptcy Code, the TPC Lenders shall have an allowed secured claim in a total amount equal to the fair market value of the TPC Property on the Commencement Date under section 506 of the Bankruptcy Code (the "**TPC Value**"), as determined at a valuation hearing conducted by this Court or by mutual agreement of the Debtors, the Purchaser, and the TPC Lenders (such claim, the "**TPC Secured Claim**"). Either the Debtors, the Purchaser, the TPC Lenders, or the Creditors' Committee may file a motion with this Court to determine the TPC Value on twenty (20) days notice.

37. Pursuant to sections 361 and 363(e) of the Bankruptcy Code, as adequate protection for the TPC Secured Claim and for the sole benefit of the TPC Lenders, at the Closing or as soon as commercially practicable thereafter, but in any event not later than five (5) business days after the Closing, the Purchaser shall place $90,700,000 (the "**TPC Escrow Amount**") in cash into an interest-bearing escrow account (the "**TPC Escrow Account**") at a financial institution selected by the Purchaser and acceptable to the other parties (the "**Escrow Bank**"). Interest earned on the TPC Escrow Amount from the date of deposit through the date of the disposition of the proceeds of such account (the "**TPC Escrow Interest**") will follow principal, such that interest earned on the amount of cash deposited into the TPC Escrow Account equal to the TPC Value shall be paid to the TPC Lenders and interest earned on the balance of the TPC Escrow Amount shall be paid to the Purchaser.

38. Promptly after the determination of the TPC Value, an amount of cash equal to the TPC Secured Claim plus the TPC Lenders' pro rata share of the TPC Escrow Interest shall be released from the TPC Escrow Account and paid to the TPC Lenders (the "**TPC**

Payment") without further order of this Court. If the TPC Value is less than $90,700,000, the TPC Lenders shall have, in addition to the TPC Secured Claim, an aggregate allowed unsecured claim against GM's estate equal to the lesser of (i) $45,000,000 and (ii) the difference between $90,700,000 and the TPC Value (the "**TPC Unsecured Claim**").

39. If the TPC Value exceeds $90,700,000, the TPC Lenders shall be entitled to assert a secured claim against GM's estate to the extent the TPC Lenders would have an allowed claim for such excess under section 506 of the Bankruptcy Code (the "**TPC Excess Secured Claim**"); *provided, however*, that any TPC Excess Secured Claim shall be paid from the consideration of the 363 Transaction as a secured claim thereon and shall not be payable from the proceeds of the Wind-Down Facility; *and provided further, however*, that the Debtors, the Creditors' Committee, and all parties in interest shall have the right to contest the allowance and amount of the TPC Excess Secured Claim under section 506 of the Bankruptcy Code (other than to contest the TPC Value as previously determined by the Court). All parties' rights and arguments respecting the determination of the TPC Secured Claim are reserved; *provided, however*, that in consideration of the settlement contained in these paragraphs, the TPC Lenders waive any legal argument that the TPC Lenders are entitled to a secured claim equal to the face amount of their claim under section 363(f)(3) or any other provision of the Bankruptcy Code solely as a matter of law, including, without limitation, on the grounds that the Debtors are required to pay the full face amount of the TPC Lenders' secured claims in order to transfer, or as a result of the transfer of, the TPC Property to the Purchaser. After the TPC Payment is made, any funds remaining in the TPC Escrow Account plus the Purchasers' pro rata share of the TPC Escrow Interest shall be released and paid to the Purchaser without further order of this Court. Upon the receipt of the TPC Payment by the TPC Lenders, other than any right to payment from GM on account of the TPC Unsecured Claim and the TPC Excess Secured Claim, the TPC

Lenders' Claims relating to the TPC Property shall be deemed fully satisfied and discharged, including, without limitation, any claims the TPC Lenders might have asserted against the Purchaser relating to the TPC Property, the TPC Participation Agreement, or the TPC Operative Documents. For the avoidance of doubt, any and all claims of the TPC Lenders arising from or in connection with the TPC Property, the TPC Participation Agreement, or the TPC Operative Documents shall be payable solely from the TPC Escrow Account or GM and shall be nonrecourse to the Purchaser.

40. The TPC Lenders shall not be entitled to payment of any fees, costs, or expenses (including legal fees) except to the extent that the TPC Value results in a TPC Excess Secured Claim and is thereby oversecured under the Bankruptcy Code and such claim is allowed by the Court as a secured claim under section 506 of the Bankruptcy Code.

41. In connection with the foregoing, and pursuant to Section 11.2 of the TPC Trust Agreement, GM, as the sole Certificate Holder and Beneficiary under the TPC Trust, together with the consent of GM as the Lessee, effective as of the date of the Closing, (a) exercises its election to terminate the TPC Trust and (b) in connection therewith, assumes all of the obligations of the TPC Trust and TPC Trustee under or contemplated by the TPC Operative Documents to which the TPC Trust or TPC Trustee is a party and all other obligations of the TPC Trust or TPC Trustee incurred under the TPC Trust Agreement (other than obligations set forth in clauses (i) through (iii) of the second sentence of Section 7.1 of the TPC Trust Agreement).

42. As a condition precedent to the 363 Transaction, in connection with the termination of the TPC Trust, effective as of the date of the Closing, all of the assets of the TPC Trust (the "**TPC Trust Assets**") shall be distributed to GM, as sole Certificate Holder and beneficiary under the TPC Trust, including, without limitation, the following:

(i) Industrial Development Revenue Real Property Note (General Motors Project) Series 1999-I, dated November 18, 1999, in the principal amount of $21,700,000, made by the Industrial Development Board of the City of Memphis and County of Shelby, Tennessee, to PVV Southpoint 14, LLC, as assigned by Assignment and Assumption of Loan and Loan Documents dated as of November 18, 1999, between PVV Southpoint 14, LLC, as Assignor, to the TPC Trustee of the TPC Trust, as Assignee, recorded as JW1268 in the records of the Shelby County Register of Deeds (the "**TPC Tennessee Ground Lease**");

(ii) Real Property Lease Agreement dated as of November 18, 1999, between the Industrial Development Board of the City of Memphis and County of Shelby, Tennessee, as Lessor, and PVV Southpoint 14, LLC, as Lessee, recorded as JW1262 in the records of the Shelby County Register of Deeds, as assigned by Assignment and Assumption of Real Property Lease dated as of November 18, 1999, between PVV Southpoint 14, LLC, as Assignor, to the TPC Trustee of the TPC Trust, as Assignee, recorded as JW1267 in the records of the Shelby County Register of Deeds;

(iii) Deed of Trust dated as of November 18, 1999, between the Industrial Development Board of the City of Memphis and County of Shelby, Tennessee, as Grantor, in favor of Mid-South Title Corporation, as Trustee, for the benefit of PVV Southpoint 14, LLC, Beneficiary, recorded as JW1263 in the records of the Shelby County Register of Deeds, as assigned by Assignment and Assumption of Loan and Loan Documents dated as of November 18, 1999, between PVV Southpoint 14, LLC, as Assignor, to the TPC Trustee of the TPC Trust, as Assignee, recorded as JW1268 in the records of the Shelby County Register of Deeds;

(iv) Assignment of Rents and Lease dated as of November 18, 1999, between the Industrial Development Board of the City of Memphis and County of Shelby, Tennessee, as Assignor, and PVV Southpoint 14, LLC, as Assignee, recorded as JW1264 in the records of the Shelby County Register of Deeds, as assigned by Assignment and Assumption of Loan and Loan Documents dated as of November 18, 1999, between PVV Southpoint 14, LLC, as Assignor, to the TPC Trustee of the TPC Trust, as Assignee, recorded as JW1268 in the records of the Shelby County Register of Deeds;

(v) The Tennessee Master Lease (as defined in the TPC Participation Agreement);

(vi) A certain tract of land being known and designated as Lot 1, as shown on a Subdivision Plat entitled "Final Plat – Lot 1, Whitemarsh Associates, LLC Property," which Plat is recorded among the Land Records of Baltimore County in Plat Book SM No. 71 at folio 144, Maryland, together with a certain tract of land being known and designated as "1.1865 Acre of Highway Widening," as shown on a Subdivision Plat entitled "Final Plat – Lot 1, Whitemarsh Associates, LLC Property," which Plat is recorded among the Land Records of Baltimore County in Plat Book SM No. 71 at folio 144, Baltimore, Maryland, saving and excepting from the above described property all that land conveyed to the State of Maryland to the use of the State Highway Administration of the Department of Transportation dated November 24, 2003, and

recorded among the Land Records of Baltimore County in Liber 19569, folio 074, Maryland, together with all rights, easements, covenants, licenses, and appurtenances associated with the ownership thereof in any way, including, without limitation, those easements benefiting Parcel 1 set forth in the Declaration and Agreement Respecting Easements, Restrictions and Operations, between the TPC Trust, GM, and Whitemarsh Associates, LLC, recorded among the Land Records of Baltimore County in Liber 14019, folio 430, as amended (collectively, the "**Maryland Property**");

(vii) alternatively to the transfer of a direct interest in the Maryland Property pursuant to item (vi) above, if such documents are still extant, the following interests shall be transferred: (a) Ground Lease Agreement dated as of September 8, 1999, between the TPC Trustee of the TPC Trust. as lessor, and Maryland Economic Development Corporation, as lessee, recorded among the Land Records of Baltimore County in Liber 14019, folio 565, (b) Sublease Agreement dated as of September 8, 1999, between the Maryland Economic Development Corporation, as sublessor, and the TPC Trustee of the TPC Trust, as sublessee, recorded among the Land Records of Baltimore County in Liber 14019, folio 589, together with (c) all agreements, loan agreements, notes, rights, obligations, and interests held by the TPC Trustee of the TPC Trust and/or issued by the TPC Trustee of the TPC Trust in connection therewith; and

(viii) The Maryland Master Lease (as defined in the TPC Participation Agreement).

43. As a result of the distribution of the TPC Trust Assets, effective as of the date of the Closing, title to the leasehold interest of the TPC Trustee of the TPC Trust under the TPC Tennessee Ground Lease and the lessor's interest under the Tennessee Master Lease shall be held by GM, as are the lessor's and lessee's interests under the Tennessee Master Lease, and as permitted by the TPC Trust Agreement, the Tennessee Master Lease shall hereby be terminated, and GM shall succeed to all rights of the lessor thereunder to the property leased thereby, together with all rights, easements, covenants, licenses, and appurtenances associated with the ownership thereof in any way.

44. As a result of the distribution of the TPC Trust Assets, effective as of the date of the Closing, title to the Maryland Property, the lessor's and lessee's interests under the Maryland Master Lease shall be held by GM, and as permitted by the TPC Trust Agreement, the Maryland Master Lease shall hereby be terminated, and GM shall succeed to all rights of the

lessor thereunder to the property leased thereby, together with all rights, easements, covenants, licenses, and appurtenances associated with the ownership thereof in any way.

45. All of the TPC Trust Assets and the TPC Property are Purchased Assets under the MPA and shall be transferred by GM pursuant thereto to the Purchaser free and clear of all liens, claims, encumbrances, and interests (other than Permitted Encumbrances), including, without limitation, any liens, claims, encumbrances, and interests of the TPC Lenders. To the extent any of the TPC Trust Assets are executory contracts and unexpired leases, they shall be Assumable Executory Contracts, which shall be assumed by GM and assigned to Purchaser pursuant to section 365 of the Bankruptcy Code and the Sale Procedures Order.

Additional Provisions

46. Except for the Assumed Liabilities expressly set forth in the MPA, none of the Purchaser, its present or contemplated members or shareholders, its successors or assigns, or any of their respective affiliates or any of their respective agents, officials, personnel, representatives, or advisors shall have any liability for any claim that arose prior to the Closing Date, relates to the production of vehicles prior to the Closing Date, or otherwise is assertable against the Debtors or is related to the Purchased Assets prior to the Closing Date. The Purchaser shall not be deemed, as a result of any action taken in connection with the MPA or any of the transactions or documents ancillary thereto or contemplated thereby or in connection with the acquisition of the Purchased Assets, to: (i) be a legal successor, or otherwise be deemed a successor to the Debtors (other than with respect to any obligations arising under the Purchased Assets from and after the Closing); (ii) have, de facto or otherwise, merged with or into the Debtors; or (iii) be a mere continuation or substantial continuation of the Debtors or the enterprise of the Debtors. Without limiting the foregoing, the Purchaser shall not have any successor, transferee, derivative, or vicarious liabilities of any kind or character for any claims,

including, but not limited to, under any theory of successor or transferee liability, de facto merger or continuity, environmental, labor and employment, and products or antitrust liability, whether known or unknown as of the Closing, now existing or hereafter arising, asserted, or unasserted, fixed or contingent, liquidated or unliquidated.

47. Effective upon the Closing and except as may be otherwise provided by stipulation filed with or announced to the Court with respect to a specific matter or an order of the Court, all persons and entities are forever prohibited and enjoined from commencing or continuing in any manner any action or other proceeding, whether in law or equity, in any judicial, administrative, arbitral, or other proceeding against the Purchaser, its present or contemplated members or shareholders, its successors and assigns, or the Purchased Assets, with respect to any (i) claim against the Debtors other than Assumed Liabilities, or (ii) successor or transferee liability of the Purchaser for any of the Debtors, including, without limitation, the following actions: (a) commencing or continuing any action or other proceeding pending or threatened against the Debtors as against the Purchaser, or its successors, assigns, affiliates, or their respective assets, including the Purchased Assets; (b) enforcing, attaching, collecting, or recovering in any manner any judgment, award, decree, or order against the Debtors as against the Purchaser, its successors, assigns, affiliates, or their respective assets, including the Purchased Assets; (c) creating, perfecting, or enforcing any lien, claim, interest, or encumbrance against the Debtors as against the Purchaser or its successors, assigns, affiliates, or their respective assets, including the Purchased Assets; (d) asserting any setoff, right of subrogation, or recoupment of any kind for any obligation of any of the Debtors as against any obligation due the Purchaser or its successors, assigns, affiliates, or their respective assets, including the Purchased Assets; (e) commencing or continuing any action, in any manner or place, that does not comply, or is inconsistent with, the provisions of this Order or other orders of this Court, or

the agreements or actions contemplated or taken in respect thereof; or (f) revoking, terminating, or failing or refusing to renew any license, permit, or authorization to operate any of the Purchased Assets or conduct any of the businesses operated with such assets. Notwithstanding the foregoing, a relevant taxing authority's ability to exercise its rights of setoff and recoupment are preserved.

48. Except for the Assumed Liabilities, or as expressly permitted or otherwise specifically provided for in the MPA or this Order, the Purchaser shall have no liability or responsibility for any liability or other obligation of the Sellers arising under or related to the Purchased Assets. Without limiting the generality of the foregoing, and except as otherwise specifically provided in this Order and the MPA, the Purchaser shall not be liable for any claims against the Sellers or any of their predecessors or Affiliates, and the Purchaser shall have no successor, transferee, or vicarious liabilities of any kind or character, including, but not limited to, any theory of antitrust, environmental, successor, or transferee liability, labor law, de facto merger, or substantial continuity, whether known or unknown as of the Closing, now existing or hereafter arising, whether fixed or contingent, asserted or unasserted, liquidated or unliquidated, with respect to the Sellers or any obligations of the Sellers arising prior to the Closing.

49. The Purchaser has given fair and substantial consideration under the MPA for the benefit of the holders of liens, claims, encumbrances, or other interests. The consideration provided by the Purchaser for the Purchased Assets under the MPA is greater than the liquidation value of the Purchased Assets and shall be deemed to constitute reasonably equivalent value and fair consideration under the Bankruptcy Code and under the laws of the United States, any state, territory, possession, or the District of Columbia.

50. The consideration provided by the Purchaser for the Purchased Assets under the MPA is fair and reasonable, and the Sale may not be avoided under section 363(n) of the Bankruptcy Code.

51. If there is an Agreed G Transaction (determined no later than the due date, with extensions, of GM's tax return for the taxable year in which the 363 Transaction occurs), (i) the MPA shall, and hereby does, constitute a "plan" of GM and the Purchaser solely for purposes of sections 368 and 354 of the Tax Code, and (ii) the 363 Transaction, as set forth in the MPA, and the subsequent liquidation of the Sellers, are intended to constitute a tax reorganization of GM pursuant to section 368(a)(1)(G) of the Tax Code.

52. This Order (a) shall be effective as a determination that, except for the Assumed Liabilities, at Closing, all liens, claims, encumbrances, and other interests of any kind or nature whatsoever existing as to the Sellers with respect to the Purchased Assets prior to the Closing (other than Permitted Encumbrances) have been unconditionally released and terminated, and that the conveyances described in this Order have been effected, and (b) shall be binding upon and govern the acts of all entities, including, without limitation, all filing agents, filing officers, title agents, title companies, recorders of mortgages, recorders of deeds, registrars of deeds, administrative agencies, governmental departments, secretaries of state, federal, state, and local officials, and all other persons and entities who may be required by operation of law, the duties of their office, or contract, to accept, file, register, or otherwise record or release any documents or instruments, or who may be required to report or insure any title or state of title in or to any of the Purchased Assets.

53. Each and every federal, state, and local governmental agency or department is authorized to accept any and all documents and instruments necessary or appropriate to consummate the transactions contemplated by the MPA.

54. Any amounts that become payable by the Sellers to the Purchaser pursuant to the MPA (and related agreements executed in connection therewith, including, but not limited to, any obligation arising under Section 8.2(b) of the MPA) shall (a) constitute administrative expenses of the Debtors' estates under sections 503(b)(1) and 507(a)(1) of the Bankruptcy Code and (b) be paid by the Debtors in the time and manner provided for in the MPA without further Court order.

55. The transactions contemplated by the MPA are undertaken by the Purchaser without collusion and in good faith, as that term is used in section 363(m) of the Bankruptcy Code, and were negotiated by the parties at arm's length, and, accordingly, the reversal or modification on appeal of the authorization provided in this Order to consummate the 363 Transaction shall not affect the validity of the 363 Transaction (including the assumption and assignment of any of the Assumable Executory Contracts and the UAW Collective Bargaining Agreement), unless such authorization is duly stayed pending such appeal. The Purchaser is a purchaser in good faith of the Purchased Assets and the Purchaser and its agents, officials, personnel, representatives, and advisors are entitled to all the protections afforded by section 363(m) of the Bankruptcy Code.

56. The Purchaser is assuming the obligations of the Sellers pursuant to and subject to conditions and limitations contained in their express written warranties, which were delivered in connection with the sale of vehicles and vehicle components prior to the Closing of the 363 Transaction and specifically identified as a "warranty." The Purchaser is not assuming responsibility for Liabilities contended to arise by virtue of other alleged warranties, including implied warranties and statements in materials such as, without limitation, individual customer communications, owner's manuals, advertisements, and other promotional materials, catalogs, and point of purchase materials. Notwithstanding the foregoing, the Purchaser has assumed the

Sellers' obligations under state "lemon law" statutes, which require a manufacturer to provide a consumer remedy when the manufacturer is unable to conform the vehicle to the warranty, as defined in the applicable statute, after a reasonable number of attempts as further defined in the statute, and other related regulatory obligations under such statutes.

57. Subject to further Court order and consistent with the terms of the MPA and the Transition Services Agreement, the Debtors and the Purchaser are authorized to, and shall, take appropriate measures to maintain and preserve, until the consummation of any chapter 11 plan for the Debtors, (a) the books, records, and any other documentation, including tapes or other audio or digital recordings and data in, or retrievable from, computers or servers relating to or reflecting the records held by the Debtors or their affiliates relating to the Debtors' business, and (b) the cash management system maintained by the Debtors prior to the Closing, as such system may be necessary to effect the orderly administration of the Debtors' estates.

58. The Debtors are authorized to take any and all actions that are contemplated by or in furtherance of the MPA, including transferring assets between subsidiaries and transferring direct and indirect subsidiaries between entities in the corporate structure, with the consent of the Purchaser.

59. Upon the Closing, the Purchaser shall assume all liabilities of the Debtors arising out of, relating to, in respect of, or in connection with workers' compensation claims against any Debtor, except for workers' compensation claims against the Debtors with respect to Employees residing in or employed in, as the case may be as defined by applicable law, the states of Alabama, Georgia, New Jersey, and Oklahoma.

60. During the week after Closing, the Purchaser shall send an e-mail to the Debtors' customers for whom the Debtors have usable e-mail addresses in their database, which will provide information about the Purchaser and procedures for consumers to opt out of being

contacted by the Purchaser for marketing purposes. For a period of ninety (90) days following the Closing Date, the Purchaser shall include on the home page of GM's consumer web site (www.gm.com) a conspicuous disclosure of information about the Purchaser, its procedures for consumers to opt out of being contacted by the Purchaser for marketing purposes, and a notice of the Purchaser's new privacy statement. The Debtors and the Purchaser shall comply with the terms of established business relationship provisions in any applicable state and federal telemarketing laws. The Dealers who are parties to Deferred Termination Agreements shall not be required to transfer personally identifying information in violation of applicable law or existing privacy policies.

61. Nothing in this Order or the MPA releases, nullifies, or enjoins the enforcement of any Liability to a governmental unit under Environmental Laws or regulations (or any associated Liabilities for penalties, damages, cost recovery, or injunctive relief) that any entity would be subject to as the owner, lessor, or operator of property after the date of entry of this Order. Notwithstanding the foregoing sentence, nothing in this Order shall be interpreted to deem the Purchaser as the successor to the Debtors under any state law successor liability doctrine with respect to any Liabilities under Environmental Laws or regulations for penalties for days of violation prior to entry of this Order. Nothing in this paragraph should be construed to create for any governmental unit any substantive right that does not already exist under law.

62. Nothing contained in this Order or in the MPA shall in any way (i) diminish the obligation of the Purchaser to comply with Environmental Laws, or (ii) diminish the obligations of the Debtors to comply with Environmental Laws consistent with their rights and obligations as debtors in possession under the Bankruptcy Code. The definition of Environmental Laws in the MPA shall be amended to delete the words "in existence on the date of the Original Agreement." For purposes of clarity, the exclusion of asbestos liabilities in

section 2.3(b)(x) of the MPA shall not be deemed to affect coverage of asbestos as a Hazardous Material with respect to the Purchaser's remedial obligations under Environmental Laws.

63. No law of any state or other jurisdiction relating to bulk sales or similar laws shall apply in any way to the transactions contemplated by the 363 Transaction, the MPA, the Motion, and this Order.

64. The Debtors shall comply with their tax obligations under 28 U.S.C. § 960, except to the extent that such obligations are Assumed Liabilities.

65. Notwithstanding anything contained in their respective organizational documents or applicable state law to the contrary, each of the Debtors is authorized and directed, upon and in connection with the Closing, to change their respective names, and any amendment to the organizational documents (including the certificate of incorporation) of any of the Debtors to effect such a change is authorized and approved, without Board or shareholder approval. Upon any such change with respect to GM, the Debtors shall file with the Court a notice of change of case caption within two (2) business days of the Closing, and the change of case caption for these chapter 11 cases shall be deemed effective as of the Closing.

66. The terms and provisions of the MPA and this Order shall inure to the benefit of the Debtors, their estates, and their creditors, the Purchaser, and their respective agents, officials, personnel, representatives, and advisors.

67. The failure to specifically include any particular provisions of the MPA in this Order shall not diminish or impair the effectiveness of such provision, it being the intent of the Court that the MPA be authorized and approved in its entirety, except as modified herein.

68. The MPA and any related agreements, documents, or other instruments may be modified, amended, or supplemented by the parties thereto and in accordance with the terms thereof, without further order of the Court, provided that any such modification,

amendment, or supplement does not have a material adverse effect on the Debtors' estates. Any such proposed modification, amendment, or supplement that does have a material adverse effect on the Debtors' estates shall be subject to further order of the Court, on appropriate notice.

69. The provisions of this Order are nonseverable and mutually dependent on each other.

70. As provided in Fed.R.Bankr.P. 6004(h) and 6006(d), this Order shall not be stayed for ten days after its entry, and instead shall be effective as of 12:00 noon, EDT, on Thursday, July 9, 2009. The Debtors and the Purchaser are authorized to close the 363 Transaction on or after 12:00 noon on Thursday, July 9. Any party objecting to this Order must exercise due diligence in filing any appeal and pursuing a stay or risk its appeal being foreclosed as moot in the event Purchaser and the Debtors elect to close prior to this Order becoming a Final Order.

Deleted: Pursuant to Bankruptcy Rules 6004(h) and 6006(d), this Order shall not be stayed for ten days after its entry and shall be effective immediately upon entry, and the Debtors and the Purchaser are authorized to close the 363 Transaction immediately upon entry of this Order.

71. This Court retains exclusive jurisdiction to enforce and implement the terms and provisions of this Order, the MPA, all amendments thereto, any waivers and consents thereunder, and each of the agreements executed in connection therewith, including the Deferred Termination Agreements, in all respects, including, but not limited to, retaining jurisdiction to (a) compel delivery of the Purchased Assets to the Purchaser, (b) compel delivery of the purchase price or performance of other obligations owed by or to the Debtors, (c) resolve any disputes arising under or related to the MPA, except as otherwise provided therein, (d) interpret, implement, and enforce the provisions of this Order, (e) protect the Purchaser against any of the Retained Liabilities or the assertion of any lien, claim, encumbrance, or other interest, of any kind or nature whatsoever, against the Purchased Assets, and (f) resolve any disputes with respect to or concerning the Deferred Termination Agreements. The Court does not retain jurisdiction to hear disputes arising in connection with the application of the Participation

Agreements, stockholder agreements or other documents concerning the corporate governance of the Purchaser, and documents governed by foreign law, which disputes shall be adjudicated as

necessary under applicable law in any other court or administrative agency of competent jurisdiction.

Debtors.	:	**(Jointly Administered)**

ORDER PURSUANT TO FED. R. BANKR. P. 9019 AND FED. R. CIV. P. RULE 23 APPROVING AGREEMENT RESOLVING PROOF OF CLAIM NO. 44887 AND IMPLEMENTING CLASS SETTLEMENT

Upon the Motion, dated July 13, 2010 (the "**Motion**"),[1] of Motors Liquidation Company (f/k/a General Motors Corporation) and its affiliated debtors, as debtors in possession (collectively, the "**Debtors**"), pursuant to Rule 9019 of the Federal Rules of Bankruptcy Procedure (the "**Bankruptcy Rules**") and Federal Rule of Civil Procedure 23(e), for entry of an order approving the agreement Resolving Proof of Claim No. 44887 and Implementing Class Settlement (the **"Agreement"**), attached to the Motion as **Exhibit "A**,**"** between the Debtors, Plaintiff Donna Soders ("**Soders**"), on behalf of herself and all others similarly situated (the "**Soders Class**"), and RodaNast P.C. ("**RodaNast**"), as more fully set forth in the Motion; and due and proper notice of the Motion having been provided, and it appearing that no other or further notice need be provided to any party; and the Court having found and determined that (i) the relief sought in the Motion is in the best interests of the Debtors, their estates, creditors, and all

[1] Capitalized terms used herein and not otherwise defined herein shall have the meanings ascribed to such terms in the Motion.

parties in interest; (ii) the Settlement is fair, reasonable, adequate, and in the best interest of the Soders Class considering the complexity, expense, and likely duration of the Soders Class Action litigation; the reaction of the Soders Class to the proposed settlement; the stage of the proceedings and the amount of discovery completed; the risk of establishing liability and damages and maintaining the class through trial; the ability of the Debtors to withstand a greater judgment; and the range of reasonableness of the settlement in light of the best possible recovery and all the attendant risks of litigation; (iii) the legal and factual bases set forth in the Motion establish just cause for the relief granted herein; (iv) the settlements and compromise embodied in the Agreement are within the range of reasonableness; (v) the Settlement was not the product of collusion between the parties and their respective counsel, but was the result of bona fide, good faith, arm's-length negotiations between experienced counsel after sufficient discovery was obtained; (vi) and the Notice of Settlement provided to the Soders Class was adequate and satisfied the Federal Rules of Civil Procedure; and after due deliberation and sufficient cause appearing therefore, it is

ORDERED that the Motion is granted as provided herein; and it is further

ORDERED that the Debtors' entry into the Agreement is in the best interests of the Debtors and their estates; and it is further

ORDERED that the Debtors' entry into the Agreement is authorized, ratified, and directed; and it is further

ORDERED that the Court will apply Rule 7023 of the Federal Rules of Bankruptcy Procedure solely for the purposes of settlement in granting the Motion; and it is further

ORDERED that the Court adopts the Pennsylvania Court's certification of the Soders Class solely for the purposes of settlement; and it is further

ORDERED that an award of a general unsecured claim in the amount of $554,050 to the Participating Soders Class Members is fair and reasonable; and it is further

ORDERED that RodaNast is permitted to sell, transfer, or otherwise liquidate the Total Allowed Unsecured Claim and make pro rata distributions to the Participating Class Members, as necessary; and it is further

ORDERED that a payment of a general unsecured claim of $5,000 to Soders as the Soders Class representative is fair and reasonable; and it is further

ORDERED that an attorneys' fee award of a general unsecured claim in the amount of $526,348 is fair and reasonable considering the time and efforts reasonably expended by RodaNast in the litigation, the quality of services rendered, the results achieved and benefits conferred upon the Soders Class, the magnitude, complexity and uniqueness of the litigation, and the contingent nature of the fee; and it is further

ORDERED that the reimbursement of costs incurred by RodaNast in the Soders Class Action of a general unsecured claim in the amount of $437,416.92 to RodaNast is fair and reasonable, and it is further

ORDERED that no further notice of (i) the Settlement, (ii) the Debtors' entry into the Agreement, or (iii) Soders' entry into the Agreement on behalf of the Soders Class is required; and it is further

ORDERED that upon entry of this Order, all terms and conditions of the Agreement shall become effective; and it is further

ORDERED that to the extent any conflict exists between the terms and conditions of the Agreement and this Order, this Order shall control; and it is further

ORDERED that this Court shall retain jurisdiction to hear and determine all matters arising from or related to the implementation, interpretation, and/or enforcement of this Order.

Debtors.	:	**(Jointly Administered)**

ORDER PURSUANT TO FED. R. BANKR. P. 9019 AND FED. R. CIV. P. RULE 23 APPROVING AGREEMENT RESOLVING PROOF OF CLAIM NO. 51095 AND IMPLEMENTING MODIFIED DEX-COOL CLASS SETTLEMENT

Upon the Motion, dated March 24, 2011 (the "**Motion**"),[1] of Motors Liquidation Company (f/k/a General Motors Corporation) and its affiliated debtors, as debtors in possession (collectively, the "**Debtors**"), pursuant to Rule 9019 of the Federal Rules of Bankruptcy Procedure and Federal Rule of Civil Procedure 23, for entry of an order approving the Agreement Resolving Proof of Claim No. 51095 and Implementing Modified Dex-Cool Class Settlement (the **"Agreement"**), attached to the Motion as **Exhibit "A**,**"** implementing a settlement between the Debtors and class action plaintiffs (the "**Dex-Cool Plaintiffs**"), on behalf of themselves and all others similarly situated (collectively, the "**Dex-Cool Class**") as more fully set forth in the Motion; and due and proper notice of the Motion having been provided, and it appearing that no other or further notice need be provided to any party; and the Court having found and determined that (i) the relief sought in the Motion is in the best interests of the Debtors, their estates, creditors, and all parties in interest; (ii) the Agreement is fair, reasonable, adequate, and in the best interest of the Dex-Cool Class considering the complexity, expense,

[1] Capitalized terms used herein and not otherwise defined herein shall have the meanings ascribed to such terms in the Motion.

and likely duration of the Dex-Cool Class Action litigation; the reaction of the Dex-Cool Class to the proposed settlement; the stage of the proceedings and the amount of discovery completed; the risk of establishing liability and damages and maintaining the class through trial; the ability of the Debtors to withstand a greater judgment; and the range of reasonableness of the settlement in light of the best possible recovery and all the attendant risks of litigation; (iii) the legal and factual bases set forth in the Motion establish just cause for the relief granted herein; (iv) the settlement and compromise embodied in the Agreement is within the range of reasonableness; (v) the Agreement was not the product of collusion between the parties and their respective counsel, but was the result of bona fide, good faith, arms-length negotiations between experienced counsel after sufficient discovery was obtained; (vi) and the Notice of Settlement previously provided to the Dex-Cool Class was adequate and satisfied the Federal Rules of Civil Procedure and no additional notice of the Agreement is required; and after due deliberation and sufficient cause appearing therefore, it is

ORDERED that the Motion is granted as provided herein; and it is further

ORDERED that the Debtors' entry into the Agreement is in the best interests of the Debtors and their estates; and it is further

ORDERED that the Debtors' entry into the Agreement is authorized, ratified, and directed; and it is further

ORDERED that the Court will apply Rule 7023 of the Federal Rules of Bankruptcy Procedure solely for the purposes of settlement in granting the Motion; and it is further

ORDERED that the Court adopts the California and Missouri Courts' certification of the Dex-Cool Class solely for the purposes of settlement; and it is further

ORDERED that the Resubmitting Participating Class Members shall be awarded an allowed general unsecured claim in the amount of $2,205,570.00 (the "**Total Allowed Unsecured Claim**") and it is hereby determined that such amount is fair and reasonable; and it is further

ORDERED that the Claim and the Dex-Cool Proof of Claim shall be superseded and replaced by the Total Allowed Unsecured Claim; and it is further

ORDERED that Co-Lead Class Counsel is specifically authorized and directed to administer the proceeds resulting from the Total Allowed Unsecured Claim and otherwise make *pro rata* distributions of the cash proceeds to the Resubmitting Participating Class Members in accordance with the Agreement and as follows:

(i) Co-Lead Class Counsel is authorized to (i) sell, transfer, assign, and/or otherwise monetize the Total Allowed Unsecured Claim, either individually or through a broker, and/or (ii) monetize any shares, warrants, options, or other property received from Debtors as part of any chapter 11 plan in any commercially reasonable manner;

(ii) Cash distributions to Resubmitting Participating Class Members will be made on a *pro rata* basis from cash proceeds resulting from the Total Allowed Unsecured Claim and will be allocated in accordance with the Agreement and the Plan of Allocation contained therein; and it is further

ORDERED that no further notice of (i) the Agreement, (ii) Co-Lead Class Counsels' and the Debtors' entry into the Agreement, or (iii) the representative plaintiffs' entry into the Agreement on behalf of the Dex-Cool Class is required; and it is further

ORDERED that upon entry of this Order, all terms and conditions of the Agreement shall become effective; and it is further

ORDERED that to the extent any conflict exists between the terms and conditions of the Agreement and this Order, this Order shall control; and it is further

ORDERED that no member of the Dex-Cool Class shall have any claim against the Debtors or Debtors' Counsel based on implementation of the Agreement or distributions made from cash proceeds resulting from the Total Allowed Unsecured Claim; and it is further

ORDERED that Co-Lead Class Counsel shall be solely responsible for costs associated with administration and implementation of the Agreement and distribution of the cash proceeds resulting from the Total Allowed Unsecured Claim; and it is further

ORDERED that this Court shall retain jurisdiction to hear and determine all matters arising from or related to the implementation, interpretation, and/or enforcement of this Order.

I. INTRODUCTION

This is the disclosure statement (the "**Disclosure Statement**") of Motors Liquidation Company (f/k/a General Motors Corporation) ("**MLC**"); MLC of Harlem, Inc. (f/k/a Chevrolet-Saturn of Harlem, Inc.); MLCS, LLC (f/k/a Saturn, LLC); MLCS Distribution Corporation (f/k/a Saturn Distribution Corporation); Remediation and Liability Management Company, Inc. ("**REALM**"); and Environmental Corporate Remediation Company, Inc. ("**ENCORE**," and collectively with MLC, MLC of Harlem, Inc., MLCS, LLC, MLCS Distribution Corporation, and REALM, the "**Debtors**"), in the above-captioned chapter 11 cases pending before the United States Bankruptcy Court for the Southern District of New York (the "**Bankruptcy Court**"), filed in connection with the Debtors' Amended Chapter 11 Plan, dated December 7, 2010 (the "**Plan**"), a copy of which is annexed to this Disclosure Statement as **Exhibit "A**."

A. Definitions and Exhibits

1. Definitions. Unless otherwise defined herein, capitalized terms used in this Disclosure Statement shall have the meanings ascribed to such terms in the Plan.

2. Exhibits. The exhibit to this Disclosure Statement are incorporated as if fully set forth herein and are a part of this Disclosure Statement.

B. Notice to Creditors

1. Scope of Plan. Summarily, the Plan provides for (i) the distribution on the Effective Date of Cash to the holders of Allowed Administrative Expenses, Allowed Priority Tax Claims, and Allowed Priority Non-Tax Claims in an amount equal to the Allowed amount of such Administrative Expenses and priority Claims, (ii) the distribution on the Effective Date to the holders of Allowed Secured Claims (if any), at the option of the Debtors, of either (a) Cash in an amount equal to one hundred percent (100%) of the unpaid amount of such Allowed Secured Claim, (b) the proceeds of the sale or disposition of the Collateral securing such Allowed Secured Claim, net of the costs of disposition of such Collateral, (c) the Collateral securing such Allowed Secured Claim, (d) such treatment that leaves unaltered the legal, equitable, and contractual rights to which the holder of such Allowed Secured Claim is entitled, or (e) such other distribution as necessary to satisfy the requirements of section 1129 of the Bankruptcy Code, (iii) the distribution no earlier than the Distribution Record Date to the holders of Allowed General Unsecured Claims of their Pro Rata Share of (a) the New GM Securities or the proceeds thereof, if any, (b) the GUC Trust Units, and (c) to the extent it is determined that the holders of Allowed General Unsecured Claims are entitled to any proceeds of the Term Loan Avoidance Action, any proceeds of the Term Loan Avoidance Action, all in accordance with the terms of the GUC Trust, the GUC Trust Agreement, the Avoidance Action Trust, and the Avoidance Action Trust Agreement, as applicable, (iv) the satisfaction and treatment on the Effective Date of the holders of Allowed Property Environmental Claims in accordance with the terms of the Environmental Response Trust Agreement and the Environmental Response Trust

counsel to GM filed a UCC-3 terminating the UCC-1, which covered most of the personal property securing the term loan. The position of JPMCB, as a lender and the administrative agent under the Prepetition Term Loan Agreement, is that the UCC-3 was filed without authority and, therefore, the filing has no force or effect. The Creditors' Committee's position is that since JPMCB authorized the filing made by GM's counsel, the filing is effective. JPMCB and the Creditors' Committee entered into a stipulated scheduling order governing discovery and briefing, dated October 6, 2009, as modified on January 20, 2009, pursuant to which the parties agreed that JPMCB would accept service of the complaint commencing the Term Loan Avoidance Action and the Creditors' Committee would have thirty days after the date of entry of the Bankruptcy Court's decision on any dispositive motion to serve the summons and complaint on the remaining lenders. In accordance with the modified scheduling order, on July 1, 2010, JPMCB filed a motion for summary judgment and the Creditors' Committee filed a motion for partial summary judgment. On August 5, 2010, the Creditors' Committee filed a memorandum of law in opposition to JPMCB's motion for summary judgment, and JPMCB filed a memorandum of law in opposition to the Creditors' Committee's motion for partial summary judgment. On August 26, 2010, the Creditors' Committee filed a reply memorandum of law in further support of its motion for partial summary judgment and JPMCB filed a reply memorandum of law in further support of its motion for summary judgment. A hearing to consider the summary judgment motion took place on December 3, 2010. At the conclusion of the hearing, the Bankruptcy Court requested further briefing and reserved decision.

Because the Plan currently leaves open whether holders of Allowed General Unsecured Claims or the DIP Lenders are entitled to the proceeds of any recovery on the Term Loan Avoidance Action, on October 4, 2010, the Creditors' Committee filed a Motion to Enforce (A) the Final DIP Order, (B) the Wind-Down Order, and (C) the Amended DIP Facility (the "**Creditors' Committee's Motion to Enforce the DIP**") (ECF No. 7226), seeking a determination that the DIP Lenders have no interest in the Term Loan Avoidance Action and that the interests in the Avoidance Action Trust should be distributed exclusively to holders of Allowed General Unsecured Claims. The U.S. Treasury filed an objection to the Creditors' Committee's Motion to Enforce the DIP, which was joined by EDC. (ECF Nos. 7338, 7498) The Asbestos Claimants' Committee and the Future Claimants' Representative each filed a joinder in support of the Creditors' Committee's Motion to Enforce the DIP (ECF Nos. 7441, 7387). At the hearing held on October 21, 2010, the Bankruptcy Court denied the Creditors' Committee's Motion to Enforce the DIP, without prejudice, on procedural grounds as being premature.

The Creditors' Committee has stated that it will discontinue the Term Loan Avoidance Action if the DIP Lenders are deemed to own the proceeds of the Term Loan Avoidance Action (as such a result would only decrease recoveries to holders of Allowed General Unsecured Claims). It is not certain whether any other party could proceed with litigating the Term Loan Avoidance Action. For a discussion of the risks to holders of Allowed General Unsecured Claims receiving any recovery from the Term Loan Avoidance Action, see Section III.C, below.

7. Wind-Down Process. After the commencement of the Chapter 11 Cases and the consummation of the 363 Transaction, the Debtors began the process of an orderly liquidation and wind-down of the Debtors' remaining assets and properties. In connection therewith, the Debtors retained a number of professionals to assist in the administration of their estates, including the professionals at AP Services, who have taken the lead in compiling information related to the Debtors' remaining assets and administering the Debtors' estates, local and foreign counsel, as well as accounting professionals and environmental consultants. The wind-down activities have included, among other things, analyzing the physical assets of the Debtors; analyzing the assets and obligations of MLC's numerous remaining subsidiaries to determine the most appropriate means of liquidating each subsidiary; filing motions to reject hundreds of executory contracts and unexpired leases; establishing global procedures for asset sales; establishing bar dates for the filing of claims; analyzing the over 70,000 proofs of claim that have been filed in an aggregate amount of approximately $270 billion, of which over 29,000 were unliquidated, approximately 28,500 are asbestos-related, and 470 are environmental-related; and negotiating settlements with certain equipment lessors resulting in modifications to lease agreements and the assumption and assignment to New GM of such modified leases, which reduced or eliminated hundreds of millions of dollars in rejection damage claims. Certain of these activities are described more fully below.

8. Executory Contracts and Unexpired Leases/Dealerships. As of the Commencement Date, the Debtors were parties to over 700,000 executory contracts and unexpired leases of nonresidential real property and personal property.

In connection with the 363 Transaction and the continued operation of New GM's businesses, the Debtors participated in an assumption and assignment process that was critical to the continuation of the GM enterprise and wind-down of the Debtors' remaining operations. Under this procedure, the Debtors maintained a database of executory contracts and unexpired leases of nonresidential real property that were designated by New GM to be assumed by the Debtors and assigned to New GM (each an "**Assumable Executory Contract**"). New GM, at its option, could elect to designate a contract as an Assumable Executory Contract until October 22, 2010, the expiration of the extended contract designation period, which period was agreed to between the Debtors and New GM. In connection with this process, New GM has assumed approximately 672,900 executory contracts and unexpired leases of the Debtors and is responsible for paying all cure amounts in connection therewith, as required by the MSPA.

The Debtors have evaluated those contracts not designated as Assumable Executory Contracts to determine their appropriate disposition in the context of the Debtors' wind-down efforts. The Debtors have sought to reject certain contracts and leases that are not required for the Debtors' continuing operations and which were not assumed and assigned to New GM. Specifically, the Debtors have filed twelve omnibus motions as well as other motions to reject approximately 1,100 executory contracts and unexpired leases of nonresidential real property.

Finally, the Debtors had approximately 6,000 dealerships in their network as of the Commencement Date. The Debtors implemented a comprehensive dealer rationalization program, which included entering into thousands of participation and wind-down agreements enabling successful dealerships to continue with New GM while providing underperforming dealerships with significant economic support to wind down their businesses. The Debtors also filed a motion to reject approximately eighty dealership agreements and negotiated voluntary termination agreements with several others.

9. Claims Process. By order dated September 16, 2009 (the "**Initial Debtors' Bar Date Order**"), the Bankruptcy Court established November 30, 2009 as the deadline for each person or entity, including governmental units, to file a proof of Claim against the Initial Debtors in the Chapter 11 Cases (the "**Initial Debtors' Bar Date**"). By order dated December 18, 2009 (the "**Property Bar Date Order**"), the Bankruptcy Court established February 10, 2010 as the deadline for entities residing adjacent to or in the proximity of certain Initial Debtors' properties to file a proof of Claim with respect to their person or real property arising from being located adjacent to or in the proximity of such properties (the "**Property Bar Date**"). By order dated December 2, 2009 (the "**REALM/ENCORE Bar Date Order**," and together with the Initial Debtors' Bar Date Order and the Property Bar Date Order, the "**Bar Date Orders**"), the Bankruptcy Court established February 1, 2010 as the deadline for each person or entity to file a proof of Claim against REALM and ENCORE and April 16, 2010 as the deadline for governmental units to file a proof of Claim against REALM and ENCORE (the "**REALM/ENCORE Bar Dates**," and together with the Initial Debtors' Bar Date and the Property Bar Date, the "**Bar Dates**"). Notice of the Bar Dates was given as required. The time within which to file claims against the Debtors has expired. To date, over 70,000 proofs of claim have been filed against the Debtors.

On October 6, 2009, the Bankruptcy Court entered an order (the "**Omnibus Claims Objection and Settlement Procedures Order**") authorizing the Debtors to file omnibus objections to claims (the "**Omnibus Claims Objections**") and settle claims in accordance with certain procedures (the "**Claim Settlement Procedures**"). Pursuant to the Omnibus Claims Objection and Settlement Procedures Order, the Debtors are authorized to file Omnibus Claims Objections to Claims seeking the reduction, reclassification, and/or disallowance of Claims on grounds in addition to those set forth in Bankruptcy Rule 3007(d).

To date, the Debtors have filed 110 Omnibus Claims Objections with respect to 22,590 Claims. The Debtors' actions have resulted in the expungement of over $48 billion of Claims against the Debtors' estates and the reclassification of over 568 Claims that improperly asserted either secured, administrative, and/or priority Claims to date.

Pursuant to the Claim Settlement Procedures, the Debtors are authorized to settle any and all Claims asserted against them (i) without the approval of the Bankruptcy Court or any other party in interest whenever the aggregate amount allowed for an individual claim (the "**Settlement Amount**") is (x) less than or equal to $1 million

retained on account of Disputed Claims in the Avoidance Action Trust Claims Reserve is insufficient to pay the portion of any such taxes attributable to the taxable income arising from the assets allocable to, or retained on account of, Disputed Claims, such taxes shall be (i) reimbursed from any subsequent Cash amounts retained on account of Disputed Claims or (ii) to the extent such Disputed Claims subsequently have been resolved, deducted from any amounts otherwise distributable by the Avoidance Action Trust Administrator as a result of the resolution of such Disputed Claims.

(d) The Avoidance Action Trust Administrator may request an expedited determination of taxes of the Avoidance Action Trust, including the Avoidance Action Trust Claims Reserve, under section 505(b) of the Bankruptcy Code for all returns filed for, or on behalf of, the Avoidance Action Trust for all taxable periods through the dissolution of the Avoidance Action Trust.

o. Dissolution. The Avoidance Action Trust Administrator and the Avoidance Action Trust shall be discharged or dissolved, as applicable, at such time as (i) all of the Avoidance Action Trust Assets have been distributed pursuant to the Plan and the Avoidance Action Trust Agreement, (ii) the Avoidance Action Trust Administrator determines, in its sole discretion, that the administration of the Avoidance Action Trust Assets is not likely to yield sufficient additional Avoidance Action Trust Assets to justify further pursuit, and (iii) all distributions required to be made by the Avoidance Action Trust Administrator under the Plan and the Avoidance Action Trust Agreement have been made, but in no event shall the Avoidance Action Trust be dissolved later than three (3) years from the Effective Date unless the Bankruptcy Court, upon motion within the six (6) month period prior to the third (3rd) anniversary (or at least six (6) months prior to the end of an extension period), determines that a fixed period extension (not to exceed three (3) years, together with any prior extensions, without a favorable private letter ruling from the Internal Revenue Service that any further extension would not adversely affect the status of the Avoidance Action Trust as a liquidating trust for U.S. federal income tax purposes) is necessary to facilitate or complete the recovery and liquidation of the Avoidance Action Trust Assets. If at any time the Avoidance Action Trust Administrator determines, in reliance upon such professionals as the Avoidance Action Trust Administrator may retain, that the expense of administering the Avoidance Action Trust so as to make a final distribution to the beneficiaries of the Avoidance Action Trust is likely to exceed the value of the Avoidance Action Trust Assets remaining in the Avoidance Action Trust, the Avoidance Action Trust Administrator may apply to the Bankruptcy Court for authority to (a) reserve any amounts necessary to dissolve the Avoidance Action Trust, (b) transfer the balance to the DIP Lenders and/or the GUC Trust as determined either by (I) mutual agreement between the U.S. Treasury and the Creditors' Committee or (II) Final Order, or donate any balance to a charitable organization described in section 501(c)(3) of the Tax Code and exempt from U.S. federal income tax under section 501(a) of the Tax Code that is unrelated to the Debtors, the Avoidance Action Trust, and any insider of the Avoidance Action Trust Administrator, and (c) dissolve the Avoidance Action Trust.

p. Indemnification of Avoidance Action Trust Administrator and Avoidance Action Trust Monitor. The Avoidance Action Trust Administrator and

the Avoidance Action Trust Monitor (and their agents and professionals) shall not be liable for actions taken or omitted in its or their capacity as, or on behalf of, the Avoidance Action Trust Administrator, the Avoidance Action Trust Monitor, or the Avoidance Action Trust, except those acts found by Final Order to be arising out of its or their own willful misconduct, gross negligence, bad faith, self-dealing, breach of fiduciary duty, or *ultra vires* acts, and each shall be entitled to indemnification and reimbursement for reasonable fees and expenses in defending any and all of its or their actions or inactions in its or their capacity as, or on behalf of, the Avoidance Action Trust Administrator, the Avoidance Action Trust Monitor, or the Avoidance Action Trust, except for any actions or inactions found by Final Order to be involving willful misconduct, gross negligence, bad faith, self-dealing, or *ultra vires* acts. Any indemnification claim of the Avoidance Action Trust Administrator and the Avoidance Action Trust Monitor (and the other parties entitled to indemnification under this subsection) shall be satisfied first from the Avoidance Action Trust Administrative Cash and then from the Avoidance Action Trust Assets. The Avoidance Action Trust Administrator and the Avoidance Action Trust Monitor shall be entitled to rely, in good faith, on the advice of their retained professionals.

6. Securities Law Matters. In reliance upon section 1145(a) of the Bankruptcy Code, the offer and/or issuance of the New GM Securities (but, for the avoidance of doubt, not the sale by the GUC Trust Administrator of New GM Warrants pursuant to Section 5.2(e) of the Plan) by either MLC or the GUC Trust, as a successor of MLC under the Plan, is exempt from registration under the Securities Act and any equivalent securities law provisions under state law. The exemption from Securities Act registration provided by section 1145(a) of the Bankruptcy Code (as well as any equivalent securities law provisions under state law) also is available for the offer and/or issuance by the GUC Trust of (i) beneficial interests in the GUC Trust and (ii) New GM Securities in exchange for such beneficial interests as outstanding Disputed General Unsecured Claims are resolved in accordance with the Plan. The offer and/or issuance of beneficial interests by any of the following successors of the Debtors – the Asbestos Trust, the Environmental Response Trust, and the Avoidance Action Trust – is exempt from Securities Act registration (along with any equivalent securities law provisions under state law) in reliance upon section 1145(a) of the Bankruptcy Code.

Notwithstanding the foregoing, the exemption from registration that is provided by section 1145(a) of the Bankruptcy Code will not apply if the holder of the applicable securities is an "underwriter," as that term is defined in section 1145(b) of the Bankruptcy Code. Section 1145(b) of the Bankruptcy Code defines an "underwriter" for the purposes of the Securities Act as one who (a) purchases a claim with a view to distribution of any security to be received in exchange for the claim other than in ordinary trading transactions, (b) offers to sell securities issued under a plan for the holders of such securities, (c) offers to buy securities issued under a plan from persons receiving such securities, if the offer to buy is made with a view to distribution, or (d) is a "Control Person" of the issuer of the securities as defined in Section 2(a)(11) of the Securities Act.

For persons deemed to be "underwriters" who receive New GM Securities or beneficial interests in the GUC Trust, the Asbestos Trust, the Environmental Response Trust, or the Avoidance Action Trust pursuant to the Plan, including control person underwriters (collectively, the "**Restricted Holders**"), resales of New GM Securities, or beneficial interests in the applicable trust will not be exempted by section 1145 of the Bankruptcy Code from registration under the Securities Act or other applicable law. Restricted Holders, however, may be able, at a future time, and under certain conditions described below, to sell New GM Securities or beneficial interests in the applicable trust without registration pursuant to the resale provisions of Rule 144 or other applicable exemptions under the Securities Act.

Under certain circumstances, holders of New GM Securities or beneficial interests in the GUC Trust, the Asbestos Trust, the Environmental Response Trust, or the Avoidance Action Trust deemed to be "underwriters" may be entitled to resell their securities pursuant to the limited safe harbor resale provisions of Rule 144 of the Securities Act, to the extent available, and in compliance with applicable state and foreign securities laws. Generally, Rule 144 of the Securities Act provides that persons who hold securities received in a transaction not involving a public offering or who are affiliates of an issuer who resell securities will not be deemed to be underwriters if certain conditions are met. These conditions vary depending on whether the seller is a holder of restricted securities or a control person of the issuer and whether the security to be sold is an equity security or a debt security. The conditions include required holding periods in certain cases, the requirement that current public information with respect to the issuer be available, a limitation as to the amount of securities that may be sold in certain cases, the requirement in certain cases that the securities be sold in a "brokers transaction" or in a transaction directly with a "market maker," and that, in certain cases, notice of the resale be filed with the Securities and Exchange Commission.

IN VIEW OF THE COMPLEX, SUBJECTIVE NATURE OF THE QUESTION OF WHETHER A RECIPIENT OF NEW GM SECURITIES OR BENEFICIAL INTERESTS IN THE GUC TRUST, THE ASBESTOS TRUST, THE ENVIRONMENTAL RESPONSE TRUST, OR THE AVOIDANCE ACTION TRUST MAY BE AN UNDERWRITER, THE DEBTORS MAKE NO REPRESENTATIONS CONCERNING THE RIGHT OF ANY PERSON TO TRADE IN NEW GM SECURITIES OR BENEFICIAL INTERESTS TO BE DISTRIBUTED PURSUANT TO THE PLAN. ACCORDINGLY, THE DEBTORS RECOMMEND THAT POTENTIAL RECIPIENTS OF NEW GM SECURITIES OR BENEFICIAL INTERESTS CONSULT THEIR OWN COUNSEL CONCERNING WHETHER THEY MAY FREELY TRADE SUCH SECURITIES OR BENEFICIAL INTERESTS.

7. Cancellation of Existing Securities and Agreements. Except for purposes of evidencing a right to distributions under the Plan or otherwise provided under the Plan or as set forth in Sections 2.4 or 10.1 of the Plan, on the Effective Date all the agreements and other documents evidencing the Claims or rights of any holder of a Claim against the Debtors, including all Indentures and Fiscal and Paying Agency Agreements and bonds, debentures, and notes issued thereunder evidencing such Claims, all Note Claims, all Eurobond Claims, all Nova Scotia Guarantee Claims, and any options or

CONSOLIDATED CLASS ACTION COMPLAINT AGAINST NEW GM FOR RECALLED VEHICLES MANUFACTURED BY OLD GM AND PURCHASED BEFORE JULY 11, 2009

JURY TRIAL DEMANDED

TABLE OF CONTENTS

Page

INTRODUCTION **1**

JURISDICTION AND VENUE **8**

PARTIES **9**

I. Plaintiffs 9

II. Defendant 45

FACTUAL ALLEGATIONS **46**

I. There Are Serious Safety Defects in Millions of Old GM Vehicles that New GM Has Continued to Conceal from Consumers. 46

A. The Ignition Switch Defects 48

II. Old GM's Fraudulent Conduct with Respect to the 2.19 Million Defective Vehicles Subject to the February/March Recall. 49

A. Old GM Knew That There Were Failures With The Ignition Switch Design In 2001, And Concealed These Material Facts, Putting The Safety Of The Class At Serious Risk Of Harm. 49

B. Old GM Approved Production Of Ignition Switches In 2002 Despite Knowing That They Had Failed In Pre-Production Testing And Did Not Meet Old GM's Internal Design Specifications. 51

C. Old GM Received Complaints And Reports On The Stalling Of Vehicles Due To The Defective Ignition Switch Turning Off And Causing Moving Stalls, And Concealed That Material Information From The Class. 51

D. Old GM Engineers Understood The Need To Correct The Ignition Switch Defect In 2004 But Failed To Act To Disclose Or Correct The Defect. 52

E. Old GM Closed Its First Internal Investigation With No Action Because Of Cost. 56

F. Complaints Continued And Serious Accidents Came To Old GM's Attention In 2005, While NHTSA Began To Investigate Death Cases Involving Chevy Cobalts. 58

G. Old GM Engineers Proposed Design Modifications To The Ignition Switch In 2005 That Were Rejected By Old GM Management On The Basis Of Cost. 62

TABLE OF CONTENTS
(continued)

Page

H. Rather Than Implementing A Safety Recall And Fixing The Known Defect, Old GM Sent An Inadequate Technical Service Bulletin To GM Dealers In Late 2005, Advising Dealers On Taking Heavy Items Off Key Rings. 66

I. Old GM Knew About And Authorized A Design Change To The Ignition Switch In 2006, But Masked The Existence Of The Change By Keeping The Part Number The Same. 68

J. The Fatalities Resulting From The Defects And Cover-Up Came To Old GM's Attention As Early As 2004. 70

K. Old GM Responded To Growing Evidence Of Fatalities By Updating The Technical Service Bulletin To Dealers About Heavy Key Chains. 72

L. Old GM Knew Of And Tracked Multiple Accidents Involving The Ignition Switch Defect By 2007 And Avoided Scrutiny By Misleading The Class, The Public, And Regulators. 73

M. Old GM Instructed Its Personnel On Judgment Words To Be Avoided. 76

N. By 2009, As Injuries And Deaths Continued To Mount, Old GM Opened Yet Another Internal Investigation, But Continued To Withhold Information From Its Customers And The Class About The Defects. 78

O. The Spreadsheet Of Accidents Involving The Cobalt Ignition Switch Within Old GM Continued To Grow, But Was Never Disclosed. 79

III. Meet The New GM, Same As The Old GM: With Knowledge of the Defects, New GM "Investigates" Further-And Continues To Conceal The Defects. 80

IV. New GM Issues A Recall—Ten Years Too Late. 91

V. New GM's Recall Fails to Correct the Defect. 93

VI. New GM Expands the February/March Recall—and Suspends Two Engineers. 95

VII. The June 2014 Recall For The "Ignition Key Slot" Defect Further Reveals New GM's Fraudulent Concealment of Known Serious Safety Problems. 96

TABLE OF CONTENTS
(continued)

Page

VIII. The July 2 and 3, 2014 Recalls Relating to the Unintended Ignition Rotation Defect Further Reveal New GM's Fraudulent Concealment of Known Serious Safety Problems. 111

IX. The September 2014 Ignition Switch Defect Recall Is the Latest Evidence of the Extent of the Defects and New GM's Ongoing Concealment. 130

X. Even As They Concealed the Safety Defects From Consumers, Old and New GM Each Presented Their Vehicles As Safe And Reliable, and Presented Itself As An Honest Company With Integrity. 133

XI. New GM Promoted All Of Its Vehicles As Safe, Reliable, And High-Quality While It Fraudulently Concealed Numerous Safety Defects 149

A. New GM Claimed To Be Turning Over A New Leaf After The Bankruptcy. 149

B. New GM's Advertising And Literature Claimed That GM Placed Safety And Quality First. 159

C. New GM Concealed And Disregarded Safety Issues As A Way Of Doing Business. 172

D. New GM Admitted Its Failure To Disclose The Defects In Its Vehicle, Attempting To Reassure The Public That It Can Now Be Trusted. 178

XII. Other Recently Revealed Information Demonstrates New GM's Widespread Ongoing Pattern Of Concealing Dangerous Defects In GM-Branded Vehicles That Has Caused Diminution in the Value of the Defective Vehicles. 181

A. The Ignition Lock Cylinder Defect. 182

B. There Have Been Extensive Additional Recalls of GM-branded Vehicles With Additional Safety-Related and Other Defects. 186

XIII. New GM's Misrepresentations That It Made Safe And Reliable Cars, The Ignition Switch Defect, and Other Safety Defects Have Harmed Plaintiffs And The Classes. 229

JURY TRIAL DEMANDED..... 649

INTRODUCTION

1. This Consolidated Complaint ("Complaint") is filed as a civil action under the authority and direction of the Court as set forth in Section III of its August 15, 2014 Order No. 8. It is intended to serve as the Plaintiffs' Master Class Action Complaint for purposes of discovery, pre-trial motions and rulings (including for choice of law rulings relevant to Rule 23 of the Federal Rules of Civil Procedure, and class certification itself), and the determination and trial of certified claims or common questions in these multi-district litigation ("MDL") proceedings with respect to millions of vehicles recalled by New GM, that were originally sold by Old GM.

2. Plaintiffs bring this action for a Nationwide Class of all persons in the United States who either bought or leased a vehicle with one of the ignition switch related defects, as defined herein ("Defective Vehicle") prior to the Bankruptcy Sale Order and: (i) still own or lease the vehicle, or (ii) sold the vehicle on or after February 14, 2014; or (iii) owned or leased a Defective Vehicle that was declared a total loss after an accident on or after February 14, 2104 and, as set forth in the CLASS ACTION ALLEGATIONS section of this Complaint, State Classes of such purchasers (collectively, the "Classes").

3. This case involves New GM's egregious and ongoing failure to disclose and affirmative concealment of a known safety defect in Old GM-manufactured vehicles. This Complaint is bought on behalf of the Classes for recovery of damages, statutory penalties, and injunctive relief/equitable relief against New GM as the sole Defendant. This Complaint asserts each of the Classes' claims for relief on two distinct and separate bases of liability against New GM: First, this Complaint asserts each of the claims for relief herein based on New GM's own wrongful conduct and breaches of its own independent, non-derivative duties

toward the Classes. Second, this Complaint alternatively asserts claims on behalf of the Classes against New GM for its liability as a successor and mere continuation of Old GM.

4. This Complaint, consistent with Fed. R. Civ. P. 1's directive to secure the "just, speedy and inexpensive determinations of every action and proceeding," sets forth those facts relating to the unprecedented abnegation by New GM of basic standards of safety, truthfulness, and accountability, to the detriment of millions of consumers and the public at large, that are capable of determination in this MDL. It draws upon an array of sources, including but not limited to documents GM recently produced to the National Highway Traffic Safety Administration ("NHTSA"), the House Energy & Commerce Committee, and the results of an internal investigation overseen by Anton R. Valukas ("Valukas Report").[1] These documents include tens of thousands of pages of unheeded consumer complaints.

5. This Complaint neither waives nor dismisses any claims for relief against any defendant not included in this pleading that are asserted by any other plaintiffs in actions that have been or will be made part of this MDL proceeding, except by operation of the class notice and any opt-out provisions on claims or common questions asserted in this Complaint and certified by this Court. Certain claims for certain parties may, consistent with 28 U.S.C. § 1407 and the caselaw thereunder, be matters for determination on remand by transferor courts.

6. An auto manufacturer should never make profits more important than safety and should never conceal defects that exist in its vehicles from customers or the public. New GM Vehicle Safety Chief Jeff Boyer acknowledged that: "Nothing is more important than the safety of our customers in the vehicles they drive."

[1] These sources are referred to as "GMNHTSA," "GMHEC," and the "Valukas Report." Other sources are described herein

7. The first priority of a car manufacturer should be to ensure that the vehicles who bear its brands are safe, and particularly that its vehicles have operable ignition systems, airbags, power steering, power brakes, seatbelt pretensioners, and other safety features that can prevent or minimize the threat of death or serious bodily harm to the vehicle's occupants.

8. The Transportation Recall Enhancement, Accountability and Documentation Act ("TREAD Act")[2], its accompanying regulations, and state statutory and common law require prompt disclosure of serious safety defects known to a manufacturer.[3] If it is determined that the vehicle is defective, the manufacturer may be required to notify vehicle owners, purchasers, and dealers of the defect, and may be required to remedy the defect.[4]

9. Millions of vehicles designed, manufactured, and sold by Old GM have a safety defect such that the vehicle's ignition switch inadvertently moves from the "run" position to the "accessory" or "off" position during ordinary driving conditions, resulting in a loss of power, vehicle speed control, and braking, as well as a failure of the vehicle's airbags to deploy. These vehicles are referred to in this Complaint as "Defective Vehicles."

10. In February and March of 2014, New GM, which has assumed the liabilities of Old GM for the conduct at issue in this Complaint, and which has independent and non-derivative duties of candor and care based upon its own knowledge and conduct, issued its first set of recalls of various models due to the defective ignition switch. The recalls encompassed 2.19 million vehicles in the United States and included the following models of cars manufactured by Old GM: 2005-2009 Cobalts; 2007-2009 Pontiac G5s; 2006-2009 Chevrolet HHRs and Pontiac Solstices; 2005-2006 Pontiac Pursuits; 2003-2007 Saturn Ions; and 2007-2009 Saturn Skys.

[2] 49 U.S.C. §§ 30101-30170.
[3] 49 U.S.C. § 30118(c)(1) & (2).
[4] 49 U.S.C. § 30118(b)(2)(A) & (B).

11. The ignition switch systems in these vehicles are defective for several reasons, including (a) the ignition switch is too weak to hold the key in place in the "run" position; (b) the low position of the switches in the Defective Vehicles, as exacerbated by the use of a "slotted" key; and (c) they cause the airbags to become inoperable when the ignition switch is in the "accessory" or "off" position. As NHTSA's Acting Administrator testified in recent Congressional hearings, a vehicle's airbags should deploy whenever the car is moving—even if the ignition switch moves out of the "run" position.

12. On June 23, 2014, New GM notified NHTSA and consumers that it was issuing a second recall for Defective Vehicles (the "June recall"). Here, New GM recalled 3.14 million vehicles. New GM characterized the June recall as relating to the design of the ignition key with a slot (rather than a hole), which allows the key and the key fob to hang lower down in the vehicle where it is vulnerable to being hit by the driver's knee. Despite this delineation, this "key slot defect" is substantially identical to the ignition switch defect that gave rise to the earlier recall and creates the same safety risks and dangers.

13. According to documents on NHTSA's website, 2,349,095 of the vehicles subject to the June recall were made by Old GM. 792,636 vehicles were made and sold by New GM. The Defective Vehicles made by Old GM with the ignition key slot defect include:

- 2005-2009 Buick Lacrosse
- 2006-2009 Buick Lucerne
- 2004-2005 Buick Regal LS & GS
- 2000-2005 Cadillac Deville
- 2007-2009 Cadillac DTS
- 2006-2009 Chevrolet Impala
- 2006-2007 Chevrolet Monte Carlo

14. Like the ignition switch defect that is the subject of the February/March recall, the ignition key slot defect poses a serious and dangerous safety risk because the key in the ignition switch can rotate and consequently cause the ignition to switch from the "on" or "run" position to "off" or "accessory" position. This, in turn, may result in a loss of engine power, stalling, loss of speed control, loss of power steering, loss of power braking, and increase the risk of a crash. Moreover, as with the ignition switch defect, because of this defect, if a crash occurs, the airbags are unlikely to deploy.

15. New GM has tried to characterize the recall of these 3.14 million vehicles as being different than the ignition switch defect in the February/March recall when in reality it is for exactly the same defect, posing the same safety risks. New GM has attempted to distinguish the ignition key slot defect from the ignition switch defect to provide it with cover and an explanation for why it did not recall these 3.14 million vehicles much earlier, and allow New GM to provide a more limited, cheap and ineffective "fix" in the form of a key with hole (as opposed to a slot).

16. On July 2-3, 2014 New GM announced it was recalling 7.29 million Defective Vehicles due to "unintended key rotation" (the "July recall"). The vehicles with the unintended key rotation defect were built on the same platform and with defective ignition switches, likely due to weak detent plungers just like the other Defective Vehicles. The Old GM vehicles implicated in the July recall are: 2000-2005 Chevrolet Impalas and Monte Carlos; 1997-2005 Chevrolet Malibus; 1999-2004 Oldsmobile Aleros; 1999-2005 Pontiac Grand Ams and 2004-2008 Pontiac Grand Prixs; certain 2003-2009 Cadillac CTSs; and certain 2004-2006 Cadillac SRX vehicles.

17. As with the vehicles subject to the June recall, New GM has downplayed the severity of the "unintended key rotation" defect, and its recall offers a similarly cheap and ineffective "fix" in the form of new keys. New GM is *not* upgrading the ignition switches in these vehicles, altering the placement of the ignition so that it is not placed low on the steering column and is not correcting the algorithm that immediately disables the airbags as soon as the Defective Vehicle's ignition switch leaves the "run" position.

18. Collectively these three groups of recalls (as well as a yet another very recent recall first posted on the NHTSA website on September 9, 2014 involving unintended ignition key rotation defects and another nearly 47,000 vehicles, including 2008-2009 Pontiac G8s) all relate to defects in the ignition switch system that New GM could and should have remedied years ago. The vehicles in these recalls are the "Defective Vehicles."

19. From at least 2005 to the present, both Old GM and New GM received reports of crashes and injuries that put Old GM and New GM on notice of the serious safety issues presented by its ignition switch system. Given the continuity of engineers, general counsel, and other key personnel from Old GM to New GM, to say nothing of the access to Old GM's documents, New GM was aware of the ignition switch defects *from the very date of its inception* pursuant to the July 5, 2009 bankruptcy Sale Order, which became effective on July 11, 2009.

20. Despite the dangerous, life-threatening nature of the ignition switch defects, including how the defects affect critical safety systems, New GM concealed the existence of the defects and failed to remedy the problem.

21. The systematic concealment of known defects was deliberate, as both Old and New GM followed a consistent pattern of endless "investigation" and delay each time they

became aware (or aware yet again) of a given defect. In fact, recently revealed documents show that both Old and New GM valued cost-cutting over safety, trained their personnel to *never* use the word "defect," "stall," or other words suggesting that any GM-branded vehicles are defective, routinely chose the cheapest part supplier without regard to safety, and discouraged employees from acting to address safety issues.

22. According to the administrator of NHTSA, Old and New GM worked to hide documents from the government regulator and to keep people within the Companies from "connecting the dots" to keep information secret.

23. New GM's CEO, Mary Barra, has admitted in a video message that: "Something went wrong with our process in this instance, and terrible things happened." But that admission, and New GM's attempt to foist the blame on its parts supplier and engineers, lawyers and others whom it has now terminated, are cold comfort for Plaintiffs and the Class.

24. As a result of the disclosure of these defects and Old and New GM's independent roles in concealing their existence, the value of Defective Vehicles has diminished. For example, a 2007 Saturn Ion sedan is estimated to have diminished in value by $251 in March 2014 as a direct result of these disclosures of unlawful conduct. A 2007 Saturn Sky was down $238.

25. But there is more. In the first eight months of 2014, New GM announced at least 60 additional recalls, bringing the total number of recalled vehicles up to more than *27 million*. The unprecedented scope of these recalls has completely belied the Companies' claims that they made reliable and safe cars. As a result of these further revelations the Defective Vehicles suffered additional diminished value. For example, the 2007 Saturn Ion sedan's estimated diminution was $472 in September 2014 and the 2007 Saturn Sky had $686

in diminished value. From its very inception, New GM had the knowledge, the choice, the opportunity, and the responsibility to prevent personal and economic harm by timely and properly recalling the Defective Vehicles and timely and properly correcting the other safety defects. The economic harm to millions of customers that manifested upon the long-delayed recalls and revelation of New GM's ongoing concealment of these defects could have been prevented by timely discharge of its duties. This Complaint seeks the redress now available at law and in equity for New GM's failure to do so.

JURISDICTION AND VENUE

26. This Court has diversity jurisdiction over this action under 28 U.S.C. §§ 1332(a) and (d) because the amount in controversy for the Class exceeds $5,000,000, and Plaintiffs and other Class members are citizens of a different state than Defendant.

27. This Court has personal jurisdiction over Plaintiffs because Plaintiffs submit to the Court's jurisdiction. This Court has personal jurisdiction over New GM because it conducts substantial business in this District, and some of the actions giving rise to the complaint took place in this District.

28. Venue is proper in this District under 28 U.S.C. § 1391 because New GM, as a corporate entity, is deemed to reside in any judicial district in which it is subject to personal jurisdiction. Additionally, New GM transacts business within this District, and some of the events establishing the claims arose in this District. Additionally, New GM requested that the Judicial Panel on Multi-District litigation transfer and centralize the ignition defect class actions filed by Plaintiffs to this District and the Judicial Panel has done so.

29. Pursuant to this Court's direction that new plaintiffs can file directly in the MDL without first filing in the district in which they reside, new plaintiffs file this action as if it had been filed in the judicial district in which they reside.

PARTIES

I. Plaintiffs

30. Unless otherwise indicated, all Plaintiffs below purchased their GM-branded vehicles primarily for personal, family, and household use.

31. Unless otherwise indicated, all Plaintiffs' vehicles described below were manufactured, sold, distributed, advertised, marketed, and warranted by GM.

Debra Forbes—Alabama: Plaintiff and proposed Nationwide and Alabama State Class Representative Debra Forbes is a resident and citizen of Geneva, Alabama. Ms. Forbes purchased a new 2007 Chevrolet Cobalt in 2007 in Fort Walton Beach, Florida for $16,000. Her vehicle is covered by a seven-year warranty that expires at the end of 2014. Among other incidents consistent with ignition switch shutdown, Ms. Forbes' steering locked up on three or four occasions, in May or June 2010, fall 2010, and spring 2011, all on normal road conditions and while she was driving approximately 25-30 miles per hour. Each time she had to slam on her brakes and manipulate the ignition switch to unlock the steering. Although the ignition switch on Ms. Forbes's car has been repaired, other repairs are incomplete, pending the arrival of parts. The book value of Ms. Forbes' vehicle is presently only approximately $6,000. She would not have purchased her vehicle if she knew of the problems with the ignition switch.

Aaron Henderson—Alabama: Plaintiff and proposed Nationwide and Alabama State Class Representative Aaron Henderson is a resident and citizen of Buhl, Alabama. Mr. Henderson purchased a new 2007 Saturn Ion 3 in September, 2006, in Madison, Wisconsin for approximately $17,500. At the time Mr. Henderson purchased his new Saturn it was under warranty. Mr. Henderson has experienced two accidents in this car—one on December 7, 2012, and the other on February 23, 2014. The airbags failed to deploy in both accidents, and

Mr. Henderson suffered minor injuries as a result. Mr. Henderson has spent approximately $9,000 to repair his vehicle following these accidents. Mr. Henderson did not learn of the ignition switch defects until March of 2014. In May of 2014, the ignition switch recall repair work was performed on his vehicle. Mr. Henderson would not have purchased the vehicle if he had known of the problems with the ignition switch.

Marion Smoke—Alabama: Plaintiff and proposed Nationwide and Alabama State Class Representative Marion Smoke is a resident and citizen of Elmore, Alabama. Ms. Smoke purchased a new 2005 Chevy Cobalt the week of May 5, 2005 in Montgomery, Alabama, for $19,000. At the time Ms. Smoke purchased her new Cobalt, she also purchased the manufacturer's warranty. Ms. Smoke's Cobalt unexpectedly shut off on at least seven separate occasions, all of them while she was driving on highways. She has also had trouble with the steering wheel being hard to turn making it difficult to drive. As a result of the issues with her vehicle and ignition switch recall and associated risks, she fears driving her vehicle despite having the recall work performed on her vehicle in April of 2014. She believes the value of her vehicle has been diminished as a result of the defects. Ms. Smoke feels that the safety of the vehicle was misrepresented, and she would not have purchased this car if GM had been honest about the safety defects.

Grace Belford—Arizona: Plaintiff and proposed Nationwide and Arizona State Class Representative Grace Belford is a resident and citizen of Phoenix, Arizona. Ms. Belford purchased a new 2005 Chevrolet Cobalt in October 2005, in Phoenix, Arizona for $18,900. Ms. Belford also purchased the warranty for her Cobalt. On two separate occasions, Ms. Belford's ignition has unexpectedly shut off after her vehicle went over a bump in the road. Ms. Belford did not learn of the ignition switch defects until March of 2014. She immediately

requested a loaner vehicle, but she had no choice despite her concerns to continue to drive the Cobalt to work, as it was her only form of transportation. It took about three months for the recall repair work to be completed on Ms. Belford's vehicle. Ms. Belford had planned to use her Cobalt as a down payment on a new vehicle, but the resale value of her Cobalt was diminished due to the ignition switch defect. Ms. Belford traded in her Cobalt in August of 2014. She was only offered $3,000 for the vehicle - $2,000 less than current Kelley Blue Book value. Ms. Belford would never have purchased the 2005 Chevrolet Cobalt had she known about the defects and GM's indifference with regard to the safety and reliability of its vehicles.

Camille Burns—Arkansas: Plaintiff and proposed Nationwide and Arkansas State Class Representative Camille Burns is a resident and citizen of Pine Bluff, Arkansas. Ms. Burns purchased a used 2006 Chevrolet Cobalt on or about November 1, 2006, from Smart Chevrolet in White Hall, Arkansas, for over $16,000. At the time of purchase, the car was still covered under warranty. Ms. Burns recalls reading that GM and Chevrolet-branded vehicles were great cars with reliable parts. Ms. Burns' Cobalt shutdown "too many times to count"—approximately two to three times per week between June 2014 and the time she traded the vehicle in around July 14, 2014. These unexpected shutdowns occurred when Ms. Burns was pulling out into traffic, backing up, or turning her car. Each time she would be forced to restart the car. The last time it shut off suddenly, it almost caused an accident. She also experienced a loss of power steering while backing out of her driveway. Ms. Burns had her car checked by an independent repair shop, but they could not diagnose the problem. Upon calling a GM dealership about the ignition recall, the dealership refused to provide her a loaner car. But when she called GM directly, they advised her that she should get out of the car immediately. Although her Cobalt had been paid off, based on the repeated shutdowns,

GM's advice, and GM's inability to fix it, Ms. Burns felt compelled to trade in the Cobalt for a safer vehicle. On or about July 14, 2014, she traded it to Smart Hyundai and received only $2,500. The new car payment was a financial hardship. Ms. Burns asserts that the Cobalt suffered a diminution of value due to the ignition switch defects, the recalls, and the surrounding publicity. Ms. Burns would not have purchased the Cobalt, or she would have paid less for it, had she known about its defects.

Patricia Barker—California: Plaintiff and proposed Nationwide and California Class Representative Patricia Barker is a resident and citizen of Wilmington, California. Ms. Barker purchased a new 2005 Saturn Ion in Torrance, California in March 2005 for approximately $18,000. The car was covered under the standard manufacturer's warranty, and she also purchased an extended warranty. She chose the Saturn, in part, because she wanted a safely-designed and manufactured vehicle. She saw advertisements for Old GM Vehicles before she purchased the Saturn and, although she does not recall the specifics of the advertisements, she does recall that safety and quality were consistent themes across the advertisements she saw. These representations about safety and quality influenced Ms. Barker's decision to purchase the Saturn. She has experienced power steering failure in her car on at least two separate occasions. In both instances she was able to reboot the power steering after restarting the car. Ms. Barker did not learn of the ignition switch defects until about February 2014 when she received an undated recall notice in the mail. She then saw a commercial notifying affected GM drivers that they could receive a loaner car while waiting for backordered recall parts to arrive. When she went to a local GM dealership they gave her a 2014 Chevy Impala. She drove this car for forty-five days until her car was repaired in April 2014. Only after she returned the loaner did she find out that it was under recall for the same ignition issue as her

own vehicle. Ever since the recall repair has been completed on her car she has some difficulty turning the key in her ignition. Ms. Barker would not have purchased this car had she known about the defects in her GM vehicle.

Michael and Sylvia Benton—California: Plaintiffs and proposed Nationwide and California State Class Representatives Michael and Sylvia Benton are residents and citizens of Barstow, California. Mr. and Mrs. Benton purchased a used 2005 Chevrolet Cobalt on January 10, 2009, in Barstow, California, for $12,789.76. The Bentons chose the Cobalt, in part, because they wanted a safely designed and manufactured vehicle. They saw advertisements for vehicles before they purchased the Cobalt, and, although they do not recall the specifics of the advertisements, they do recall that safety and quality were consistent themes across the advertisements they saw, which influenced their purchase decision. The vehicle was not covered under warranty when they purchased it. Mr. and Mrs. Benton purchased gap warranty for the Cobalt for a term of 48 months. The Bentons' vehicle has shutdown at least 20 times. Mr. and Mrs. Benton did not learn of the ignition switch defects until March 2014. In April 2014, they took their Cobalt to the dealership in their area to have the recall work performed. They were provided a loaner vehicle. The Bentons still fear driving their vehicle due to the ignition switch recall and the risk posed by the ignition switch defects. They would not have purchased this car, or would have paid less than they did, if GM was honest about the safety defects.

Melvin Cohen—California: Plaintiff and proposed Nationwide and California State Class Representative Melvin Cohen is a resident and citizen of California City, California. Mr. Cohen purchased a new 2006 Chevrolet Cobalt on January 13, 2006, from Rally Auto Group in Palmdale, California, for $22,799.80. He does not believe his vehicle was covered by

written warranties. Mr. Cohen had a general impression that GM was a quality brand and that the vehicle was safe and reliable. In October of 2008, Mr. Cohen's wife, Karin was driving the vehicle when it suddenly shut off while making a left turn into a gas station in California City, California. Ms. Cohen was unable to control the vehicle once it shut off, and it was hit by another vehicle when it strayed out of its lane. The airbags did not deploy even though the impact was significant enough to total the vehicle. Mr. Cohen would not have purchased the vehicle had he known of the defects.

Esperanza Ramirez—California: Plaintiff and proposed Nationwide and California State Class Representative Esperanza Ramirez is a resident and citizen of Los Angeles, California. Ms. Ramirez purchased new 2007 Saturn Ion on March 13, 2007, at a dealership in California for $27, 215. Her vehicle was covered by a warranty at the time of purchase. Ms. Ramirez has experienced several incidents consistent with the ignition defects, and is unable to drive the car on freeways or for long distances. She had seen commercials about Saturns featuring families that trusted Saturns. Had she known of the problems with her GM car, she would not have purchased it.

Kimberly Brown—California: Plaintiff and proposed Nationwide and California State Class Representative Kimberly Brown is a resident and citizen of Palmdale, California. Ms. Brown purchased a new 2006 Chevrolet HHR on January 7, 2007, at Rally Auto Group in Palmdale, California, for $30,084. Her car was under a 48-month or 100,000 mile warranty at the time she purchased it. She and her husband relied on the advertising posted at the GM dealership where they purchased the vehicle, as well as the GM brand name and its purported reputation for safety and quality, which were consistent with the representations at the GM dealership. Between 2007 and 2011, Ms. Brown's vehicle inadvertently shutdown four or five

times a year, and on several other occasions she had to use heavy force to turn the wheel. Between 2012 and 2014, her vehicle inadvertently shutdown eight or nine times a year, and on several other occasions she had to use heavy force to turn the wheel. Her vehicle typically shuts down while going over bumpy roads, speed bumps, or railroad tracks. It will shutdown while the gear is in drive and the key is in the "on" position. To remedy the problem she puts the gear into neutral and restarts the car. Although the GM dealership indicated that it fixed the ignition switch defect during a post-recall repair in May of 2014, Ms. Brown and her husband have experienced their ignition shutting down at least five times since then. In September 2014, she returned to the dealer to try to have the ongoing shutdowns remedied, and she had to pay out of pocket for a loaner vehicle. Ms. Brown would not have paid the purchase price she paid if she had known GM was manufacturing and selling vehicles plagued with defects, and was not committed to the safety and reliability of its vehicles.

Javier Malaga—California: Plaintiff and proposed Nationwide and California State Class Representative Javier F. Malaga is a resident and citizen of in Playa Del Rey, California. On or about August 7, 2013, Mr. Malaga purchased a used 2006 Cobalt LS, which he still owns, for $15,979.08. When Mr. Malaga purchased the 2006 Cobalt LS, it was not covered by a written warranty. On two occasions Mr. Malaga was unable to turn on the engine with his ignition key. Mr. Malaga returned the car to a dealer for repairs on or about February 15, 2008, and March 25, 2010. One of GM's main selling points has been the efficiency, cost effectiveness, and safety of its vehicles. Mr. Malaga's purchase was based, in significant part, on these representations and assertions by GM. If GM had disclosed the nature and extent of its problems, Mr. Malaga would not have purchased a GM vehicle, or would not have purchased the vehicle for the price paid.

William Rukeyser—California: Plaintiff and proposed Nationwide and California State Class Representative William Rukeyser is a resident and citizen of Davis, California. After researching vehicles on the GM website, Mr. Rukeyser purchased a new 2008 Chevrolet Cobalt on September 4, 2008, in Lodi, California, for $16,215.54. Mr. Rukeyser purchased the manufacturer's warranty at the same time. Mr. Rukeyser had the ignition switch replaced on August 8, 2014. He was provided a loaner vehicle during the two months it took to complete the recall repair work. Mr. Rukeyser would not have purchased this car if GM had been honest about the safety defects.

Yvonne Elaine Rodriguez—Colorado: Plaintiff and proposed Nationwide and Colorado State Class Representative Yvonne Elaine Rodriguez is a resident and citizen of Lakewood, Colorado. She purchased a new 2007 Chevrolet HHR on December 5, 2006, at EMICH Chevrolet in Lakewood, Colorado, for $20,735.87. At the time of purchase, the HHR was covered by Chevrolet's standard warranty. Ms. Rodriguez did not find out about the ignition defect and the safety risk it posed until she received a recall notice in March 2014. After that point, Ms. Rodriguez stopped using her HHR for any long trips or highway driving, for fear of the safety of her family and herself. As soon as she received the recall notice, Ms. Rodriguez attempted to have the recall repair performed on her vehicle, but was informed that the parts were not available. Ms. Rodriguez continued to try to schedule the repair, but because of a lack of parts, she was not able to get her HHR repaired until June 2014. Even after the recall repair, however, Ms. Rodriguez does not feel her HHR is safe, and she and her family continue to avoid long trips and highway driving with the HHR. Ms. Rodriguez would not have purchased her vehicle if she had known that GM cars were plagued by defects and produced by a company that is not committed to safety.

Dawn Orona—Colorado: Plaintiff and proposed Nationwide and Colorado State Class Representative Dawn Orona is a resident and citizen of Limon, Colorado. Ms. Orona purchased a new 2005 Chevrolet Cobalt on August 6, 2005, from Century 1 Chevrolet in Broomfield, Colorado, for a total sale price of $35,053.92. She financed a portion of the sales price, paid a portion of the sales price by trading in an older Chevrolet vehicle, and paid the balance of the purchase in cash. Ms. Orona's vehicle was covered by a warranty and the warranty had not expired at the time the vehicle was totaled in an accident. In the years prior to her purchase and around the time of her purchase, Ms. Orona viewed multiple commercials in which GM touted the safety of its vehicles, and she believed she was purchasing a vehicle that was safe and defect-free. Ms. Orona's vehicle spontaneously shut off a number of times within the first several months of purchasing it. Approximately six months after purchasing the 2006 Chevrolet Cobalt, Ms. Orona and her husband experienced a power loss while attempting to complete a turn on a curve. Although her husband applied both feet on the brakes, the car jumped the curb and plowed into a brick wall. The impact of the crash was severe enough to break the front axle, totaling the vehicle, but the air bags never deployed. Ms. Orona would not have purchased the vehicle had she known of the defects.

Michael Pesce—Connecticut: Plaintiff and proposed Nationwide and Connecticut State Class Representative Michael Pesce is a resident and citizen of Waterbury, Connecticut. Mr. Pesce purchased a used 2006 Chevrolet Cobalt on May 29, 2008, in Waterbury, Connecticut, for approximately $12,000. When Mr. Pesce bought the car it was still covered under a three-year, 36,000-mile warranty. Mr. Pesce was a repeat GM customer and trusted the GM brand when he decided to purchase his Cobalt. This was Mr. Pesce's fifth time owning a GM vehicle. In August 2011, Mr. Pesce's 18 year-old son was driving the car on a

major highway in Connecticut when the vehicle lost all power. His son was able to pull over and restart the car, but after another few minutes it died again. Mr. Pesce paid to have the vehicle looked over and repaired, but he now believes the problem was related to the ignition switch defects. Mr. Pesce did not learn about the ignition switch defects until March 2014. The recall repair work was not performed until September 2014, more than six months later. While he waited for the repair work, Mr. Pesce only drove the vehicle if there was an emergency because he was afraid to drive the car. Mr. Pesce does not feel this car is worth what he paid for it and will not buy another GM vehicle.

Lisa Teicher—Connecticut: Plaintiff and proposed Nationwide and Connecticut State Class Representative Lisa Teicher is a resident and citizen of Manchester, Connecticut. Ms. Teicher purchased a used 2005 Chevrolet Cobalt on January 24, 2008, from Gengras Chevrolet in Hartford, Connecticut, for $7,769.22. Her vehicle was covered by written warranty that has now expired. Ms. Teicher received a direct mailing from Gengras Chevrolet advertising the vehicle she purchased. These and other consistent representations at the dealership left her with the impression that the vehicle was safe and reliable. She believed her vehicle was safe and defect free when she purchased it. Ms. Teicher's vehicle has spontaneously turned off on two occasions. In June 2008, her vehicle locked up and shut off while she was driving on an exit ramp on Route 2 in Connecticut. She was unable to control the vehicle and ended up hitting a barrier on the road. She hit her head on the dash and was injured, but hospitalization was not required. The airbags did not deploy during this collision. In May of 2009, Ms. Teicher's vehicle again shut off while she was driving to work on I-84 in Connecticut just before Exit 64. She was able to bring the vehicle to a stop and re-start the vehicle again. On June 25, 2014, she had her ignition switch replaced by Carter Chevrolet,

located in Manchester, Connecticut, in connection with the recalls GM initiated in response to the ignition switch defects. Ms. Teicher would not have purchased the vehicle had she known of the defects.

Steven Diana—Florida: Plaintiff and proposed Nationwide and Florida State Class Representative Steven Diana is a resident and citizen of Sebastian, Florida. Mr. Diana purchased a used 2002 Chevrolet Impala in July 2007 from Champion Motors in Mansfield, Connecticut, for $12,500. Mr. Diana did not purchase an extended warranty and does not believe his vehicle is currently covered by any written warranties. Mr. Diana expressly recalls seeing advertisements on television and in the newspaper about the 2002 Chevrolet Impala, including advertisements touting its safety. He considered and was influenced by the advertisements emphasizing the safety of the vehicle when making his purchase. Mr. Diana believed his vehicle was safe and defect-free when he purchased it. Mr. Diana's vehicle spontaneously shut off in January 2009, July 2012, and August 2012. On each occasion Mr. Diana was driving on or around I-95 near his home in Sebastian, Florida, and the road was bumpy. On each occasion, Mr. Diana had to put the vehicle in neutral to get it to restart. Mr. Diana would not have purchased the vehicle had he known of the defects.

Maria E. Santiago—Florida: Plaintiff and proposed Nationwide and Florida State Class Representative Maria Santiago is a resident and citizen of Cutler Bay, Florida. Ms. Santiago purchased a new 2007 Saturn Ion Coupe in late 2006 at a Saturn Dealership at Dadeland South in Miami, Florida, for approximately $20,000. Ms. Santiago also purchased an extended warranty for the vehicle that is still active. Ms. Santiago purchased her Ion because she understood and believed that GM vehicles were durable and reliable. Sometime in 2009, as Ms. Santiago was leaving a friend's house and driving onto an expressway ramp,

her Ion turned suddenly turned off. Since Ms. Santiago had just entered the expressway ramp and was driving at only 25 miles per hour, she was able to pull her vehicle over to the side of the ramp. She soon noticed the ignition key was in the off position, for no apparent reason. Ms. Santiago was able to restart the car and continue driving. Plaintiff Santiago would not have purchased her Ion had she known of the car's ignition switch defect.

Turner Clifford—Georgia: Plaintiff and proposed Nationwide and Georgia State Class Representative Turner Clifford is a resident and citizen of Palmetto, Georgia. He purchased a used 2004 Saturn Ion in September 2005 in Marietta, Georgia, for $15,000. Mr. Clifford purchased a standard three-year warranty on his vehicle. Mr. Clifford experienced safety issues while driving his vehicle, including periodic shut-offs, usually when driving the interstate, and the key falling out of the ignition on occasion while driving. Mr. Clifford stopped driving his vehicle as soon as he learned about the safety recall. In April 2014, he brought his vehicle to the dealership to have his ignition switch replaced, but the repair did not occur until late June/early July. During that time, Mr. Clifford incurred considerable additional fuel costs because the rental vehicle he was given consumed more fuel than his Saturn had. In August 2014, Mr. Clifford traded in his Saturn Ion. He believes he received less in trade in value as a result of the GM recalls, but he no longer wanted to own the Saturn. When he traded in his vehicle, the dealership informed him that it would have to sell the Saturns at wholesale because of the safety recalls. Knowing what he now knows about the safety defects in the Saturn Ion, Mr. Clifford would not have purchased the vehicle.

Jennifer Gearin—Georgia: Plaintiff and proposed Nationwide and Georgia State Class Representative Jennifer Gearin is a resident and citizen of Clermont, Georgia. Ms. Gearin purchased a new 2006 Chevrolet Cobalt in 2006 in Gainesville, Georgia, for

$18,499.52. Her Cobalt was covered under the manufacturer's warranty when she purchased it. Ms. Gearin has owned GM products before and she and her family were loyal customers. Ms. Gearin was advised at the dealership that the Cobalt was most dependable car for the lowest price. Although Ms. Gearin has not experienced her vehicle shutting down while driving, she is very afraid for her safety as a result of the ignition switch defects and she must drive a long distance to work on a daily basis. Ms. Gearin did not learn about the ignition switch defects until March 2014. She had the recall repair work completed this summer and was provided a loaner vehicle. She would not have purchased this car if GM had been honest about the safety defects.

Winifred Mattos—Hawaii: Plaintiff and proposed Nationwide and Hawaii State Class Representative Winifred Mattos is a resident and citizen of Honolulu, Hawaii. Ms. Mattos purchased a new Pontiac G5 in April 2007 in Culver City, California, for $20,000. She also had a three-year warranty on her vehicle. When she first learned about the recall, Ms. Mattos stopped driving her vehicle on highways or long distances and then decided it was unsafe to drive any distance at all. She requested and obtained a rental vehicle while awaiting replacement of her ignition switch pursuant to the recall. Her vehicle's ignition switch was replaced in April 2014. Ms. Mattos is still concerned about driving her vehicle. She would like to sell it, but she doubts she will be able to sell it and, even if she could, she doubts she would receive what she would have received before the recall. She would need full, pre-recall notice value for her vehicle in order to purchase another vehicle. Knowing what she now knows about the safety defects in many GM-manufactured vehicles, she would not have purchased her vehicle.

Dennis Walther—Hawaii: Plaintiff and proposed Nationwide and Hawaii State Class Representative Dennis Walther is a resident and citizen of Honolulu, Hawaii. Mr. Walther purchased a new 2006 Saturn Ion in 2006 in Hawaii for approximately $16,400. His car had a three-year warranty when he purchased it. The vehicle's ignition switch has been replaced under the recall. He bought the car because he trusted GM. If Mr. Walther had known about the Ion's defects, he would never have purchased it. He will never purchase another GM product.

Donna Harris—Illinois: Plaintiff and proposed Nationwide and Illinois State Class Representative Donna Harris is a resident and citizen of Herrin, Illinois. Ms. Harris purchased a used 2006 Chevrolet Cobalt in Herrin, Illinois, in 2007 for approximately $13,000. She purchased the vehicle with a standard three-year manufacturer's warranty. Ms. Harris bought the vehicle because her father was a "GM person" and she believed the vehicle was safe and reliable. Safety is the feature Ms. Harris finds most important feature in a vehicle. Ms. Harris started experiencing shutdowns in her Cobalt in 2009. The first time she was backing out of parking lot and the vehicle shutdown; as a result, she collided with a parked truck. In another incident, the vehicle stalled while Ms. Harris was backing out of a hospital parking lot space and she hit a cement barrier. The second shutdown cost Ms. Harris $1,700 in repairs. She also has experienced problems with her vehicle not locking. She has had her ignition switch replaced, but she still experiences problems turning the key in the ignition. Ms. Harris no longer feels safe driving her car, but she has no other means of transportation. Had she known about the problems with her GM vehicle, she would not have purchased the car, and she will never again purchase a GM vehicle.

Heather Holleman—Indiana: Plaintiff and proposed Nationwide and Indiana State Class Representative Heather Holleman is a resident and citizen of South Bend, Indiana. Ms. Holleman purchased a new 2007 Pontiac G5 in May 2007 from Don Meadows in South Bend, Indiana, for $17,500. Ms. Holleman has experienced numerous issues with the ignition of her Pontiac G5. The GM dealership where she purchased her vehicle has told her that the parts to fix the vehicle are unavailable, and she should simply "be careful." Ms. Holleman would not have purchased the vehicle had she known of the defects.

James Dooley—Iowa: Plaintiff and proposed Nationwide and Iowa State Class Representative James Dooley is a resident and citizen of Waterloo, Iowa. Mr. Dooley purchased a new 2006 Pontiac Solstice from Dan Deery Chevrolet in Cedar Falls, Iowa, in June 2006 for $28,000. Mr. Dooley purchased an extended seven-year warranty on the vehicle. Mr. Dooley did not experience a power failure during normal operation of his vehicle, but he stopped driving his vehicle in March 2014 when he learned about the safety recall because he was afraid for his safety. Because Mr. Dooley was unaware that GM was offering loaner vehicles to individuals afraid to drive their defective vehicles, he did not drive the vehicle again until August 2014 when the ignition switch was replaced. Knowing what he now knows about the safety defects in many GM-manufactured vehicles, he believes GM mislead him about the Solstice's safety and he would not have purchased the vehicle had he known the truth.

Philip Zivnuska, D.D.S.—Kansas: Plaintiff and proposed Nationwide and Kansas State Class Representative Philip Zivnuska, D.D.S., is a resident and citizen of Valley Center, Kansas. Mr. Zivnuska purchased a new 2006 Chevrolet Cobalt from Conklin Cars dealership in Newton, Kansas, in 2006 for approximately $25,000. His vehicle was covered by

Chevrolet's standard new car warranty at the time it was purchased. Throughout the course of his ownership of the Cobalt, Dr. Zivnuska and his family members experienced numerous issues consistent with the ignition switch defect, including frequent total power failure and loss of power steering, and an accident. Dr. Zivnuska brought the Cobalt into Conklin Cars dealership multiple times to address the issues, and became so concerned that he eventually filed a complaint with NHTSA in 2007 to document the problems he was experiencing. He never received information from GM following this complaint, although he was lead to understand GM obtained information about his car, which was subsequently totaled in a later accident. Dr. Zivnuska is appalled by the number of people who have also experienced ignition switch issues and is very upset that GM has not been forthcoming to vehicle owners, mechanics, and dealerships. Dr. Zivnuska reviewed internet websites before purchasing his car, particularly because good handling was important to him. Had he known of the problems with his GM car, he would not have purchased it.

Dawn Talbot—Kentucky: Plaintiff and proposed Nationwide and Kentucky State Class Representative Dawn Talbot is a resident and citizen of Glasgow, Kentucky. Ms. Talbot purchased a used 2006 Chevrolet Cobalt in May 2009 from Goodman Automotive in Glasgow, Kentucky. Ms. Talbot's vehicle has regularly lost power during driving. She would not have purchased the vehicle had she known of the defects.

Jennifer Crowder—Louisiana: Plaintiff and proposed Nationwide and Louisiana State Class Representative Jennifer Crowder is a resident and citizen of Shreveport, Louisiana. She purchased a used 2006 Chevrolet Cobalt in 2008 in Shreveport, Louisiana, for $14,000. Her car was not under warranty at the time of purchase. Ms. Crowder experienced many instances of stalling in her Cobalt. Her vehicle stalled on many occasions while driving to

work. She was late to work so often due to the stalling that she was dismissed from her employment for arriving late to work. On another occasion, Ms. Crowder's vehicle shut off in the middle of the road while she was making a turn. She was fortunately able to start the vehicle on the second try and avoided an accident. Knowing what she now knows about the safety defects in many GM-manufactured vehicles, and the Cobalt in particular, she would not have purchased the vehicle nor even visited the dealership to look at the Cobalt.

Alysha Peabody—Maine: Plaintiff and proposed Nationwide and Maine State Class Representative Alysha Peabody is a resident and citizen of Kenduskeag, Maine. Ms. Peabody purchased a used 2005 Chevrolet Cobalt in 2006 in Maine for $14,000. Her car was under warranty at the time of purchase. Although she did not have ignition switch issues before the recall, since having the repair done her vehicle does not always start on the first try. She has tried to sell her car on Craigslist since news of the ignition switch defect went public, but has not received a single inquiry about the vehicle. Ms. Peabody would have never purchased a GM vehicle if she had known about the defects.

Robert Wyman—Maryland: Plaintiff and proposed Nationwide and Maryland State Class Representative Robert Wyman is a resident and citizen of Baltimore, Maryland. Mr. Wyman purchased a new 2007 Saturn Sky from the Owings Mills, Maryland, Heritage Group in 2007 for $32,000. His vehicle came with a three-year warranty. Although he has not experienced an inadvertent power failure while driving his vehicle, on multiple occasions Mr. Wyman had difficulty removing and/or inserting his ignition key into the ignition cylinder or starting his vehicle. Mr. Wyman's vehicle had the recall repair done on May 31, 2014. Had he known that the Saturn Sky contained a defective ignition switch, Mr. Wyman would not have

purchased the vehicle because it is a "death car," and he worries what might have happened had he "hit a bump a certain way."

George Mathis—Maryland: Plaintiff and proposed Nationwide and Maryland State Class Representative George Mathis is a resident and citizen of Parkville, Maryland. Mr. Mathis purchased a new 2007 Chevrolet Cobalt on April 1, 2007, in York, Pennsylvania, for $12,000. The vehicle was covered under warranty when he purchased it. Mr. Mathis has experienced his ignition shutting down while driving on three separate occasions, with one instance resulting in a minor accident, and the other two nearly resulting in an accident. Mr. Mathis did not learn about the ignition switch defects until March 2014. In August 2014, he took his Cobalt to the dealership in his area to have the recall work performed. Mr. Mathis would not have purchased this car, or would have paid less than he did, if GM had been honest about the safety defects.

Mary Dias—Massachusetts: Plaintiff and proposed Nationwide and Massachusetts State Class Representative Mary Dias is a resident and citizen of Taunton, Massachusetts. Ms. Dias purchased a used 2007 Chevrolet HHR on February 28, 2008, in Woonsocket, Rhode Island, for approximately $13,000. The vehicle was under warranty when she purchased it. Because of the ignition switch defects, Ms. Dias is very concerned for her safety every time she drives her vehicle. Ms. Dias did not learn of the ignition switch defects until March 2014. When she inquired about her safety, GM told her that her vehicle had not been recalled and not to worry. On April 11, 2014, after receiving notice that her HHR was in fact recalled, Ms. Diaz took her HHR in for the recall repair work and was provided a loaner vehicle. She would not have purchased this vehicle if she had known of the safety defects.

Colin Elliott—Massachusetts: Plaintiff and proposed Nationwide and Massachusetts State Class Representative Colin Elliott is a resident and citizen of Buzzards Bay, Massachusetts. Mr. Elliot purchased a new 2008 Saturn Sky in Hyannis, Massachusetts, in July of 2007 for $23,000. His vehicle was covered by a standard 100,000-mile warranty at the time of purchase. At the time of purchase, Mr. Elliott was choosing between a Saturn Sky and Pontiac Solstice. To avoid defects that he believed plagued early production models, however, Mr. Elliott waited two years before ordering his Saturn in the hopes that any early production defects would be discovered and fixed. Although he has not experienced an inadvertent power failure while operating the vehicle, Mr. Elliott has not driven his Sky since learning of the recall several months ago. He has contacted his dealership to inquire about the timing of repairs, but his dealership has indicated that it does not have parts available. Because he will no longer drive his Sky, Mr. Elliott and his wife have been sharing her Kia since March. This has caused significant inconvenience, as they drive each other to work and are dependent on one another's schedule.

Diana Cnossen—Michigan: Plaintiff and proposed Nationwide and Michigan State Class Representative Diana Cnossen is a resident and citizen of Grand Rapids, Michigan. Ms. Cnossen purchased a new 2007 Saturn Ion on November 27, 2006, in Michigan for $18,250. Her vehicle was covered under warranty when she purchased it. She purchased the vehicle because she was attracted to its compact size when she viewed it in the showroom. Ms. Cnossen did not experience a power failure during normal operation of her vehicle, though she often experienced difficulty turning the steering wheel. Ms. Cnossen's ignition switch was replaced under the recall on June 4, 2014. While she awaited a replacement part, Ms. Cnossen continued to use her vehicle because she was not aware that GM had offered to provide loaner

vehicles to those too afraid to continue operating their defective vehicles. Ms. Cnossen did not learn of the ignition switch defect until it was announced in March of 2014, and she would not have purchased her Saturn Ion had she known it continued a defective ignition switch. Ms. Cnossen will "never buy another car from GM."

David Cleland—Minnesota: Plaintiff and proposed Nationwide and Minnesota Class Representative David Cleland is a resident and citizen of Northfield, Minnesota. He purchased a used 2004 Saturn Ion in 2005 in Northfield, Minnesota, for $10,000. Mr. Cleland's Saturn Ion was covered under the standard manufacturer's warranty at the time he purchased it. Mr. Cleland read GM promotional material about the vehicle's safety and reliability, including the vehicle's airbags, prior to purchasing the vehicle. This spring, after the recall announcement, Mr. Cleland's children had a frontal collision while driving his vehicle. The airbags did not deploy, even though they should have under the circumstances of the collision. Knowing what he now knows about the safety defects in many GM-manufactured vehicles, and particularly his Saturn Ion, Mr. Cleland would not have paid the amount of money he paid, or even purchased, the vehicle.

Frances Howard—Mississippi: Plaintiff and proposed Nationwide and Mississippi State Class Representative Frances Howard is a resident and citizen of Jackson, Mississippi. Ms. Howard leased and then purchased a new 2006 Saturn Ion in April 2006 at a Saturn dealership in Jackson, Mississippi, for approximately $11,000. The vehicle was covered by a warranty at the time of purchase. She recalls seeing television ads touting the Saturn brand as outstanding with dependable vehicles and high-rated customer service. In 2009, Ms. Howard's key got stuck in the ignition and she could not turn the vehicle off. She drove it to the dealership and they replaced the ignition switch on September 8, 2009, at Ms. Howard's

expense. One week later the key got stuck in the ignition again. This time the GM dealership told her it was because her car's battery was dead. Their service was unhelpful and contradictory. Ms. Howard's car has also inadvertently shutdown on two occasions. The first time happened approximately four months ago when she accidentally bumped the key while it was in the ignition. The second time, on September 2, 2014, it shut off while she was at a red light. Both times the car restarted after she turned the key off and then on again. Ms. Howard was never contacted about the ignition switch recall, and only found out about it by reading news on the internet. After contacting her GM dealership about the repairs, it took eight weeks for the parts to come in. She also asked for a loaner vehicle, but they declined, telling her there were none available and it would be only two weeks until the parts arrived. Ms. Howard would have never purchased this vehicle if she had known about these defects

Michelle Washington—Missouri: Plaintiff and proposed Nationwide and Missouri State Class Representative Michelle Washington is a resident and citizen of Florissant, Missouri. Ms. Washington purchased a new 2008 Chevrolet Impala in July 2007 at a GM dealership in Missouri for approximately $27,000. She also purchased a new 2014 Chevrolet Impala on May 9, 2014, at a GM dealership for approximately $37,000. The 2008 Impala was covered under warranty at the time of sale and she also purchased an extended warranty. The 2014 Impala is currently covered under warranty. In purchasing the 2008 Impala, Ms. Washington was convinced of the safety and reliability of her GM product based upon their warranties and representations. The ignition switch defect manifested in her 2008 Impala on approximately four separate occasions. In one instance the car shutdown on the highway and she had to pull to the side of the road and restart it. Before purchasing her new 2014 Impala, Washington took her 2008 Impala to two different GM dealerships to get an estimated trade-

in value. At the first GM dealership, during their test drive of her 2008 Impala, the vehicle ignition switch defect manifested and the car shutdown. The dealership informed her that they would have to dock her money on the trade-in amount being offered because of the problem. Based upon the vehicle shutting down during the examination, the dealership offered her a quote of $1,500 for a trade-in amount. Just days later, she took it to another GM dealership who gave her $2,900 for a trade-in amount. Ms. Washington received the ignition switch recall notice on her 2008 Impala after she had already traded it in for the 2014 Impala. Her 2014 Impala has not yet been repaired under the recall. Ms. Washington is adamant that had she known of the defects, she would have never considered the 2008 Impala or, later, the 2014 Impala when she was looking to trade-in her vehicle.

Patrice Witherspoon—Missouri: Plaintiff and proposed Nationwide and Missouri State Class Representative Patrice Witherspoon is a resident and citizen of Lee's Summit, Missouri. Ms. Witherspoon purchased a new 2006 Saturn Ion in 2005 from a Missouri vehicle dealer for approximately $16,828. Ms. Witherspoon reviewed GM's webpage and other internet websites discussing the Saturn Ion prior to her purchases and believed that the vehicle was safe and reliable based on her review. Ms. Witherspoon believed her vehicle was safe and defect-free when she purchased it. Ms. Witherspoon's 2006 Saturn Ion spontaneously shut off on at least five occasions while driving the vehicle. On one such occasion, she was on the highway, but was able to avoid an accident by pulling over to the shoulder. On another occasion, her vehicle shut off while on the exit ramp to a highway, but she was fortunately again able to avoid an accident. On each occasion, the vehicle gearshift was in "drive" or "reverse" and the ignition key was in the "run" position. Ms. Witherspoon had difficulty controlling and safely stopping the vehicle on these occasions. The value of Ms.

Witherspoon's vehicle is less than she bargained for when she purchased the vehicle and has diminished as a result of the defect.

Laurie Holzwarth—Montana: Plaintiff and proposed Nationwide and Minnesota Class Representative Laurie Holzwarth is a resident and citizen of Billings, Montana. Ms. Holzwarth purchased a used 2005 Chevrolet Cobalt in 2008 in Billings, Montana, for approximately $7,000. Her daughter Christine has experienced countless shutdowns in the vehicle. Christine is the primary driver of the vehicle and will not let anyone else drive it, because she is concerned about the number of shutdowns that she has experienced. They have occurred on highways, in the main street of her town, pulling into parking spaces, and everything in between. The worst incident that she can remember was a definite power failure. Ms. Holzwarth witnessed this event. They were driving on the highway in August of 2010 from Billings to Bozeman, where Christine would be attending college. At a point where they had to make a sharp turn, traveling at 75-80 miles per hour, the car just quit. Christine was able to get the car to a stop without hitting the concrete wall, cycle the key, and continue. They drove another 40 miles, and the car shut off twice more on the straightaway, and once more in the town. Christine had experienced both power steering failure and power failure incidences before this, but had not done much highway driving because she mainly drove to and from high school. The ignition switch was supposedly repaired as part of the ignition switch recall on July 29, 2014. But Ms. Holzwarth's daughter is still experiencing power failures in the car. Since the vehicle was repaired, Christine experienced two shutdowns and/or power steering failures on September 3, 2014, and September 8, 2014. Ms. Holzwarth and her daughter would like to get rid of the car, but they are not financially capable of doing so—Christine is working full time to pay off her college loans and needs a vehicle to get to

work. Furthermore, they do not believe that they could sell this vehicle to anyone else in good conscience. Even if they were to say that the car was repaired, they do not believe it is true, and they don't want to put anyone else at risk in the car. Ms. Holzwarth would not have purchased this vehicle if she had known about its serious and dangerous defects.

Michael Amezquita—New Jersey: Plaintiff and proposed Nationwide and New Jersey State Class Representative Michael Amezquita is a resident and citizen of Hamilton, New Jersey. Mr. Amezquita purchased a new 2006 Chevrolet Cobalt on June 30, 2006, in East Windsor, New Jersey, for $14,000. At the time he purchased the vehicle it was covered under warranty, but the warranty has since expired. Mr. Amezquita did not learn of the ignition switch defects until March 2014. His car was not repaired under the recall until April 23, 2014. Mr. Amezquita had to demand a loaner vehicle before GM would agree to provide one. He used the loaner vehicle for approximately seven weeks, from March 19, 2014, to April 23, 2014, while he waited for the repair parts to arrive. Mr. Amezquita would not have purchased this vehicle if he had known about these defects.

Anthony Juraitis—New Jersey: Plaintiff and proposed Nationwide and New Jersey State Representative Anthony Juraitis is a resident and citizen of Freehold, New Jersey. He purchased a new 2004 Saturn Ion in or around the winter of 2003. Mr. Juraitis purchased the vehicle with a standard warranty. Mr. Juraitis was considering other vehicles as well, but he decided on the Ion in part because he believed the vehicle to be safe and reliable. Mr. Juraitis experienced several shutdowns/stalls while driving his Ion. The first occurred on the highway, when his vehicle "locked" while driving. Other drivers stopped to help him push his vehicle to the side of the road, where after several attempts he was able to restart his vehicle. Mr. Juraitis took the vehicle to the dealership, which replaced the ignition switch and charged Mr. Juraitis

for parts and labor. Following this supposed repair, Mr. Juraitis continued to have stalls and shutdowns with his vehicle; he estimates approximately three dozen times with about eight or ten of them being in very dangerous situations. On July 31, 2014, the ignition switch was replaced again, this time pursuant to the recall. Following this replacement, Mr. Juraitis has continued to experience safety problems with the vehicle, including in early September 2014 when his vehicle shutdown again and he was unable to immediately restart the vehicle. Mr. Juraitis would like to sell or trade in his vehicle, but he does not want another person to experience the dangerous events he has experienced or have a vehicle with an obvious safety defect. Mr. Juraitis believes the vehicle is not worth anything if it means you have to gamble with your life to drive it. Knowing what he now knows about the safety defects in many GM-manufactured vehicles, he would not have purchased the vehicle and will never again purchase a General Motors vehicle.

Bernadette Romero—New Mexico: Plaintiff and proposed Nationwide and New Mexico State Class Representative Bernadette Romero is a resident and citizen of Santa Fe, New Mexico. Ms. Romero purchased a new 2007 Chevrolet Cobalt on July 3, 2007, at Casa Chevrolet in Albuquerque, New Mexico, for $14,645. Her car was covered by a warranty at the time of purchase. Her vehicle had the recall repair performed in May 2014, but she went without her vehicle for five weeks while it was repaired. She drove a loaner car during that time. Ms. Romero traded in her Cobalt for $5,500 on June 20, 2014. She would never have bought this vehicle had she known about the ignition switch defects.

Sandra Levine—New York: Plaintiff and proposed Nationwide and New York State Class Representative Sandra Levine is a resident and citizen of Babylon, New York. Ms. Levine purchased a used 2005 Chevrolet Cobalt on May 27, 2006, from Babylon Honda in

Babylon, New York, for $16,627.96. Ms. Levine's vehicle was covered by a warranty that expired 90 days after her purchase. She does not recall any specific advertising that influenced her decision to buy the vehicle, but she had a general impression that GM was a quality brand and that the vehicle was safe and reliable. Plaintiff Levine believed her vehicle was safe and defect-free when she purchased it. Ms. Levine's vehicle spontaneously shut off on two occasions. Although she does not recall precise dates, the shut-off incidents occurred in 2011 and 2012. The shut-off incidents both took place when she was driving on Deer Park Avenue in Suffolk County, New York. There was no apparent reason for the shutdown in either case. The road was not bumpy, and Ms. Levine does not believe her knee hit the ignition switch. In both instances, Ms. Levine was able to navigate the vehicle to the shoulder of the road. Ms. Levine's ignition switch was replaced on May 22, 2014, by Chevrolet of Huntington in connection with the recall GM initiated in response to the ignition switch defects. Ms. Levine would not have purchased the vehicle had she known of the defects.

Michael Rooney—New York: Plaintiff and proposed Nationwide and New York State Representative Michael Rooney is a resident and citizen of Ronkonkoma, New York. She purchased a used 2005 Chevrolet Cobalt in November 2006. Ms. Rooney purchased an extended warranty for the vehicle. She purchased the Cobalt after reading several advertisements about the Cobalt and other vehicles as well; she believed the Cobalt to be a safe and reliable vehicle to drive. Further, the dealership confirmed with Ms. Rooney that the Cobalt was a safe, reliable vehicle. Ms. Rooney experienced several shutdowns in her vehicle while driving. Upon learning about the safety recall on her vehicle, she stopped driving it. The dealership later informed her of her right to a loaner vehicle while awaiting replacement of her ignition switch, and she received a loaner vehicle soon thereafter. Her ignition switch was

replaced in the summer of 2014. Following that replacement, her automatic starter no longer worked in her vehicle, which she had to have repaired. Knowing what she now knows about the safety defects in many GM-manufactured vehicles, she would not have purchased the vehicle.

William Ross—New York: Plaintiff and proposed Nationwide and New York State Class Representative William Ross is a resident and citizen of Bellmore, New York. Mr. Ross purchased a new 2005 Chevrolet Cobalt in 2005, in Hicksville, New York, for approximately $25,000. At the time of purchase, his vehicle was under the original manufacturer's warranty, and he did not purchase any additional warranties. Mr. Ross does not recall when the warranty expired or its terms. Mr. Ross recalls at least one incident where the car became hard to steer. He took it to a repair shop thinking added power steering fluid would fix the problem, but the repair shop told him the vehicle did not need power steering fluid. On June 23, 2012, Mr. Ross was driving his Cobalt in Nassau County, New York, at approximately 55 miles per hour when the ignition was inadvertently switched into the accessory position, causing the engine to lose power. The car's power steering, power braking, and airbag systems were disabled. Mr. Ross lost control and the car crashed into a divider lined with rubber pylons. The airbag did not deploy. Mr. Ross suffered cuts and a separation of the muscle from his tendon in his arm. It could not be surgically repaired by the time he was able to go to the VA hospital. This accident cost Mr. Ross $6,279.97 in car repairs. On March 30, 2014, Mr. Ross was again driving his Chevrolet Cobalt in Nassau County, New York, at approximately 55 miles per hour when the ignition again suddenly switched into the accessory position, causing the vehicle to lose power to the engine. Again the power steering, power braking system, and airbags were disabled. Mr. Ross lost control of the car and it hit a divider, knocking the rear

wheels out of alignment. This accident cost Mr. Ross approximately $175 in repairs. In both accidents, the road was not bumpy and Mr. Ross does not recall hitting anything with his knee to cause the key to turn. When Mr. Ross learned of the recalls he called his GM dealership to see if his vehicle was involved in the recall. GM told him it was not. Then in early March 2014, he received a recall notice. When he called about getting the recall repairs done he was told the parts to repair it were not available. Mr. Ross stopped driving the vehicle and, in April 2014, he sold it to a junkyard to scrap for approximately $4,000. He is a retired, disabled veteran. Since selling the Cobalt he now relies on veterans' transportation to go to his medical appointments and walks everywhere else. Mr. Ross would not have bought the car if he had known beforehand about the ignition switch defect.

Donald Cameron—North Carolina: Plaintiff and proposed Nationwide and North Carolina State Class Representative Donald Cameron is a resident and citizen of Durham, North Carolina. He purchased a new 2006 Saturn Ion in 2006 in Durham, North Carolina, for $14,000. Mr. Cameron purchased the vehicle with a five-year, 120,000-mile warranty. On several occasions, Mr. Cameron's vehicle shutdown while he was driving. Knowing what he now knows about the safety defects in many GM-manufactured vehicles, and in the Ion specifically, he would not have purchased the vehicle or, at a minimum, would not have been willing to pay the amount of money he paid for the car.

Leland Tilson—North Carolina: Plaintiff and proposed Nationwide and North Carolina State Representative Leland Tilson is a resident and citizen of Gastonia, North Carolina. He purchased a new 2009 Chevrolet Cobalt in February 2009. Mr. Tilson has a five-year/100,000-mile warranty on the vehicle. Mr. Tilson experienced at least one shutdown in the vehicle, while driving on a highway at highway speed. It happened when the vehicle went

over a break in the asphalt, and the vehicle shutdown. Mr. Tilson, with an 18-wheeler bearing down on him, was able to maneuver the vehicle to the side of the road to avoid an accident. During this power failure, the power steering also failed. Mr. Tilson has had his ignition replaced twice. The first time was in June 2013, not pursuant to the recall, because he was unable to shut off his vehicle. The second time was in July 2014 pursuant to the recall. Knowing what he now knows about the safety defects in many GM-manufactured vehicles, he would not have purchased a vehicle with a safety defect.

Jayn Roush—Ohio: Plaintiff and proposed Nationwide and Ohio State Class Representative Jayn Roush is a resident and citizen of Worthington, Ohio. Ms. Roush purchased a used 2005 Saturn Ion on May 5, 2008, from Saturn West in Hilliard, Ohio, for $14,984.59. Ms. Roush's vehicle was covered by a standard warranty that expired on August 3, 2008. Ms. Roush purchased an extended warranty, but this warranty only covers the vehicle's powertrain. She recalls advertisements for the Saturn running frequently around the time of her purchase. She had a general impression that GM was a quality brand and that Saturn vehicles were safe and reliable. Ms. Roush believed her vehicle was safe and defect-free when she purchased it. Ms. Roush's vehicle has spontaneously lost power with some regularity. She recalls a number of discrete incidents. Her vehicle suddenly lost power three different times on November 25, 2010, when she was driving in and around Columbus, Ohio. The vehicle also experienced several power-loss incidents driving in and around Columbus, Ohio, in 2013. She was able to pull over and get the vehicle to the side of the road. The vehicle most recently shut off on Highway 315 S in Ohio on January 9, 2014. Each of Ms. Roush's incidents involved a sudden loss of power accompanied by a "TRAC OFF" light. Ms. Roush had her ignition switch replaced at an out-of-pocket cost of $187.50 on June 11, 2013,

in an attempt to address the power-loss problems the vehicle was experiencing, but the replacement did not fix the problem. Indeed, the car experienced a loss of power again in January of 2014. Ms. Roush attempted to participate in GM's 2014 recall of the vehicle, initiated in response to the ignition switch defects, but her ignition switch was not replaced in connection with this recall because the parts have not been available. Ms. Roush would not have purchased the vehicle had she known of the defects.

Bonnie Taylor—Ohio: Plaintiff and proposed Nationwide and Ohio State Class Representative Bonnie Taylor is a resident and citizen of Laura, Ohio. Ms. Taylor purchased a new 2007 Chevrolet Cobalt on December 23, 2006, from Joe Johnson Chevrolet in Troy, Ohio, for $14,417.42. At the time Ms. Taylor purchased her new Cobalt she also purchased a warranty which expired in December 2011. This was Ms. Taylor's fourth time purchasing a vehicle from Joe Johnson Chevrolet and she trusted them to provide her with a safe and reliable vehicle. Ms. Taylor did not learn of the ignition switch defects until March 2014. She scheduled the recall work on her vehicle right away and was provided a loaner vehicle. The repair work was completed on April 21, 2014. Although Ms. Taylor has not experienced the ignition shutdown while driving her Cobalt, she believes the Cobalt has too many serious safety defects for her to ever feel safe driving it again. She also feels that the value of her vehicle is severely diminished as a result of the recall. She would not have purchased this vehicle if she had known of the safety defects.

Sharon Dorsey—Ohio: Plaintiff and proposed Nationwide and Ohio State Class Representative Sharon Dorsey is a resident and citizen of Dayton, Ohio. Ms. Dorsey purchased a used 2004 Chevrolet Malibu in June 2007 at Reichard dealership in Dayton, Ohio, for $12,040. At the time of purchase, Plaintiff Dorsey also secured an extended warranty

which expired in 2011. Plaintiff Dorsey has experienced no less than four engine shut-offs while driving her vehicle. In one such instance, her Malibu stalled in the middle of heavy traffic with her five-year-old grandson in the vehicle. Upon returning the vehicle to Reichard on September 10, 2014, she was informed by a GM technician that he had, in fact, been able to duplicate the engine stall event she experienced. Ms. Dorsey's sister was a former GM employee and owned a Chevrolet Impala, which influenced Ms. Dorsey's desire to own a GM vehicle. However, if she had known of the defects plaguing her Chevrolet Malibu prior to purchasing the vehicle, she would not have purchased it. Ms. Dorsey relied upon the GM Malibu brand to be a safe and reliable vehicle. As a result of the vehicle defect and subsequent recalls, Ms. Dorsey has been unable to enjoy the use of her Chevrolet Malibu since June 2014, has been unable to work regularly, and has not been provided a loaner or rental vehicle while repairs are being made on her vehicle despite repeated requests. In addition, Ms. Dorsey continues to incur significant expense, inconvenience, and economic damage as a result.

Paulette Hand—Oklahoma: Plaintiff and proposed Nationwide and Oklahoma State Class Representative Paulette Hand is a resident and citizen of Blanchard, Oklahoma. She purchased a new 2006 Chevrolet HHR in 2006 from Frost Chevrolet, a dealership owned by her sister, in Hennessy, Oklahoma, for $24,625. She believed that GM made safe and reliable cars. Ms. Hand experienced multiple events in which her vehicle's steering locked up and the power failed. She would not have purchased or paid as much for the vehicle if she had known the truth about GM's commitment to safety and its concealment of the defects.

William Bernick—Oregon: Plaintiff and proposed Nationwide and Oregon State Class Representative William Bernick is a resident and citizen of Grants Pass, Oregon. Mr. Bernick purchased a used 2005 Chevrolet Cobalt on December 29, 2006, from a dealership in

Oregon for $10,750. He also purchased a vehicle service contract, and his warranty is continuing. During the time he has owned the vehicle, Mr. Bernick has experienced power outages and difficulties with the ignition, such as keys becoming stuck in the ignition, inability to shift gears, inability to start the ignition, and transmission default. Mr. Bernick is very concerned about the ignition defect and is disappointed in the way GM has handled the recalls. He wants to see GM held accountable for putting lives at risk for so long. Had Mr. Bernick known of the problems with his GM car, he would not have purchased it.

Shawn Doucette—Pennsylvania: Plaintiff and proposed Nationwide and Pennsylvania State Class Representative Shawn Doucette is a resident and citizen of Hamburg, Pennsylvania. Mr. Doucette purchased a new 2007 Chevrolet Cobalt SS in September 2007 from Outten Chevrolet of Hamburg in Hamburg, Pennsylvania, for $28,000. GM should have disclosed the ignition switch defects when Mr. Doucette purchased the vehicle. Mr. Doucette has experienced numerous shutdowns and power loss events while driving. He would not have purchased the vehicle had he known of the defects.

Shirley Gilbert—Pennsylvania: Plaintiff and proposed Nationwide and Pennsylvania State Class Representative Shirley Gilbert is a resident and citizen of Frackville, Pennsylvania. She purchased a new 2008 Chevrolet Cobalt in Pennsylvania in June 2008 for $16,000. Her vehicle was covered by a warranty when she purchased it. The warranty expired in June 2013. She purchased the car, in part, because the dealership highlighted the safety features, namely the car's eight airbags. On two or three occasions she has experienced her vehicle shutting down immediately after it started. She would not have purchased her vehicle, or she would have paid less for it, had she known about its defects.

Garrett Mancieri—Rhode Island: Plaintiff and proposed Nationwide and Rhode Island State Class Representative Garrett Mancieri is a resident and citizen of Woonsocket, Rhode Island. Mr. Mancieri purchased a new 2007 Pontiac G5 on November 24, 2006 in Woonsocket, Rhode Island, for $16,138. Mr. Mancieri received a safety recall notice pertaining to his vehicle in March 2014. He promptly requested that the dealership perform the recall repair, but was told that he would be put on a waiting list because the dealership was waiting on the parts from GM. The dealership did not provide Mr. Mancieri with a loaner car, so he had to continue driving the vehicle. The recall notice received by Mr. Mancieri did not inform him of the right to a loaner vehicle, nor did the GM dealership volunteer such information. His vehicle was not scheduled to be repaired until September 18, 2014. Mr. Mancieri believes he has been damaged by the diminution of value in his vehicle due to the ignition switch defect. Mr. Mancieri also believes he has been damaged in the amount of the reasonable value of the rental car he should have received from March 2014 through the time his vehicle is finally repaired by GM.

Annette Hopkins—South Carolina: Plaintiff and proposed Nationwide and South Carolina State Class Representative Annette Hopkins is a resident and citizen of Bishopville, South Carolina. Ms. Hopkins purchased a used 2003 Chevrolet Impala LS on December 31, 2004, at Newsome Automotive in Florence, South Carolina, for $12,749.32. Ms. Hopkins first learned of a recall affecting her vehicle when she received a recall notice in September 2014. Although she has not yet experienced any incidents of sudden power loss with her vehicle, now that she knows about the defects and the recalls, Ms. Belford asserts that she would never have purchased the Chevrolet Impala had she known about the defects and GM's indifference with regard to the safety and reliability of its vehicles.

Norma Lee Nelson—South Dakota: Plaintiff and proposed Nationwide and South Dakota State Class Representative Norma Lee Nelson is a resident and citizen of Huron, South Dakota. Ms. Nelson purchased a used 2007 Chevrolet Cobalt in September 2007 from a dealership in Watertown, South Dakota, for $14,000. Her vehicle came with a standard warranty at the time of purchase that expired in 2010. She has experienced numerous ignition problems with the vehicle, and at times it requires significant force to turn the steering wheel. Ms. Nelson has removed all of the keys from her keychain, but remains nervous about driving the car. Ms. Nelson has had difficulty starting the vehicle on numerous occasions. Had she known that the Cobalt contained a defective ignition switch, Ms. Nelson would not have purchased the vehicle.

Helen A. Brown—Tennessee: Plaintiff and proposed Nationwide and Tennessee State Class Representative Helen A. Brown is a resident and citizen of Franklin, Tennessee. She purchased a new 2006 Chevrolet Cobalt from a GM dealer, with an extended warranty, on February 1, 2006, for approximately $10,000. Ms. Brown's vehicle lost power at least three times, twice in 2007 and once in 2014. She does not trust her car and would not have purchased the vehicle or would have paid less if the truth had been disclosed about the quality and safety of GM vehicles.

Lisa William—Texas: Plaintiff and proposed Nationwide and Texas State Class Representative Lisa William is a resident and citizen of Amarillo, Texas. Ms. William purchased a new 2007 Saturn Ion in 2007 in Amarillo, Texas, for approximately $16,000. Her vehicle had a standard warranty, which she believes was for five years. Ms. William purchased a Saturn because she had owned one in the past and believed the brand to be one she could trust. She has experienced problems with her airbag light turning on unexpectedly

and difficulty turning on her vehicle. These problems have caused her concern and she does not feel safe driving her vehicle. She is a college student and provides rides from time to time for certain students. She is now concerned about having other students or anyone else in her vehicle because of the safety defect. She also frequently drives out of town and is afraid of her vehicle shutting down. Ms. William had her ignition switch replaced on September 23, 2014. She wonders if she can trust the "repair." Had she known about the problems with her GM vehicle, she would not have purchased the car.

Blair Tomlinson, D.D.S.—Utah: Plaintiff and proposed Nationwide and Utah State Class Representative Blair Tomlinson, D.D.S., is a resident and citizen of Kaysville, Utah. Dr. Tomlinson purchased a new 2005 Chevrolet Cobalt from Murdock Chevrolet in Bountiful, Utah, in August 2005 for approximately $15,000. Throughout the course of his ownership of the Cobalt, Dr. Tomlinson and his family members have experienced various issues consistent with the ignition switch defect, including unexpected shutdowns. In one particular incident, Dr. Tomlinson's daughter was driving on the highway in Logan, Utah, when she accidentally bumped the ignition switch with her knee and the vehicle lost power. She was able to get the vehicle safely to the side of the road, but was terrified by the incident. After hearing about the recall in the news in March 2014, Dr. Tomlinson attempted to reach GM, but he had great difficulty before eventually being informed he would receive a letter if his car was recalled. He also immediately took his Cobalt to Young Chevrolet in Layton, Utah, to address the issue. However, the dealership informed him they did not have the recall parts available to fix the defect. Mr. Tomlinson continues to be concerned about the defects in his Cobalt and the safety of his family. Had he known of the problems with his GM car, he would not have purchased it or would have paid less.

Erinn Salinas—Virginia: Plaintiff and proposed Nationwide and Virginia State Representative Erinn Salinas is a resident and citizen of Virginia Beach, Virginia. She purchased a new 2008 Chevrolet Cobalt in April 2008. The vehicle was purchased with the standard manufacturer's warranty. Ms. Salinas purchased her vehicle after seeing television advertisements about the vehicle and also about a GM rebate. The salesperson at the dealership also told Ms. Salinas that the Cobalt was a very safe vehicle. Ms. Salinas experienced at least one shutdown while driving the vehicle. She was able to steer the vehicle to the side of the road and then to turn it back on. Once she learned about the safety recall in March or April of 2014, she stopped driving her vehicle because she believed it was not safe to drive. She was not given a rental vehicle to use and had to depend on her sister or father for transportation. On July 18, 2014, the ignition switch was replaced in her vehicle pursuant to the recall. Knowing what she now knows about the safety defects in many GM-manufactured vehicles, she would not have purchased the vehicle.

Stephanie Renee Carden—West Virginia: Plaintiff and proposed Nationwide and West Virginia Class Representative Stephanie Renee Carden is a resident and citizen of Huntington, West Virginia. Ms. Carden purchased a new 2004 Saturn Ion 2 on July 22, 2004, at Saturn of Hurricane in Hurricane, West Virginia, for $22,181. Ms. Carden's vehicle came with the standard manufacturer's warranty. Ms. Carden has experienced manifestation of the defect on more than one occasion. She has twice experienced loss of power due to the ignition switch defect. Shortly after the second power-loss incident, Ms. Carden's vehicle had an issue where it would not restart, causing here to have to have the vehicle towed to a service station. If she had known what she now knows about the safety defects in many GM-manufactured vehicles, Ms. Carden would not have purchased the vehicle.

Les Rouse—Wisconsin: Plaintiff and proposed Nationwide and Wisconsin Class Representative Les Rouse is a resident and citizen of LaCrosse, Wisconsin. Mr. Rouse purchased a new 2004 Saturn Ion 2 in October 2004 in LaCrosse, Wisconsin, for approximately $16,000. His car was covered under the manufacturer's standard warranty at the time of purchase, and Mr. Rouse also believes he purchased some kind of extended warranty. At the time of purchase, Mr. Rouse and his wife visited the dealer to learn more about the Ion. There, the dealership had Ions on display to demonstrate the safety and reliability of the vehicle. The safety and reliability of the Ion had a large impact on Mr. Rouse's decision to buy the car. Mr. Rouse experienced a loss of electrical power in his vehicle while driving and he is concerned about driving it due to the safety risks it poses. He also believes the value of his car has diminished as a result of the ignition switch defects. Mr. Rouse learned of the ignition switch defects in March 2014, but it took until May 2014 for the parts to arrive and to repair his car under the recall. Mr. Rouse would not have purchased his vehicle had he known about the ignition switch defects in his GM vehicle.

II. Defendant

Defendant General Motors LLC ("New GM") is a foreign limited liability company formed under the laws of Delaware with its principal place of business located at 300 Renaissance Center, Detroit, Michigan. The sole member and owner of General Motors LLC is General Motors Holding LLC. General Motors Holdings LLC is a Delaware limited liability company with its principal place of business in the State of Michigan. The sole member and owner of General Motors Holdings LLC is General Motors Company. General Motors Company is a Delaware Corporation, which has its principal place of business in the State of Michigan, and is a citizen of the States of Delaware and Michigan. New GM was incorporated in 2009 and, effective on July 10, 2009, acquired substantially all assets and

assumed certain liabilities of General Motors Corporation through a Section 363 sale under Chapter 11 of the U.S. Bankruptcy Code.

Among the liabilities and obligations expressly assumed by New GM are the following:

> From and after the Closing, Purchaser [New GM] shall comply with the certification, reporting and recall requirements of the National Traffic and Motor Vehicle Act, the Transportation Recall Enhancement, Accountability and Documentation Act, the Clean Air Act, the California Health and Safety Code, and similar laws, in each case, to the extent applicable in respect of vehicles and vehicle parts manufactured or distributed by [Old GM].

New GM also expressly assumed:

> [A]ll Liabilities arising under express written warranties of [Old GM] that are specifically identified as warranties and delivered in connection with the sale of new, certified used or pre-owned vehicles or new or remanufactured motor vehicle parts and equipment (including service parts, accessories, engines and transmissions) manufactured or sold by [Old GM] or Purchaser prior to or after the Closing and (B) all obligations under Lemon Laws

Finally, New GM also expressly assumed "all Liabilities arising out of, relating to, in respect of, or in connection with the use, ownership or sale of the Purchased Assets after the closing." Those assets included all contracts of Old GM, including its contracts with dealers and service centers.

FACTUAL ALLEGATIONS

I. There Are Serious Safety Defects in Millions of Old GM Vehicles that New GM Has Continued to Conceal from Consumers.

97. So far, in 2014, New GM has announced over 60 recalls affecting over 27 million GM-branded vehicles from model years 1997-2014. These recalls include millions of vehicles originally made and sold by Old GM. The numbers of recalls and serious safety defects are unprecedented, and lead to only one conclusion: Old GM and New GM have been

incapable of building safe, defect-free vehicles, and they have systematically refused to remedy (and instead have fraudulently concealed) defects once the vehicles were on the road.

98. The available evidence shows a common pattern: Old GM knew about an ever-growing list of serious safety defects in millions of its vehicles, but concealed those defects from consumers and regulators in order to cut costs, boost sales, and avoid the cost and publicity of recalls.

99. The company New GM inherited from Old GM in 2009 valued cost-cutting over safety, actively discouraged its personnel from taking a "hard line" on safety issues, avoided using "hot" words like "stall" that might attract the attention of NHTSA, and trained its employees to avoid the use of words such as "defect" or "problem" that might flag the existence of a safety issue. New GM affirmatively and independently continued and ratified these practices.

100. The Center for Auto Safety recently stated that it has identified 2,004 death and injury reports filed by New GM with federal regulators in connection with vehicles that have recently been recalled. Most or all of these deaths and injuries would have been avoided had Old GM complied with its TREAD Act obligations instead of concealing the truth.

101. The many defects concealed by Old GM affected key safety systems in its vehicles, including the ignition, power steering, and airbag systems.

102. The available evidence shows a consistent pattern: Old GM learned about a particular defect and, often at the prodding of regulatory authorities, "investigated" the defect and decided upon a "root cause." Old GM then took minimal action – such as issuing a carefully worded "Technical Service Bulletin" to its dealers, or even recalling a very small number of the vehicles with the defect. All the while, the true nature and scope of the defects

were kept under wraps, defective vehicles remained on the road, and Old GM enticed Class members to purchase its vehicles by touting their safety, quality, and reliability.

103. After July 11, 2009, New GM would continue this very same pattern of conduct and concealment, for over five more years.

A. The Ignition Switch Defects

104. The Defective Vehicles all contain substantially similar ignition switch and cylinders, with the key position of the lock module located low on the steering column, in close proximity to a driver's knee. The ignition switch systems on these vehicles are prone to fail during ordinary and foreseeable driving situations.

105. Specifically, the ignition switches can inadvertently move from the "run" to the "accessory" or "off" position at any time during normal and proper operation of the Defective Vehicles. The ignition switch is most likely to move when the vehicle is jarred or travels across a bumpy road; if the key chain is heavy; if a driver inadvertently touches the ignition key with his or her knee; or for a host of additional reasons. When the ignition switch fails, the vehicle suddenly and unexpectedly loses engine power, power steering, and power brakes, and certain safety features are disabled, including the vehicle's airbags. This leaves occupants vulnerable to crashes, serious injuries, and death.

106. The ignition switch systems at issue are defective in at least three major respects. First, the switches are weak; due to a faulty "detent plunger," the switch can inadvertently move from the "run" to the "accessory" position. Second, because the ignition switch is placed low on the steering column, the driver's knee can easily bump the key (or the hanging fob below the key) and cause the switch to inadvertently move from the "run" to the "accessory" or "off" position. Third, when the ignition switch moves from the "run" to the "accessory" or "off" position, the vehicle's power is disabled. This also immediately disables

the airbags. Thus, when power is lost during ordinary operation of the vehicle, a driver is left without the protection of the airbag system even if he or she is traveling at high speeds.

107. Vehicles with defective ignition switches are therefore unreasonably prone to be involved in accidents, and those accidents are unreasonably likely to result in serious bodily harm or death to the drivers and passengers of the vehicles.

108. Indeed, New GM itself has acknowledged that the defective ignition switches pose an "increas[ed] risk of injury or fatality" and has linked the ignition defect to at least thirteen deaths and over fifty crashes in the vehicles subject to the February recall alone. Ken Feinberg, who was hired by New GM to settle wrongful death claims arising from the ignition switch defects, has already linked the defect to twenty-seven deaths, and has over 1300 death and injury claims still to review. The Center for Auto Safety studied collisions in just two vehicle makes, and linked the defect to over 300 accidents. There is every reason to believe that as more information is made public, these numbers will continue to grow.

109. Alarmingly, Old GM knew of the deadly ignition switch defects and their dangerous consequences from at least 2001, but concealed its knowledge from consumers and regulators. New GM did the same, and, incredibly, it was not until 2014 – more than a decade later – that the ignition switch recalls were first announced.

II. Old GM's Fraudulent Conduct with Respect to the 2.19 Million Defective Vehicles Subject to the February/March Recall.

A. Old GM Knew That There Were Failures With The Ignition Switch Design In 2001, And Concealed These Material Facts, Putting The Safety Of The Class At Serious Risk Of Harm.

110. Old GM knew that the ignition switches to be used in its vehicles were defective well before the vehicles were ever sold to the public. In the late 1990s and early 2000s, Old GM and one of its suppliers, Eaton Mechatronics, finalized the specifications for

the ignition switch for the Saturn Ion. Eaton Corporation sold its Vehicle Switch/Electronic Division to Delphi Automotive Systems ("Delphi") on March 31, 2001. Delphi went on to manufacture the defective ignition switch for Old GM.

111. In 2001, years *before* the vehicles were ever sold and available to customers, Old GM privately acknowledged in a pre-production report for the Saturn Ion that there were serious problems, including engineering test failures, with the ignition switch. During the pre-production development of the 2003 Saturn Ion, Old GM engineers learned that the ignition switch could inadvertently move from the "Run" position to the "Accessory" or "Off" position. In a section of an internal report titled "Root Cause Summary," Old GM engineers identified two "causes of failure" namely, "[l]ow contact force and low detent plunger force." The "detent" is part of the ignition switch's inner workings that keeps the switch from rotating from one setting to another unless the driver turns the key.

112. The Old GM Design Release Engineer assigned to the ignition switch was Ray DeGiorgio. DeGiorgio had worked at Old GM since 1991, and spent his career focused on vehicle switches. During early testing of the ignition switch, DeGiorgio noticed problems with the prototypes provided by Delphi. In September 2001, DeGiorgio corresponded with representatives of Koyo, the supplier of the Ion steering column into which Delphi's switch was installed. In his correspondence, DeGiorgio stated he learned that 10 of 12 prototype switches from Delphi "[f]ailed to meet engineering requirements," and the "failure is significant," adding that Old GM "must ensure this new design meets engineering requirements." This significant failure of the ignition switch design was not corrected by Old GM; moreover, it was suppressed and concealed by the failure to remedy and disclose.

B. Old GM Approved Production Of Ignition Switches In 2002 Despite Knowing That They Had Failed In Pre-Production Testing And Did Not Meet Old GM's Internal Design Specifications.

113. Old GM approved production of the ignition switches despite knowing that they did not meet Old GM's own engineering design specifications.

114. Validation testing conducted by Delphi in late 2001 and early 2002 revealed that the ignition switch consistently failed to meet the torque values in the internal specification. These tests, conducted on various dates in the fall of 2001, included a test to determine whether the torque required to rotate the switch from Run to Accessory complied with the specification. The January 2002 test report denoted the design failure by stating "Not OK" next to each result.

115. In February 2002, Delphi, Old GM's ignition switch supplier for the recalled vehicles, asked Old GM to approve production for the ignition switch and submitted a Production Part Approval Process ("PPAP") request. Even though testing of the ignition switch revealed that it did not meet the original specifications set by Old GM and that internal testing showed the switch would fail, Old GM approved it. The defective switch was put into Old GM vehicles unbeknownst to the Class.

C. Old GM Received Complaints And Reports On The Stalling Of Vehicles Due To The Defective Ignition Switch Turning Off And Causing Moving Stalls, And Concealed That Material Information From The Class.

116. In 2003, almost immediately after the first Old GM vehicles with the defective ignition switches were sold to the public, GM started receiving complaints regarding loss of power while driving with no Diagnostic Trouble Codes ("DTC") being recorded in 2003 Saturn Ions involving the same ignition switch and steering column. In 2003, an internal report documented an instance in which the service technician observed a stall while driving.

The service technician noted that the weight of several keys on the key ring had worn out the ignition switch. The ignition switch was replaced and the matter closed.

117. Old GM employees were also having problems with their own model year ("MY") 2003 and 2004 Ions that contained the switch. In a January 9, 2004 report received from Old GM employee, Gerald A. Young, concerning his MY 2003 Saturn Ion, he informed Old GM, "[t]he ignition switch is too low. All other keys and the key fob hit on the driver's right knee. The switch should be raised at least one inch toward the wiper stalk," characterizing it as "a basic design flaw [that] should be corrected if we want repeat sales."

118. In a February 19, 2004 report concerning his MY 2004 Saturn Ion, Old GM employee, Onassis Matthews, stated: "The location of the ignition key was in the general location where my knee would rest (I am 6' 3" tall, not many places to put my knee). On several occasions, I inadvertently turn [sic] the ignition key off with my knee while *driving down the road*. For a tall person, the location of the ignition key should be moved to a place that will not be inadvertently switched to the off position."

119. In an April 15, 2004 report concerning his MY 2004 Saturn Ion, Old GM employee, Raymond P. Smith, reported experiencing an inadvertent shut-off: "I thought that my knee had inadvertently turned the key to the off position."

120. Old GM concealed these and other similar manifestations of the defective ignition switch.

D. Old GM Engineers Understood The Need To Correct The Ignition Switch Defect In 2004 But Failed To Act To Disclose Or Correct The Defect.

121. In 2004, Old GM knew that the ignition switch posed a safety concern that needed to be fixed. For example, in October 2004, Old GM internally documented incidents in which Old GM engineers verified that the ignition switch was turned to the off position as a

result of being grazed by the driver's knee. The cause of the problem was found to be the "low key cylinder torque/effort."

122. In 2004, Old GM was finalizing plans to begin production and sale of the Chevrolet Cobalt. The Chevrolet Cobalt was designed using the same ignition switch that was used in the Saturn Ion. As the Chevrolet Cobalt moved into production, it too—like its Saturn Ion predecessor— experienced inadvertent ignition switch shut-offs that resulted in moving stalls. Old GM already knew that when the ignition switch was inadvertently turned to off or accessory—by design—the airbags would not deploy. Instead of implementing a solution to the safety problem, the engineers debated partial solutions, short-term fixes, and cost.

123. Around the time of the Cobalt launch, more reports surfaced of moving stalls caused by a driver bumping the key fob or chain with his knee. At a 2004 press event associated with the launch of the Cobalt in Santa Barbara, California, a journalist informed Doug Parks, the Cobalt Chief Engineer, that while adjusting his seat in the Cobalt he was test driving, the journalist had inadvertently turned off the car by hitting his knee against the key fob or chain. Old GM's Doug Parks asked Gary Altman, the Program Engineering Manager, to follow up on the complaint by trying to replicate the incident and to determine a fix.

124. Old GM engineers independently encountered the ignition switch defect in early test drives of the Chevy Cobalt, before it went to market. The Old GM engineers pinpointed the problem of engine shut-off in the Cobalt and were "able to replicate this phenomenon during test drives." Despite this knowledge, Old GM told no one.

125. According to Old GM, its engineers "believed that low key cylinder torque effort was an issue and considered a number of potential solutions." But after considering the

cost and amount of time it would take to develop a fix, Old GM did not implement a fix, and the defective vehicles went to market.

126. As soon as the Chevrolet Cobalt hit the market in late 2004, Old GM immediately started getting similar complaints about sudden loss of power incidents, "including instances in which the key moved out of the 'run' position when a driver inadvertently contacted the key or steering column." Old GM engineers determined that the low torque in the ignition switch could cause the key to move from the "run" to the "accessory" or "off" position under ordinary driving conditions with normal key chains because "detent efforts on ignition switch are too low, allowing [the] key to be cycled to [the] off position inadvertently." Specifically, in February 2005, GM engineers concluded that "there are two main reasons that we believe can cause a lower effort in turning the key: a lower torque detent in the ignition switch … [and a] low position of the lock module [on] the [steering] column."

127. From the outset, Old GM employees, customers, and members of the automotive press found repeatedly that they would hit the key fob or keychain with their knee, and the car would turn off. As noted, Old GM received some of these reports before the Cobalt's launch, and others afterwards. Despite the many complaints describing the moving stalls and customers' safety concerns, Old GM covered up the defect and made safety assurances to the driving public, its customers, and the Class, upon which they reasonably relied. Old GM received reports from dealers documenting this problem and advised dealers to tell customers to modify their key chains. For example, in response to a customer complaint in December 2004, GM internally noted:

> RECOMMENDATION/INSTRUCTIONS:
>
> There is potential for the driver to inadvertently turn off the ignition due to low key ignition cylinder torque/effort. The concern

> is more likely to occur if the driver is short and has a large heavy key chain.
>
> In the cases this condition was documented, the driver's knee would contact the key chain while the vehicle was to ruing the steering column was adjusted all the way down. This is more likely to happen to a person that is short as they will have the seat positioned closer to the steering column.
>
> In cases that fit this profile, question the customer thoroughly to determine if this may the cause. The customer should be advised of this potential and to take steps, such as removing unessential items from their key chain, to prevent it.

GM then closed the complaint file and kept this "potential" problem secret.

128. Old GM's Manager of Product Safety Communications publicly announced and reassured customers that there was no safety issue with Cobalt moving stalls: "When this happens, the Cobalt is still controllable. The engine can be restarted after shifting to neutral."

129. DeGiorgio learned about the Cobalt press event moving stall and was approached by an Old GM engineer who suggested that DeGiorgio could "beef up" the ignition switch and increase the torque.

130. On May 17, 2004, during a NHTSA visit to the GM Milford Proving Grounds, Old GM gave a presentation titled "Engine Stall & Loss of Assist Demonstration." At a June 3, 2004, meeting with NHTSA, GM represented to NHTSA that in assessing a given stall, it considered severity, incident rate, and warning to the driver. But drivers had no such warning, certainly not from Old GM. NHTSA told Old GM that where number of stalls were high, the factors should be considered, but did not immunize Old GM from a safety recall.

131. On November 22, 2004, engineers in Old GM's High Performance Vehicle Operations group wrote DeGiorgio and informed him that their group had repeatedly experienced a moving stall during a track test of the Cobalt SS (the high-performance version of the Cobalt) when the driver's knee "slightly graze[d]" the key fob. An Old GM engineer

forwarded this complaint to DeGiorgio, and explicitly asked DeGiorgio whether there was "a specification on the force/torque required to keep that switch in the RUN position." He also asked DeGiorgio: "If so, is the switch meeting that spec? If not, what are the options for implementing a stronger spring?"

E. Old GM Closed Its First Internal Investigation With No Action Because Of Cost.

132. Despite the serious safety problem posed by the ignition switch defect, Old GM took no action to correct the defect and instead covered it up. As set forth above, in the summer and fall of 2004, as the Chevrolet Cobalt moved into the production stage, engineers observed a number of moving stalls caused by the ignition switch defect.

133. On November 19, 2004, Old GM personnel opened an engineering inquiry known as a Problem Resolution Tracking System (PRTS) to address the complaint that the Cobalt could be "keyed off with knee while driving." At this time, PRTS issues were analyzed by a Current Production Improvement Team (CPIT). The CPIT that examined the Cobalt issue beginning in late 2004 included a cross-section of business people and engineers, including Parks, Old GM engineer Gary Altman and Lori Queen, Vehicle Line Executive for the Cobalt.

134. In early 2005, and as part of the PRTS, Parks sent an email with the subject, "Inadvertent Ign turn-off." In the email, Parks wrote, "For service, can we come up with a 'plug' to go into the key that centers the ring through the middle of the key and not the edge/slot? This appears to me to be the only real, quick solution."

135. After considering this and a number of other solutions (including changes to the key position and measures to increase the torque in the ignition switch), the CPIT examining the issue decided to do nothing. Indeed, by March 2005, the GM Cobalt Program

Engineering Manager ("PEM") issued a "directive" to close the 2004 PRTS "with no action."[5] According to Old GM's internal documents, the design change was refused because of time, i.e., because the "lead-time for all solutions is too long," and money, i.e., because the "tooling cost and piece price are too high…".[6]

136. The 2004 PRTS was closed because "none of the solutions represents an acceptable business case"—a standard phrase used by GM personnel for closing a PRTS without action because of cost.[7] In deciding to do nothing to correct the serious safety defect that existed in its vehicles, Old GM simply shrugged off the issue entirely. What is more, Old GM downplayed the severity of the safety threat, rating the specter of a moving stall (even at highway speeds) with a severity level of 3—on a scale of 1 (most severe) to 4 (least severe). Old GM did not explain what, if any, criteria exist for an "acceptable business case" or otherwise justify its decision to do nothing. David Trush, the DRE for the ignition cylinder, explained that to present an "acceptable business case," a solution should solve the issue, be cost effective, and have an acceptable lead time to implement the change. [8] But one of the very solutions proposed by Thrush—changing the key from a slot to a hole configuration—would have cost less than one dollar per vehicle.

137. Here, as elsewhere in the story of the ignition switch defect, the structure within Old GM was one in which no one was held responsible and no one took responsibility.[9]

[9] Valukas Report at 71.

F. Complaints Continued And Serious Accidents Came To Old GM's Attention In 2005, While NHTSA Began To Investigate Death Cases Involving Chevy Cobalts.

138. After the Cobalt program team closed the November 19, 2004, PRTS with no action taken, additional complaints of Cobalt stalls and inadvertent ignition switch shut-offs continued to come into GM's Brand Quality Group.[10]

139. In March 2005, Jack Weber, a GM engineer, reported that during "heel-toe downshifting" in a Cobalt SS with a manual transmission (a high-performance Cobalt model), his knee contacted the key fob and key ring, which caused "pulling on the key to move it to the 'Off' position."[11]

140. In May 2005, a customer demanded that Old GM repurchase his Cobalt. The complaint was that the ignition switch shut off during normal driving conditions with no apparent contact between the driver's knee and the key chain or fob.[12] Old GM Brand Quality Manager Steven Oakley forwarded this information internally at Old GM, stating that the ignition switch "goes to the off position too easily shutting the car off."[13] DeGiorgio was one of the Old GM personnel who received this e-mail chain, which effectively stated that the customer's car, as well as others at the dealership, had ignition switches with insufficient

torque and cause the car to shut off while driving.[14] This e-mail specifically included a request to DeGiorgio for an ignition switch "at the high end of the tolerance spec."[15]

141. By May 2005, Old GM personnel thus had multiple reports of moving stalls and were receiving buyback requests for Cobalts following complaints that consumers made to dealers.[16]

142. The problem of moving stalls and the ignition switch turning off in Old GM vehicles continued throughout 2005, and was described both within Old GM and in the media. In May and June 2005, reviewers from two newspapers, including the New York Times, wrote articles detailing how they or a family member had inadvertently turned a Cobalt off with their knees.[17] On May 26, 2005, a writer for the Sunbury Daily Item in Pennsylvania reviewed the Cobalt and reported that "[u]nplanned engine shutdowns happened four times during a hard-driving test last week. . . . I never encountered anything like this in 37 years of driving and I hope I never do again." In furtherance of covering up a material safety hazard, one of Old GM's in-house vehicle safety lawyers e-mailed a colleague to marshal evidence for the press that the risk of moving stalls was "remote" and "inconsequential." He wrote that he did not want to be criticized for failing to "defend a brand new launch."[18]

[18] Valukas Report at 86.

143. In June 2005, a Senior Delphi Project Engineer stated in an "e-mail that the "Cobalt is blowing up in [GM's] face in regards to the car turning off with the driver's knee."[19]

144. An Old GM customer filed the following complaint about a 2005 Cobalt prone to moving stalls on June 29, 2005:

> Dear Customer Service:
>
> This is a safety/recall issue if ever there was one.… The problem is the ignition turn switch is poorly installed. Even with the slightest touch, the car will shut off while in motion. I don't have to list to you the safety problems that may happen, besides an accident or death, a car turning off while doing a high speed …[20]

145. In July 2005, a 2005 Chevrolet Cobalt crashed in Maryland, killing the teenage driver, Amber Rose.[21] Calspan Crash Data Research Center was assigned by the NHTSA Special Crash Investigation Program to conduct a Special Crash Investigation (or "SCI"), which found "that the frontal airbag system did not deploy" and the "[Sensing Diagnostic Module (or "SDM")] data indicated that the 'vehicle power mode status' was in 'Accessory.'"[22] The August 15, 2005, SCI report found that the vehicles' SDM data recorded the "vehicle power mode status" of the ignition switch had shifted from "run" to "accessory" just before the crash. NHTSA continued the SCI and Old GM failed to report the crash to

NHTSA until the third quarter of 2005.[23] Upon information and belief, Old GM subsequently entered into a confidential settlement agreement with the victim's mother.

146. Inside Old GM, the defect was raised with the Product Investigations ("PI") unit. The PI unit was charged with solving significant engineering problems, including safety problems; it was the primary unit charged with investigating and resolving potential safety defects.[24] Old GM Product Investigations Manager Doug Wachtel assigned PI employee Elizabeth Kiihr to investigate the Cobalt ignition switch shut-off. Wachtel's team looked at early data from the field and found 14 incidents related to the ignition switch. The PI group also tried to recreate the problem themselves. Doug Wachtel and Gay Kent drove a Cobalt around Old GM's property in Warren, Michigan. Gay Kent had a long and heavy key chain, and was able to knock the ignition from Run to Accessory simply by moving her leg so that her jeans caused friction against the fob.[25] Wachtel also reproduced the stall in the Cobalt test drive by contact with the key chain.[26]

147. Notwithstanding the media reporting, the customer complaints, and its replication of moving stalls in the field, the PI team did not recommend a safety recall on vehicles with the ignition switch defect.[27] Old GM knew that a defect existed in its vehicles, but did nothing to disclose the truth or warn consumers or the Class, nor did Old GM correct the defect in vehicles that it had already sold, or in vehicles it continued to manufacture, sell, warrant, and represent as safe.

G. Old GM Engineers Proposed Design Modifications To The Ignition Switch In 2005 That Were Rejected By Old GM Management On The Basis Of Cost.

148. Old GM's knowledge of the serious safety problem grew, but still there was no disclosure. In February 2005, as part of the 2004 PRTS that avoided the word "stall," Old GM engineers met to analyze how to address the ignition switch defect.[28] Indeed, between February 2005 and December 2005, Old GM opened multiple PRTS inquiries regarding reports of power failure and/or engine shutdown in the affected vehicles.

149. Old GM engineers internally recognized that there was a need to do something in order to address the ignition switch defect. For example, Old GM engineers were directed to investigate a possible key slot change as "containment" of the defect, including development cost and time estimates.[29]

150. In May 2005, PRTS N182276 (the "2005 PRTS") was opened by Old GM to analyze the ignition switch in the 2005 Chevrolet Cobalt following continued customer complaints that the "vehicle ignition will turn off while driving."[30] Old GM acknowledged in the 2005 PRTS that it had previously been faced with the same issue in the 2004 PRTS and "[d]ue to the level of buyback activity that is developing in the field, Brand Quality requests that the issue be reopened."[31] In other words, customers were asking Old GM to take back the defective cars while Old GM said nothing to customers or the Class about the safety risks. Old GM continued to market and warrant the vehicles as safe. The 2005 PRTS proposed that Old

[29] GMHEC000001734 (Nov. 19, 2004).
[30] 2005 PRTS, originated May 17, 2005, GMHEC000001742-54.
[31] GMHEC000001743.

GM re-design the key head from a "slotted" to a "hole" configuration. After initially approving the proposed fix, Old GM reversed course and again declined to implement it.[32].

151. As part of one of the myriad PRTS inquiries opened in 2005, Quality Brand Manager Steve Oakley asked William Chase, an Old GM warranty engineer, to estimate the warranty impact of the ignition switch defect in Cobalt vehicles. Chase estimated that for Cobalt and G5 vehicles on the road for 26 months, 12.40 out of every 1,000 vehicles would experience inadvertent power failure while driving. Still, Old GM did nothing.

152. At a June 7, 2005, Vehicle And Process Integration Review ("VAPIR") meeting at Old GM, the Cobalt VAPIR team discussed potential solutions to the inadvertent shut-off issue. Around this same time, DeGiorgio was asked to propose a change to the ignition switch that would double the torque required to turn the switch.[33] DeGiorgio identified two possibilities. First, he proposed using a switch under development for the Saturn Vue and the Chevrolet Equinox (the "GMT 191"). Because the GMT 191 switch was superior to the current ignition switch both electrically and mechanically, DeGiorgio referred to it as the "gold standard of ignition switches."[34] Second, DeGiorgio proposed redesigning the ignition switch already in Delta platform vehicles. Part of DeGiorgio's redesign plan included adding a second detent plunger.[35]

153. At the VAPIR meeting on June 14, 2005, additional proposed fixes were presented – categorized as either "short-term" or "long-term" solutions. The short- term solution was to use a smaller key ring and to change the key going forward with a new key

head design that used a hole instead of a slot—the same idea that David Thrush had proposed during the November 2004 PRTS inquiry.[36] The "long-term" solutions included DeGiorgio's idea of replacing the ignition switch with the GMT 191, or gold standard switch, which would double the torque needed to shut off the ignition. The implementation of the new switch was targeted for MY 2007 or MY 2008 vehicles, at a cost of just $1.00/vehicle, plus tooling costs which were not known at that time.[37]

154. The presentation for this VAPIR meeting also included discussion of press coverage that described the very defect in this case that the Old GM engineers were addressing earlier in 2005: inadvertent shut-off of the ignition switch and moving stalls. The presentation included GM's official public relations statement regarding the issue reassuring the public and the Class that the vehicle was "still controllable."[38]

155. Also on June 14, 2005, similar complaints surfaced of "inadvertent ignition shut-offs" in the Solstice, which used the same defective ignition switch as the Cobalt and the Ion. A GM engineer emailed DeGiorgio and other Old GM personnel involved in evaluating short-term and long-term fixes for the ignition switch, informing them that Solstice testing showed the "ignition inadvertently turns off when hit." The engineer noted that the complaint was "very similar to the ones on the Cobalt [sic]" and suggested that the same "preventative measures" under discussion for the Cobalt should be taken for the Solstice.[39]

[39] E-mail from Devin Newell, GM, to Raymond DeGiorgio, GM, et al. (June 14, 2005) [DOC ID 000001748037; GMNHTSA000218756]. Valukas Report at 81, n. 336.

156. On June 17, 2005, Old GM engineer Al Manzor conducted testing on the ignition switch, and the proposed GMT 191 ignition switch, at Old GM's Milford Proving Ground[40] to evaluate how the switches performed in the Cobalt using a key with a slotted key head versus a key head with a hole.[41]

157. Manzor's testing demonstrated that the rotational torque required to move the key out of Run was 10 N-cm, below the Specification of 15 to 25 N-cm. However, neither Manzor, nor anyone else interviewed, compared the test results to the actual specification.[42]

158. Later in June 2005, the VAPIR approved a fix for existing customers – a plug that could be inserted into keys when customers came to the dealer reporting problems – and a change to the key for production in the future (a change that was not implemented). On July 12, 2005, Old GM also issued another Preliminary Information to dealers, this time explaining (only for the 2005 Cobalt and 2005 Pontiac Pursuit) that a fix was available (the key insert). The key change (and the insert) did not, however, address the core problem of inadequate torque performance in the ignition switch or the low placement of the ignition switch on the steering cylinder; indeed, the engineers still regarded the key head design change as only a temporary solution – or, as one Old GM engineer described it, a "band-aid."[43]

[40] The Milford Proving Ground is a GM engineering facility designed for vehicle research, development, and testing in Milford, Michigan. It has extensive test tracks for vehicle testing under a range of road conditions. Valukas Report at 81, n. 337.
[41] X001 Ignition Cylinder Effort … Next Actions" (June 19, 2005) [DOC ID 000012140574; GMNHTSA000218793]; J&B Interview of Alberto Manzor, May 1, 2014; e mail from Gay Kent, GM, to Deb Nowak-Vanderhoef, GM, *et al.*(June 14, 2005) [DOC ID S006878_000038279]. Valukas Report at 81, n. 338.

[43] Valukas Report at 82-83.

159. Manzor said he discussed his safety concerns about the Cobalt, including the potential for airbag non-deployment, with Parks, Altman, and a safety engineer, Naveen Ramachandrappa Nagapola.[44]

160. Ignoring the ignition defect did not make the problem or reported incidents go away.

H. Rather Than Implementing A Safety Recall And Fixing The Known Defect, Old GM Sent An Inadequate Technical Service Bulletin To GM Dealers In Late 2005, Advising Dealers On Taking Heavy Items Off Key Rings.

161. Throughout 2005, various committees within Old GM considered proposed fixes, but rejected them as too costly. In December of 2005, rather than issuing a safety recall on the ignition switch defects, Old GM sent a Technical Service Bulletin ("TSB") 05-02-35-007 to GM dealers, titled "Information on Inadvertent Turning Off of Key Cylinder, Loss of Electrical System and No DTCs" for the Chevy Cobalt and HHR, Saturn Ion, and Pontiac Solstice vehicles.[45] The TSB explained that "[t]here is potential for the driver to inadvertently turn off the ignition due to low ignition key cylinder/torque."

162. When Old GM issued this TSB, the prior Preliminary Information provided to its dealers on July 12, 2005 (which had accurately used the word "stall"), was removed from the dealer database as obsolete. This TSB also did not accurately describe the danger posed by the ignition switch defect and went only to Old GM dealers, not to the public or the Class.[46] There was no mention in the TSB of the possibility of airbag non-deployment, engine stalls, loss of power steering or power brakes.

[44] J&B Interview of Alberto Manzor, May l, 2014. Valukas Report at 83, n. 347.
[45] TSB 05-02-35-007, "Information on Inadvertent Turning Off of Key Cylinder, Loss of Electrical System and No DTCs," (Oct. 2006), at GMHEC000329773.
[46] March 2014 GM chronology; GMHEC000329773.

163. As evidence of the international and fraudulent concealment by Old GM, multiple Old GM employees confirmed that Old GM intentionally avoided using the word "stall" in the TSB to dealers.[47]

164. Old GM Quality Brand Manager, Steve Oakley, who drafted the December 2005 TSB, stated the term "stall" is a "hot" word that Old GM did not use in TSBs because *it may raise a concern about vehicle safety*, *which "suggests Old GM should recall the vehicle*, *not issue a bulletin."*[48] In addition, Old GM personnel stated that "there was concern about the use of 'stall' in a TSB because such language might draw the attention of NHTSA."[49] The December 2005 TSB was intentionally misleading and incomplete. Rather than spend the money on a part with sufficient torque or recall the defective vehicles, Old GM came up with a self-described band-aid.

165. Rather than disclose the true nature of the defects and correct them, pursuant to the December 2005 TSB, Old GM, through its dealers, instead gave some customers who brought in their vehicle complaining about stalling "an insert for the key ring so that it goes from a 'slot' design to a hole design" to prevent the key rings from moving up and down in the slot. "[T]he previous key ring" was "replaced with a smaller" one; this change was intended to keep the keys from hanging as low as they had in the past.[50] Old GM created over 10,000 key plug inserts as the defect's cheaper fix.[51] According to GM's records, Old GM dealers provided key inserts to only 474 customers who brought their vehicles into dealers for service.[52] But the band-aid failed because Old GM abandoned the key redesign effort.[53]

[47] Valukas Report at 91-93; (citing GMHEC000329773).
[48] Valukas Report at 92, n. 390, emphasis added.

[51] Valukas Report at 93-94.
[52] February GM Chronology at 2.

Furthermore, while Old GM made the key insert available to consumers of previously purchased vehicles, it did not, at the same time, change the key for cars that were rolling off the assembly line and those yet to be produced. Thus, even the "band-aid" that Old GM engineers proposed was not implemented for new cars.[54]

166. Still there was no recall and Old GM continued to receive complaints of fatalities and injuries that put it squarely on notice of the defect. Rather than issue the necessary safety recall, inside Old GM, the cover-up continued.

I. Old GM Knew About And Authorized A Design Change To The Ignition Switch In 2006, But Masked The Existence Of The Change By Keeping The Part Number The Same.

167. Old GM covertly authorized a design change for the defective ignition switch in 2006.

168. In late 2005 and early 2006, DeGiorgio discussed with Delphi a proposal to put a stronger spring and plunger into the ignition switch.[55] An internal Delphi document indicates that this switch design—with a longer detent spring-plunger—was the same as the longer detent spring-plunger design originally drafted by Delphi in 2001.[56] In other words, this option was available when the ignition switch was first designed [57]

169. In April 2006, DeGiorgio authorized Delphi to implement changes to fix the ignition switch defect.[58] The design change "was implemented to increase torque performance

[58] General Motors Commodity Validation Sign-Off (April 26, 2006, GMHEC000003201).

in the switch."[59] On April 26, 2006, DeGiorgio approved an ignition switch with a longer detent plunger by signing what is called a Form 3660, giving Delphi permission to begin manufacturing the longer parts for the switch.[60] The Form 3660 stated, "[n]ew detent plunger (Catera spring/plunger) was implemented to increase torque force in switch."[61] Each Form 3660 has to link back to a master work order, and this one did as well. But the work order to which it was linked was only for the electrical improvements to the ignition switch; the work order did not mention the change to the spring and plunger.[62] Old GM fraudulently concealed and acted to suppress and cover up this material fact.

170. Delphi documents suggest that the new ignition switch went into production sometime after June 26, 2006.[63] Although the design of the ignition switch changed, *the part number remained the same*.[64]

171. Meanwhile, consumers, NHTSA, the driving public, and the Class were not told of this change, because Old GM "*concealed the fact*" of the design change and "*failed to disclose this critical information*," with devastating consequences.[65]

172. In congressional testimony in 2014, GM CEO Mary Barra acknowledged that GM should have changed the part number when it redesigned the ignition switch, and that its failure to do so did not meet industry standard behavior. Former New GM engineers term GM's failure to change the part number a "cardinal sin" and "an extraordinary violation of internal processes."

J. The Fatalities Resulting From The Defects And Cover-Up Came To Old GM's Attention As Early As 2004.

173. Customer complaints and reports of injuries and fatalities continued.

174. GM's legal department received notice of the first Ion airbag non-deployment claim in January 2004 in a 2004 Saturn Ion. The first Cobalt crash came to Old GM's attention in September 2005.[66]

175. On November 17, 2005—immediately before Old GM issued the December Bulletin—a Cobalt went off the road and hit a tree in Baldwin, Louisiana. The front airbags did not deploy in this accident. Old GM received notice of the accident, opened a file, and referred to it as the "Colbert" incident.

176. In January 2006, a 2005 Chevy Cobalt, driven by an unsuspecting Old GM customer struck several trees and its driver died en route to the hospital.[67] The vehicle's power mode status was in "accessory" at the time of the crash and the airbag did not deploy when it should have.[68]

177. On February 10, 2006, in Lanexa, Virginia – shortly after Old GM issued the TSB – a 2005 Cobalt flew off of the road and hit a light pole. As with the Colbert incident (above), the frontal airbags failed to deploy in this incident. The download of the SDM (the vehicle's "black box") showed the key was in the "accessory/off" position at the time of the crash. Old GM received notice of this accident, opened a file, and referred to it as the "Carroll" incident.

---

[66] Valukas Report at 103, n. 419.
[67] Calspan Corporation, Calspan On-Site Air Bag Non-Deployment Investigation, Case No. CA05-049, Dec. 12, 2006 [DOC ID GMCB-000000073786; GMHEC100026303]; GM, Activity Notes form, File No. 501661, Jan. 31, 2006 [DOC ID 000001660023; GMNHTSA000200717]. Valukas Report at 110, n. 453.
[68] Crash Data Retrieval System, [redacted] SDM Data, Sept. 14, 2005 [DOC ID 000001660011; GMNHTSA000200688]. Valukas Report at 110, n. 454.

178. On March 14, 2006, in Frederick, Maryland, a 2005 Cobalt traveled off the road and struck a utility pole. The frontal airbags did not deploy in this incident. The download of the SDM showed the key was in the "accessory/off" position at the time of the crash. Old GM received notice of this incident, opened a file, and referred to it as the "Oakley" incident.

179. In September 2006, GM became aware of an incident in which a 2004 Saturn Ion left the road and struck a utility pole head on. The airbag did not deploy and the driver was wearing her seatbelt, but was pronounced dead at the scene. Old GM identified this crash as one in which the airbag should have deployed, and the airbag likely would have saved her life.[69] Old GM engineers agreed that "1) the airbags … should have deployed; 2) the SDM did not record the crash event, for unknown reasons;… and 4) it is reasonably likely that deployment of the driver airbag would have prevented [] death in this accident."[70] Still, Old GM admitted nothing and represented its cars were non-defective and safe.

180. On October 24, 2006, a crash occurred in which a 2005 Cobalt left the road and struck a telephone box and two trees. There were fatalities and severe injuries and the airbag did not deploy. Alan Adler e-mailed Dwayne Davidson, Senior Manager for TREAD Reporting at Old GM, and others, copying Gay Kent, Jaclyn Palmer, Brian Everest, and Doug Wachtel, with the subject line "2005 Cobalt Air Bags—Fatal Crash; Alleged Non-Deployment."[71]

181. In October 2006, a 2005 Chevy Cobalt was involved in a crash in Wisconsin which resulted in the deaths of the front right and rear right passengers. NHTSA assigned Indiana University Transportation Research Center to investigate the crash. The vehicle was

[69] Valukas Report at 112, n. 463, 464.
[70] Valukas Report at 113, n. 474.
[71] Valukas Report at 113-114.

inspected on November 6, 2006.[72] Old GM reported the crash later in 2006 in its EWR filing.[73] NHTSA requested additional information from GM in May of 2007, and GM responded a month later.[74]

182. In 2007, two analyses of the fatalities in the Wisconsin Cobalt crash, one by Wisconsin State Trooper Keith Young and another by Indiana University researchers, both independently concluded that the movement of the ignition switch from "run" into "accessory" caused the 2006 accident, the airbag non-deployment and the tragic deaths. Officer Young was able to reach this accurate conclusion by examining GM's own engineering documents.

183. Internal Old GM documents show that the company has received at least 248 reports of air bag non-deployment in 2005 MY vehicles.[75] Internal documents also showed that Old GM received at least 134 reports of air bag non-deployment in 2006 MY vehicles.[76]

K. Old GM Responded To Growing Evidence Of Fatalities By Updating The Technical Service Bulletin To Dealers About Heavy Key Chains.

184. In October 2006, Old GM updated the prior December 2005 Service Bulletin to include additional make and MY vehicles, namely: the 2007 Saturn Ion and Sky, 2007 Chevrolet HHR, and 2007 Pontiac Solstice and G5.[77] As it had previously done, in its statement to dealers, Old GM avoided acknowledging the ignition switch defect and this time blamed the problem on height and weight of its customers, short people and heavy key rings, stating:

---

[72] Indiana Univ. Transp. Research Ctr., On-site Air Bag Non-deployment Investigation Case No. IN06-033, Vehicle: 2005 Chevrolet Cobalt (Oct. 2006) (hereinafter the "2006 SCI Report").

[77] (Service Bulletin 05-02-35-007, "Information on Inadvertent Turning Off of Key Cylinder, Loss of Electrical System and No DTCs," (Oct. 2006 revised), at GMHEC000000002).

> There is potential for the driver to inadvertently turn off the ignition due to low ignition key cylinder torque/effort. The concern is more likely to occur if the driver is short and has a large and/or heavy key chain. In these cases, this condition was documented and the driver's knee would contact the key chain while the vehicle was turning and the steering column was adjusted all the way down. This is more likely to happen to a person who is short, as they will have the seat positioned closer to the steering column. In cases that fit this profile, question the customer thoroughly to determine if this may be the cause. The customer should be advised of this potential and should take steps to prevent it—such as removing unessential items from their key chain.[78]

185. Despite the TSB to dealers, millions of the defective vehicles remained on the road endangering the lives and livelihoods of the Class and the public.

L. Old GM Knew Of And Tracked Multiple Accidents Involving The Ignition Switch Defect By 2007 And Avoided Scrutiny By Misleading The Class, The Public, And Regulators.

186. Old GM knew that people were being killed and seriously injured because of the ignition switch defect in its vehicles and the resulting loss of power and airbag non-deployment.

187. In March 2007, Old GM met with NHTSA and discussed the July 29, 2005, fatal crash involving Amber Rose.[79] At this meeting, Old GM was told by NHTSA the airbags in the Cobalt did not deploy, causing the Ms. Rose's death, and that data retrieved from the crashed vehicle's diagnostic system indicated that the ignition was in the "accessory" position. This was no surprise to Old GM; it had been secretly tracking ignition switch related accidents since well before this time. By the end of 2007, Old GM identified ten (10) other accidents, including four (4) where the ignition switch had moved into the "accessory" position.[80]

[78] GMHEC000143093; GM Technical Service Bulletin, "Information on Inadvertent Turning Off of Key Cylinder, Loss of Electrical System and no DTCs," (Oct. 25, 2006), at GMHEC000138614.
[79] GM Feb. 24, 2014, Letter to NHTSA, GM February Chronology.
[80] GM Feb. 24, 2014, Letter to NHTSA, GM February chronology.

188. Thus, by the end of 2007, Old GM knew of at least 10 frontal collisions in which the airbag did not deploy.[81] Old GM actually knew of but kept secret many other similar fatal accidents involving the ignition switch defects.

189. For the next two years, Old GM continued to receive complaints and continued to investigate frontal crashes in which the airbags did not deploy in Defective Vehicles, but did not disclose the crucial safety information to the Class of unsuspecting drivers of Old GM vehicles.

190. In April 2007, having continued its investigation into the July 2005 Maryland Cobalt crash, NHTSA received a 2006 SCI report stating that the "crash is of special interest because the vehicle was equipped with … dual stage air bags that did not deploy."[82] The SCI Report concluded that the air bags did not deploy "as a result of the impact with the clump of trees, possibly due to the yielding nature of the tree impact or power loss due to the movement of the ignition switch just prior to impact."[83] The Electronic Data Recorder ("EDR") for the vehicle indicated that the ignition switch was in "Accessory" mode at the time of impact.[84] The SCI Report also found that the investigation demonstrated that contact with the ignition switch could result in "engine shutdown and loss of power."[85]

191. In August 2007, Old GM met with its airbag supplier, Continental, to review SDM data from a 2005 Chevrolet Cobalt crash where the airbags failed to deploy.[86]

---

[81] Letter from M. Carmen Benavides, Dir., Prod. Investigations & Safety Regulations, GM, to Nancy Lewis, Assoc. Adm'r for Enforcements, NHTSA, Attach. B-573.6(c)(6) at 2 (February 24, 2014), *available at* http://democrats.energycommerce.house.gov/sites/default/files/ documents/Letter-Benavides-Lewis-2014-02-24.pdf (or "Benavides Letter").

[86] Continental Automotive Sys. US, Inc., Field Event Analysis Report, GMHEC00003143-3153, GM Mar. 11, 2014 Letter to NHTSA, GM March chronology at 2.

192. The next month, in September of 2007, the Chief of the Defects Assessment Division ("DAD") within NHTSA's Office of Defects Investigation ("ODI") proposed an investigation of "frontal airbag non-deployment in the 2003-2006 Chevrolet Cobalt/Saturn Ion" vehicles.[87] The Chief of DAD within ODI noted that the "issue was prompted by a pattern of reported non-deployments in VOQ [Vehicle Owner Questionnaire] complaints that was first observed in early 2005."[88] The email stated that NHTSA had "discussed the matter with GM," but that Old GM had assured NHTSA that "they see no specific problem pattern."[89] NHTSA's Greg Magno stated:

> Notwithstanding GM's indications that they see no specific problem, DAD perceives a pattern of non-deployment in these vehicles that does not exist in their peers and that their circumstances are such that, in our engineering judgment, merited a deployment, and that such a deployment would have reduced injury levels or saved lives.[90]

193. In November 2007, NHTSA's ODI considered a proposal to investigate the non-deployment of airbags in 2003-2006 model/year Chevy Cobalt and Saturn Ion vehicles.[91] The review was prompted by twenty-nine (29) complaints, four (4) fatal crashes, and fourteen (14) field reports that NHTSA knew about.[92] Again, Old GM not only failed to act, it worked to thwart the agency's efforts, in furtherance of its fraud and concealment to the detriment of the Class.

194. As part of the cover-up, Old GM tried to avoid full regulatory investigation and disclosure by claiming that it was unaware of any problem in its vehicles. Furthermore, Old GM knew that the airbag system in the Defective Vehicles would be disabled when the

ignition switch to a vehicle moved from the "run" to the "accessory" position. The airbag system, in other words, was disabled when the vehicle lost power. Old GM knew, however, that NHTSA believed that in most, if not all, vehicles, the airbag systems were operable for several seconds following a power loss. Although Old GM knew that NHTSA was mistaken, it did not correct NHTSA's mistaken belief.

M. Old GM Instructed Its Personnel On Judgment Words To Be Avoided.

195. In a 2008 internal presentation at Old GM, it instructed its employees to avoid using the following judgment words:[93]

Always	detonate	maniacal
Annihilate	disemboweling	mutilating
Apocalyptic	enfeebling	Never
Asphyxiating	Evil	potentially-disfiguring
Bad	evicscerated [*sic*]	power [*sic*] keg
Band-Aid	explode	Problem
big time	Failed	Safety
brakes like an "X" car	Flawed	safety related
Cataclysmic	genocide	Serious
Catastrophic	Ghastly	spontaneous combustion
Challenger	grenadelike	startling
Chaotic	Grisly	suffocating
Cobain	gruesome	Suicidal
Condemns	Hindenburg	terrifying
Corvair-like	Hobbling	Titanic
Crippling	Horrific	tomblike
Critical	impaling	unstable
Dangerous	Inferno	widow-maker rolling sarcophagus (tomb or coffin)
Deathtrap	Kevorkianesque	Words or phrases with biblical connotation
Debilitating	lacerating	
Decapitating	life-threatening	
Defect	maiming	
Defective	mangling	

[93] NHTSA Consent Order at Exhibit B, 2008 Q1 Interior Technical Learning Symposium.

196. Instead of using their common sense judgment, Old GM employees were advised in Orwellian fashion to use specific words to avoid disclosure of the material safety risks, and in so doing furthered the cover-up and fraud through intentional word substitutions such as:

- "Issue, Condition [or] Matter" instead of "**Problem**"
- "Has Potential Safety Implications" instead of "**Safety**"
- "Does not perform to design" instead of "**Defect/Defective**"[94]

197. Old GM knew its defective vehicles were killing and maiming its customers, while instructing its employees to avoid the words "defect" or "safety." Instead of publicly admitting the dangerous safety defects in its vehicles, Old GM repeatedly blamed accidents on driver error.

198. From 2001 until July 10, 2009, Old GM was repeatedly put on notice of the defect internally and received reports of deaths and injuries in Chevy Cobalts and other GM vehicles involving airbag failures and/or steering, yet acted at every turn to fraudulently conceal the danger from the Class. Examples include, but are not limited to:

- 2005: 26 Cobalt Death and Injury Incidents, including 1 death citing "airbag" as the component involved.
- 2006: 69 Cobalt Death and Injury Incidents, including 2 deaths citing "airbag" as the component involved and 4 deaths listing the component involved as "unknown."
- 2007: 87 Cobalt Death and Injury Incidents, including 3 deaths citing "airbag" as the component involved.
- 2008: 106 Cobalt Death and Injury Incidents, including 1 death citing "airbag" as the component involved and 2 deaths listing the component involved as "unknown."[95]

[94] NHTSA Consent Order at Exhibit B (emphasis added).

N. By 2009, As Injuries And Deaths Continued To Mount, Old GM Opened Yet Another Internal Investigation, But Continued To Withhold Information From Its Customers And The Class About The Defects.

199. In February 2009, Old GM initiated yet another internal investigation of the ignition switch defect which resulted in a redesign of the ignition key for the 2010 model/year Cobalt.[96] However, Old GM took no remedial action in response to the investigation and continued to conceal the facts. Consequently, deaths, injuries, and incidents continued to occur related to the ignition switch defect. As one Old GM employee put it when the ignition defect was raised again internally at Old GM:

> "Gentleman! This issue has been around since man first lumbered out of sea and stood on two feet. In fact, I think Darwin wrote the first PRTS on this and included as an attachment as part of his Theory of Evolution."[97]

200. Some within Old GM were not mincing words. Yet Old GM chose to conceal the truth from the Class, and the death and injury toll mounted.

201. Again, in April 2009, a 2005 Chevy Cobalt was involved in a crash in Pennsylvania which resulted in the deaths of the driver and front passenger.[98] The crash was investigated by NHTSA.[99] The 2009 SCI Report noted that data from the Cobalt's SDM indicated that the ignition switch was in "accessory" mode at the time of the crash.[100] Still, Old GM refused to issue a recall or notify the Class of the danger.

O. The Spreadsheet Of Accidents Involving The Cobalt Ignition Switch Within Old GM Continued To Grow, But Was Never Disclosed.

202. Beginning in 2007, Old GM Field Performance Assessment engineer, John Sprague, maintained a spreadsheet of accidents involving Cobalt non-airbag deployments, along with the vehicle power mode status. To gather the data for the spreadsheet, Sprague sent SDMs from crash vehicles to Continental (the SDM manufacturer) so that it could access information that Old GM could not.[101] After receiving the data from Continental, Sprague collected information regarding the Cobalt crashes and power mode status, added it to the spreadsheet, and discovered that, in fact, the power mode status was recorded as "off" or "accessory" in many accidents..[102]

203. Sprague continued to maintain his spreadsheet until July 10, 2009 (and beyond). In doing so, Sprague noticed a pattern—the problem of non-deployment of airbags did not appear as frequently in MY 2008 and later Cobalts. That led him to question whether there had been some change in the Cobalt from MY 2007 to MY 2008.[103]

204. Sprague brought his spreadsheet on the ignition switches and vehicles losing power while driving to a meeting with DeGiorgio in 2009 and the two of them reviewed it together.[104] Still no action was taken. Instead, there were more non-productive meetings.

205. In May 2009, Old GM again met with its SDM supplier, Continental, and asked for data in connection with another crash involving a 2006 Chevy Cobalt where the airbags failed to deploy.[105] In a report dated May 11, 2009, Continental analyzed the SDM data and concluded that the SDM ignition state changed from "run" to "off" during the

accident. According to Continental, this, in turn, disabled the airbags. Old GM did not disclose this finding to NHTSA, despite its knowledge that NHTSA was interested in non-deployment incidents in Chevrolet Cobalt vehicles. Yet again, in the face of mounting death tolls, Old GM did not correct the ignition switch defect, take the vehicles off the road, or warn its consumers or the Class. Sprague's secret spreadsheet of accidents simply grew.

206. The next month, in June 2009, Old GM filed a Chapter 11 petition. The bankruptcy sale to New GM became effective on July 10, 2009.

207. At that point, New GM assumed Old GM's obligation to report any known, dangerous defects in GM vehicles, including the Defective Vehicles.

III. Meet The New GM, Same As The Old GM: With Knowledge of the Defects, New GM "Investigates" Further-And Continues To Conceal The Defects.

208. In 2009, Old GM declared bankruptcy, and, weeks later, it emerged from bankruptcy as New GM. Both before and after GM's bankruptcy, the ignition switches in the Defective Vehicles continued to fail and GM, in both its incarnations, continued to conceal the truth.

209. On March 10, 2010, many months after the birth of New GM, Brooke Melton was driving her 2005 Cobalt on a two-lane highway in Paulding County, Georgia. While she was driving, her key turned from the "run" to the "accessory/off" position causing her engine to shut off. After her engine shut off, she lost control of her Cobalt, which traveled into an oncoming traffic lane, where it collided with an oncoming car. Brooke was killed in the crash.

210. On March 22, 2011, Ryan Jahr, a GM engineer, downloaded the SDM from Brooke's Cobalt. The information from the SDM download showed that the key in Brooke's Cobalt turned from the "run" to the "accessory/off" position 3-4 seconds before the crash. On June 24, 2011, Brooke Melton's parents, Ken and Beth Melton, filed a lawsuit against GM.

211. On December 31, 2010, in Rutherford County Tennessee, a 2006 Cobalt traveled off the road and struck a tree. Despite there being a frontal impact in this incident, the frontal airbags failed to deploy. The download of the SDM showed the key was in the "accessory/off" position. New GM received notice of this incident, opened a file, and referred to it as the "Chansuthus" incident.

212. On December 31, 2010, in Harlingen, Texas, another 2006 Cobalt traveled off the road and struck a curb. Despite there being a frontal impact in this incident, the frontal airbags failed to deploy. New GM received notice of this incident, opened a file, and referred to it as the "Najera" incident.

213. These incidents are not limited to vehicles of model year 2007 and before. According to New GM's own investigation, there have been over 250 crashes involving 2008-2010 Chevrolet Cobalts in which the airbags failed to deploy.

214. In 2010, New GM began a formal investigation of the frontal airbag non-deployment incidents in Chevrolet Cobalts and Pontiac G5s. New GM subsequently elevated the investigation to a Field Performance Evaluation ("FPE").

215. In August 2011, New GM assigned Engineering Group Manager, Brian Stouffer as the Field Performance Assessment Engineer ("FPAE") to assist with the FPE investigation.

216. On December 18, 2011, in Parksville, South Carolina, a 2007 Cobalt traveled off the road and struck a tree. Despite there being a frontal impact in this incident, the frontal airbags failed to deploy. The download of the SDM showed the key was in the "accessory/off" position. GM received notice of this incident, opened a file, and referred to it as the "Sullivan" incident.

217. In spring 2012, Stouffer asked Jim Federico, a high level executive and chief engineer at Old and New GM who recently retired, to oversee the FPE investigation. Federico was the "executive champion" for the investigation to help coordinate resources for the FPE investigation.

218. In May 2012, New GM engineers tested the torque on the ignition switches for 2005-2009 Cobalt, 2007, 2009 Pontiac G5, 2006-2009 HHR, and 2003-2007 Ion vehicles in a junkyard. The results of these tests showed that the torque required to turn the ignition switches in most of these vehicles from the "run" to the "accessory/off" position did not meet Old GM's minimum torque specification requirements, including the 2008-2009 vehicles. These results were reported to Stouffer and other members of the FPE.

219. Indeed, airbag non-deployment incidents are not limited to vehicles of model year 2007 and before. According to New GM's own investigation, there have been over 250 crashes involving 2008-2010 Chevrolet Cobalts in which the airbags failed to deploy.

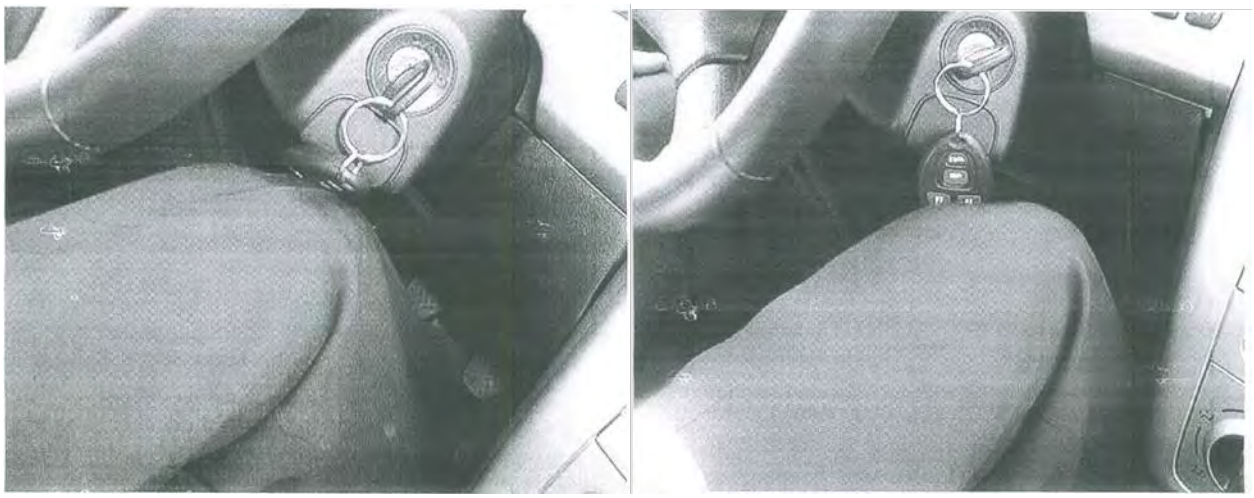
220. In September 2012, Stouffer requested assistance from a "Red X Team" as part of the FPE investigation. The Red X Team was a group of engineers within GM assigned to find the root cause of the airbag non-deployments in frontal accidents involving Chevrolet Cobalts and Pontiac G5s. By that time, however, it was clear that the root cause of the airbag non-deployments in a majority of the frontal accidents was the defective ignition switch system. The Red X Team became involved in the investigation shortly after Mr. Stouffer's request.

221. During the field-performance-evaluation process, New GM determined that, although increasing the detent in the ignition switch would reduce the chance that the key

would inadvertently move from the "run" to the "accessory/off" position, it would not be a total solution to the problem.

222. Indeed, the New GM engineers identified several additional ways to actually fix the problem. These ideas included adding a shroud to prevent a driver's knee from contacting the key, modifying the key and lock cylinder to orient the key in an upward facing orientation when in the run position, and adding a push button to the lock cylinder to prevent it from slipping out of run. New GM rejected each of these ideas.

223. The photographs below are of a New GM engineer in the driver's seat of a Cobalt during the investigation of Cobalt engine stalling incidents:



224. These photographs show the dangerous condition of the position of the key in the lock module on the steering column, as well as the key with the slot, which allow the key fob to hang too low off of the steering column. New GM engineers understood that the key fob may be impacted and pinched between the driver's knee and the steering column which causes the key to be inadvertently turned from the run to accessory/off position. The photographs show why the New GM engineers understood that increasing the detent in the ignition switch would not be a total solution to the problem. It also shows why GM engineers

believe that the additional changes to the ignition switch system (such as the shroud) were necessary to fix the defects.

225. The New GM engineers clearly understood that increasing the detent in the ignition switch alone was not a solution to the ignition switch problem but New GM concealed—and continues to conceal—from the public, the nature and extent of the defects.

226. By 2012, Federico, Stouffer, and the remaining members of the Red X Team knew that the Key System in the Ion, the Cobalt, and the G5 vehicles had safety-related defects that would cause the key to move from the "run" to the "accessory/off" position while driving these vehicles. They also knew that when this happened the airbags would no longer work in frontal crashes.

227. On October 4, 2012, there was a meeting of the Red X Team during which Federico gave an update of the Cobalt airbag non-deploy investigation. According to an email from Stouffer on the same date, the "primary discussion was on what it would take to keep the SDM active if the ignition key was turned to the accessory mode." Despite this recognition by New GM engineers that the SDM should remain active if the key is turned to the accessory/off mode, New GM has done nothing to remedy this safety defect and has fraudulently concealed, and continue to fraudulently conceal it, from the public.

228. During the October 4, 2012 meeting, Stouffer, and the other members of the Red X Team also discussed "revising the ignition switch to increase the effort to turn the key from Run to Accessory."

229. On October 4, 2012, at 9:07 p.m., Stouffer emailed DeGiorgio and asked him to "develop a high level proposal on what it would take to create a new switch for service with higher efforts."

230. On October 5, 2012, at 7:39 a.m., DeGiorgio responded:

Brian,

In order to provide you with a HIGH level proposal, I need to understand what my requirements are. what is the TORQUE value that you desire?

Without this information I cannot develop a proposal.

231. At 9:05 a.m. on that same day, Stouffer in responding to DeGiorgio's email, stated:

Ray,

As I said in my original statement, I currently don't know what the torque value needs to be. Significant work is required to determine the torque. What is requested is a high level understanding of what it would take to create a new switch.

232. DeGiorgio responded back to Stouffer at 9:33 a.m. that same morning:

Brian,

Not knowing what my requirements are I will take a SWAG at the Torque required for a new switch. Here is my high level proposal:

Assumption is 100 N cm Torque.

- New switch design = Engineering Cost Estimate approx. $300,000
- Lead Time = 18-24 months from issuance of GM Purchase Order and supplier selection.

Let me know if you have any additional questions.

233. Stouffer admitted during his deposition that DeGiorgio's reference to SWAG was an acronym for Silly Wild-Ass Guess.

234. DeGiorgio's cavalier attitude exemplifies the decade-long approach to the safety-related defects that existed in the ignition switch systems in Defective Vehicles. Rather than seriously addressing the safety defects, DeGiorgio's emails show he understood the ignition switches were contributing to the crashes and fatalities and he could not care less.

235. It is also obvious from this email exchange that Stouffer, who was a leader of the Red X Team, had no problem with DeGiorgio's cavalier and condescending response to the request that he evaluate the redesign of the ignition switches.

236. Federico, Stouffer, and the other members of the Red X Team also understood that these safety-related defects had caused or contributed to numerous accidents and multiple fatalities. Despite this knowledge, New GM chose to conceal this information from the public, including the Class.

237. In December 2012, in Pensacola, Florida, Ebram Handy, a New GM engineer, participated in an inspection of components from Brooke Melton's Cobalt, including the ignition switch. At that inspection, Handy, along with Mark Hood, a mechanical engineer retained by the Meltons, conducted testing on the ignition switch from Brooke Melton's vehicle, as well as a replacement ignition switch for the 2005 Cobalt.

238. At that inspection, Handy observed that the results of the testing showed that the torque performance on the ignition switch from Brooke Melton's Cobalt was well below Old GM's minimum torque performance specifications. Handy also observed that the torque performance on the replacement ignition switch was higher than the torque performance on the ignition switch in Brooke Melton's Cobalt.

239. In January 2013, Handy, in preparation for his Rule 30(b)(6) deposition in the Melton case, spoke with several people who were engineers at both Old and New GM,

including DeGiorgio and Stouffer. At that time, Handy knew that, based on the testing he had observed, the original ignition switch in the 2005 Cobalt failed to meet Old GM's minimum torque performance specifications and that Old GM had redesigned the ignition switches that were being sold as replacement switches. Both Old and N that an ignition switch that did not meet its minimum torque performance requirements was a safety defect.

240. Old and New GM engineers integrally involved with this situation have admitted that Old GM never should have sold the Defective Vehicles with ignition switches that did not meet the Company's minimum torque performance requirements.

241. In 2013, Ray DeGiorgio, the chief design engineer for the ignition switches in millions of the Defective Vehicles was deposed. At his deposition, DeGiorgio was shown photographs of the differences between the ignition switch in Brooke Melton's Cobalt and the ignition switch in the 2008 Cobalt or replacement ignition switch. After looking at the photographs of the different ignition switches, DeGiorgio testified as follows:

Q. The one on the right, Exhibit 13 is an '05 or an '06, and the one on the left, Exhibit 14, is either an '08 or replacement. Do you see the difference?

A. Yes.

Q. Have you noticed that before today, Mr. DeGiorgio?

A. No sir.

Q. Were you aware of this before today, Mr. DeGiorgio?

MR. HOLLADAY: Object to the form. You can answer.

THE WITNESS: No sir.

Q. It appears to be pretty clear that the plunger and the cap is taller on Exhibit 14 compared to Exhibit 13, isn't it?

A. That's correct.

Q. How is a taller cap going to affect the rotational resistance?

A. It's hard to determine from these pictures exactly if it is a taller cap or is it recessed inside the housing or not. It's hard for me to assess, really, what I'm looking at.

Q. You've taken apart a number of switches and you're telling the jury you've never noticed the difference in the plunger between the '05 and '06 versus the new resistor or switch?

MR. HOLLADAY: Object to the form.

THE WITNESS: I did not notice, no.

(DeGiorgio Deposition, pp. 149-150.)

242. DeGiorgio was then further questioned about his knowledge of any differences in the ignition switches:

Q. And I'll ask the same question. You were not aware before today that GM had changed the spring—the spring on the ignition switch had been changed from '05 to the replacement switch?

MR. HOLLADAY: Object to the form. Lack of predicate and foundation. You can answer.

THE WITNESS: I was not aware of a detent plunger switch change. We certainly did not approve a detent plunger design change.

Q. Well, suppliers aren't supposed to make changes such as this without GM's approval, correct?

A. That is correct.

Q. And you are saying that no one at GM, as far as you know, was aware of this before today?

MR. HOLLADAY: Object. Lack of predicate and foundation. You can answer.

THE WITNESS: I am not aware about this change.

(DeGiorgio Deposition, pp. 151-152.)

243. DeGiorgio clearly testified that he had absolutely no knowledge of any change in the ignition switch in 2005-2010 Cobalts.

244. DeGiorgio also provided the following testimony about the ignition switch supplier, Delphi:

Q. And there weren't any changes made—or were there changes made to the switch between '05 and 2010 that would have affected the torque values to move the key from the various positions in the cylinder?

A. There was one change made to the resistor in '08, but that should not have affected the torque or the displacement of the switch.

I can restate this way: There was an electrical change made in '08, but not a mechanical change—at least there were no official changes, mechanical changes, made to the switch that I know of.

Q. When you say no official, could there be unofficial changes made?

A. I'm not saying that there was, I'm just saying if there was something changed at the supplier side, we were not aware of it and we did not approve it, okay?

(DeGiorgio Deposition, pp. 57-58.)

Q. Did you ask Mary Fitz or anyone from Delphi whether there, in fact, had been any changes made to the ignition switch?

A. Yes, yes I did. And they came back, said there's been no changes made to the switch since the introduction to production.

Q. Who told you that?

A. Mary Fitz.

Q. Where is she located?

A. She's located in, I want to say, Delphi headquarters here in Michigan.

(DeGiorgio Deposition, pp. 117-118.)

245. DeGiorgio clearly testified that he had spoken with Delphi employees and that they confirmed there were no changes made to the ignition switch in 2005-2010 Cobalts.

246. DeGiorgio signed his errata sheet on May 23, 2013. In the signed errata sheet, DeGiorgio did not change any testimony referenced in this Complaint.

247. On June 12, 2013, Gary Altman, the Cobalt program engineering manager, testified as follows during his deposition in Melton v. GM:

Q. And the vehicle never should have been sold if it didn't meet GM's minimum torque specific—performance requirements, should it?

MR. FRANKLIN: Object to form.

THE WITNESS: That's correct.

Q. And the reason is because that could be dangerous under certain situations, because the key can move from run to accessory?

MR. FRANKLIN: Object to form.

THE WITNESS: Yes.

(Gary Altman Dep., pp. 23-24)

248. Altman's admission simply demonstrates that N that the Defective Vehicles were dangerous but chose to do nothing about it.

IV. New GM Issues A Recall—Ten Years Too Late.

249. On February 7, 2014, New GM informed NHTSA that it was conducting Recall No. 14V-047 for certain 2005-2007 model year Chevrolet Cobalts and 2007 model year Pontiac G5 vehicles.

250. In its February 7, 2014, letter to NHTSA, New GM represented that as replacement ignition switches became available, New GM would replace the ignition switches on the Defective Vehicles with ignition switches with greater torque to prevent the unintended movement from the "run" to "accessory" position..

251. On February 19, 2014, a request for timeliness query was sent to NHTSA in connection with Recall No. 14V-047 ("timeliness query"). The timeliness query pointed out that New GM had failed to recall all of the vehicles with the defective ignition switches.

252. The February 19, 2014 timeliness query also asked NHTSA to investigate New GM's failure to fulfill its legal obligation to report the safety defects in the Defective Vehicles to NHTSA within five days of discovering the defect.

253. On February 24, 2014, New GM sent a letter informing NHTSA it was expanding the recall to include 2006-2007 model year (MY) Chevrolet HHR and Pontiac Solstice, 2003-2007 MY Saturn Ion, and 2007 MY Saturn Sky vehicles.

254. New GM included an Attachment to the February 24, 2014, letter. In the Attachment New GM, *for the first time,* admitted that Old GM had authorized a change in the ignition switch in 2006. Specifically, New GM stated:

> On April 26, 2006, the GM design engineer responsible for the Cobalt's ignition switch signed a document approving changes to the ignition switch proposed by the supplier, Delphi Mechatronics.

> The approved changes included, among other things, the use of a new detent plunger and spring that increased torque force in the ignition switch. This change to the ignition switch was not reflected in a corresponding change in the part number for the ignition switch. GM believes that the supplier began providing the re-designed ignition switch to GM at some point during the 2007 model year.

255. New GM then produced documents in response to Congressional requests leading up to hearings on April 1 and 2, 2014. Among the documents produced by New GM is a document titled, "GENERAL MOTORS COMMODITY VALIDATION SIGN-OFF," dated April 26, 2006. According to this document, Delphi had met all of the sign-off requirements in order to provide a new ignition switch for certain Old GM vehicles. New GM has acknowledged that the ignition switch in the Cobalt was included in this design change.

256. The design change included a new detent plunger "to increase torque force in the switch." DeGiorgio's signature is on this page as the Old GM authorized engineer who signed off on this change to the ignition switch.

257. This Commodity Validation Sign-Off shows that DeGiorgio repeatedly perjured himself during his deposition on April 29, 2013. DeGiorgio perjured himself in order to fraudulently conceal evidence from the Meltons that Old GM had signed off on the change in the ignition switch so that the Meltons, and ultimately a jury, would never know that Old GM had changed the switches in 2007 and later model year Cobalts and concealed these changes from Brooke Melton.

258. DeGiorgio perjured himself when he signed the errata sheet confirming that all the testimony was true and accurate.

259. On March 17, 2014, Mary T. Barra, General Motors' chief executive issued an internal video, which was broadcast to employees.[106] In the video, Ms. Barra admits:

> Scrutiny of the recall has expanded beyond the review by the federal regulators at NHTSA, the National Highway Traffic Safety Administration. As of now, two congressional committees have announced that they will examine the issue. And it's been reported that the Department of Justice is looking into this matter.… *These are serious developments that shouldn't surprise anyone*. After all, *something went wrong with our process in this instance and terrible things happened.*… The bottom line is, *we will be better because of this tragic situation*, if we seize the opportunity.… I ask everyone to stay focused on making today's GM the best it can be.

260. On March 28, 2014, New GM again expanded the first ignition switch recall to cover all model years of the Chevrolet Cobalt and HHR, the Pontiac G5 and Solstice and the Saturn Ion and Sky in the United States. This third expansion of the ignition switch recall covered an additional 824,000 vehicles in the U.S., bringing the number of recalled vehicles to 2,191,146.

V. New GM's Recall Fails to Correct the Defect.

261. Not only was New GM's recall ten years too late, it is completely insufficient to correct the safety-related defects in the Defective Vehicles.

262. The supposed fix implemented by New GM as part of the recall—replacing the ignition switch—is insufficient and does not adequately address the safety risks posed by the defect. The ignition key and switch remains prone to inadvertently move from "run" to "accessory." Replacing the ignition switch does not address the problem posed by the low position of the ignition on the steering cylinder. Even with New GM's alleged "fix," drivers of ordinary height can hit the ignition key with their knees during ordinary driving situations.

[106] *See* http://media.gm.com/media/us/en/gm/news.detail.html./content/ Pages/news/us/en/2014/mar/0317-video.html. (last visited March 21, 2014) (emphasis added).

Such an impact may cause the ignition to move from the "run" to the "accessory" or "off" position while the vehicle is in operation, causing the vehicle to stall, the power brakes and power steeling to fail, and the airbags not to deploy in a collision.

263. Since at least the November 2004 PRTS inquiry, first Old and then New GM has known that simply replacing the ignition switches on the Defective Vehicles is not a solution to the potential for the key to inadvertently turn from the "run" to the "accessory/off" position in these vehicles.

264. New GM's recall fails to address the design defect that causes the key fob/chain to hang too low on the steering column.

265. Thus, even when the ignition switches are replaced, this defective condition will still exist in the Defective Vehicles and there continues to be the potential for a driver to contact the key chain and inadvertently turn the key from the "run" to the "accessory/off" position.

266. The recall is additionally insufficient because New GM is not replacing all of the keys in the Defective Vehicles with the redesigned key with a hole instead of a slot. Yet New GM's engineers have determined that the redesigned key would reduce the chance that the key could be inadvertently turned from the "run" to the "accessory/off" position.

267. The recall also fails to address the design defects in the Defective Vehicles which disables the airbag immediately upon the engine shutting off.

268. Although New GM began installing DeGiorgio's redesigned ignition switch in MY 2008 Defective Vehicles, later model year Defective Vehicles continue to experience non-deployment collision events. Undermining New GM's position is its own investigation

into the non-deployment events in Cobalts that identifies over 250 non-deploy crashes involving 2008-2010 Cobalts.

269. New GM's engineers understood that increasing the detent in the ignition switch alone was not a solution to the problem, but New GM concealed—and continues to conceal from the public, including the Class, the nature and extent of the defects, which the current recall will not cure.

VI. New GM Expands the February/March Recall—and Suspends Two Engineers.

270. On Wednesday, April 9, 2014, New GM issued a new recall of all the vehicles covered by the February/March ignition switch recall.

271. New GM's stated purpose for the new recall is to replace "lock cylinder" into which the key is inserted, because the current lock cylinders allow the key to be pulled out while the car is still running.

272. According to New GM, the defective lock cylinder could lead to "a possible roll-away, crash and occupant or pedestrian injuries."

273. The next day, April 10, 2014, New GM announced that it was suspending Ray DeGiorgio, the lead design engineer for the Cobalt and Ion ignition switch, and Gary Altman, GM's program-engineering manager for the Cobalt, for their respective roles in GM's safety failure. (The two have since been terminated in the wake of the Valukas Report.)

274. The April 10 announcement came after Ms. Barra, New GM's chief executive, was briefed on the results of former United States Attorney Anton R. Valukas internal investigation of the company, which was conducted in response to growing concerns regarding the safety of the Defective Vehicles.

275. Additionally, New GM also announced a new program entitled "Speak Up for Safety," which is intended to encourage New GM employees to report potential customer

safety issues. According to Ms. Barra, this program is being adopted because New "GM must embrace a culture where safety and quality come first." Unfortunately, these actions are too little, too late.

VII. The June 2014 Recall For The "Ignition Key Slot" Defect Further Reveals New GM's Fraudulent Concealment of Known Serious Safety Problems.

276. New GM sent further shockwaves through the automotive world when it announced, on June 23, 2014, that it was recalling 3,141,731 vehicles in the United States for ignition switch, or so-called "ignition key slot" defects (NHTSA Recall Number 14V- 355).

277. According to information on NHTSA's website, 2,349,095 of the vehicles subject to this recall were made by Old GM. 792,636 vehicles were made and/or sold by New GM.

278. The following Old GM vehicles were included in the June 23, 2014 recall: 2005-2009 Buick Lacrosse, 2006-2009 Chevrolet Impala, 2000-2005 Cadillac Deville, 2004-2009 Cadillac DTS, 2006-2011 Buick Lucerne, 2004-2005 Buick Regal LS and RS, and 2006-20009 Chevrolet Monte Carlo.

279. The recall notice states, "In the affected vehicles, the weight on the key ring and/or road conditions or some other jarring event may cause the ignition switch to move out of the run position, turning off the engine."

280. Further, "[i]f the key is not in the run position, the air bags may not deploy if the vehicle is involved in a crash, increasing the risk of injury. Additionally, a key knocked out of the run position could cause loss of engine power, power steering, and power braking, increasing the risk of a vehicle crash."

281. The vehicles included in this recall were built on the same platform and their defective ignition switches are likely due to weak detent plungers, just like the other Defective Vehicles recalled in February and March of 2014.

282. Old GM was long-aware of the ignition switch defect in these vehicles, and New GM was aware of the ignition switch defect in these vehicles from the date of its inception on July 11, 2009, as it acquired on that date all of the knowledge possessed by Old GM given the continuity in personnel, databases and operations from Old GM to New GM. In addition, New GM acquired additional information thereafter. The information, all of which was known to New GM, included the following facts:

i. In January of 2003, Old GM opened an internal investigation after it received complaints from a Michigan GM dealership that a customer had experienced a power failure while operating his model year 2003 Pontiac Grand Am.

ii. During the investigation, Old GM's Brand Quality Manager for the Grand Am visited the dealership and requested that the affected customer demonstrate the problem. The customer was able to recreate the shutdown event by driving over a speed bump at approximately 30-35 mph.

iii. The customer's key ring was allegedly quite heavy. It contained approximately 50 keys and a set of brass knuckles.

iv. In May 2003, Old GM issued a voicemail to dealerships describing the defective ignition condition experienced by the customer in the Grand Am. Old GM identified the relevant population of affected vehicles as the 1999-2003 Chevrolet Malibu, Oldsmobile Alero, and Pontiac Grand Am.

v. Old GM did not recall these vehicles. Nor did it provide owners and/or lessees with notice of the defective condition. Instead, its voicemail directed dealerships to pay attention to the key size and mass of the customer's key ring.

vi. On July 24, 2003, Old GM issued an engineering work order to increase the detent plunger force on the ignition switch for the 1999-2003 Chevrolet Malibu, Oldsmobile Alero, and Pontiac Grand Am vehicles. Old GM engineers allegedly increased the detent plunger force and changed the part number of the ignition switch. The new parts were installed beginning in the model year 2004 Malibu, Alero, and Grand Am vehicles.

vii. Old GM issued a separate engineering work order in March 2004 to increase the detent plunger force on the ignition switch in the Pontiac Grand Prix. Old GM engineers did not change the part number for the new Pontiac Grand Prix ignition switch.

viii. Then-Old GM design engineer Ray DeGiorgio signed the work order in March 2004 authorizing the part change for the Grand Prix ignition switch. DeGiorgio maintained his position as design engineer with New GM.

ix. On or around August 25, 2005, Laura Andres, an Old GM design engineer (who remains employed with New GM), sent an email describing ignition switch issues that she experienced while operating a 2006 Chevrolet Impala on the highway. Ms. Andres' email stated, "While driving home from work on my usual route, I was driving about 45 mph, where the road changes from paved to gravel & then back to paved, some of the gravel had worn away, and the pavement acted as a speed bump when I went over it. The car shut off. I took the car in for repairs. The technician thinks it might be the ignition detent, because in a road test in the parking lot it also shut off."

x. Old GM employee Larry S. Dickinson, Jr. forwarded Ms. Andres' email on August 25, 2005 to four Old GM employees. Mr. Dickinson asked, "Is this a condition we would expect to occur under some impacts?"

xi. On August 29, 2005, Old GM employee Jim Zito forwarded the messages to Ray DeGiorgio and asked, "Do we have any history with the ignition switch and far as it being sensitive to road bumps?"

xii. Mr. DeGiorgio responded the same day, stating, "To date there has never been any issues with the detents being too light."

xiii. On August 30, 2005, Ms. Andres sent an email to Old GM employee Jim Zito and copied ten other Old GM employees, including Ray DeGiorgio. Ms. Andres, in her email, stated, "I picked up the vehicle from repair. No repairs were done. . . . The technician said there is nothing they can do to repair it. He said it is just the design of the switch. He said other switches, like on the trucks, have a stronger detent and don't experience this."

xiv. Ms. Andres' email continued: "I think this is a serious safety problem, especially if this switch is on multiple programs. I'm thinking big recall. I was driving 45 mph when I hit the pothole and the car shut off and I had a car driving behind me that swerved around me. I don't like to imagine a customer driving with their kids in the back seat, on I-75 and hitting a pothole, in rush-hour traffic. I think you should seriously consider changing this part to a switch with a stronger detent."

xv. Ray DeGiorgio, who reportedly designed the ignition switches installed in the 2006 Chevrolet Impala vehicles, replied to Ms. Andres' email, stating that he had recently driven a 2006 Impala and "did not experience this condition."

283. On or after July 11, 2009, senior executives and engineers at N that some of the information relayed to allay Ms. Andres' concerns was inaccurate. For example, Ray DeGiorgio knew that there had been "issues with detents being too light." Instead of relaying those "issues," Mr. DeGiorgio falsely stated that there were no such "issues."

284. New GM has tried to characterize the recall of these 3.14 million vehicles as being different than the recall for the ignition switch defect in the Cobalts and other Defective Ignition Switch Vehicles when in reality and for all practical purposes it is for exactly the same defect that creates exactly the same safety risks. New GM has attempted to label and describe the ignition key slot defect as being different in order to provide it with cover and an explanation for why it did not recall these 3.14 million vehicles much earlier, and why it is not providing a new ignition switch and other remedies for the 3.14 million vehicles.

285. From 2001 to the present, Old GM and New GM received numerous reports from consumers regarding complaints, crashes, injuries and deaths linked to this safety defect. The following are examples of just a few of the many reports and complaints regarding the defect:

286. For example, on January 23, 2001, Old GM became aware of a complaint filed with NHTSA involving a 2000 Cadillac Deville and an incident that occurred on January 23, 2001, in which the following was reported:

> "COMPLETE ELECTRICAL SYSTEM AND ENGINE SHUTDOWN WHILE DRIVING. HAPPENED THREE DIFFERENT TIMES TO DATE. DEALER IS UNABLE TO DETERMINE CAUSE OF FAILURE. THIS CONDITION DEEMED TO BE EXTREMELY HAZARDOUS BY OWNER."
> NHTSA ID Number: 739850

287. On June 12, 2001, Old GM became aware of a complaint filed with NHTSA involving a 2000 Cadillac Deville and an incident that occurred on June 12, 2001, in which the following was reported:

> "INTEERMITTENTLY AT 60MPH VEHICLE WILL STALL OUT AND DIE. MOST TIMES VEHICLE WILL START UP IMMEDIATELY AFTER. DEALER HAS REPLACED MAIN CONSOLE 3 TIMES, AND ABS BRAKES. BUT, PROBLEM HAS NOT BEEN CORRECTED. MANUFACTURER HAS BEEN NOTIFIED.*AK" NHTSA ID Number: 890227

288. On January 27, 2003, Old GM became aware of a complaint filed with NHTSA involving a 2001 Cadillac Deville and an incident that occurred on January 27, 2003, in which the following was reported:

> "WHILE DRIVING AT HIGHWAY SPEED ENGINE SHUTDOWN, CAUSING AN ACCIDENT. PLEASE PROVIDE ANY ADDITIONAL INFORMATION.*AK" NHTSA ID Number: 10004759

289. On September 18, 2007, Old GM became aware of a complaint filed with NHTSA involving a 2006 Chevrolet Impala and an incident that occurred on September 15, 2006, in which it was reported that:

> "TL*THE CONTACTS SON OWNS A 2006 CHEVROLET IMPALA. WHILE DRIVING APPROXIMATELY 33 MPH AT NIGHT, THE CONTACTS SON CRASHED INTO A STALLED VEHICLE. HE STRUCK THE VEHICLE ON THE DRIVER SIDE DOOR AND NEITHER THE DRIVER NOR THE PASSENGER SIDE AIR BAGS DEPLOYED. THE DRIVER SUSTAINED MINOR INJURIES TO HIS WRIST. THE VEHICLE SUSTAINED MAJOR FRONT END DAMAGE. THE DEALER WAS NOTIFIED AND STATED THAT THE CRASH HAD TO HAVE BEEN A DIRECT HIT ON THE SENSOR. THE CURRENT AND FAILURE MILEAGES WERE 21,600. THE CONSUMER STATED THE AIR BAGS DID NOT DEPLOY. THE CONSUMER PROVIDED PHOTOS OF THE VEHICLE. UPDATED 10/10/07 *TR" NHTSA ID Number: 10203350

290. On April 02, 2009, GM became aware of a complaint filed with NHTSA involving a 2005 Buick LaCrosse and an incident that occurred on April 02, 2009, in which the following was reported:

> "POWER STEERING WENT OUT COMPLETELY, NO WARNING JUST OUT. HAD A VERY HARD TIME STEERING CAR. LUCKY KNOW ONE WAS HURT. *TR" NHTSA ID Number: 10263976

291. The reports regarding the defect continued to be reported to New GM. For example, on February 15, 2010, New GM became aware of a complaint filed with NHTSA involving a 2008 Buick LaCrosse and an incident that occurred on February 13, 2010, in which a driver reported:

> "WHILE DRIVING AT 55MPH I RAN OVER A ROAD BUMP AND MY 2008 BUICK LACROSSE SUPER SHUT OFF(STALLED). I COASTED TO THE BURM, HIT BRAKES TO A STOP. THE CAR STARTED ON THE FIRST TRY. CONTINUED MY TRIP WITH NO INCIDENCES. TOOK TO DEALER AND NO CODES SHOWED IN THEIR COMPUTER. CALLED GM CUSTOMER ASSISTANCE AND THEY GAVE ME A CASE NUMBER. NO BULLETINS. SCARY TO DRIVE. TRAFFIC WAS LIGHT THIS TIME BUT MAY NOT BE THE NEXT TIME. *TR." NHTSA ID Number: 10310692

292. On April 21, 2010, New GM became aware of a complaint filed with NHTSA involving a 2006 Buick Lucerne and an incident that occurred on March 22, 2010, in which the following was reported:

> "06 BUICK LUCERNE PURCHASED 12-3-09, DIES OUT COMPLETELY WHILE DRIVING AT VARIOUS SPEEDS. THE CAR HAS SHUT OFF ON THE HIGHWAY 3 TIMES WITH A CHILD IN THE CAR. IT HAS OCCURRED A TOTAL OF 7 TIMES BETWEEN1-08-10 AND 4-17-10. THE CAR IS UNDER FACTORY WARRANTY AND HAS BEEN SERVICED 7 TIMES BY 3 DIFFERENT BUICK DEALERSHIPS. *TR" NHTSA ID Number: 10326754

293. On April 29, 2010, New GM became aware of a complaint filed with NHTSA involving a 2005 Buick LaCrosse and an incident that occurred on March 21, 2010, in which it was reported that:

> "TRAVELING ON INTERSTATE 57 DURING DAYTIME HOURS. WHILE CRUISING AT 73 MILES PER HOUR IN THE RIGHT HAND LANE, THE VEHICLE SPUTTERED AND LOST ALL POWER. I COASTED TO A STOP OFF THE SIDE OF THE ROAD. I RESTARTED THE VEHICLE AND EVERYTHING SEEMED OK, SO I CONTINUED ON. A LITTLE LATER IT SPUTTERED AGAIN AND STARTED LOSING POWER. THE POWER CAME BACK BEFORE IT CAME TO A COMPLETE STOP. I CALLED ON STAR FOR A DIAGNOSTIC CHECK AND THEY TOLD ME I HAD A FUEL SYSTEM PROBLEM AND THAT IF THE CAR WOULD RUN TO CONTINUE THAT IT WAS NOT A SAFETY ISSUE. THEY TOLD ME TO TAKE IT TO A DEALER FOR REPAIRS WHEN I GOT HOME. I TOOK THE CAR WORDEN-MARTEN SERVICE CENTER FOR REPAIRS ON MARCH 23RD. TO REPAIR THE CAR THEY: 1.REPLACED CAT CONVERTER AND OXYGEN SENSOR 125CGMPP- $750.47 A SECOND INCIDENT OCCURRED WHILE TRAVELING ON INTERSTATE 57 DURING DAYTIME HOURS. I WAS PASSING A SEMI TRACTOR TRAILER WITH THREE CARS FOLLOWING ME WHILE CRUISING AT 73 MILES PER HOUR WHEN THE VEHICLE SPUTTERED AND LOST ALL POWER PUTTING ME IN A VERY DANGEROUS SITUATION. THE VEHICLE COASTED DOWN TO ABOUT 60 MILES PER HOUR BEFORE IT KICKED BACK IN. I IN THE MEAN TIME HAD DROPPED BACK BEHIND THE SEMI WITH THE THREE CARS BEHIND ME AND WHEN I COULD I PULLED BACK INTO THE RIGHT HAND LANE. THIS WAS A VERY DANGEROUS SITUATION FOR ME AND MY WIFE. I CALLED ON STAR FOR A DIAGNOSTIC CHECK AND THEY TOLD ME THAT EVERYTHING WAS OK. I TOOK THE CAR WORDEN-MARTEN SERVICE CENTER FOR REPAIRS AGAIN ON APRIL 19TH TO REPAIR THE CAR THEY: 1.REPLACED MASS -AIR FLOW UNIT AND SENSOR $ 131.39 WHO KNOWS IF IT IS FIXED RIGHT THIS TIME? THIS WAS A VERY DANGEROUS SITUATION TO BE IN FOR THE CAR TO FAIL. *TR" NHTSA ID Number: 10328071

294. On June 2, 2010, New GM became aware of a complaint filed with NHTSA involving a 2007 Buick LaCrosse and an incident that occurred on March 1, 2010, in which the following was reported:

> "2007 BUICK LACROSSE SEDAN. CONSUMER STATES MAJOR SAFETY DEFECT. CONSUMER REPORTS WHILE DRIVING THE ENGINE SHUTDOWN 3 TIMES FOR NO APPARENT REASON *TGW" NHTSA ID Number: 10334834

295. On February 20, 2014, New GM became aware of a complaint filed with NHTSA involving a 2006 Chevrolet Monte Carlo and an incident that occurred on January 16, 2014, in which the following was reported:

> "I WAS DRIVING GOING APPROXIMATELY 45 MPH, I HIT A POT HOLE AND MY VEHICLE CUT OFF. THIS HAS HAPPENED THREE TIMES SINCE JANUARY. THE SAME THING HAPPENED THE SECOND TIME. THE LAST TIME IT OCCURRED WAS TUESDAY, FEBRUARY 18. THIS TIME I WAS ON THE EXPRESSWAY TRAVELING APPROXIMATELY 75 MPH, HIT A BUMP AND IT CUT OFF. THE CAR STARTS BACK UP WHEN I PUT IT IN NEUTRAL. *TR" NHTSA ID Number: 10565104

296. On March 3, 2014, New GM became aware of a complaint filed with NHTSA involving a 2006 Chevrolet Impala and an incident that occurred on February, 29, 2012, in which the following was reported:

> "I WAS DRIVING MY COMPANY ASSIGNED CAR DOWN A STEEP HILL WHEN THE ENGINE STALLED WITHOUT WARNING. THIS HAS HAPPENED 5 OTHER TIMES WITH THIS VEHICLE. THIS WAS THE FIRST TIME I WAS TRAVELING FAST THOUGH. IT'S LIKE THE ENGINE JUST TURNS OFF. THE LIGHTS ARE STILL ON BUT I LOSE THE POWER STEERING AND BRAKES. IT WAS TERRIFYING AND EXTREMELY DANGEROUS. THIS PROBLEM HAPPENS COMPLETELY RANDOMLY WITH NO WARNING. IT HAS HAPPENED TO OTHERS IN MY COMPANY WITH THEIR IMPALAS. I LOOKED ONLINE AND FOUND NUMEROUS OTHER INSTANCES OF CHEVY IMPALAS OF VARIOUS MODEL YEARS DOING THE SAME THING. IT IS CURRENTLY IN THE REPAIR SHOP AND THE

> MECHANIC CAN'T DUPLICATE THE PROBLEM. I TOLD THEM ITS RANDOM AND OCCURS ABOUT EVERY 4 MONTHS OR SO. I AM AFRAID I WILL HAVE TO GET BACK IN THIS DEATH TRAP DUE TO MY EMPLOYER MAKING ME. PLEASE HELP- I DON'T WANT TO DIE BECAUSE CHEVROLET HAS A PROBLEM WITH THEIR ELECTRICAL SYSTEMS IN THEIR CARS. *TR" NHTSA ID Number: 10567458

297. On March 11, 2014, New GM became aware of a complaint filed with NHTSA involving a 2007 Cadillac DTS and an incident that occurred on January 27, 2013, in which the following was reported:

> "ENGINE STOPPED. ALL POWER EQUIPMENT CEASED TO FUNCTION. I WAS ABLE TO GET TO THE SIDE OF THE FREEWAY. PUT THE CAR IN NEUTRAL, TURNED THE KEY AND THE CAR STARTED AND CONTINUED FOR THE DURATION OF THE 200 MILE TRIP. THE SECOND TIME APPROXIMATELY THREE WEEKS AGO MY WIFE WAS DRIVING IN HEAVY CITY TRAFFIC WHEN THE SAME PROBLEM OCCURRED AND SHE LOST THE USE OF ALL POWER EQUIPMENT. SHE WAS ABLE TO PUT THE CAR IN PARK AND GET IT STARTED AGAIN WITHOUT INCIDENT. I CALLED GM COMPLAINT DEPARTMENT. THEY INSTRUCTED ME TO TAKE THE CAR TO A DEALERSHIP AND HAVE A DIAGNOSTIC TEST DONE ON IT. THIS WAS DONE AND NOTHING WAS FOUND TO BE WRONG WITH THE VEHICLE. I AGAIN CALLED CADILLAC COMPLAINT DEPARTMENT AND OPENED A CASE. THIS TIME I WAS TOLD TO TAKE THE CAR BACK TO THE DEALERSHIP AND ASK THE SERVICE DEPARTMENT TO RECHECK IT. I INFORMED THEM I HAVE THE DIAGNOSTIC REPORT SHOWING NOTHING WRONG WAS FOUND. THEY SUGGESTED I TAKE IT BACK AND HAVE THE SERVICE PEOPLE DRIVE THE CAR. THIS DIDN'T MAKE ANY SENSE BECAUSE I DON'T KNOW WHEN AND WHERE THE PROBLEM WILL OCCUR AGAIN. WHAT WAS I TO DO FOR A CAR WHILE THE DEALERSHIP HAD MINE? I INQUIRED OF THE CADILLAC REPRESENTATIVE IF THIS CAR MAY HAVE THE SAME IGNITION AS THE CARS CURRENTLY BEING RECALLED BY GM. THEY WERE UNABLE TO ANSWER THAT QUESTION. THEY FINALLY STATED THE ONLY REMEDY WAS TO TAKE IT BACK TO THE DEALERSHIP. IF THIS PROBLEM OCCURS AGAIN SOMEONE COULD EASILY GET INJURED OR KILLED. I

> WOULD APPRECIATE ANY ASSISTANCE YOU CAN GIVE ME ON HOW TO RESOLVE THIS MATTER." NHTSA ID Number: 10568491

298. On March 19, 2014, New GM became aware of a complaint filed with NHTSA involving a 2006 Buick LaCrosse and an incident that occurred on March 15, 2014, in which the following was reported:

> "WHILE DRIVING UP A LONG INCLINE ON I-10 VEHICLE BEHAVED AS IF THE IGNITION HAD BEEN TURNED OFF AND KEY REMOVED. IE: ENGINE OFF, NO LIGHTS OR ACCESSORIES, NO WARNING LIGHTS ON DASH. TRAFFIC WAS HEAVY AND MY WIFE WAS FORTUNATE TO SAFELY COAST INTO SHOULDER. INCIDENT RECORDED WITH BUICK, HAVE REFERENCE NUMBER. *TR" NHTSA ID Number: 10573586

299. On June 20, 2014, New GM became aware of a complaint filed with NHTSA involving a 2008 Buick LaCrosse and an incident that occurred on August 30, 2013, in which the following was reported:

> "THE IGNITION CONTROL MODULE (NOT THE IGNITION SWITCH) FAILED SUDDENLY WHILE DRIVING ON THE HIGHWAY, CAUSING THE ENGINE TO SHUT OFF SUDDENLY AND WITHOUT WARNING. THE CAR WAS TRAVELING DOWNHILL, SO THE INITIAL INDICATION WAS LOSS OF POWER STEERING. I WAS ABLE TO PULL ONTO THE SHOULDER AND THEN REALIZED THAT THE ENGINE HAD DIED AND WOULD NOT RESTART. WHILE NO CRASH OR INJURY OCCURRED, THE POTENTIAL FOR A SERIOUS CRASH WAS QUITE HIGH." NHTSA ID Number: 10604820

300. On July 1, 2014, New GM became aware of a complaint filed with NHTSA involving a 2006 Buick LaCrosse and an incident that occurred on October 25, 2012, in which the following was reported:

> "TRAVELING 40 MPH ON A FOUR LANE ABOUT TO PASS A TRUCK. MOTOR STOPPED, POWER STEERING OUT, POWER BRAKES OUT, MANAGED TO COAST ACROSS THREE LANES TO SHOULDER TO PARK. WALKED 1/4

> MILES TO STORE CALLED A LOCAL GARAGE. CAR STILL WOULD NOT START, TOWED TO HIS GARAGE. CHECKED GAS, FUEL PRESSURE OKAY BUT NO SPARK. MOVED SOME CONNECTORS AROUND THE STARTING MODULE AND CAR STARTED. HAVE NOT HAD ANY PROBLEMS SINCE, HAVE THE FEAR THAT I WILL BE ON A CHICAGO TOLL ROAD AND IT WILL STOP AGAIN." NHTSA ID Number: 10607535

301. On July 12, 2014, New GM became aware of a complaint filed with NHTSA involving a 2009 Chevrolet Impala and an incident that occurred on March 19, 2010, in which the following was reported:

> "I HAD JUST TURNED ONTO THIS ROAD, HAD NOT EVEN GONE A MILE. NO SPEED, NO BLACK MARKS, CAR SHUTDOWN RAN OFF THE ROAD AND HIT A TREE STUMP. TOTAL THE CAR. THE STEERING WHEEL WAS BENT ALMOST IN HALF. I HAVE PICTURES OF THE CAR. I GOT THIS CAR NEW, SO ALL MILES WE'RE PUT ON IT BY ME. I BROKE MY HIP, BACK, KNEE, DISLOCATED MY ELBOW, CRUSHED MY ANKLE AND FOOT. HAD A HEAD INJURY, A DEFLATED LUNG. I WAS IN THE HOSPITAL FOR TWO MONTHS AND A NURSING HOME FOR A MONTH. I HAVE HAD 14 SURGERIES. STILL NOT ABLE TO WORK OR DO A LOT OF THINGS FOR MY SELF. WITH THE RECALLS SHOWING THE ISSUES OF THE ENGINE SHUTTING OFF, I NEED THIS LOOKED INTO." NHTSA ID Number: 10610093

302. On July 24, 2014, New GM became aware of a complaint filed with NHTSA involving a 2008 Buick LaCrosse and an incident that occurred on July 15, 2014, in which the following was reported:

> "WHILE DRIVING NORTH ON ALTERNATE 69 HIGHWAY AT 65 MPH AT 5:00 P.M., MY VEHICLE ABRUPTLY LOSS POWER EVEN THOUGH I TRIED TO ACCELERATE. THE ENGINE SHUT OFF SUDDENLY AND WITHOUT WARNING. VEHICLE SLOWED TO A COMPLETE STOP. I WAS DRIVING IN THE MIDDLE LANE AND WAS UNABLE TO GET IN THE SHOULDER LANE BECAUSE I HAD NO PICKUP (UNABLE TO GIVE GAS TO ACCELERATE) SO MY HUSBAND AND I WERE CAUGHT IN FIVE 5:00 TRAFFIC WITH CARS WHIPPING AROUND US ON BOTH SIDES AND

> MANY EXCEEDING 65 MPH. I PUT ON MY EMERGENCY LIGHTS AND IMMEDIATELY CALLED ON-STAR. I WAS UNABLE TO RESTART THE ENGINE. THANK GOD FOR ON-STAR BECAUSE FROM THAT POINT ON, I WAS IN TERROR WITNESSING CARS COMING UPON US NOT SLOWING UNTIL THEY REALIZED I WAS AT A STAND STILL WITH LIGHTS FLASHING. THE CARS WOULD SWERVE TO KEEP FROM HITTING US. IT TOOK THE HIGHWAY PATROL AND POLICE 15 MINUTES TO GET TO US BUT DURING THAT TIME, I RELIVED VISIONS OF US BEING KILLED ON THE HIGHWAY. I CANÂ€™T DESCRIBE THE HORROR, LOOKING OUT MY REAR VIEW MIRROR, WITNESSING OUR DEMISE TIME AFTER TIME. THOSE 15 MINUTES SEEMED LIKE AN ETERNITY. WHEN THE HIGHWAY PATROL ARRIVED THEY CLOSED LANES AND ASSISTED IN PUSHING CAR OUT OF THE HIGHLY TRAFFIC LANES. IT TOOK MY HUSBAND AND I BOTH TO TURN THE STEERING WHILE IN NEUTRAL. THE CAR WAS TOWED TO CONKLIN FANGMAN KC DEALERSHIP AND I HAD TO REPLACE IGNITION COIL AND MODULE THAT COST ME $933.16. THEY SAID THESE PARTS WERE NOT ON THE RECALL LIST, WHICH I HAVE FOUND OUT SINCE THEN GM HAS PUT DEALERSHIPS ON NOTICE OF THIS PROBLEM. IT HAS SOMETHING TO DO WITH SUPPLYING ENOUGH MANUFACTURED PARTS TO TAKE CARE OF RECALL. IF I COULD AFFORD TO PURCHASE ANOTHER CAR I WOULD BECAUSE I DONÂ€™T FEEL SAFE ANY LONGER IN THIS CAR. EMOTIONALLY I AM STILL SUFFERING FROM THE TRAUMA.” NHTSA ID Number: 10604820

303. Notwithstanding New GM’s recall, the reports and complaints relating to this defect have continued to pour into New GM. Such complaints and reports indicate that New GM’s proffered recall “fix” does not work.

304. For example, on August 2, 2014, New GM became aware of a complaint filed with NHTSA involving a 2006 Buick LaCrosse and an incident that occurred on July 12, 2014, in which the following was reported:

> “WHILE TRAVELING IN THE FAST LANE ON THE GARDEN STATE PARKWAY I HIT A BUMP IN THE ROAD, THE AUTO SHUT OFF.WITH A CONCRETE DIVIDER ALONG SIDE AND AUTOS APPROACHING AT HIGH

> SPEED, MY WIFE AND DAUGHTER SCREEMING I MANAGED TO GET TO THE END OF THE DIVIDER WERE I COULD TURN OFF THE AUTO RESTARTED ON 1ST TRY BUT VERY SCARY." NHTSA ID Number: 10618391

305. On August 18, 2014, New GM became aware of a complaint filed with NHTSA involving a 2007 Buick LaCrosse and an incident that occurred on August 18, 2014, in which the following was reported:

> "TL* THE CONTACT OWNS A 2007 BUICK LACROSSE. THE CONTACT STATED WHILE DRIVING APPROXIMATELY 60 MPH, SHE HIT A POT HOLE AND THE VEHICLE STALLED. THE VEHICLE COASTED TO THE SHOULDER OF THE ROAD. THE VEHICLE WAS RESTARTED AND THE CONTACT WAS ABLE TO DRIVE THE VEHICLE AS NORMAL. THE CONTACT RECEIVED A RECALL NOTICE UNDER NHTSA CAMPAIGN NUMBER: 14V355000 (ELECTRICAL SYSTEM), HOWEVER THE PARTS NEEDED FOR THE REPAIRS WAS UNAVAILABLE. THE VEHICLE WAS NOT REPAIRED. THE MANUFACTURER WAS NOT NOTIFIED OF THE FAILURE. THE APPROXIMATE FAILURE MILEAGE WAS 110,000." NHTSA ID Number: 10626067

306. On August 20, 2014, New GM became aware of complaint filed with NHTSA involving a 2007 Chevrolet Impala and an incident that occurred on August 6, 2014, in which it was reported that:

> "TL* THE CONTACT OWNS A 2007 CHEVROLET IMPALA. THE CONTACT STATED THAT WHILE DRIVING 25 MPH, THE VEHICLE STALLED WITHOUT WARNING. THE CONTACT RECEIVED A NOTIFICATION FOR RECALL NHTSA CAMPAIGN NUMBER: 14V355000 (ELECTRICAL SYSTEM). THE VEHICLE WAS TAKEN TO AN INDEPENDENT MECHANIC WHERE THE TECHNICIAN ADVISED THE CONTACT TO REMOVE THE KEY FOB AND ANY OTHER OBJECTS. THE VEHICLE WAS NOT REPAIRED. THE MANUFACTURER WAS MADE AWARE OF THE FAILURE. THE FAILURE MILEAGE WAS 79,000." NHTSA ID Number: 10626659

307. On August 27, 2014, New GM became aware of the following complaint filed with NHTSA involving a 2008 Chevrolet Impala and an incident that occurred on August 27, 2014, in which it was reported that:

> "TL-THE CONTACT OWNS A 2008 CHEVROLET IMPALA. THE CONTACT STATED WHILE DRIVING APPROXIMATELY 50 MPH, THE VEHICLE LOST POWER AND THE STEERING WHEEL SEIZED WITHOUT WARNING. AS A RESULT, THE CONTACT CRASHED INTO A POLE AND THE AIR BAGS FAILED TO DEPLOY. THE CONTACT SUSTAINED A CONCUSION, SPRAINED NECK, AND WHIPLASH WHICH REQUIRED MEDICAL ATTENTION. THE POLICE WAS NOT FILED. THE VEHICLE WAS TOWED TO A TOWING COMPANY. THE CONTACT RECEIVED NOTIFICATION OF NHTSA CAMPAIGN ID NUMBER: 14V355000 (ELECTRICAL SYSTEM), HOWEVER THE PARTS ARE NOT AVAILABLE TO PERFORM THE REPAIRS. THE VEHICLE WAS NOT REPAIRED. THE MANUFACTURER WAS NOT NOTIFIED OF THE FAILURE. THE APPROXIMATE FAILURE MILEAGE WAS 70,000. MF." NHTSA ID Number: 10628704.

308. Old GM and later N that this serious safety defect existed for years yet did nothing to warn the public or even attempt to correct the defect in these vehicles until late June of 2014 when New GM finally made the decision to implement a recall.

309. The "fix" that New GM plans as part of the recall is to modify the ignition key from a "slotted" key to "hole" key." This is insufficient and does not adequately address the safety risks posed by the defect. The ignition key and switch remain prone to inadvertently move from the "run" to the "accessory" position. Simply changing the key slot or taking other keys and fobs off of key rings is New GM's attempt to make consumers responsible for the safety of GM-branded vehicles and to divert its own responsibility to make GM-branded vehicles safe. New GM's "fix" does not adequately address the inherent dangers and safety threats posed by the defect in the design. In addition, New GM is not addressing the other design issues that create safety risks in connection with this defect. New GM is not altering

the algorithm that prevents the airbags from deploying when the ignition leaves the "run" position even when the vehicle is moving at high speed. And New GM is not altering the placement of the ignition switch in an area where the driver's knees may inadvertently cause the ignition to move out of the "run" position.

310. Further, as of the date of this filing, New GM has not even begun to implement this "fix," leaving owners and lessees in these vehicles exposed to the serious safety risks posed by moving stalls and the accompanying effects on powering steering, power brakes, and the vehicle's airbags.

VIII. The July 2 and 3, 2014 Recalls Relating to the Unintended Ignition Rotation Defect Further Reveal New GM's Fraudulent Concealment of Known Serious Safety Problems.

311. On July 2, 2014, New GM recalled 554,328 vehicles in the United States for ignition switch defects (Recall Number 14V-394). The July 2 recall applied to the 2003-2014 Cadillac CTS and the 2004-2006 Cadillac SRX.

312. The recall notice explains that the weight on the key ring and/or road conditions or some other jarring event may cause the ignition switch to move out of the "run" position, turning off the engine. Further, if the key is not the in the "run" position, the airbags may not deploy in the event of a collision, increasing the risk of injury.

313. On July 3, 2014, New GM recalled 6,729,742 additional vehicles in the United States for ignition switch defects (Recall No. 14V-400).

314. The following Old GM vehicles were included in this recall: 1997-2005 Chevrolet Malibu, 2000-2005 Chevrolet Impala, 2000-2005 Chevrolet Monte Carlo, 2000-2005 Pontiac Grand Am, 2004-2008 Pontiac Grand Prix, 1998-2002 Oldsmobile Intrigue, and 1999-2004 Oldsmobile Alero.

315. The recall notice states that the weight on the key and/or road conditions or some other jarring event may cause the ignition switch to move out of the "run" position, turning off the engine. If the key is not in the "run" position, the airbags may not deploy if the vehicle is involved in a collision, increasing the risk of injury.

316. In both of these recalls, New GM notified NHTSA and the public that the recall was intended to address a defect involving unintended or "inadvertent key rotation" within the ignition switch of the vehicles. As with the ignition key defect announced June 20, however, the defects for which these vehicles have been recalled is directly related to the ignition switch defect in the Cobalt and other Defective Ignition Switch Vehicles and involves the same safety risks and dangers.

317. Based on information on NHTSA's website, 175,896 of the recalled vehicles were manufactured by Old GM. 108,174 of the vehicles were manufactured and sold by New GM.

318. Once again, the unintended ignition rotation defect is substantially similar to and relates directly to the other ignition switch defects, including the defects that gave rise to the initial recall of 2.1 million Cobalt and other vehicles in February and March of 2014. Like the other ignition switch defects, the unintended ignition key rotation defect poses a serious and dangerous safety risk because it can cause a vehicle to stall while in motion by causing the key in the ignition to inadvertently move from the "on" or "run" position to "off" or "accessory position." Like the other ignition switch defects, the unintended ignition key rotation defect can result in a loss of power steering, power braking and increase the risk of a crash. And as with the other ignition switch defects, if a crash occurs, the airbags will not deploy because of the unintended ignition key rotation defect.

319. The unintended ignition key rotation defect involves several problems, and they are identical to the problems in the other Defective Vehicles: a weak detent plunger, the low positioning of the ignition on the steering column, and the algorithm that renders the airbags inoperable when the vehicle leaves the "run" position.

320. The 2003-2006 Cadillac CTS and the 2004-2006 Cadillac SRX use the same Delphi switch and have inadequate torque for the "run"-"accessory" direction of the key rotation. This was known to Old and New GM, and was the basis for a change that was made to a stronger detent plunger for the 2007 and later model years of the SRX model. The 2007 and later CTS vehicles used a switch manufactured by Dalian Alps.

321. In 2010, New GM changed the CTS key from a "slot" to a "hole" design to "reduce an observed nuisance" of the key fob contacting the driver's leg. But in 2012, a New GM employee reported two running stalls of a 2012 CTS that had a "hole" key and the stronger detent plunger switch. When New GM did testing in 2014 of the "slot" versus "hole" keys, it confirmed that the weaker detent plunger-equipped switches used in the older CTS and SRX could inadvertently move from "run" to "accessory" or "off" when the "vehicle goes off road or experience some other jarring event."

322. GM has tried to characterize the recall of these 7.3 million vehicles as being different than the other ignition switch defects ***even though*** these recalls are aimed at addressing the same defects and safety risks as those that that gave rise to the other ignition switch defect recalls. New GM has attempted to portray the unintended ignition key rotation defect as being different from the ignition switch defect in order to deflect attention from the severity and pervasiveness of the ignition switch defect and to try to provide a story and

plausible explanation for why it did not recall these 7.3 million vehicles much earlier, and to avoid providing new, stronger ignition switches as a remedy.

323. From 2002 to the present, Old GM and New GM received numerous reports from consumers regarding complaints, crashes, injuries and deaths linked to this safety defect. The following are just a handful of examples of some of the reports known to Old GM and New GM:

324. On September 16, 2002, Old GM became aware of a complaint filed with NHTSA regarding a 2002 Oldsmobile Intrigue involving an incident that occurred on March 16, 2002, in which the following was reported:

> "WHILE DRIVING AT 30 MPH CONSUMER RAN HEAD ON INTO A STEEL GATE, AND THEN HIT THREE TREES. UPON IMPACT, NONE OF THE AIR BAGS DEPLOYED. CONTACTED DEALER. PLEASE PROVIDE FURTHER INFORMATION. *AK" **NHTSA ID Number:** 8018687.

325. On November 22, 2002, Old GM became aware of complaint filed with NHTSA involving a 2003 Cadillac CTS involving an incident that occurred on July 1, 2002, in which it was reported that:

> "THE CAR STALLS AT 25 MPH TO 45 MPH, OVER 20 OCCURANCES, DEALER ATTEMPTED 3 REPAIRS. DT" NHTSA ID Number: 770030.

326. On January 21, 2003, Old GM became aware of a complaint filed with NHTSA involving a 2003 Cadillac CTS, in which the following was reported:

> "WHILE DRIVING AT ANY SPEED,THE VEHICLE WILL SUDDENLY SHUT OFF. THE STEERING WHEEL AND THE BRAKE PEDAL BECOMES VERY STIFF. CONSUMER FEELS ITS VERY UNSAFE TO DRIVE. PLEASE PROVIDE ANY FURTHER INFORMATION." NHTSA ID Number: 10004288.

327. On June 30, 2003, Old GM became aware of a complaint with NHTSA regarding a 2001 Oldsmobile Intrigue which involved the following report:

> "CONSUMER NOTICED THAT WHILE TRAVELING DOWN HILL AT 40-45 MPH BRAKES FAILED, CAUSING CONSUMER TO RUN INTO THREES AND A POLE. UPON IMPACT, AIR BAGS DID NOT DEPLOY. *AK" **NHTSA ID Number:** 10026252.

328. On March 11, 2004, Old GM became aware of a complaint filed with NHTSA involving a 2004 Cadillac CTS involving an incident occurred on March 11, 2004, in which the following was reported:

> "CONSUMER STATED WHILE DRIVING AT 55-MPH VEHICLE STALLED, CAUSING CONSUMER TO PULL OFF THE ROAD. DEALER INSPECTED VEHICLE SEVERAL TIMES, BUT COULD NOT DUPLICATE OR CORRECT THE PROBLEM. *AK" NHTSA ID Number: 10062993.

329. On March 11, 2004, Old GM became aware of a complaint with NHTSA regarding a 2003 Oldsmobile Alero incident that occurred on July 26, 2003, in which the following was reported:

> "THE VEHICLE DIES. WHILE CRUISING AT ANY SPEED, THE HYDRAULIC BRAKES & STEERING FAILED DUE TO THE ENGINE DYING. THERE IS NO SET PATTERN, IT MIGHT STALL 6 TIMES IN ONE DAY, THEN TWICE THE NEXT DAY. THEN GO 4 DAYS WITH NO OCURRENCE, THEN IT WILL STALL ONCE A DAY FOR 3 DAYS. THEN GO A WEEK WITH NO OCURRENCE, THEN STALL 4 TIMES A DAY FOR 5 DAYS, ETC., ETC. IN EVERY OCURRENCE, IT TAKES APPROXIMATELY 10 MINUTES BEFORE IT WILL START BACK UP. AT HIGH SPEEDS, IT IS EXTREMELY TOO DANGEROUS TO DRIVE. WE'VE TAKEN IT TO THE DEALER, UNDER EXTENDED WARRANTY, THE REQUIRED 4 TIMES UNDER THE LEMON LAW PROCESS. THE DEALER CANNOT ASCERTAIN, NOR FIX THE PROBLEM. IT HAPPENED TO THE DEALER AT LEAST ONCE WHEN WE TOOK IT IN. I DOUBT THEY WILL ADMIT IT, HOWEVER, MY WIFE WAS WITNESS. THE CAR IS A 2003. EVEN THOUGH I BOUGHT IT IN JULY 2003, IT WAS CONSIDERED A USED CAR. GM HAS DENIED OUR CLAIM SINCE THE LEMON LAW DOES NOT APPLY TO USED CARS. THE CAR HAS BEEN PERMANENTLY PARKED SINCE NOVEMBER 2003. WE WERE FORCED TO BUY ANOTHER CAR. THE DEALER WOULD NOT TRADE.

> THIS HAS RESULTED IN A BADLUCK SITUATION FOR US. WE CANNOT AFFORD 2 CAR PAYMENTS / 2 INSURANCE PREMIUMS, NOR CAN WE AFFORD $300.00 PER HOUR TO SUE GM. I STOPPED MAKING PAYMENTS IN DECEMBER 2003. I HAVE KEPT THE FINANCE COMPANY ABREAST OF THE SITUATION. THEY HAVE NOT REPOSSED AS OF YET. THEY WANT ME TO TRY TO SELL IT. CAN YOU HELP ?*AK" **NHTSA ID Number:** 10061898.

330. On July 20, 2004, Old GM became aware of a complaint filed with NHTSA involving a 2004 Cadillac SRX, involving an incident that occurred on July 9, 2004, in which the following was reported:

> "THE CAR DIES AFTER TRAVELING ON HIGHWAY. IT GOES FROM 65 MPH TO 0. THE BRAKES, STEERING, AND COMPLETE POWER DIES. YOU HAVE NO CONTROL OVER THE CAR AT THIS POINT. I HAVE ALMOST BEEN HIT 5 TIMES NOW. ALSO, WHEN THE CARS DOES TURN BACK ON IT WILL ONLY GO 10 MPH AND SOMETIMES WHEN YOU TURN IT BACK ON THE RPM'S WILL GO TO THE MAX. IT SOUNDS LIKE THE CAR IS GOING TO EXPLODE. THIS CAR IS A DEATH TRAP. *LA" NHTSA ID Number: 10082289.

331. In August 2004, Old GM became aware of a complaint filed with NHTSA regarding a 2004 Chevrolet Malibu incident that occurred on June 30, 2004, in which it was reported that:

> "WHILE TRAVELING AT ANY SPEED VEHICLE STALLED. WITHOUT CONSUMER HAD SEVERAL CLOSE CALLS OF BEING REAR ENDED. VEHICLE WAS SERVICED SEVERAL TIMES, BUT PROBLEM RECURRED. *AK." **NHTSA ID Number:** 10089418.

332. Another report in August of 2004 which Old GM became aware of involved a 2004 Chevrolet Malibu incident that occurred on August 3, 2004, in which it was reported that:

> "WHEN DRIVING, THE VEHICLE TO CUT OFF. THE DEALER COULD NOT FIND ANY DEFECTS. *JB." **NHTSA ID Number:** 10087966.

333. On October 23, 2004, Old GM became aware of a complaint with NHTSA regarding a 2003 Chevrolet Monte Carlo, in which the following was reported:

> "VEHICLE CONTINUOUSLY EXPERIENCED AN ELECTRICAL SYSTEM FAILURE. AS A RESULT, THERE'WAS AN ELECTRICAL SHUTDOWN WHICH RESULTED IN THE ENGINE DYING/ STEERING WHEEL LOCKING UP, AND LOSS OF BRAKE POWER.*AK" **NHTSA ID Number:** 10044624.

334. On April 26, 2005, Old GM became aware of a complaint filed with NHTSA involving a 2005 Pontiac Grand Prix, pertaining to an incident that occurred on December 29, 2004, in which the following was reported:

> "2005 PONTIAC GRAND PRIX GT SEDAN VIN #[XXX] PURCHASED 12/16/2004. INTERMITTENTLY VEHICLE STALLS/ LOSS OF POWER IN THE ENGINE. WHILE DRIVING THE VEHICLE IT WILL SUDDENLY JUST LOSES POWER. YOU CONTINUE TO PRESS THE ACCELERATOR PEDAL AND THEN THE ENGINE WILL SUDDENLY TAKE BACK OFF AT A GREAT SPEED. THIS HAS HAPPENED WHILE DRIVING NORMALLY WITHOUT TRYING TO ACCELERATE AND ALSO WHILE TRYING TO ACCELERATE. THE CAR HAS LOST POWER WHILE TRYING TO MERGE IN TRAFFIC. THE CAR HAS LOST POWER WHILE TRYING TO CROSS HIGHWAYS. THE CAR HAS LOST POWER WHILE JUST DRIVING DOWN THE ROAD. GMC HAS PERFORMED THE FOLLOWING REPAIRS WITHOUT FIXING THE PROBLEM. 12/30/2004 [XXX]-MODULE, POWERTRAIN CONTROL-ENGINE REPROGRAMMING. 01/24/2005 [XXX]-SOLENOID,PRESSURE CONTROL-REPLACED. 02/04/2005 [XXX]-MODULE, PCM/VCM-REPLACED. 02/14/2005 [XXX]-PEDAL,ACCELERATOR-REPLACED. DEALERSHIP PURCHASED FROM CAPITAL BUICK-PONTIAC-GMC 225-293-3500. DEALERSHIP HAS ADVISED THAT THEY DO NOT KNOW WHAT IS WRONG WITH THE CAR. WE HAVE BEEN TOLD THAT WE HAVE TO GO DIRECT TO PONTIAC WITH THE PROBLEM. HAVE BEEN IN CONTACT WITH PONTIAC SINCE 02/15/05. PONTIAC ADVISED THAT THEY WERE GOING TO RESEARCH THE PROBLEM AND SEE IF ANY OTHER GRAND PRI WAS REPORTING LIKE PROBLEMS. SO FAR THE ONLY ADVICE FROM PONTIAC IS THEY WANT US TO COME IN AND TAKE ANOTHER

> GRAND PRIX OFF THE LOT AND SEE IF WE CAN GET THIS CAR TO DUPLICATE THE SAME PROBLEM. THIS DID NOT IMPRESS ME AT ALL. SO AFTER WAITING FOR 2-1/2 MONTHS FOR PONTIAC TO DO SOMETHING TO FIX THE PROBLEM, I HAVE DECIDED TO REPORT THIS TO NHTSA. *AK *JS INFORMATION REDACTED PURSUANT TO THE FREEDOM OF INFORMATION ACT (FOIA), 5 U.S.C. 552(B)(6)" NHTSA ID Number: 10118501.

335. In May 2005, Old GM became aware of a complaint filed with NHTSA regarding a 2004 Chevrolet Malibu incident that occurred on July 18, 2004, in which it was reported that:

> "THE CAR CUT OFF WHILE I WAS DRIVING AND IN HEAVY TRAFFIC MORE THAN ONCE. THERE WAS NO WARNING THAT THIS WOULD HAPPEN. THE CAR WAS SERVICED BEFORE FOR THIS PROBLEM BUT IT CONTINUED TO HAPPEN. I HAVE HAD 3 RECALLS, THE HORN FUSE HAS BEEN REPLACED TWICE, AND THE BLINKER IS CURRENTLY OUT. THE STEERING COLLAR HAS ALSO BEEN REPLACED. THIS CAR WAS SUPPOSED TO BE A NEW CAR." **NHTSA ID Number:** 10123684.

336. On June 2, 2005, Old GM became aware of a complaint with NHTSA regarding a 2004 Pontiac Grand Am incident that occurred on February 18, 2005, in which the following was reported:

> "2004 PONTIAC GRAND PRIX SHUTS DOWN WHILE DRIVING AND THE POWER STEERING AND BRAKING ABILITY ARE LOST.*MR *NM." **NHTSA ID Number:** 10124713.

337. On August 12, 2005, Old GM became aware of a complaint filed with NHTSA involving a 2003 Cadillac CTS, regarding an incident that occurred on January 3, 2005, in which it was reported that:

> "DT: VEHICLE LOST POWER WHEN THE CONSUMER HIT THE BRAKES. THE TRANSMISSION JOLTS AND THEN THE ENGINE SHUTS OFF. IT HAS BEEN TO THE DEALER 6 TIMES SINCE JANUARY. THE DEALER TRIED SOMETHING DIFFERENT EVERY TIME SHE TOOK IT IN.

> MANUFACTURER SAID SHE COULD HAVE A NEW VEHICLE IF SHE PAID FOR IT. SHE WANTED TO GET RID OF THE VEHICLE.*AK THE CHECK ENGINE LIGHT ILLUMINATED. *JB" NHTSA ID Number: 10127580.

338. On August 26, 2005, Old GM became aware of a complaint with NHTSA regarding a 2004 Pontiac Grand Am incident that occurred on August 26, 2005, in which the following was reported:

> "WHILE DRIVING MY 2004 PONTIAC GRAND AM THE CAR FAILED AT 30 MPH. IT COMPLETELY SHUT OFF LEAVING ME WITH NO POWER STEERING AND NO WAY TO REGAIN CONTROL OF THE CAR UNTIL COMING TO A COMPLETE STOP TO RESTART IT. ONCE I HAD STOPPED IT DID RESTART WITHOUT INCIDENT. ONE WEEK LATER THE CAR FAILED TO START AT ALL NOT EVEN TURNING OVER. WHEN THE PROBLEM WAS DIAGNOSED AT THE GARAGE IT WAS FOUND TO BE A FAULTY "IGNITION CONTROL MODULE" IN THE CAR. AT THIS TIME THE PART WAS REPLACED ONLY TO FAIL AGAIN WITHIN 2 MONTHS TIME AGAIN WHILE I WAS DRIVING THIS TIME IN A MUCH MORE HAZARDOUS CONDITION BEING THAT I WAS ON THE HIGHWAY AND WAS TRAVELING AT 50 MPH AND HAD TO TRAVEL ACROSS TWO LANES OF TRAFFIC TO EVEN PULL OVER TO TRY TO RESTART IT. THE CAR CONTINUED TO START AND SHUT OFF ALL THE WAY TO THE SERVICE GARAGE WHERE IT WAS AGAIN FOUND TO BE A FAULTY "IGNITION CONTROL MODULE". IN ANOTHER TWO WEEKS TIME THE CAR FAILED TO START AND WHEN DIAGNOSED THIS TIME IT WAS SAID TO HAVE "ELECTRICAL PROBLEMS" POSSIBLE THE "POWER CONTROL MODULE". AT THIS TIME THE CAR IS STILL UNDRIVEABLE AND UNSAFE FOR TRAVEL. *JB" **NHTSA ID Number:** 10134303.

339. On September 22, 2005, Old GM became aware of a complaint filed with NHTSA involving a 2005 Cadillac CTS, concerning an incident that occurred on September 16, 2005, in which the following was reported:

> "DT: 2005 CADILLAC CTS – THE CALLER'S VEHICLE WAS INVOLVED IN AN ACCIDENT WHILE DRIVING AT 55 MPH. UPON IMPACT, AIR BAGS DID NOT DEPLOY. THE VEHICLE WENT OFF THE ROAD AND HIT A TREE. THIS

> WAS ON THE DRIVER'S SIDE FRONT. THERE WERE NO INDICATOR LIGHTS ON PRIOR TO THE ACCIDENT. THE VEHICLE HAS NOT BEEN INSPECTED BY THE DEALERSHIP, AND INSURANCE COMPANY TOTALED THE VEHICLE. THE CALLER SAW NO REASON FOR THE AIR BAGS NOT TO DEPLOY. . TWO INJURED WERE INJURED IN THIS CRASH. T A POLICE REPORT WAS TAKEN. THERE WAS NO FIRE. *AK" NHTSA ID Number: 10137348.

340. On September 29, 2006, Old GM became aware of a complaint filed with NHTSA involving a 2004 Cadillac CTS and an incident that occurred on September 29, 2006, in which the following was reported:

> "DT*: THE CONTACT STATED AT VARIOUS SPEEDS WITHOUT WARNING, THE VEHICLE LOST POWER AND WOULD NOT ACCELERATE ABOVE 20 MPH. ALSO, WITHOUT WARNING, THE VEHICLE STALLED ON SEVERAL OCCASIONS, AND WOULD NOT RESTART. THE VEHICLE WAS TOWED TO THE DEALERSHIP, WHO REPLACED THE THROTTLE TWICE AND THE THROTTLE BODY ASSEMBLY HARNESS, BUT THE PROBLEM PERSISTED. *AK UPDATED 10/25/2006 – *NM" NHTSA ID Number: 10169594.

341. On April 18, 2007, Old GM became aware of a complaint filed with NHTSA involving a 2004 Cadillac SRX, regarding an incident that occurred on April 13, 2007, in which it was reported that:

> "TL*THE CONTACT OWNS A 2004 CADILLAC SRX. THE ENGINE STALLED WITHOUT WARNING AND CAUSED ANOTHER VEHICLE TO CRASH INTO THE VEHICLE. THE VEHICLE WAS ABLE TO RESTART A FEW MINUTES AFTER THE CRASH. THE DEALER AND MANUFACTURER WAS UNABLE TO DIAGNOSE THE FAILURE. THE MANUFACTURER HAD THE VEHICLE INSPECTED BY A CADILLAC SPECIALIST WHO WAS UNABLE TO DIAGNOSE THE FAILURE. THE DEALER UPDATED THE COMPUTER FOUR TIMES, BUT THE ENGINE CONTINUED TO STALL. THE CURRENT AND FAILURE MILEAGES WERE 48,000." NHTSA ID Number: 10188245.

342. On September 20, 2007, Old GM became aware of a complaint filed with NHSTA involving a 2007 Cadillac CTS, in connection with an incident that occurred on January 1, 2007, and the following was reported:

> "TL*THE CONTACT OWNS A 2007 CADILLAC CTS. WHILE DRIVING 40 MPH, THE VEHICLE SHUT OFF WITHOUT WARNING. THE FAILURE OCCURRED ON FIVE SEPARATE OCCASIONS. THE DEALER WAS UNABLE TO DUPLICATE THE FAILURE. AS OF SEPTEMBER 20, 2007, THE DEALER HAD NOT REPAIRED THE VEHICLE. THE POWERTRAIN WAS UNKNOWN. THE FAILURE MILEAGE WAS 2,000 AND CURRENT MILEAGE WAS 11,998." NHTSA ID Number: 10203516.

343. On September 24, 2007, Old GM became aware of a complaint filed with NHTSA involving a 2004 Cadillac SRX, regarding an incident that occurred on January 1, 2005, in which the following was reported:

> "TL*THE CONTACT OWNS A 2004 CADILLAC SRX. WHILE DRIVING 5 MPH OR GREATER, THE VEHICLE WOULD SHUT OFF WITHOUT WARNING. THE DEALER STATED THAT THE BATTERY CAUSED THE FAILURE AND THEY REPLACED THE BATTERY. APPROXIMATELY EIGHT MONTHS LATER, THE FAILURE RECURRED. THE DEALER STATED THAT THE BATTERY CAUSED THE FAILURE AND REPLACED IT A SECOND TIME. APPROXIMATELY THREE MONTHS LATER, THE FAILURE OCCURRED AGAIN. SHE WAS ABLE TO RESTART THE VEHICLE. THE DEALER WAS UNABLE TO DUPLICATE THE FAILURE, HOWEVER, THEY REPLACED THE CRANK SHAFT SENSOR. THE FAILURE CONTINUES TO PERSIST. AS OF SEPTEMBER 24, 2007, THE DEALER HAD NOT REPAIRED THE VEHICLE. THE POWERTRAIN WAS UNKNOWN. THE FAILURE MILEAGE WAS 8,000 AND CURRENT MILEAGE WAS 70,580." NHTSA ID Number: 10203943.

344. On June 18, 2008, Old GM became aware of a complaint filed with NHTSA involving a 2006 Cadillac CTS and an incident that occurred on June 17, 2008, in which it was reported that:

> "TL*THE CONTACT OWNS A 2006 CADILLAC CTS. WHILE DRIVING 60 MPH AT NIGHT, THE VEHICLE SHUT OFF AND LOST TOTAL POWER. WHEN THE FAILURE OCCURRED, THE VEHICLE CONTINUED TO ROLL AS IF IT WERE IN NEUTRAL. THERE WERE NO WARNING INDICATORS PRIOR TO THE FAILURE. THE CONTACT FEELS THAT THIS IS A SAFETY HAZARD BECAUSE IT COULD HAVE RESULTED IN A SERIOUS CRASH. THE VEHICLE WAS TAKEN TO THE DEALER TWICE FOR REPAIR FOR THE SAME FAILURE IN FEBURARY OF 2008 AND JUNE 17, 2008. THE FIRST TIME THE CAUSE OF THE FAILURE WAS IDENTIFIED AS A GLITCH WITH THE COMPUTER SWITCH THAT CONTROLS THE TRANSMISSION. AT THE SECOND VISIT, THE SHOP EXPLAINED THAT THEY COULD NOT IDENTIFY THE FAILURE. IT WOULD HAVE TO RECUR IN ORDER FOR THEM TO DIAGNOSE THE FAILURE PROPERLY. THE CURRENT AND FAILURE MILEAGES WERE 43,000." NHTSA ID Number: 10231507.

345. On October 14, 2008, Old GM became aware of a complaint filed with NHTSA involving a 2008 Cadillac CTS and an incident that occurred on April 5, 2008, in which it was reported that:

> "WHILE DRIVING MY 2008 CTS, WITH NO ADVANCE NOTICE, THE ENGINE JUST DIED. IT SEEMED TO RUN OUT OF GAS. MY FUEL GAUGE READ BETWEEN 1/2 TO 3/4 FULL. THIS HAPPENED 3 DIFFERENT OCCASIONS. ALL 3 TIMES I HAD TO HAVE IT TOWED BACK TO THE DEALERSHIP THAT I PURCHASED THE CAR FROM. ALL 3 TIMES I GOT DIFFERENT REASONS IT HAPPENED, FROM BAD FUEL PUMP IN GAS TANK, TO SOME TYPE OF BAD CONNECTION, ETC. AFTER THIS HAPPENED THE 3RD TIME, I DEMANDED A NEW CAR, WHICH I RECEIVED. I HAVE HAD NO PROBLEMS WITH THIS CTS, RUNS GREAT. *TR" NHTSA ID Number: 10245423.

346. On November 13, 2008, Old GM became aware of a complaint with NHTSA regarding a 2001 Oldsmobile Intrigue, in which the following was reported:

> "L*THE CONTACT OWNS A 2001 OLDSMOBILE INTRIGUE. WHILE DRIVING 35 MPH, THE VEHICLE CONTINUOUSLY STALLS AND HESITATES. IN ADDITION, THE INSTRUMENT PANEL INDICATORS WOULD ILLUMINATE

> AT RANDOM. THE VEHICLE FAILED INSPECTION AND THE CRANKSHAFT SENSOR WAS REPLACED, WHICH HELPED WITH THE STALLING AND HESITATION; HOWEVER, THE CHECK ENGINE INDICATOR WAS STILL ILLUMINATED. DAYS AFTER THE CRANKSHAFT SENSOR WAS REPLACED, THE VEHICLE FAILED TO START. HOWEVER, ALL OF THE INSTRUMENT PANEL INDICATORS FLASHED ON AND OFF. AFTER NUMEROUS ATTEMPTS TO START THE VEHICLE, HE HAD IT JUMPSTARTED. THE VEHICLE WAS THEN ABLE TO START. WHILE DRIVING HOME, ALL OF THE LIGHTING FLASHED AND THE VEHICLE SUDDENLY SHUT OFF. THE VEHICLE LOST ALL ELECTRICAL POWER AND POWER STEERING ABILITY. THE CONTACT MANAGED TO PARK THE VEHICLE IN A PARKING LOT AND HAD IT TOWED THE FOLLOWING DAY TO A REPAIR SHOP. THE VEHICLE IS CURRENTLY STILL IN THE SHOP. THE VEHICLE HAS BEEN RECALLED IN CANADA AND HE BELIEVES THAT IT SHOULD ALSO BE RECALLED IN THE UNITED STATES. THE FAILURE MILEAGE WAS UNKNOWN AND THE CURRENT MILEAGE WAS 106,000." **NHTSA ID Number:** 10248694.

347. On December 10, 2008, Old GM became aware of a complaint filed with NHTSA regarding a 2004 Oldsmobile Alero and an incident that occurred on December 10, 2008, in which the following was reported:

> "I WAS DRIVING DOWN THE ROAD IN RUSH HOUR GOING APPROX. 55 MPH AND MY CAR COMPLETELY SHUT OFF, THE GAUGES SHUTDOWN, LOST POWER STEERING. HAD TO PULL OFF THE ROAD AS SAFELY AS POSSIBLE, PLACE VEHICLE IN PARK AND RESTART CAR. MY CAR HAS SHUTDOWN PREVIOUSLY TO THIS INCIDENT AND FEEL AS THOUGH IT NEEDS SERIOUS INVESTIGATION. I COULD HAVE BEEN ON THE HIGHWAY AND BEEN KILLED. THIS ALSO HAS HAPPENED WHEN IN A SPIN OUT AS WELL THOUGH THIS PARTICULAR INCIDENT WAS RANDOM. *TR" **NHTSA ID Number:** 10251280.

348. On March 31, 2009, Old GM became aware a complaint filed with NHTSA regarding a 2005 Chevrolet Malibu incident that occurred on May 30, 2008, in which it was reported that:

> "TL*THE CONTACT OWNS A 2005 CHEVROLET MALIBU. THE CONTACT STATED THAT THE POWER WINDOWS, LOCKS, LINKAGES, AND IGNITION SWITCH SPORADICALLY BECOME INOPERATIVE. SHE TOOK THE VEHICLE TO THE DEALER AND THEY REPLACED THE IGNITION SWITCH AT THE COST OF $495. THE MANUFACTURER STATED THAT THEY WOULD NOT ASSUME RESPONSIBILITY FOR ANY REPAIRS BECAUSE THE VEHICLE EXCEEDED ITS MILEAGE. ALL REMEDIES AS OF MARCH 31, 2009 HAVE BEEN INSUFFICIENT IN CORRECTING THE FAILURES. THE FAILURE MILEAGE WAS 45,000 AND CURRENT MILEAGE WAS 51,000."
> **NHTSA ID Number:** 10263716.

349. The defects did not get any safer and the reports did not stop when Old GM ceased to exist. To the contrary, New GM continued receiving the same reports involving the same defects. For example, on August 11, 2010, New GM became aware of the following complaint filed with NHTSA involving a 2005 Cadillac CTS, the incident occurred on May 15, 2010, in which it was reported:

> "TL*THE CONTACT OWNS A 2005 CADILLAC CTS. WHILE DRIVING 40 MPH, ALL OF THE SAFETY LIGHTS ON THE DASHBOARD ILLUMINATED WHEN THE VEHICLE STALLED. THE VEHICLE WAS TURNED BACK ON IT BEGAN TO FUNCTION NORMALLY. THE FAILURE OCCURRED TWICE. THE DEALER WAS CONTACTED AND THEY STATED THAT SHE NEEDED TO BRING IT IN TO HAVE IT DIAGNOSED AGAIN. THE DEALER PREVIOUSLY STATED THAT THEY WERE UNABLE TO DUPLICATE THE FAILURE. THE VEHICLE WAS NOT REPAIRED. THE FAILURE MILEAGE WAS 4100 AND THE CURRENT MILEAGE WAS 58,000." NHTSA ID Number: 10348743.

350. On April 16, 2012, New GM became aware of as complaint filed with NHTSA involving a 2005 Cadillac SRX and an incident that occurred on March 31, 2012, in which the following was reported:

> "TL* THE CONTACT OWNS A 2005 CADILLAC SRX. WHILE DRIVING APPROXIMATELY 45 MPH, THE CONTACT STATED THAT THE STEERING BECAME DIFFICULT TO MANEUVER AND HE LOST CONTROL OF THE VEHICLE.

> THERE WERE NO WARNING LIGHTS ILLUMINATED ON THE INSTRUMENT PANEL. THE CONTACT THEN CRASHED INTO A HIGHWAY DIVIDER AND INTO ANOTHER VEHICLE. THERE WERE NO INJURIES. THE VEHICLE WAS TOWED TO AN AUTO CENTER AND THE MECHANIC STATED THAT THERE WAS A RECALL UNDER NHTSA CAMPAIGN ID NUMBER 06V125000 (SUSPENSION:REAR), THAT MAY BE RELATED TO THE FAILURE. THE MANUFACTURER WAS MADE AWARE OF THE FAILURE AND STATED THAT THE VIN WAS NOT INCLUDED IN THE RECALL. THE VEHICLE WAS NOT REPAIRED. THE APPROXIMATE FAILURE MILEAGE WAS 46,000." NHTSA ID Number: 10455394.

351. On March 20, 2013, New GM became aware of a complaint filed with NHTSA regarding a 2003 Chevrolet Impala incident that occurred on March 1, 2013, in which it was reported that:

> "CAR WILL SHUTDOWN WHILE DRIVING AND SECURITY LIGHT WILL FLASH. HAS DONE IT NUMEROUS TIMES, WORRIED IT WILL CAUSE AN ACCIDENT. THERE ARE MULTIPLE CASES OF THIS PROBLEM ON INTERNET. *TR" **NHTSA ID Number:** 10503840.

352. On May 12, 2013, New GM became aware of the following complaint filed with NHTSA regarding a 2005 Chevrolet Malibu incident that occurred on May 11, 2012, in which the following was reported:

> "I WAS AT A STOP SIGN WENT TO PRESS GAS PEDAL TO TURN ONTO ROAD AND THE CAR JUST SHUT OFF NO WARNING LIGHTS CAME ON NOR DID IT SHOW ANY CODES. GOT OUT OF CAR POPPED TRUNK PULLED RELAY FUSE OUT PUT IT BACK IN AND IT CRANKED UP,THEN ON MY WAY HOME FROM WORK,GOING ABOUT 25 MPH AND IT JUST SHUTDOWN AGAIN,I REPEATED PULLING OUT RELAY FUSE AND PUT IT BACK IN THEN WAITED A MINUTE THEN IT CRANKED AND I DROVE STRAIGHT HOME. *TR" **NHTSA ID Number:** 10458198.

353. On February 26, 2014, New GM became aware of a complaint filed with NHTSA involving a 2004 Pontiac Grand Prix, concerning an incident that occurred on May 10, 2005, in which it was reported that:

> "TL – THE CONTACT OWNS A 2004 PONTIAC GRAND PRIX. THE CONTACT STATED THAT WHILE DRIVING AT VARIOUS SPEEDS AND GOING OVER A BUMP, THE VEHICLE WOULD STALL WITHOUT WARNING. THE VEHICLE WAS TAKEN TO THE DEALER. THE TECHNICIAN WAS UNABLE TO DIAGNOSE THE FAILURE. THE MANUFACTURER WAS MADE AWARE OF THE FAILURE. THE VEHICLE WAS NOT REPAIRED. THE VIN WAS NOT AVAILABLE. THE FAILURE MILEAGE WAS 12,000 AND THE CURRENT MILEAGE WAS 82,000. KMJ" NHTSA ID Number: 10566118.

354. On March 13, 2014, New GM became aware of a complaint filed with NHTSA involving a 2006 Pontiac Grand Prix and an incident that occurred on February 27, 2014, in which a driver reported:

> "I WAS DRIVING HOME FROM WORK AND WHEN I TURNED A CORNER, THE ENGINE CUT OUT. I BELIEVE IT WAS FROM THE KEY FLIPPING TO ACCESSORY. I'VE HEARD THAT THIS HAS CAUSED CRASHES THAT HAVE KILLED PEOPLE AND WOULD LIKE THIS FIXED. THIS IS THE FIRST TIME IT HAPPENED, BUT NOW I'M WORRIED EVERY TIME I DRIVE IT THAT THIS IS GOING TO HAPPEN AND I DON'T FEEL SAFE LETTING MY WIFE DRIVE THE CAR NOW. WHY ARE THE 2006 PONTIAC GRAND PRIX VEHICLES NOT PART OF THE RECALL FROM GM? *TR" NHTSA ID Number: 10569215.

355. On April 1, 2014, New GM became aware of a complaint filed with NHTSA involving a 2003 Cadillac CTS and an incident that occurred on January 1, 2008, in which the following was reported:

> "TL* THE CONTACT OWNS A 2003 CADILLAC CTS. THE CONTACT STATED THAT THE VEHICLE EXHIBITED A RECURRING STALLING FAILURE. THE VEHICLE WAS TAKEN TO THE DEALER NUMEROUS TIMES WHERE SEVERAL UNKNOWN REPAIRS WERE PERFORMED ON

> THE VEHICLE BUT TO NO AVAIL. THE FAILURE MILEAGE WAS 59,730 AND THE CURRENT MILEAGE WAS 79,000. UPDATED 06/30/14 MA UPDATED 07/3/2014 *JS" NHTSA ID Number: 10576468.

356. On April 1, 2014, New GM became aware of a complaint with NHTSA regarding a 2003 Chevrolet Monte Carlo and an incident that occurred on September 16, 2013, in which the following was reported:

> "WHILE DRIVING AT ANY SPEED THE IGNITION SYSTEM WOULD RESET LIGHTING UP THE DISPLAY CLUSTER JUST AS IF THE KEY WAS TURNED OFF AND BACK ON. THIS WOULD CAUSE A MOMENTARY SHUTDOWN OF THE ENGINE. THE PROBLEM SEEMED TO BE MORE PREVAILANT WHILE TURNING THE WHEEL FOR A CURVE OR TURN OFF THE ROAD. THE TURN SIGNAL UNIT WAS FIRST SUSPECT SINCE IT SEEMED TO CORRELATE WITH APPLYING THE TURN SIGNAL AND TURNING THE WHEEL. THE CONDITION WORSENED TO THE IGNITION SHUTDOWN FOR LONGER PERIODS SHUTTING DOWN THE ENGINE CAUSING STEERING AND BRAKING TO BE SHUTDOWN AND FINALLY DIFFICULTY STARTING THE CAR. AFTER 2 VISITS TO A GM SERVICE CENTER THE PROBLEM WAS FOUND TO BE A FAULTY IGNITION THAT WAS REPLACED AND THE PROBLEM HAS NOT RECURRED." **NHTSA ID Number:** 10576201.

357. On April 8, 2014, New GM became aware of a complaint with NHTSA regarding a 2003 Chevrolet Impala and an incident that occurred on August 14, 2011 and the following was reported:

> "I HAVE HAD INCIDENTS SEVERAL TIMES OVER THE YEARS WHERE I WOULD HIT A BUMP IN THE ROAD AND MY CAR WOULD COMPLETLY SHUT OFF. I HAVE ALSO HAD SEVERAL INCIDENTS WHERE I WAS TRAVELING DOWN THE EXPRESSWAY AND MY CAR TURNED OFF ON ME. I HAD TO SHIFT MY CAR INTO NEUTRAL AND RESTART IT TO CONTINUE GOING. I WAS FORTUNATE NOT TO HAVE AN ACCIDENT." **NHTSA ID Number:** 10578158.

358. On May 14, 2014, New GM became aware of a complaint filed with NHTSA regarding a 2004 Chevrolet Impala incident that occurred on April 5, 2013 and reported that:

> "CHEVY IMPALA 2004 LS- THE VEHICLE IS STOPPING COMPLETELY WHILE DRIVING OR SITTING AT INTERSECTION. THERE IS NO WARNING, NO MESSAGE, IT JUST DIES. THE STEERING GOES WHEN THIS HAPPENS SO I CANNOT EVEN GET OFF THE ROAD. THEN THERE ARE TIMES THAT THE CAR WILL NOT START AT ALL AND I HAVE BEEN STRANDED. EVENTUALLY AFTER ABOUT 20 MINUTES THE CAR WILL START- I HAVE ALREADY REPLACED THE STARTER BUT THE PROBLEM STILL EXISTS. I HAVE HAD THE CAR CHECKED OUT AT 2 DIFFERENT SHOPS (FIRESTONE) AND THEY CANNOT FIND THE PROBLEM. THERE ARE NO CODES COMING UP. THEY ARE COMPLETELY PERPLEXED. CHEVY STATES THEIR MECHANICS ARE BETTER. ALSO THE CLUSTER PANEL IS GONE AND CHEVY IS AWARE OF THE PROBLEM BUT THEY ONLY RECALLED CERTAIN MODELS AND DID NOT INCLUDE THE IMPALAS. I HAVE 2 ESTIMATES REGARDING FIXING THIS PROBLEM BUT THE QUOTES ARE $500.00. I DO NOT FEEL THAT I SHOULD HAVE TO PAY FOR THIS WHEN CHEVY KNEW THEY HAD THIS PROBLEM WITH CLUSTER PANELS AND OMITTED THE IMPALAS IN THEIR RECALL. SO, TO RECAP: THE CAR DIES IN TRAFFIC (ALMOST HIT TWICE), I DO NOT KNOW HOW MUCH GAS I HAVE, HOW FAST I AM GOING, OR IF THE CAR IS OVERHEATING. IN DEALING WITH CHEVY I WAS TOLD TO TAKE THE CAR TO A CHEVY DEALERSHIP. THEY GAVE ME A PLACE THAT IS 2 1/2 HOURS HOUSE AWAY FROM MY HOME. I WAS ALSO TOLD THAT I WOULD HAVE THE HONOR OF PAYING FOR THE DIAGNOSTICS. IN RESEARCHING THIS PROBLEM, I HAVE PULLED UP SEVERAL COMPLAINTS FROM OTHER CHEVY IMPALA 2004 OWNERS THAT ARE EXPERIENCING THE SAME MULTIPLE PROBLEMS. I ALSO NOTICED THAT MOST OF THE COMPLAINTS ARE STATING THAT THE SAME ISSUES OCCURRED AT APPROX. THE SAME MILEAGE AS MINE. I HAVE DISCUSSED THIS WITH CHEVY CUSTOMER SERVICE AND BASICALLY THAT WAS IGNORED. THIS CAR IS HAZARDOUS TO DRIVE AND POTENTIALLY WILL CAUSE BODILY HARM. DEALING WITH CHEVY IS POINTLESS. ALL THEY CAN THINK OF IS HOW MUCH MONEY THEIR

DEFECTS WILL BRING IN. *TR" **NHTSA ID Number:** 10512006.

359. New GM has publicly admitted that it was aware of at least seven (7) crashes, eight (8) injuries, and three (3) deaths linked to this serious safety defect before deciding to finally implement a recall. However, in reality, the number of reports and complaints is much higher.

360. Moreover, notwithstanding years of notice and knowledge of the defect, on top of numerous complaints and reports from consumers, including reports of crashes, injuries and deaths, New GM delayed and did not implement a recall involving this defect until July of 2014.

361. New GM's supposed recall fix does not address the defect or the safety risks that it poses, including insufficient amount of torque to resist rotation from the "run" the "accessory" position under reasonably foreseeable conditions, and puts the burden on drivers to alter their behavior and carry their ignition keys separately from their other keys, and even from their remote fob. The real answer must include the replacement of all the switches with ones that have sufficient torque to resist foreseeable rotational forces. The consequences of an unwanted rotation from the "run" to "accessory" position has the same results in all these cars: loss of power (stalling), loss of power steering, loss of power brakes after one or two depressions of the brake pedal, and suppression of seat belt pretensioners and airbag deployments.

362. In addition, New GM is not addressing the other design issues that create safety risks in connection with this defect. New GM is not altering the algorithm that prevents the airbags from deploying when the ignition leaves the "run" position, even when the vehicle is moving. And New GM is not altering the placement of the ignition in an area where the

driver's knees may inadvertently cause the ignition to move out of the "run" position Moreover, notwithstanding years of notice and knowledge of the defect, on top of numerous complaints and reports from consumers, including reports of crashes, injuries and deaths, New GM delayed and did not implement a recall involving this defect until July of 2014.

363. Further, New GM has not begun implementing its "fix" for these affected vehicles. Thus, owners and lessees continue to operate their vehicles, at risk of the serious safety defects posed if and when the ignition switch in a Defective Vehicle fails during normal and ordinary vehicle operation.

IX. The September 2014 Ignition Switch Defect Recall Is the Latest Evidence of the Extent of the Defects and New GM's Ongoing Concealment.

364. On September 4, 2014, New GM recalled 46,873 MY 2011-2013 Chevrolet Caprice and 2008-2009 Pontiac G8 vehicles for yet another ignition switch defect (NHTSA Recall Number 14-V-510).

365. New GM explains that, in these Defective Ignition Switch Vehicles, "there is a risk, under certain conditions, that some drivers may bump the ignition key with their knee and unintentionally move the key away from the 'run' position." New GM admits that, when this happens, "engine power, and power barking will be affected, increasing the risk of a crash." Moreover, "[t]he timing of the key movement out of the 'run' position, relative to the activation of the sending algorithm of the crash event, may result in the airbags not deploying, increasing the potential for occupant injury in certain kinds of crashes."

366. This recall is directly related to the other ignition switch recalls and involves the same safety risks and dangers. The defect poses a serious and dangerous safety risk because the key in the ignition switch can rotate and consequently cause a the ignition to switch from the "on" or "run" position to the "off" or "accessory" position, which causes the

loss of engine power, stalling, loss of speed control, loss of power steering, loss of power braking, and increases the risk of a crash. Moreover, as with the ignition switch torque defect, if a crash occurs, the airbags may not deploy.

367. According to New GM, in late June 2014, "GM Holden began investigating potential operator knee-to-key interference in Holden-produced vehicles consistent with Safety's learning from" earlier ignition switch recalls, NHTSA recalls no. 14V-346 and 14V-355.[107]

368. New GM "analyzed vehicle test results, warranty data, TREAD data, NHTSA Vehicle Owner Questionnaires, and other data."[108] This belated review, concerning vehicles that were sold as long as six years earlier, led to the August 27, 2014 decision to conduct a safety recall.[109]

369. Once again, a review of NHTSA's website shows that New GM was long on notice of ignition switch issues in the vehicles subject to the September 4 recall.

370. For example, on February 10, 2010, New GM became aware of an incident involving a 2009 Pontiac G8 that occurred on November 23, 2009, and again on January 26, 2010, in which the following was reported to NHTSA:

> FIRST OCCURRED ON 11/23/2009. ON THE INTERSTATE IT LOSES ALL POWER, ENGINE SHUTS DOWN, IGNITION STOPS, POWER STEERING STOPS, BRAKES FAIL - COMPLETE VEHICLE STOPPAGE AND FULL OPERATING SYSTEMS SHUTDOWN WITHOUT WARNING AT 70 MPH, TWICE! SECOND OCCURRENCE WAS 1/26/2010.

371. On May 22, 2013, New GM became aware of an incident involving a 2008 Pontiac G8 that occurred on May 18, 2013, in which the following was reported:

---

[107] *Id.*
[108] *Id.*
[109] *Id.*

> THE CONTACT OWNS A 2008 PONTIAC G8. THE CONTACT STATED THAT WHILE DRIVING 50 MPH, THE VEHICLE STALLED WITHOUT WARNING. THE FAILURE RECURRED TWICE. THE VEHICLE WAS TOWED TO THE DEALER FOR DIAGNOSIS, BUT THE DEALER WAS UNABLE TO DUPLICATE THE PROBLEM. THE VEHICLE WAS NOT REPAIRED. THE MANUFACTURER WAS NOT NOTIFIED. THE APPROXIMATE FAILURE MILEAGE WAS 60,000.

372. Consistent with its pattern in the June and July recalls, New GM's proposed remedy is to provide these Defective Ignition Switch Vehicle owners with a "revised key blade and housing assembly, in which the blade has been indexed by 90 degrees."[110] Until the remedy is provided, New GM asserts, "it is very important that drivers adjust their seat and steering column to allow clearance between their knee and the ignition key."[111] New GM sent its recall notice to NHTSA one week later, on September 4, 2014.

373. New GM's supposed fix does not address the defect or the safety risks that the defect poses, including the apparent insufficient torque to resist rotation from the "run" to the "accessory" position under reasonably foreseeable driving conditions, and puts the burden on drivers to alter their behavior and carry their ignition keys separately from their other keys, and even from their remote fob. The real answer must include the replacement of all the switches with ones that have sufficient torque to resist foreseeable rotational forces.

374. In addition, New GM is not addressing the other design issues that create safety risks in connection with this defect. New GM is not altering the algorithm that prevents the airbags from deploying when the ignition leaves the "run" position, even when the vehicle is moving. And New GM is not altering the placement of the ignition in an area where the driver's knees may inadvertently cause the ignition to move out of the "run" position.

[110] New GM's Part 573 Safety Recall Report, Sept. 4, 2014.
[111] *Id.*

375. The September 4 recall is, like the earlier defective ignition switch recalls, too little and too late.

X. Even As They Concealed the Safety Defects From Consumers, Old and New GM Each Presented Their Vehicles As Safe And Reliable, and Presented Itself As An Honest Company With Integrity.

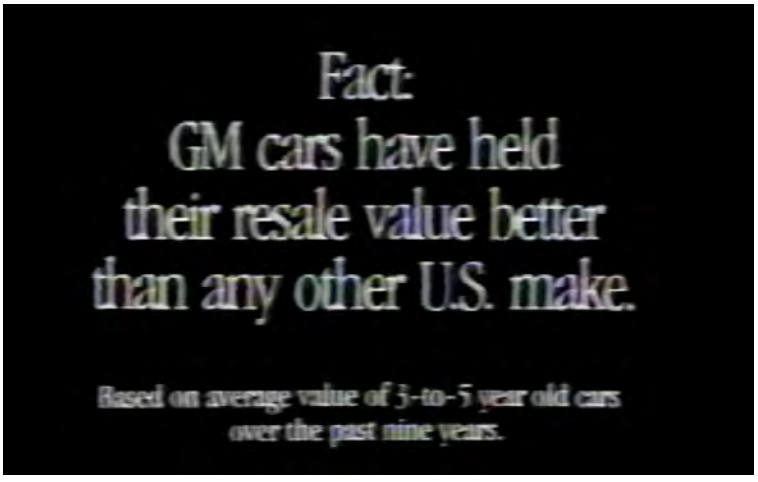
376. Throughout its history, Old GM regularly used print media, press releases, and television and video media to represent its vehicles as safe, reliable, quality products that provide great value to purchasers, and retain their value over time better than other manufacturers' vehicles. Old GM also used these media to present itself as an honest, above-board, values-oriented company with integrity. In truth, however, Old GM was concealing serious safety hazards and endangering its own customers.

377. A 1988 Old GM commercial stated:

> "GM meets your challenge. With outstanding quality and great value… That's leadership, that's GM."[112]

378. In 1989, an Old GM commercial represented:

> "Fact: GM cars have held their resale value better than any other U.S. make."[113]



[112] https://www.youtube.com/watch?v=h19lFAwGDwU.
[113] https://www.youtube.com/watch?v=Bg8CAt5ZhdI.

379. A 1990 Old GM Pontiac commercial stated:

> "GM is putting quality on the road."[114]

380. A 1998 General Motors Commercial proclaimed that Old GM cars were reliable and safe:

> "We are fans and nothing keeps us from the game. We need cars and trucks as reliable as we are. Season after season. And when the game is over, we need to know that what got us there will also get us safely home. Delivering cars and trucks that fans count on is what makes us General Motors."[115]

381. Old GM explained that the 2003 Saturn ION had "surprising levels of safety" in the car's Product Information: "Bringing a new charge into the small-car segment, the 2003 Saturn ION sets itself apart from competitors with innovative features, unique personalization opportunities and surprising levels of safety, sophistication and fun."[116]

382. On July 1, 2003, Old GM issued a press release explaining that the 2004 Impala "offers a comprehensive safety package, solid body structure, room for five passengers,

[114] https://www.youtube.com/watch?v=_hR7-7eKufQ.
[115] https://www.youtube.com/watch?v=Dt12Gti12iA.
[116] https://archives.media.gm.com/division/2003_prodinfo/03_saturn/03_Ion/index.html.

plenty of cargo space, a surprising number of amenities for the price, and a track record of outstanding quality, reliability and durability."[117]

383. In a July 1, 2003 press release Old GM stated that "[e]nhanced handling and acceleration are always paramount for Pontiac enthusiasts, and these, plus added safety and comfort measures, make the 2004 Pontiac lineup one of the most exciting in the division's history."[118]

384. On July 1, 2003, Old GM issued a press release about the 2004 Chevrolet Monte Carlo that explained that "[a]ttention to safety and security is also key to Monte Carlo's success."[119]

385. On July 1, 2003, Old GM issued a press release about the 2004 Pontiac Grand Prix that explained that "[s]afety is always a high priority for Grand Prix."[120]

386. In its Product Information for the 2003 Chevrolet Malibu, Old GM explained that "since 1997, the new Malibu has offered buyers excellent performance, safety and comfort in a trim, stylish package. For 2003, Chevrolet Malibu remains a smart buy for those who want a well-equipped midsize sedan at an attractive price.… Designed for individuals or families with high expectations of quality, reliability, safety, driving pleasure, and affordability, the Malibu appeals to domestic and import owners."[121]

387. On July 1, 2003, Old GM issued a press release about the 2004 Saturn Ion explaining that, "[t]he ION sedan and quad coupe are designed to carry on the Saturn tradition of being at the top of the class when it comes to safety and security. The world-class structural design provides the foundation for this focus on safety. The steel spaceframe's front and rear

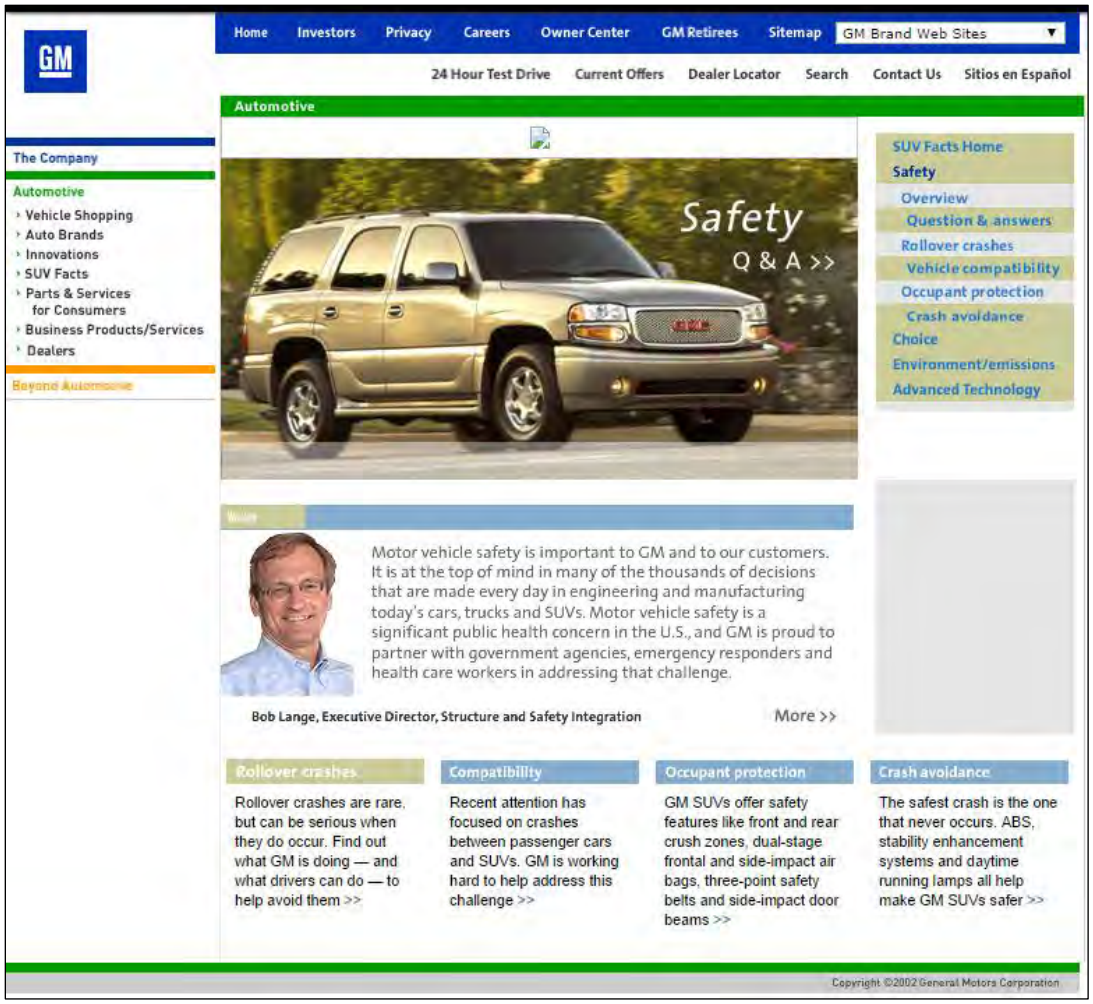
crush zones help absorb the energy of a crash while protecting the integrity of the safety cage."[122]

388. On October 4, 2003, Old GM's website stated that "[m]otor vehicle safety is important to GM and to our customers. It is at the top of mind in many of the thousands of decisions that are made every day in engineering and manufacturing today's cars, trucks, and SUVs/ Motor vehicle safety is a significant public health concern in the U.S., and GM is proud to partner with government agencies, emergency responders and health care workers in addressing that challenge."[123]

[122] https://archives.media.gm.com/division/2004_prodinfo/saturn/ion/index.html.
[123] http://web.archive.org/web/20031004014908/http://www.gm.com/automotive/vehicle_shopping/suv_facts/100_safety/index.html.



389. In 2004, Old GM's marketing campaign incorporated a new phrase "Only GM," which highlighted safety features such as electronic stability control. Old GM stated: "We want to bring this kind of safety, security and peace-of-mind to all of our customers because it's the right thing to do, and because only Old GM can do it."

Only GM

For example, we recently launched a new corporate advertising campaign under the theme, "Only GM." It's part of an effort to use the GM brand more aggressively and with more purpose, to show that we're leading the industry in ways that only GM can.

The "Only GM" campaign began by highlighting our plans to equip all our cars and trucks sold to retail customers in the United States and Canada with OnStar and StabiliTrak, GM's electronic stability control system. We want to bring this kind of safety, security and peace-of-mind to all of our customers because it's the right thing to do, and because only GM can do it. We also want potential customers to know that GM offers them great value, and that buying GM matters. (For more details, go to *onlygm.com.*)

(Old GM's 2004 Annual Report, p. 6.)

390. And in the same Report, under the banner "Peace of mind," Old GM represented that "Only GM can offer its customers the assurance that someone is looking out for them and their families when they're on the road," and that: "This commitment to safety makes GM the only automobile manufacturer able to offer a full range of cars, tricks an SUVs that provide safety protection before, during and after vehicle collisions."

(Old GM's 2004 Annual Report, p. 22.)

391. On May 10, 2004, Old GM's website announced that its "aim is to improve motor vehicle safety for customers, passengers, and other motorists. Our customers expect and demand vehicles that help them to avoid crashes and reduce the risk of injury in case of a crash. We strive to exceed these expectations and to protect customers and their families while they are on the road." The website continued, "GM is committed to continuously improving the crashworthiness and crash avoidance of its vehicles, and we support many programs aimed at encouraging safer motor vehicle use…"[124]

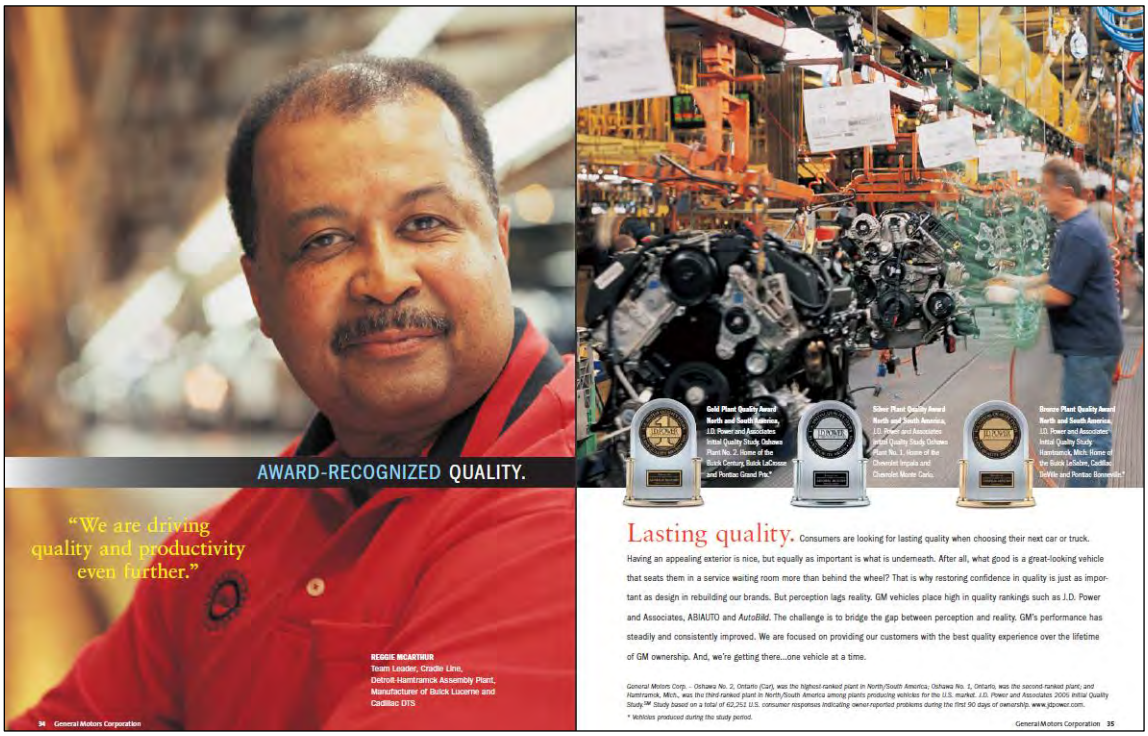
392. On June 4, 2004, Old GM's website stated that "[v]ehicle safety is paramount at GM, and we constantly strive to make our cars and trucks safe. We also continue our support for groups such as the National SAFE KIDS Campaign, and a number of programs aimed at encouraging safer motor vehicle use."[125]

393. Old GM's June 4, 2004, website published a message from its CEO, Rick Wagoner, on corporate responsibility. Mr. Wagoner wrote, "[a]t a time when current events remind us of the critical importance of corporate responsibility and the value of sustainable development, we at General Motors are fortunate to have inherited a legacy of doing business the right way. It's a great asset. And, it's a huge obligation … one we take very seriously. What we call "winning with integrity" is not an optional or occasional behavior at GM. Integrity is one of our core values, and a way of doing business that helps us realize our company's full potential….In short, "winning with integrity" is much more than a one-time exercise at GM. It's how we work every day. It's a philosophy that transcends borders,

[124] http://web.archive.org/web/20040510221647/http://www.gm.com/company/gmability/safety/?section=Company&layer=GMAbility2&action=open&page=1.
[125] http://web.archive.org/web/20040604055658/http://www.gm.com/company/gmability/sustainability/reports/03/safety.html.

language, and culture, and something we promote by creating an environment within our company that supports, and demands, proper business conduct."[126]

394. In its 2005 Annual Report Old GM stated: "We are driving quality and productivity even further." "Lasting quality—That is why restoring confidence in quality is just as important as design in rebuilding our brands…. We are focused on providing our customers with the best quality experience over the lifetime of GM ownership."



395. The 2005 GMC Yukon, Tahoe, and Cadillac Escalade were touted as "distinctly designed packages that lead the segment in performance, safety, efficiency and capability."[127]

396. On September 9, 2005, Old GM's website described its safety technology as "Helping You Avoid a Crash" and "Giving the driver information never possible before":[128]

[126] http://web.archive.org/web/20040604055939/http://www.gm.com/company/gmability/sustainability/reports/03/wagoner_message.html.
[127] GM's 2005 Annual Report, p. 23.

397. At the same time Old GM announced what it called the next big step in safety:[129]

> "No matter what vehicle you drive, your safety is vital. GM is looking out for you—you deserve that peace of mind on the road. Which is why at GM, we've taken the next big step in our commitment to provide more customers with more safety and security."

Footnote continued from previous page

[128] http://web.archive.org/web/20050909184042/http://www.gm.com/company/gmability/safety/avoid_crash/index.html.

[129] http://web.archive.org/web/20050909225925/http://www.gm.com/company/onlygm/.

398. In a July 12, 2006 press release regarding Old GM's 2007 model year lineup, Old GM stated, "[f]rom an all-new family of full-size pickup trucks and SUVs to carlike crossovers to small cars and a near-complete revitalization of the Saturn portfolio, General Motors is introducing several new or significantly redesigned vehicles for the 2007 model year—stylish products that leverage GM's global resources to deliver value, brand-distinctive design character, safety, fuel efficiency, relevant technologies and quality to the North American market."[130]

399. In an August 1, 2006 press statement for the 2007 Cadillac Lucerne, Old GM represented that the "Lucerne's body structure is engineered to provide maximum occupant protection and minimum intrusion under a wide range of impact conditions."[131]

400. In an August 1, 2006 press statement for the 2007 Cadillac DTS, Old GM represented: "[d]esigned and engineered with occupant safety and protection in mind, the DTS reinforces Cadillac's long-standing reputation for safe occupant environments in premium vehicles."[132]

401. Old GM's website on August 9, 2006, stated:[133]

> **MAKING VEHICLES SAFER**
>
> "GM strives to make each new model safer than the one it replaces. Vehicle-based safety strategies generally fall into three categories:
>
> BEFORE: Collision avoidance—technologies designed to help the driver avoid potential crashes (sometimes called 'active safety' technologies),

[130] https://archives.media.gm.com/us/gm/en/product_services/vehicles/2007/07%20 corporate%20oview.html.
[131] https://archives.media.gm.com/us/buick/en/product_services/r_cars/r_c_lucerne/07 index.html.
[132] https://archives.media.gm.com/us/cadillac/en/product_services/r_cars/r_c_DTS/07 index.html.
[133] http://web.archive.org/web/20060809103405/http://www.gm.com/company/gmability/sustainability/reports/05/400_products/7_seventy/471.html.

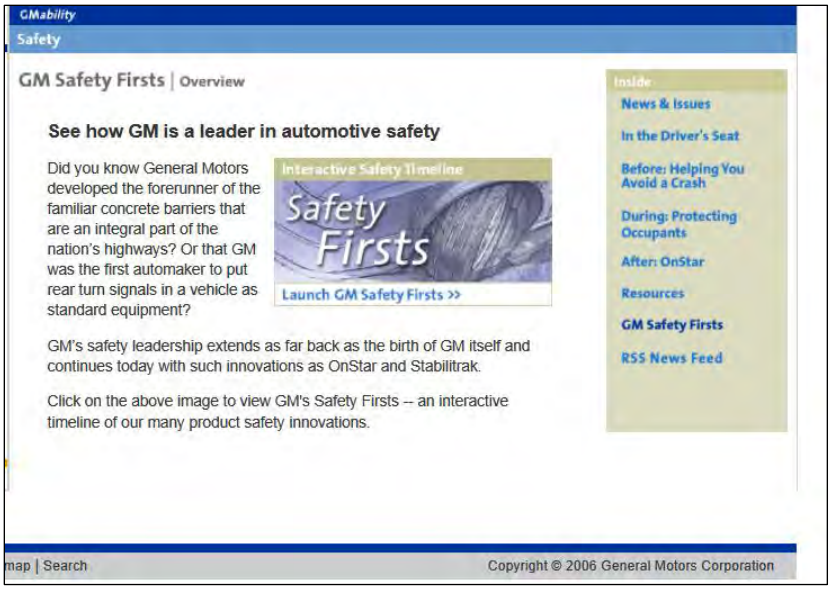
> DURING: Crashworthiness—designs and technologies that help mitigate the injury potential of a crash (sometimes called 'passive safety'), and
>
> AFTER: Post-crash—systems that can help alert emergency rescue to a crash and help provide information to aid rescue specialists.
>
> …
>
> GM vehicles are designed to help protect occupants in the 'first' collision, which acts to deform the vehicle structure and change the velocity of the vehicle's center of mass. Also, GM vehicles are designed to help reduce injury risk for occupants in the 'second' collision, which is between the vehicle interior as it responds to the forces imposed by object that collides with the vehicle, and the occupants."

402. Old GM's website on September 6, 2006, stated:[134]

> "Helping drivers avoid crashes and making vehicles safer is a priority for GM.
>
> …
>
> Motor vehicle safety involves not only the design of the vehicle, but the manner in which it is driven, and the driving environment as well. GM is committed to researching and implementing programs and technologies that enhance the safety of vehicles. GM wants to assist drivers to operate their vehicles to avoid hazards, and to help protect occupants in the event of a vehicle crash. GM also focuses on the circumstances that occur after a crash.
>
> GM's vehicle safety priorities are guided by analysis of the real-world experience that customers have with motor vehicles."

403. Old GM stated on its website in October 29, 2006 it is a leader in automotive safety and that its safety leadership extends as far back as the birth of Old GM:[135]

[134] http://web.archive.org/web/20060906083227/http://www.gm.com/company/gmability/sustainability/reports/05/400_products/7_seventy/470.html.
[135] http://web.archive.org/web/20061029080834/http://www.gm.com/company/gmability/safety/safety_firsts/index.html.



404. In a video published on January 2, 2007, Old GM's Vice Chairman of Product Development, Bob Lutz, stated "Saturn has always been a great brand" and that it "has predominately been known for customer service, fair dealers, honest dealers and having happy buyers."[136]

405. On Old GM's website on January 6, 2007, Bob Lange, Executive Director, Structure and Safety Integration, stated "[o]ur aim is to improve motor vehicle safety for customers, passengers and other motorists. Our customers expect and demand vehicles that help them to avoid crashes and reduce the risk of injury in case of a crash. We strive to exceed these expectations and to protect customers and their families while they are on the road." Further, that "GM is committed to continuously improving the crashworthiness and crash avoidance of its vehicles…"[137]

406. In its 2007 Annual Report, Old GM stated:

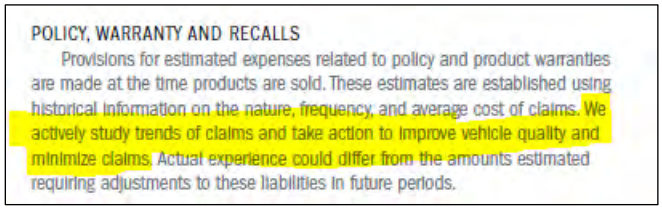
> In 2007, we continued to implement major improvements to our U.S. sales and marketing strategy. Over the past two years, we've

[136] https://www.youtube.com/watch?v=Kd1Kg0BBdto&list=UUxN-Csvy_9sveql5HJviDjA.
[137] http://web.archive.org/web/20070106044410/http://www.gm.com/company/gmability /safety/.

> re-focused our marketing efforts to emphasize the strength and value of our products and brands…
>
> We also continued to make progress in our long-term effort to improve quality…
>
> We've also witnessed, since 2005, an 89 percent reduction in vehicle recall campaigns involving safety and non-compliance.

(Old GM's 2007 Annual Report, p. 7.)

407. Moreover, Old GM represented that it "actively studies trends of claims" to take action to improve vehicle quality:



POLICY, WARRANTY AND RECALLS

Provisions for estimated expenses related to policy and product warranties are made at the time products are sold. These estimates are established using historical information on the nature, frequency, and average cost of claims. We actively study trends of claims and take action to improve vehicle quality and minimize claims. Actual experience could differ from the amounts estimated requiring adjustments to these liabilities in future periods.

(Old GM 2007 Annual Report, p. 74.)

408. In an August 1, 2007 press release, Mark LaNeve, GM North America Vice President, Vehicle Sales, Service and Marketing introduced Old GM's 2008 line up, stating "Old GM's transformation is being driven by high-quality cars and trucks that look great, drive great, are fuel-efficient and provide genuine value to our customers." Further, "[n]o other automaker provides such a diverse lineup of cars and trucks that meets the needs of customers that range from college studies to contactors. And our five-year, 100,000-mile powertrain warranty—the most comprehensive in the industry—adds even more value to the bottom line, demonstrating that we are putting our money where our mouth is on vehicle quality."[138]

409. On August 1, 2007, Old GM represented that "[t]he Cobalt enters the 2008 model year on the heels of a successful '07 model year, which introduced several significant

[138] https://archives.media.gm.com/us/gm/en/product_services/vehicles/2008/08gmna_ overview.html.

enhancements, including more powerful Ecotec engines. For '08, the Cobalt builds on that powerful foundation with a streamlined model lineup and more standard safety and convenience equipment…Cobalt's enhanced safety features include:

> StabiliTrack electronic stability control system standard on 2LT and Sport
>
> Traction control standard on all models equipped with an automatic transmission and optional ABS
>
> Tire pressure monitoring system standard on all models
>
> Headcurtain side impact air bags standard on all models
>
> OnStar standard on 2LT and Sport; available on 1LT"[139]

410. On August 1, 2007 Old GM represented that "[t]he 2008 Impala reinforces the brand's value story with new features and revisions that add to its safety and efficiency, including the addition of standard StabiliTrack electronic stability control on 2LT, LTZ and SS models…"[140]

411. In an August 1, 2007 press statement for the 2008 Buick LaCrosse, Old GM represented that the "LaCrosse is built with a strong 'safety cage' structure and a full-perimeter aluminum engine cradle that directs impact energy away from passengers. Anti-lock brakes and side curtain airbags are standard on all models."[141]

412. In an August 1, 2007 press statement for the 2008 Buick Lucerne, GM represented that the "Lucerne's body structure is designed to provide maximum occupant protection and minimum intrusion under a wide range of impact conditions. Active safety and handling features offered on Lucerne include a four-channel anti-lock braking system and traction control; an auto-level rear suspension that automatically adjusts the vehicle height for

[139] https://archives.media.gm.com/us/chevrolet/en/product_services/r_cars/08%20 chevrolet%20car%20oview.html.

heavy loads; and four-channel StabiliTrack electronic stability control with brake assist, which senses emergency braking situations and boosts power as needed."[142]

413. In mid to late 2007, Old GM represented that "[t]he 2008 CTS is designed to enhance Cadillac's reputation for providing safe occupant environments in luxury vehicles. Details include:

> Dual-stage driver's front air bag
>
> Segment-first dual-depth front passenger air bag
>
> River and front passenger side seat-mounted pelvic/thorax side air bags
>
> Roof-rail side curtain air bags, covers front and rear seating rows
>
> Front safety belt pretensioners
>
> Tire pressure monitoring system
>
> Body structure with strategically place high-strength steels"[143]

414. In an August 1, 2007, press statement for the 2008 Cadillac DTS, Old GM stated, "Designed and engineered with occupant safety and protection in mind, the DTS reinforces Cadillac's long-standing reputation for safe occupant environments in premium vehicles. The DTS is equipped with a host of safety and security features, beginning with its body frame integral (BFI) construction, strategically engineered crumple zones in front and rear; and comprehensive use of high-strength steel. The vehicle's crashworthiness is enhanced with structural foam and nylon structural inserts strategically placed in areas of the vehicle's structure."[144]

415. In an August 1, 2007, press statement for the 2008 Pontiac Grand Prix, Old GM represented that the "Grand Prix's convenience and safety features are perfect for drivers

[142] https://archives.media.gm.com/us/buick/en/product_services/r_cars/r_c_lucerne/ 08index.html.
[143] https://archives.media.gm.com/us/cadillac/en/product_services/r_cars/r_c_CTS/08 index.html.

who enjoy the precise handling characteristics of a sporty, family-friendly package. The 2008 Grand Prix remains a driver's car inside and out. The active and passive safety features on the Grand Prix include standard four-wheel disc brakes, traction control and daytime running lamps."[145]

416. Old GM's website on January 15, 2008, stated "GM incorporates a total safety philosophy into each of its designs to help protect you in a collision—and keep one from occurring in the first place."[146]

417. In February 2008, Old GM aired a Chevy Malibu commercial during The Grammy's which stated the Chevy Malibu was "built to last" "because safety should last a lifetime." The commercial used images of a child being raised to adulthood, in order to convey protection and safety.[147]

418. On its website in March of 2008, Old GM stated it was delivering the best cars and trucks in its 100-year history, and that it was "Obsessed with Quality." The website also spoke of "Continuous Safety," and represented that "GM incorporates a total safety philosophy into each of its designs to help protect you in a collision—and keep one from occurring in the first place":[148/149/150]

XI. New GM Promoted All Of Its Vehicles As Safe, Reliable, And High-Quality While It Fraudulently Concealed Numerous Safety Defects

A. New GM Claimed To Be Turning Over A New Leaf After The Bankruptcy.

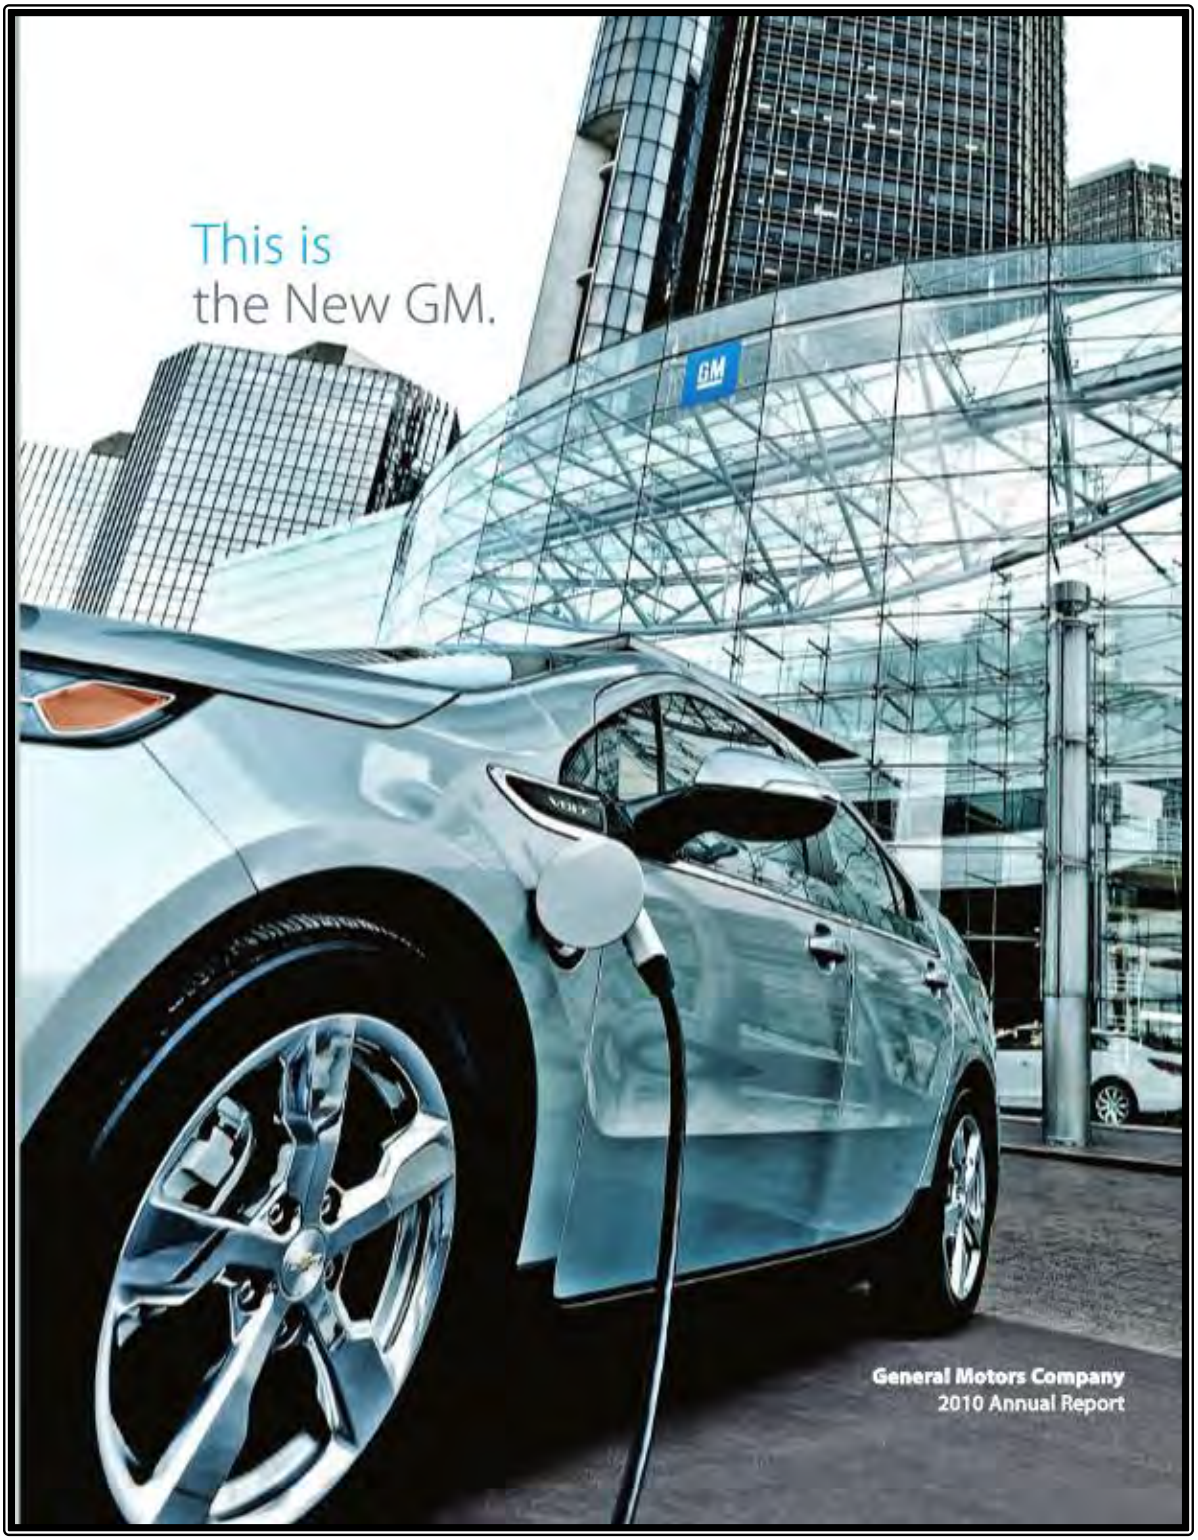
419. New GM was financially successful in emerging from the Old GM bankruptcy. Sales of all its models went up and New GM became profitable. A new GM was born and the GM brand once again stood strong in the eyes of consumers – or so the world thought.

420. In 2010, New GM sold 4.26 million vehicles globally, an average of one every 7.4 seconds. Joel Ewanick, New GM's global chief marketing officer at the time, described this success in a statement to the press, "Chevrolet's dedication to compelling designs, quality, durability and great value is a winning formula that resonates with consumers around the world."[151]

421. New GM led the world and U.S. consumers to believe that, once it emerged from bankruptcy in 2009, it was a new and improved company. New GM repeatedly

[151] https://media.gm.com/media/us/en/gm/news.detail../content/Pages/news/us/en/2011/Jan/0117_chev_ global.

proclaimed that it was a company committed to innovation, safety, and maintaining a strong brand:



General Motors Company 2010 Annual Report, cover page.

422. In New GM's 2010 Annual Report, New GM proclaimed its products would "improve safety and enhance the overall driving experience for our customers." (*See* New GM 2010 Annual Report, p. 10.)

> As we regain our financial footing, we expect the number of new product launches to steadily rise over the next several years. And these new products will increasingly embrace advanced technology to reduce fuel consumption and emissions, improve safety and enhance the overall driving experience for our customers.

General Motors Company 2010 Annual Report, p. 4.

423. New GM claimed the New GM would create vehicles that would define the industry stand.

> BUILDING THE NEW GM
>
> We are moving with increased speed and agility, and implementing change faster than ever before. We are becoming a company with the capability, resources and confidence to play offense, not defense. Instead of creating new vehicles that are just better than their predecessors, we're working to design, build and sell vehicles that define the industry standard.

General Motors Company 2010 Annual Report, p. 5.

424. In its 2010 Annual Report New GM told consumers that it built the world's best vehicles:

> *We truly are building a new GM, from the inside out. Our vision is clear: to design, build, and sell the world's best vehicles, and we*

> *have a new business model to bring that vision to life. We have a lower cost structure, a stronger balance sheet, and a dramatically lower risk profile. We have a new leadership team – a strong mix of executive talent from outside the industry and automotive veterans – and a passionate, rejuvenated workforce.*
>
> *"Our plan is to steadily invest in creating world-class vehicles, which will continuously drive our cycle of great design, high quality and higher profitability."*

General Motors Company 2010 Annual Report, p. 2.

425. New GM represented that it was building vehicles with design excellence, quality, and performance:

> *And across the globe, other GM vehicles are gaining similar acclaim for design excellence, quality, and performance, including the Holden Commodore in Australia. Chevrolet Agile in Brazil, Buick LaCrosse in China, and many others.*
>
> *The company's progress is early evidence of a new business model that begins and ends with great vehicles. We are leveraging our global resources and scale to maintain stringent cost management while taking advantage of growth and revenue opportunities around the world, to ultimately deliver sustainable results for all of our shareholders.*

General Motors Company 2010 Annual Report, p. 3.

426. These themes were repeatedly put forward as the core message about New GM's Brand:

The new General Motors has one clear vision: to design, build and sell the world's best vehicles. Our new business model revolves around this vision, focusing on fewer brands, compelling vehicle design, innovative technology, improved manufacturing productivity and streamlined, more efficient inventory processes. The end result is products that delight customers and generate higher volumes and margins—and ultimately deliver more cash to invest in our future vehicles.

A New Vision, a New Business Model

Our vision is simple, straightforward and clear; to design, build and sell the world's best vehicles. That doesn't mean just making our vehicles better than the ones they replace. We have set a higher standard for the new GM—and that means building the best.

Our vision comes to life in a continuous cycle that starts, ends and begins again with great vehicle designs. To accelerate the momentum we've already created, we reduced our North American portfolio from eight brands to four: Chevrolet, Buick, Cadillac and GMC. Worldwide, we're aggressively developing and leveraging global vehicle architectures to maximize our talent and resources and achieve optimum economies of scale.

Across our manufacturing operations, we have largely eliminated overcapacity in North America while making progress in Europe, and we're committed to managing inventory with a new level of discipline. By using our manufacturing capacity more efficiently and maintaining leaner vehicle inventories, we are reducing the need to offer sales incentives on our vehicles. These moves, combined with offering attractive, high-quality vehicles, are driving healthier margins—and at the same time building stronger brands.

Our new business model creates a self-sustaining cycle of reinvestment that drives continuous improvement in vehicle design, manufacturing discipline, brand strength, pricing and margins, because we are now able to make money at the bottom as well as the top of the industry cycles.

We are seeing positive results already. In the United States, for example, improved design, content and quality have resulted in solid gains in segment share, average transaction prices and projected residual values for the Chevrolet Equinox, Buick LaCrosse and Cadillac SRX. This is just the beginning.

General Motors Company 2010 Annual Report, p. 6.

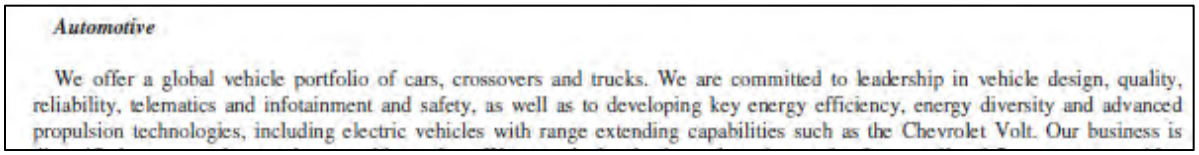
427. New GM boasted of its new "culture":

General Motors Company 2010 Annual Report, p. 16.

428. In its 2011 Annual Report, New GM proclaimed that it was putting its customers first:

General Motors Company 2011 Annual Report, p. 1.

429. Further, New GM stated that it is committed to leadership in vehicle safety:



Automotive

We offer a global vehicle portfolio of cars, crossovers and trucks. We are committed to leadership in vehicle design, quality, reliability, telematics and infotainment and safety, as well as to developing key energy efficiency, energy diversity and advanced propulsion technologies, including electric vehicles with range extending capabilities such as the Chevrolet Volt. Our business is

General Motors Company 2011 Annual Report, p. 11.

430. In its 2011 Annual Report, in a "Letter to Stockholders," New GM noted that its brand had grown in value and that it designed the "World's Best Vehicles":

> *Dear Stockholder:*
>
> *Your company is on the move once again. While there were highs and lows in 2011, our overall report card shows very solid marks, including record net income attributable to common stockholders of $7.6 billion and EBIT-adjusted income of $8.3 billion.*
>
> - *GM's overall momentum, including a 13 percent sales increase in the United States, created new jobs and drove investments. We have announced investments in 29 U.S. facilities totaling more than $7.1 billion since July 2009, with more than 17,500 jobs created or retained.*
>
> *Design, Build and Sell the World's Best Vehicles*

This pillar is intended to keep the customer at the center of everything we do, and success is pretty easy to define. It means creating vehicles that people desire, value and are proud to own. When we get this right, it transforms our reputation and the company's bottom line.

General Motors Company 2011 Annual Report, p. 2.

Strengthen Brand Value

Clarity of purpose and consistency of execution are the cornerstones of our product strategy, and two brands will drive our global growth. They are Chevrolet, which embodies the qualities of value, reliability, performance, and expressive design; and Cadillac, which creates luxury vehicles that are provocative and powerful. At the same time the Holden, Buick, GMC, Baojun, Opel and Vauxhall brands are being carefully cultivated to satisfy as many customers as possible in select regions.

Each day the cultural change underway at GM becomes more striking. The old internally focused, consensus-driven and overly complicated GM is being reinvented brick by brick, by truly accountable executives who know how to take calculated risks and lead global teams that are committed to building the best vehicles in the world as efficiently as we can.

That's the crux of our plan. The plan is something we can control. We like the results we're starting to see and we're going to stick to it – always.

General Motors Company 2011 Annual Report, p. 3.

These themes continued in New GM's 2012 Annual Report:

DANIEL F. AKERSON
Chairman & Chief Executive Officer
with the 2014 Cadillac CTS

TO OUR STOCKHOLDERS:

Last year, I closed my letter to you by talking about how GM was changing its processes and culture in order to build the best vehicles in the world much more efficiently and profitably. This year, I want to pick up where I left off, and articulate what success looks like for you as stockholders, and for everyone else who depends on us. >>

General Motors Company 2012 Annual Report, p. 3.

431. New GM told the world the following about its brand:

> *What is immutable is our focus on the customer, which requires us to go from "good" today to "great" in everything we do, including product design, initial quality, durability, and service after the sale.*

General Motors Company 2012 Annual Report, p. 4.

432. New GM also indicated it had changed its structure to create more "accountability" which, as shown below, was a blatant falsehood:

> *That work continues, and it has been complemented by changes to our design and engineering organization that have flattened the*

> *structure and created more accountability for produce execution, profitability and customer satisfaction.*

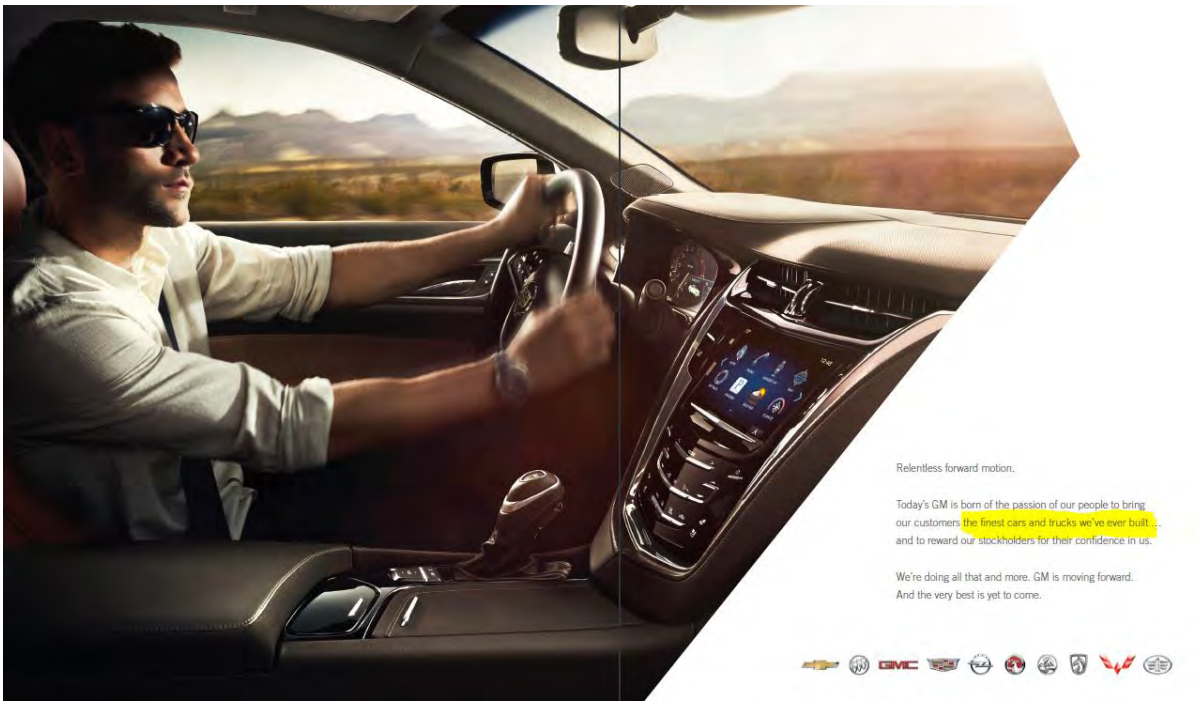
General Motors Company 2012 Annual Report, p. 10.

433. And New GM represented that product quality was a key focus – another blatant falsehood:

> *Product quality and long-term durability are two other areas that demand our unrelenting attention, even though we are doing well on key measures.*

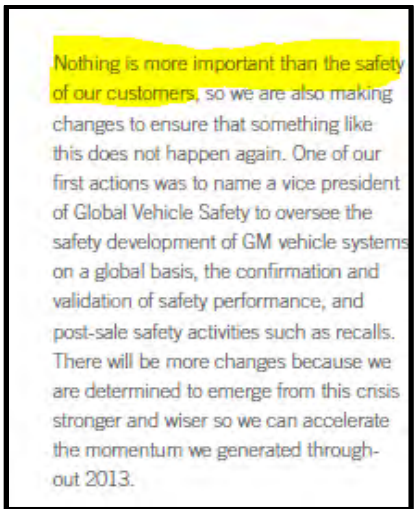
General Motors Company 2012 Annual Report, p. 10.

434. New GM's 2013 Annual Report stated "Today's GM is born of the passion of our people to bring our customers the finest cars and trucks we've ever built":



General Motors Company 2013 Annual Report, inside front cover dual page, (unnumbered).

435. In addition, New GM represented: "Nothing is more important than the safety of our customers":



Nothing is more important than the safety of our customers, so we are also making changes to ensure that something like this does not happen again. One of our first actions was to name a vice president of Global Vehicle Safety to oversee the safety development of GM vehicle systems on a global basis, the confirmation and validation of safety performance, and post-sale safety activities such as recalls. There will be more changes because we are determined to emerge from this crisis stronger and wiser so we can accelerate the momentum we generated throughout 2013.

General Motors Company 2013 Annual Report, p. 4.

B. New GM's Advertising And Literature Claimed That GM Placed Safety And Quality First.

436. In May of 2014, New GM sponsored the North American Conference on Elderly Mobility. Gay Kent, director, New GM global vehicle safety, and a presenter at the conference stated: "The safety of all our customers is our utmost concern.[152]

437. In advertisements and company literature, New GM consistently promoted all its vehicles as safe and reliable, and presented itself as a responsible manufacturer that stands behind GM-branded vehicles after they are sold. New GM has made, and continues to make, misleading safety and reliability claims in public statements, advertisements, and literature provided with its vehicles. For example:

438. An online ad for "GM certified" used vehicles that ran from July 6, 2009, until April 5, 2010, stated that "GM certified means no worries."

439. In April 2010, General Motors Company Chairman and CEO, Ed Whitacre, starred in a commercial video advertisement on behalf of New GM. In it, Mr. Whitacre acknowledged that not all Americans wanted to give New GM a second chance, but that New

[152] https://media.gm.com/media/us/en/gm/news.detail./content/Pages/news/us/en/2014/May/0514-cameras.

GM wanted to make itself a company that "all Americans can be proud of again" and "exceed every goal [Americans] set for [General Motors]." He stated that New GM was "designing, building, and selling the best cars in the world." He continued by saying New GM has "unmatched lifesaving technology" to keep customers safe. He concluded by inviting the viewer to take a look at "the new GM."[153]

440. A radio ad that ran from New GM's inception until July 16, 2010 stated that "[a]t GM, building quality cars is the most important thing we can do."

441. On November 10, 2010, General Motors published a video that told consumers that New GM prevents any defects from reaching consumers. The video, entitled "Andy Danko: The White Glove Quality Check," wherein it is stated that there are "quality processes in the plant that prevent any defects from getting out." The video also stated that the goal when a customer buys a New GM vehicle is that they "drive it down the road and they never go back to the dealer."[154]

[153] https://www.youtube.com/watch?v=jbXpV0aqEM4.
[154] https://www.youtube.com/watch?v=JRFO8UzoNho&list=UUxN-Csvy_9sveql5HJviDjA.

442. In 2010 New GM ran a television advertisement for its Chevrolet brand that implied its vehicles were safe by showing parents bringing their newborn babies home from the hospital, with the tagline "as long as there are babies, there will be Chevys to bring them home."[155]

443. Another 2010 television ad informed consumers that "Chevrolet's ingenuity and integrity remain strong, exploring new areas of design and power, while continuing to make some of the safest vehicles on earth."

444. New GM's 2010 brochure for the Chevy Cobalt states "Chevy Cobalt is savvy when it comes to standard safety" and "you'll see we've thought about safety so you don't have to." It also states "[w]e're filling our cars and trucks with the kind of thinking, features and craftsmanship you'd expect to pay a lot more for."[156]

[155] https://www.youtube.com/watch?v=rb28vTN382g.
[156] https://www.auto-brochures.com/makes/Chevrolet/Cobalt/Chevrolet_US%20Cobalt_2010.pdf.

COBALT

See a photo gallery of Cobalt at chevy.com/cobalt

Cobalt is engineered to save you money years down the road with long-life components like 100,000-mile spark plugs and 150,000-mile engine coolant, plus automatic transmission fluid that never needs changing.[1]

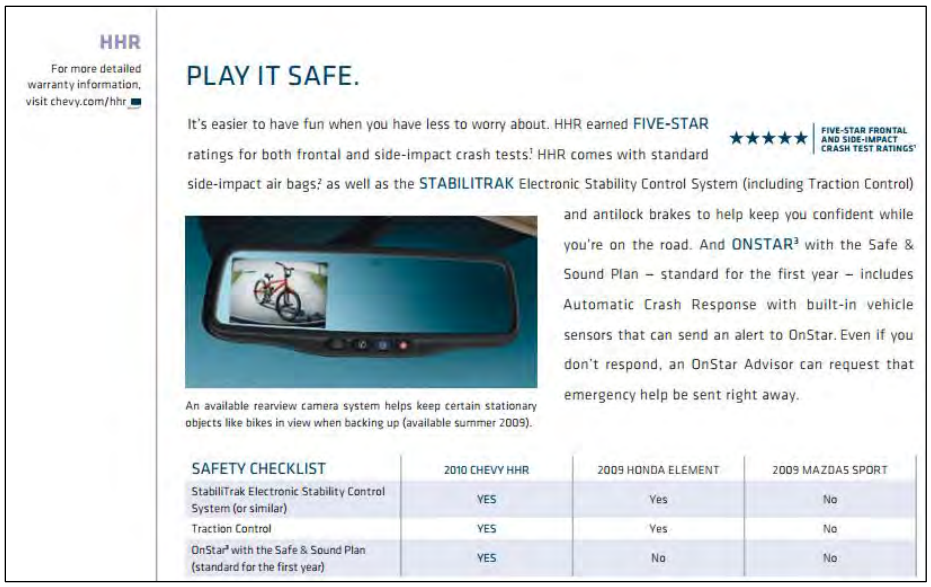
STREET-SMART ABOUT SAFETY.

Chevy Cobalt is savvy when it comes to standard safety. It's equipped with dual frontal air bags and HEAD-CURTAIN SIDE-IMPACT AIR BAGS;[2] the OnStar[3] Safe & Sound Plan (standard for the first year); and a Driver Information Center that alerts you to tire pressure, oil life and many other vehicle functions and also includes personalization settings. The STABILITRAK Electronic Stability Control System (including Traction Control) is standard on SS models. Factor in antilock brakes – standard on 2LT and SS, available on LS and 1LT – and you'll see we've thought about safety so you don't have to.

The Driver Information Center includes a Tire Pressure Monitor (excludes spare tire), 15 messages and personalization settings.

CHEVY To us, it's pretty simple: Build vehicles that anyone would be proud to own, and put them within reach. We offer more models than Toyota or Honda with 30 MPG HIGHWAY OR BETTER! We're backing our quality with the BEST COVERAGE IN AMERICA, which includes the 100,000 mile/5-year[2] transferable Powertrain Limited Warranty plus Roadside Assistance and Courtesy Transportation Programs. We're filling our cars and trucks with the kind of thinking, features and craftsmanship you'd expect to pay a lot more for. This philosophy has earned us more *CONSUMERS DIGEST* "BEST BUY" awards for 2009 models[3] than any other brand. So owning a Chevy isn't just a source of transportation. It's a source of pride. CHEVY.COM

445. New GM's 2010 Chevy HHR brochure proclaims "PLAY IT SAFE" and "It's easier to have fun when you have less to worry about."[157]



HHR

For more detailed warranty information, visit chevy.com/hhr

PLAY IT SAFE.

It's easier to have fun when you have less to worry about. HHR earned FIVE-STAR ratings for both frontal and side-impact crash tests.[1] HHR comes with standard side-impact air bags,[2] as well as the STABILITRAK Electronic Stability Control System (including Traction Control) and antilock brakes to help keep you confident while you're on the road. And ONSTAR[3] with the Safe & Sound Plan – standard for the first year – includes Automatic Crash Response with built-in vehicle sensors that can send an alert to OnStar. Even if you don't respond, an OnStar Advisor can request that emergency help be sent right away.

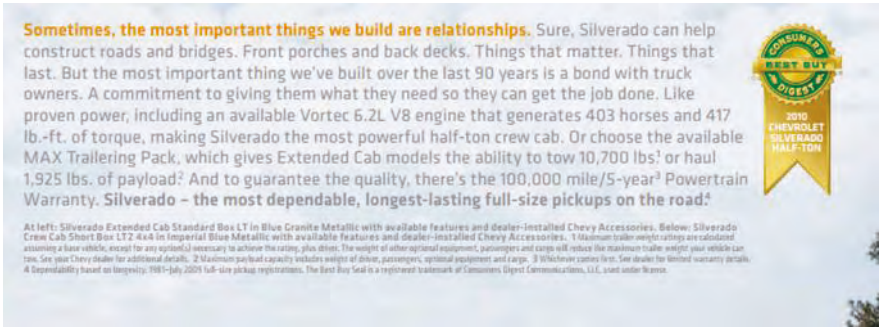
★★★★★ FIVE-STAR FRONTAL AND SIDE-IMPACT CRASH TEST RATINGS[1]

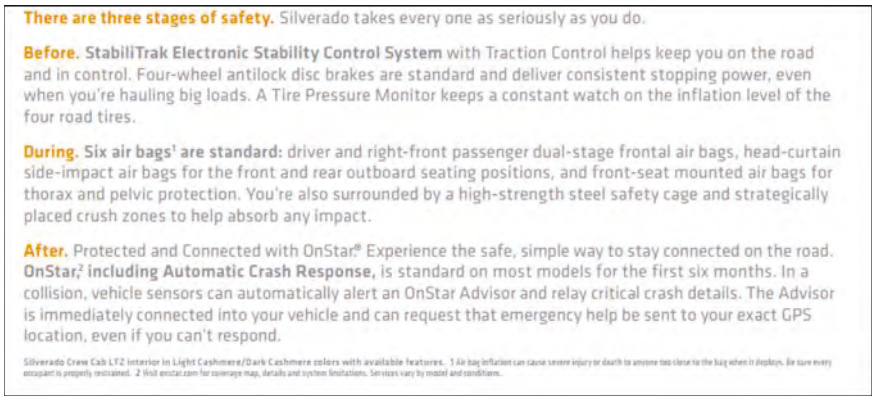
An available rearview camera system helps keep certain stationary objects like bikes in view when backing up (available summer 2009).

SAFETY CHECKLIST	2010 CHEVY HHR	2009 HONDA ELEMENT	2009 MAZDA5 SPORT
StabiliTrak Electronic Stability Control System (or similar)	YES	Yes	No
Traction Control	YES	Yes	No
OnStar[3] with the Safe & Sound Plan (standard for the first year)	YES	No	No

[157] https://www.auto-brochures.com/makes/Chevrolet/HHR/Chevrolet_US%20HHR_2010.pdf.

446. New GM's brochure for the 2011 Chevrolet Silverado states "Silverado – the most dependable, long-lasting full size pickups on the road." It goes on to state "[t]here are three stages of safety. Silverado takes every one as seriously as you do."[158]





447. The brochure for the 2011 Cadillac DTS and STS states "Passenger safety is a primary consideration throughout the engineering process." It continues by stating "[t]he STS and DTS were carefully designed to provide a host of features to help you from getting into a collision in the first place."[159]

[158] https://www.auto-brochures.com/makes/Chevrolet/Silverado/Chevrolet_US%20Silverado_2011.pdf.
[159] https://www.auto-brochures.com/makes/Cadillac/Cadillac_US%20STS-DTS_2011.pdf.

448. On August 29, 2011, New GM stated on its website that: "Chevrolet provides consumers with fuel-efficient, safe and reliable vehicles that deliver high quality, expressive design, spirited performance and value."[160]

449. On September 29, 2011, New GM announced on the "News" portion of its website the introduction of front center airbags. The announcement included a quote from Gay Kent, New GM executive director of Vehicle Safety and Crashworthiness, who stated that: "This technology is a further demonstration of New GM's above-and-beyond commitment to provide continuous occupant protection before, during and after a crash."[161]

450. On December 27, 2011, Gay Kent, Executive Director of Vehicle Safety, was quoted in an interview on New GM's website as saying: "Our safety strategy is about providing continuous protection for our customers before, during and after a crash."[162]

451. New GM's brochure for the 2012 Chevrolet Impala proclaims: "[a] safety philosophy that RUNS DEEP," and that "if a moderate to severe collision does happen, Impala is designed to respond quickly":[163]

[160] https://media.gm.com/media/us/en/gm/news.detail../content/Pages/news/us/en/2014/Jul/0731-mpg.
[161] https://media.gm.com/media/us/en/gm/news.detail../content/Pages/news/us/en/2011/Sep/0929_airbag.
[162] https://media.gm.com/media/us/en/gm/news.detail../content/Pages/news/us/en/2011/Dec/1227_safety.

A safety philosophy that **RUNS DEEP**

BEFORE

What's the best safety philosophy? Avoid a collision in the first place. That's why we've equipped Impala with advanced safety systems like the **STABILITRAK ELECTRONIC STABILITY CONTROL SYSTEM** with **TRACTION CONTROL**. On slippery surfaces, StabiliTrak helps you stay the course by detecting the difference between the path being steered and the direction the vehicle is actually going. It then uses the brakes and, if necessary, adjusts engine torque to help you keep your Impala on track. What's more, **FOUR-WHEEL ANTILOCK BRAKES** help maintain control and stability during hard braking, by preventing wheel lockup. Other advancements you can count on, including **DAYTIME RUNNING LAMPS** and a **TIRE PRESSURE MONITOR**,[1] are just some of the forward-thinking ways we try to help you avoid trouble on the road.

DURING

Sometimes, however, trouble finds you. And if a moderate to severe collision does happen, Impala is designed to respond quickly. Sensors throughout the vehicle determine how many of the **SIX STANDARD AIR BAGS**[2]—including head-curtain side-impact air bags—deploy. Adding to this protection, the cabin is reinforced with **HIGH-STRENGTH STEEL** throughout. Meanwhile, front and rear "crush zones" are designed to compress in a controlled manner, helping absorb and channel energy away from the cabin and engine. But our protective measures don't end there.

AFTER

Should a collision occur, crucial information can be instantly relayed to the OnStar command center via **ONSTAR AUTOMATIC CRASH RESPONSE**.[3] There, trained OnStar Advisors utilize GPS technology to pinpoint your exact location and can request that assistance be sent right away—even if you're unable to respond. It's part of **ONSTAR DIRECTIONS & CONNECTIONS**,[3] standard for six months, which also includes **STOLEN VEHICLE ASSISTANCE**, **REMOTE DOOR UNLOCK** and **REMOTE HORN AND LIGHTS**. All this because nothing is more important than your safety.

452. New GM's brochure for the 2012 Cadillac CTS states "At Cadillac, we believe the best way to survive a collision is to avoid one in the first place." It goes on to say "Active safety begins with a responsive engine, powerful brakes, and an agile suspension."[164]

[163] https://www.chevrolet.com/content/dam/Chevrolet/northamerica/usa/nscwebsite/en/Home/Help%20Center/Download%20a%20Brochure/02_PDFs/2012_Impala_eBrochure.pdf.

[164] https://www.auto-brochures.com/makes/Cadillac/CTS/Cadillac_US%20CTS_2012.pdf.

453. On January 3, 2012, Gay Kent, New GM Executive Director of Vehicle Safety, was quoted on New GM's website as saying: "From the largest vehicles in our lineup to the smallest, we are putting overall crashworthiness and state-of-the-art safety technologies at the top of the list of must-haves."[165]

454. An online national ad campaign for New GM in April 2012 stressed "Safety. Utility. Performance."

455. On June 5, 2012, New GM posted an article on its website announcing that its Malibu Eco had received top safety ratings from the National Highway Traffic Safety Administration and the Insurance Institute for Highway Safety. The article includes the following quotes: "With the Malibu Eco, Chevrolet has earned seven 2012 TOP SAFETY PICK awards," said IIHS President Adrian Lund. "The IIHS and NHTSA results demonstrate GM's commitment to state-of-the-art crash protection." And "We are now seeing the results from our commitment to design the highest-rated vehicles in the world in safety performance," said Gay Kent, New GM executive director of Vehicle Safety. "Earning these top safety ratings demonstrates the strength of the Malibu's advanced structure, overall crashworthiness and effectiveness of the vehicle's state-of-the-art safety technologies."[166]

456. On June 5, 2012, New GM posted an article on its website entitled "Chevrolet Backs New Vehicle Lineup with Guarantee," which included the following statement: "We have transformed the Chevrolet lineup, so there is no better time than now to reach out to new customers with the love it or return it guarantee and very attractive, bottom line pricing," said Chris Perry, Chevrolet global vice president of marketing. "We think customers who have been driving competitive makes or even older Chevrolets will be very pleased by today's

[166] https://media.gm.com/media/us/en/gm/news.detail../content/Pages/news/us/en/2012/Jun/0605_malibu safety.

Chevrolet designs, easy-to-use technologies, comprehensive safety and the quality built into all of our cars, trucks and crossovers."[167]

457. On November 5, 2012, New GM published a video to advertise its "Safety Alert Seat" and other safety sensors. The video described older effective safety systems and then added that new systems "can offer drivers even more protection." Then, a Cadillac Safety Engineer stated there "are a variety of crash avoidance sensors that work together to help the driver avoid crashes." Finally, the engineer then discussed all the sensors and the safety alert seat on the Cadillac XTS, leaving the viewer with the impression safety was a top priority at Cadillac.[168]

458. New GM's brochure for the 2013 Chevrolet Traverse states "Traverse provides peace of mind with an array of innovative safety features" and "[i]t helps protect against the unexpected."[169]

[167] https://media.gm.com/media/us/en/gm/news.detail../content/Pages/news/us/en/2012/Jul/0710_ confidence.

[169] https://www.auto-brochures.com/makes/Chevrolet/Traverse/Chevrolet_US%20Traverse_2013.pdf.

459. A national print ad campaign in April 2013 states that "[w]hen lives are on the line, you need a dependable vehicle you can rely on. Chevrolet and GM … for power, performance and safety."

460. On November 8, 2013, New GM posted a press release on its website regarding GMC, referring to it as "one of the industry's healthiest brands":[170]

About GMC

GMC has manufactured trucks since 1902, and is one of the industry's healthiest brands. Innovation and engineering excellence is built into all GMC vehicles and the brand is evolving to offer more fuel-efficient trucks and crossovers, including the Terrain small SUV and Acadia crossover. The 2014 Sierra half-ton pickup boasts all-new powertrains and design, and the Sierra Heavy Duty pickups are the most capable and powerful trucks ever built by GMC. Every retail GMC model, including Yukon and Yukon XL full-size SUVs, is now available in Denali luxury trim. Details on all GMC models are available at http://www.gmc.com/, on Twitter at @thisisgmc or at http://www.facebook.com/gmc.

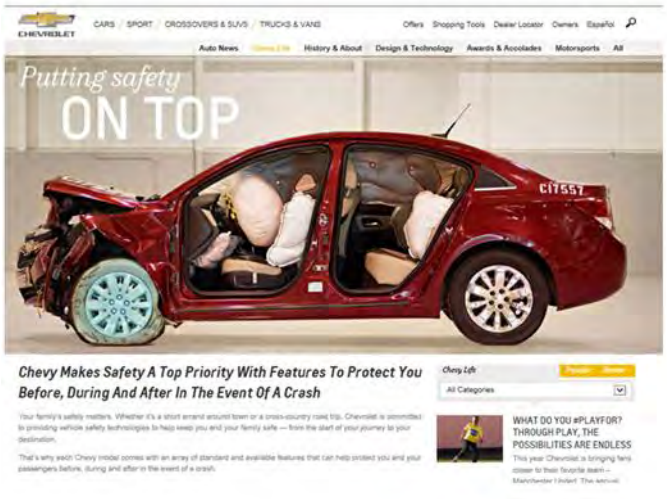
461. A December 2013 New GM testimonial ad stated that "GM has been able to deliver a quality product that satisfies my need for dignity and safety."

[170] https://media.gm.com/media/us/en/gm/news.detail../content/Pages/news/us/en/2013/Nov/1108-truck-lightweighting.

462. In 2013, New GM proclaimed on its website, https://www.gm.com, the company's passion for building and selling the world's best vehicles as "the hallmark of our customer-driven culture":[171]

463. On the same website in 2013, New GM stated: "At GM, it's about getting everything right for our customers – from the way we design, engineer and manufacture our vehicles, all the way through the ownership experience."[172]

464. On its website, Chevrolet.com, New GM promises that it is "Putting safety ON TOP," and that "Chevy Makes Safety a Top Priority":[173]



465. On its website, Buick.com, New GM represents that "Keeping you and your family safe is a priority":[174]

TOP 5 INNOVATIVE VEHICLE SAFETY FEATURES FROM BUICK

Innovative car safety features are usually high on the list of must-haves when selecting a new car and expectations are even higher when it comes to purchasing a luxury vehicle. Buick delivers with great advancements in vehicle safety technology, giving you greater awareness of your surroundings, greater control over your vehicle, and even alerts to any potential trouble before it happens. Such vehicle safety features are available or standard in all current Buick luxury sedans and luxury crossover SUVs.

Sometimes, when you're backing up, you can't always see your surroundings with absolute clarity. Such blind spots can leave you open to the possibility of backing into a potentially dangerous situation. The state-of-the-art Rear Cross Traffic Alert, on the Verano with the available Convenience Group, was developed to alert you to any approaching vehicles or pedestrians within 65 feet of your vehicle. Like the blind zones that may impede visibility when backing up, there can be blind spots on the sides. Many drivers have had the experience of being surprised by another vehicle in a blind spot alongside when intending to change lanes. To reduce this potential danger, Side Blind Zone Alert was created. Available in the Enclave luxury SUV and Lacrosse luxury AWD mid-size sedan models, this feature uses radar to sense vehicles that are in your blind spot and alerts you to their presence. Driving on slick or loose surfaces, you run the risk of losing grip of the road and losing control. In recent years, extremely sophisticated traction and vehicle control systems have developed to give you greater car control. Continuously monitoring how much grip your tires have, traction control comes standard in Enclave, Lacrosse, Verano, and Regal models to transfer power to the wheel with the most grip. In the event that your car is not adequately responding to your steering commands, StabiliTrak detects the difference between the steering wheel angle and the direction you are turning, then applies quick, precise force to the appropriate brakes to help you maintain control the vehicle's direction and help keep it on course.

There are certain situations on the road in which events unfold more quickly than we might first be aware. Luckily, one of the newest available car safety features is Forward Collision Alert. Using cameras mounted on the front of the vehicle, your Buick can alert you to a possible collision threat so you can take action to reduce the risk of having a frontal crash.

Lastly, one of the most unique new car safety features is a system that helps you stay between the lines. There are some instances when we may start to drift out of our lane. Using onboard cameras, the Lane Departure Warning system gives you a visual and audible alert if it senses you are moving from your lane without using your turn signal. The system constantly monitors lane markings on the road and helps you to be aware and stay safe.

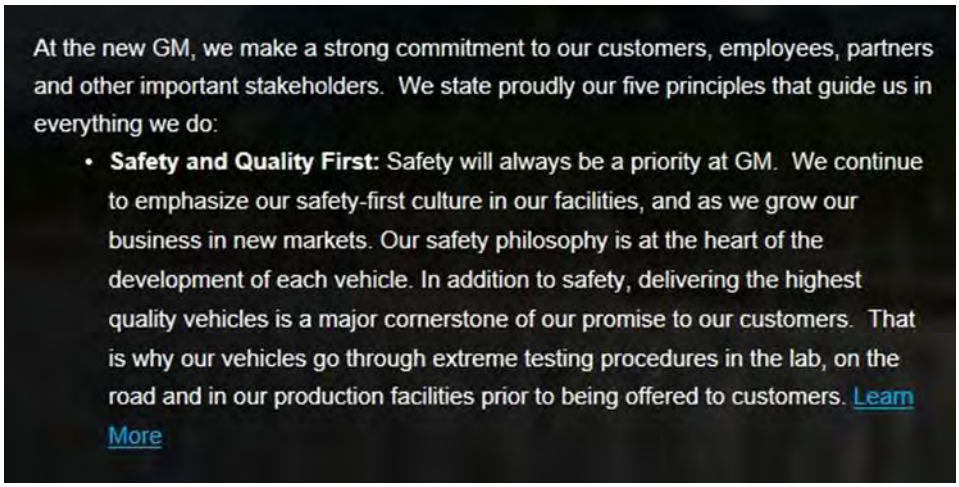
Keeping you and your family safe is a priority and Buick is committed to this priority through the delivery of innovative safety technologies. Discover all the reasons why Buick luxury vehicles are considered some of the most advanced on the road and begin demanding more from your luxury car.

466. New GM's website currently states:[175]

> *Innovation: Quality & Safety; GM's Commitment to Safety; Quality and safety are at the top of the agenda at GM, as we work on technology improvements in crash avoidance and crashworthiness to augment the post-event benefits of OnStar, like advanced automatic crash notification.*
>
> *Understanding what you want and need from your vehicle helps GM proactively design and test features that help keep you safe and enjoy the drive. Our engineers thoroughly test our vehicles for durability, comfort, and noise minimization before you think about them. The same quality process ensures our safety technology performs when you need it.*

467. New GM's website further promises: Safety and Quality First: Safety will always be a priority at New GM. We continue to emphasize our safety-first culture in our facilities," and that, "[i]n addition to safety, delivering the highest quality vehicles is a major cornerstone of our promise to our customers".[176]

[175] https://www.gm.com/vision/quality_safety/gms_commitment_tosafety.
[176] https://www.gm.com/company/aboutGM/our_company.



468. New GM's current website states that "leading the way is our seasoned leadership team who set high standards for our company so that we can give you the best cars and trucks. This means that we are committed to delivering vehicles with compelling designs, flawless quality, and reliability, and leading safety, fuel economy and infotainment features… Safety and Quality First: Safety will always be a priority at New GM. We continue to emphasize our safety-first culture in our facilities, and as we grow our business in new markets. Our safety philosophy is at the heart of the development of each vehicle. In addition to safety, delivering the highest quality vehicles is a major cornerstone of our promise to our customers. That is why our vehicles go through extreme testing procedures in the lab, on the road and in our production facilities prior to being offered to customers."[177]

469. New GM is highly aware of the impact vehicle recalls, and their timeliness, have on its brand image. In its 2010 Form 10-K submitted to the United States Securities and Exchange Commission ("SEC"), New GM admitted that "Product recalls can harm our reputation and cause us to lose customers, particularly if those recalls cause consumers to question the safety or reliability of our products. Any costs incurred or lost sales caused by

[177] https://www.gm.com/company/aboutGM/our_company.

future product recalls could materially adversely affect our business. Conversely, not issuing a recall or not issuing a recall on a timely basis can harm our reputation and cause us to lose customers…" General Motors 2010 Form 10-K, p. 31.[178]

470. In its 2011 10-K SEC filing, New GM stated "We are a leading global automotive company. Our vision is to design, build and sell the world's best vehicles. We seek to distinguish our vehicles through superior design, quality, reliability, telematics (wireless voice and data) and infotainment and safety within their respective segments." General Motors 2011 Form 10-K, p. 50.[179]

471. New GM's relentlessly repeated and reinforced product quality and safety representations were not mere harmless "puffery." New GM made these and similar representations to boost vehicle sales while knowing the starkly contrasting truth that millions of GM-branded vehicles, across numerous models and years, were plagued with serious and concealed safety defects that were putting its customers, their passengers, and all those who shared the road with its Defective Vehicles at constant risk of crashes, injury and death.

C. New GM Concealed And Disregarded Safety Issues As A Way Of Doing Business.

472. Ever since its inception, New GM possessed vastly superior knowledge and information to that of consumers – if not exclusive information – about the design and function of GM-branded vehicles and the existence of the defects in those vehicles.

473. Recently revealed information presents a disturbing picture of New GM's approach to safety issues – both in the design and manufacture stages, and in discovering and responding to defects in GM-branded vehicles that have already been sold.

[178] https://www.sec.gov/Archives/edgar/data/1467858/000119312510078119/d10k.htm#toc85733_4.
[179] https://www.sec.gov/Archives/edgar/data/1467858/000119312511051462/d10k.htm.

474. New GM made very clear to its personnel that cost-cutting was more important than safety, deprived its personnel of necessary resources for spotting and remedying defects, trained its employees not to reveal known defects, and rebuked those who attempted to "push hard" on safety issues.

475. One "directive" at New GM was "cost is everything."[180] The messages from top leadership at New GM to employees, as well as their actions, were focused on the need to control cost.[181]

476. One New GM engineer stated that emphasis on cost control at New GM "permeates the fabric of the whole culture."[182]

477. According to Mark Reuss (President of GMNA from 2009-2013 before succeeding Mary Barra as Executive Vice President for Global Product Development, Purchasing and Supply Chain in 2014), cost and time-cutting principles known as the "Big 4" at New GM "emphasized timing over quality."[183]

478. New GM's focus on cost-cutting created major disincentives to personnel who might wish to address safety issues. For example, those responsible for a vehicle were responsible for its costs, but if they wanted to make a change that incurred cost and affected other vehicles, they also became responsible for the costs incurred in the other vehicles.

479. As another cost-cutting measure, parts were sourced to the lowest bidder, even if they were not the highest quality parts.[184]

480. Because of New GM's focus on cost-cutting, New GM Engineers did not believe they had extra funds to spend on product improvements.[185]

[180] Valukas Report at 249.
[181] *Id*. at 250.
[182] *Id*.
[183] *Id*.
[184] *Id*. at 251.

481. New GM's focus on cost-cutting also made it harder for New GM personnel to discover safety defects, as in the case of the "TREAD Reporting team."

482. New GM used its TREAD database (known as "TREAD") to store the data required to be reported quarterly to NHTSA under the TREAD Act.[186] From the date of its inception in 2009, TREAD has been the principal database used by New GM to track incidents related to its vehicles.[187]

483. From 2003-2007 or 2008, the TREAD Reporting team had eight employees, who would conduct monthly searches and prepare scatter graphs to identify spikes in the number of accidents or complaints with respect to various GM-branded vehicles. The TREAD Reporting team reports went to a review panel and sometimes spawned investigations to determine if any safety defect existed.[188]

484. In or around 2007-08, Old GM cut its TREAD Reporting team from eight to three employees, and the monthly data mining process pared down.[189] In 2010, New GM restored two people to the team, but they did not participate in the TREAD database searches.[190] Moreover, until 2014, the TREAD Reporting team did not have sufficient resources to obtain any of the advanced data mining software programs available in the industry to better identify and understand potential defects.[191]

485. By starving the TREAD Reporting team of the resources it needed to identify potential safety issues, New GM helped to insure that safety issues would not come to light.

486. "[T]here was resistance or reluctance to raise issues or concerns in the GM culture." The culture, atmosphere and supervisor response at New GM "discouraged individuals from raising safety concerns."[192]

487. New GM CEO, Mary Barra, experienced instances where New GM engineers were "unwilling to identify issues out of concern that it would delay the launch" of a vehicle.[193]

488. New GM supervisors warned employees to "never put anything above the company" and "never put the company at risk."[194]

489. New GM "pushed back" on describing matters as safety issues and, as a result, "GM personnel failed to raise significant issues to key decision-makers."[195]

490. So, for example, and as set forth above, New GM discouraged the use of the word "stall" in Technical Service Bulletins ("TSBs") it sometimes sent to dealers because the word "stall" was a "hot" word that may raise concerns at NHTSA.[196]

491. Direct of Brand Quality Steven Oakley, who drafted TSBs, noted that "he was reluctant to push hard on safety issues because of his perception that his predecessor had been pushed out of the job for doing just that."[197]

492. Many New GM employees "did not take notes at all at critical safety meetings because they believed New GM lawyers did not want such notes taken."[198]

493. A New GM training document released by NHTSA as an attachment to its Consent Order sheds further light on the lengths to which New GM went to ensure that known

[192] *Id*. at 252.

[196] *Id*. at 92.
[197] *Id*.
[198] *Id*. at 254.

defects were concealed. It appears that the defects were concealed pursuant to a company policy New GM inherited from Old GM.

494. The document consists of slides from a 2008 Technical Learning Symposium for "designing engineers," "company vehicle drivers," and other employees at Old GM. On information and belief, the vast majority of employees who participated in this webinar presentation continued on in their same positions at New GM after July 10, 2009.

495. The presentation focused on recalls, and the "reasons for recalls."

496. One major component of the presentation was captioned "Documentation Guidelines," and focused on what employees should (and should not say) when describing problems in vehicles.

497. Employees were instructed to "[w]rite smart," and to "[b]e factual, not fantastic" in their writing.

498. Company vehicle drivers were given examples of comments to avoid, including the following: "This is a safety and security issue"; "I believe the wheels are too soft and weak and could cause a serious problem"; and "Dangerous … almost caused accident."

499. In documents used for reports and presentations, employees were advised to avoid a long list of words, including: "bad," "dangerous," "defect," "defective," "failed," "flawed," "life-threatening," "problem," "safety," "safety-related," and "serious."

500. As NHTSA's Acting Administrator Friedman noted at the May 16, 2014, press conference announcing the Consent Order concerning the ignition switch defect, it was New GM's company policy to avoid using words that might suggest the existence of a safety defect:

> *GM must rethink the corporate philosophy reflected in the documents we reviewed, including training materials that explicitly discouraged employees from using words like 'defect,' 'dangerous,' 'safety related,' and many more essential terms for engineers and investigators to clearly communicate up the chain when they suspect a problem.'*

501. New GM appears to have trained its employees to conceal the existence of known safety defects from consumers and regulators. Indeed, it is nearly impossible to convey the potential existence of a safety defect without using the words "safety" or "defect" or similarly strong language that was verboten at New GM.

502. So institutionalized at New GM was the "phenomenon of avoiding responsibility" that the practice was given a name: "the 'GM salute,'" which was "a crossing of the arms and pointing outward towards others, indicating that the responsibility belongs to someone else, not me."[199]

503. CEO Mary Barra described a related New GM phenomenon, "known as the 'GM nod,'" which was "when everyone nods in agreement to a proposed plan of action, but then leaves the room with no intention to follow through, and the nod is an empty gesture."[200]

504. According to the New GM Report prepared by Anton R. Valukas, part of the failure to properly correct the ignition switch defect was due to problems with New GM's organizational structure.[201] Part of the failure to properly correct the ignition switch defect was due to a corporate culture that did not care enough about safety.[202] Part of the failure to properly correct the ignition switch defect was due to a lack of open and honest communication with NHTSA regarding safety issues.[203] Part of the failure to properly correct

[199] GM Report at 255.
[200] *Id*. at 256.
[201] *Id*. at 259-260.
[202] *Id*. at 260-61.
[203] *Id*. at 263.

the ignition switch defect was due to improper conduct and handling of safety issues by lawyers within New GM's Legal Staff.[204] On information and belief, all of these issues also helped cause the concealment of and failure to remedy the many defects that have led to the spate of recalls in the first half of 2014.

505. An automobile manufacturer has a duty to promptly disclose and remedy defects. New GM knowingly concealed information about material safety hazards from the driving public, its own customers, and the Class, thereby allowing unsuspecting vehicle owners and lessees to continue unknowingly driving patently unsafe vehicles which posed a mortal danger to themselves, their passengers and loved ones, other drivers, and pedestrians.

506. Not only did New GM take far too long in failing to address or remedy the defects, it deliberately worked to cover-up, hide, omit, fraudulently conceal and/or suppress material facts from the Class who relied upon it to the detriment of the Class.

D. New GM Admitted Its Failure To Disclose The Defects In Its Vehicle, Attempting To Reassure The Public That It Can Now Be Trusted.

507. Consistent with its CEO's contrition, GM has once again embarked on a public campaign to convince the public that, this time, it has sincerely reformed.

508. On February 25, 2014, New GM North America President, Alan Batey, publically stated: "Ensuring our customers' safety is our first order of business. We are deeply sorry and we are working to address this issue as quickly as we can."[205]

509. In a press release on March 18, 2014 New GM announced that Jeff Boyer had been named to the newly created position of Vice President, Global Vehicle Safety. In the press release New GM quoted Mr. Boyer as stating that: "Nothing is more important than the

[204] *Id*. at 264.
[205] https://media.gm.com/media/us/en/gm/news.detail../content/Pages/news/us/en/2014/Feb/0225-ion.

safety of our customers in the vehicles they drive. Today's GM is committed to this, and I'm ready to take on this assignment."[206]

510. On May 13, 2014, New GM published a video to defend its product and maintain that the ignition defect will never occur when only a single key is used. Jeff Boyer, New GM Vice President of Global Vehicle Safety, addressed viewers and told them New GM's Milford Proving Ground is "the largest and most comprehensive testing facilities in the world." He told viewers that if you use a New GM single key that there is no safety risk.[207]

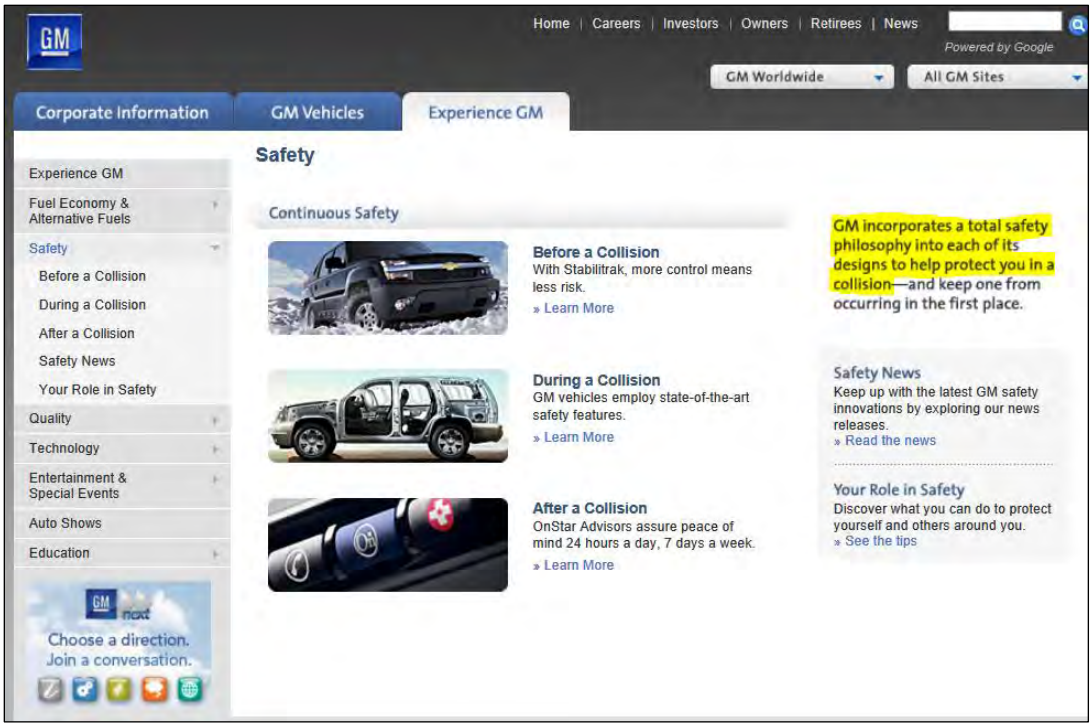
511. As of July 2014, New GM continues to praise its safety testing. It published a video entitled "90 Years of Safety Testing at New GM's Milford Proving Ground." The narrator describes New GM's testing facility as "one of the world's top automotive facilities" where data is "analyzed for customer safety." The narrator concludes by saying, "[o]ver the past ninety years one thing remained unchanged, GM continues to develop and use the most advanced technologies available to deliver customers the safest vehicles possible."[208]

[206] https://media.gm.com/media/us/en/gm/news.detail../content/Pages/news/us/en/2014/mar/0318-boyer.
[207] https://www.youtube.com/watch?v=rXO7F3aUBAY.
[208] https://www.youtube.com/watch?v=BPQdlJZvZhE&list=UUxN-Csvy_9sveql5HJviDjA.

512. On July 31, 2014, Jack Jensen, the New GM engineering group manager for the "Milford Proving Ground" dummy lab, told customers that "[w]e have more sophisticated dummies, computers to monitor crashes and new facilities to observe different types of potential hazards. All those things together give our engineers the ability to design a broad range of vehicles that safely get our customers where they need to go."[209]

513. As discussed in this Complaint, these most recent statements from New GM contrast starkly with New GM's wholly inadequate response to remedy the defects in its vehicles, such as the ignition switch defect.

[209] https://media.gm.com/media/us/en/gm/news.detail../content/Pages/news/us/en/2014/Jul/0731-mpg.



XII. Other Recently Revealed Information Demonstrates New GM's Widespread Ongoing Pattern Of Concealing Dangerous Defects In GM-Branded Vehicles That Has Caused Diminution in the Value of the Defective Vehicles.

514. Other recently-revealed information suggests that Old and New GM's egregious mishandling of the ignition switch defects is part of a pattern of concealing dangerous known defects in Old and New GM vehicles.

515. That pattern of conduct, together with the ever-expanding and piecemeal nature of the recall, calls into further question whether New GM is to be trusted when it claims that simply replacing the ignition switch (in some Defective Vehicles) and providing new keys for others, will fully resolve the myriad of issues faced by Defective Vehicle owners as a result of the ignition switch defects.

516. The defects identified in the myriad recalls of 2014 affect virtually every safety system in GM-branded vehicles, including but by no means limited to the airbags, power

steering, power brakes, and seat belts, as discussed below, and are discussed here to illustrate the extent of Old and New GM's pattern of faulty processes and concealment of known defects to the detriment of consumers and public safety.

A. The Ignition Lock Cylinder Defect.

517. As discussed briefly in previous sections, on April 9, 2014, New GM recalled 2,191,014 GM-branded vehicles with faulty ignition lock cylinders.[210] Though the vehicles are the same as those affected by the ignition switch torque defect,[211] the lock cylinder defect is distinct.

518. In these vehicles, faulty ignition lock cylinders can allow removal of the ignition key while the engine is not in the "off" position. If the ignition key is removed when the ignition is not in the "off" position, unintended vehicle motion may occur. That could cause a crash and injury to the vehicle's occupants or pedestrians. Some of the vehicles with faulty ignition lock cylinders may fail to conform to Federal Motor Vehicle Safety Standard number 114, "*Theft Prevention and Rollaway Prevention*."[212]

519. According to New GM's Chronology that it submitted to NHTSA on April 23, 2014, the ignition lock cylinder defect arose out of New GM's notorious recalls for defective ignition switch systems in the Chevrolet Cobalt, Chevrolet HHR, Pontiac G5, Pontiac Solstice, Saturn ION, and Saturn Sky vehicles. Those three recalls occurred in February and March of 2014.[213]

[210] New GM Letter to NHTSA dated April 9, 2014.
[211] Namely, MY 2005-2010 Chevrolet Cobalts, 2006-2011 Chevrolet HHRs, 2007-2010 Pontiac G5s, 2003-2007 Saturn Ions, and 2007-2010 Saturn Skys. *See id.*
[212] New GM Notice to NHTSA dated April 9, 2014, at 1.
[213] *See* Attachment B to New GM's letter to NJTSA dated April 23, 2014 ("Chronology").

520. In late February or March 2014, New GM personnel participating in the ignition switch recalls observed that the keys could sometimes be removed from the ignition cylinders when the ignition was not in the "off" position. This led to further investigation.

521. After investigation, New GM's findings were presented at an EFADC meeting on April 3, 2014. New GM noted several hundred instances of potential key pullout issues in vehicles covered by the previous ignition switch recalls, and specifically listed 139 instances identified from records relating to customer and dealer reports to GM call centers, 479 instances identified from warranty repair data, one legal claim, and six instances identified from NHTSA VOQ information. New GM investigators also identified 16 roll-away instances associated with the key pullout issue from records relating to customer and dealer reports to GM call centers and legal claims information.

522. New GM noted that excessive wear to ignition tumblers and keys may be the cause of the key pullout issue. New GM also considered the possibility that some vehicles may have experienced key pullout issues at the time they were manufactured, based on information that included the following: (a) a majority of instances of key pullouts that had been identified in the recall population were in early-year Saturn Ion and Chevrolet Cobalt vehicles, and in addition, repair order data indicated vehicles within that population had experienced a repair potentially related to key pullout issues as early as 47 days from the date on which the vehicle was put into service; and (b) an engineering inquiry known within New GM as a Problem Resolution Tracking System inquiry ("PRTS") related to key pullout issues was initiated in June 2005, which resulted in an engineering work order to modify the ignition cylinder going forward.

523. A majority of the key pullout instances identified involved 2003-2004 model year Saturn Ion and 2005 model year Chevrolet Cobalt vehicles. An April 3 New GM PowerPoint identified 358 instances of key pullouts involving those vehicles.

524. In addition, with respect to early-year Saturn Ion and Chevrolet Cobalt vehicles, the April 3 PowerPoint materials discussed the number of days that elapsed between the "In Service Date" of those vehicles (the date they first hit the road) and the "Repair Date." The April 3 PowerPoint stated that, with respect to the 2003 model year Saturn Ion, a vehicle was reported as experiencing a potential key pullout repair as early as 47 days from its "In Service Date;" with respect to the 2004 model year Saturn Ion, a vehicle was reported as experiencing a potential key pullout repair as early as 106 days from its "In Service Date;" with respect to the 2005 model year Chevrolet Cobalt, a vehicle was reported as experiencing a potential key pullout repair as early as 173 days from its "In Service Date;" and with respect to the 2006 model year Chevrolet Cobalt, a vehicle was reported as experiencing a potential key pullout repair as early as 169 days from its "In Service Date." The length of time between the "In Service Date" and the "Repair Date" suggested that these vehicles were defective at the time of manufacture.

525. The PowerPoint at the April 3 EFADC meeting also discussed a PRTS that was initiated in June 2005 which related to key pullout issues in the Chevrolet Cobalt (PRTS N 183836). According to PRTS N 183836: "Tolerance stack up condition permits key to be removed from lock cylinder while driving." The "Description of Root Cause Investigation Progress and Verification" stated, "[a]s noted a tolerance stack up exists in between the internal components of the cylinder." According to a "Summary," "A tolerance stack up condition exists between components internal to the cylinder which will allow some keys to

be removed." The PRTS identified the following "Solution": "A change to the sidebar of the ignition cylinder will occur to eliminate the stack-up conditions that exist in the cylinder."

526. In response to PRTS N 183836, New GM issued an engineering work order to ·"[c]hange shape of ignition cylinder sidebar top from flat to crowned."

527. According to the work order: "Profile and overall height of ignition cylinder sidebar [will be] changed in order to assist in preventing key pullout on certain keycodes. Profile of sidebar to be domed as opposed to flat and overall height to be increased by 0.23mm."

528. According to PRTS N 183836, this "solution fix[ed] the problem" going forward. An entry in the PRTS made on March 2, 2007 stated: "There were no incidents of the key coming out of the ignition cylinder in the run position during a review of thirty vehicles…." A "Summary" in the PRTS stated: "Because there were no incidents of the key coming out of the ignition cylinder in the run position during a review of thirty vehicles[,] this PRTS issue should be closed." PRTS N 183836 was the only PRTS discussed at the April 3, 2014, EFADC meeting, although it is not the only engineering or field report relating to potential key pullout issues.

529. This data led the EFADC to conclude that 2003-2004 model year Saturn Ion vehicles and 2005 and some 2006 model year Chevrolet Cobalt vehicles failed to conform to FMVSS 114. In addition, the EFADC concluded that a defect related to motor vehicle safety existed, and decided to recall all vehicles covered by the first, second, and third ignition switch torque recalls to prevent unintended vehicle motion potentially caused by key pullout issues that could result in a vehicle crash and occupant or pedestrian injuries. For vehicles that were built with a defective ignition cylinder that have not previously had the ignition cylinder

replaced with a redesigned part, the recall called for dealers to replace the ignition cylinder and provide two new ignition/door keys for each vehicle.

B. There Have Been Extensive Additional Recalls of GM-branded Vehicles With Additional Safety-Related and Other Defects.

530. **Sudden Power-Steering Failure Defect:** Between 2003 and 2010, over 1.3 million GM-branded vehicles in the United States were sold with a safety defect that causes the vehicle's electric power steering ("EPS") to suddenly fail during ordinary driving conditions and revert back to manual steering, requiring greater effort by the driver to steer the vehicle and increasing the risk of collisions and injuries.

531. The affected vehicles are MY 2004-2006 and 2008-2009 Chevrolet Malibu, 2004-2006 Chevrolet Malibu Maxx, 2009-2010 Chevrolet HHR, 2010 Chevrolet Cobalt, 2005-2006 and 2008-2009 Pontiac G6, 2004-2007 Saturn Ion, and 2008-2009 Saturn Aura vehicles.

532. As with the ignition switch defects and many of the other defects, New GM was aware of the power steering defect long before it took anything approaching full remedial action.

533. When the power steering fails, a message appears on the vehicle's dashboard, and a chime sounds to inform the driver. Although steering control can be maintained through manual steering, greater driver effort is required, and the risk of an accident is increased.

534. In 2010, New GM first recalled Chevy Cobalt and Pontiac G5 models for these power steering issues, yet it did *not* recall the many other vehicles that had the very same power steering defect.

535. Documents released by NHTSA show that New GM waited years to recall nearly 335,000 Saturn Ions for power-steering failure – despite receiving nearly 4,800

consumer complaints and more than 30,000 claims for warranty repairs. That translates to a complaint rate of 14.3 incidents per thousand vehicles and a warranty claim rate of 9.1 percent. By way of comparison, NHTSA has described as "high" a complaint rate of 250 complaints per 100,000 vehicles.[214] Here, the rate translates to 1,430 complaints per 100,000 vehicles.

536. In response to the consumer complaints, in September 2011, NHTSA opened an investigation into the power-steering defect in Saturn Ions.

537. NHTSA database records show complaints from Ion owners as early as June 2004, with the first injury reported in May 2007.

538. NHTSA has linked approximately 12 crashes and two injuries to the power-steering defect in the Ions.

539. In September 2011, after NHTSA began to make inquiries about the safety of the Saturn Ion, GM acknowledged that it had received almost 3,500 customer reports claiming a sudden loss of power steering in 2004-2007 Ion vehicles.

540. The following month, New GM engineer Terry Woychowski informed current CEO Mary Barra – then head of product development –that there was a serious power-steering issue in Saturn Ions, and that it may be the same power steering issue that plagued the Chevy Cobalt and Pontiac G5. Ms. Barra was also informed of the ongoing NHTSA investigation. At the time, NHTSA reportedly came close to concluding that Saturn Ions should have been included in New GM's 2010 steering recall of Cobalt and G5 vehicles.

541. Instead of recalling the Saturn Ion, GM sent dealers a service bulletin in May of 2012 identifying complaints about the steering system in the vehicle.

[214] *See* http://www-odi.nhtsa.dot.gov/cars/problems/defect/-results.cfm?action_number=EA06002&SearchType=QuickSearch&summary=true.

542. By the time GM finally recalled the Saturn Ion – four years later, in March 2014 - NHTSA had received more than 1200 complaints about the vehicle's power steering. Similar complaints resulted in over 30,000 warranty claims with GM.

543. After announcing the March 31, 2014 recall, Jeff Boyer, New GM's Vice President of Global Vehicle Safety, acknowledged that New GM recalled some of these same vehicle models previously for the *same issue*, but that New GM "did not do enough."

544. According to an analysis by the New York Times published on April 20, 2014, New GM has "repeatedly used technical service bulletins to dealers and sometimes car owners as stopgap safety measures instead of ordering a timely recall."

545. Former NHTSA head Joan Claybrook echoed this conclusion, stating, "There's no question that service bulletins have been used where recalls should have been."

546. NHTSA has recently criticized New GM for issuing service bulletins on at least four additional occasions in which a recall would have been more appropriate and in which New GM later, in fact, recalled the subject vehicles.

547. These inappropriate uses of service bulletins prompted Frank Borris, the top defect investigator for NHTSA, to write to New GM's product investigations director, Carmen Benavides, in July 2013, complaining that "GM is slow to communicate, slow to act, and, at times, requires additional effort . . . that we do not feel is necessary with some of [GM's] peers."

548. Mr. Borris' correspondence was circulated widely among New GM's top executives. Upon information and belief, the following employees received a copy: John Calabrese and Alicia Boler-Davis, two vice presidents for product safety; Michael Robinson, vice president of regulatory affairs; Jim Federico; Gay Kent, director of product investigations

who had been involved in safety issues with the Cobalt since 2006; and William Kemp, an in-house product liability lawyer.

549. **Ignition Lock Cylinder Defect:** On August 7, 2014, New GM recalled 202,155 MY 2002-2004 Saturn Vue vehicles.[215] In the affected vehicles, the ignition key can be removed when the vehicle is not in the "off" position.[216] If this happens, the vehicle can roll away, increasing the risk for a crash and occupant or pedestrian injuries.[217]

550. Following New GM's April 9, 2014 recall announcement regarding ignition switch defects, New GM reviewed field and warranty data for potential instances of ignition cylinders that permit the operator to remove the ignition key when the key is not in the "off" position in other vehicles outside of those already recalled.[218] New GM identified 152 reports of vehicle roll away and/or ignition keys being removed when the key is not in the "off" position in the 2002-2004 MY Saturn Vue vehicles.[219]

551. After reviewing this data with NHTSA on June 17, 2014, July 7, 2014, and July 24, 2014, GM instituted a safety recall on July 31, 2014.[220]

552. **Safety Defects of the Airbag Systems – Wiring Harness Defect:** On March 17, 2014, New GM recalled nearly 1.2 million vehicles for a dangerous defect involving airbags and seatbelt pretensioners that caused them to fail to deploy, increasing the risk of injury and death to the drivers and front-seat passengers.

553. Once again, N of the dangerous airbag defect long before it took anything approaching the requisite remedial action. Indeed, the problem apparently arose when Old

[215] *See* August 7, 2014 Letter from New GM to NHTSA.
[216] *Id.*
[217] *Id.*
[218] *Id.*
[219] *Id.*
[220] *Id.*

GM made the change from using gold-plated terminals to connect its wire harnesses to cheaper tin terminals in 2007.

554. In June 2008, Old GM noticed increased warranty claims for airbag service on certain of its vehicles and determined it was due to increased resistance in airbag wiring. After analysis of the tin connectors in September 2008, Old GM determined that corrosion and wear to the connectors was causing the increased resistance in the airbag wiring. It released a technical service bulletin on November 25, 2008, for 2008-2009 Buick Enclaves, 2009 Chevy Traverse, 2008-2009 GMC Acadia, and 2008-2009 Saturn Outlook models, instructing dealers to repair the defect by using Nyogel grease, securing the connectors, and adding slack to the line. Old GM also began the transition back to gold-plated terminals in certain vehicles. At that point, Old GM suspended all investigation into the defective airbag wiring and took no further action.[221]

555. In November 2009, New GM learned of similar reports of increased airbag service messages in 2010 Chevy Malibu and 2010 Pontiac G6 vehicles. After investigation, New GM concluded that corrosion and wear in the same tin connector was the root of the airbag problems in the Malibu and G6 models.[222]

556. In January 2010, after review of the Malibu and G6 airbag connector issues, New GM concluded that ignoring the service airbag message could increase the resistance such that an SIAB might not deploy in a side impact collision. On May 11, 2010, New GM issued a Customer Satisfaction Bulletin for the Malibu and G6 models and instructed dealers

[221] *See* New GM Notification Campaign No. 14V-118 dated March 31, 2014, at 1-2.
[222] *Id.* at 2.

to secure both front seat-mounted, side-impact airbag wire harnesses and, if necessary, reroute the wire harness.[223]

557. From February to May 2010, New GM revisited the data on vehicles with faulty harness wiring issues, and noted another spike in the volume of the airbag service warranty claims. This led New GM to conclude that the November 2008 bulletin was "not entirely effective in correcting the [wiring defect present in the vehicles]." On November 23, 2010, New GM issued another Customer Satisfaction Bulletin for certain 2008 Buick Enclave, 2008 Saturn Outlook, and 2008 GMC Acadia models built from October 2007 to March 2008, instructing dealers to secure SIAB harnesses and re-route or replace the SIAB connectors.[224]

558. New GM issued a revised Customer Service Bulletin on February 3, 2011, requiring replacement of the front seat-mounted side-impact airbag connectors in the same faulty vehicles mentioned in the November 2010 bulletin. In July 2011, New GM again replaced its connector, this time with a Tyco-manufactured connector featuring a silver-sealed terminal.[225]

559. But in 2012, New GM noticed another spike in the volume of warranty claims relating to SIAB connectors in vehicles built in the second half of 2011. After further analysis of the Tyco connectors, it discovered that inadequate crimping of the connector terminal was causing increased system resistance. In response, New GM issued an internal bulletin for 2011-2012 Buick Enclave, Chevy Traverse, and GMC Acadia vehicles, recommending dealers repair affected vehicles by replacing the original connector with a new sealed connector.[226]

---

[223] *Id*.
[224] *See id.* at 3.
[225] *See id.*
[226] *See id.* at 4.

560. The defect was still uncured, however, because in 2013 New GM again noted an increase in service repairs and buyback activity due to illuminated airbag service lights. On October 4, 2013, New GM opened an investigation into airbag connector issues in 2011-2013 Buick Enclave, Chevy Traverse, and GMC Acadia models. The investigation revealed an increase in warranty claims for vehicles built in late 2011 and early 2012.[227]

561. On February 10, 2014, New GM concluded that corrosion and crimping issues were again the root cause of the airbag problems.228

562. New GM initially planned to issue a less-urgent Customer Satisfaction Program to address the airbag flaw in the 2010-2013 vehicles. But it wasn't until a call with NHTSA on March 14, 2014, that New GM finally issued a full-blown safety recall on the vehicles with the faulty harness wiring – years after it first learned of the defective airbag connectors, after four investigations into the defect, and after issuing at least six service bulletins on the topic. The recall as first approved covered only 912,000 vehicles, but on March 16, 2014, it was increased to cover approximately 1.2 million vehicles.[229]

563. **Safety Defects of the Airbag Systems – Driver-side Airbag Shorting Bar Defect:** On June 5, 2014, New GM issued a safety recall of 38,636 vehicles with a driver's airbag shorting bar defect.

564. In the affected vehicles, the driver side frontal airbag has a shorting bar which may intermittently contact the airbag terminals. If the bar and terminals are contacting each other at the time of a crash, the airbag will not deploy, increasing the driver's risk of injury. New GM admits awareness of one crash with an injury where the relevant diagnostic trouble code was found at the time the vehicle was repaired. New GM is aware of other crashes

[227] *See id.*
[228] *See id.* at 5.
[229] *See id*.

involving these vehicles where airbags did not deploy but claims not to know if they were related to this defect.

565. N about the driver's airbag shorting bar defect in 2012. In fact, New GM conducted two previous recalls in connection with shorting bar defect condition involving 7,116 vehicles – one on October 31, 2012, and one on January 24, 2013.[230] Yet it would take New GM nearly two years to finally order a broader recall.

566. On May 31, 2013, after New GM's two incomplete recalls, NHTSA opened an investigation into reports of allegations of the non-deployment of air bags. New GM responded to this investigation on September 13, 2013.

567. On November 1, 2013, NHTSA questioned New GM about: (1) the exclusion of 390 vehicles which met the criteria for the two previous safety recalls; (2) the 30-day in-service cutoff used for the recall population of one previous recall; and (3) twelve additional build days which, as of the June 2013 data pull in the investigation, had an elevated warranty rate. In response to NHTSA's concerns, New GM added additional vehicles to the recall.

568. After announcement the initial ignition switch torque defect in February and March of 2014, New GM re-examined its records relating to the driver's airbag shorting defect. This review finally prompted New GM to expand the recall population on May 29, 2014 – ***long after the problem should have been remedied.***

569. **Safety Defects of the Airbag Systems – Driver-Side Airbag Inflator Defect:** On June 25, 2014, New GM recalled 29,019 vehicles with a driver-side airbag inflator defect.

570. In the affected vehicles, the driver's front airbag inflator may have been manufactured with an incorrect part. In the event of a crash necessitating deployment of the

[230] *See* New GM's Letters to NHTSA date 10/31/2012 and 1/24/2013, respectively.

driver-side airbag, the airbag's inflator may rupture and the airbag may not inflate. The rupture could cause metal fragments to strike and injure the vehicle's occupants. Additionally, if the airbag does not inflate, the driver will be at increased risk of injury.[231]

571. New GM was named in a lawsuit on or about May 1, 2014 involving a 2013 Chevrolet Cruze and an improperly deployed driver-side airbag that caused an injury to the driver.[232] The lawsuit prompted an inspection of "the case vehicle," the assignment of a New GM Product Investigations engineer, and discussions with NHTSA.[233]

572. Meanwhile, the airbag supplier, Takata Corporation/TK Holdings Inc., conducted its own analysis. New GM removed airbags with "build dates near the build date of the case vehicle," and sent them to Takata.[234] Subsequently, on June 20, 2014, Takata informed New GM it had "discovered [the] root cause" of the driver-side airbag defect through analysis of one of the airbags sent by New GM.[235]

573. Shortly thereafter, on June 23, 2014, New GM decided to conduct a safety recall.[236]

574. **Safety Defects of the Airbag Systems – Roof Rail Airbag Defect:** On June 18, 2014, New GM recalled 16,932 MY 2011 Cadillac CTS vehicles with a roof rail airbag defect.

575. In the affected vehicles, vibrations from the drive shaft may cause the vehicle's roll over sensor to command the roof rail airbags to deploy. If the roof rail airbags deploy unexpectedly, there is an increased risk of crash and injury to the occupants.[237]

---

[231] *See* New GM's Letter to NHTSA dated June 25, 2014.
[232] *Id.*
[233] *Id.*
[234] *Id.*
[235] *Id.*
[236] *Id.*

576. According to New GM, the defect is caused by a loss of grease from the center constant velocity (CV) joint; the loss of grease causes vibrations of the propeller shaft that are transferred to the roll over sensor in the vehicle floor above the shat. The vibrations can cause the deployment of the roof rail airbags.[238]

577. On October 28, 2010, a new supplier began shipping propeller shafts for MY 2011 Cadillac CTS vehicles; these propeller shafts used a metal gasket from the CV joint (as opposed to the liquid sealing system used by the previous supplier.).[239] *This new metal gasket design was not validated or approved by New GM.*[240]

578. On June 27, 2011, a Problem Resolution Tracking System (PRTS) was opened concerning this defect. The PRTS resulted in the "purge" of the metal gasket design.[241] Then, on August 1, 2011, New GM issued an Engineering Work Order banning the metal gasket design, and mandating the use of the liquid sealing system. Yet New GM "closed the investigation without action in October 2012**."**[242]

579. Inexplicably, New GM waited until June of 2014 before finally recalling the affected vehicles.

580. **Safety Defects of the Airbag Systems – Passenger-Side Airbag Defect:** On May 16, 2014, GM recalled 1,953 MY 2015 Cadillac Escalade and Escalade ESV vehicles with a passenger-side airbag defect.

581. The affected vehicles do not conform to Federal Motor Vehicle Safety Standard number 208, "Occupant Crash Protection." In these vehicles, the airbag module is

[240] *Id.*
[241] *Id.*
[242] *Id.*

secured to a chute adhered to the backside of the instrument panel with an insufficiently heated infrared weld. As a result, the front passenger-side airbag will only partially deploy in the event of crash, and this will increase the risk of occupant injury.[243]

582. On April 28, 2014, during product validation testing of the "Platinum" Escalade (a planned interim 2015 model), the passenger-side front airbag did not properly deploy.[244] New GM then obtained information from the supplier Johnson Controls Inc. (JCI) concerning the portion of the Escalade instrument panel through which the frontal airbag deploys.[245] In particular, New GM requested information on chute weld integrity.[246]

583. On May 13, 2014, JCI informed New GM engineering that it had modified its infrared weld process on April 2, 2014 and "corrected" that process on April 29, 2014. New GM claims that it was unaware of the changes until May 13, 2014.[247]

584. On May 14, 2014, the Executive Field Action Decision Committee decided to conduct a "noncompliance recall." On May 16, 2014, GM obtained a list of suspected serial numbers from JCI, which GM then matched to VINs through a records obtained from the scanning process used during instrument panel sub-assembly.[248] A recall notice was issued on May 16, 2014 for 1,953 vehicles, each of which will have the JCI part replaced.[249]

585. Subsequently, GM discovered errors in the scanning process, and decided to expand the recall population to include any VINs that could have received parts bearing the suspect JCI serial numbers.[250] GM therefore issued a second recall notice on May 27, 2014.

---

[248] *Id.*
[249] *Id.*
[250] *Id.*

With respect to this second set of 885 vehicles, they will be inspected to see if they were made with JCI parts bearing suspect serial numbers. If they are, the part will be replaced.[251]

586. **Safety Defects of the Airbag Systems – Sport Seat Side-Impact Airbag Defect:** On June 18, 2014, New GM issued a safety recall for 712 MY 2014 Chevrolet Corvette vehicles with sport seat side-impact airbag defect.

587. The affected vehicles do not meet a Technical Working Group Side Airbag Injury Assessment Reference Value (IARV) specifications for protecting unbelted, out-of-position young children from injury. In a crash necessitating side impact airbag deployment, an unbelted, out-of-position three year old child may be at an increased risk of neck injury.

588. **Safety Defects of the Airbag Systems – Passenger-side Airbag Inflator Defect:** On June 5, 2014, New GM recalled 61 MY 2013 Chevrolet Spark and 2013 Buick Encore vehicles with a passenger side airbag inflator defect.

589. In the affected vehicles, because of an improper weld, the front passenger airbag end cap could separate from the airbag inflator. This can prevent the airbag from deploying properly, and creates an increased risk of injury to the front passenger.[252]

590. New GM was alerted to this issue on July 10, 2013, when a customer brought an affected vehicle into a dealership with "an airbag readiness light 'ON' condition."[253] After replacing the side frontal airbag, the dealer shipped the original airbag to New GM for warranty analysis.

591. In September 2013, New GM "noted" the "weld condition of the end cap." New GM then sent the airbag to the airbag supplier, S&T Motive, who sent it on to the

[251] *Id.*
[252] *See* June 5, 2014 Letter from New GM to NHTSA.
[253] *Id.*

inflator supplier, ARC Automotive Inc., for "root cause" analysis.[254] S&T and ARC did not conclude their analysis until April 2014. [255]

592. Based upon the information provided by S&T and ARC, in May 2014 New GM Engineering linked the defect to inflators produced on December 17, 2012. ARC records show that on that date, an inflator end cap separated during testing, but that ARC nonetheless shipped quarantined inflators to S&T where they were used in passenger side frontal airbags beginning on December 29, 2012.[256]

593. On May 29, 2014 – nearly one year after being presented with a faulty airbag – New GM's Safety Field Action Committee finally decided to conduct a safety recall. [257]

594. **Safety Defects of the Airbag Systems – Front Passenger Airbag Defect:** On March 17, 2014, New GM issued a noncompliance recall of 303,013 MY 2009-2014 GMC Savana vehicles with a passenger-side instrument panel defect. [258]

595. In the affected vehicles, in certain frontal impact collisions below the airbag deployment threshold, the panel covering the airbag may not sufficiently absorb the impact of the collision. These vehicles therefore do not meet the requirements of Federal Motor Vehicle Safety Standard number 201, "Occupant Protection in Interior Impact."[259]

596. The defect apparently arose in early 2009, when the passenger-side airbag housing was changed from steel to plastic.[260] Inexplicably, New GM did not act to remedy this defect until March of 2014.

---

[259] *Id.*
[260] *Id.*

597. **Safety Defects of the Seat Belt Systems – Seat Belt Connector Cable**

Defect: On May 20, 2014, New GM issued a safety recall for nearly 1.4 million vehicles with a dangerous safety belt defect.

598. In the affected vehicles, "[t]he flexible steel cable that connects the safety belt to the vehicle at the outside of the front outside of the front outboard seating positions can fatigue and separate over time as a result of occupant movement into the seat. In a crash, a separated cable could increase the risk of injury to the occupant."[261]

599. New GM waited more than two years after learning about this defect before disclosing it or remedying it. [262] This delay is consistent with New GM's long period of concealment of the other defects as set forth above.

600. New GM first learned of the seat belt defect no later than February 10, 2012, when a dealer reported that a seat belt buckle separated from the anchor at the attaching cable in a 2010 GMC Acadia.[263] On March 7, 2012, after notification and analysis of the returned part, the supplier determined the problem was caused by fatigue of the cable.[264]

601. On April 20, 2012, New GM received another part exhibiting the defect from a dealership.[265] New GM also did a warranty analysis that turned up three additional occurrences of similar complaints.[266] But New GM did not order a field review until June 4, 2012.[267] The review, on June 11, 2012, covered just 68 vehicles, and turned up no cable damage.[268]

[261] *See* New GM Notice to NHTSA dated May 19, 2014, at 1.
[262] *See* New GM Notice to NHTSA dated May 30, 2014, at 1-3.
[263] *Id.* at 1.
[264] *Id.* at 2.
[265] *Id.*
[266] *Id.*
[267] *Id.*
[268] *Id.*

602. New GM received another part exhibiting the defect on August 28, 2013, from GM Canada Product Investigations.[269] After further testing in October 2013, New GM duplicated the defect condition, determining that, in some seat positions, the sleeve can present the buckle in a manner that can subject the cable to bending during customer entry into the vehicle.[270] New GM duplicated the condition again in a second vehicle in November, 2013.[271] And then just a month later, on December 18, 2013, New GM received another part exhibiting the condition from GM Canada Product Investigations.[272] But still New GM did not issue a safety recall.

603. Further testing between February and April 2014, confirmed the defect resulted from fatigue of the cable.[273] This was the same root cause New GM identified as early as March 7, 2012. Finally, on April 14, 2014, these findings were turned over to New GM Product Investigations and assigned an investigation number.[274]

604. On May 19, 2014, New GM's Executive Field Action Decision Committee decided to conduct a recall of the affected vehicles.[275]

605. **Safety Defects of the Seat Belt Systems – Seat Belt Retractor Defect:** On June 11, 2014, New GM recalled 28,789 MY 2004-2011 Saab 9-3 Convertible vehicles with a seatbelt retractor defect.

606. In the affected vehicles, the driver's side front seat belt retractor may break, causing the seat belt webbing spooled out by the user not to retract.[276] In the event of a crash,

[269] *Id.*

[276] *See* New GM's June 11, 2013 Letter to NHTSA.

a seat belt that has not retracted may not properly restrain the seat occupant, increasing the risk of injury to the driver.[277]

607. By September of 2009 New GM was aware of an issue with seatbelt retractors in MY 2004 Saab 9-3 vehicles; at that time, NHTSA informed New GM that it received 5 Vehicle Owner Questionnaires "alleging that the driver seat belt will no longer retract on 2004 Saab 0-3 vehicles built after September 30, 2003."[278] In December 2009-January 2010, New GM conducted a survey "of customers who had a retractor replaced to determine how many were due" to a break in the Automatic Tensioning System that causes "webbing spooled out by the user not to retract."[279]

608. On February 9, 2010, New GM issued a recall for the driver side retractor, but only in certain MY 2004 Saab 9-3 sedans – some 14,126 vehicles.[280] New GM would wait another 4 years before attempting to address the full scope of the seatbelt retractor defect in Saab 9-3 vehicles.

609. New GM finally opened an investigation into the seatbelt retractor defect in other Saab 9-3 vehicles in February of this year, and that was "in response to NHTSA Vehicle Owner Questionnaires claiming issues with the driver side front seat belt retractor" in the affected vehicles.[281] As a result, New GM eventually recalled 28,789 MY 2004-2011 Saab 9-3 convertible vehicles on June 11, 2014.

[277] *See* New GM's June 11, 2013 Letter to NHTSA.
[278] *See* New GM's February 9, 2010 Letter to NHTSA.
[279] *Id.*
[280] *Id.*
[281] *See* New GM's June 11, 2013 Letter to NHTSA.

610. **Safety Defects of the Seat Belt Systems – Frontal Lap-Belt Pretensioner**

Defect: On August 7, 2014, New GM recalled 48,059 MY 2013 Cadillac ATS and 2013 Buick Encore vehicles with a defect in the front lap-belt pretensioners.[282]

611. In the affected vehicles, the driver and passenger lap-belt pretensioner cables may not lock in a retracted position; that allows the seat belts to extend when pulled upon.[283] If the seat belts do not remain locked in the retracted position, the seat occupant may not be adequately restrained in a crash, increasing the risk of injury.[284]

612. In July 2012, GM Korea learned that the lap-belt pretensioner cable and seat belt webbing slipped out after being retracted.[285] Several months later, New GM changed the rivet position on the pretensioner bracket and the design of the pretension mounting bolt.[286] This change was made after New GM started production on the 2013 MY Buick Encore.[287]

613. In October 2012, New GM testing on a pre-production 2014 MY Cadillac CTS revealed that the driver side front seat belt anchor pretensioner cables retracted upon deployment to pull in the lap-belt webbing, as intended, but did not lock in that position; that allowed the retracted webbing to return ("pay out") to its original position under loading, which was not intended.[288]

614. On November 13, 2012, New GM modified the design of the lap-belt pretensioner for the Cadillac CTS, Cadillac ATS, and Cadillac ELR vehicles to include a modified bolt, relocation of a rivet in the cam housing to reposition the locking cam, and a

[282] *See* August 7, 2014 Letter from New GM to NHTSA.
[283] *Id.*
[284] *Id.*
[285] *See* August 21, 2014 Letter from New GM to NHTSA.
[286] *Id.*
[287] *Id.*
[288] *Id.*

change in torque of the lap-belt pretensioner bolt to seat.[289] These changes were implemented in the 2014 MY Cadillac CTS and Cadillac ELR, but not in the 2013 MY Cadillac ATS.[290]

615. Despite making these adjustments to later MY vehicles only, New GM did not launch an investigation into the performance of the lap-belt pretensioners in the 2013 MY Buick Encore and Cadillac ATS until mid-April, 2013.[291] New GM claims that during this year-long investigation period it found no issues potentially relating to the pay out of the lap-belt pretensioners.[292]

616. Nonetheless, New GM decided to issue a safety recall for the affected vehicles on July 31, 2014.[293] It later expanded the recall by 55 additional vehicles, to a total population of 48,114, on August 19, 2014.[294]

617. **Safety Defects of the Seat:** On July 22, 2014, New GM issued a safety recall of 414,333 vehicles with a power height adjustable seats defect.[295]

618. In the affected vehicles, the bolt that secures the height adjuster in the driver and front passenger seats may become loose or fall out. If the bolt falls out, the seat will drop suddenly to the lowest vertical position. The sudden drop can affect the driver's ability to safely operate the vehicle, and can increase the risk of injury to the driver and the front-seat passenger if there is an accident. New GM admits to knowledge of at least one crash caused by this defect.[296]

---

[289] *Id.*
[290] *Id.*
[291] *Id.*
[292] *Id.*
[293] *Id.*
[294] *Id.*
[295] *See* July 22, 2014 Letter from New GM to NHTSA.
[296] *Id.*

619. New GM was aware of this defect by July 10, 2013 when the crash occurred, and by July 22, 2013, New GM was aware that the crash was caused when the bolt on the height adjuster fell out.[297]

620. By September 5, 2013, New GM was aware of 27 cases of loose or missing height adjuster bolts in Camaro vehicles.[298] Yet New GM waited until July 15 before its Safety Field Decision Authority made the decision to conduct a safety recall.

621. **Safety Defects Affecting the Brakes in GM-branded Vehicles – Brake Light Defect:** On May 14, 2014, New GM issued a safety recall of approximately 2.4 million vehicles with a dangerous brake light defect.

622. In the affected vehicles, the brake lamps may fail to illuminate when the brakes are applied or illuminate when the brakes are not engaged; the same defect can disable cruise control, traction control, electronic stability control, and panic brake assist operation, thereby increasing the risk of collisions and injuries.[299]

623. Once again, N of the dangerous brake light defect for years before it took anything approaching the requisite remedial action. In fact, although the brake light defect has caused at least 13 crashes since 2008, New GM did not recall all 2.4 million vehicles with the defect until May 2014.

624. According to New GM, the brake defect originates in the Body Control Module (BCM) connection system. "Increased resistance can develop in the [BCM] connection system and result in voltage fluctuations or intermittency in the Brake Apply Sensor (BAS) circuit that can cause service brakes lamp malfunction."[300] The result is brake

[297] *Id.*
[298] *Id.*
[299] *See* New GM Notification Campaign No. 14V-252 dated May 28, 2014, at 1.
[300] *Id.*

lamps that may illuminate when the brakes are not being applied and may not illuminate when the brakes are being applied. [301]

625. The same defect can also cause the vehicle to get stuck in cruise control if it is engaged, or cause cruise control to not engage, and may also disable the traction control, electronic stability control, and panic-braking assist features.[302]

626. New GM now acknowledges that the brake light defect "may increase the risk of a crash."[303]

627. As early as September 2008, NHTSA opened an investigation for MY 2005-2007 Pontiac G6 vehicles involving allegations that the brake lights may turn on when the driver does not depress the brake pedal and may ***not*** turn on when the driver ***does*** depress the brake pedal.[304]

628. During its investigation of the brake light defect in 2008, Old GM found elevated warranty claims for the brake light defect for MY 2005 and 2006 vehicles built in January 2005, and found "fretting corrosion in the BCM C2 connector was the root cause" of the problem.[305] Old GM and its part supplier Delphi decided that applying dielectric grease to the BCM C2 connector would be "an effective countermeasure to the fretting corrosion."[306] Beginning in November of 2008, the Company began applying dielectric grease in its vehicle assembly plants.[307]

629. On December 4, 2008, Old GM issued a TSB recommending the application of dielectric grease to the BCM C2 connector for the MY 2005-2009, Pontiac G6, 2004-2007

[301] *Id.*
[302] *Id.*
[303] *Id.*
[304] *Id.* at 2.
[305] *Id.*
[306] *Id.*
[307] *Id* at 3.

Chevrolet Malibu/Malibu Maxx, 2008 Malibu Classic, and 2007-2009 Saturn Aura vehicles.[308] One month later, in January 2009, Old GM recalled only a small subset of the vehicles with the brake light defect – 8,000 MY 2005-2006 Pontiac G6 vehicles built during the month of January, 2005.[309]

630. Not surprisingly, the brake light problem was far from resolved.

631. In October 2010, New GM released an updated TSB regarding "intermittent brake lamp malfunctions," and added MY 2008-2009 Chevrolet Malibu/Malibu Maxx vehicles to the list of vehicles for which it recommended the application of dielectric grease to the BCM C2 connector.[310]

632. In September of 2011, New GM received an information request from Canadian authorities regarding brake light defect complaints in vehicles that had not yet been recalled. Then, in June 2012, NHTSA provided New GM with additional complaints "that were outside of the build dates for the brake lamp malfunctions on the Pontiac G6" vehicles that had been recalled.[311]

633. In February of 2013, NHTSA opened a "Recall Query" in the face of 324 complaints "that the brake lights do not operate properly" in Pontiac G6, Malibu, and Aura vehicles that had not yet been recalled.[312]

634. In response, New GM asserts that it "investigated these occurrences looking for root causes that could be additional contributors to the previously identified fretting

[308] *Id.* at 2.
[309] *Id.*
[310] *Id.*
[311] *Id.*
[312] *Id.* at 3.

corrosion," but that it continued to believe that "fretting corrosion in the BCM C2 connector" was the "root cause" of the brake light defect.[313]

635. In June of 2013, NHTSA upgraded its "Recall Query" concerning brake light problems to an "Engineering Analysis."[314]

636. In August 2013, New GM found an elevated warranty rate for BCM C2 connectors in vehicles built *after* Old GM had begun applying dielectric grease to BCM C2 connectors at its assembly plants in November of 2008.[315] In November of 2013, New GM concluded that "the amount of dielectric grease applied in the assembly plant starting November 2008 was insufficient…."[316]

637. Finally, in March of 2014, "[New] GM engineering teams began conducting analysis and physical testing to measure the effectiveness of potential countermeasures to address fretting corrosion. As a result, New GM determined that additional remedies were needed to address fretting corrosion."[317]

638. On May 7, 2014, New GM's Executive Field Action Decision Committee finally decided to conduct a safety recall.

639. According to New GM, "Dealers are to attach the wiring harness to the BCM with a spacer, apply dielectric lubricant to both the BCM CR and harness connector, and on the BAS and harness connector, and relearn the brake pedal home position."[318]

---

[313] *Id.*
[314] *Id.*
[315] *Id.*
[316] *Id.*
[317] *Id.* at 4.
[318] *Id.*

640. New GM sat on and concealed its knowledge of the brake light defect for years, and did not even consider available countermeasures (other than the application of grease that had proven ineffective) until March of this year.

641. **Safety Defects Affecting the Brakes in GM-branded Vehicles – Brake Booster Pump Defect:** On March 17, 2014, New GM issued a safety recall of 63,903 MY 2013-2014 Cadillac XTS vehicles with a brake booster pump defect.

642. In the affected vehicles, a cavity plug on the brake boost pump connector may dislodge and allow corrosion of the brake booster pump relay connector. This can have an adverse impact on the vehicle's brakes and increase the risk of collision. This same defect can also cause a fire in the vehicle resulting from the electrical shore in the relay connector.

643. In June of 2013, New GM learned that a fire occurred in a 2013 Cadillac XTS vehicle while it was being transported between car dealerships. Upon investigation, New GM determined that the fire originated near the brake booster pump relay connector, but could not determine the "root cause" of the fire.

644. A second vehicle fire in a 2013 Cadillac XTS occurred in September of 2013. In November 2013, the same team of New GM investigators examined the second vehicle, but, again, could not determine the "root cause" of the fire.

645. In December 2013, New GM identified two warranty claims submitted by dealers related to complaints by customers about vibrations in the braking system of their vehicles. The New GM team investigating the two prior 2013 Cadillac XTS fires inspected these parts and discovered the relay connector in both vehicles had melted.

646. In January 2014, New GM determined that pressure in the relay connector increased when the brake booster pump vent hose was obstructed or pinched. Further testing

revealed that pressure from an obstructed vent hose could force out the cavity plugs in the relay connector, and in the absence of the plugs, water, and other contaminants can enter and corrode the relay connector, causing a short and leading to a fire or melting.

647. On March 11, 2014, New GM issued a safety recall for the affected vehicles.

648. **Safety Defects Affecting the Brakes in GM-branded Vehicles – Hydraulic Boost Assist Defect:** On May 13, 2014, New GM recalled 140,067 model year 2014 Chevrolet Malibu vehicles with a hydraulic brake boost assist defect.[319]

649. In the affected vehicles, the "hydraulic boost assist" may be disabled; when that happens, slowing or stopping the vehicle requires harder brake pedal force, and the vehicle will travel a greater distance before stopping. Therefore, these vehicles do not comply with Federal Motor Vehicle Safety Standard number 135, "Light Vehicle Brake Systems," and are at increased risk of collision.[320]

650. **Safety Defects Affecting the Brakes in GM-branded Vehicles – Brake Rotor Defect:** On May 7, 2014, New GM recalled 8,208 MY 2014 Chevrolet Malibu and Buick LaCrosse vehicles with a brake rotor defect.

651. In the affected vehicles, New GM may have accidentally installed rear brake rotors on the front brakes. The rear rotors are thinner than the front rotors, and the use of rear rotors in the front of the vehicle may result in a front brake pad detaching from the caliper. The detachment of a break pad from the caliper can cause a sudden reduction in braking which lengthens the distance required to stop the vehicle and increases the risk of a crash.

652. **Safety Defects Affecting the Brakes in GM-branded Vehicles – Reduced Brake Performance Defect:** On July 28, 2014, New GM recalled 1,968 MY 2009-2010

[319] *See* May 13, 2014 Letter from New GM to NHTSA.
[320] *Id.*

Chevrolet Aveo and 2009 Pontiac G3 vehicles.[321] Affected vehicles may contain brake fluid which does not protect against corrosion of the valves inside the anti-lock brake system ("ABS") module, affecting the closing motion of the valves.[322] If the ABS valve corrodes it may result in longer brake pedal travel or reduced performance, increasing the risk of a vehicle crash.[323]

653. New GM was aware of this defect as far back as August 2012, when it initiated a customer satisfaction campaign.[324] The campaign commenced in November 2012, and New GM estimates that, to date, approximately 34% of Chevrolet Aveo and Pontiac G3 vehicles included in the customer satisfaction campaign are not yet repaired.[325] On July 19, 2014, New GM decided to conduct a safety recall for vehicles that had been included in the customer satisfaction program but had not had the service repair performed.[326]

654. **Safety Defects Affecting the Brakes in GM-branded Vehicles – Parking Brake Defect:** On September 20, 2014, GM recalled more than 221,000 MY 2014-15 Chevrolet Impalas and 2013-15 model Cadillac XTS vehicles because of a parking-brake defect.

655. In the affected vehicles, the brake pads can stay partly engaged, which can lead to "excessive brake heat that may result in a fire," according to documents posted on the NHTSA website.

656. NHTSA said the fire risk stemmed from the rear brakes generating "significant heat, smoke and sparks." The agency also warned that drivers of affected vehicles might

[321] *See* July 28, 2014 Letter from New GM to NHTSA.
[322] *Id.*
[323] *Id.*
[324] *Id.*
[325] *Id.*
[326] *Id.*

experience "poor vehicle acceleration, undesired deceleration, excessive brake heat and premature wear to some brake components."

657. **Safety Defects Affecting the Steering in GM-branded Vehicles – Sudden Power-Steering Failure Defect:** Between 2003 and 2010, over 1.3 million GM-branded vehicles in the United States were sold with a safety defect that causes the vehicle's electric power steering ("EPS") to suddenly fail during ordinary driving conditions and revert back to manual steering, requiring greater effort by the driver to steer the vehicle and increasing the risk of collisions and injuries.

658. The affected vehicles are MY 2004-2006 and 2008-2009 Chevrolet Malibu, 2004-2006 Chevrolet Malibu Maxx, 2009-2010 Chevrolet HHR, 2010 Chevrolet Cobalt, 2005-2006 and 2008-2009 Pontiac G6, 2004-2007 Saturn Ion, and 2008-2009 Saturn Aura vehicles.

659. As with the ignition switch defects and many of the other defects, New GM was aware of the power steering defect long before it took anything approaching full remedial action.

660. When the power steering fails, a message appears on the vehicle's dashboard, and a chime sounds to inform the driver. Although steering control can be maintained through manual steering, greater driver effort is required, and the risk of an accident is increased.

661. In 2010, New GM first recalled Chevy Cobalt and Pontiac G5 models for these power steering issues, yet it did *not* recall the many other vehicles that had the very same power steering defect.

662. Documents released by NHTSA show that New GM waited years to recall nearly 335,000 Saturn Ions for power-steering failure – despite receiving nearly 4,800

consumer complaints and more than 30,000 claims for warranty repairs. That translates to a complaint rate of 14.3 incidents per thousand vehicles and a warranty claim rate of 9.1 percent. By way of comparison, NHTSA has described as "high" a complaint rate of 250 complaints per 100,000 vehicles.[327] Here, the rate translates to 1,430 complaints per 100,000 vehicles.

663. In response to the consumer complaints, in September 2011, NHTSA opened an investigation into the power-steering defect in Saturn Ions.

664. NHTSA database records show complaints from Ion owners as early as June 2004, with the first injury reported in May 2007.

665. NHTSA has linked approximately 12 crashes and two injuries to the power-steering defect in the Ions.

666. In September 2011, after NHTSA began to make inquiries about the safety of the Saturn Ion, GM acknowledged that it had received almost 3,500 customer reports claiming a sudden loss of power steering in 2004-2007 Ion vehicles.

667. The following month, New GM engineer Terry Woychowski informed current CEO Mary Barra – then head of product development –that there was a serious power-steering issue in Saturn Ions, and that it may be the same power steering issue that plagued the Chevy Cobalt and Pontiac G5. Ms. Barra was also informed of the ongoing NHTSA investigation. At the time, NHTSA reportedly came close to concluding that Saturn Ions should have been included in New GM's 2010 steering recall of Cobalt and G5 vehicles.

668. Instead of recalling the Saturn Ion, GM sent dealers a service bulletin in May of 2012 identifying complaints about the steering system in the vehicle.

[327] *See* https://www-odi.nhtsa.dot.gov/cars/problems/defect/-results.cfm?action_number=EA06002&Search Type=QuickSearch&summary=true.

669. By the time GM finally recalled the Saturn Ion – four years later, in March 2014 - NHTSA had received more than 1,200 complaints about the vehicle's power steering. Similar complaints resulted in over 30,000 warranty claims with GM.

670. After announcing the March 31, 2014 recall, Jeff Boyer, New GM's Vice President of Global Vehicle Safety, acknowledged that New GM recalled some of these same vehicle models previously for the *same issue*, but that New GM "did not do enough."

671. According to an analysis by the New York Times published on April 20, 2014, New GM has "repeatedly used technical service bulletins to dealers and sometimes car owners as stopgap safety measures instead of ordering a timely recall."

672. Former NHTSA head Joan Claybrook echoed this conclusion, stating, "There's no question that service bulletins have been used where recalls should have been."

673. NHTSA has recently criticized New GM for issuing service bulletins on at least four additional occasions in which a recall would have been more appropriate and in which New GM later, in fact, recalled the subject vehicles.

674. These inappropriate uses of service bulletins prompted Frank Borris, the top defect investigator for NHTSA, to write to New GM's product investigations director, Carmen Benavides, in July 2013, complaining that "GM is slow to communicate, slow to act, and, at times, requires additional effort . . . that we do not feel is necessary with some of [GM's] peers."

675. Mr. Borris' correspondence was circulated widely among New GM's top executives. Upon information and belief, the following employees received a copy: John Calabrese and Alicia Boler-Davis, two vice presidents for product safety; Michael Robinson,

vice president of regulatory affairs; Jim Federico; Gay Kent, director of product investigations, and William Kemp, an in-house product liability lawyer.

676. **Safety Defects Affecting the Steering in GM-branded Vehicles – Power-Steering Hose Clamp Defect:** On June 18, 2014, New GM issued a safety recall of 57,192 MY 2015 Chevrolet Silverado 2500/3500 HD and 2015 GMC Sierra 2500/3500 HD vehicles with a power steering hose clamp defect.

677. In the affected vehicles, the power steering hose clamp may disconnect from the power steering pump or gear, causing a loss of power steering fluid. A loss of power steering fluid can result in a loss of power steering assist and power brake assist, increasing the risk of a crash.

678. **Safety Defects Affecting the Steering in GM-branded Vehicles – Power-Steering Control Module Defect:** On July 22, 2014, New GM recalled 57,242 MY 2014 Chevrolet Impala vehicles with a Power Steering Control Module defect.

679. Drivers of the affected vehicles may experience reduced or no power steering assist at start-up or while driving due to a poor electrical ground connection to the Power Steering Control Module. If power steering is lost, the vehicle will revert to manual steering mode. Manual steering requires greater driver effort and increases the risk of accident. New GM acknowledges one crash related to this condition.

680. On May 17, 2013, New GM received a report of a 2014 Impala losing communication with the Power Steering Control Module ("PSCM"). On or about May 24, 2013, New GM determined the root cause was a poor electrical connection at the PSCM grounding stud wheelhouse assembly.

681. But New GM's initial efforts to implement new procedures and fix the issue were unsuccessful. In January 2014, New GM reviewed warranty data and discovered 72 claims related to loss of assist or the Service Power Steering message after implementation of New GM's process improvements.

682. Then, on February 25, 2014, New GM received notice of a crash involving a 2014 Impala that was built in 2013. The crash occurred when the Impala lost its power steering, and crashed into another vehicle as a result.

683. In response, New GM monitored field and warranty data related to this defect and, as of June 24, 2014, it identified 253 warranty claims related to loss of power steering assist or Service Power Steering messages.

684. On July 15, 2014, New GM finally issued a safety recall for the vehicles, having been unsuccessful in its efforts to minimize and conceal the defect.

685. **Safety Defects Affecting the Steering in GM-branded Vehicles – Lower Control Arm Ball Joint Defect:** On July 18, 2014, New GM issued a safety recall of 1,919 MY 2014-2015 Chevrolet Spark vehicles with a lower control arm ball joint defect.

686. The affected vehicles were assembled with a lower control arm bolt not fastened to specification. This can cause the separation of the lower control arm from the steering knuckle while the vehicle is being driven, and result in the loss of steering control. The loss of steering control in turn creates a risk of accident.[328]

687. **Safety Defects Affecting the Steering in GM-branded Vehicles – Steering Tie-Rod Defect:** On May 13, 2014, New GM issued a safety recall of 477 MY 2014

[328] *See* July 18, 2014 Letter from New GM to NHTSA.

Chevrolet Silverado, 2014 GMC Sierra and 2015 Chevrolet Tahoe vehicles with a steering tie-rod defect.

688. In the affected vehicles, the tie-rod threaded attachment may not be properly tightened to the steering gear rack. An improperly tightened tie-rod attachment may allow the tie-rod to separate from the steering rack and greatly increases the risk of a vehicle crash.[329]

689. **Safety Defects Affecting the Steering in GM-branded Vehicles – Joint Fastener Torque Defect:** On June 30, 2014, New GM issued a safety recall of 106 MY 2014 Chevrolet Camaro, 2014 Chevrolet Impala, 2014 Buick Regal and 2014 Cadillac XTS vehicles with a joint fastener torque defect.

690. In the affected vehicles, joint fasteners were not properly torqued to specification at the assembly plant. As a result of improper torque, the fasteners may "back out" and cause a "loss of steering," increasing the risk of a crash.[330]

691. New GM claims that it was alerted to the problem by a warranty claim filed on December 23, 2013, at a California dealership for a Chevrolet Impala built at New GM's Oshawa car assembly plant in Ontario, Canada. Yet the Oshawa plant was not informed of the issue until March 4, 2014.[331]

692. Between March 4 and March 14, 2014, the Oshawa plant conducted a "root cause" investigation and concluded that the problem was caused by an improperly fastened "Superhold" joint. Though the Impala was electronically flagged for failing to meet the requisite torque level, the employee in charge of correcting the torque level failed to do so.[332]

[329] *See* May 27, 2014 Letter from New GM to NHTSA.
[330] *See* July 2, 2014 Letter from New GM to NHTSA.
[331] *Id.*
[332] *Id.*

693. On or about March 14, 2014, New GM Oshawa learned of two more warranty claims concerning improperly fastened Superhold joints. Both of the vehicles were approved by the same employee who had approved the corrective action for the joint involved in the December 23, 2013 warranty claim. The two additional vehicles were also flagged for corrective action, but the employee failed to correct the problem.[333]

694. On March 20, 2014, New GM Oshawa concluded the derelict employee had approved 112 vehicles after they were flagged for corrective action to the Superhold joint.[334]

695. Yet New GM waited until June 25, 2014 before deciding to conduct a safety recall.

696. **Safety Defects Affecting the Powertrain in Chevrolet and Pontiac Vehicles – Transmission Shift Cable Defect:** On May 19, 2014, New GM issued a safety recall for more than 1.1 million Chevrolet and Pontiac vehicles with dangerously defective transmission shift cables.

697. In the affected vehicles, the shift cable may fracture at any time, preventing the driver from switching gears or placing the transmission in the "park" position. According to New GM, "[i]f the driver cannot place the vehicle in park, and exits the vehicle without applying the park brake, the vehicle could roll away and a crash could occur without prior warning."[335]

698. Yet again, N of the shift cable defect long before it issued the recent recall of more than 1.1 million vehicles with the defect.

699. In May of 2011, NHTSA informed New GM that it had opened an investigation into failed transmission cables in 2007 model year Saturn Aura vehicles. In

[333] *Id.*
[334] *Id.*
[335] *See* New GM letter to NHTSA Re: NHTSA Campaign No. 14V-224 dated May 22, 2014, at 1.

response, New GM noted "a cable failure model in which a tear to the conduit jacket could allow moisture to corrode the interior steel wires, resulting in degradation of shift cable performance, and eventually, a possible shift cable failure."[336]

700. Upon reviewing these findings, New GM's Executive Field Action Committee conducted a "special coverage field action for the 2007-2008 MY Saturn Aura vehicles equipped with 4 speed transmissions and built with Leggett & Platt cables." New GM apparently chose that cut-off date because, on November 1, 2007, Kongsberg Automotive replaced Leggett & Platt as the cable provider. [337]

701. New GM did not recall any of the vehicles with the shift cable defect at this time, and limited its "special coverage field action" to the 2007-2008 Aura vehicles even though "the same or similar Leggett & Platt cables were used on … Pontiac G6 and Chevrolet Malibu (MMX380) vehicles."

702. In March 2012, NHTSA sent New GM an Engineering Assessment request to investigate transmission shift cable failures in 2007-2008 MY Aura, Pontiac G6, and Chevrolet Malibu.[338]

703. In responding to the Engineering Assessment request, New GM for the first time "noticed elevated warranty rates in vehicles built with Kongsberg shift cables." Similar to their predecessor vehicles built with Leggett & Platt shift cables, in the vehicles built with Kongsberg shift cables "the tabs on the transmission shift cable end may fracture and separate without warning, resulting in failure of the transmission shift cable and possible unintended vehicle movement."[339]

[338] *Id.*
[339] *Id.*

704. On September 13, 2012, the Executive Field Action Decision Committee decided to conduct a safety recall. This initial recall was limited to 2008-2010 MY Saturn Aura, Pontiac G6, and Chevrolet Malibu vehicles with 4-speed transmission built with Kongsberg shifter cables, as well as 2007-2008 MY Saturn Aura and 2005-2007 MY Pontiac G6 vehicles with 4-speed transmissions which may have been serviced with Kongsberg shift cables.[340]

705. But the shift cable problem was far from resolved.

706. In March of 2013, NHTSA sent New GM a second Engineering Assessment concerning allegations of failure of the transmission shift cables on all 2007-2008 MY Saturn Aura, Chevrolet Malibu, and Pontiac G6 vehicles.[341]

707. New GM continued its standard process of "investigation" and delay. But by May 9, 2014, New GM was forced to concede that "the same cable failure mode found with the Saturn Aura 4-speed transmission" was present in a wide population of vehicles.[342]

708. Finally, on May 19, 2014, New GM's Executive Field Action Decision Committee decided to conduct a safety recall of more than 1.1 million vehicles with the shift cable defect.

709. **Safety Defects Affecting the Powertrain in Cadillac Vehicles – Transmission Shift Cable Defect:** On June 18, 2014, New GM issued a safety recall of 90,750 MY 2013-2014 Cadillac ATS and 2014 Cadillac CTS vehicles with a transmission shift cable defect.

710. In the affected vehicles, the transmission shift cable may detach from either the bracket on the transmission shifter or the bracket on the transmission. If the cable detaches

[340] *Id.*
[341] *Id.*
[342] *Id.*

while the vehicle is being driven, the transmission gear selection may not match the indicated gear and the vehicle may move in an unintended or unexpected direction, increasing the risk of a crash. Furthermore, when the driver goes to stop and park the vehicle, the transmission may not be in "PARK" even though the driver has selected the "PARK" position. If the vehicle is not in the "PARK" position, there is a risk the vehicle will roll away as the driver and other occupants exit the vehicle or anytime thereafter. A vehicle rollaway causes a risk of injury to exiting occupants and bystanders.

711. On March 20, 2014, a New GM dealership contacted an assembly plant about a detached transmission shift cable. The assembly plant investigated and discovered one additional detached shift cable in the plant.

712. New GM assigned a product investigation engineer was assigned, and from March 24 to June 2, 2014, New GM examined warranty claims and plant assembly procedures and performed vehicle inspections. Based on these findings, New GM issued a safety recall on June 11, 2014.

713. **Safety Defects Affecting the Transmission in GM-branded Vehicles – Transmission Oil Cooler Defect:** On March 31, 2014, New GM issued a safety recall of 489,936 vehicles with a transmission oil cooler line defect.

714. In the affected vehicles, the transmission oil cooler lines may not be securely seated in the fitting. This can cause transmission oil to leak from the fitting, where it can contact a hot surface and cause a vehicle fire.

715. On September 4, 2013, a New GM assembly plant in Silao, Mexico experienced two instances in which a transmission oil cooler ("TOC") line became disconnected from the thermal bypass valve in 2014 pick-up trucks on the K2XX platform

during pressure tests. As a result, New GM required the supplier of the TOC lines and thermal bypass valve assembly (collectively the "TOC assembly") for these vehicles to issue a Quality Alert for its facility concerning the TOC assemblies. The supplier sorted the over 3,000 TOC assemblies at its facility, performed manual pull checks and visual inspections, and found no defects.

716. New GM also conducted manual pull checks and visual inspections on the TOC assemblies in the two New GM assembly plants responsible for the K2XX platform at the time (Silao, Mexico and Fort Wayne, Indiana), and identified no defects.

717. On September 19, 2013, the supplier provided New GM with a plan to ensure that the TOC lines were properly connected to the thermal bypass valve going forward. In addition to continuing its individual pull tests to verify that these connections were secure, the supplier planned to add a manual alignment feature to the three machines that it used to connect the TOC lines to the thermal bypass valve boxes. The supplier completed these upgrades on October 28, 2013.

718. On January 2, 2014, New GM's Product Investigations, Field Performance Assessment, and K2XX program teams received an investigator's report concerning a 2014 Chevrolet Silverado that caught fire during a test drive from a dealer in Gulfport, Mississippi on December 16, 2013. New GM's on-site investigation of the vehicle revealed that a TOC line had disconnected from the thermal bypass valve box. The build date for this vehicle was October 10, 2013, and the build date for the TOC assembly was September 28, 2013, prior to the supplier's October 28, 2013 completion of its machinery upgrades.

719. On January 3, 2014, New GM issued a Quality Alert to its assembly plants for K2XX vehicles, advising them to manually inspect the TOC assemblies from the supplier to

ensure that the TOC lines were securely connected. New GM also informed the supplier of the Mississippi event.

720. On January 15, 2014, New GM learned that a 2014 Chevrolet Silverado had recently caught fire while being driven by a dealer salesperson. New GM's investigation of the incident determined that one of the vehicle's TOC lines was disconnected from the thermal bypass valve box. The vehicle was built on November 12, 2013.

721. On January 29, after completing its investigation, New GM followed up with its K2XX assembly plants, and found no additional cases involving disconnected TOC lines after the January 3 Quality Alert.

722. On January 31, 2014, a team from New GM traveled to the supplier's facility to work with the supplier on its thermal valve assembly process. By February 27, 2014, the supplier added pressure transducers to the machine fixtures used to connect the TOC lines to the thermal bypass valve boxes to directly monitor the delivery of air pressure to the pull-test apparatus.

723. On March 23, 2014, a 2015 GMC Yukon caught fire during a test drive from a dealership in Anaheim, California. On March 24, 2014, New GM formed a team to investigate the incident; the team was dispatched to Anaheim that afternoon. On the morning of March 25, 2014, the New GM team examined the vehicle in Anaheim and determined that the incident was caused by a TOC line that was disconnected from the thermal bypass valve box. The assembly plants for K2XX vehicles were placed on hold and instructed to inspect all TOC assemblies in stock, as well as those in completed vehicles. A team from New GM also traveled to the supplier on March 25, 2014, to further evaluate the assembly process.

724. On March 26, 2014, New GM personnel along with personnel from the supplier examined the TOC assembly from the Anaheim vehicle. The group concluded that a TOC line had not been properly connected to the thermal bypass valve box. The build date for the thermal valve assembly in the Anaheim vehicle was determined to be January 16, 2014, after the supplier's October 28, 2013 machinery upgrades, but before its February 27, 2014 process changes.

725. On March 27, 2014, the Product Investigator assigned to this matter received a list of warranty claims relating to transmission fluid leaks in K2XX vehicles, which he had requested on March 24. From that list, he identified five warranty claims, ranging from August 30, 2013, to November 20, 2013, that potentially involved insecure connections of TOC lines to the thermal bypass valve box, none of which resulted in a fire. All five vehicles were built before the supplier completed its machinery upgrades on October 28, 2013.

726. Also on March 27, 2014, following discussions with New GM, the supplier began using an assurance cap in connecting the TOC lines to the thermal bypass valve boxes to ensure that the TOC lines are properly secured.

727. On March 28, 2014, New GM decided to initiate a recall of vehicles built on the K2XX platform so that they can be inspected to ensure that the TOC lines are properly secured to the thermal bypass valve box.

728. **Safety Defects Affecting the Transmission in GM-branded Vehicles – Transfer Case Control Module Software Defect:** On June 26, 2014, New GM issued a safety recall of 392,459 vehicles with a transfer case control module software defect.

729. In the affected vehicles, the transfer case may electronically switch to neutral without input from the driver. If the transfer case switches to neutral while the vehicle is

parked and the parking brake is not in use, the vehicle may roll away and cause injury to bystanders. If the transfer case switches to neutral while the vehicle is being driven, the vehicle will lose drive power, increasing the risk of a crash.

730. New GM first observed this defect on February 14, 2014, when a 2015 model year development vehicle, under slight acceleration at approximately 70 mph, shifted into a partial neutral position without operator input. When the vehicle shifted into neutral, the driver lost power, could not shift out of neutral, and was forced to stop driving. Once the vehicle stopped, the transfer case was in a complete neutral state and could not be moved out of neutral.

731. On or about February 17, 2014, New GM contacted Magna International Inc., the supplier of the transfer case and the Transfer Case Control Module ("TCCM") hardware and software, to investigate the incident. Magna took the suspect TCCM for testing.

732. From mid-February through mid-March, Magna continued to conduct testing. On March 18, Magna provided its first report to New GM but at that time, Magna had not fully identified the root cause.

733. On March 27, Magna provided an updated report that identified three scenarios that could cause a transfer case to transfer to neutral.

734. Between late March and April, New GM engineers continued to meet with Magna to identify additional conditions that would cause the unwanted transfer to neutral. New GM engineers also analyzed warranty information to identify claims for similar unwanted transfer conditions.

735. Two warranty claims for unwanted transfers were identified that appeared to match the conditions exhibited on February 14, 2014. Those warranty claims were submitted

on March 3 and March 18, 2014. On April 23, 2014, a Product Investigation engineer was assigned. A Problem Resolution Tracking System (PRTS) case was initiated on May 20, 2014.

736. The issue was presented to Open Investigation Review (OIR) on June 16, 2014, and on June 18, 2014, the Safety and Field Action Decision Authority (SFADA) decided to conduct a safety recall.

737. **Safety Defects Affecting the Transmission in GM-branded Vehicles – Acceleration-Lag Defect:** On April 24, 2014, New GM issued a safety recall of 50,571 MY 2013 Cadillac SRX vehicles with an acceleration-lag defect.

738. In the affected vehicles, there may be a three to four-second lag in acceleration due to faulty transmission control module programming. That can increase the risk of a crash.

739. On October 24, 2013, New GM's transmission calibration group learned of an incident involving hesitation in a company owned vehicle. New GM obtained the vehicle to investigate and recorded one possible event showing a one second hesitation.

740. In early December 2013, New GM identified additional reports of hesitation from the New GM company-owned vehicle driver fleet, as well as NHTSA VOQs involving complaints of transmission hesitation in the 2013 SRX vehicles.

741. In mid-February 2014, the transmission calibration team obtained additional company vehicles and repurchased customer vehicles that were reported to have transmission hesitation in order to install data loggers and attempt to reproduce the defect. On February 20, 2014, and February 27, 2014, New GM captured two longer hesitation events consistent with customer reports.

742. In response to the investigation, New GM issued a safety recall for the affected vehicles on April 17, 2014.

743. **Safety Defects Affecting the Transmission in GM-branded Vehicles – Transmission Turbine Shaft Fracture Defect:** On June 11, 2014, New GM recalled 21,567 MY 2012 Chevrolet Sonic vehicles equipped with a 6 Speed Automatic Transmission and a 1.8L Four Cylinder Engine suffering from a turbine shaft fracture defect.

744. In the affected vehicles, the transmission turbine shaft may fracture. If the transmission turbine shaft fracture occurs during vehicle operation in first or second gear, the vehicle will not upshift to the third through sixth gears, limiting the vehicle's speed. If the fracture occurs during operation in third through sixth gear, the vehicle will coast until it slows enough to downshift to first or second gear, increasing the risk of a crash.[343]

745. The turbine shafts at issue were made by Sundram Fasteners Ltd. ("SFL").[344] In November 2013, New GM learned of two broken turbine shafts in the affected vehicles when transmissions were returned to New GM's Warranty Parts Center (WPC). New GM sent the shafts to SFL, but SFL did not identify any "non-conformities."[345] But "[s]ubsequent investigation by GM identified a quality issue" with the SFL turbine shafts.[346]

746. By late January 2014, 5 or 6 more transmissions "were returned to the WPC for the same concern." That prompted a warranty search for related claims by New GM's "Quality Reliability Durability (QRD) lead for Gears and Shafts and Validation Engineer for Global Front Wheel 6 Speed Transmission…." That search revealed "a clear increase in incidents for 2012 Sonic built with 6T30 turbine shaft[s] during late February to June of 2012."[347]

[343] *See* June 11, 2014 Letter from New GM to NHTSA.
[344] *Id.*
[345] *Id.*
[346] *Id.*
[347] *Id.*

747. In March of 2014, New GM engineers found that turbine shafts made "in the suspect window were found to have a sharp corner and not a smooth radius in the spline." Testing done in April of 2014 apparently showed a lower life expectancy for "shafts with sharp corners" as opposed to "shafts with smooth radii."[348]

748. On June 4, 2014 "the Safety Field Action Decision Authority (SFADA) decided to conduct a safety recall," and New GM did so on June 11, 2014.[349]

749. **Safety Defects Affecting the Transmission in GM-branded Vehicles – Automatic Transmission Shaft Cable Adjuster Defect:** On February 20, 2014, New GM issued a noncompliance recall of 352 vehicles with defective automatic transmission shift cable adjusters.[350]

750. In the affected vehicles, one end of the transmission shift cable adjuster body has four legs that snap over a ball stud on the transmission shift lever. One or more of these legs may have been fractured during installation. If any of the legs are fractured, the transmission shift cable adjuster may disengage from the transmission shift lever. When that happens, the driver may be unable to shift gears, and the indicated gear position may not be accurate. If the adjuster is disengaged when the driver attempts to stop and park the vehicle, the driver may be able to shift the lever to the "PARK" position but the vehicle transmission may not be in the "PARK" gear position. That creates the risk that the vehicle will roll away as the driver and other occupants exit the vehicle, or anytime thereafter.[351]

[348] *Id.*
[349] *Id.*
[350] *See* February 20, 2014 Letter from New GM to NHTSA.
[351] *Id.*

751. These vehicles may not conform with Federal Motor Vehicle Safety Standard 102 for Transmission Shift Lever Sequence Starter Interlock and Transmission Braking Effect, or Federal Motor Vehicle Safety Standard 114 for Theft Protection and Rollaway Prevention.

752. **Other Serious Defects Affecting GM-branded Vehicles:** The above-described Safety Defects are not random or coincidental. They are not mere glitches. They are symptoms of an ailing culture at New GM—one that transfers ongoing risk of harm, as well as inconvenience and cost, to New GM's customers. The below list of other serious defects and recalls further illustrates and underscores that New GM has in no way prioritized making safe, defect free cars. There have been no fewer than 20 additional safety and other recalls of GM-Branded vehicles in 2014 alone. The defects are:

- Power management mode software defect
- Light control module defect
- Electrical short in driver's door module defect
- Front axle shaft defect
- Seat hook weld defect
- Front turn signal bulb defect
- Low-beam headlight defect
- Radio chime defect
- Fuel gauge defect
- Windshield wiper system defect
- Console bin door latch defect
- Driver door wiring splice defect
- Overloaded feed defect
- Windshield wiper module assembly defect

- Engine block heater power cord insulation defect
- Rear shock absorber defect
- Electronic stability control defect
- Unsecured floor mat defect
- Fuse block defect
- Diesel transfer pump defect

XIII. New GM's Misrepresentations That It Made Safe And Reliable Cars, The Ignition Switch Defect, and Other Safety Defects Have Harmed Plaintiffs And The Classes.

753. The ignition switch defect and the other safety defects have caused damage to Plaintiffs and the Class.

754. A vehicle purchased, leased, or retained with a serious safety defect is worth less than the equivalent vehicle leased, purchased, or retained without the defect.

755. A vehicle purchased, leased, or retained under the reasonable assumption that it is safe is worth more than a vehicle known to be subject to the unreasonable risk of catastrophic accident because of the ignition switch defects.

756. Purchasers and lessees of Defective Vehicles prior to the July 11, 2009, inception of New GM paid more for the Defective Vehicles, through a higher purchase price or higher lease payments, than they would have had Old GM disclosed the ignition switch defects. Plaintiffs and those Class members who purchased new or used Defective Vehicles overpaid for their Defective Vehicles as the result of Old GM's conduct, for which New GM is responsible. Because Old and New GM concealed the Ignition Switch Defect and the Other Safety Defects, these Plaintiffs did not receive the benefit of the bargain. In addition, the value of all Defective Vehicles has diminished as the result of Old and New GM's deceptive conduct.

757. Plaintiffs and *millions* of Class members are stuck with vehicles that are now worth less than they would have been but for Old and New GM's failure to disclose and remedy the Ignition Switch Defect and the Other Safety Defects, and the remaining Class members overpaid at the time of purchase or lease, only to then sell at diminished value on or after February 14, 2014.

758. In addition, Plaintiffs and Class members are subject to a recall that *does not* fully cure the safety defects. Even if they receive a replacement switch with a stronger detent plunger, their vehicles will *not* be safe from the unreasonable risk of sudden unintended shutdown, with the attendant loss of power steering and other critical safety systems, including an operable airbag. That is because New GM has *not* pledged to address either the placement of the ignition switch in the Defective Vehicles *or* the fact that the airbags in the Defective Vehicles become inoperable as soon as the ignition switch turns to the "accessory" or "off" position in all of the Defective Vehicles, and refuses to even provide a stronger ignition switch for the millions of vehicles subject to the June and July ignition switch recalls.

759. If Old or New GM had timely disclosed the ignition switch defects as required by the TREAD Act, the law of fraudulent concealment, and the other State laws set forth below, all Class members' vehicles would now be safe to drive, and would have retained considerably more of their value. Because of the Companies' now highly-publicized campaign of deception, and New GM's belated, piecemeal and ever-expanding recalls, so much stigma has attached to the Defective Vehicles that no rational consumer would now purchase a Defective Vehicle—let alone pay what otherwise would have been fair market value for the vehicle.

760. The fact that vehicles owned by the Plaintiffs and Class are worth less than vehicles that are perceived as safe is demonstrated by the decline in value the Defective Vehicles have experienced since the revelation of Old and New GM's misconduct.

761. In essence Plaintiffs and Class members suffered harm from the revelation of two facts (i) Old and New GM's concealment of switch defects, and (2) New GM's widespread inability to produce safe cars as evidenced by the massive recalls in 2014.

762. For example, the following 2007 model year vehicles suffered estimated diminished value in March 2014 following the February ignition switch recall:

Saturn Ion	$251
Pontiac Solstice	$790
Saturn Sky	$238

763. As the truth was revealed that GM cars were not safe and reliable as evidenced by the unprecedented number of recalls and vehicles recalled, Defective Vehicles suffered additional diminished value by way of illustration:

2007 Pontiac G5	September 2014 Diminished Value $459
2007 Saturn Ion Sedan	September 2014 Diminished Value $472
2007 Saturn Sky	September 2014 Diminished Value $686

TOLLING OF THE STATUTES OF LIMITATION

764. All applicable statutes of limitation have been tolled by Old and New GM's knowing, ongoing and active fraudulent concealment and denial of the facts alleged herein. Plaintiffs and Class members did not discover, and did not know of facts that would have caused a reasonable person to suspect, that Old and New GM did not report information

within their knowledge to federal authorities (including NHTSA), their dealerships. Nor consumers, nor would a reasonable and diligent investigation have disclosed that Old or New GM had information in their possession about the existence and dangerousness of the defects, or that each opted to conceal that information until shortly before this action was filed.

765. All applicable statutes of limitation also have been tolled by operation of the discovery rule. Specifically, Plaintiffs and the other Class members could not have discovered, through the exercise of reasonable diligence, that their Defective Vehicles were defective within the time period of any applicable statutes of limitation.

766. Instead of disclosing the myriad safety defects and disregard of safety of which it was aware, New GM falsely represented that its vehicles were safe, reliable, and of high quality, and that it was a reputable manufacturer that stood behind GM-branded vehicles after they were sold.

767. New GM has been, since its inception, under a continuous duty to disclose to Plaintiffs and the other Class members the true character, quality, and nature of the Defective Vehicles. Instead, New GM has consistently, knowingly, affirmatively, and actively concealed the true nature, quality, and character of the Defective Vehicles from consumers.

768. Based on the foregoing, New GM is estopped from relying on any statutes of limitations in defense of this action as to claims for which the doctrine of estoppel is recognized.

769. Overall, regardless of whether it was New GM or Old GM that manufactured or sold a particular Defective Vehicle to a particular Class member, New GM is responsible for *its own* actions with respect to *all* the Defective Vehicles, and the resulting harm to Class members that occurred as the result of GM's acts and omissions. Simply put, GM was aware

of serious safety defects, and it also knew that Defective Vehicle owners were unaware of the defect, and it chose both to conceal these defects, and to forgo or delay any action to correct them. Under these circumstances, New GM had the clear duty to disclose and not conceal the ignition switch defects to Plaintiffs and the Class—regardless of when they acquired their Defective Vehicles.

770. New GM's obligations stem from several different sources, including, but not limited to: (i) the obligations it explicitly assumed under the TREAD Act to promptly report any safety defect to Defective Vehicle owners and to NHTSA so that appropriate remedial action could occur; (ii) the duty it had under the law of fraudulent concealment, as pleaded below; (iii) the duty it had under the State consumer protection and other laws, as pleaded below; and (iv) the general legal principle embodied in § 324A of the RESTATEMENT (SECOND) OF TORTS, ("Liability To Third Person For Negligent Performance Of Undertaking").

771. In acquiring Old GM, New GM expressly assumed the obligations to make all required disclosures under the TREAD Act with respect to all the Defective Vehicles.

772. Under the TREAD Act, if it is determined that vehicle has a safety defect, the manufacturer must promptly notify vehicle owners, purchasers and dealers of the defect, and may be ordered to remedy the defect. 49 U.S.C. § 30118(b)(2)(A) & (B).

773. Under the TREAD Act, manufacturers must also file a report with NHTSA within five working days of discovering "a defect in a vehicle or item of equipment has been determined to be safety related, or a noncompliance with a motor vehicle safety standard has been determined to exist." 49 C.F.R. § 573.6(a) & (b). At a minimum, the report to NHTSA must include: the manufacturer's name; the identification of the vehicles or equipment

containing the defect, including the make, line, model year and years of manufacturing; a description of the basis for determining the recall population; how those vehicles differ from similar vehicles that the manufacturer excluded from the recall; and a description of the defect. 49 C.F.R. § 276.6(b), (c)(1), (c)(2), & (c)(5).

774. The manufacturer must also promptly inform NHTSA regarding: the total number of vehicles or equipment potentially containing the defect; the percentage of vehicles estimated to contain the defect; a chronology of all principal events that were the basis for the determination that the defect related to motor vehicle safety, including a summary of all warranty claims, field or service reports, and other information, with its dates of receipt; and a description of the plan to remedy the defect. 49 C.F.R. § 276.6(b) & (c).

775. It cannot be disputed that New GM assumed a duty to all Defective Vehicle owners under the TREAD Act, and that it violated this duty.

776. Under § 324A of the RESTATEMENT, an entity that undertakes to render services to another which he should recognize as necessary for the protection of a third person or his things, is subject to liability for harm to the third person resulting from the failure to exercise reasonable care to protect the undertaking if the "failure to establish reasonable care increases the risk of such harm…" While this doctrine of negligent undertaking grew up in the context of physical harm, it also applies to economic loss, such as that suffered by Plaintiffs and the Class.

777. RESTATEMENT § 324A applies to an undertaking which is purely gratuitous, and it applies with even greater force here, where New GM is receiving substantial remuneration for its undertaking in relation to its dealerships' service centers. New GM provides parts for the Defective Vehicles as they are serviced at its dealerships, and receives

substantial revenue from dealerships relating to the servicing of Defective Vehicles. It also receives an additional benefit in that many of the people who own these vehicles will eventually sell or trade in their old vehicles for new ones. Consumers using New GM service centers and buying New GM replacement parts necessarily rely upon New GM to advise its dealerships of defects, notify its dealerships of safety related issues, provide its dealerships with accurate and up to date information and enable them to remedy defects. New GM's failure to carry out these obligations has increased the risk of harm to owners of Defective Vehicles, who regularly have their vehicles inspected and serviced at New GM dealerships and rely upon representations that the vehicles are safe and free of defects.

778. New GM's dealerships pass along GM replacement parts, and they also rely on New GM's expertise regarding how the vehicles should be maintained, and what conditions are necessary for the dealer to conclude that the vehicles are in proper working order at the time they are inspected, serviced and released back to the owner. The dealerships rely on New GM's assurances of safety, that New GM will tell them about safety related problems that come to New GM's attention, and that New GM will pass along knowledge of defects and how to address them. Dealers servicing the Defective Vehicles rely on New GM's representations that the vehicles and their component parts and safety features will function correctly if certain conditions are met when the vehicles are inspected and serviced, as do the consumers who go to a New GM dealership for repairs. New GM's breach of its obligations to its dealerships has resulted in harm to Plaintiffs and the Class.

SUCCESSOR LIABILITY ALLEGATIONS

779. General Motors Corporation was founded on September 16, 1908, in Flint, Michigan, and was incorporated on October 13, 1916, in Delaware. On June 1, 2009, General Motors Corporation ("Old GM") filed a Chapter 11 bankruptcy petition in the United States

Bankruptcy Court for the Southern District of New York.[352] On July 5, 2009, that court approved the sale of substantially all of the assets of Old GM to an entity known as General Motors LLC ("New GM").[353] Old GM sold all of its assets to New GM in a transaction finalized on July 10, 2009.[354] In that sale, all Old GM brands, inventory, physical assets, management, personnel, vehicles and general business operations were transferred to New GM. New GM acquired the contracts, books, and records of Old GM. New GM acquired all goodwill and intellectual property of Old GM. At no time was the business enterprise of the General Motors Company interrupted, and the New GM brand was continued as the same brand as Old GM.[355] New GM is the mere continuation or reincarnation of the same business enterprise as Old GM.

780. New GM acquired all or substantially all of the manufacturing assets of Old GM, and undertook the identical manufacturing operation as Old GM. New GM continued the manufacture, marketing sale and warranty of the Old GM brands, including the Chevrolet Cobalt, the Chevrolet HHR, the Buick Allure, the Buick LaCrosse, the Buick Lucerne, the Cadillac Deville, the Cadillac DTS, the Cadillac CTS, the Cadillac SRX, the Chevrolet Impala, the Chevrolet Camaro, the Chevrolet Malibu, and the Chevrolet Monte Carlo.

781. Saturn Corporation was established on January 7, 1985 as a subsidiary of Old GM. The Saturn Sky was first manufactured in 2006 for the 2007 model year ("MY"), and the Pontiac Solstice was first manufactured in 2005 for the 2006 MY. Old GM manufactured both of these vehicles at its Wilmington, DE plant, and New GM continued to manufacture, market and sell these vehicles post-bankruptcy. After attempting to sell the Saturn brand to Penske,

[352] Valukas Report at 1, FN 1 and Valukas Report at 131.
[353] *Id.*
[354] Valukas Report at 131-132.
[355] Valukas Report at 132, FN 577.

New GM announced on September 30, 2009, that it was going to wind down the Saturn brand by October 2010.[356]

782. Adam Opel AG was founded on January 21, 1862 as a sewing machine manufacturer and produced its first automobiles in 1899. Opel, based in Russelsheim, Hesse, Germany, became a subsidiary of Old GM in 1931. The Opel/Vauxhall GT was introduced as a production model in late 1968. Production of the Opel/Vauxhall GT was shutdown in 1973 only to return 34 years later as a 2007 MY vehicle for GM. The Daewoo G2X was a rebadged version of the Opel GT available in September 2007. Old GM manufactured these vehicles from 2007 until July 28, 2009 at its Wilmington, DE plant, and New GM continued to manufacture, market and sell these Old GM vehicles post-bankruptcy. New GM announced on July 21, 2014, that Opel Group, a new entity created by Adam Opel AG and New GM, would manage and maintain full responsibility for New GM's European business, including Cadillac, Chevrolet, and the Opel/Vauxhall brands.[357]

783. Old GM began production of the Chevrolet Cobalt at its Lordstown Assembly plant in Lordstown, OH, in 2004 for the 2005 MY. New GM continued to manufacture, market and sell the Cobalt, an Old GM vehicle, post-bankruptcy until New GM discontinued the brand in 2010.[358]

[358] Valukas Report at 18; http://www.cleveland.com/business/index.ssf/2010/06/gm_taking_some_unusual_risks_i.html.

784. The Chevrolet HHR was manufactured at Old GM's Ramos Arizpe, Mexico plant for the 2006 MY. New GM continued to manufacture, market and sell the Chevrolet HHR post-bankruptcy.[359]

785. Old GM introduced the Pontiac G5/Pursuit in Canada for the 2005 MY and in the U.S. for the 2007 MY. New GM continued to manufacture, market and sell the Pontiac G5/Pursuit post-bankruptcy.[360]

786. Old GM began manufacturing the Buick LaCrosse (U.S.) (or Buick Allure in Canada) in September 2004 for the 2005 MY.[361] The last vehicle of the first-generation Buick LaCrosse was manufactured on December 23, 2008, at GM's Oshawa, Ontario plant. The second-generation Buick LaCrosse was unveiled at the North American International Auto Show in Detroit, Michigan in January 2009. New GM continues to manufacture, market and sell the LaCrosse to this day.[362]

787. Old GM began production of the Buick Lucerne in 2005 for the 2006 MY.[363] New GM continued production of the Buick Lucerne model vehicle until 2011.[364]

788. Old GM began manufacturing the Cadillac DTS in 2005 for the 2006 MY. In the bankruptcy, New GM acquired the Cadillac brand and continued to manufacture, market and sell the Cadillac DTS until 2011.[365]

[365] http://www.edmunds.com/cadillac/dts/.

789. The first-generation Cadillac SRX was manufactured and sold by Old GM between 2004 and 2009. New GM debuted the second-generation Cadillac SRX in 2010 and continues to manufacture, market and sell these vehicles to this day.[366]

790. Old GM began production of the Cadillac CTS in 2002 for the 2003 MY. Old GM redesigned portions of the Cadillac CTS in 2008, and New GM recently completed another redesign of this model in 2014. [367] New GM continues to manufacture, market and sell the Cadillac CTS.

791. The Chevrolet Impala has been manufactured, marketed and sold by Old GM since 1958. Old GM manufactured, marketed and sold the eighth-generation Impala from 2000-2005; followed by the ninth-generation Impala from 2006-2009. New GM continued to manufacture, market and sell the ninth-generation Chevrolet Impala between 2009 and 2013. New GM performed a redesign in 2013 for the 2014 MY, and continues to manufacture, market and sell the Chevrolet Impala. [368]

792. Old GM began manufacturing and selling the Chevrolet Malibu in 1963 for the 1964 MY. Four generations of Malibu were manufactured, marketed and sold by Old GM between 1964 and 1983, when the Malibu was discontinued. Old GM brought back the Malibu make in 1996 for the 1997 MY. With MY 2004, Old GM redesigned the Malibu, manufacturing, marketing and selling the second-generation Malibu until 2008. The third-generation Chevrolet Malibu was manufactured, marketed and sold by Old GM from 2008 to 2009. New GM continued to manufacture, market and sell the third-generation Chevrolet

Malibu from July 10, 2009 through 2012. New GM continues to manufacture, market and sell the current version of the Malibu as redesigned for MY 2013.[369]

793. Old GM manufactured, marketed and sold the Chevrolet Camaro model from its inception in the late 1960s until 2002, when the model was discontinued. The Chevrolet Camaro returned to the New GM lineup in 2009 for the 2010 MY, and continues to be manufactured, marketed and sold by New GM to this day.[370]

794. New GM enjoyed the benefits of the Old GM brands in continuing these brands and product lines. As the specific examples below demonstrate, New GM knowingly and intentionally undertook ongoing duties to the purchasers of Old GM vehicles to ensure the safety, function, and value of these vehicles. New GM cannot in law, equity or fairness absolve itself of liability for the Old GM vehicle defects that New GM fraudulently acted to conceal and keep on the road.

795. New GM honored the vehicle warranties and customer programs of Old GM on Old GM vehicles. On June 1, 2009, days before it was to file for bankruptcy protection, Old GM posted on its Internet website (www.gm.com) a "Customer FAQ on GM's Chapter 11 Filing," which remained accessible on New GM's website (www.gm.com) post-bankruptcy.[371] Among other things, New GM promised its customers and the Class:

> There will be no interruptions in GM's ability to take care of our customers and honor customer programs, warranties and provide replacement parts. In fact, GM has asked the Court for specific orders authorizing GM to honor customer warranties and programs as it always has. You should have total confidence that:

[371] http://web.archive.org/web/20090606083403/http://www.gmreinvention.com/index.php/site/progress_reports/0601_Viability_CustomerFAQ/#; http://web.archive.org/web/20100107122701/; http://www.gmreinvention.com/index.php/site/progress_reports/.

- Our products are safe and sound;
- We will honor your existing warranty;
- Customer promotions and incentives will continue without interruption;
- You do not need to do anything differently regarding your warranty[372]

796. New GM continued:

> Will New GM honor customer warranty claims?
>
> Yes. GM will succeed and win by taking care of our customers every day. New GM will assume the obligations to support the express warranties issued by GM to its customers.[373]

797. With respect to Old GM's loyalty program—GM Card Earnings:

> What happens to my GM Card Earnings?
>
> Your GM Card Earnings will continue to be honored in accordance with the Program Rules. You can keep using your Card at more than 18 million outlets where MasterCard is accepted to accumulate Earnings and redeem them toward eligible, new GM vehicles.[374]

798. Under the bankruptcy sale agreement, New GM also expressly assumed certain liabilities of Old GM, including certain statutory requirements:

> From and after the Closing, Purchaser [New GM] shall comply with the certification, reporting and recall requirements of the National Traffic and Motor Vehicle Safety Act, the Transportation Recall Enhancement, Accountability and Documentation Act, the Clean Air Act, the California Health and Safety Code and similar Laws, in each case, to the extent applicable in respect of vehicles and vehicle parts manufactured or distributed by Seller.

799. In the sale agreement, New GM expressly set forth that it:

---

[372] *Id.*
[373] *Id.*
[374] *Id.*

> shall be responsible for the administration, management and payment of all Liabilities arising under (i) express written warranties of Sellers [Old GM] that are specifically identified as warranties and delivered in connection with the sale of new, certified used or pre-owned vehicles or new or remanufactured motor vehicle parts and equipment (including service parts, accessories, engines and transmissions) manufactured or sold by Sellers or Purchaser prior to or after the Closing and (ii) Lemon Laws.

800. New GM kept the same principle place of business and centers of operation as Old GM. Old GM purchased the Renaissance Center in Detroit, Michigan on May 16, 1996 for use as its global headquarters. New GM still maintains its public presence and residence at 300 Renaissance Center in Detroit, Michigan.[375]

801. In addition, Old GM established the General Motors Proving Grounds in Milford, Michigan in 1924; the Milford Proving Grounds property is still owned and used by New GM. The Milford Proving Grounds is a testing facility where the ignition switch was tested.

802. New GM kept the same employees as Old GM; retaining over 65,000 of Old GM's employees. This included some of Old GM's Board of Directors, top management and key players involved in the ignition switch defect, *inter alia*:

- Terry J. Woychowski was with Old GM since 1978, serving in various engineering positions including Global Vehicle Chief Engineer.[376] He held the position of Vice President of Global Quality and Vehicle Launch for New GM until retiring in June 2012.[377]

- Michael J. Robinson joined Old GM in 1984, and moved up to become North American General Counsel in 2008.[378] He continued to serve in New GM's legal department,

becoming New GM's Vice President of Environment, Energy and Safety Policy in September 2009, holding that position until he was fired in 2014.[379]

- John R. Buttermore began his career at GM as an engineer in 1978.[380] He served Old GM as Vice President of Powertrain and Manufacturing Operations, and has served as New GM's Vice President of Manufacturing since September 2009.[381]

- Current New GM Chief Executive Officer, Mary T. Barra, began her career at Old GM in 1980 as a student at General Motors Institute.[382] She served in a number of engineering and management positions throughout Old GM and New GM prior to becoming New GM's Executive Vice President, Global Product Development, Purchasing and Supply Chain in 2013.[383] She assumed her current role with New GM on January 15, 2014.[384]

- Mark L. Reuss began his career with Old GM as an engineering intern in 1983.[385] Having held numerous management positions in engineering for GM, he served as President of GM North America from 2009-2013.[386] He currently serves New GM as Executive Vice President, Global Product Development, Purchasing and Supply Chain, having assumed the role from Barra.[387]

- Gary Altman served as Old GM's Program Engineering Manager for the Chevrolet Cobalt in 2004 and continued to serve New GM as a manager until he was fired in 2014.[388]

- Raymond DeGiorgio served Old GM as the Design Release Engineer for the ignition switch used in the Saturn Ion and Chevrolet Cobalt vehicles in 2003/2004.[389] He continued to

be employed by New GM in an engineering role until he was fired in 2014.[390]

- Lawrence Buonomo served as an attorney in Old GM's legal department from 1994-2009, and served as New GM's Executive Director of Litigation from 2009-2012.[391] New GM named him Practice Area Manager and Global Legal Process Leader - Litigation in 2012, a position in which he served until he was fired in 2014.[392]

- William J. Kemp served as a top product safety attorney for Old GM during 2003-2013.[393] He continued to serve in New GM's legal department until his termination in 2014.[394]

- Michael Millikin, formerly Old GM's Coordinator of Global Legal Services, was renamed Old GM's Associate General Counsel in June 2005, a position he continued to hold until he assumed his current role as New GM's Vice President and General Counsel in July 2009.[395] Millikin remains in place as General Counsel for New GM.

- Thomas G. Stephens began his career at Old GM as an engineer in 1969.[396] Moving up the corporate ladder, he was made Group Vice President, Global Powertrain and Global Quality in 2006, and served as Vice Chairman, Global Product Development for Old GM and New GM from April 2009 through June 2011.[397] He continued to serve New GM as Vice Chairman & Global Chief Technology Officer until April 2012.[398]

- Timothy E. Lee began his career at Old GM as a student at General Motors Institute in 1969.[399] He moved into top management in 2002 when he assumed the role of Vice President of Manufacturing for GM Europe and in 2006 as

Vice President of Manufacturing for GM North America.[400] He took over as President of International Operations for New GM in December 2009, and also served New GM as its Executive Vice President of Global Manufacturing from 2012 through 2014.[401]

- Chester N. Watson has served as General Auditor for Old GM and New GM from 2003 through 2010.[402]

- Victoria McInnis began her career at GM Canada in 1995 and served New GM as Chief Tax Officer through 2012.[403]

- Frederick A. Henderson served as Old GM's Vice Chairman of the Board of Directors and Chief Financial Officer from 2005 until he was elected Chairman and Chief Financial Officer in June of 2009, leading new GM through bankruptcy.[404]

- Erroll B. Davis, Jr. served on Old GM's Board of Directors starting in 2007 and, according to New GM's 2013 Annual Report, still serves on the Board of Directors to this day.[405]

- Phillip A. Laskawy served on Old GM's Board of Directors beginning in 2003 and continued to serve on New GM's Board of Directors until 2013.[406]

- Kathryn V. Marinello served on Old GM's Board of Directors starting in 2007 and, according to New GM's 2013 Annual Report, still serves on the Board of Directors to this day.[407]

803. In addition to in-house counsel that remained with New GM post-bankruptcy, Old GM and New GM retained the same outside lawyers and law firms.

[400] *Id.; See also* GM Annual Reports.

[405] *Id.*
[406] *Id.*
[407] *Id.*

804. New GM retained ownership and control over nearly all of Old GM's manufacturing plants; closing only fourteen.[408] New GM also assumed ownership and responsibility for over 3,600 of Old GM's U.S. dealerships.[409]

805. New GM kept the same logos and brand marketing as Old GM. Old GM unveiled its "Mark of Excellence" logo in 1966.

806. The words "Mark of Excellence" were removed in the late 1970's, but what remained of the logo is still in use today.

807. On August 24, 2009, New GM announced the removal of its logo from all of its vehicles starting with the 2010 MY; however, New GM continues to use this logo to this day on its websites and marketing materials.

[408] http://money.cnn.com/2009/07/10/news/companies/new_gm/.
[409] *Id.*

808. New GM has also maintained the logos and branding for Chevrolet and Cadillac, after acquiring these brand assets post-bankruptcy. The Chevrolet bowtie was introduced in late 1913 containing the "Chevrolet" name within the bowtie. Old GM continued to use the bowtie logo after it purchased Chevrolet in 1918.

809. Around 2000, the Chevrolet name was removed from the logo, and, despite slight design variations to the bowtie, the logo and brand remain the same today as used by New GM.

810. The iconic Cadillac crest was first unveiled in 1906. Though there have been slight varying designs of the crest, the Cadillac logo consisting of a silver, gold, red and blue crest surrounded by a wreath has remained conceptually the same since 1982.

811. In January of 2014, New GM announced it was removing the Cadillac wreath from the logo and widening the crest for a more streamlined appearance.

812. New GM's operations have consistently demonstrated a continuity of Old GM as an extension of its predecessor corporations' business and product lines. New GM expressly and impliedly assumed the warranty obligations and liabilities of Old GM. New GM has consistently and continuously held itself out to the public and the Class as the continuation of Old GM. New GM is a mere continuation or reincarnation of the same business of Old GM. New GM had—and continues to have—an ongoing duty to warn the Class of the defects that it knew existed in Old GM vehicles. New GM entered into the bankruptcy having fraudulently concealed material facts on the defects in Old GM and New GM vehicles to the reliance and detriment of the Class, and is responsible for the conduct and fraudulent concealment by Old

GM as it relates to the Defective Vehicles. New GM and Old GM were, and New GM remains, under a continuing duty to disclose to the Class the true character, quality, and nature of the Defective Vehicles; that this defect is based on dangerous, inadequate, and defective design and substandard materials; and that the defects will require repair, pose a severe safety concern, and diminishes the value of the Defective Vehicles.

813. New GM undertook the same manufacturing operation as Old GM. New GM continued the product lines of Old GM. The totality of the transaction between the predecessor and successor corporations demonstrates a basic continuity of the predecessor corporation's business. Indeed, the purpose of the bankruptcy transaction funded by taxpayer dollars was to save and continue the Old GM brand, the Old GM name, the Old GM product line, and to ensure the continuation or reincarnation of the same business enterprise as New GM. The fraudulent concealment of material facts begun under Old GM was continued, carried on, and furthered by New GM and its agents. New GM did not report material safety information within its knowledge to the Class, nor would a reasonable and diligent public investigation have disclosed to the Class that New GM had information in its possession about the existence and dangerousness of the Old GM defects that it failed to disclosed and instead acted to fraudulently conceal. The cover-up and omissions of Old GM are the responsibility of New GM. The transfer of Old GM assets to New GM was done fraudulently and in an attempt to escape liability for gross misconduct and to destroy the remedies of the Class as against New GM.

814. New GM continued the business of General Motors as evidenced by the continuity of management, personnel, physical location, assets, and general business operations of Old GM.

815. Old GM ceased its ordinary business operations and was dissolved by terms of the bankruptcy. New GM expressly and impliedly assumed the obligations of Old GM to manufacture non-defective vehicles and by warranting to the Class and the public that the GM brand would remain in operation as a continuation of the same company. At all relevant times, New GM held itself out to the Class, and to the world, as the effective continuation of Old GM. With respect to each of the Claims for Relief asserted herein, the Classes thus assert two distinct, severable, and independent bases of New GM liability: (1) GM's own knowledge, deceptive, negligent, and violative conduct, its breach of its own duty, and resulting harm; and (2) New GM's successor liability.

CHOICE OF LAW ALLEGATIONS

816. New GM is headquartered in Detroit, Michigan, the "center of gravity" of this case.

817. As did Old GM, New GM does substantial business in Michigan. Nearly half of New GM's United States manufacturing plants are in Michigan, as are a third of its assembly plants. Upon information and belief, there are approximately 20,000 New GM employees in Michigan alone.

818. In addition, the conduct that forms the basis for each and every Class members' claims against New GM emanated from Old and New GM's headquarters in Detroit, Michigan.

819. On information and belief, Old and New GM personnel responsible for customer communications are and were located at the Michigan headquarters, and the core decision not to disclose the ignition switch and safety defects to consumers was made and implemented from there.

820. On information and belief, throughout the Class Period, Old and New GM, in concert with their Michigan-based advertising agencies, failed to disclose the existence of the ignition switch and other safety defects.

821. On information and belief, the Red X team, an engineering team whose purpose is to find the cause of an engineering design defect, is and was located in Detroit, Michigan.

822. On information and belief, marketing campaigns falsely promoting Old and New GM cars as safe and reliable were conceived and designed in Michigan.

823. On information and belief, Old and New GM personnel responsible for managing the customer service division are and were located at the Michigan headquarters. The "Customer Assistance Centers" directs customers to call the following numbers: 1-800-222-1020 (Chevrolet), 1-800-521-7300 (Buick), 1-800-462-8782 (GMC), 1-800-458-8006 (Cadillac), 1-800-762-2737 (Pontiac), 1-800-732-5493 (HUMMER), and 1-800-553-6000 (Saturn), which are landlines in Detroit, Michigan. Customers are directed to send correspondence to GM Company, P.O. Box 33170, Detroit, MI 48232-5170. In addition, personnel from GM in Detroit, Michigan, also communicate via e-mail with customers concerned about the ignition switch and safety defects.

824. On information and belief, Old and New GM personnel responsible for communicating with dealers regarding known problems with Defective Vehicles are and were also located at the Michigan headquarters.

825. On information and belief, Old and New GM personnel responsible for managing the distribution of replacement parts to dealerships are and were located at the Michigan headquarters. The decision not to change the part number and the service stock

(replacement parts they had in inventory) of older, weaker switches was made and implemented from Old GM's Michigan headquarters.

826. On information and belief, New GM's presence is more substantial in Michigan than any other state, and the same was true of Old GM.

CLASS ACTION ALLEGATIONS

827. As alleged throughout this Complaint, the Classes' claims all derive directly from a single course of conduct by New GM, from its inception onward. This case is about the responsibility of New GM, at law and in equity, for its knowledge, its conduct, and its products. New GM has engaged in uniform and standardized conduct toward the Classes. It did not differentiate, in its degree of care or candor, its actions or inactions, OR in the content of its statements or omissions, among individual Class members. The objective facts on these subjects are the same for all Class members. Within each Claim For Relief asserted by the respective Classes, the same legal standards govern. Additionally, many states share the same legal standards and elements of proof, facilitating the certification of multistate classes for some or all claims.

II. The Nationwide Class

828. Accordingly, under Rules 23(a); (b)(1) and/or (b)(2); and (b)(3) of the Federal Rules of Civil Procedure, Plaintiffs bring this action and seek to certify and maintain it as a class action on behalf of themselves and a Nationwide Class initially defined as follows:

> All persons in the United States who entered into a lease or bought, prior to July 11, 2009, and who (i) own or lease, or (ii) who sold after February 14, 2014, or (iii) who had declared a total loss after an accident occurring after February 14, 2014, one or more of the following GM vehicles: 2003-2007 Saturn Ion; 2005-2009 Chevrolet Cobalt; 2007-2009 Pontiac G5; 2006-2009 Chevrolet HHR; 2006-2009 Pontiac Solstice; 2007-2009 Saturn Sky; 2004-2005 Buick Regal LS & GS; 2005-2009 Buick Lacrosse; 2006-2009 Buick Lucerne; 2000-2005 Cadillac Deville; 2004-2009

Cadillac DTS; 2006-2009 Chevrolet Impala; 2000-2008 Chevrolet Monte Carlo; 2003-2009 Cadillac CTS; 2004-2006 Cadillac SRX; 1997-2005 Chevrolet Malibu; 2000-2005 Pontiac Grand Am; 2004-2008 Pontiac Grand Prix; 1998-2002 Oldsmobile Intrigue; 1999-2004 Oldsmobile Alero; or 2008-2009 Pontiac G8 ("Defective Vehicles").[410]

III. The State Classes

829. Plaintiffs allege statewide class action claims on behalf of classes for each of the 50 states, the District of Columbia and Puerto Rico ("State Classes"). Each of these State Classes is initially defined as follows:

> All persons in the State of _____ (e.g., Alabama) who entered into a lease or bought, prior to July 11, 2009, and who (i) own or lease, or (ii) who sold after February 14, 2014, or (iii) who had declared a total loss after an accident occurring after February 14, 2014, one or more of the following GM vehicles: 2003-2007 Saturn Ion; 2005-2009 Chevrolet Cobalt; 2007-2009 Pontiac G5; 2006-2009 Chevrolet HHR; 2006-2009 Pontiac Solstice; 2007-2009 Saturn Sky; 2004-2005 Buick Regal LS & GS; 2005-2009 Buick Lacrosse; 2006-2009 Buick Lucerne; 2000-2005 Cadillac Deville; 2004-2009 Cadillac DTS; 2006-2009 Chevrolet Impala; 2000-2008 Chevrolet Monte Carlo; 2003-2009 Cadillac CTS; 2004-2006 Cadillac SRX; 1997-2005 Chevrolet Malibu; 2000-2005 Pontiac Grand Am; 2004-2008 Pontiac Grand Prix; 1998-2002 Oldsmobile Intrigue; 1999-2004 Oldsmobile Alero; or 2008-2009 Pontiac G8 ("Defective Vehicles").

830. The Nationwide Class and the State Classes and their members are sometimes referred to herein as the "Class" or "Classes."

831. Excluded from each Class are Old GM and New GM, their employees, co-conspirators, officers, directors, legal representatives, heirs, successors and wholly or partly owned subsidiaries or affiliates of Old GM; Class Counsel and their employees; and the

[410] To the extent warranted, the list of Defective Vehicles for the purpose of the Nationwide and State Class Definitions, will be supplemented to include other GM vehicles that have the defective ignition switches, which inadvertently turn off the engine and vehicle electrical systems during ordinary driving conditions, and related defects.

judicial officers and their immediate family members and associated court staff assigned to this case, and all persons within the third degree of relationship to any such persons.

832. This action satisfies the requirements of Fed. R. Civ. P. 23(a)(1). Plaintiffs are informed and believe that there are millions of Defective Vehicles nationwide, and thousands of Defective Vehicles in each of the States. Individual joinder of all Class members is impracticable.

833. Each of the Classes is ascertainable because its members can be readily identified using registration records, sales records, production records, and other information kept by New GM or third parties in the usual course of business and within their control. Plaintiffs anticipate providing appropriate notice to each certified Class, in compliance with Fed. R. Civ. P. 23(c)(1)(2)(A) and/or (B), to be approved by the Court after class certification, or pursuant to court order under Fed. R. Civ. P. 23(d).

834. This action satisfies the requirements of Fed. R. Civ. P. 23(a)(2) and 23(b)(3) because questions of law and fact that have common answers that are the same for each of the respective Classes predominate over questions affecting only individual Class members. These include, without limitation, the following:

a. Do the Defective Vehicles suffer from ignition switch defects?

b. Did Old GM and/or New GM fraudulently conceal these defects?

c. Did Old GM and/or New GM's conduct toll any or all applicable limitations periods by acts of fraudulent concealment, application of the discovery rule, or equitable estoppel?

d. Did Old GM and/or New GM misrepresent that the Defective Vehicles were safe?

e. Did Old GM and/or New GM engage in unfair, deceptive, unlawful and/or fraudulent acts or practices in trade or commerce by failing to disclose that the Defective Vehicles were designed, manufactured, and sold with defective ignition switches?

f. Was Old GM and/or New GM's conduct, as alleged herein, likely to mislead a reasonable consumer?

g. Were Old GM and/or New GM's statements, concealments and omissions regarding the Defective Vehicles material, in that a reasonable consumer could consider them important in purchasing, selling, maintaining, or operating such vehicles?

h. Did Old GM and/or New GM violate each of the States' consumer protection statutes, and if so, what remedies are available under those statutes?

i. Were the Defective Vehicles unfit for the ordinary purposes for which they were used, in violation of the implied warranty of merchantability?

j. Is New GM liable to the Class for damages and/or penalties, as a result of its own knowledge, conduct, action, or inaction?

k. Is New GM liable to the Class for damages and/or penalties under privileges of successor liability

l. Are Plaintiffs and the Class entitled to a declaratory judgment stating that the ignition switches in the Defective Vehicles are defective and/or not merchantable?

m. Did Old GM and/or New GM's unlawful, unfair, and/or deceptive practices harm Plaintiffs and the Class?

n. Has New GM been unjustly enriched by its conduct?

o. Are Plaintiffs and the Class entitled to equitable relief, including, but not limited to, a preliminary and/or permanent injunction?

p. Should New GM be declared responsible for notifying all Class members of the defects and ensuring that all GM vehicles with the Ignition Switch Defect are promptly recalled and repaired?

q. What aggregate amounts of statutory penalties, as available under the laws of Michigan and other States, are sufficient to punish and deter New GM and to vindicate statutory and public policy?

r. How should such penalties be most equitably distributed among Class members?

835. This action satisfies the requirements of Fed. R. Civ. P. 23(a)(3) because Plaintiffs' claims are typical of the claims of the Class members, and arise from the same course of conduct by New GM. The relief Plaintiffs seek is typical of the relief sought for the absent Class members.

836. This action satisfies the requirements of Fed. R. Civ. P. 23(a)(4) because Plaintiffs will fairly and adequately represent and protect the interests of all absent Class members. Plaintiffs are represented by counsel who are competent and experienced in product liability, consumer protection, and class action litigation.

837. This action satisfies the requirements of Fed. R. Civ. P. 23(b)(1) because the prosecution of separate actions by the individual Class members on the claims asserted herein would create a risk of inconsistent or varying adjudications for individual Class members, which would establish incompatible standards of conduct for New GM; and because adjudication with respect to individual Class members would, as a practical matter, be dispositive of the interests of other Class members, or impair substantially or impede their ability to protect their interests.

838. Absent a class action, most Class Members would likely find the cost of litigating their claims prohibitively high and would therefore have no effective remedy at law. Because of the relatively small size of the individual Class Members' claims, it is likely that only a few Class Members could afford to seek legal redress for Defendant's misconduct. Absent a class action, Class Members will continue to incur damages, and Defendant's misconduct will continue without remedy.

839. This action satisfies the requirements of Fed. R. Civ. P. 23(b)(2) because Defendant New GM has acted and refused to act on grounds generally applicable to each Class, thereby making appropriate final injunctive and/or corresponding declaratory relief with respect to each Class as a whole.

840. This action satisfies the requirements of Fed. R. Civ. P. 23(b)(3) because a class action is superior to other available methods for the fair and efficient adjudication of this controversy. The common questions of law and of fact regarding New GM's conduct and responsibility predominate over any questions affecting only individual Class members.

841. Because the damages suffered by each individual Class member may be relatively small, the expense and burden of individual litigation would make it very difficult or impossible for individual Class members to redress the wrongs done to each of them individually, such that most or all class members would have no rational economic interest in individually controlling the prosecution of specific actions, and the burden imposed on the judicial system by individual litigation by even a small fraction of the Class would be enormous, making class adjudication the superior alternative under Fed. R. Civ. P. 23(b)(3)(A).

842. The claims in this Complaint have been centralized in this forum as MDL proceedings pursuant to 28 U.S.C. § 1407. Essentially all related litigation already begun by GM customers asserting ignition switch-related class claims is now consolidated in this forum. The ongoing concentration of such claims in this forum, at least through the class certification determination and the trial of bellwether class claims, is superior, under Fed. R. Civ. P. 23(b)(3)(B) and (C), to the premature dispersion of these claims or individualized treatment of these claims.

843. The conduct of this action as a class action presents far fewer management difficulties, far better conserves judicial resources and the parties' resources, and far more effectively protects the rights of each Class member than would piecemeal litigation. Compared to the expense, burdens, inconsistencies, economic infeasibility, and inefficiencies of individualized litigation, the challenges of managing this action as a class action are substantially outweighed by the benefits to the legitimate interests of the parties, the court, and the public of class treatment in this court, making class adjudication superior to other alternatives, under Fed. R. Civ. P. 23(b)(3)(D).

844. Plaintiffs are not aware of any obstacles likely to be encountered in the management of this action that would preclude its maintenance as a class action. Rule 23 provides the Court with authority and flexibility to maximize the efficiencies and benefits of the class mechanism and reduce management challenges. The Court may, on motion of Plaintiffs or on its own determination, certify nationwide, statewide and/or multistate classes for claims sharing common legal questions; utilize the provisions of Rule 23(c)(4) to certify any particular claims, issues, or common questions of fact or law for classwide adjudication;

certify and adjudicate bellwether class claims; and utilize Rule 23(c)(5) to divide any Class into subclasses.

845. The Classes expressly disclaim any recovery, in this action, for physical injury resulting from the ignition switch defects without waiving or dismissing such claims. Plaintiffs are informed and believe that crashes implicating the Defective Vehicles are continuing to occur because of New GM's delays and inaction regarding the commencement and completion of recalls. The increased risk of injury from the ignition switch defects serves as an independent justification for the relief sought by Plaintiffs and the Class.

REALLEGATION AND INCORPORATION BY REFERENCE

846. Plaintiffs reallege and incorporate by reference all of the preceding paragraphs and allegations of this Complaint, including the Introduction, all Factual Allegations, Tolling Allegations, Successor Liability Allegations, Choice of Law Allegations, and Class Action Allegations, as though fully set forth in each of the following Claims for Relief asserted on behalf of the Nationwide Class and the Statewide Classes.

CLAIMS FOR RELIEF

I. NATIONWIDE CLASS CLAIMS

FIRST CLAIM FOR RELIEF
ON BEHALF OF NATIONWIDE CLASS

VIOLATION OF THE MAGNUSON-MOSS WARRANTY ACT
15 U.S.C. § 2301 *et. seq.*

847. Plaintiffs bring this Count on behalf of members of the Nationwide Class who are residents of the following States: Alaska, Arkansas, California, Colorado, Delaware, District of Columbia, Hawaii, Indiana, Kansas, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Oklahoma,

Pennsylvania, Rhode Island, South Carolina, South Dakota, Texas, Utah, Virginia, West Virginia and Wyoming.

848. This Court has jurisdiction to decide claims brought under 15 U.S.C. § 2301 by virtue of 28 U.S.C. § 1332 (a)-(d).

849. The Defective Vehicles are "consumer products" within the meaning of the Magnuson-Moss Warranty Act, 15 U.S.C. § 2301(1).

850. Plaintiffs are "consumers" within the meaning of the Magnuson-Moss Warranty Act, 15 U.S.C. § 2301(3). They are consumers because they are persons entitled under applicable state law to enforce against the warrantor the obligations of its express and implied warranties.

851. Old GM was a "supplier" and "warrantor" within the meaning of the Magnuson-Moss Warranty Act, 15 U.S.C. § 2301(4)-(5).

852. 15 U.S.C. § 2310(d)(1) provides a cause of action for any consumer who is damaged by the failure of a warrantor to comply with a written or implied warranty.

853. Old and New GM provided Plaintiffs and the other Class members with an implied warranty of merchantability in connection with the purchase or lease of their vehicles that is an "implied warranty" within the meaning of the Magnuson-Moss Warranty Act, 15 U.S.C. § 2301(7). As a part of the implied warranty of merchantability, Old and New GM warranted that the Defective Vehicles were fit for their ordinary purpose as safe passenger motor vehicles, would pass without objection in the trade as designed, manufactured, and marketed, and were adequately contained, packaged, and labeled. Mich. Comp. Laws § 440.2314(2)(a), (c), and (e); U.C.C. § 2-314.

854. Old and New GM breached these implied warranties, as described in more detail above, and are therefore liable to Plaintiffs and the Class pursuant to 15 U.S.C. § 2310(d)(1). Without limitation, the Defective Vehicles share common design defects in that they are equipped with defective Key Systems that can suddenly fail during normal operation, leaving occupants of the Defective Vehicles vulnerable to crashes, serious injury, and death. New GM has admitted that the Defective Vehicles are defective in issuing its recalls, but the recalls are woefully insufficient to address each of the defects.

855. In its capacity as a warrantor, as Old and New GM had knowledge of the inherent defects in the Defective Vehicles, any efforts to limit the implied warranties in a manner that would exclude coverage of the Defective Vehicles is unconscionable, and any such effort to disclaim, or otherwise limit, liability for the Defective Vehicles is null and void.

856. The limitations on the warranties are procedurally unconscionable. There was unequal bargaining power between Old GM and Plaintiffs and the other Class members, as, at the time of purchase and lease, Plaintiffs and the other Class members had no other options for purchasing warranty coverage other than directly from Old GM.

857. The limitations on the warranties are substantively unconscionable. Old and N that the Defective Vehicles were defective and would continue to pose safety risks after the warranties purportedly expired. Old and New GM failed to disclose these defects to Plaintiffs and the other Class members. Thus, New GM's enforcement of the durational limitations on those warranties is harsh and shocks the conscience.

858. Plaintiffs and each of the other Class members have had sufficient direct dealings with either Old or New GM or its agents (dealerships) to establish privity of contract. Nonetheless, privity is not required here because Plaintiffs and each of the other Class

members are intended third-party beneficiaries of contracts between Old and New GM and its dealers, and specifically, of the implied warranties. The dealers were not intended to be the ultimate consumers of the Defective Vehicles and have no rights under the warranty agreements provided with the Defective Vehicles; the warranty agreements were designed for and intended to benefit consumers. Finally, privity is also not required because the Defective Vehicles are dangerous instrumentalities due to the aforementioned defects and nonconformities.

859. Pursuant to 15 U.S.C. § 2310(e), Plaintiffs are entitled to bring this class action and are not required to give New GM notice and an opportunity to cure until such time as the Court determines the representative capacity of Plaintiffs pursuant to Rule 23 of the Federal Rules of Civil Procedure.

860. Furthermore, affording either Old or New GM an opportunity to cure its breach of written warranties would be unnecessary and futile here. At the time of sale or lease of each Defective Vehicle, Old GM knew, should have known, or was reckless in not knowing of its misrepresentations concerning the Defective Vehicles' inability to perform as warranted, but nonetheless failed to rectify the situation and/or disclose the defective design. Under the circumstances, the remedies available under any informal settlement procedure would be inadequate and any requirement that Plaintiffs resort to an informal dispute resolution procedure and/or afford Old GM a reasonable opportunity to cure its breach of warranties is excused and thereby deemed satisfied.

861. Plaintiffs and the other Class members would suffer economic hardship if they returned their Defective Vehicles but did not receive the return of all payments made by them. Because New GM is refusing to acknowledge any revocation of acceptance and return

immediately any payments made, Plaintiffs and the other Class members have not re-accepted their Defective Vehicles by retaining them.

862. The amount in controversy of Plaintiffs' individual claims meets or exceeds the sum of $25. The amount in controversy of this action exceeds the sum of $50,000, exclusive of interest and costs, computed on the basis of all claims to be determined in this lawsuit. Plaintiffs, individually and on behalf of the other Class members, seek all damages permitted by law, including diminution in value of their vehicles, in an amount to be proven at trial. In addition, pursuant to 15 U.S.C. § 2310(d)(2), Plaintiffs and the other Class members are entitled to recover a sum equal to the aggregate amount of costs and expenses (including attorneys' fees based on actual time expended) determined by the Court to have reasonably been incurred by Plaintiffs and the other Class members in connection with the commencement and prosecution of this action.

863. Further, Plaintiffs and the Class are also entitled to equitable relief under 15 U.S.C. § 2310(d)(1). Based on New GM's continuing failures to fix the known dangerous defects, Plaintiffs seek a declaration that New GM has not adequately implemented its recall commitments and requirements and general commitments to fix its failed processes, and injunctive relief in the form of judicial supervision over the recall process is warranted. Plaintiffs also seek the establishment of the New GM-funded program for Plaintiffs and Class members to recover out of pocket costs incurred, as discussed in Paragraphs __ above.

864. Plaintiffs also request, as a form of equitable monetary relief, re-payment of the out-of-pocket expenses and costs they have incurred in attempting to rectify the Ignition Switch Defects in their vehicles. Such expenses and losses will continue as Plaintiffs and Class members must take time off from work, pay for rental cars or other transportation

arrangements, child care, and the myriad expenses involved in going through the recall process.

865. The right of Class members to recover these expenses as an equitable matter to put them in the place they would have been but for Old and New GM's conduct presents common questions of law. Equity and fairness requires the establishment by Court decree and administration under Court supervision of a program funded by New GM, using transparent, consistent, and reasonable protocols, under which such claims can be made and paid.

SECOND CLAIM FOR RELIEF
ON BEHALF OF THE NATIONWIDE CLASS

BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY
(MICH. COMP. LAWS § 440.2314)

866. This claim is brought on behalf of the Nationwide Class for breach of implied warranty under Michigan law.

867. Old GM and New GM were merchants with respect to motor vehicles within the meaning of MICH. COMP. LAWS § 440.2314(1).

868. Under MICH. COMP. LAWS § 440.2314, a warranty that the Defective Vehicles were in merchantable condition was implied by law in the transactions when Michigan Class members purchased their Defective Vehicles.

869. These vehicles, when sold and at all times thereafter, were not merchantable and are not fit for the ordinary purpose for which cars are used. Specifically, the Defective Vehicles are inherently defective in that there are defects in the ignition switch systems that permit sudden unintended shutdown to occur, with the attendant shutdown of power steering and power brakes and the non-deployment of airbags in the event of a collision.

870. Old GM and New GM were provided notice of these issues by numerous complaints filed against them, internal investigations, and by numerous individual letters and

communications sent by the Michigan Class before or within a reasonable amount of time after New GM issued the recall and the allegations of vehicle defects became public.

871. As a direct and proximate result of Old GM and New GM's breach of the implied warranty of merchantability, the Michigan Class has been damaged in an amount to be proven at trial. New GM also has successor liability for Old GM's breach.

872. The Michigan Class also seeks available equitable and/or injunctive relief. Based on New GM's continuing failures to fix the known dangerous defects, the Michigan Class seeks a declaration that New GM has not adequately implemented its recall commitments and requirements and general commitments to fix its failed processes, and injunctive relief in the form of judicial supervision over the recall process is warranted. The Michigan Class also seeks the establishment of a New GM-funded program for Plaintiffs and Class members to recover out of pocket costs incurred.

THIRD CLAIM FOR RELIEF
ON BEHALF OF NATIONWIDE CLASS

FRAUDULENT CONCEALMENT

873. This claim is brought on behalf of the Nationwide Class under Michigan law, or, alternatively, under the laws of the all states, as there is no material difference in the law of fraudulent concealment as applied to the claims and questions in this case.

874. Old and New GM each concealed and suppressed material facts concerning the Defective Vehicles.

875. As described above, Old GM and New GM each made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

876. The Companies each knew these representations were false when made.

877. The vehicles purchased or leased by Plaintiffs were, in fact, defective, unsafe and unreliable, because the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

878. The Companies each had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision, because Plaintiffs relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

879. The aforementioned concealment was material, because if it had been disclosed Plaintiffs would not have bought, leased or retained their vehicles.

880. The aforementioned representations were also material because they were facts that would typically be relied on by a person purchasing, leasing or retaining a new or used motor vehicle. The Companies each knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies each intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

881. Plaintiffs relied on the Companies' reputation-along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurances that their vehicles were safe and reliable and other similar false statements-in purchasing, leasing or retaining the Defective Vehicles.

882. However, Old and New GM each concealed and suppressed material facts concerning the culture of Old and New GM-a culture that emphasized cost-cutting, avoidance of dealing with safety issues and a shoddy design process.

883. Further, Old and then New GM each had a duty to disclose the true facts about the Defective Vehicles because they were known and/or accessible only to Old and then New GM who had superior knowledge and access to the facts, and the facts were not known to or reasonably discoverable by Plaintiff and the Classes. As stated above, these omitted and concealed facts were material because they directly impact the safety, reliability and value of the Defective Vehicles. Whether a manufacturer's products are safe and reliable, and whether that manufacturer stands behind its products, is of material concern to a reasonable consumer.

FOURTH CLAIM FOR RELIEF
ON BEHALF OF NATIONWIDE CLASS

UNJUST ENRICHMENT

880. This claim for unjust enrichment is brought on behalf of the Nationwide Class under Michigan law, or alternatively, under the laws of all states as there is no material difference in the law of unjust enrichment as it applies to the claims and questions in this case.

881. New GM has received and retained a benefit from the Plaintiffs and the Nationwide Class, and inequity has resulted.

882. New GM benefitted from acquiring the assets and goodwill of Old GM, and avoiding and delaying the effort and expenditures involved in recalling and repairing the Defective Vehicles; while Plaintiffs, who originally overpaid for their Old GM cars, have been forced to pay additional out-of-pocket costs and incur additional expense and losses in connection with the belated recalls.

883. It is inequitable for New GM to retain the benefits of its misconduct.

884. As a result of New GM's conduct, the amount of New GM's unjust enrichment should be disgorged, in an amount according to proof.

II. STATE CLASS CLAIMS

ALABAMA

FIFTH CLAIM FOR RELIEF

VIOLATION OF ALABAMA DECEPTIVE TRADE PRACTICES ACT (ALA. CODE § 8-19-1, *et. seq.*)

885. The Class Members who are Alabama residents (the "Alabama Class") are "consumers" within the meaning of ALA. CODE §8-19-3(2).

886. The Alabama Class, Old GM, and New GM are "persons" within the meaning of ALA. CODE §8-19-3(5).

887. The Defective Vehicles are "goods" within the meaning of ALA. CODE §8-19-3(3).

888. The Companies were engaged in "trade or commerce" within the meaning of ALA. CODE §8-19-3(8).

889. The Alabama Deceptive Trade Practices Act ("Alabama DTPA") declares several specific actions to be unlawful, including: "(5) Representing that goods or services have sponsorship, approval, characteristics, ingredients, uses, benefits, or qualities that they do not have," "(7) Representing that goods or services are of a particular standard, quality, or grade, or that goods are of a particular style or model, if they are of another," and "(27) Engaging in any other unconscionable, false, misleading, or deceptive act or practice in the conduct of trade or commerce." ALA. CODE § 8-19-5. By failing to disclose and actively concealing the dangerous risk of ignition switch movement, engine shutdown, and airbag disabling in Defective Vehicles, New GM engaged in deceptive business practices prohibited

by the Alabama DTPA, including: representing that Defective Vehicles have characteristics, uses, benefits, and qualities which they do not have; representing that Class Vehicles are of a particular standard, quality, and grade when they are not; advertising Defective Vehicles with the intent not to sell or lease them as advertised; representing that the subject of a transaction involving Defective Vehicles has been supplied in accordance with a previous representation when it has not; and engaging in any other unconscionable, false, misleading, or deceptive act or practice in the conduct of trade or commerce.

890. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the Alabama DTPA, and also has successor liability for the violations of Old GM.

891. As alleged above, both Companies knew of the ignition switch defects, while the Alabama Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

892. The Companies knew or should have known that their conduct violated the Alabama DTPA.

893. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

894. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shut down in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

895. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

896. The Companies each owed the Alabama Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the Alabama Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the Alabama Class that contradicted these representations.

897. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the Alabama Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

898. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the Alabama Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Alabama Class.

899. The propensity of the Defective Vehicles to inadvertently shut down during ordinary operation was material to the Alabama Class. Had the Alabama Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

900. All members of the Alabama Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The Alabama Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the Alabama Class own vehicles that are not safe.

901. The Alabama Class have been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

902. The Alabama Class Members risk irreparable injury as a result of the Companies' act and omissions in violation of the Alabama DTPA, and these violations present a continuing risk to the Alabama Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

903. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

904. As a direct and proximate result of the Companies' violations of the Alabama DTPA, the Alabama Class have suffered injury-in-fact and/or actual damage.

905. Pursuant to ALA. CODE § 8-19-10, the Alabama Class seeks monetary relief against New GM measured as the greater of (a) actual damages in an amount to be determined at trial and (b) statutory damages in the amount of $100 for each Alabama Class Member.

906. The Alabama Class also seeks an order enjoining New GM's unfair, unlawful, and/or deceptive practices, attorneys' fees, and any other just and proper relief available under the ALA. CODE §8-19-1, *et. seq.*

907. Alabama Plaintiffs have complied with the notice requirement set forth in Alabama Code § 8-19-10 by virtue of the notice previously provided in the context of the underlying action styled *Forbes, et al. v. GM*, 2:14-cv-02018-GP (E.D. Pa.) and other underlying actions, as well as additional notice in the form of a demand letter sent on October 12, 2014.

SIXTH CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

908. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought only on behalf of the Alabama Class.

909. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

910. The Companies knew these representations were false when made.

911. The vehicles purchased or leased by the Alabama Class were, in fact, defective, unsafe and unreliable, because the vehicles were subject to sudden unintended shut down, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

912. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shut down, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision, because the Alabama Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

913. The aforementioned concealment was material, because if it had been disclosed the Alabama Class would not have bought, leased or retained their vehicles.

914. The aforementioned representations were also material because they were facts that would typically be relied on by a person purchasing, leasing or retaining a new or used motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

915. The Alabama Class relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements—in purchasing, leasing or retaining the Defective Vehicles.

916. As a result of their reliance, the Alabama Class has been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

917. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the Alabama Class. The Alabama Class is therefore entitled to an award of punitive damages.

ALASKA

SEVENTH CLAIM FOR RELIEF

VIOLATION OF THE ALASKA UNFAIR TRADE PRACTICES AND CONSUMER PROTECTION ACT (ALASKA STAT. ANN. § 45.50.471, *et. seq.*)

918. This claim is brought on behalf of Class members who are Alaska residents (the "Alaska Class").

919. The Alaska Unfair Trade Practices And Consumer Protection Act ("Alaska CPA") declares unfair methods of competition and unfair or deceptive acts or practices in the

conduct of trade or commerce unlawful, including: "(4) representing that goods or services have sponsorship, approval, characteristics, ingredients, uses, benefits, or quantities that they do not have or that a person has a sponsorship, approval, status, affiliation, or connection that the person does not have;" "(6) representing that goods or services are of a particular standard, quality, or grade, or that goods are of a particular style or model, if they are of another;" "(8) advertising goods or services with intent not to sell them as advertised;" or "(12) using or employing deception, fraud, false pretense, false promise, misrepresentation, or knowingly concealing, suppressing, or omitting a material fact with intent that others rely upon the concealment, suppression or omission in connection with the sale or advertisement of goods or services whether or not a person has in fact been misled, deceived or damaged." ALASKA STAT. ANN. § 45.50.471.

920. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein. Old GM and New GM also engaged in unlawful trade practices by representing that the Defective Vehicles have characteristics, uses, benefits, and qualities which they do not have; representing that the Defective Vehicles are of a particular standard and quality when they are not; advertising the Defective Vehicles with the intent not to sell them as advertised; and omitting material facts in describing the Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the Alaska CPA, and also has successor liability for the violations of Old GM.

921. As alleged above, both Companies knew of the ignition switch defects, while the Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

922. The Companies knew or should have known that their conduct violated the Alaska CPA.

923. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

924. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shut down in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

925. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

926. The Companies each owed the Alaska Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the Alaska Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the Alaska Class that contradicted these representations.

927. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the Alaska Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

928. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the Alaska Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Alaska Class.

929. The propensity of the Defective Vehicles to inadvertently shut down during ordinary operation was material to the Alaska Class. Had the Alaska Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

930. All members of the Alaska Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The Alaska Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the

Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the Alaska Class own vehicles that are not safe.

931. The Alaska Class has been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

932. The Alaska Class Members risk irreparable injury as a result of the Companies' act and omissions in violation of the Alaska CPA, and these violations present a continuing risk to the Alaska Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

933. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

934. As a direct and proximate result of the Companies' violations of the Alaska CPA, the Alaska Class has suffered injury-in-fact and/or actual damage.

935. Pursuant to ALASKA STAT. ANN. § 45.50. 535(b)(1), the Alaska Class seek monetary relief against New GM measured as the greater of (a) three times the actual damages in an amount to be determined at trial and (b) statutory damages in the amount of $500 for each Alaska Class member.

936. Plaintiffs also seek an order enjoining New GM's unfair, unlawful, and/or deceptive practices, attorneys' fees, and any other just and proper relief available under the Alaska CPA.

937. On October 12, 2014, Plaintiffs sent a notice letter complying with Alaska Stat. § 45.50.535. Plaintiffs presently do not claim the damages relief asserted in this Complaint under the Alaska CPA until and unless New GM fails to remedy its unlawful conduct towards the class within the requisite time period, after which Plaintiffs seek all damages and relief to which Plaintiffs and the Alaska Class are entitled

EIGHTH CLAIM FOR RELIEF

BREACH OF THE IMPLIED WARRANTY OF MERCHANTABILITY (ALASKA STAT. § 45.02.314)

938. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought only on behalf of the Alaska Class members.

939. Old GM was a merchant with respect to motor vehicles within the meaning of ALASKA STAT. § 45.02.104(a).

940. Under ALASKA STAT. § 45.02.314, a warranty that the Defective Vehicles were in merchantable condition was implied by law in the transactions when the Alaska Class purchased their Defective Vehicles.

941. These vehicles, when sold and at all times thereafter, were not merchantable and are not fit for the ordinary purpose for which cars are used. Specifically, the Defective Vehicles are inherently defective in that there are defects in the ignition switch systems that permit sudden unintended shutdown to occur, with the attendant shut down of power steering and power brakes and the nondeployment of airbags in the event of a collision.

942. Old GM and New GM were provided notice of these issues by numerous complaints filed against them, internal investigations, and by numerous individual letters and communications sent by the Alaska Class before or within a reasonable amount of time after GM issued the recall and the allegations of vehicle defects became public.

943. As a direct and proximate result of Old GM and New GM's breach of the implied warranty of merchantability, the Alaska Class has been damaged in an amount to be proven at trial. New GM also has successor liability for Old GM's breach.

NINTH CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

944. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought only on behalf of the Alaska Class members.

945. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

946. The Companies knew these representations were false when made.

947. The vehicles purchased or leased by the Alaska Class were, in fact, defective, unsafe and unreliable, because the vehicles were subject to sudden unintended shut down, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

948. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shut down, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision, because the Alaska Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

949. The aforementioned concealment was material, because if it had been disclosed the Alaska Class would not have bought, leased or retained their vehicles.

950. The aforementioned representations were also material because they were facts that would typically be relied on by a person purchasing, leasing or retaining a new or used motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

951. The Alaska Class relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements—in purchasing, leasing or retaining the Defective Vehicles.

952. As a result of their reliance, the Alaska Class has been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

953. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the Alaska Class. The Alaska Class are therefore entitled to an award of punitive damages.

ARIZONA

TENTH CLAIM FOR RELIEF

VIOLATIONS OF THE CONSUMER FRAUD ACT
(ARIZONA REV. STAT. § 44-1521, *et. seq.*)

954. This claim is brought on behalf of Class members who are Arizona residents (the "Arizona Class").

955. The Companies, and the Arizona Class, are "persons" within the meaning of the Arizona Consumer Fraud Act ("Arizona CFA"), ARIZ. REV. STAT. § 44-1521(6).

956. The Defective Vehicles are "merchandise" within the meaning of ARIZ. REV. STAT. § 44-1521(5).

957. The Arizona CFA provides that "[t]he act, use or employment by any person of any deception, deceptive act or practice, fraud,. . . misrepresentation, or concealment, suppression or omission of any material fact with intent that others rely on such concealment, suppression or omission, in connection with the sale . . . of any merchandise whether or not any person has in fact been misled, deceived or damaged thereby, is declared to be an unlawful practice." ARIZ. REV. STAT. § 44-1522(A).

958. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the Arizona CFA, and also has successor liability for the violations of Old GM.

959. As alleged above, both Companies knew of the ignition switch defects, while the Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

960. The Companies knew or should have known that their conduct violated the Arizona CFA.

961. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

962. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shut down in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

963. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

964. The Companies each owed the Arizona Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the Arizona Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the Arizona Class that contradicted these representations.

965. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the Arizona Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

966. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the Arizona Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Arizona Class.

967. The propensity of the Defective Vehicles to inadvertently shut down during ordinary operation was material to the Arizona Class. Had the Arizona Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

968. All members of the Arizona Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The Arizona Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the Arizona Class own vehicles that are not safe.

969. The Arizona Class have been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

970. The Arizona Class members risk irreparable injury as a result of the Companies' act and omissions in violation of the Arizona CFA, and these violations present a continuing risk to the Arizona Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

971. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

972. As a direct and proximate result of the Companies' violations of the Arizona CFA, the Arizona Class has suffered injury-in-fact and/or actual damage.

973. The Arizona Class seeks monetary relief against New GM in an amount to be determined at trial. The Arizona Class also seeks punitive damages because the Companies engaged in aggravated and outrageous conduct with an evil mind.

974. The Arizona Class also seeks an order enjoining New GM's unfair, unlawful, and/or deceptive practices, attorneys' fees, and any other just and proper relief available under the Arizona CFA.

ELEVENTH CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

975. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought only on behalf of the Arizona Class.

976. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

977. The Companies knew these representations were false when made.

978. The vehicles purchased or leased by the Arizona Class were, in fact, defective, unsafe and unreliable, because the vehicles were subject to sudden unintended shut down, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

979. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shut down, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision, because the Arizona Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

980. The aforementioned concealment was material, because if it had been disclosed the Arizona Class would not have bought, leased or retained their vehicles.

981. The aforementioned representations were also material because they were facts that would typically be relied on by a person purchasing, leasing or retaining a new or used motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

982. The Arizona Class relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements—in purchasing, leasing or retaining the Defective Vehicles.

983. As a result of their reliance, the Arizona Class has been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

984. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the Arizona Class. The Arizona Class are therefore entitled to an award of punitive damages.

ARKANSAS

TWELFTH CLAIM FOR RELIEF

VIOLATIONS OF THE DECEPTIVE TRADE PRACTICE ACT
(ARK. CODE ANN. § 4-88-101, *et. seq.*)

985. This claim is brought on behalf of Class members who are Arkansas residents (the "Arkansas Class").

986. The Companies, and the Arkansas Class, are "persons" within the meaning of Arkansas Deceptive Trade Practices Act ("Arkansas DTPA"), ARK. CODE ANN. § 4-88-102(5).

987. The Class Vehicles are "goods" within the meaning of ARK. CODE ANN. § 4-88-102(4).

988. The Arkansas DTPA prohibits "[d]eceptive and unconscionable trade practices," which include but are not limited to a list of enumerated items, including "[e]ngaging in any other unconscionable, false, or deceptive act or practice in business, commerce, or trade[.]" ARK. CODE ANN. § 4-88-107(a)(10). The Arkansas DTPA also prohibits the following when

utilized in connection with the sale or advertisement of any goods: "(1) The act, use, or employment by any person of any deception, fraud, or false pretense; or (2) The concealment, suppression, or omission of any material fact with intent that others rely upon the concealment, suppression, or omission." ARK. CODE ANN. § 4-88-108. The Companies violated the Arkansas DTPA and engaged in deceptive and unconscionable trade practices by failing to disclose and actively concealing the dangerous ignition switch defects in the Defective Vehicles.

989. The Companies' actions as set forth above occurred in the conduct of trade or commerce.

990. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the Arkansas DTPA, and also has successor liability for the violations of Old GM.

991. As alleged above, both Companies knew of the ignition switch defects, while the Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

992. The Companies knew or should have known that their conduct violated the Arkansas DTPA.

993. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

994. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shut down in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

995. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

996. The Companies each owed the Arkansas Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the Arkansas Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the Arkansas Class that contradicted these representations.

997. The Defective Vehicles posed and/or posed an unreasonable risk of death or serious bodily injury to the Arkansas Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

998. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the Arkansas Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Arkansas Class.

999. The propensity of the Defective Vehicles to inadvertently shut down during ordinary operation was material to the Arkansas Class. Had the Arkansas Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

1000. The Arkansas Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The Arkansas Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the Arkansas Class own vehicles that are not safe.

1001. The Arkansas Class has been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

1002. The Arkansas Class Members risk irreparable injury as a result of the Companies' act and omissions in violation of the Arkansas DTPA, and these violations present a continuing risk to the Arkansas Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

1003. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

1004. As a direct and proximate result of the Companies' violations of the Arkansas DTPA, the Arkansas Class have suffered injury-in-fact and/or actual damage.

1005. The Arkansas Class seeks monetary relief against New GM in an amount to be determined at trial. The Arkansas Class also seeks punitive damages because the Companies acted wantonly in causing the injury or with such a conscious indifference to the consequences that malice may be inferred.

1006. The Arkansas Class also seeks an order enjoining New GM's unfair, unlawful, and/or deceptive practices, attorneys' fees, and any other just and proper relief available under the Arkansas DTPA.

THIRTEENTH CLAIM FOR RELIEF

BREACH OF THE IMPLIED WARRANTY OF MERCHANTABILITY (ARK. CODE ANN. § 4-2-314)

1007. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought only on behalf of the Arkansas Class.

1008. Old GM was a merchant with respect to motor vehicles within the meaning of ARK. CODE ANN. § 4-2-104(1).

1009. Under ARK. CODE ANN. § 4-2-314, a warranty that the Defective Vehicles were in merchantable condition was implied by law in the transactions when the Arkansas Class purchased their Defective Vehicles.

1010. These vehicles, when sold and at all times thereafter, were not merchantable and are not fit for the ordinary purpose for which cars are used. Specifically, the Defective Vehicles are inherently defective in that there are defects in the ignition switch systems that permit sudden unintended shutdown to occur, with the attendant shut down of power steering and power brakes and the nondeployment of airbags in the event of a collision.

1011. Old GM and New GM were provided notice of these issues by numerous complaints filed against them, internal investigations, and by numerous individual letters and communications sent by the Arkansas Class before or within a reasonable amount of time after New GM issued the recall and the allegations of vehicle defects became public.

1012. As a direct and proximate result of Old GM and New GM's breach of the implied warranty of merchantability, the Arkansas Class have been damaged in an amount to be proven at trial. New GM also has successor liability for Old GM's breach.

FOURTEENTH CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

1013. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought only on behalf of Class members who are Arkansas residents.

1014. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

1015. The Companies knew these representations were false when made.

1016. The vehicles purchased or leased by the Arkansas Class were, in fact, defective, unsafe and unreliable, because the vehicles were subject to sudden unintended shut down, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

1017. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shut down, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision, because the Arkansas Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

1018. The aforementioned concealment was material, because if it had been disclosed the Arkansas Class would not have bought, leased or retained their vehicles.

1019. The aforementioned representations were also material because they were facts that would typically be relied on by a person purchasing, leasing or retaining a new or used motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

1020. The Arkansas Class relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements—in purchasing, leasing or retaining the Defective Vehicles.

1021. As a result of their reliance, the Arkansas Class has been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

1022. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the Arkansas Class. The Arkansas Class are therefore entitled to an award of punitive damages.

CALIFORNIA

FIFTEENTH CLAIM FOR RELIEF

VIOLATIONS OF THE CONSUMER LEGAL REMEDIES ACT
(CAL. CIV. CODE § 1750, *et. seq.*)

1023. This claim is brought on behalf of Class members who are California residents (the "California Class").

1024. New GM is a "person" under CAL. CIV. CODE § 1761(c).

1025. The California Class are "consumers," as defined by CAL. CIVIL CODE § 1761(d), who purchased or leased one or more Defective Vehicles.

1026. The California Legal Remedies Act ("CLRA") prohibits "unfair or deceptive acts or practices undertaken by any person in a transaction intended to result or which results in the sale or lease of goods or services to any consumer[.]" CAL. CIV. CODE § 1770(a). Old GM and New GM have engaged in unfair or deceptive acts or practices that violated CAL. CIV. CODE § 1750, *et. seq.*, as described above and below, by among other things, representing that

Defective Vehicles have characteristics, uses, benefits, and qualities which they do not have; representing that Defective Vehicles are of a particular standard, quality, and grade when they are not; advertising Defective Vehicles with the intent not to sell or lease them as advertised; and representing that the subject of a transaction involving Defective Vehicles has been supplied in accordance with a previous representation when it has not.

1027. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the CLRA, and also has successor liability for the violations of Old GM.

1028. As alleged above, both Companies knew of the ignition switch defects, while the California Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

1029. The Companies knew or should have known that their conduct violated the CLRA.

1030. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

1031. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shut down in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

1032. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

1033. The Companies each owed the California Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the California Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the California Class that contradicted these representations.

1034. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the California Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

1035. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the California Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the California Class.

1036. New GM has also violated the CLRA by violating the TREAD Act, 49 U.S.C. §§ 30101, *et. seq.*, and its accompanying regulations. Under the TREAD Act and its regulations, if a manufacturer learns that a vehicle contains a defect and that defect is related to motor vehicle safety, the manufacturer must disclose the defect. 49 U.S.C. § 30118(c)(1) & (2).

1037. In acquiring Old GM, New GM expressly assumed the obligations to make all required disclosures under the TREAD Act with respect to all Defective Vehicles. New GM also has successor liability for the deceptive and unfair acts and omissions of Old GM.

1038. Under the TREAD Act, if it is determined that the vehicle is defective, the manufacturer must promptly notify vehicle owners, purchasers and dealers of the defect and remedy the defect. 49 U.S.C. § 30118(b)(2)(A) & (B).

1039. Under the TREAD Act, manufacturers must also file a report with NHTSA within five working days of discovering "a defect in a vehicle or item of equipment has been determined to be safety related, or a noncompliance with a motor vehicle safety standard has been determined to exist." 49 C.F.R. § 573.6(a) & (b). At a minimum, the report to NHTSA

must include: the manufacturer's name; the identification of the vehicles or equipment containing the defect, including the make, line, model year and years of manufacturing; a description of the basis for determining the recall population; how those vehicles differ from similar vehicles that the manufacturer excluded from the recall; and a description of the defect. 49 C.F.R. § 276.6(b), (c)(1), (c)(2), & (c)(5).

1040. The manufacturer must also promptly inform NHTSA regarding: the total number of vehicles or equipment potentially containing the defect; the percentage of vehicles estimated to contain the defect; a chronology of all principal events that were the basis for the determination that the defect related to motor vehicle safety, including a summary of all warranty claims, field or service reports, and other information, with its dates of receipt; and a description of the plan to remedy the defect. 49 C.F.R. § 276.6(b) & (c).

1041. The TREAD Act provides that any manufacturer who violates 49 U.S.C. § 30166 must pay a civil penalty to the U.S. Government. The current penalty "is $7,000 per violation per day," and the maximum penalty "for a related series of daily violations is $17,350,000." 49 C.F.R. § 578.6(c).

1042. From at least 2001, Old GM had knowledge of the ignition switch defect, but hid the problem for the remainder of its existence until 2009.

1043. From the date of its inception on July 5, 2009, New GM knew of the ignition switch problem both because of the knowledge of Old GM personnel who remained at New GM and continuous reports and internal investigation right up until the present.

1044. New GM admits the defect in the ignition switch has been linked to at least 13 accident-related fatalities. But other sources have reported that hundreds of deaths and serious injuries are linked to the faulty ignition switches.

1045. Despite being aware of the ignition switch defects ever since its creation on July 5, 2009, New GM waited until February 7, 2014, before finally sending a letter to NHTSA confessing its knowledge of the ignition switch defects which could cause the vehicles to lose power, and in turn cause the airbags not to deploy. New GM initially identified two vehicle models, along with the corresponding model years, affected by the defect—the 2005-2007 Chevrolet Cobalt and the 2007 Pontiac G5. On February 25, 2014, New GM amended its letter to include four additional vehicles, the 2006-2007 Chevrolet HHR, 2006-2007 Pontiac Solstice, 2003-2007 Saturn Ion, and the 2007 Saturn Sky. In late March 2014, New GM added later model-year Ions and Cobalts (through 2010), HHRs through 2011, and Skys through 2010.

1046. By failing to disclose and by actively concealing the ignition switch defect, and by selling vehicles while violating the TREAD Act and through its other conduct as alleged herein, Old GM and New GM both engaged in deceptive business practices prohibited by the CLRA, CAL. CIV. CODE § 1750, *et. seq.*

1047. Both Old GM and New GM failed for many years to inform NHTSA about known defects in the Defective Vehicles' ignition system. Consequently, the public, including the California Class, received no notice of the ignition switch defects, that the defect could disable multiple electrical functions including power steering and power brakes, or that the defect could cause the airbags not to deploy in an accident.

1048. Old GM and then New GM knew that the ignition switch had a defect that could cause a vehicle's engine to lose power without warning, and that when the engine lost power there was a risk that electrical functions would fail and that the airbags would not

deploy. Yet Old GM and New GM failed to inform NHTSA or warn the California Class or the public about these inherent dangers despite having a duty to do so.

1049. New GM owed the California Class a duty to comply with the TREAD Act and disclose the defective nature of the Defective Vehicles, including the ignition switch defect and accompanying loss of power and failure of the airbags to deploy, because New GM:

a. Possessed exclusive knowledge of the ignition switch defects rendering the Defective Vehicles inherently more dangerous and unreliable than otherwise similar vehicles; and

b. Intentionally concealed the hazardous situation with the Defective Vehicles by failing to comply with the TREAD Act, which required the disclosure of the ignition switch defects.

1050. Defective Vehicles equipped with the faulty ignition switch posed and/or pose an unreasonable risk of death or serious bodily injury to the California Class, passengers, other motorists, and pedestrians, because they are susceptible to sudden loss of power resulting in the loss of power steering and power brakes and failure of the airbags to deploy.

1051. Old GM and New GM's unfair or deceptive acts or practices were likely to and did in fact deceive reasonable consumers, including the California Class, about the true safety and reliability of the Defective Vehicles.

1052. The propensity of the Defective Vehicles to inadvertently shut down during ordinary operation was material to the California Class. Had the California Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

1053. All members of the California Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The California Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the California Class own vehicles that are not safe.

1054. The California Class has been proximately and directly damaged by Old GM and New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of the Companies' failure to timely disclose and remedy the serious defects. New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

1055. The California Class Members risk irreparable injury as a result of the Companies' act and omissions in violation of the CLRA, and these violations present a continuing risk to the California Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

1056. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles. Moreover, notwithstanding its obligations under the TREAD Act and the CLRA, New GM has not yet

disclosed that the low placement of the ignition column and the fact that the airbags shut off as soon as the key hits the "accessory" or "off" position are also defects. This failure to disclose continues to pose a grave risk to the California Class.

1057. As a direct and proximate result of the Companies' violations of the CLRA, and the California Class have suffered injury-in-fact and/or actual damage.

1058. Under CAL. CIV. CODE § 1780(a), the California Class seeks monetary relief against New GM measured as the diminution of the value of their vehicles caused by Old GM's and New GM's violations of the CLRA as alleged herein.

1059. Under CAL. CIV. CODE § 1780(b), the California Class seeks an additional award against New GM of up to $5,000 for each California Class member who qualifies as a "senior citizen" or "disabled person" under the CLRA. Old GM and New GM knew or should have known that their conduct was directed to one or more Class members who are senior citizens or disabled persons. Old GM's and New GM's conduct caused one or more of these senior citizens or disabled persons to suffer a substantial loss of property set aside for retirement or for personal or family care and maintenance, or assets essential to the health or welfare of the senior citizen or disabled person. One or more California Class members who are senior citizens or disabled persons are substantially more vulnerable to Old GM's and New GM's conduct because of age, poor health or infirmity, impaired understanding, restricted mobility, or disability, and each of them suffered substantial physical, emotional, or economic damage resulting from Old GM's and New GM's conduct.

1060. The California Class also seeks punitive damages against New GM because it carried out reprehensible conduct with willful and conscious disregard of the rights and safety of others, subjecting the Class to potential cruel and unjust hardship as a result. First Old GM

and then New GM intentionally and willfully concealed and failed to inform NHTSA of the unsafe and unreliable Defective Vehicles, deceived the California Class on life-or-death matters, and concealed material facts that only they knew, all to avoid the expense and public relations problem of correcting a deadly flaw in the Defective Vehicles. New GM's unlawful conduct constitutes malice, oppression, and fraud warranting punitive damages under CAL. CIV. CODE § 3294.

1061. The California Class further seeks an order enjoining New GM's unfair or deceptive acts or practices, restitution, punitive damages, costs of court, attorneys' fees under CAL. CIV. CODE § 1780(e), and any other just and proper relief available under the CLRA.

1062. California Plaintiffs have complied with the notice requirement set forth in CAL. CIV. CODE § 1780(b) by virtue of the notice previously provided in the context of the underlying action styled *Ramirez, et al. v. GM*, 2:14-cv-02344-JVS-AN (C.D. Cal.), and other underlying actions, as well as additional notice in the form of a demand letter sent on October 12, 2014.

SIXTEENTH CLAIM FOR RELIEF

VIOLATION OF THE CALIFORNIA UNFAIR COMPETITION LAW
(CAL. BUS. & PROF. CODE § 17200, *et. seq.*)
(Asserted on Behalf of the California Class)

1063. This Claim for Relief is brought by the California Class.

1064. California Business and Professions Code § 17200 prohibits acts of "unfair competition," including any "unlawful, unfair or fraudulent business act or practice" and "unfair, deceptive, untrue or misleading advertising. . . ." The Companies engaged in conduct that violated each of this statute's three prongs.

1065. The Companies committed an unlawful business act or practice in violation of § 17200 by their violations of the Consumer Legal Remedies Act, Cal. Civ. Code § 1750, *et. seq.*, as set forth above, by the acts and practices set forth in this Complaint.

1066. New GM has also violated the unlawful prong because it has engaged in violations of National Traffic and Motor Vehicle Safety Act of 1996, codified at 49 U.S.C. § 30101, *et. seq.*, and its regulations.

1067. Federal Motor Vehicle Safety Standard ("FMVSS") 573 governs a motor vehicle manufacturer's responsibility to notify the NHTSA of a motor vehicle defect within five days of determining that a defect in a vehicle has been determined to be safety-related. *See* 49 C.F.R. § 573.6.

1068. Defendant violated the reporting requirements of FMVSS 573 requirement by failing to report the Ignition Switch Defect or any of the other Defects within five days of determining the defect existed, and failing to recall all affected vehicles.

1069. Defendant violated the common-law claim of negligent failure to recall, in that New GM knew or should have known that the Defective Vehicles were dangerous and/or were likely to be dangerous when used in a reasonably foreseeable manner; New GM became aware of the attendant risks after the Defective Vehicles were sold; New GM continued to gain information further corroborating the Ignition Switch Defects; and New GM failed to adequately recall the Defective Vehicles in a timely manner, which failure was a substantial factor in causing the California Class harm, including diminished value and out-of-pocket costs.

1070. Defendant committed unfair business acts and practices in violation of § 17200 when it concealed the existence and nature of the Ignition Switch Defect and the other Defects

and represented that the Class Vehicles were reliable and safe when, in fact, they are not. The Ignition Switch Defect and the other Defects present safety hazards for occupants of the Class Vehicles.

1071. New GM also violated the unfairness prong of § 17200 by failing to properly administer the numerous recalls of Defendant's vehicles for the Initiation Switch Defect and the other Defects. As alleged above, the recalls have proceeded unreasonably slowly in light of the safety-related nature of the Defects, and have been plagued with shortages of replacement parts as well as a paucity of loaner vehicles available for Class Members whose Vehicles are in the process of being repaired. Even worse, many consumers continue to experience safety problems with the Defective Vehicles, even after the defective parts have been replaced pursuant to the recalls.

1072. Defendant violated the fraudulent prong of § 17200 because the misrepresentations and omissions regarding the safety and reliability of their vehicles as set forth in this Complaint were likely to deceive a reasonable consumer, and the information would be material to a reasonable consumer.

1073. Defendant committed fraudulent business acts and practices in violation of § 17200 when they concealed the existence and nature of the Ignition Switch Defect and the other Defects, while representing in their marketing, advertising, and other broadly disseminated representations that the Class Vehicles were reliable and safe when, in fact, they are not. Defendant's representations and active concealment of the Defect are likely to mislead the public with regard to the true defective nature of the Class Vehicles.

1074. Defendant has violated the unfair prong of § 17200 because the acts and practices set forth in the Complaint, including the manufacture and sale of vehicles with the

Ignition Switch Defect that unintentionally shifts from the "run" position to the "accessory" or "off" position causing loss of electrical power and turning off the engine, and Defendant's failure to adequately investigate, disclose and remedy, offend established public policy, and because the harm they cause to consumers greatly outweighs any benefits associated with those practices. Defendant's conduct has also impaired competition within the automotive vehicles market and has prevented the California Class from making fully informed decisions about whether to purchase or lease Class Vehicles and/or the price to be paid to purchase or lease Class Vehicles.

1075. The California Class has suffered injuries in fact, including the loss of money or property, as a result of Defendant's unfair, unlawful, and/or deceptive practices. As set forth in the allegations concerning each California Class member, in purchasing or leasing their vehicles, the California Class relied on the misrepresentations and/or omissions of Defendant with respect of the safety and reliability of the vehicles. Defendant's representations turned out not to be true. Had the California Class known this they would not have purchased or leased their Class Vehicles and/or paid as much for them.

1076. All of the wrongful conduct alleged herein occurred, and continues to occur, in the conduct of Defendant's businesses. Defendant's wrongful conduct is part of a pattern or generalized course of conduct that is still perpetuated and repeated, both in the State of California and nationwide.

1077. As a direct and proximate result of Defendant's unfair and deceptive practices, the California Class Members have suffered and will continue to suffer actual damages.

1078. The California Class requests that this Court enter such orders or judgments as may be necessary to enjoin New GM from continuing its unfair, unlawful, and/or deceptive

practices, as provided in Cal. Bus. & Prof. Code § 17203; and for such other relief set forth below.

1079. The California Class also requests equitable and injunctive relief in the form of Court supervision of New GM's numerous recalls of the various Class Vehicles, to ensure that all affected vehicles are recalled and that the recalls properly and adequately cure the Ignition Switch Defect and the other Defects.

SEVENTEENTH CLAIM FOR RELIEF

VIOLATION OF SONG-BEVERLY CONSUMER WARRANTY ACT FOR BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY (CALIFORNIA "LEMON LAW") (CAL. CIV. CODE §§ 1791.1 & 1792)

1080. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought solely on behalf of the California Class.

1081. The California Class members who purchased or leased the Defective Vehicles in California are "buyers" within the meaning of CAL. CIV. CODE § 1791(b).

1082. The Defective Vehicles are "consumer goods" within the meaning of CIV. CODE § 1791(a).

1083. Old GM was a "manufacturer" of the Defective Vehicles within the meaning of CAL. CIV. CODE § 1791(j), and, in purchasing Old GM, New GM expressly assumed liability and responsibility for "payment of all [Old GM's] Liabilities arising under…Lemon Laws," including California's Lemon Law, the Song-Beverly Act.

1084. Old GM and New GM impliedly warranted to the California Class that its Defective Vehicles were "merchantable" within the meaning of CAL. CIV. CODE §§ 1791.1(a) & 1792; however, the Defective Vehicles do not have the quality that a buyer would reasonably expect, and were therefore not merchantable.

1085. CAL. CIV. CODE § 1791.1(a) states:

> "Implied warranty of merchantability" or "implied warranty that goods are merchantable" means that the consumer goods meet each of the following:
>
> (1) Pass without objection in the trade under the contract description.
>
> (2) Are fit for the ordinary purposes for which such goods are used.
>
> (3) Are adequately contained, packaged, and labeled.
>
> (4) Conform to the promises or affirmations of fact made on the container or label.

1086. The Defective Vehicles would not pass without objection in the automotive trade because of the ignition switch defects that cause the Defective Vehicles to inadvertently shut down during ordinary driving conditions, leading to an unreasonable likelihood of accident and an unreasonable likelihood that such accidents would cause serious bodily harm or death to vehicle occupants.

1087. Because of the ignition switch defects, the Defective Vehicles are not safe to drive and thus not fit for ordinary purposes.

1088. The Defective Vehicles are not adequately labeled because the labeling fails to disclose the ignition switch defects and does not advise Class members to avoid attaching anything to their vehicle key rings. Old GM and New GM failed to warn about the dangerous safety defects in the Defective Vehicles.

1089. Old GM and New GM breached the implied warranty of merchantability by manufacturing and selling Defective Vehicles containing defects leading to the sudden and unintended shut down of the vehicles during ordinary driving conditions. These defects have

deprived the California Class of the benefit of their bargain and have caused the Defective Vehicles to depreciate in value.

1090. Notice of breach is not required because the California Class members did not purchase their automobiles directly from New GM.

1091. As a direct and proximate result of Old GM and New GM's breach of their duties under California's Lemon Law (for which New GM expressly assumed liability), the California Class members received goods whose dangerous condition substantially impairs their value to the California Class members. The California Class has been damaged by the diminished value of the vehicles, the products' malfunctioning, and the non-use of their Defective Vehicles.

1092. Under CAL. CIV. CODE §§ 1791.1(d) & 1794, the California Class members are entitled to damages and other legal and equitable relief including, at their election, the purchase price of their Defective Vehicles, or the overpayment or diminution in value of their Defective Vehicles.

1093. Under CAL. CIV. CODE § 1794, the California Class members are entitled to costs and attorneys' fees.

EIGHTEENTH CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

1094. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought only on behalf of the California Class.

1095. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

1096. The Companies knew these representations were false when made.

1097. The vehicles purchased or leased by the California Class were, in fact, defective, unsafe and unreliable, because the vehicles were subject to sudden unintended shut down, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

1098. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shut down, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision, because the California Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

1099. The aforementioned concealment was material, because if it had been disclosed the California Class would not have bought, leased or retained their vehicles.

1100. The aforementioned representations were also material because they were facts that would typically be relied on by a person purchasing, leasing or retaining a new or used motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

1101. The California Class relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements—in purchasing, leasing or retaining the Defective Vehicles.

1102. As a result of their reliance, the California Class has been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

1103. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the California Class. The California Class are therefore entitled to an award of punitive damages.

NINETEENTH CLAIM FOR RELIEF

VIOLATION OF CALIFORNIA'S FALSE ADVERTISING LAW
CAL. BUS. & PROF. CODE § 17500, *et. seq.*
(Asserted on Behalf of the California Class)

1104. This Claim for Relief is brought by the California Class.

1105. California Business and Professions Code § 17500 states: "It is unlawful for any… corporation… with intent directly or indirectly to dispose of real or personal property… to induce the public to enter into any obligation relating thereto, to make or disseminate or cause to be made or disseminated… from this state before the public in any state, in any newspaper or other publication, or any advertising device,… or in any other manner or means whatever, including over the Internet, any statement… which is untrue or misleading, and which is known, or which by the exercise of reasonable care should be known, to be untrue or misleading...."

1106. Defendant caused to be made or disseminated through California and the United States, through advertising, marketing and other publications, statements that were untrue or misleading, and which were known, or which by the exercise of reasonable care should have been known to the Defendant, to be untrue and misleading to consumers and the California Class.

1107. Defendant violated section 17500 because the misrepresentations and omissions regarding the safety and reliability of their vehicles as set forth in this Complaint were material and likely to deceive a reasonable consumer.

1108. The California Class Members have suffered injuries in fact, including the loss of money or property, as a result of Defendant' unfair, unlawful, and/or deceptive practices. In purchasing or leasing their vehicles, the California Class Members relied on the misrepresentations and/or omissions of Defendant with respect to the safety and reliability of their vehicles. Defendant' representations turned out not to be true. Had the California Class Members known this, they would not have purchased or leased their Class Vehicles and/or paid as much for them.

1109. Accordingly, the California Class Members overpaid for their Class Vehicles and did not receive the benefit of their bargain. One way to measure this overpayment, or lost benefit of the bargain, at the moment of purchase is by the value consumers place on the vehicles now that the truth has been exposed. Both trade-in prices and auction prices for Class Vehicles have declined as a result of Defendant' misconduct. This decline in value measures the overpayment, or lost benefit of the bargain, at the time of the California Class Members' purchases.

1110. All of the wrongful conduct alleged herein occurred, and continues to occur, in the conduct of Defendant' businesses. Defendant' wrongful conduct is part of a pattern or generalized course of conduct that is still perpetuated and repeated, both in the State of California and nationwide.

1111. The California Class requests that this Court enter such orders or judgments as may be necessary to enjoin Defendant from continuing their unfair, unlawful, and/or deceptive practices, and for such other relief set forth below.

TWENTIETH CLAIM FOR RELIEF

NEGLIGENT FAILURE TO RECALL
(Asserted on Behalf of the California Class)

1112. This claim is brought on behalf of the California Class.

1113. New GM knew or reasonably should have known that the Defective Vehicles were dangerous and/or were likely to be dangerous when used in a reasonably foreseeable manner.

1114. New GM either knew of the ignition switch-related defects in the Defective Vehicles before the vehicles were sold, or became aware of them and their attendant risks after the vehicles was sold.

1115. New GM continued to gain information further corroborating the ignition switch-related defects and their risks from its inception until this year.

1116. New GM failed to adequately recall the Defective Vehicles in a timely manner.

1117. Purchasers of the Defective Vehicles, including the California Class, were harmed by New GM's failure to adequately recall all the Defective Vehicles in a timely manner and have suffered damages, including, without limitation, damage to other components of the Defective Vehicles caused by the ignition switch-related defects, the diminished value of the Defective Vehicles, the cost of modification of the defective ignition switch systems, and the costs associated with the loss of use of the Defective Vehicles.

1118. New GM's failure to timely and adequately recall the Defective Vehicles was a substantial factor in causing the purchasers' harm, including that of the California Class.

COLORADO

TWENTY-FIRST CLAIM FOR RELIEF

VIOLATIONS OF THE COLORADO CONSUMER PROTECTION ACT
(COL. REV. STAT. § 6-1-101, *et. seq.*)

1119. This claim is brought on behalf of Class members who are Colorado residents (the "Colorado Class").

1120. Old GM and New GM are "persons" under § 6-1-102(6) of the Colorado Consumer Protection Act ("Colorado CPA"), COL. REV. STAT. § 6-1-101, *et. seq.*

1121. The Colorado Class members are "consumers" for purposes of COL. REV. STAT § 6-1-113(1)(a) who purchased or leased one or more Defective Vehicles.

1122. The Colorado CPA prohibits deceptive trade practices in the course of a person's business. Old GM and New GM engaged in deceptive trade practices prohibited by the Colorado CPA, including: (1) knowingly making a false representation as to the characteristics, uses, and benefits of the Defective Vehicles that had the capacity or tendency to deceive Class members; (2) representing that the Defective Vehicles are of a particular standard, quality, and grade even though both Companies knew or should have known they are not; (3) advertising the Defective Vehicles with the intent not to sell them as advertised; and (4) failing to disclose material information concerning the Defective Vehicles that was known to Old GM and New GM at the time of advertisement or sale with the intent to induce Class members to purchase, lease or retain the Defective Vehicles.

1123. The Companies' actions as set forth above occurred in the conduct of trade or commerce.

1124. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective

Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the Colorado CPA, and also has successor liability for the violations of Old GM.

1125. As alleged above, both Companies knew of the ignition switch defects, while the Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

1126. The Companies knew or should have known that their conduct violated the Colorado CPA.

1127. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

1128. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shut down in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

1129. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the

defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

1130. The Companies each owed the Colorado Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the Colorado Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the Colorado Class that contradicted these representations.

1131. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the Colorado Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

1132. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the Colorado Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Colorado Class.

1133. The propensity of the Defective Vehicles to inadvertently shut down during ordinary operation was material to the Colorado Class. Had the Colorado Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

1134. All members of the Colorado Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The Colorado Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the Colorado Class own vehicles that are not safe.

1135. The Colorado Class have been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

1136. The Colorado Class Members risk irreparable injury as a result of the Companies' act and omissions in violation of the Colorado CPA, and these violations present

a continuing risk to the Colorado Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

1137. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

1138. As a direct and proximate result of the Companies' violations of the Colorado CPA, the Colorado Class have suffered injury-in-fact and/or actual damage.

1139. Pursuant to COLO. REV. STAT. § 6-1-113, the Colorado Class seeks monetary relief against New GM measured as the greater of (a) actual damages in an amount to be determined at trial and discretionary trebling of such damages, or (b) statutory damages in the amount of $500 for each Colorado Class Member.

1140. The Colorado Class also seeks an order enjoining New GM's unfair, unlawful, and/or deceptive practices, declaratory relief, attorneys' fees, and any other just and proper relief available under the Colorado CPA.

TWENTY-SECOND CLAIM FOR RELIEF

BREACH OF THE IMPLIED WARRANTY OF MERCHANTABILITY (COL. REV. STAT. § 4-2-314)

1141. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought solely on behalf of Class members who are Colorado residents.

1142. Old and New GM were merchants with respect to motor vehicles within the meaning of COL. REV. STAT. § 4-2-314.

1143. Under COL. REV. STAT. § 4-2-314, a warranty that the Defective Vehicles were in merchantable condition was implied by law in the transactions when the Colorado Class purchased their Defective Vehicles.

1144. These vehicles, when sold and at all times thereafter, were not merchantable and are not fit for the ordinary purpose for which cars are used. Specifically, the Defective Vehicles are inherently defective in that there are defects in the ignition switch systems that permit sudden unintended shutdown to occur, with the attendant shut down of power steering and power brakes and the nondeployment of airbags in the event of a collision.

1145. Old GM and New GM were provided notice of these issues by numerous complaints filed against them, internal investigations, and by numerous individual letters and communications sent by the Colorado Class before or within a reasonable amount of time after New GM issued the recall and the allegations of vehicle defects became public.

1146. As a direct and proximate result of Old GM and New GM's breach of the implied warranty of merchantability, the Colorado Class has been damaged in an amount to be proven at trial. New GM has successor liability for Old GM's breach.

TWENTY-THIRD CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

1147. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought solely on behalf of the Colorado Class.

1148. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

1149. The Companies knew these representations were false when made.

1150. The vehicles purchased or leased by the Colorado Class were, in fact, defective, unsafe and unreliable, because the vehicles were subject to sudden unintended shut down, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

1151. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shut down, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision, because the Colorado Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

1152. The aforementioned concealment was material, because if it had been disclosed the Colorado Class would not have bought, leased or retained their vehicles.

1153. The aforementioned representations were also material because they were facts that would typically be relied on by a person purchasing, leasing or retaining a new or used motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

1154. The Colorado Class relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements—in purchasing, leasing or retaining the Defective Vehicles.

1155. As a result of their reliance, the Colorado Class have been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

1156. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the Colorado Class. The Colorado Class are therefore entitled to an award of punitive damages.

CONNECTICUT

TWENTY-FOURTH CLAIM FOR RELIEF

VIOLATION OF CONNECTICUT UNLAWFUL TRADE PRACTICES ACT
(CONN. GEN. STAT. § 42-110a, *et. seq.*)

1157. This claim is brought on behalf of Class members who are Connecticut residents (the "Connecticut Class").

1158. The Connecticut Unfair Trade Practices Act ("Connecticut UTPA") provides: "No person shall engage in unfair methods of competition and unfair or deceptive acts or practices in the conduct of any trade or commerce." CONN. GEN. STAT. § 42-110b(a).

1159. Old GM was, and New GM is, a "person" within the meaning of CONN. GEN. STAT. § 42-110a(3). Both Companies were engaged in in "trade" or "commerce" within the meaning of CONN. GEN. STAT. § 42-110a(4).

1160. Old GM and New GM participated in deceptive trade practices that violated the Connecticut UTPA as described herein. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the Connecticut UTPA, and also has successor liability for the violations of Old GM.

1161. As alleged above, both Companies knew of the ignition switch defects, while the Connecticut Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

1162. The Companies knew or should have known that their conduct violated the Connecticut UTPA.

1163. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

1164. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shut down in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

1165. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

1166. The Companies each owed the Connecticut Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the Connecticut Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the Connecticut Class that contradicted these representations.

1167. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the Connecticut Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

1168. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the Connecticut Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Connecticut Class.

1169. The propensity of the Defective Vehicles to inadvertently shut down during ordinary operation was material to the Connecticut Class. Had the Connecticut Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

1170. All members of the Connecticut Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The Connecticut Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and

failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the Connecticut Class own vehicles that are not safe.

1171. The Connecticut Class has been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

1172. The Connecticut Class Members risk irreparable injury as a result of the Companies' act and omissions in violation of the Connecticut UTPA, and these violations present a continuing risk to the Connecticut Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

1173. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

1174. As a direct and proximate result of the Companies' violations of the Connecticut UTPA, the Connecticut Class has suffered injury-in-fact and/or actual damage.

1175. The Connecticut Class is entitled to recover their actual damages, punitive damages, and attorneys' fees pursuant to CONN. GEN. STAT. § 42-110g.

1176. New GM and Old GM acted with a reckless indifference to another's rights or wanton or intentional violation to another's rights and otherwise engaged in conduct amounting to a particularly aggravated, deliberate disregard of the rights and safety of others.

1177. Pursuant to CONN. GEN. STAT. § 42-110g(c), the Connecticut Class will mail a copy of the complaint to Connecticut's Attorney General.

TWENTY-FIFTH CLAIM FOR RELIEF

FRAUDULENT CONCEALMENT

1178. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought solely on behalf of the Connecticut Class.

1179. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

1180. The Companies knew these representations were false when made.

1181. The vehicles purchased or leased by the Connecticut Class were, in fact, defective, unsafe and unreliable, because the vehicles were subject to sudden unintended shut down, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

1182. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shut down, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision, because the Connecticut Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

1183. The aforementioned concealment was material, because if it had been disclosed the Connecticut Class would not have bought, leased or retained their vehicles.

1184. The aforementioned representations were also material because they were facts that would typically be relied on by a person purchasing, leasing or retaining a new or used motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

1185. The Connecticut Class relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements—in purchasing, leasing or retaining the Defective Vehicles.

1186. As a result of their reliance, the Connecticut Class has been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

1187. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the Connecticut Class. The Connecticut Class is therefore entitled to an award of punitive damages.

DELAWARE

TWENTY-SIXTH CLAIM FOR RELIEF

VIOLATION OF THE DELAWARE CONSUMER FRAUD ACT
(6 DEL. CODE § 2513, *et. seq.*)

1188. This claim is brought on behalf of Class members who are Delaware residents (the "Delaware Class").

1189. New GM and Old GM are both "persons" within the meaning of 6 DEL. CODE § 2511(7).

1190. The Delaware Consumer Fraud Act ("Delaware CFA") prohibits the "act, use or employment by any person of any deception, fraud, false pretense, false promise, misrepresentation, or the concealment, suppression, or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale, lease or advertisement of any merchandise, whether or not any person has in fact been misled, deceived or damaged thereby." 6 DEL. CODE § 2513(a).

1191. Old GM and New GM participated in deceptive trade practices that violated the Delaware CFA as described herein. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the Delaware CFA, and also has successor liability for the violations of Old GM.

1192. As alleged above, both Companies knew of the ignition switch defects, while the Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

1193. The Companies knew or should have known that their conduct violated the Delaware CFA.

1194. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

1195. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shut down in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

1196. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

1197. The Companies each owed the Delaware Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the Delaware Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the Delaware Class that contradicted these representations.

1198. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the Delaware Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

1199. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the Delaware Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Delaware Class.

1200. The propensity of the Defective Vehicles to inadvertently shut down during ordinary operation was material to the Delaware Class. Had the Delaware Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

1201. All members of the Delaware Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The Delaware Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the Delaware Class own vehicles that are not safe.

1202. The Delaware Class have been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

1203. The Delaware Class Members risks irreparable injury as a result of the Companies' act and omissions in violation of the Delaware CFA, and these violations present a continuing risk to the Delaware Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

1204. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

1205. As a direct and proximate result of the Companies' violations of the Delaware CFA, the Delaware Class have suffered injury-in-fact and/or actual damage.

1206. The Delaware Class seeks damages under the Delaware CFA for injury resulting from the direct and natural consequences of the Companies' unlawful conduct. *See*, *e.g.*, *Stephenson v. Capano Dev.*, *Inc.*, 462 A.2d 1069, 1077 (Del. 1983). The Delaware Class also seeks an order enjoining New GM's unfair, unlawful, and/or deceptive practices, declaratory relief, attorneys' fees, and any other just and proper relief available under the Delaware CFA.

1207. New GM and Old GM engaged in gross, oppressive, or aggravated conduct justifying the imposition of punitive damages.

TWENTY-SEVENTH CLAIM FOR RELIEF

VIOLATION OF THE DELAWARE DECEPTIVE TRADE PRACTICES ACT
(6 DEL. CODE § 2532, *et. seq.*)

1208. Old GM and New GM are "persons" within the meaning of 6 DEL. CODE § 2531(5).

1209. Delaware's Deceptive Trade Practices Act ("Delaware DTPA") prohibits a person from engaging in a "deceptive trade practice," which includes: "(5) Represent[ing] that goods or services have sponsorship, approval, characteristics, ingredients, uses, benefits, or quantities that they do not have, or that a person has a sponsorship, approval, status, affiliation, or connection that the person does not have"; "(7) Represent[ing] that goods or services are of a particular standard, quality, or grade, or that goods are of a particular style or model, if they are of another"; "(9) Advertis[ing] goods or services with intent not to sell them as advertised"; or "(12) Engag[ing] in any other conduct which similarly creates a likelihood of confusion or of misunderstanding." 6 DEL. CODE § 2532.

1210. Old GM and New GM engaged in deceptive trade practices in violation of the Delaware DTPA by willfully failing to disclose and actively concealing the dangerous risk of ignition switch defects in the Defective Vehicles as described above. The Companies also engaged in deceptive trade practices in violation of the Delaware DTPA by representing that the Defective Vehicles have characteristics, uses, benefits, and qualities which they do not have; representing that the Defective Vehicles are of a particular standard and quality when they are not; advertising the Defective Vehicles with the intent not to sell them as advertised; and otherwise engaging in conduct likely to deceive.

1211. The Companies' actions as set forth above occurred in the conduct of trade or commerce.

1212. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the Delaware DTPA, and also has successor liability for the violations of Old GM.

1213. As alleged above, both Companies knew of the ignition switch defects, while the Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

1214. The Companies knew or should have known that their conduct violated the Delaware DTPA.

1215. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

1216. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently

shut down in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

1217. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

1218. The Companies each owed the Delaware Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the Delaware Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the Delaware Class that contradicted these representations.

1219. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the Delaware Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

1220. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the Delaware Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Delaware Class.

1221. The propensity of the Defective Vehicles to inadvertently shut down during ordinary operation was material to the Delaware Class. Had the Delaware Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

1222. All members of the Delaware Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The Delaware Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the Delaware Class own vehicles that are not safe.

1223. The Delaware Class has been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in New GM vehicles, have so tarnished the Defective Vehicles that

no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

1224. The Delaware Class Members risk irreparable injury as a result of the Companies' act and omissions in violation of the Delaware DTPA, and these violations present a continuing risk to the Delaware Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

1225. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

1226. As a direct and proximate result of the Companies' violations of the Delaware DTPA, the Delaware Class have suffered injury-in-fact and/or actual damage.

1227. The Delaware Class seeks injunctive relief and, if awarded damages under Delaware common law or Delaware Consumer Fraud Act, treble damages pursuant to 6 DEL. CODE § 2533(c).

1228. The Delaware Class also seeks punitive damages based on the outrageousness and recklessness of the Companies' conduct and the high net worth of New GM.

TWENTY-EIGHTH CLAIM FOR RELIEF

BREACH OF THE IMPLIED WARRANTY OF MERCHANTABILITY (6 DEL. CODE § 2-314)

1229. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought solely on behalf of the Delaware Class.

1230. Old GM and New GM were merchants with respect to motor vehicles within the meaning of 6 DEL. CODE § 2-104(1).

1231. Under 6 DEL. CODE § 2-314, a warranty that the Defective Vehicles were in merchantable condition was implied by law in the transactions when the Delaware Class purchased their Defective Vehicles.

1232. These vehicles, when sold and at all times thereafter, were not merchantable and are not fit for the ordinary purpose for which cars are used. Specifically, the Defective Vehicles are inherently defective in that there are defects in the ignition switch systems that permit sudden unintended shutdown to occur, with the attendant shut down of power steering and power brakes and the nondeployment of airbags in the event of a collision.

1233. Old GM and New GM were provided notice of these issues by numerous complaints filed against them, internal investigations, and by numerous individual letters and communications sent by the Delaware Class before or within a reasonable amount of time after New GM issued the recall and the allegations of vehicle defects became public.

1234. As a direct and proximate result of Old GM and New GM's breach of the implied warranty of merchantability, the Delaware Class have been damaged in an amount to be proven at trial. New GM has successor liability for Old GM's breach.

TWENTY-NINTH CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

1235. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought solely on behalf of Class members who are Delaware residents.

1236. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

1237. The Companies knew these representations were false when made.

1238. The vehicles purchased or leased by the Delaware Class were, in fact, defective, unsafe and unreliable, because the vehicles were subject to sudden unintended shut down,

with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

1239. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shut down, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision, because the Delaware Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

1240. The aforementioned concealment was material, because if it had been disclosed the Delaware Class would not have bought, leased or retained their vehicles.

1241. The aforementioned representations were also material because they were facts that would typically be relied on by a person purchasing, leasing or retaining a new or used motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

1242. The Delaware Class relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements—in purchasing, leasing or retaining the Defective Vehicles.

1243. As a result of their reliance, the Delaware Class has been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

1244. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the Delaware Class. The Delaware Class is therefore entitled to an award of punitive damages.

DISTRICT OF COLUMBIA

THIRTIETH CLAIM FOR RELIEF

VIOLATION OF THE CONSUMER PROTECTION PROCEDURES ACT
(D.C. CODE § 28-3901, *et. seq.*)

1245. This claim is brought on behalf of Class members who are District of Columbia residents (the "District of Columbia Class").

1246. Old GM and New GM are "persons" under the Consumer Protection Procedures Act ("District of Columbia CPPA"), D.C. CODE § 28-3901(a)(1).

1247. Class members are "consumers," as defined by D.C. CODE § 28-3901(1)(2), who purchased or leased one or more Defective Vehicles.

1248. Old GM's and New GM's actions as set forth herein constitute "trade practices" under D.C. CODE § 28-3901.

1249. Both Old GM and New GM participated in unfair or deceptive acts or practices that violated the District of Columbia CPPA. By failing to disclose and actively concealing the ignition switch defect in the Defective Vehicles, Old GM and New GM engaged in unfair or deceptive practices prohibited by the District of Columbia CPPA, D.C. CODE § 28-3901, *et. seq.*, including: (1) representing that the Defective Vehicles have characteristics, uses, benefits, and qualities which they do not have; (2) representing that the Defective Vehicles are of a particular standard, quality, and grade when they are not; (3) advertising the Defective Vehicles with the intent not to sell them as advertised; (4) representing that the subject of a transaction involving the Defective Vehicles has been supplied in accordance with a previous

representation when it has not; (5) misrepresenting as to a material fact which has a tendency to mislead; and (6) failing to state a material fact when such failure tends to mislead.

1250. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the District of Columbia CPPA, and also has successor liability for the violations of Old GM.

1251. As alleged above, both Companies knew of the ignition switch defects, while the Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

1252. The Companies knew or should have known that their conduct violated the District of Columbia CPPA.

1253. As alleged above, each of the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

1254. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently

shut down in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

1255. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

1256. The Companies each owed the District of Columbia Class an independent duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the District of Columbia Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the District of Columbia Class that contradicted these representations.

1257. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the District of Columbia Class, passengers, other motorists,

pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

1258. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the District of Columbia Class, about the true safety and reliability of Defective Vehicles. The Companies each intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the District of Columbia Class.

1259. The propensity of the Defective Vehicles to inadvertently shut down during ordinary operation was material to the District of Columbia Class. Had the District of Columbia Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

1260. All members of the District of Columbia Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The District of Columbia Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the District of Columbia Class own vehicles that are not safe.

1261. The District of Columbia Class has been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's

egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

1262. The District of Columbia Class Members risk irreparable injury as a result of the Companies' act and omissions in violation of the District of Columbia CPPA, and these violations present a continuing risk to the District of Columbia Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

1263. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

1264. As a direct and proximate result of the Companies' violations of the District of Columbia CPPA, the District of Columbia Class has suffered injury-in-fact and/or actual damage.

1265. The District of Columbia Class is entitled to recover from New GM treble damages or $1,500, whichever is greater, punitive damages, reasonable attorneys' fees, and any other relief the Court deems proper, under D.C. CODE § 28-3901.

1266. The District of Columbia Class seeks punitive damages against New GM because both Old GM's and New GM's conduct evidences malice and/or egregious conduct. Old GM and New GM maliciously and egregiously misrepresented the safety and reliability of the Defective Vehicles, deceived Class members on life-or-death matters, and concealed material facts that only it knew, all to avoid the expense and public relations nightmare of correcting a deadly flaw in the Defective Vehicles it repeatedly promised Class members were

safe. Old GM's and New GM's unlawful conduct constitutes malice warranting punitive damages.

THIRTY-FIRST CLAIM FOR RELIEF

BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY (D.C. CODE § 28:2-314)

1267. In the event that the Court declines to certify a nationwide class under Michigan law, this claim is brought solely on behalf of Class members who are District of Columbia residents.

1268. Old GM and New GM were merchants with respect to motor vehicles within the meaning of D.C. CODE § 28:2-104(1).

1269. Under D.C. CODE § 28:2-314, a warranty that the Defective Vehicles were in merchantable condition was implied by law in the transactions when the District of Columbia Class purchased their Defective Vehicles.

1270. These vehicles, when sold and at all times thereafter, were not merchantable and are not fit for the ordinary purpose for which cars are used. Specifically, the Defective Vehicles are inherently defective in that there are defects in the ignition switch systems that permit sudden unintended shutdown to occur, with the attendant shut down of power steering and power brakes and the nondeployment of airbags in the event of a collision.

1271. Old GM and New GM were provided notice of these issues by numerous complaints filed against them, internal investigations, and by numerous individual letters and communications sent by the District of Columbia Class before or within a reasonable amount of time after New GM issued the recall and the allegations of vehicle defects became public.

1272. As a direct and proximate result of Old GM's breach of the implied warranty of merchantability, the District of Columbia Class has been damaged in an amount to be proven at trial. New GM has successor liability for Old GM's breach.

THIRTY-SECOND CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

1273. In the event that the Court declines to certify a nationwide class under Michigan law, this claim is brought solely on behalf of the District of Columbia Class.

1274. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

1275. The Companies knew these representations were false when made.

1276. The vehicles purchased or leased by the District of Columbia Class were, in fact, defective, unsafe and unreliable, because the vehicles were subject to sudden unintended shut down, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

1277. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shut down, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision, because the District of Columbia Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

1278. The aforementioned concealment was material, because if it had been disclosed the District of Columbia Class would not have bought, leased or retained their vehicles.

1279. The aforementioned representations were also material because they were facts that would typically be relied on by a person purchasing, leasing or retaining a new or used

motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

1280. The District of Columbia Class relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements—in purchasing, leasing or retaining the Defective Vehicles.

1281. As a result of their reliance, the District of Columbia Class has been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

1282. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the District of Columbia Class. The District of Columbia Class are therefore entitled to an award of punitive damages.

FLORIDA

THIRTY-THIRD CLAIM FOR RELIEF

VIOLATION OF FLORIDA'S UNFAIR & DECEPTIVE TRADE PRACTICES ACT (FLA. STAT. § 501.201, *et. seq.*)

1283. This claim is brought solely on behalf of Class members who are Florida residents (the "Florida Class").

1284. The Florida Class are "consumers" within the meaning of Florida Unfair and Deceptive Trade Practices Act ("FUDTPA"), FLA. STAT. § 501.203(7).

1285. The Companies engaged in "trade or commerce" within the meaning of FLA. STAT. § 501.203(8).

1286. FUDTPA prohibits "[u]nfair methods of competition, unconscionable acts or practices, and unfair or deceptive acts or practices in the conduct of any trade or commerce.…" FLA. STAT. § 501.204(1). Old GM and New GM participated in unfair and deceptive trade practices that violated the FUDTPA as described herein.

1287. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defect in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the FUDTPA, and also has successor liability for the violations of Old GM.

1288. As alleged above, both Companies knew of the ignition switch defects, while the Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

1289. The Companies knew or should have known that their conduct violated the FUDTPA.

1290. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

1291. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shutdown in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

1292. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

1293. The Companies each owed the Florida Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the Florida Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the Florida Class that contradicted these representations.

1294. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the Florida Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

1295. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the Florida Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Florida Class.

1296. The propensity of the Defective Vehicles to inadvertently shutdown during ordinary operation was material to the Florida Class. Had the Florida Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

1297. All members of the Florida Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The Florida Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the Florida Class own vehicles that are not safe.

1298. The Florida Class have been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's egregious and widely-

publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

1299. The Florida Class Members risk irreparable injury as a result of the Companies' act and omissions in violation of the FUDTPA, and these violations present a continuing risk to the Florida Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

1300. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

1301. As a direct and proximate result of the Companies' violations of the FUDTPA, the Florida Class has suffered injury-in-fact and/or actual damage.

1302. The Florida Class are entitled to recover their actual damages under FLA. STAT. § 501.211(2) and attorneys' fees under FLA. STAT. § 501.2105(1).

1303. The Florida Class also seeks an order enjoining New GM's unfair, unlawful, and/or deceptive practices, declaratory relief, attorneys' fees, and any other just and proper relief available under the FUDTPA.

THIRTY-FOURTH CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

1304. In the event that the Court declines to certify a nationwide Class under Michigan law, this claim is brought solely on behalf of the Florida Class.

1305. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

1306. The Companies knew these representations were false when made.

1307. The vehicles purchased or leased by the Florida Class were, in fact, defective, unsafe and unreliable, because the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

1308. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision, because the Florida Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

1309. The aforementioned concealment was material, because if it had been disclosed the Florida Class would not have bought, leased or retained their vehicles.

1310. The aforementioned representations were also material because they were facts that would typically be relied on by a person purchasing, leasing or retaining a new or used motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

1311. The Florida Class relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements—in purchasing, leasing or retaining the Defective Vehicles.

1312. As a result of their reliance, the Florida Class has been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

1313. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the Florida Class. the Florida Class are therefore entitled to an award of punitive damages.

GEORGIA

THIRTY-FIFTH CLAIM FOR RELIEF

VIOLATION OF GEORGIA'S FAIR BUSINESS PRACTICES ACT
(GA. CODE ANN. § 10-1-390, *et. seq.*)

1314. This claim is brought solely on behalf of Class members who are Georgia residents (the "Georgia Class").

1315. The Georgia Fair Business Practices Act ("Georgia FBPA") declares "[u]nfair or deceptive acts or practices in the conduct of consumer transactions and consumer acts or practices in trade or commerce" to be unlawful, GA. CODE. ANN. § 10-1-393(a), including but not limited to "(5) representing that goods or services have sponsorship, approval, characteristics, ingredients, uses, benefits, or quantities that they do not have," "(7) [r]epresenting that goods or services are of a particular standard, quality, or grade… if they are of another," and "(9) [a]dvertising goods or services with intent not to sell them as advertised," GA. CODE. ANN. § 10-1-393.

1316. By failing to disclose and actively concealing the ignition switch defects in the Defective Vehicles, Old GM and New GM engaged in unfair or deceptive practices prohibited by the FBPA, including: (1) representing that the Defective Vehicles have characteristics, uses, benefits, and qualities which they do not have; (2) representing that the Defective Vehicles are

of a particular standard, quality, and grade when they are not; and (3) advertising the Defective Vehicles with the intent not to sell them as advertised. Both Old GM and New GM participated in unfair or deceptive acts or practices that violated the Georgia FBPA.

1317. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defect in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the Georgia FBPA, and also has successor liability for the violations of Old GM.

1318. As alleged above, both Companies knew of the ignition switch defects, while the Georgia Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

1319. The Companies knew or should have known that their conduct violated the Georgia FBPA.

1320. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

1321. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently

shutdown in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

1322. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

1323. The Companies each owed the Georgia Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the Georgia Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the Georgia Class that contradicted these representations.

1324. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the Georgia Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

1325. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the Georgia Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Georgia Class.

1326. The propensity of the Defective Vehicles to inadvertently shutdown during ordinary operation was material to the Georgia Class. Had the Georgia Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

1327. All members of the Georgia Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The Georgia Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the Georgia Class own vehicles that are not safe.

1328. The Georgia Class has been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

1329. The Georgia Class Members risks irreparable injury as a result of the Companies' act and omissions in violation of the Georgia FBPA, and these violations present a continuing risk to the Georgia Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

1330. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

1331. As a direct and proximate result of the Companies' violations of the Georgia FBPA, the Georgia Class has suffered injury-in-fact and/or actual damage.

1332. The Georgia Class is entitled to recover damages and exemplary damages (for intentional violations) per GA. CODE. ANN § 10-1-399(a).

1333. The Georgia Class also seeks an order enjoining New GM's unfair, unlawful, and/or deceptive practices, attorneys' fees, and any other just and proper relief available under the Georgia FBPA per GA. CODE. ANN § 10-1-399.

1334. Georgia Plaintiffs have complied with the notice requirement set forth in GA. CODE. ANN § 10-1-399(b) by virtue of the notice previously provided in the context of the underlying action styled *Dinco, et al. v GM*, 2:14-cv-03638-JVS-AN (C.D. Cal.), and other underlying actions, as well as additional notice in the form of a demand letter sent on October 12, 2014.

THIRTY-SIXTH CLAIM FOR RELIEF

VIOLATION OF GEORGIA'S UNIFORM DECEPTIVE TRADE PRACTICES ACT (GA. CODE ANN. § 10-1-370, *et. seq.*)

1335. The Companies and the Georgia Class are "persons' within the meaning of Georgia Uniform Deceptive Trade Practices Act ("Georgia UDTPA"), GA. CODE. ANN § 10-1-371(5).

1336. The Georgia UDTPA prohibits "deceptive trade practices," which include the "misrepresentation of standard or quality of goods or services," and "engaging in any other conduct which similarly creates a likelihood of confusion or of misunderstanding." GA. CODE. ANN § 10-1-372(a). By failing to disclose and actively concealing the ignition switch defects in the Defective Vehicles, Old GM and New GM engaged in deceptive trade practices prohibited by the Georgia UDTPA.

1337. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defect in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the Georgia UDTPA, and also has successor liability for the violations of Old GM.

1338. As alleged above, both Companies knew of the ignition switch defects, while the Georgia Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

1339. The Companies knew or should have known that their conduct violated the Georgia UDTPA.

1340. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

1341. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shutdown in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

1342. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

1343. The Companies each owed the Georgia Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the Georgia Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the Georgia Class that contradicted these representations.

1344. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to Plaintiffs, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

1345. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the Georgia Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Georgia Class.

1346. The propensity of the Defective Vehicles to inadvertently shutdown during ordinary operation was material to the Georgia Class. Had the Georgia Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

1347. All members of the Georgia Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The Georgia Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the Georgia Class own vehicles that are not safe.

1348. The Georgia Class has been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the

many other serious defects in New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

1349. The Georgia Class Members risk irreparable injury as a result of the Companies' act and omissions in violation of the Georgia UDTPA, and these violations present a continuing risk to the Georgia Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

1350. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

1351. As a direct and proximate result of the Companies' violations of the Georgia UDTPA, and the Georgia Class have suffered injury-in-fact and/or actual damage.

1352. Plaintiffs seek an order enjoining New GM's unfair, unlawful, and/or deceptive practices, attorneys' fees, and any other just and proper relief available under the Georgia UDTPA per GA. CODE. ANN § 10-1-373.

THIRTY-SEVENTH CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

1353. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought solely on behalf of the Georgia Class.

1354. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

1355. The Companies knew these representations were false when made.

1356. The vehicles purchased or leased by the Georgia Class were, in fact, defective, unsafe and unreliable, because the vehicles were subject to sudden unintended shutdown, with

the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

1357. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision, because the Georgia Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

1358. The aforementioned concealment was material, because if it had been disclosed the Georgia Class would not have bought, leased or retained their vehicles.

1359. The aforementioned representations were also material because they were facts that would typically be relied on by a person purchasing, leasing or retaining a new or used motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

1360. The Georgia Class relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements—in purchasing, leasing or retaining the Defective Vehicles.

1361. As a result of their reliance, the Georgia Class has been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

1362. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the Georgia Class. The Georgia Class is therefore entitled to an award of punitive damages.

HAWAII

THIRTY-EIGHTH CLAIM FOR RELIEF

UNFAIR AND DECEPTIVE ACTS IN VIOLATION OF HAWAII LAW
(HAW. REV. STAT. § 480, *et. seq.*)

1365. This claim is brought on behalf of Class members who are Hawaii residents (the "Hawaii Class").

1366. Old GM and New GM are "persons" under HAW. REV. STAT. § 480-1.

1367. Class members are "consumer[s]" as defined by HAW. REV. STAT. § 480-1, who purchased or leased one or more Defective Vehicles.

1368. Old GM and New GM's acts or practices as set forth above occurred in the conduct of trade or commerce.

1369. The Hawaii Act § 480-2(a) prohibits "unfair methods of competition and unfair or deceptive acts or practices in the conduct of any trade or commerce.…" By failing to disclose and actively concealing the ignition switch defects in the Defective Vehicles, Old GM and New GM engaged in unfair and deceptive trade practices prohibited by the Hawaii Act.

1370. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defect in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or

omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the Hawaii Act, and also has successor liability for the violations of Old GM.

1371. As alleged above, both Companies knew of the ignition switch defects, while the Hawaii Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

1372. The Companies knew or should have known that their conduct violated the Hawaii Act.

1373. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

1374. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shutdown in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

1375. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

1376. The Companies each owed the Hawaii Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the Hawaii Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the Hawaii Class that contradicted these representations.

1377. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the Hawaii Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

1378. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the Hawaii Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Hawaii Class.

1379. The propensity of the Defective Vehicles to inadvertently shutdown during ordinary operation was material to the Hawaii Class. Had the Hawaii Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

1380. All members of the Hawaii Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The Hawaii Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the Hawaii Class own vehicles that are not safe.

1381. The Hawaii Class has been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

1382. The Hawaii Class Members risk irreparable injury as a result of the Companies' act and omissions in violation of the Hawaii Act, and these violations present a continuing risk to the Hawaii Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

1383. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

1384. As a direct and proximate result of the Companies' violations of the Hawaii Act, the Hawaii Class has suffered injury-in-fact and/or actual damage.

1385. Pursuant to HAW. REV. STAT. § 480-13, the Hawaii Class seeks monetary relief against New GM measured as the greater of (a) $1,000 and (b) threefold actual damages in an amount to be determined at trial.

1386. Under HAW. REV. STAT. § 480-13.5, the Hawaii Class seeks an additional award against New GM of up to $10,000 for each violation directed at a Hawaiian elder. Old GM and N or should have known that their conduct was directed to one or more Class members who are elders. Old GM and New GM's conduct caused one or more of these elders to suffer a substantial loss of property set aside for retirement or for personal or family care and maintenance, or assets essential to the health or welfare of the elder. One or more Hawaii Class members who are elders are substantially more vulnerable to Old GM and New GM's conduct because of age, poor health or infirmity, impaired understanding, restricted mobility, or disability, and each of them suffered substantial physical, emotional, or economic damage resulting from Old GM and New GM's conduct.

THIRTY-NINTH CLAIM FOR RELIEF

BREACH OF THE IMPLIED WARRANTY OF MERCHANTABILITY (HAW. REV. STAT. § 490:2-314)

1387. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought on behalf of Class members who are Hawaii residents.

1388. Old GM and New GM were merchants with respect to motor vehicles within the meaning of HAW. REV. STAT. § 490:2-104(1).

1389. Under HAW. REV. STAT. § 490:2-314, a warranty that the Defective Vehicles were in merchantable condition was implied by law in the transactions when the Hawaii Class purchased their Defective Vehicles.

1390. These vehicles, when sold and at all times thereafter, were not merchantable and are not fit for the ordinary purpose for which cars are used. Specifically, the Defective Vehicles are inherently defective in that there are defects in the ignition switch systems that permit sudden unintended shutdown to occur, with the attendant shutdown of power steering and power brakes and the non-deployment of airbags in the event of a collision.

1391. Old GM and New GM were provided notice of these issues by numerous complaints filed against them, internal investigations, and by numerous individual letters and communications sent by the Hawaii Class before or within a reasonable amount of time after GM issued the recall and the allegations of vehicle defects became public.

1392. As a direct and proximate result of Old GM and New GM's breach of the implied warranty of merchantability, the Hawaii Class has been damaged in an amount to be proven at trial. New GM also has successor liability for Old GM's breach.

FORTIETH CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

1393. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought solely on behalf of the Hawaii Class.

1394. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

1395. The Companies knew these representations were false when made.

1396. The vehicles purchased or leased by the Hawaii Class were, in fact, defective, unsafe and unreliable, because the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

1397. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision, because the Hawaii Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

1398. The aforementioned concealment was material, because if it had been disclosed the Hawaii Class would not have bought, leased or retained their vehicles.

1399. The aforementioned representations were also material because they were facts that would typically be relied on by a person purchasing, leasing or retaining a new or used motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

1400. The Hawaii Class relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements—in purchasing, leasing or retaining the Defective Vehicles.

1401. As a result of their reliance, the Hawaii Class has been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

1402. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the Hawaii Class. The Hawaii Class are therefore entitled to an award of punitive damages.

IDAHO

FORTY-FIRST CLAIM FOR RELIEF

VIOLATION OF THE IDAHO CONSUMER PROTECTION ACT
(IDAHO CIV. CODE § 48-601, *et. seq.*)

1403. This claim is brought on behalf of Class members who are Idaho residents (the "Idaho Class").

1404. Old GM and New GM are "persons" under the Idaho Consumer Protection Act ("Idaho CPA"), IDAHO CIV. CODE § 48-602(1).

1405. Old GM and New GM's acts or practices as set forth above occurred in the conduct of "trade" or "commerce" under IDAHO CIV. CODE § 48-602(2).

1406. Old GM and New GM both participated in misleading, false, or deceptive acts that violated the Idaho CPA. By failing to disclose and actively concealing the dangerous ignition switch defects in the Defective Vehicles, both Old GM and New GM engaged in deceptive business practices prohibited by the Idaho CPA, including: (1) representing that the Defective Vehicles have characteristics, uses, and benefits which they do not have; (2) representing that the Defective Vehicles are of a particular standard, quality, and grade when they are not; (3) advertising the Defective Vehicles with the intent not to sell them as advertised; (4) engaging in acts or practices which are otherwise misleading, false, or deceptive to the consumer; and (5) engaging in any unconscionable method, act or practice in the conduct of trade or commerce. *See* IDAHO CIV. CODE § 48-603.

1407. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing

deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the Idaho CPA, and also has successor liability for the violations of Old GM.

1408. As alleged above, both Companies knew of the ignition switch defects, while the Idaho Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

1409. The Companies knew or should have known that their conduct violated the Idaho CPA.

1410. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

1411. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shutdown in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

1412. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers

to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

1413. The Companies each owed the Idaho Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the Idaho Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the Idaho Class that contradicted these representations.

1414. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the Idaho Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

1415. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the Idaho Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Idaho Class.

1416. The propensity of the Defective Vehicles to inadvertently shutdown during ordinary operation was material to the Idaho Class. Had the Idaho Class known that their

vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

1417. All members of the Idaho Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The Idaho Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the Idaho Class own vehicles that are not safe.

1418. The Idaho Class has been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

1419. The Idaho Class Members risk irreparable injury as a result of the Companies' act and omissions in violation of the Idaho CPA, and these violations present a continuing risk to the Idaho Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

1420. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

1421. As a direct and proximate result of the Companies' violations of the Idaho CPA, the Idaho Class has suffered injury-in-fact and/or actual damage.

1422. Pursuant to IDAHO CODE § 48-608, the Idaho Class seeks monetary relief against New GM measured as the greater of (a) actual damages in an amount to be determined at trial and (b) statutory damages in the amount of $1,000 for each Idaho Class Member.

1423. The Idaho Class also seeks an order enjoining New GM's unfair, unlawful, and/or deceptive practices, attorneys' fees, and any other just and proper relief available under the Idaho CPA.

1424. The Idaho Class members also seek punitive damages against New GM because both Old GM and New GM's conduct evidences an extreme deviation from reasonable standards. Old GM and New GM flagrantly, maliciously, and fraudulently misrepresented the safety and reliability of the Defective Vehicles, deceived Class members on life-or-death matters, and concealed material facts that only they knew, all to avoid the expense and public relations nightmare of correcting a deadly flaw in the Defective Vehicles they repeatedly promised Class members were safe. Old GM and New GM's unlawful conduct constitutes malice, oppression, and fraud warranting punitive damages.

FORTY-SECOND CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

1425. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought solely on behalf of the Idaho Class.

1426. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

1427. The Companies knew these representations were false when made.

1428. The vehicles purchased or leased by the Idaho Class were, in fact, defective, unsafe and unreliable, because the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

1429. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision, because the Idaho Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

1430. The aforementioned concealment was material, because if it had been disclosed the Idaho Class would not have bought, leased or retained their vehicles.

1431. The aforementioned representations were also material because they were facts that would typically be relied on by a person purchasing, leasing or retaining a new or used motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

1432. The Idaho Class relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements—in purchasing, leasing or retaining the Defective Vehicles.

1433. As a result of their reliance, the Idaho Class has been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

1434. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the Idaho Class. The Idaho Class is therefore entitled to an award of punitive damages.

ILLINOIS

FORTY-THIRD CLAIM FOR RELIEF

VIOLATION OF ILLINOIS CONSUMER FRAUD AND DECEPTIVE BUSINESS PRACTICES ACT (815 ILCS 505/1, *et. seq.* and 720 ilcs 295/1a)

1435. This claim is brought on behalf of Class members who are Illinois residents (the "Illinois Class").

1436. Old GM and New GM are "persons" as that term is defined in 815 ILCS 505/1(c).

1437. The Illinois Class are "consumers" as that term is defined in 815 ILCS 505/1(e).

1438. The Illinois Consumer Fraud and Deceptive Business Practices Act ("Illinois CFA") prohibits "unfair or deceptive acts or practices, including but not limited to the use or employment of any deception, fraud, false pretense, false promise, misrepresentation or the concealment, suppression or omission of any material fact, with intent that others rely upon the concealment, suppression or omission of such material fact… in the conduct of trade or commerce… whether any person has in fact been misled, deceived or damaged thereby." 815 ILCS 505/2.

1439. Old GM and New GM both participated in misleading, false, or deceptive acts that violated the Illinois CFA. By failing to disclose and actively concealing the dangerous

ignition switch defects in the Defective Vehicles, both Old GM and New GM engaged in deceptive business practices prohibited by the Illinois CFA.

1440. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the Illinois CFA, and also has successor liability for the violations of Old GM.

1441. As alleged above, both Companies knew of the ignition switch defects, while the Illinois Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

1442. The Companies knew or should have known that their conduct violated the Illinois CFA.

1443. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

1444. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently

shutdown in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

1445. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

1446. The Companies each owed the Illinois Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the Illinois Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the Illinois Class that contradicted these representations.

1447. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the Illinois Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

1448. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the Illinois Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Illinois Class.

1449. The propensity of the Defective Vehicles to inadvertently shutdown during ordinary operation was material to the Illinois Class. Had the Illinois Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

1450. All members of the Illinois Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The Illinois Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the Illinois Class own vehicles that are not safe.

1451. The Illinois Class has been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

1452. The Illinois Class Members risk irreparable injury as a result of the Companies' act and omissions in violation of the Illinois CFA, and these violations present a continuing risk to the Illinois Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

1453. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

1454. As a direct and proximate result of the Companies' violations of the Illinois CFA, the Illinois Class has suffered injury-in-fact and/or actual damage.

1455. Pursuant to 815 ILCS 505/10a(a), the Illinois Class seeks monetary relief against New GM in the amount of actual damages, as well as punitive damages because New GM acted with fraud and/or malice and/or was grossly negligent.

1456. The Illinois Class also seeks an order enjoining New GM's unfair and/or deceptive acts or practices, punitive damages, and attorneys' fees, and any other just and proper relief available under 815 ILCS. § 505/1 *et. seq.*

FORTY-FOURTH CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

1457. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought solely on behalf of the Illinois Class.

1458. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

1459. The Companies knew these representations were false when made.

1460. The vehicles purchased or leased by the Illinois Class were, in fact, defective, unsafe and unreliable, because the vehicles were subject to sudden unintended shutdown, with

the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

1461. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision, because the Illinois Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

1462. The aforementioned concealment was material, because if it had been disclosed the Illinois Class would not have bought, leased or retained their vehicles.

1463. The aforementioned representations were also material because they were facts that would typically be relied on by a person purchasing, leasing or retaining a new or used motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

1464. The Illinois Class relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements—in purchasing, leasing or retaining the Defective Vehicles.

1465. As a result of their reliance, the Illinois Class has been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

1466. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the Illinois Class. The Illinois Class is therefore entitled to an award of punitive damages.

INDIANA

FORTY-FIFTH CLAIM FOR RELIEF

VIOLATION OF THE INDIANA DECEPTIVE CONSUMER SALES ACT (Ind. Code § 24-5-0.5-3)

1467. This claim is brought on behalf of Class members who are Indiana residents (the "Indiana Class").

1468. Old GM and New GM are "persons" within the meaning of IND. CODE § 24-5-0.5-2(2) and "suppliers" within the meaning of IND. CODE § 24-5-0.5-2(a)(3).

1469. The Indiana Class Members' purchases of the Defective Vehicles are "consumer transactions" within the meaning of IND. CODE § 24-5-0.5-2(a)(1).

1470. Indiana's Deceptive Consumer Sales Act ("Indiana DCSA") prohibits a person from engaging in a "deceptive trade practice," which includes representing: "(1) That such subject of a consumer transaction has sponsorship, approval, performance, characteristics, accessories, uses, or benefits that they do not have, or that a person has a sponsorship, approval, status, affiliation, or connection it does not have; (2) That such subject of a consumer transaction is of a particular standard, quality, grade, style or model, if it is not and if the supplier knows or should reasonably know that it is not;… (7) That the supplier has a sponsorship, approval or affiliation in such consumer transaction the supplier does not have, and which the supplier knows or should reasonably know that the supplier does not have;… (c) Any representations on or within a product or its packaging or in advertising or promotional materials which would constitute a deceptive act shall be the deceptive act both

of the supplier who places such a representation thereon or therein, or who authored such materials, and such suppliers who shall state orally or in writing that such representation is true if such other supplier shall know or have reason to know that such representation was false." IND. CODE § 24-5-0.5-3.

1471. Old GM and New GM both participated in misleading, false, or deceptive acts that violated the Indiana DCSA. By failing to disclose and actively concealing the dangerous ignition switch defects in the Defective Vehicles, both Old GM and New GM engaged in deceptive business practices prohibited by the Indiana DCSA. The Companies also engaged in unlawful trade practices by: (1) representing that the Defective Vehicles have characteristics, uses, benefits, and qualities which they do not have; (2) representing that the Defective Vehicles are of a particular standard and quality when they are not; (3) advertising the Defective Vehicles with the intent not to sell them as advertised; and (4) otherwise engaging in conduct likely to deceive.

1472. The Companies' actions as set forth above occurred in the conduct of trade or commerce.

1473. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defect in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for

engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the Indiana DCSA, and also has successor liability for the violations of Old GM.

1474. As alleged above, both Companies knew of the ignition switch defects, while the Indiana was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

1475. The Companies knew or should have known that their conduct violated the Indiana DCSA.

1476. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

1477. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shutdown in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

1478. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

1479. The Companies each owed the Indiana Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the Indiana Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the Indiana Class that contradicted these representations.

1480. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the Indiana Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

1481. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the Indiana Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Indiana Class.

1482. The propensity of the Defective Vehicles to inadvertently shutdown during ordinary operation was material to the Indiana Class. Had the Indiana Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

1483. All members of the Indiana Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The Indiana Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and

failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the Indiana Class own vehicles that are not safe.

1484. The Indiana Class has been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

1485. The Indiana Class Members risk irreparable injury as a result of the Companies' act and omissions in violation of the Indiana DCSA, and these violations present a continuing risk to the Indiana Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

1486. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

1487. As a direct and proximate result of the Companies' violations of the Indiana DCSA, the Indiana Class has suffered injury-in-fact and/or actual damage.

1488. Pursuant to IND. CODE § 24-5-0.5-4, the Indiana Class seeks monetary relief against New GM measured as the greater of (a) actual damages in an amount to be determined

at trial and (b) statutory damages in the amount of $500 for each Indiana Class Member, including treble damages up to $1,000 for New GM's willfully deceptive acts.

1489. The Indiana Class also seeks punitive damages based on the outrageousness and recklessness of the Companies' conduct and New GM's high net worth.

1490. Indiana Plaintiffs have complied with the notice requirement set forth in Indiana Code § 24-5-0.5-5(a) by virtue of the notice previously provided in the context of the underlying action styled *Saclo, et al. v. GM*, 8:14-cv-00604-JVS-AN (C.D. Cal.), and other underlying actions, as well as additional notice in the form of a demand letter sent on October 12, 2014.

FORTY-SIXTH CLAIM FOR RELIEF

BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY (IND. CODE § 26-1-2-314)

1491. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought on behalf of the Indiana Class.

1492. Old GM and New GM were merchants with respect to motor vehicles within the meaning of IND. CODE. § 26-1-2-104(1).

1493. Under IND. CODE. § 26-1-2-314, a warranty that the Defective Vehicles were in merchantable condition was implied by law in the transactions when the Indiana Class purchased their Defective Vehicles.

1494. These vehicles, when sold and at all times thereafter, were not merchantable and are not fit for the ordinary purpose for which cars are used. Specifically, the Defective Vehicles are inherently defective in that there are defects in the ignition switch systems that permit sudden unintended shutdown to occur, with the attendant shutdown of power steering and power brakes and the non-deployment of airbags in the event of a collision.

1495. Old GM and New GM were provided notice of these issues by numerous complaints filed against them, internal investigations, and by numerous individual letters and communications sent by the Indiana Class before or within a reasonable amount of time after New GM issued the recall and the allegations of vehicle defects became public.

1496. As a direct and proximate result of Old GM and New GM's breach of the implied warranty of merchantability, the Indiana Class has been damaged in an amount to be proven at trial. New GM has successor liability for Old GM's breach.

FORTY-SEVENTH CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

1497. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought on behalf of Class members who are Indiana residents.

1498. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

1499. The Companies knew these representations were false when made.

1500. The vehicles purchased or leased by the Indiana Class were, in fact, defective, unsafe and unreliable, because the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

1501. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision, because the Indiana Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

1502. The aforementioned concealment was material, because if it had been disclosed the Indiana Class would not have bought, leased or retained their vehicles.

1503. The aforementioned representations were also material because they were facts that would typically be relied on by a person purchasing, leasing or retaining a new or used motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

1504. The Indiana Class relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements—in purchasing, leasing or retaining the Defective Vehicles.

1505. As a result of their reliance, the Indiana Class has been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

1506. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the Indiana Class. The Indiana Class is therefore entitled to an award of punitive damages.

IOWA

FORTY-EIGHTH CLAIM FOR RELIEF

VIOLATIONS OF THE PRIVATE RIGHT OF ACTION FOR CONSUMER FRAUDS ACT (IOWA CODE § 714h.1, *et. seq.*)

1507. This claim is brought on behalf of Class members who are Iowa residents (the "Iowa Class").

1508. Old GM and New GM are "persons" under IOWA CODE § 714H.2(7).

1509. The Iowa Class are "consumers," as defined by IOWA CODE § 714H.2(3), who purchased or leased one or more Defective Vehicles.

1510. The Iowa Private Right of Action for Consumer Frauds Act ("Iowa CFA") prohibits any "practice or act the person knows or reasonably should know is an unfair practice, deception, fraud, false pretense, or false promise, or the misrepresentation, concealment, suppression, or omission of a material fact, with the intent that others rely upon the unfair practice, deception, fraud, false pretense, false promise, misrepresentation, concealment, suppression, or omission in connection with the advertisement, sale, or lease of consumer merchandise…." IOWA CODE § 714H.3. Old GM and New GM both participated in misleading, false, or deceptive acts that violated the Iowa CFA. By failing to disclose and actively concealing the dangerous ignition switch defects in the Defective Vehicles, both Old GM and New GM engaged in deceptive business practices prohibited by the Iowa CFA.

1511. The Companies' actions as set forth above occurred in the conduct of trade or commerce.

1512. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or

commerce in violation of the Iowa CFA, and also has successor liability for the violations of Old GM.

1513. As alleged above, both Companies knew of the ignition switch defects, while the Iowa Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

1514. The Companies knew or should have known that their conduct violated the Iowa CFA.

1515. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

1516. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shutdown in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

1517. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

1518. The Companies each owed the Iowa Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the Iowa Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the Iowa Class that contradicted these representations.

1519. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the Iowa Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

1520. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the Iowa Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Iowa Class.

1521. The propensity of the Defective Vehicles to inadvertently shutdown during ordinary operation was material to the Iowa Class. Had the Iowa Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

1522. All members of the Iowa Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The Iowa Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the Iowa Class own vehicles that are not safe.

1523. The Iowa Class has been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

1524. The Iowa Class Members risk irreparable injury as a result of the Companies' act and omissions in violation of the Iowa CFA, and these violations present a continuing risk to the Iowa Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

1525. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

1526. As a direct and proximate result of the Companies' violations of the Iowa CFA, the Iowa Class has suffered injury-in-fact and/or actual damage.

1527. Pursuant to IOWA CODE § 714H.5, the Iowa Class seeks an order enjoining New GM's unfair and/or deceptive acts or practices; actual damages; in addition to an award of actual damages, statutory damages up to three times the amount of actual damages awarded as a result of New GM's willful and wanton disregard for the rights or safety of others; attorneys' fees; and such other equitable relief as the Court deems necessary to protect the public from further violations of the Iowa CFA.

FORTY-NINTH CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

1528. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought on behalf of the Iowa Class.

1529. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

1530. The Companies knew these representations were false when made.

1531. The vehicles purchased or leased by the Iowa Class were, in fact, defective, unsafe and unreliable, because the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

1532. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision, because the Iowa Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

1533. The aforementioned concealment was material, because if it had been disclosed the Iowa Class would not have bought, leased or retained their vehicles.

1534. The aforementioned representations were also material because they were facts that would typically be relied on by a person purchasing, leasing or retaining a new or used motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

1535. The Iowa Class relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements—in purchasing, leasing or retaining the Defective Vehicles.

1536. As a result of their reliance, the Iowa Class has been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

1537. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the Iowa Class. The Iowa Class is entitled to an award of punitive damages.

KANSAS

FIFTIETH CLAIM FOR RELIEF

VIOLATIONS OF THE KANSAS CONSUMER PROTECTION ACT
(KAN. STAT. ANN. § 50-623, *et. seq.*)

1538. This claim is brought on behalf of Class members who are Kansas residents (the "Kansas Class").

1539. Old GM and New GM are "supplier[s]" under the Kansas Consumer Protection Act ("Kansas CPA"), KAN. STAT. ANN. § 50-624(1).

1540. Class members are "consumers," within the meaning of KAN. STAT. ANN. § 50-624(b), who purchased or leased one or more Defective Vehicles.

1541. The sale of the Defective Vehicles to the Class members was a "consumer transaction" within the meaning of KAN. STAT. ANN. § 50-624(c).

1542. The Kansas CPA states "[n]o supplier shall engage in any deceptive act or practice in connection with a consumer transaction," KAN. STAT. ANN. § 50-626(a), and that deceptive acts or practices include: (1) knowingly making representations or with reason to know that "(A) Property or services have sponsorship, approval, accessories, characteristics, ingredients, uses, benefits or quantities that they do not have;" and "(D) property or services are of particular standard, quality, grade, style or model, if they are of another which differs materially from the representation;" "(2) the willful use, in any oral or written representation, of exaggeration, falsehood, innuendo or ambiguity as to a material fact;" and "(3) the willful failure to state a material fact, or the willful concealment, suppression or omission of a material fact." The Kansas CPA also provides that "[n]o supplier shall engage in any unconscionable act or practice in connection with a consumer transaction." KAN. STAT. ANN. § 50-627(a).

1543. Old GM and New GM both participated in misleading, false, or deceptive acts that violated the Kansas CPA. By failing to disclose and actively concealing the dangerous ignition switch defect in the Defective Vehicles, both Old GM and New GM engaged in deceptive business practices prohibited by the Kansas CPA. The Companies also engaged in unlawful trade practices by: (1) representing that the Defective Vehicles have characteristics, uses, benefits, and qualities which they do not have; (2) representing that the Defective Vehicles are of a particular standard and quality when they are not; (3) advertising the

Defective Vehicles with the intent not to sell them as advertised; (4) willfully using, in any oral or written representation, of exaggeration, falsehood, innuendo or ambiguity as to a material fact; (5) willfully failing to state a material fact, or the willfully concealing, suppressing or omitting a material fact; and (6) otherwise engaging in an unconscionable act or practice in connection with a consumer transaction.

1544. The Companies' actions as set forth above occurred in the conduct of trade or commerce.

1545. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the Kansas CPA, and also has successor liability for the violations of Old GM.

1546. As alleged above, both Companies knew of the ignition switch defects, while the Kansas Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

1547. The Companies knew or should have known that their conduct violated the Kansas CPA.

1548. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

1549. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shutdown in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

1550. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

1551. The Companies each owed the Kansas Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the Kansas Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the Kansas Class that contradicted these representations.

1552. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the Kansas Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

1553. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the Kansas Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Kansas Class.

1554. The propensity of the Defective Vehicles to inadvertently shutdown during ordinary operation was material to the Kansas Class. Had the Kansas Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

1555. All members of the Kansas Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The Kansas Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the Kansas Class own vehicles that are not safe.

1556. The Kansas Class has been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

1557. The Kansas Class Members risk irreparable injury as a result of the Companies' act and omissions in violation of the Kansas CPA, and these violations present a continuing risk to the Kansas Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

1558. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

1559. As a direct and proximate result of the Companies' violations of the Kansas CPA, the Kansas Class has suffered injury-in-fact and/or actual damage.

1560. Pursuant to KAN. STAT. ANN. § 50-634, the Kansas Class seeks monetary relief against Defendant measured as the greater of (a) actual damages in an amount to be determined at trial and (b) statutory damages in the amount of $10,000 for each Kansas Class Member.

1561. The Kansas Class also seeks an order enjoining New GM's unfair, unlawful, and/or deceptive practices, declaratory relief, attorneys' fees, and any other just and proper relief available under KAN. STAT. ANN § 50-623 *et. seq.*

FIFTY-FIRST CLAIM FOR RELIEF

BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY (KAN. STAT. ANN. § 84-2-314)

1562. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought on behalf of the Kansas Class.

1563. Old GM and New GM were merchants with respect to motor vehicles within the meaning of KAN. STAT. ANN. § 84-2-104(1).

1564. Under KAN. STAT. ANN. § 84-2-314, a warranty that the Defective Vehicles were in merchantable condition was implied by law in the transactions when the Kansas Class purchased their Defective Vehicles.

1565. These vehicles, when sold and at all times thereafter, were not merchantable and are not fit for the ordinary purpose for which cars are used. Specifically, the Defective Vehicles are inherently defective in that there are defects in the ignition switch systems that permit sudden unintended shutdown to occur, with the attendant shutdown of power steering and power brakes and the non-deployment of airbags in the event of a collision.

1566. Old GM and New GM were provided notice of these issues by numerous complaints filed against them, internal investigations, and by numerous individual letters and communications sent by the Kansas Class before or within a reasonable amount of time after New GM issued the recall and the allegations of vehicle defects became public.

1567. As a direct and proximate result of Old GM and New GM's breach of the implied warranty of merchantability, the Kansas Class has been damaged in an amount to be proven at trial. New GM also has successor liability for Old GM's breach.

FIFTY-SECOND CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

1568. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought on behalf of the Kansas Class.

1569. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

1570. The Companies knew these representations were false when made.

1571. The vehicles purchased or leased by the Kansas Class were, in fact, defective, unsafe and unreliable, because the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

1572. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision, because the Kansas Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

1573. The aforementioned concealment was material, because if it had been disclosed the Kansas Class would not have bought, leased or retained their vehicles.

1574. The aforementioned representations were also material because they were facts that would typically be relied on by a person purchasing, leasing or retaining a new or used motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

1575. The Kansas Class relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements—in purchasing, leasing or retaining the Defective Vehicles.

1576. As a result of their reliance, the Kansas Class has been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

1577. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the Kansas Class. The Kansas Class is therefore entitled to an award of punitive damages.

KENTUCKY

FIFTY-THIRD CLAIM FOR RELIEF

VIOLATION OF THE KENTUCKY CONSUMER PROTECTION ACT
(KY. REV. STAT. § 367.110, *et. seq.*)

1578. This claim is brought on behalf of Class members who are Kentucky residents (the "Kentucky Class").

1579. The Companies and the Kentucky Class are "persons" within the meaning of the KY. REV. STAT. § 367.110(1).

1580. The Companies engaged in "trade" or "commerce" within the meaning of KY. REV. STAT. § 367.110(2).

1581. The Kentucky Consumer Protection Act ("Kentucky CPA") makes unlawful "[u]nfair, false, misleading, or deceptive acts or practices in the conduct of any trade or commerce…." KY. REV. STAT. § 367.170(1). Old GM and New GM both participated in misleading, false, or deceptive acts that violated the Kentucky CPA. By failing to disclose and

actively concealing the dangerous ignition switch defect in the Defective Vehicles, both Old GM and New GM engaged in deceptive business practices prohibited by the Kentucky CPA.

1582. The Companies' actions as set forth above occurred in the conduct of trade or commerce.

1583. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the Kentucky CPA, and also has successor liability for the violations of Old GM.

1584. As alleged above, both Companies knew of the ignition switch defects, while the Kentucky Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

1585. The Companies knew or should have known that their conduct violated the Kentucky CPA.

1586. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

1587. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shutdown in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

1588. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

1589. The Companies each owed the Kentucky Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the Kentucky Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the Kentucky Class that contradicted these representations.

1590. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the Kentucky Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

1591. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the Kentucky Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Kentucky Class.

1592. The propensity of the Defective Vehicles to inadvertently shutdown during ordinary operation was material to the Kentucky Class. Had the Kentucky Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

1593. All members of the Kentucky Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The Kentucky Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the Kentucky Class own vehicles that are not safe.

1594. The Kentucky Class has been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's

failure to timely disclose and remedy the serious defects. New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

1595. The Kentucky Class Members risk irreparable injury as a result of the Companies' act and omissions in violation of the Kentucky CPA, and these violations present a continuing risk to the Kentucky Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

1596. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

1597. As a direct and proximate result of the Companies' violations of the Kentucky CPA, the Kentucky Class has suffered injury-in-fact and/or actual damage.

1598. Pursuant to KY. REV. STAT. ANN. § 367.220, the Kentucky Class seeks to recover actual damages in an amount to be determined at trial; an order enjoining New GM's unfair, unlawful, and/or deceptive practices; declaratory relief; attorneys' fees; and any other just and proper relief available under KY. REV. STAT. ANN. § 367.220.

FIFTY-FOURTH CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

1599. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought on behalf of Class members who are Kentucky residents.

1600. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

1601. The Companies knew these representations were false when made.

1602. The vehicles purchased or leased by the Kentucky Class were, in fact, defective, unsafe and unreliable, because the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

1603. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision, because the Kentucky Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

1604. The aforementioned concealment was material, because if it had been disclosed the Kentucky Class would not have bought, leased or retained their vehicles.

1605. The aforementioned representations were also material because they were facts that would typically be relied on by a person purchasing, leasing or retaining a new or used motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

1606. The Kentucky Class relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements—in purchasing, leasing or retaining the Defective Vehicles.

1607. As a result of their reliance, the Kentucky Class has been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

1608. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the Kentucky Class. The Kentucky Class is entitled to an award of punitive damages.

LOUISIANA

FIFTY-FIFTH CLAIM FOR RELIEF

VIOLATION OF THE LOUISIANA UNFAIR TRADE PRACTICES AND CONSUMER PROTECTION LAW
(LA. REV. STAT. § 51:1401, *et. seq.*)

1609. This claim is brought on behalf of Class members who are Louisiana residents (the "Louisiana Class").

1610. The Companies and the Louisiana Class are "persons" within the meaning of the LA. REV. STAT. § 51:1402(8).

1611. The Louisiana Class members are "consumers" within the meaning of the LA. REV. STAT. § 51:1402(1).

1612. The Companies engaged in "trade" or "commerce" within the meaning of LA. REV. STAT. § 51:1402(9).

1613. The Louisiana Unfair Trade Practices and Consumer Protection Law ("Louisiana CPL") makes unlawful "deceptive acts or practices in the conduct of any trade or commerce…" LA. REV. STAT. § 51:1405(A). Old GM and New GM both participated in misleading, false, or deceptive acts that violated the Louisiana CPL. By failing to disclose and actively concealing the dangerous ignition switch defect in the Defective Vehicles, both Old GM and New GM engaged in deceptive business practices prohibited by the Louisiana CPL.

1614. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the Louisiana CPL, and also has successor liability for the violations of Old GM.

1615. As alleged above, both Companies knew of the ignition switch defects, while the Louisiana Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

1616. The Companies knew or should have known that their conduct violated the Louisiana CPL.

1617. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

1618. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shutdown in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

1619. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

1620. The Companies each owed the Louisiana Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the Louisiana Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the Louisiana Class that contradicted these representations.

1621. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the Louisiana Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

1622. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the Louisiana Class, about the true safety and reliability of

Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Louisiana Class.

1623. The propensity of the Defective Vehicles to inadvertently shutdown during ordinary operation was material to the Louisiana Class. Had the Louisiana Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

1624. All members of the Louisiana Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The Louisiana Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the Louisiana Class own vehicles that are not safe.

1625. The Louisiana Class has been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

1626. The Louisiana Class Members risk irreparable injury as a result of the Companies' act and omissions in violation of the Louisiana CPL, and these violations present a continuing risk to the Louisiana Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

1627. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

1628. As a direct and proximate result of the Companies' violations of the Louisiana CPL, the Louisiana Class have suffered injury-in-fact and/or actual damage.

1629. Pursuant to LA. REV. STAT. § 51:1409, the Louisiana Class seeks to recover actual damages in an amount to be determined at trial; treble damages for New GM's knowing violations of the Louisiana CPL; an order enjoining New GM's unfair, unlawful, and/or deceptive practices; declaratory relief; attorneys' fees; and any other just and proper relief available under LA. REV. STAT. § 51:1409.

1630. Pursuant to LA. REV. STAT. § 51:1409(B), the Louisiana Class will mail a copy of this complaint to Louisiana's Attorney General

FIFTY-SIXTH CLAIM FOR RELIEF

BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY
(LA. CIV. CODE ART. 2520, 2524)

1631. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought on behalf of the Louisiana Class.

1632. At the time the Louisiana Class acquired their Defective Vehicles, those vehicles had a redhibitory defect within the meaning of LA. CIV. CODE ART. 2520, in that (a) the defective ignition switches rendered the use of the Defective Vehicles so inconvenient that the Louisiana Class either would not have purchased the Defective Vehicles had they

known of the defect, or, because the defective ignition switches so diminished the usefulness and/or value of the Defective Vehicles such that it must be presumed that the Louisiana Class would have purchased the Defective Vehicles, but for a lesser price.

1633. No notice of the defect is required under LA. CIV. CODE ART. 2520, since Old GM had knowledge of a redhibitory defect in the Defective Vehicles at the time they were sold to the Louisiana Class.

1634. Under LA. CIV. CODE ART. 2524, a warranty that the Defective Vehicles were in merchantable condition, or fit for ordinary use, was implied by law in the transactions when the Louisiana Class purchased their Defective Vehicles.

1635. These vehicles, when sold and at all times thereafter, were not merchantable and are not fit for the ordinary purpose for which cars are used. Specifically, the Defective Vehicles are inherently defective in that there are defects in the ignition switch systems that permit sudden unintended shutdown to occur, with the attendant shutdown of power steering and power brakes and the non-deployment of airbags in the event of a collision.

1636. Old GM and New GM were provided notice of these issues by numerous complaints filed against them, internal investigations, and by numerous individual letters and communications sent by the Louisiana Class before or within a reasonable amount of time after New GM issued the recall and the allegations of vehicle defects became public.

1637. As a direct and proximate result of Old GM's sale of vehicles with redhibitory defects, and in violation of the implied warranty that the Defective Vehicles were fit for ordinary use, the Louisiana Class is entitled to either rescission or damages from New GM in an amount to be proven at trial.

1638. New GM also has successor liability for Old GM's breach.

FIFTY-SEVENTH CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

1639. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought on behalf of the Louisiana Class.

1640. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

1641. The Companies knew these representations were false when made.

1642. The vehicles purchased or leased by the Louisiana Class were, in fact, defective, unsafe and unreliable, because the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

1643. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision, because the Louisiana Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

1644. The aforementioned concealment was material, because if it had been disclosed the Louisiana Class would not have bought, leased or retained their vehicles.

1645. The aforementioned representations were also material because they were facts that would typically be relied on by a person purchasing, leasing or retaining a new or used motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

1646. The Louisiana Class relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements—in purchasing, leasing or retaining the Defective Vehicles.

1647. As a result of their reliance, the Louisiana Class has been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

1648. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the Louisiana Class. The Louisiana Class is entitled to an award of punitive damages.

FIFTY-EIGHTH CLAIM FOR RELIEF

REDHIBITION
LA. CIV. CODE ART. 2520, *et. seq.* and 2545
(On Behalf of the Louisiana State Class)

1649. Under Louisiana law, the seller and manufacturer warrants the buyer against redhibitory defects or vices in the thing sold. LA. CIV. CODE ART. 2520. A defect is redhibitory under two circumstances. First, a defect is redhibitory when it renders the thing useless, or renders its use so inconvenient that it must be presumed that a buyer would not have bought the thing had he known of the defect. *Id.* The existence of such a defect gives a buyer the right to obtain rescission of the sale. *Id.* Second, a defect is redhibitory when it diminishes the usefulness or the value of the thing so that it must be presumed that a buyer would still have bought it, but for a lesser price. *Id.* The existence of such a defect entitles the buyer to a reduction in the price. *Id.*

1650. Old GM and New GM defectively designed, manufactured, sold, or otherwise placed in the stream of commerce Vehicles that are defective.

1651. Old GM and New GM have known of the defects and the safety hazards that result from the defects, as alleged herein, and have failed to adequately address those safety concerns.

1652. New GM is responsible for damages caused by the failure of its products to conform to well-defined standards. In particular, the Defective Vehicles contain vices or defects which have rendered them useless or their use so inconvenient and unsafe that reasonable buyers would not have purchased them had they known of the defects, or at the least, would not have paid as much for the Vehicles as they did. The Louisiana Class members are entitled to obtain either rescission or a reduction in the purchase/lease price of the Vehicles from New GM.

1653. Further, under Louisiana law, Old GM and New GM are deemed to know that the Vehicles contained redhibitory defects pursuant to LA. CIV. CODE ART. 2545. New GM is liable for the bad faith sale of defective products with knowledge of the defects and thus is liable to the Louisiana Class for the price of the Vehicles, with interest from the purchase or lease date, as well as reasonable expenses occasioned by the sale or lease of the Vehicles, as well as attorneys' fees.

1654. Due to the defects and redhibitory vices in the Vehicles sold or leased to the Louisiana Class, they have suffered damages under Louisiana law.

MAINE

FIFTY-NINTH CLAIM FOR RELIEF

VIOLATION OF MAINE UNFAIR TRADE PRACTICES ACT
(ME. REV. STAT. ANN. TIT. 5 § 205-a, *et. seq.*)

1655. This claim is brought on behalf of Class members who are Maine residents (the "Maine Class").

1656. The Companies, and the Maine Class are, "persons" within the meaning of ME. REV. STAT. ANN. TIT. 5 § 206(2).

1657. The Companies are engaged in "trade" or "commerce" within the meaning of ME. REV. STAT. ANN. TIT. § 206(3).

1658. The Maine Unfair Trade Practices Act ("Maine UTPA") makes unlawful "[u]nfair methods of competition and unfair or deceptive acts or practices in the conduct of any trade or commerce…." ME. REV. STAT. ANN. TIT. 5 § 207. In the course of the Companies' business, they each willfully failed to disclose and actively concealed the dangerous risk caused by the ignition switch defects in the Defective Vehicles. Accordingly, the Companies engaged in unfair or deceptive acts or practices. Old GM and New GM both participated in misleading, false, or deceptive acts that violated the Maine UTPA. By failing to disclose and actively concealing the dangerous ignition switch defect in the Defective Vehicles, both Old GM and New GM engaged in deceptive business practices prohibited by the Maine UTPA.

1659. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the Maine UTPA, and also has successor liability for the violations of Old GM.

1660. As alleged above, both Companies knew of the ignition switch defects, while the Maine Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

1661. The Companies knew or should have known that their conduct violated the Maine UTPA.

1662. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

1663. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shutdown in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

1664. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

1665. The Companies each owed the Maine Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the Maine Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the Maine Class that contradicted these representations.

1666. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the Maine Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

1667. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the Maine Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Maine Class.

1668. The propensity of the Defective Vehicles to inadvertently shutdown during ordinary operation was material to the Maine Class. Had the Maine Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

1669. All members of the Maine Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The Maine Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and

failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the Maine Class own vehicles that are not safe.

1670. The Maine Class have been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

1671. The Maine Class Members risk irreparable injury as a result of the Companies' act and omissions in violation of the Maine UTPA, and these violations present a continuing risk to the Maine Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

1672. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

1673. As a direct and proximate result of the Companies' violations of the Maine UTPA, the Maine Class has suffered injury-in-fact and/or actual damage.

1674. Pursuant to ME. REV. STAT. ANN. TIT. 5 § 213, the Maine Class seeks an order enjoining Defendant's unfair and/or deceptive acts or practices, damages, punitive damages,

and attorneys' fees, costs, and any other just and proper relief available under the Maine UTPA.

1675. On October 12, 2014, Plaintiffs sent a notice letter complying with ME. REV. STAT. ANN. TIT. 5, § 213(1-A). Plaintiffs presently do not claim the damages relief asserted in this Complaint under the Maine UTPA until and unless New GM fails to remedy its unlawful conduct towards the Class within the requisite time period, after which Plaintiffs seek all damages and relief to which Plaintiffs and the Maine Class are entitled.

1676. Pursuant to ME. REV. STAT. ANN. TIT. 5 § 213(3), Plaintiffs will mail a copy of this complaint to Maine's Attorney General.

SIXTIETH CLAIM FOR RELIEF

BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY
(ME. REV. STAT. ANN. TIT. 11 § 2-314)

1677. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought on behalf of Class members who are Maine residents.

1678. Old GM and New GM were merchants with respect to motor vehicles within the meaning of ME. REV. STAT. ANN. TIT. 11 § 2-104(1).

1679. Under ME. REV. STAT. ANN. TIT. 11 § 2-314, a warranty that the Defective Vehicles were in merchantable condition was implied by law in the transactions when the Maine Class purchased their Defective Vehicles.

1680. These vehicles, when sold and at all times thereafter, were not merchantable and are not fit for the ordinary purpose for which cars are used. Specifically, the Defective Vehicles are inherently defective in that there are defects in the ignition switch systems that permit sudden unintended shutdown to occur, with the attendant shutdown of power steering and power brakes and the non-deployment of airbags in the event of a collision.

1681. Old GM and New GM were provided notice of these issues by numerous complaints filed against them, internal investigations, and by numerous individual letters and communications sent by the Maine Class before or within a reasonable amount of time after New GM issued the recall and the allegations of vehicle defects became public.

1682. As a direct and proximate result of Old GM and New GM's breach of the implied warranty of merchantability, the Maine Class has been damaged in an amount to be proven at trial. New GM also has successor liability for Old GM's breach.

SIXTY-FIRST CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

1683. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought on behalf of Class members who are Maine residents.

1684. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

1685. The Companies knew these representations were false when made.

1686. The vehicles purchased or leased by the Maine Class were, in fact, defective, unsafe and unreliable, because the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

1687. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision, because the Maine Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

1688. The aforementioned concealment was material, because if it had been disclosed the Maine Class would not have bought, leased or retained their vehicles.

1689. The aforementioned representations were also material because they were facts that would typically be relied on by a person purchasing, leasing or retaining a new or used motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

1690. The Maine Class relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements—in purchasing, leasing or retaining the Defective Vehicles.

1691. As a result of their reliance, the Maine Class been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

1692. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the Maine Class, who are therefore entitled to an award of punitive damages.

MARYLAND

SIXTY-SECOND CLAIM FOR RELIEF

VIOLATIONS OF THE MARYLAND CONSUMER PROTECTION ACT
(MD. CODE COM. LAW § 13-101, *et. seq.*)

1693. This claim is brought on behalf of Class members who are Maryland residents (the "Maryland Class").

1694. The Companies and the Maryland Class are "persons" within the meaning of MD. CODE COM. LAW § 13-101(h).

1695. The Maryland Consumer Protection Act ("Maryland CPA") provides that a person may not engage in any unfair or deceptive trade practice in the sale of any consumer good. MD. COM. LAW CODE § 13-303. Old GM and New GM both participated in misleading, false, or deceptive acts that violated the Maryland CPA. By failing to disclose and actively concealing the dangerous ignition switch defect in the Defective Vehicles, both Old GM and New GM engaged in deceptive business practices prohibited by the Maryland CPA.

1696. The Companies' actions as set forth above occurred in the conduct of trade or commerce.

1697. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the Maryland CPA, and also has successor liability for the violations of Old GM.

1698. As alleged above, both Companies knew of the ignition switch defects, while the Maryland Class was deceived by the Companies' omission into believing the Defective

Vehicles were safe, and the information could not have reasonably been known by the consumer.

1699. The Companies knew or should have known that their conduct violated the Maryland CPA.

1700. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

1701. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shutdown in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

1702. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

1703. The Companies each owed the Maryland Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the Maryland Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the Maryland Class that contradicted these representations.

1704. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the Maryland Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

1705. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the Maryland Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Maryland Class.

1706. The propensity of the Defective Vehicles to inadvertently shutdown during ordinary operation was material to the Maryland Class. Had the Maryland Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

1707. The Maryland Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The Maryland Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective

Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the Maryland Class own vehicles that are not safe.

1708. The Maryland Class have been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

1709. The Maryland Class Members risk irreparable injury as a result of the Companies' act and omissions in violation of the Maryland CPA, and these violations present a continuing risk to them as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

1710. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

1711. As a direct and proximate result of the Companies' violations of the Maryland CPA, the Maryland Class has suffered injury-in-fact and/or actual damage.

1712. Pursuant to MD. CODE COM. LAW § 13-408, the Maryland Class seek actual damages, attorneys' fees, and any other just and proper relief available under the Maryland CPA.

SIXTY-THIRD CLAIM FOR RELIEF

BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY (MD. CODE COM. LAW § 2-314)

1713. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought on behalf of Class members who are Maryland residents.

1714. Old GM and New GM were merchants with respect to motor vehicles within the meaning of MD. COM. LAW § 2-104(1).

1715. Under MD. COM. LAW § 2-314, a warranty that the Defective Vehicles were in merchantable condition was implied by law in the transactions when the Maryland Class purchased their Defective Vehicles.

1716. These vehicles, when sold and at all times thereafter, were not merchantable and are not fit for the ordinary purpose for which cars are used. Specifically, the Defective Vehicles are inherently defective in that there are defects in the ignition switch systems that permit sudden unintended shutdown to occur, with the attendant shutdown of power steering and power brakes and the non-deployment of airbags in the event of a collision.

1717. Old GM and New GM were provided notice of these issues by numerous complaints filed against them, internal investigations, and by numerous individual letters and communications sent by the Maryland Class before or within a reasonable amount of time after New GM issued the recall and the allegations of vehicle defects became public.

1718. As a direct and proximate result of Old GM and New GM's breach of the implied warranty of merchantability, the Maryland Class has been damaged in an amount to be proven at trial. New GM also has successor liability for Old GM's breach.

SIXTY-FOURTH CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

1719. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought on behalf of Class members who are Maryland residents.

1720. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

1721. The Companies knew these representations were false when made.

1722. The vehicles purchased or leased were, in fact, defective, unsafe and unreliable, because the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

1723. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision, because the Maryland Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

1724. The aforementioned concealment was material, because if it had been disclosed the Maryland Class would not have bought, leased or retained their vehicles.

1725. The aforementioned representations were also material because they were facts that would typically be relied on by a person purchasing, leasing or retaining a new or used motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

1726. The Maryland Class relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements—in purchasing, leasing or retaining the Defective Vehicles.

1727. As a result of their reliance, the Maryland Class been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

1728. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the Maryland Class, who are therefore entitled to an award of punitive damages.

MASSACHUSETTS

SIXTY-FIFTH CLAIM FOR RELIEF

DECEPTIVE ACTS OR PRACTICES PROHIBITED BY MASSACHUSETTS LAW
(MASS. GEN. LAWS CH. 93A, § 1, *et. seq.*)

1729. This claim is brought on behalf of Class members who are Massachusetts residents (the "Massachusetts Class or "The MA Class"").

1730. The Companies and the Massachusetts Class are "persons" within the meaning of MASS. GEN. LAWS ch. 93A, § 1(a).

1731. The Companies engaged in "trade" or "commerce" within the meaning of MASS. GEN. LAWS ch. 93A, § 1(b).

1732. Massachusetts law (the "Massachusetts Act") prohibits "unfair or deceptive acts or practices in the conduct of any trade or commerce." MASS. GEN. LAWS ch. 93A, § 2. Old GM and New GM both participated in misleading, false, or deceptive acts that violated the Massachusetts Act. By failing to disclose and actively concealing the dangerous ignition

switch defect in the Defective Vehicles, both Old GM and New GM engaged in deceptive business practices prohibited by the Massachusetts Act.

1733. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the Massachusetts Act, and also has successor liability for the violations of Old GM.

1734. As alleged above, both Companies knew of the ignition switch defects, while the Massachusetts Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

1735. The Companies knew or should have known that their conduct violated the Massachusetts Act.

1736. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

1737. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently

shutdown in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

1738. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

1739. The Companies each owed the MA Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the MA Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the MA Class that contradicted these representations.

1740. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the MA Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

1741. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the MA Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Massachusetts Class.

1742. The propensity of the Defective Vehicles to inadvertently shutdown during ordinary operation was material to the Massachusetts Class. Had the Massachusetts Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

1743. The Massachusetts Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The Massachusetts Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the Massachusetts Class owns vehicles that are not safe.

1744. The Massachusetts Class Members have been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

1745. Massachusetts Class Members risk irreparable injury as a result of the Companies' act and omissions in violation of the Massachusetts Act, and these violations present a continuing risk to the MA Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

1746. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

1747. As a direct and proximate result of the Companies' violations of the Massachusetts Act, the Massachusetts Class have suffered injury-in-fact and/or actual damage.

1748. Pursuant to MASS. GEN. LAWS ch. 93A, § 9, the Massachusetts Class seeks monetary relief against New GM measured as the greater of (a) actual damages in an amount to be determined at trial and (b) statutory damages in the amount of $25 for each Massachusetts Class Member. Because Defendant's conduct was committed willfully and knowingly, up to three times actual damages, but no less than two times actual damages, is warranted as a recovery for each Massachusetts Class Member.

1749. The Massachusetts Class also seeks an order enjoining New GM's unfair and/or deceptive acts or practices, punitive damages, and attorneys' fees, costs, and any other just and proper relief available under the Massachusetts Act.

1750. Massachusetts Plaintiffs have complied with the notice requirement set forth in MASS. GEN. LAWS ch. 93A, § 9(3) by virtue of the notice previously provided in the context of the underlying action styled *Dinco, et al. v GM*, 2:14-cv-03638-JVS-AN (C.D. Cal.), and other underlying actions, as well as additional notice in the form of a demand letter sent on October 12, 2014.

SIXTY-SIXTH CLAIM FOR RELIEF

BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY (ALM GL. CH. 106, § 2-314)

1751. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought on behalf of Class members who are Massachusetts residents.

1752. Old GM and New GM were merchants with respect to motor vehicles within the meaning of ALM GL CH. 106, § 2-104(1).

1753. Under ALM GL CH. 106, § 2-314, a warranty that the Defective Vehicles were in merchantable condition was implied by law in the Defective Vehicle transactions.

1754. These vehicles, when sold and at all times thereafter, were not merchantable and are not fit for the ordinary purpose for which cars are used. Specifically, the Defective Vehicles are inherently defective in that there are defects in the ignition switch systems that permit sudden unintended shutdown to occur, with the attendant shutdown of power steering and power brakes and the non-deployment of airbags in the event of a collision.

1755. Old GM and New GM were provided notice of these issues by numerous complaints filed against them, internal investigations, and by numerous individual letters and communications sent by the Massachusetts Class before or within a reasonable amount of time after New GM issued the recall and the allegations of vehicle defects became public.

1756. As a direct and proximate result of Old GM and New GM's breach of the implied warranty of merchantability, the Massachusetts Class has been damaged in an amount to be proven at trial. New GM also has successor liability for Old GM's breach.

SIXTY-SEVENTH CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

1757. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought on behalf of Class members who are Massachusetts residents.

1758. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

1759. The Companies knew these representations were false when made.

1760. The vehicles purchased or leased by the MA Class, in fact, defective, unsafe and unreliable, because the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

1761. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision, because the MA Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

1762. The aforementioned concealment was material, because if it had been disclosed the MA Class would not have bought, leased or retained their vehicles.

1763. The aforementioned representations were also material because they were facts that would typically be relied on by a person purchasing, leasing or retaining a new or used motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

1764. The MA Class relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements—in purchasing, leasing or retaining the Defective Vehicles.

1765. As a result of their reliance, MA Class Members have been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

1766. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the Massachusetts Class, who are therefore entitled to an award of punitive damages.

MICHIGAN

SIXTY-EIGHTH CLAIM FOR RELIEF

VIOLATION OF THE MICHIGAN CONSUMER PROTECTION ACT
(MICH. COMP. LAWS § 445.903, *et. seq.*)

1767. This claim is brought under Michigan law on behalf of the Michigan Class for equitable injunctive relief , actual damages, and statutory penalties.

1768. Michigan Class Members were "person[s]" within the meaning of the MICH. COMP. LAWS § 445.902(1)(d).

1769. At all relevant times hereto, the Companies were "persons" engaged in "trade or commerce" within the meaning of the MICH. COMP. LAWS § 445.902(1)(d) and (g).

1770. The Michigan Consumer Protection Act ("Michigan CPA") prohibits "[u]nfair, unconscionable, or deceptive methods, acts, or practices in the conduct of trade or commerce…." MICH. COMP. LAWS § 445.903(1). Old GM and New GM engaged in unfair, unconscionable, or deceptive methods, acts or practices prohibited by the Michigan CPA,

including: "(c) Representing that goods or services have… characteristics… that they do not have.…;" "(e) Representing that goods or services are of a particular standard… if they are of another;" "(i) Making false or misleading statements of fact concerning the reasons for, existence of, or amounts of price reductions;" "(s) Failing to reveal a material fact, the omission of which tends to mislead or deceive the consumer, and which fact could not reasonably be known by the consumer;" "(bb) Making a representation of fact or statement of fact material to the transaction such that a person reasonably believes the represented or suggested state of affairs to be other than it actually is;" and "(cc) Failing to reveal facts that are material to the transaction in light of representations of fact made in a positive manner." MICH. COMP. LAWS § 445.903(1). By failing to disclose and actively concealing the dangerous ignition switch defect in the Defective Vehicles, Old GM and New GM both participated in unfair, deceptive, and unconscionable acts that violated the Michigan CPA.

1771. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defect in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the Michigan CPA, and also has successor liability for the violations of Old GM.

1772. As alleged above, both Companies knew of the ignition switch defects, and the Michigan Class was deceived by the Companies' omissions into believing the Defective

Vehicles were safe. The true information could not have reasonably been known by the consumer.

1773. The Companies knew or should have known that their conduct violated the Michigan CPA.

1774. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

1775. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shutdown in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

1776. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

1777. The Companies each owed the Michigan Class an independent duty, based on their respective knowledge, to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they each:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from Plaintiffs; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from Plaintiffs that contradicted these representations.

1778. The Defective Vehicles posed and/or continue to pose an unreasonable risk of death or serious bodily injury to the Michigan Class passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

1779. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the Michigan Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Michigan Class.

1780. The propensity of the Defective Vehicles to inadvertently shutdown during ordinary operation was material to the Michigan Class. Had the Michigan Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

1781. The Michigan Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The Michigan Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective

Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the Michigan Class owns vehicles that are not safe.

1782. The Michigan Class has been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

1783. Michigan Class Members were—and continue to be—at risk of irreparable injury as a result of the respective Companies' acts and omissions in violation of the Michigan CPA, and these violations present a continuing risk to the Michigan Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

1784. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

1785. As a direct and proximate result of the Companies' violations of the Michigan CPA, the Michigan Class has suffered injury-in-fact and/or actual damage.

1786. The Michigan Class seeks injunctive relief to enjoin New GM from continuing its unfair and deceptive acts; monetary relief against New GM measured as the greater of (a) actual damages in an amount to be determined at trial and (b) statutory damages in the amount of $250 for each Michigan Class Member; reasonable attorneys' fees; declaratory

relief in the nature of a judicial determination of whether each Company's conduct violated the Michigan Statute, the just total amount of penalties to be assessed against each thereunder, and the formula and procedure for fair and equitable allocation of statutory penalties among the Michigan Class; and any other just and proper relief available under MICH. COMP. LAWS § 445.911.

1787. The Michigan Class also seeks punitive damages against New GM because it carried out despicable conduct with willful and conscious disregard of the rights and safety of others. New GM intentionally and willfully misrepresented the safety and reliability of Defective Vehicles, deceived Michigan Class Members on life-or-death matters, and concealed material facts that only it knew, all to avoid the expense and public relations nightmare of correcting a deadly flaw in the Defective Vehicles it repeatedly promised Michigan Class Members were safe. New GM's unlawful conduct constitutes malice, oppression, and fraud warranting punitive damages.

SIXTY-NINTH CLAIM FOR RELIEF

BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY (MICH. COMP. LAWS § 440.2314)

1788. This claim is brought on behalf of Michigan residents (the "Michigan Class").

1789. Old GM and New GM were merchants with respect to motor vehicles within the meaning of MICH. COMP. LAWS § 440.2314(1).

1790. Under MICH. COMP. LAWS § 440.2314, a warranty that the Defective Vehicles were in merchantable condition was implied by law in the transactions when Michigan Class members purchased their Defective Vehicles.

1791. These vehicles, when sold and at all times thereafter, were not merchantable and are not fit for the ordinary purpose for which cars are used. Specifically, the Defective

Vehicles are inherently defective in that there are defects in the ignition switch systems that permit sudden unintended shutdown to occur, with the attendant shutdown of power steering and power brakes and the non-deployment of airbags in the event of a collision.

1792. Old GM and New GM were provided notice of these issues by numerous complaints filed against them, internal investigations, and by numerous individual letters and communications sent by the Michigan Class before or within a reasonable amount of time after New GM issued the recall and the allegations of vehicle defects became public.

1793. As a direct and proximate result of Old GM and New GM's breach of the implied warranty of merchantability, the Michigan Class has been damaged in an amount to be proven at trial. New GM also has successor liability for Old GM's breach.

1794. The Michigan Class also seeks available equitable and/or injunctive relief. Based on New GM's continuing failures to fix the known dangerous defects, the Michigan Class seeks a declaration that New GM has not adequately implemented its recall commitments and requirements and general commitments to fix its failed processes, and injunctive relief in the form of judicial supervision over the recall process is warranted. The Michigan Class also seeks the establishment of a New GM-funded program for Plaintiffs and Class members to recover out of pocket costs incurred.

SEVENTIETH CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

1795. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought on behalf of Class members who are Michigan residents.

1796. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

1797. The Companies knew these representations were false when made.

1798. The vehicles purchased or leased by the Michigan Class were, in fact, defective, unsafe and unreliable, because the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

1799. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision, because the Michigan Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

1800. The aforementioned concealment was material, because if it had been disclosed the Michigan Class would not have bought, leased or retained their vehicles.

1801. The aforementioned representations were also material because they were facts that would typically be relied on by a person purchasing, leasing or retaining a new or used motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

1802. The Michigan Class relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements—in purchasing, leasing or retaining the Defective Vehicles.

1803. As a result of their reliance, the Michigan Class Members have been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

1804. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the Michigan Class, who are therefore entitled to an award of punitive damages.

MINNESOTA

SEVENTY-FIRST CLAIM FOR RELIEF

VIOLATION OF MINNESOTA PREVENTION OF CONSUMER FRAUD ACT
(MINN. STAT. § 325f.68, *et. seq.*)

1805. This claim is brought on behalf of Class members who are Minnesota residents (the "Minnesota Class").

1806. The Defective Vehicles constitute "merchandise" within the meaning of MINN. STAT. § 325F.68(2).

1807. The Minnesota Prevention of Consumer Fraud Act ("Minnesota CFA") prohibits "[t]he act, use, or employment by any person of any fraud, false pretense, false promise, misrepresentation, misleading statement or deceptive practice, with the intent that others rely thereon in connection with the sale of any merchandise, whether or not any person has in fact been misled, deceived, or damaged thereby…" MINN. STAT. § 325F.69(1). Old GM and New GM both participated in misleading, false, or deceptive acts that violated the Minnesota CFA. By failing to disclose and actively concealing the dangerous ignition switch defects in the Defective Vehicles, both Old GM and New GM engaged in deceptive business practices prohibited by the Minnesota CFA.

1808. The Companies' actions as set forth above occurred in the conduct of trade or commerce.

1809. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the Minnesota CFA, and also has successor liability for the violations of Old GM.

1810. As alleged above, both Companies knew of the ignition switch defects, while the Minnesota Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

1811. The Companies knew or should have known that their conduct violated the Minnesota CFA.

1812. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

1813. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently

shutdown in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

1814. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

1815. The Companies each owed the Minnesota Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the Minnesota Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the Minnesota Class that contradicted these representations.

1816. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the Minnesota Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

1817. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Minnesota Class.

1818. The propensity of the Defective Vehicles to inadvertently shutdown during ordinary operation was material to the Minnesota Class. Had the Minnesota Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

1819. The Minnesota Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The Minnesota Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the Minnesota Class owns vehicles that are not safe.

1820. The Minnesota Class Members have been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

1821. Minnesota Class Members risk irreparable injury as a result of the Companies' act and omissions in violation of the Minnesota CFA, and these violations present a continuing risk to them as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

1822. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

1823. As a direct and proximate result of the Companies' violations of the Minnesota CFA, the Minnesota Class has suffered injury-in-fact and/or actual damage.

1824. Pursuant to MINN. STAT. § 8.31(3a), the Minnesota Class seeks actual damages, attorneys' fees, and any other just and proper relief available under the Minnesota CFA.

1825. The Minnesota Class also seeks punitive damages under MINN. STAT. § 549.20(1)(a) give the clear and convincing evidence that New GM's acts show deliberate disregard for the rights or safety of others.

SEVENTY-SECOND CLAIM FOR RELIEF

VIOLATION OF MINNESOTA UNIFORM DECEPTIVE TRADE PRACTICES ACT
(MINN. STAT. § 325d.43-48, *et. seq.*)

1826. This claim is brought on behalf of Class members who are Minnesota residents.

1827. The Minnesota Deceptive Trade Practices Act ("Minnesota DTPA") prohibits deceptive trade practices, which occur when a person "(5) represents that goods or services have sponsorship, approval, characteristics, ingredients, uses, benefits, or quantities that they do not have or that a person has a sponsorship, approval, status, affiliation, or connection that the person does not have;" "(7) represents that goods or services are of a particular standard, quality, or grade, or that goods are of a particular style or model, if they are of another;" and "(9) advertises goods or services with intent not to sell them as advertised." MINN. STAT.

§ 325D.44. In the course of the Companies' business, they each willfully failed to disclose and actively concealed the dangerous risk caused by the ignition switch defects in the Defective Vehicles and engaged in deceptive practices by representing that Defective Vehicles have sponsorship, approval, characteristics, ingredients, uses, benefits, or quantities that they do not have; representing that Defective Vehicles are of a particular standard, quality, or grade, or that goods are of a particular style or model, if they are of another; and advertising Defective Vehicles with intent not to sell them as advertised. Old GM and New GM both participated in misleading, false, or deceptive acts that violated the Minnesota DTPA. By failing to disclose and actively concealing the dangerous ignition switch defects in the Defective Vehicles, both Old GM and New GM engaged in deceptive business practices prohibited by the Minnesota DTPA.

1828. The Companies' actions as set forth above occurred in the conduct of trade or commerce.

1829. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the Minnesota DTPA, and also has successor liability for the violations of Old GM.

1830. As alleged above, both Companies knew of the ignition switch defects, while the Minnesota Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

1831. The Companies knew or should have known that their conduct violated the Minnesota DTPA.

1832. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

1833. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shutdown in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

1834. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

1835. The Companies each owed the Minnesota Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the Minnesota that contradicted these representations.

1836. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the Minnesota Class passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

1837. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Minnesota Class.

1838. The propensity of the Defective Vehicles to inadvertently shutdown during ordinary operation was material to the Minnesota Class. Had the Minnesota Class Members known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

1839. The Minnesota Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The Minnesota Class Members overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and

failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the Minnesota Class owns vehicles that are not safe.

1840. The Minnesota Class Members have been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

1841. The Minnesota Class Members risk irreparable injury as a result of the Companies' act and omissions in violation of the Minnesota DTPA, and these violations present a continuing risk to the Minnesota Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

1842. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

1843. As a direct and proximate result of the Companies' violations of the Minnesota DTPA, the Minnesota Class has suffered injury-in-fact and/or actual damages.

1844. Pursuant to MINN. STAT. § 8.31(3a) and 325D.45, the Minnesota Class seeks actual damages, attorneys' fees, and any other just and proper relief available under the Minnesota DTPA.

1845. The Minnesota Class also seeks punitive damages under MINN. STAT. § 549.20(1)(a) give the clear and convincing evidence that New GM's acts show deliberate disregard for the rights or safety of others.

SEVENTY-THIRD CLAIM FOR RELIEF

BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY (MINN. STAT. § 336.2-314)

1846. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought on behalf of Class members who are Minnesota residents.

1847. Old GM and New GM were merchants with respect to motor vehicles within the meaning of MINN. STAT. § 336.2-104(1).

1848. Under MINN. STAT. § 336.2-314, a warranty that the Defective Vehicles were in merchantable condition was implied by law in the transactions when the Minnesota Class purchased their Defective Vehicles.

1849. These vehicles, when sold and at all times thereafter, were not merchantable and are not fit for the ordinary purpose for which cars are used. Specifically, the Defective Vehicles are inherently defective in that there are defects in the ignition switch systems that permit sudden unintended shutdown to occur, with the attendant shutdown of power steering and power brakes and the non-deployment of airbags in the event of a collision.

1850. Old GM and New GM were provided notice of these issues by numerous complaints filed against them, internal investigations, and by numerous individual letters and

communications sent by the Minnesota Class before or within a reasonable amount of time after New GM issued the recall and the allegations of vehicle defects became public.

1851. As a direct and proximate result of Old GM and New GM's breach of the implied warranty of merchantability, the Minnesota Class has been damaged in an amount to be proven at trial. New GM also has successor liability for Old GM's breach.

SEVENTY-FOURTH CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

1852. This claim is brought on behalf of Class members who are Minnesota residents.

1853. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

1854. The Companies knew these representations were false when made.

1855. The vehicles purchased or leased by the Minnesota Class were, in fact, defective, unsafe and unreliable, because the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

1856. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision, because the Minnesota Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

1857. The aforementioned concealment was material, because if it had been disclosed the Minnesota Class Members would not have bought, leased or retained their vehicles.

1858. The aforementioned representations were also material because they were facts that would typically be relied on by a person purchasing, leasing or retaining a new or used

motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

1859. The Minnesota Class relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements—in purchasing, leasing or retaining the Defective Vehicles.

1860. As a result of their reliance, they have been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

1861. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the Minnesota Class, who are therefore entitled to an award of punitive damages.

MISSISSIPPI

SEVENTY-FIFTH CLAIM FOR RELIEF

VIOLATION OF MISSISSIPPI CONSUMER PROTECTION ACT
(MISS. CODE. ANN. § 75-24-1, *et. seq.*)

1862. This claim is brought solely on behalf of Class members who are Mississippi residents (the "Mississippi Class").

1863. The Mississippi Consumer Protection Act ("Mississippi CPA") prohibits "unfair or deceptive trade practices in or affecting commerce…." MISS. CODE. ANN. § 75-24-5(1). Unfair or deceptive practices include, but are not limited to, "(e) Representing that goods or services have sponsorship, approval, characteristics, ingredients, uses, benefits, or

quantities that they do not have or that a person has a sponsorship, approval, status, affiliation, or connection that he does not have;" "(g) Representing that goods or services are of a particular standard, quality, or grade, or that goods are of a particular style or model, if they are of another;" and "(i) Advertising goods or services with intent not to sell them as advertised." Old GM and New GM participated in deceptive trade practices that violated the Mississippi CPA as described herein, including representing that Defective Vehicles have characteristics, uses, benefits, and qualities which they do not have; representing that Defective Vehicles are of a particular standard and quality when they are not; and advertising Defective Vehicles with the intent not to sell them as advertised.

1864. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defect in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the Mississippi CPA, and also has successor liability for the violations of Old GM.

1865. As alleged above, both Companies knew of the ignition switch defects, while the Mississippi Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

1866. The Companies knew or should have known that their conduct violated the Mississippi CPA.

1867. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

1868. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shutdown in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

1869. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

1870. The Companies each owed the Mississippi Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the Mississippi Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts that contradicted these representations.

1871. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the Mississippi Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

1872. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the Mississippi, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Mississippi Class.

1873. The propensity of the Defective Vehicles to inadvertently shutdown during ordinary operation was material to the Mississippi Class. Had the Mississippi Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

1874. All members of the Mississippi Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The Mississippi Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the Mississippi Class owns vehicles that are not safe.

1875. The Mississippi Class Members have been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

1876. The Mississippi Class Members risk irreparable injury as a result of the Companies' act and omissions in violation of the Mississippi CPA, and these violations present a continuing risk to the Mississippi Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

1877. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

1878. As a direct and proximate result of the Companies' violations of the Mississippi CPA, the Mississippi Class has suffered injury-in-fact and/or actual damage.

1879. The actual damages of the Mississippi Class will be determined at trial, and the Mississippi Class seeks these damages as well as any other just and proper relief available under the Mississippi CPA.

SEVENTY-SIXTH CLAIM FOR RELIEF

BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY (MISS. CODE ANN. § 75-2-314)

1880. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is solely on behalf of Class members who are Mississippi residents.

1881. Old GM and New GM were merchants with respect to motor vehicles within the meaning of MISS. CODE ANN. § 75-2-104(1).

1882. Under MISS. CODE ANN. § 75-2-314, a warranty that the Defective Vehicles were in merchantable condition was implied by law in the transactions when the Mississippi Class purchased their Defective Vehicles.

1883. These vehicles, when sold and at all times thereafter, were not merchantable and are not fit for the ordinary purpose for which cars are used. Specifically, the Defective Vehicles are inherently defective in that there are defects in the ignition switch systems that permit sudden unintended shutdown to occur, with the attendant shutdown of power steering and power brakes and the non-deployment of airbags in the event of a collision.

1884. Old GM and New GM were provided notice of these issues by numerous complaints filed against them, internal investigations, and by numerous individual letters and communications sent by the Mississippi Class before or within a reasonable amount of time after New GM issued the recall and the allegations of vehicle defects became public.

1885. As a direct and proximate result of Old GM and New GM's breach of the implied warranty of merchantability, the Mississippi Class has been damaged in an amount to be proven at trial. New GM also has successor liability for Old GM's breach.

SEVENTY-SEVENTH CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

1886. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought on behalf of Class members who are Mississippi residents.

1887. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

1888. The Companies knew these representations were false when made.

1889. The vehicles purchased or leased by the Mississippi Class were, in fact, defective, unsafe and unreliable, because the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

1890. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision, because the Mississippi Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

1891. The aforementioned concealment was material, because if it had been disclosed the Mississippi Class would not have bought, leased or retained their vehicles.

1892. The aforementioned representations were also material because they were facts that would typically be relied on by a person purchasing, leasing or retaining a new or used motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

1893. The Mississippi Class relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements—in purchasing, leasing or retaining the Defective Vehicles.

1894. As a result of their reliance, the Mississippi Class Members have been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

1895. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the Mississippi Class, who are therefore entitled to an award of punitive damages.

MISSOURI

SEVENTY-EIGHTH CLAIM FOR RELIEF

VIOLATION OF MISSOURI MERCHANDISING PRACTICES ACT
(MO. REV. STAT. § 407.010, *et. seq.*)

1896. Plaintiffs bring this claim on behalf of Class members who are Missouri residents (the "Missouri Class") .

1897. New GM, Old GM, and the Missouri Class are "persons" within the meaning of MO. REV. STAT. § 407.010(5).

1898. Old GM and New GM engaged in "trade" or "commerce" within the meaning of MO. REV. STAT. § 407.010(7).

1899. The Missouri Merchandising Practices Act ("Missouri MPA") makes unlawful the "act, use or employment by any person of any deception, fraud, false pretense, misrepresentation, unfair practice, or the concealment, suppression, or omission of any material fact in connection with the sale or advertisement of any merchandise…." MO. REV. STAT. § 407.020.

1900. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity

to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression, or omission of any material fact with intent that others rely upon such concealment, suppression, or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the Missouri MPA, and also has successor liability for the violations of Old GM.

1901. As alleged above, both Companies knew of the ignition switch defects, while the Missouri Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

1902. The Companies knew or should have known that their conduct violated the Missouri MPA.

1903. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

1904. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shutdown in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

1905. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the

defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

1906. The Companies each owed the Missouri Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the Missouri Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the Missouri Class that contradicted these representations.

1907. The Defective Vehicles pose an unreasonable risk of death or serious bodily injury to the Missouri Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

1908. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Missouri Class.

1909. The propensity of the Defective Vehicles to inadvertently shutdown during ordinary operation was material to the Missouri Class. Had the Missouri Class known that

their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

1910. All members of the Missouri Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The Missouri Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the Missouri Class owns vehicles that are not safe.

1911. The Missouri Class Members have been damaged by Old GM and New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of Old GM and New GM's failure to timely disclose and remedy the serious defects. Old GM and New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in Old GM and New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

1912. The Missouri Class Members risk irreparable injury as a result of the Companies' acts and omissions in violation of the Missouri MPA, and these violations present a continuing risk to them as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

1913. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

1914. As a direct and proximate result of the Companies' violations of the Missouri MPA, the Missouri Class has suffered injury-in-fact and/or actual damage.

1915. New GM is liable to the Missouri Class for damages in amounts to be proven at trial, including attorneys' fees, costs, and punitive damages, as well as injunctive relief enjoining New GM's unfair and deceptive practices, and any other just and proper relief under MO. REV. STAT. § 407.025.

1916. Pursuant to MO. REV. STAT. § 407.010, Plaintiffs will serve the Missouri Attorney General with a copy of this complaint as Plaintiffs seek injunctive relief.

1917. Both companies conduct as described herein is unethical, oppressive, or unscrupulous and/or it presented a risk of substantial injury to consumers whose vehicles were prone to fail at times and under circumstances that could have resulted in death. Such acts are unfair practices in violation of 15 Mo. Code Reg. 60-8.020.

SEVENTY-NINTH CLAIM FOR RELIEF

BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY (MO. REV. STAT. § 400.2-314)

1918. In the event the Court declines to certify a nationwide Class under

1919. Michigan law, Plaintiffs bring this claim on behalf the Missouri Class.

1920. Old GM and New GM were merchants with respect to motor vehicles.

1921. Under MO. REV. STAT. § 400.2-314, a warranty that the Defective Vehicles were in merchantable condition was implied by law in the transactions when the Missouri Class purchased their Defective Vehicles.

1922. These vehicles, when sold and at all times thereafter, were not merchantable and are not fit for the ordinary purpose for which cars are used. Specifically, the Defective Vehicles are inherently defective in that there are defects in the ignition switch systems that permit sudden unintended shutdown to occur, with the attendant shutdown of power steering and power brakes and the non-deployment of airbags in the event of a collision.

1923. Old GM and New GM were provided notice of these issues by numerous complaints filed against them, internal investigations, and by numerous individual letters and communications sent by Missouri Class members before or within a reasonable amount of time after New GM issued the recall and the allegations of vehicle defects became public.

1924. As a direct and proximate result of Old GM and New GM's breach of the warranties of merchantability, the Missouri Class has been damaged in an amount to be proven at trial. New GM has successor liability for Old GM's breach.

EIGHTIETH CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

1925. In the event the Court declines to certify a nationwide Class under Michigan law, Plaintiffs bring this claim on behalf the Missouri Class.

1926. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

1927. The Companies knew these representations were false when made.

1928. The vehicles purchased or leased by the Missouri Class were, in fact, defective, unsafe and unreliable, because the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

1929. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision because the Missouri Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

1930. The aforementioned concealment was material because if it had been disclosed the Missouri Class would not have bought, leased or retained their vehicles. When Missouri Class members bought a Defective Vehicle for personal, family, or household purposes, they reasonably expected the vehicle would not change ignition position unless the driver turned the key.

1931. The aforementioned representations were material because they were facts that would typically be relied on by a person purchasing, leasing, or retaining a new or used motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

1932. Missouri Class members relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements—in purchasing, leasing or retaining the Defective Vehicles.

1933. As a result of their reliance, the Missouri Class has been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

1934. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the Missouri Class. Missouri Class members are therefore entitled to an award of punitive damages.

MONTANA

EIGHTY-FIRST CLAIM FOR RELIEF

VIOLATION OF MONTANA UNFAIR TRADE PRACTICES AND CONSUMER PROTECTION ACT OF 1973
(MONT. CODE ANN. § 30-14-101, *et. seq.*)

1935. This claim is brought on behalf of Class members who are Montana residents (the "Montana Class").

1936. Old GM, New GM, and the Montana Class are "person[s]" within the meaning of MONT. CODE ANN. § 30-14-102(6).

1937. Montana Class members are "consumer[s]" under MONT. CODE ANN. § 30-14-102(1).

1938. The sale or lease of the Defective Vehicles to Montana Class members occurred within "trade and commerce" within the meaning of MONT. CODE ANN. § 30-14-102(8), and the Companies committed deceptive and unfair acts in the conduct of "trade and commerce" as defined in that statutory section.

1939. The Montana Unfair Trade Practices and Consumer Protection Act ("Montana CPA") makes unlawful any "unfair methods of competition and unfair or deceptive acts or practices in the conduct of any trade or commerce." MONT. CODE ANN. § 30-14-103. By failing to disclose and actively concealing the dangerous ignition switch defects in the Defective Vehicles, both Old GM and New GM engaged in unfair and deceptive acts or practices in violation of the Montana CPA.

1940. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the Montana CPA, and also has successor liability for the violations of Old GM.

1941. As alleged above, both Companies knew of the ignition switch defects, while the Montana Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

1942. The Companies knew or should have known that their conduct violated the Montana CPA.

1943. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

1944. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shutdown in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

1945. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

1946. The Companies each owed the Montana Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the Montana Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the Montana Class that contradicted these representations.

1947. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the Montana Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

1948. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the Montana Class, about the true safety and reliability of

Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Montana Class.

1949. The propensity of the Defective Vehicles to inadvertently shutdown during ordinary operation was material to the Montana Class. When Montana Class members bought their Defective Vehicles, they reasonably expected the vehicle would not change ignition position unless the driver turned the key. Had Montana Class members known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

1950. All members of the Montana Class suffered ascertainable loss caused by the Companies' failure to disclose material information. Montana Class members overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and Montana Class members own vehicles that are not safe.

1951. The Montana Class has been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of Old GM and New GM's failure to timely disclose and remedy the serious defects. Old GM and New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in Old GM and New GM vehicles, have so

tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

1952. Montana Class members risk irreparable injury as a result of the Companies' acts and omissions in violation of the Montana CPA, and these violations present a continuing risk to the Montana Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

1953. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

1954. As a direct and proximate result of the Companies' violations of the Montana CPA, the Montana Class has suffered injury-in-fact and/or actual damage.

1955. Because the Companies' unlawful methods, acts, and practices have caused Montana Class members to suffer an ascertainable loss of money and property, the Montana Class seeks from New GM actual damages or $500, whichever is greater, discretionary treble damages, reasonable attorneys' fees, an order enjoining New GM's unfair, unlawful and/or deceptive practices, and any other relief the Court considers necessary or proper, under MONT. CODE ANN. § 30-14-133.

EIGHTY-SECOND CLAIM FOR RELIEF

BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY (MONT. CODE § 30-2-314)

1956. In the event the Court declines to certify a nationwide Class, Plaintiffs bring this claim on behalf of the Montana Class.

1957. Old GM and New GM were merchants with respect to motor vehicles under MONT. CODE § 30-2-104.

1958. Under MONT. CODE § 30-2-314, a warranty that the Defective Vehicles were in merchantable condition was implied by law in the transactions when Montana Class members purchased their Defective Vehicles.

1959. These vehicles, when sold and at all times thereafter, were not merchantable and are not fit for the ordinary purpose for which cars are used. Specifically, the Defective Vehicles are inherently defective in that there are defects in the ignition switch systems that permit sudden unintended shutdown to occur, with the attendant shutdown of power steering and power brakes and the non-deployment of airbags in the event of a collision. .

1960. Old GM and New GM were provided notice of these issues by numerous complaints filed against them, internal investigations, and by numerous individual letters and communications sent by Montana Class members before or within a reasonable amount of time after New GM issued the recall and the allegations of vehicle defects became public.

1961. As a direct and proximate result of Old GM and New GM's breach of the warranties of merchantability, the Montana Class has been damaged in an amount to be proven at trial. New GM has successor liability for Old GM's breach.

EIGHTY-THIRD CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

1962. In the event the Court declines to certify a nationwide Class under Michigan law, Plaintiffs bring this claim on behalf of the Montana Class.

1963. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

1964. The Companies knew these representations were false when made.

1965. The vehicles purchased or leased by the Montana Class were, in fact, defective, unsafe, and unreliable, because the vehicles were subject to sudden unintended shutdown,

with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

1966. The Companies had a duty to disclose that these vehicles were defective, unsafe, and unreliable in that the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision because the Montana Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

1967. The aforementioned concealment was material because if it had been disclosed the Montana Class would not have bought, leased, or retained their vehicles.

1968. The aforementioned representations were material because they were facts that would typically be relied on by a person purchasing, leasing, or retaining a new or used motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

1969. The Montana Class relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements—in purchasing, leasing, or retaining the Defective Vehicles.

1970. As a result of their reliance, Montana Class members have been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

1971. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the Montana Class. Montana Class members are therefore entitled to an award of punitive damages.

NEBRASKA

EIGHTY-FOURTH CLAIM FOR RELIEF

VIOLATION OF THE NEBRASKA CONSUMER PROTECTION ACT
(NEB. REV. STAT. § 59-1601, *et. seq.*)

1972. This claim is brought on behalf of Class members who are Nebraska residents (the "Nebraska Class").

1973. Old GM, New GM, and Nebraska Class members are "person[s]" under the Nebraska Consumer Protection Act ("Nebraska CPA"), NEB. REV. STAT. § 59-1601(1).

1974. The Companies' actions as set forth herein occurred in the conduct of trade or commerce as defined under NEB. REV. STAT. § 59-1601(2).

1975. The Nebraska CPA prohibits "unfair or deceptive acts or practices in the conduct of any trade or commerce." NEB. REV. STAT. § 59-1602. The conduct of Old GM and New GM as set forth herein constitutes unfair or deceptive acts or practices.

1976. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression, or omission of any material fact with intent that others rely upon such concealment, suppression, or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or

commerce in violation of the Nebraska CPA, and also has successor liability for the violations of Old GM.

1977. As alleged above, both Companies knew of the ignition switch defects, while the Nebraska Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

1978. The Companies knew or should have known that their conduct violated the Nebraska CPA.

1979. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

1980. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shutdown in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

1981. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

1982. The Companies each owed the Nebraska Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the Nebraska Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the Nebraska Class that contradicted these representations.

1983. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the Nebraska Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

1984. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the Nebraska Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Nebraska Class.

1985. The propensity of the Defective Vehicles to inadvertently shutdown during ordinary operation was material to the Nebraska Class. When the Nebraska Class members bought a Defective Vehicles, they reasonably expected the vehicle would not change ignition position unless the driver turned the key. Had the Nebraska Class known that their vehicles

had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

1986. All members of the Nebraska Class suffered ascertainable loss caused by the Companies' failure to disclose material information. Nebraska Class members overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and Nebraska Class members own vehicles that are not safe.

1987. The Nebraska Class has been damaged by Old GM and New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of Old GM and New GM's failure to timely disclose and remedy the serious defects. Old GM and New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in Old GM and New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

1988. Nebraska Class Members risk irreparable injury as a result of the Companies' acts and omissions in violation of the MPA, and these violations present a continuing risk to the Nebraska Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

1989. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

1990. As a direct and proximate result of the Companies' violations of the Nebraska CPA, the Nebraska Class has suffered injury-in-fact and/or actual damage.

1991. Because the Companies' conduct caused injury to Class members' property through violations of the Nebraska CPA, the Nebraska Class seeks recovery of actual damages, as well as enhanced damages up to $1,000, an order enjoining New GM's unfair or deceptive acts and practices, costs of Court, reasonable attorneys' fees, and any other just and proper relief available under NEB. REV. STAT. § 59-1609.

EIGHTY-FIFTH CLAIM FOR RELIEF

BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY (NEB. REV. STAT. NEB. § 2-314)

1992. In the event the Court declines to certify a nationwide Class, Plaintiffs bring this claim on behalf of the Nebraska Class.

1993. Old GM and New GM were merchants with respect to motor vehicles.

1994. A warranty that the Defective Vehicles were in merchantable condition was implied by law in the transactions when Nebraska Class members purchased their Defective Vehicles.

1995. These vehicles, when sold and at all times thereafter, were not merchantable and are not fit for the ordinary purpose for which cars are used. Specifically, the Defective Vehicles are inherently defective in that there are defects in the ignition switch systems that permit sudden unintended shutdown to occur, with the attendant shutdown of power steering and power brakes and the non-deployment of airbags in the event of a collision.

1996. Old GM and New GM were provided notice of these issues by numerous complaints filed against them, internal investigations, and by numerous individual letters and communications sent by Nebraska Class members before or within a reasonable amount of time after New GM issued the recall and the allegations of vehicle defects became public.

1997. As a direct and proximate result of Old GM and New GM's breach of the warranties of merchantability, the Nebraska Class has been damaged in an amount to be proven at trial. New GM has successor liability for Old GM's breach.

EIGHTY-SIXTH CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

1998. In the event the Court declines to certify a nationwide Class under Michigan law, Plaintiffs bring this claim on behalf of the Nebraska Class.

1999. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

2000. The Companies knew these representations were false when made.

2001. The vehicles purchased or leased by the Nebraska Class were, in fact, defective, unsafe, and unreliable, because the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

2002. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision because the Nebraska Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

2003. The aforementioned concealment was material because if it had been disclosed the Nebraska Class would not have bought, leased, or retained their vehicles.

2004. The aforementioned representations were material because they were facts that would typically be relied on by a person purchasing, leasing, or retaining a new or used motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

2005. The Nebraska Class relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements—in purchasing, leasing or retaining the Defective Vehicles.

2006. As a result of their reliance, the Nebraska Class has been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

2007. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the Nebraska Class. Nebraska Class members are therefore entitled to an award of punitive damages.

NEVADA

EIGHTY-SEVENTH CLAIM FOR RELIEF

VIOLATION OF THE NEVADA DECEPTIVE TRADE PRACTICES ACT (NEV. REV. STAT. § 598.0903, *Et. seq.*)

2008. This claim is brought on behalf of Class members who are Nevada residents (the "Nevada Class").

2009. The Nevada Deceptive Trade Practices Act ("Nevada DTPA"), NEV. REV. STAT. § 598.0903, *et. seq.* prohibits deceptive trade practices. NEV. REV. STAT. § 598.0915 provides that a person engages in a "deceptive trade practice" if, in the course of business or occupation, the person: "(5) Knowingly makes a false representation as to the characteristics, ingredients, uses, benefits, alterations or quantities of goods or services for sale or lease or a false representation as to the sponsorship, approval, status, affiliation or connection of a person therewith"; "(7) Represents that goods or services for sale or lease are of a particular standard, quality or grade, or that such goods are of a particular style or model, if he or she knows or should know that they are of another standard, quality, grade, style or model"; "(9) Advertises goods or services with intent not to sell or lease them as advertised"; or "(15) Knowingly makes any other false representation in a transaction."

2010. Old GM and New GM both engaged in deceptive trade practices that violated the Nevada DTPA, including: knowingly representing that Defective Vehicles have uses and benefits which they do not have; representing that Defective Vehicles are of a particular standard, quality, and grade when they are not; advertising Defective Vehicles with the intent not to sell or lease them as advertised; representing that the subject of a transaction involving Defective Vehicles has been supplied in accordance with a previous representation when it has not; and knowingly making other false representations in a transaction.

2011. The Companies' actions as set forth above occurred in the conduct of trade or commerce.

2012. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity

to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the Nevada DTPA, and also has successor liability for the violations of Old GM.

2013. As alleged above, both Companies knew of the ignition switch defects, while the Nevada Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

2014. The Companies knew or should have known that their conduct violated the Nevada DTPA.

2015. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

2016. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shutdown in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

2017. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the

defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

2018. The Companies each owed the Nevada Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the Nevada Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the Nevada Class that contradicted these representations.

2019. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the Nevada Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

2020. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the Nevada Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Nevada Class.

2021. The propensity of the Defective Vehicles to inadvertently shutdown during ordinary operation was material to the Nevada Class. Had the Nevada Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

2022. All members of the Nevada Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The Nevada Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the Nevada Class members own vehicles that are not safe.

2023. The Nevada Class has been damaged by Old GM and New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of Old GM and New GM's failure to timely disclose and remedy the serious defects. Old GM and New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in Old GM and New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

2024. Nevada Class Members risk irreparable injury as a result of the Companies' act and omissions in violation of the Nevada DTPA, and these violations present a continuing risk

to the Nevada Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

2025. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

2026. As a direct and proximate result of the Companies' violations of the Nevada DTPA, the Nevada Class has suffered injury-in-fact and/or actual damage.

2027. Accordingly, the Nevada Class seeks their actual damages, punitive damages, an order enjoining New GM's deceptive acts or practices, costs of Court, attorney's fees, and all other appropriate and available remedies under the Nevada Deceptive Trade Practices Act. NEV. REV. STAT. § 41.600.

EIGHTY-EIGHTH CLAIM FOR RELIEF

BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY
(NEV. REV. STAT. § 104.2314)

2028. In the event the Court declines to certify a nationwide Class, Plaintiffs bring this claim on behalf of the Nevada Class.

2029. Old GM and New GM were merchants with respect to motor vehicles.

2030. A warranty that the Defective Vehicles were in merchantable condition was implied by law in the transactions when the Nevada Class purchased their Defective Vehicles.

2031. These vehicles, when sold and at all times thereafter, were not merchantable and are not fit for the ordinary purpose for which cars are used. Specifically, the Defective Vehicles are inherently defective in that there are defects in the ignition switch systems that permit sudden unintended shutdown to occur, with the attendant shutdown of power steering and power brakes and the non-deployment of airbags in the event of a collision.

2032. Old GM and New GM were provided notice of these issues by numerous complaints filed against them, internal investigations, and by numerous individual letters and communications sent by the Nevada Class before or within a reasonable amount of time after New GM issued the recall and the allegations of vehicle defects became public.

2033. As a direct and proximate result of Old GM and New GM's breach of the warranties of merchantability, the Nevada Class has been damaged in an amount to be proven at trial. New GM has successor liability for Old GM's breach.

EIGHTY-NINTH CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

2034. In the event the Court declines to certify a nationwide Class, Plaintiffs bring this claim solely on behalf of Class members who are Nevada residents.

2035. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

2036. The Companies knew these representations were false when made.

2037. The vehicles purchased or leased by the Nevada Class were, in fact, defective, unsafe, and unreliable, because the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

2038. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision because the Nevada Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

2039. The aforementioned concealment was material because if it had been disclosed the Nevada Class would not have bought, leased, or retained their vehicles.

2040. The aforementioned representations were material because they were facts that would typically be relied on by a person purchasing, leasing, or retaining a new or used motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

2041. The Nevada Class relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements—in purchasing, leasing, or retaining the Defective Vehicles.

2042. As a result of their reliance, the Nevada Class has been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

2043. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the Nevada Class. Nevada Class members are therefore entitled to an award of punitive damages.

NEW HAMPSHIRE

NINETIETH CLAIM FOR RELIEF

VIOLATION OF N.H. CONSUMER PROTECTION ACT
(N.H. REV. STAT. ANN. § 358-A:1, Et. seq.)

2062. This claim is brought on behalf of Class members who are New Hampshire residents (the "New Hampshire Class").

2063. The New Hampshire Class, Old GM and New GM are or were "person[s]" under the New Hampshire Consumer Protection Act ("New Hampshire CPA"), N.H. REV. STAT. ANN. § 358-A:1.

2064. The Companies' actions as set forth herein occurred in the conduct of trade or commerce as defined under N.H. REV. STAT. ANN. § 358-A:1.

2065. The New Hampshire CPA prohibits a person, in the conduct of any trade or commerce, from using "any unfair or deceptive act or practice," including "but… not limited to, the following:…(V) Representing that goods or services have… characteristics,… uses, benefits, or quantities that they do not have;" "(VII) Representing that goods or services are of a particular standard, quality, or grade,… if they are of another;" and "(IX) Advertising goods or services with intent not to sell them as advertised." N.H. REV. STAT. ANN. § 358-A:2.

2066. The Companies both participated in unfair or deceptive acts or practices that violated the New Hampshire CPA as described above and below. By failing to disclose and actively concealing the dangerous risk of ignition switch movement, engine shutdown, and airbag disabling in Defective Vehicles, the Companies engaged in deceptive business practices prohibited by the CPA, including representing that Defective Vehicles have characteristics, uses, benefits, and qualities which they do not have; representing that Defective Vehicles are of a particular standard, quality, and grade when they are not; advertising Defective Vehicles with the intent not to sell or lease them as advertised; representing that the subject of a transaction involving Defective Vehicles has been supplied in accordance with a previous representation when it has not; and engaging in other unconscionable, false, misleading, or deceptive acts or practices in the conduct of trade or commerce.

2067. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the New Hampshire CPA, and also has successor liability for the violations of Old GM.

2068. As alleged above, both Companies knew of the ignition switch defects, while the New Hampshire Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

2069. The Companies knew or should have known that their conduct violated the New Hampshire CPA.

2070. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

2071. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shutdown in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

2072. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

2073. The Companies each owed the New Hampshire Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the New Hampshire Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the New Hampshire Class that contradicted these representations.

2074. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the New Hampshire Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

2075. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the New Hampshire Class about the true safety and

reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the New Hampshire Class.

2076. The propensity of the Defective Vehicles to inadvertently shutdown during ordinary operation was material to the New Hampshire Class. Had the New Hampshire Class Members known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

2077. All members of the New Hampshire Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The New Hampshire Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the New Hampshire Class owns vehicles that are not safe.

2078. The New Hampshire Class Members have been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

2079. New Hampshire Class Members risk irreparable injury as a result of the Companies' act and omissions in violation of the New Hampshire CPA, and these violations present a continuing risk to them as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

2080. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

2081. As a direct and proximate result of the Companies' violations of the New Hampshire CPA, the New Hampshire Class has suffered injury-in-fact and/or actual damage.

2082. Because the Companies' willful conduct caused injury to New Hampshire Class members' property through violations of the New Hampshire CPA, the New Hampshire Class seeks recovery of actual damages or $1,000, whichever is greater, treble damages, costs and reasonable attorneys' fees, an order enjoining New GM's unfair and/or deceptive acts and practices, and any other just and proper relief under N.H. REV. STAT. § 358-A:10.

NINETY-FIRST CLAIM FOR RELIEF

BREACH OF THE IMPLIED WARRANTY OF MERCHANTABILITY (N.H. REV. STAT. ANN. § 382-A:2-314)

2083. In the event the Court declines to certify a nationwide Class, this claim is brought on behalf of Class members who are New Hampshire residents.

2084. Old GM and New GM were merchants with respect to motor vehicles.

2085. A warranty that the Defective Vehicles were in merchantable condition was implied by law in the transactions when the New Hampshire Class Members purchased their Defective Vehicles.

2086. These vehicles, when sold and at all times thereafter, were not merchantable and are not fit for the ordinary purpose for which cars are used. Specifically, the Defective

Vehicles are inherently defective in that there are defects in the ignition switch systems that permit sudden unintended shutdown to occur, with the attendant shutdown of power steering and power brakes and the non-deployment of airbags in the event of a collision.

2087. Old GM and New GM were provided notice of these issues by numerous complaints filed against it, internal investigations, and by numerous individual letters and communications sent by the New Hampshire Class before or within a reasonable amount of time after New GM issued the recall and the allegations of vehicle defects became public.

2088. As a direct and proximate result of Old GM's breach of the warranties of merchantability, the New Hampshire Class has been damaged in an amount to be proven at trial. New GM also has successor liability for Old GM's breach

NINETY-SECOND CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

2089. In the event the Court declines to certify a nationwide Class, this claim is brought on behalf of Class members who are New Hampshire residents.

2090. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

2091. The Companies knew these representations were false when made.

2092. The vehicles purchased or leased by the New Hampshire Class was, in fact, defective, unsafe and unreliable, because the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

2093. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the

event of a collision because the New Hampshire Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

2094. The aforementioned concealment was material because if it had been disclosed the New Hampshire Class would not have bought, leased or retained their vehicles.

2095. The aforementioned representations were material because they were facts that would typically be relied on by a person purchasing, leasing or retaining a new or used motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

2096. The New Hampshire Class relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements—in purchasing, leasing or retaining the Defective Vehicles.

2097. As a result of their reliance, the New Hampshire Class Members have been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

2098. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the New Hampshire Class, who are therefore entitled to an award of punitive damages.

NEW JERSEY

NINETY-THIRD CLAIM FOR RELIEF

VIOLATION OF NEW JERSEY CONSUMER FRAUD ACT
(N.J. STAT. ANN. § 56:8-1, *Et. seq.*)

2099. This claim is on behalf of Class members who are New Jersey residents (the "New Jersey Class").

2100. The New Jersey Class, New GM and Old GM are or were "person[s]" within the meaning of N.J. STAT. ANN. § 56:8-1(d).

2101. Old GM and New GM engaged in the "sale" of "merchandise" within the meaning of N.J. STAT. ANN. § 56:8-1(c), (d).

2102. The New Jersey Consumer Fraud Act ("New Jersey CFA") makes unlawful "[t]he act, use or employment by any person of any unconscionable commercial practice, deception, fraud, false pretense, false promise, misrepresentation, or the knowing concealment, suppression or omission of any material fact with the intent that others rely upon such concealment, suppression or omission, in connection with the sale or advertisement of any merchandise or real estate, or with the subsequent performance of such person as aforesaid, whether or not any person has in fact been misled, deceived or damaged thereby…" N.J. STAT. ANN. § 56:8-2. The Companies engaged in unconscionable or deceptive acts or practices that violated the New Jersey CFA as described above and below, and did so with the intent that Class members rely upon their acts, concealment, suppression or omissions.

2103. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing

deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the New Jersey CFA, and also has successor liability for the violations of Old GM.

2104. As alleged above, both Companies knew of the ignition switch defects, while the New Jersey Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

2105. The Companies knew or should have known that their conduct violated the New Jersey CFA.

2106. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

2107. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shutdown in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

2108. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers

to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

2109. The Companies each owed the New Jersey Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the New Jersey Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the New Jersey Class that contradicted these representations.

2110. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the New Jersey Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

2111. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the New Jersey Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the New Jersey Class.

2112. The propensity of the Defective Vehicles to inadvertently shutdown during ordinary operation was material to the New Jersey Class. Had the New Jersey Class known

that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

2113. All members of the New Jersey Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The New Jersey Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the New Jersey Class owns vehicles that are not safe.

2114. The New Jersey Class Members have been damaged by the Companies' misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase the them—let alone pay what would otherwise be fair market value for the vehicles.

2115. New Jersey Class Members risk irreparable injury as a result of the Companies' act and omissions in violation of the New Jersey CFA, and these violations present a continuing risk to them as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

2116. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

2117. As a direct and proximate result of the Companies' violations of the New Jersey CFA, the New Jersey Class has suffered injury-in-fact and/or actual damage.

2118. The New Jersey Class is entitled to recover legal and/or equitable relief including an order enjoining New GM's unlawful conduct, treble damages, costs and reasonable attorneys' fees pursuant to N.J. STAT. ANN. § 56:8-19, and any other just and appropriate relief.

2119. Pursuant to N.J. STAT. ANN. § 56:8-20, the New Jersey Class will mail a copy of the complaint to New Jersey's Attorney General within ten (10) days of filing it with the Court.

NINETY-FOURTH CLAIM FOR RELIEF

BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY
(N.J. STAT. ANN. § 12A:2-314)

2120. In the event the Court declines to certify a nationwide Class, this claim is brought on behalf of Class members who are New Jersey residents.

2121. Old GM and New GM were merchants with respect to motor vehicles.

2122. A warranty that the Defective Vehicles were in merchantable condition was implied by law in the transactions when the New Jersey Class purchased their Defective Vehicles.

2123. These vehicles, when sold and at all times thereafter, were not merchantable and are not fit for the ordinary purpose for which cars are used. Specifically, the Defective Vehicles are inherently defective in that there are defects in the ignition switch systems that

permit sudden unintended shutdown to occur, with the attendant shutdown of power steering and power brakes and the non-deployment of airbags in the event of a collision.

2124. Old GM and New GM were provided notice of these issues by numerous complaints filed against it, internal investigations, and by numerous individual letters and communications sent by the New Jersey Class before or within a reasonable amount of time after New GM issued the recall and the allegations of vehicle defects became public.

2125. As a direct and proximate result of Old GM and New GM's breach of the warranties of merchantability, the New Jersey Class has been damaged in an amount to be proven at trial. New GM also has successor liability for Old GM's breach.

NINETY-FIFTH CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

2126. In the event the Court declines to certify a nationwide Class, this claim is on behalf of Class members who are New Jersey residents.

2127. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

2128. The Companies knew these representations were false when made.

2129. The vehicles purchased or leased by the New Jersey Class were, in fact, defective, unsafe and unreliable, because the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

2130. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the

event of a collision because the New Jersey Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

2131. The aforementioned concealment was material because if it had been disclosed the New Jersey Class would not have bought, leased or retained their vehicles.

2132. The aforementioned representations were material because they were facts that would typically be relied on by a person purchasing, leasing or retaining a new or used motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

2133. The New Jersey Class relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements – in purchasing, leasing or retaining the Defective Vehicles.

2134. As a result of their reliance, the New Jersey Class Members have been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

2135. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the New Jersey Class, who are therefore entitled to an award of punitive damages.

NEW MEXICO

NINETY-SIXTH CLAIM FOR RELIEF

VIOLATIONS OF THE NEW MEXICO UNFAIR TRADE PRACTICES ACT (N.M. STAT. ANN. § 57-12-1, *et. seq.*)

2136. This claim is on behalf of Class members who are New Mexico residents (the "New Mexico Class").

2137. Old GM, New GM, and the New Mexico Class members are or were "person[s]" under the New Mexico Unfair Trade Practices Act ("New Mexico UTPA"), N.M. STAT. ANN. § 57-12-2.

2138. The Companies' actions as set forth herein occurred in the conduct of trade or commerce as defined under N.M. STAT. ANN. § 57-12-2.

2139. The New Mexico UTPA makes unlawful "a false or misleading oral or written statement, visual description or other representation of any kind knowingly made in connection with the sale, lease, rental or loan of goods or services… by a person in the regular course of the person's trade or commerce, that may, tends to or does deceive or mislead any person," including but not limited to "(14) failing to state a material fact if doing so deceives or tends to deceive." N.M. STAT. ANN. § 57-12-2(D)(14). The Companies' acts and omissions described herein constitute unfair or deceptive acts or practices under N.M. STAT. ANN. § 57-12-2(D). In addition, the Companies' actions constitute unconscionable actions under N.M. STAT. ANN. § 57-12-2(E), since they took advantage of the lack of knowledge, ability, experience, and capacity of the New Mexico Class members to a grossly unfair degree.

2140. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity

to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the New Mexico UTPA, and also has successor liability for the violations of Old GM.

2141. As alleged above, both Companies knew of the ignition switch defects, while the New Mexico Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

2142. The Companies knew or should have known that their conduct violated the New Mexico UTPA.

2143. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

2144. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shutdown in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

2145. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the

defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

2146. The Companies each owed the New Mexico Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the New Mexico Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the New Mexico Class that contradicted these representations.

2147. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the New Mexico Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

2148. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the New Mexico Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the New Mexico Class.

2149. The propensity of the Defective Vehicles to inadvertently shutdown during ordinary operation was material to the New Mexico Class. Had the New Mexico Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

2150. All members of the New Mexico Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The New Mexico Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the New Mexico Class owns vehicles that are not safe.

2151. The New Mexico Class has been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

2152. The New Mexico Class Members risk irreparable injury as a result of the Companies' act and omissions in violation of the New Mexico UTPA, and these violations

present a continuing risk to them as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

2153. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

2154. As a direct and proximate result of the Companies' violations of the New Mexico UTPA, and the New Mexico Class has suffered injury-in-fact and/or actual damage.

2155. New Mexico Class members seek punitive damages against New GM because the Companies' conduct was malicious, willful, reckless, wanton, fraudulent and in bad faith. The Companies fraudulently and willfully misrepresented the safety and reliability of New GM-branded vehicles, deceived New Mexico Class members on life-or-death matters, and concealed material facts that only they knew, all to avoid the expense and public relations nightmare of correcting the myriad flaws in the New GM-branded vehicles the Companies repeatedly promised New Mexico Class members were safe. Because the Companies' conduct was malicious, willful, reckless, wanton, fraudulent and in bad faith, it warrants punitive damages.

2156. Because the Companies' unconscionable, willful conduct caused actual harm to Class members, the Class seeks recovery of actual damages or $100, whichever is greater, discretionary treble damages or $300 (whichever is greater), punitive damages, and reasonable attorneys' fees and costs, as well as all other proper and just relief available under N.M. STAT. ANN. § 57-12-10.

NINETY-SEVENTH CLAIM FOR RELIEF

BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY
(N.M. STAT. ANN. § 55-2-314)

2157. In the event the Court declines to certify a nationwide Class, this claim is brought on behalf of Class members who are New Mexico residents.

2158. Old GM and New GM were a merchants with respect to motor vehicles.

2159. A warranty that the Defective Vehicles were in merchantable condition was implied by law in the transactions when the New Mexico Class purchased their Defective Vehicles.

2160. These vehicles, when sold and at all times thereafter, were not merchantable and are not fit for the ordinary purpose for which cars are used. Specifically, the Defective Vehicles are inherently defective in that there are defects in the ignition switch systems that permit sudden unintended shutdown to occur, with the attendant shutdown of power steering and power brakes and the non-deployment of airbags in the event of a collision. .

2161. Old GM and New GM were provided notice of these issues by numerous complaints filed against it, internal investigations, and by numerous individual letters and communications sent by the New Mexico Class before or within a reasonable amount of time after New GM issued the recall and the allegations of vehicle defects became public.

2162. As a direct and proximate result of Old GM and New GM's breach of the warranties of merchantability, the New Mexico Class has been damaged in an amount to be proven at trial. New GM also has successor liability for Old GM's breach.

NINETY-EIGHTH CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

2163. In the event the Court declines to certify a nationwide Class, this claim is on behalf of Class members who are New Mexico residents.

2164. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

2165. The Companies knew these representations were false when made.

2166. The vehicles purchased or leased by the New Mexico Class were, in fact, defective, unsafe and unreliable, because the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

2167. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision because the New Mexico Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

2168. The aforementioned concealment was material because if it had been disclosed they would not have bought, leased or retained their vehicles.

2169. The aforementioned representations were material because they were facts that would typically be relied on by a person purchasing, leasing or retaining a new or used motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

2170. The New Mexico Class relied on the Companies' reputation – along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements – in purchasing, leasing or retaining the Defective Vehicles.

2171. As a result of their reliance, the New Mexico Class Members have been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

2172. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the New Mexico Class, who are therefore entitled to an award of punitive damages.

NEW YORK

NINETY-NINTH CLAIM FOR RELIEF

DECEPTIVE ACTS OR PRACTICES
(N.Y. GEN. BUS. LAW § 349 AND 350)

2173. This claim is on behalf of Class members residing in New York (the "New York Class").

2174. The New York Class members are "person[s]" within the meaning of New York General Business Law ("New York GBL"), N.Y. GEN. BUS. LAW § 349(h).

2175. New GM is, and Old GM was, a "person," "firm," "corporation," or "association" within the meaning of N.Y. GEN. BUS. LAW § 349(b).

2176. The New York GBL makes unlawful "[d]eceptive acts or practices in the conduct of any business, trade or commerce." N.Y. GEN. BUS. LAW § 349. The Companies' conduct, as described above and below, constitutes "deceptive acts or practices" within the meaning of the New York GBL. Furthermore, the Companies' deceptive acts and practices,

which were intended to mislead consumers who were in the process of purchasing and/or leasing the Defective Vehicles, was conduct directed at consumers.

2177. The Companies' actions as set forth above occurred in the conduct of trade or commerce.

2178. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the New York GBL, and also has successor liability for the violations of Old GM.

2179. As alleged above, both Companies knew of the ignition switch defects, while the New York Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

2180. The Companies knew or should have known that their conduct violated the New York GBL.

2181. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

2182. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shutdown in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

2183. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

2184. The Companies each owed the New York Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the New York Class s; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the New York Class that contradicted these representations.

2185. The Defective Vehicles posed and /or pose an unreasonable risk of death or serious bodily injury to the New York Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

2186. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the New York Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the New York Class.

2187. The propensity of the Defective Vehicles to inadvertently shutdown during ordinary operation was material to the New York Class. Had the New York Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

2188. All members of the New York Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The New York Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the New York Class owns vehicles that are not safe.

2189. The New York Class members have been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished

because of New GM's failure to timely disclose and remedy the serious defects. New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

2190. The New York Class Members risk irreparable injury as a result of the Companies' act and omissions in violation of the New York GBL, and these violations present a continuing risk to the New York Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

2191. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

2192. As a direct and proximate result of the Companies' violations of the New York GBL, the New York Class has suffered injury-in-fact and/or actual damage.

2193. New York Class members seek punitive damages against New GM because the Companies' conduct was egregious. The Companies misrepresented the safety and reliability of millions of New GM-branded vehicles, concealed myriad defects in millions of New GM-branded vehicles and the systemic safety issues plaguing the Company, deceived Class members on life-or-death matters, and concealed material facts that only they knew, all to avoid the expense and public relations nightmare of correcting the serious flaw in its culture and in millions of New GM-branded vehicles. The Companies' egregious conduct warrants punitive damages.

2194. Because the Companies' willful and knowing conduct caused injury to Class members, the New York Class seeks recovery of actual damages or $50, whichever is greater,

discretionary treble damages up to $1,000, punitive damages, reasonable attorneys' fees and costs, an order enjoining New GM's deceptive conduct, and any other just and proper relief available under N.Y. GEN. BUS. LAW § 349.

ONE HUNDREDTH CLAIM FOR RELIEF

BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY (N.Y. U.C.C. § 2-314)

2195. In the event the Court declines to certify a nationwide Class, this claim is brought on behalf of Class members who are New York residents.

2196. Old GM and New GM are merchants with respect to motor vehicles.

2197. A warranty that the Defective Vehicles were in merchantable condition was implied by law in the transactions when the New York Class purchased their Defective Vehicles.

2198. These vehicles, when sold and at all times thereafter, were not merchantable and are not fit for the ordinary purpose for which cars are used. Specifically, the Defective Vehicles are inherently defective in that there are defects in the ignition switch systems that permit sudden unintended shutdown to occur, with the attendant shutdown of power steering and power brakes and the non-deployment of airbags in the event of a collision. .

2199. Old GM and New GM were provided notice of these issues by numerous complaints filed against it, internal investigations, and by numerous individual letters and communications sent by the New York Class before or within a reasonable amount of time after New GM issued the recall and the allegations of vehicle defects became public.

2200. As a direct and proximate result of Old GM and New GM's breach of the warranties of merchantability, the New York Class has been damaged in an amount to be proven at trial. New GM also has successor liability for Old GM's breach.

ONE HUNDRED FIRST CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

2201. In the event the Court declines to certify a nationwide Class, this claim is brought solely on behalf of Class members who are New York residents.

2202. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

2203. The Companies knew these representations were false when made.

2204. The vehicles purchased or leased by the New York Class were, in fact, defective, unsafe and unreliable, because the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

2205. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision because the New York Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

2206. The aforementioned concealment was material because if it had been disclosed the New York Class would not have bought, leased or retained their vehicles.

2207. The aforementioned representations were material because they were facts that would typically be relied on by a person purchasing, leasing or retaining a new or used motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

2208. The New York Class relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements—in purchasing, leasing or retaining the Defective Vehicles.

2209. As a result of their reliance, the New York Class have been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

2210. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the New York Class, who are therefore entitled to an award of punitive damages.

ONE HUNDRED SECOND CLAIM FOR RELIEF

VIOLATION OF NEW YORK'S FALSE ADVERTISING ACT
(N.Y. GEN. BUS. LAW § 350)
(Asserted on Behalf of the New York Class)

2211. This claim is brought on behalf of the New York Class.

2212. Old GM and New GM have been are New GM is engaged in the "conduct of… business, trade or commerce" within the meaning of N.Y. GEN. BUS. LAW § 350.

2213. NEW YORK GEN. BUS. LAW § 350 makes unlawful "[f]alse advertising in the conduct of any business, trade or commerce." False advertising includes "advertising, including labeling, of a commodity… if such advertising is misleading in a material respect," taking into account "the extent to which the advertising fails to reveal facts material in light of… representations [made] with respect to the commodity.…" N.Y. GEN. BUS. LAW § 350-a.

2214. Old GM and New GM caused to be made or disseminated through New York, through advertising, marketing and other publications, statements that were untrue or

misleading, and that were known, or which by the exercise of reasonable care should have been known to them, to be untrue and misleading to consumers and New York Class.

2215. Old GM and New GM have violated § 350 because the misrepresentations and omissions regarding the Defects, as set forth above, were material and likely to deceive a reasonable consumer.

2216. The New York Class has suffered an injury, including the loss of money or property, as a result of New GM's false advertising. In purchasing or leasing their vehicles, the New York Class relied on the misrepresentation and/or omissions relating to the safety and reliability of the Defective Vehicles. Those representations were false and/or misleading because the Defects may cause the engine to shutdown, disabling power steering, power brakes, and disabling deployment of safety airbags. Had the New York Class known this, they would not have purchased or leased their Defective Vehicles and/or paid as much for them.

2217. Pursuant to N.Y. GEN. BUS. LAW § 350-e, the New York Class seeks monetary relief against New GM measured as the greater of (a) actual damages in an amount to be determined at trial and (b) statutory damages in the amount of $500 each for each New York Class Member. Because the conduct was committed willfully and knowingly, the New York Class is entitled to recover three times actual damages, up to $10,000, for each New York Class Member.

2218. The New York Class also seeks an order enjoining the unfair, unlawful, and/or deceptive practices, attorneys' fees, and any other just and proper relief available under N.Y. GEN. BUS. LAW §§ 349–350.

NORTH CAROLINA

ONE HUNDRED THIRD CLAIM FOR RELIEF

VIOLATION OF NORTH CAROLINA'S UNFAIR AND DECEPTIVE ACTS AND PRACTICES ACT (N.C. GEN. STAT. § 75-1.1 *et. seq.*)

2219. This claim is on behalf of Class members who are North Carolina residents (the "North Carolina Class").

2220. New GM and Old GM engaged in "commerce" within the meaning of N.C. GEN. STAT. § 75-1.1(b).

2221. The North Carolina Act broadly prohibits "unfair or deceptive acts or practices in or affecting commerce." N.C. GEN. STAT. § 75-1.1(a). As alleged above and below, the Companies willfully committed unfair or deceptive acts or practices in violation of the North Carolina Act.

2222. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the North Carolina Act, and also has successor liability for the violations of Old GM.

2223. As alleged above, both Companies knew of the ignition switch defects, while the North Carolina Class was deceived by the Companies' omission into believing the

Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

2224. The Companies knew or should have known that their conduct violated the North Carolina Act.

2225. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

2226. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shutdown in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

2227. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

2228. The Companies each owed the North Carolina Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the North Carolina Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the North Carolina Class that contradicted these representations.

2229. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the North Carolina Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

2230. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the North Carolina Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the North Carolina Class.

2231. The propensity of the Defective Vehicles to inadvertently shutdown during ordinary operation was material to the North Carolina Class. Had the North Carolina Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

2232. The North Carolina Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The North Carolina Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective

Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the North Carolina Class own vehicles that are not safe.

2233. The North Carolina Class members have been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

2234. North Carolina Class members risk irreparable injury as a result of the Companies' act and omissions in violation of the North Carolina Act, and these violations present a continuing risk to them as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

2235. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

2236. As a direct and proximate result of the Companies' violations of the North Carolina Act, the North Carolina Class has suffered injury-in-fact and/or actual damage.

2237. North Carolina Class members seek punitive damages against New GM because the Companies' conduct was malicious, willful, reckless, wanton, fraudulent and in bad faith. The Companies fraudulently and willfully misrepresented the safety and reliability of the Defective Vehicles, deceived North Carolina Class members on life-or-death matters, and concealed material facts that only they knew, all to avoid the expense and public relations

nightmare of correcting the myriad flaws in the Defective Vehicles it repeatedly promised Class members were safe. Because the Companies' conduct was malicious, willful, reckless, wanton, fraudulent and in bad faith, it warrants punitive damages.

2238. Plaintiffs seek an order for treble their actual damages, an order enjoining New GM's unlawful acts, costs of Court, attorney's fees, and any other just and proper relief available under N.C. GEN. STAT. § 75-16.

ONE HUNDRED FOURTH CLAIM FOR RELIEF

BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY (N.C. GEN. STAT. § 25-2-314)

2239. In the event the Court declines to certify a nationwide Class, this claim is on behalf of Class members who are North Carolina residents.

2240. Old GM and New GM were merchants with respect to motor vehicles.

2241. A warranty that the Defective Vehicles were in merchantable condition was implied by law in the transactions when the North Carolina Class purchased their Defective Vehicles.

2242. These vehicles, when sold and at all times thereafter, were not merchantable and are not fit for the ordinary purpose for which cars are used. Specifically, the Defective Vehicles are inherently defective in that there are defects in the ignition switch systems that permit sudden unintended shutdown to occur, with the attendant shutdown of power steering and power brakes and the non-deployment of airbags in the event of a collision.

2243. Old GM and New GM were provided notice of these issues by numerous complaints filed against it, internal investigations, and by numerous individual letters and communications sent by the North Carolina Class before or within a reasonable amount of time after New GM issued the recall and the allegations of vehicle defects became public.

2244. As a direct and proximate result of Old GM and New GM's breach of the warranties of merchantability, the North Carolina Class have been damaged in an amount to be proven at trial. New GM also has successor liability for Old GM's breach.

ONE HUNDRED FIFTH CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

2245. In the event the Court declines to certify a nationwide Class, this claim is on behalf of Class members who are North Carolina residents.

2246. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

2247. The Companies knew these representations were false when made.

2248. The vehicles purchased or leased by the North Carolina Class were, in fact, defective, unsafe and unreliable, because the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

2249. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision because the North Carolina Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

2250. The aforementioned concealment was material because if it had been disclosed they would not have bought, leased or retained their vehicles.

2251. The aforementioned representations were material because they were facts that would typically be relied on by a person purchasing, leasing or retaining a new or used motor vehicle. The Companies knew or recklessly disregarded that their representations were false

because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

2252. The North Carolina Class relied on the Companies' reputation – along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements – in purchasing, leasing or retaining the Defective Vehicles.

2253. As a result of their reliance, the North Carolina Class members have been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

2254. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the North Carolina Class, who are therefore entitled to an award of punitive damages.

NORTH DAKOTA

ONE HUNDRED SIXTH CLAIM FOR RELIEF

VIOLATION OF THE NORTH DAKOTA CONSUMER FRAUD ACT
(N.D. CENT. CODE § 51-15-02)

2255. This claim is on behalf of Class members who are North Dakota residents (the "North Dakota Class").

2256. The North Dakota Class members, Old GM and New GM are or were "persons" within the meaning of N.D. CENT. CODE § 51-15-02.

2257. The Companies engaged in the "sale" of "merchandise" within the meaning of N.D. CENT. CODE § 51-15-02.

2258. The North Dakota Consumer Fraud Act ("North Dakota CFA") makes unlawful "[t]he act, use, or employment by any person of any deceptive act or practice, fraud, false pretense, false promise, or misrepresentation, with the intent that others rely thereon in connection with the sale or advertisement of any merchandise…." N.D. CENT. CODE § 51-15-02. As set forth above and below, the Companies committed deceptive acts or practices, with the intent that Class members rely thereon in connection with their purchase or lease of the Defective Vehicles.

2259. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the North Dakota CFA, and also has successor liability for the violations of Old GM.

2260. As alleged above, both Companies knew of the ignition switch defects, while the North Dakota Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

2261. The Companies knew or should have known that their conduct violated the North Dakota CFA.

2262. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

2263. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shutdown in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

2264. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

2265. The Companies each owed the North Dakota Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the North Dakota Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the North Dakota Class that contradicted these representations.

2266. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the North Dakota Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

2267. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the North Dakota Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the North Dakota Class.

2268. The propensity of the Defective Vehicles to inadvertently shutdown during ordinary operation was material to the North Dakota Class. Had the North Dakota Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

2269. The North Dakota Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The North Dakota Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the North Dakota Class owns vehicles that are not safe.

2270. The North Dakota Class members have been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

2271. North Dakota Class Members risk irreparable injury as a result of the Companies' act and omissions in violation of the North Dakota CFA, and these violations present a continuing risk to the North Dakota Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

2272. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

2273. As a direct and proximate result of the Companies' violations of the North Dakota CFA, the North Dakota Class has suffered injury-in-fact and/or actual damage.

2274. North Dakota Class members seek punitive damages against New GM because the Companies' conduct was egregious. The Companies misrepresented the safety and reliability of millions of Defective Vehicles, concealed myriad defects in millions of Defective Vehicles and the systemic safety issues plaguing the Company, deceived North Dakota Class members on life-or-death matters, and concealed material facts that only they knew, all to avoid the expense and public relations nightmare of correcting the serious flaw in

its culture and in millions of New GM-branded vehicles. The Companies' egregious conduct warrants punitive damages.

2275. Further, the Companies knowingly committed the conduct described above, and thus, under N.D. CENT. CODE § 51-15-09, New GM is liable to the North Dakota Class for treble damages in amounts to be proven at trial, as well as attorneys' fees, costs, and disbursements. The North Dakota Class further seeks an order enjoining New GM's unfair and/or deceptive acts or practices, and other just and proper available relief under the North Dakota CFA.

ONE HUNDRED SEVENTH CLAIM FOR RELIEF

BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY (N.D. CENT. CODE § 41-02-31)

2276. In the event the Court declines to certify a nationwide Class, this claim is on behalf of Class members who are North Dakota residents.

2277. Old GM and New GM were merchants with respect to motor vehicles.

2278. A warranty that the Defective Vehicles were in merchantable condition was implied by law in the transactions when the North Dakota Class members purchased their Defective Vehicles.

2279. These vehicles, when sold and at all times thereafter, were not merchantable and are not fit for the ordinary purpose for which cars are used. Specifically, the Defective Vehicles are inherently defective in that there are defects in the ignition switch systems that permit sudden unintended shutdown to occur, with the attendant shutdown of power steering and power brakes and the non-deployment of airbags in the event of a collision.

2280. Old GM and New GM were provided notice of these issues by numerous complaints filed against it, internal investigations, and by numerous individual letters and

communications sent by the North Dakota Class before or within a reasonable amount of time after New GM issued the recall and the allegations of vehicle defects became public.

2281. As a direct and proximate result of Old GM's breach of the warranties of merchantability, the North Dakota Class has been damaged in an amount to be proven at trial. New GM also has successor liability for Old GM's breach.

ONE HUNDRED EIGHTH CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

2282. In the event the Court declines to certify a nationwide Class, this claim is on behalf of Class members who are North Dakota residents.

2283. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

2284. The Companies knew these representations were false when made.

2285. The Defective Vehicles were, in fact, defective, unsafe and unreliable, because the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

2286. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision because the North Dakota Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

2287. The aforementioned concealment was material because if it had been disclosed they would not have bought, leased or retained their vehicles.

2288. The aforementioned representations were material because they were facts that would typically be relied on by a person purchasing, leasing or retaining a new or used motor

vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

2289. The North Dakota Class relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements—in purchasing, leasing or retaining the Defective Vehicles.

2290. As a result of their reliance, the North Dakota Class members have been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

2291. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the North Dakota Class, who are therefore entitled to an award of punitive damages.

OHIO

ONE HUNDRED NINTH CLAIM FOR RELIEF

VIOLATION OF OHIO CONSUMER SALES PRACTICES ACT
(OHIO REV. CODE ANN. § 1345.01, *et. seq.*)

2292. This claim is on behalf of Class members who are Ohio residents (the "Ohio Class").

2293. New GM is and Old GM was a "supplier" as that term is defined in OHIO REV. CODE § 1345.01(C).

2294. The Ohio Class members are "consumer[s]" as that term is defined in OHIO REV. CODE § 1345.01(D), and their purchases and leases of the Defective Vehicles are "consumer transaction[s]" within the meaning of OHIO REV. CODE § 1345.01(A).

2295. The Ohio Consumer Sales Practices Act ("Ohio CSPA"), OHIO REV. CODE § 1345.02, broadly prohibits unfair or deceptive acts or practices in connection with a consumer transaction. Specifically, and without limitation of the broad prohibition, the Act prohibits suppliers from representing (i) that goods have characteristics or uses or benefits which they do not have; (ii) that their goods are of a particular quality or grade they are not; and (iii) the subject of a consumer transaction has been supplied in accordance with a previous representation, if it has not. *Id.* The conduct of the Companies as alleged above and below constitutes unfair and/or deceptive consumer sales practices in violation of OHIO REV. CODE ANN. § 1345.02.

2296. By failing to disclose and actively concealing the dangerous risk of ignition switch movement, engine shutdown, and airbag disabling in Defective Vehicles, the Companies engaged in deceptive business practices prohibited by the Ohio CSPA, including: representing that Defective Vehicles have characteristics, uses, benefits, and qualities which they do not have; representing that Defective Vehicles are of a particular standard, quality, and grade when they are not; representing that the subject of a transaction involving Defective Vehicles has been supplied in accordance with a previous representation when it has not; and engaging in other unfair or deceptive acts or practices.

2297. The Companies' actions as set forth above occurred in the conduct of trade or commerce.

2298. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the Ohio CSPA, and also has successor liability for the violations of Old GM.

2299. As alleged above, both Companies knew of the ignition switch defects, while the Ohio Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

2300. The Companies knew or should have known that their conduct violated the Ohio CSPA Act.

2301. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

2302. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shutdown in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

2303. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

2304. The Companies each owed the Ohio Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the Ohio Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the Ohio Class that contradicted these representations.

2305. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the Ohio Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

2306. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the Ohio Class, about the true safety and reliability of

Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Ohio Class.

2307. The propensity of the Defective Vehicles to inadvertently shutdown during ordinary operation was material to the Ohio Class. Had the Ohio Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

2308. The Ohio Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The Ohio Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the Ohio Class owns vehicles that are not safe.

2309. The Ohio Class members have been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

2310. Ohio Class Members risk irreparable injury as a result of the Companies' act and omissions in violation of the Ohio CSPA, and these violations present a continuing risk to

the Ohio Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

2311. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

2312. As a direct and proximate result of the Companies' violations of the Ohio CSPA, the Ohio Class has suffered injury-in-fact and/or actual damage.

2313. Ohio Class members seek punitive damages against New GM because the Companies' conduct was egregious. The Companies misrepresented the safety and reliability of millions of Defective Vehicles, concealed myriad defects in millions of Defective Vehicles and the systemic safety issues plaguing the Companies, deceived Class members on life-or-death matters, and concealed material facts that only they knew, all to avoid the expense and public relations nightmare of correcting the serious flaw in its culture and in millions of New GM-branded vehicles. The Companies' egregious conduct warrants punitive damages.

2314. The Ohio Class specifically does not allege herein a claim for violation of OHIO REV. CODE § 1345.72.

2315. The Companies were on notice pursuant to OHIO REV. CODE ANN. § 1345.09(B) that their actions constituted unfair, deceptive, and unconscionable practices by, for example, *Mason v. Mercedes-Benz USA, LLC*, No. 85031, 2005 Ohio App. LEXIS 3911, at *33 (S.D. Ohio Aug. 18, 2005), and *Lilly v. Hewlett-Packard Co.*, No. 1:05-CV-465 , 2006 U.S. Dist. LEXIS 22114, at *17-18 (S.D. Ohio Apr. 21, 2006). Further, the Companies' conduct as alleged above constitutes an act or practice previously declared to be deceptive or unconscionable by rule adopted under division (B)(2) of section 1345.05 and previously determined by Ohio courts to violate Ohio's Consumer Sales Practices Act and was

committed after the decisions containing these determinations were made available for public inspection under division (A)(3) of O.R.C. § 1345.05. The applicable rule and Ohio court opinions include, but are not limited to: OAC 109:4-3-16; *Mason v. Mercedes-Benz USA*, *LLC*, OPIF # 10002382*,* 2005 Ohio 4296 (Ohio Ct. App. 2005); *Khouri v. Lewis*, OPIF # 10001995, Cuyahoga Common Pleas No. 342098 (2001); *State ex rel. Montgomery v. Canterbury*, Franklin App. No. 98CVH054085 (2000); *Fribourg v. Vandemark* (July 26, 1999), Clermont App. No CA99-02-017, unreported (PIF # 10001874); *State ex rel. Betty D. Montgomery v. Ford Motor Co.*, OPIF #10002123; *State ex rel. Betty D. Montgomery v. Bridgestone/Firestone, Inc.*, OPIF #10002025; *Bellinger v. Hewlett-Packard Co.*, OPIF #10002077, No. 20744, 2002 Ohio App. LEXIS 1573 (Ohio Ct. App. Apr. 10, 2002); *Borror v. MarineMax of Ohio*, OPIF #10002388, No. OT-06-010, 2007 Ohio App. LEXIS 525 (Ohio Ct. App. Feb. 9, 2007); *State ex rel. Jim Petro v. Craftmatic Organization, Inc.*, OPIF #10002347; *Mark J. Cranford, et al v. Joseph Airport Ford, Inc.*, OPIF #10001586; State ex rel. *William J. Brown v. Harold Lyons, et al.*, OPIF #10000304; *Brinkman v. Mazda Motor of America, Inc.*, OPIF #10001427; *Mosley v. Performance Mitsubishi aka Automanage*, OPIF #10001326; *Walls v. Harry Williams dba Butch's Auto Sales*, OPIF #10001524; and, *Brown v. Spears*, OPIF #10000403.

2316. As a result of the foregoing wrongful conduct of New GM, the Ohio Class has been damaged in an amount to be proven at trial, and seek all just and proper remedies, including, but not limited to, actual and statutory damages, an order enjoining New GM's deceptive and unfair conduct, treble damages, court costs and reasonable attorneys' fees, pursuant to OHIO REV. CODE § 1345.09, *et. seq.*

ONE HUNDRED TENTH CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

2317. In the event the Court declines to certify a nationwide Class, this claim is on behalf of Class members who are Ohio residents.

2318. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

2319. The Companies knew these representations were false when made.

2320. The vehicles purchased or leased by the Ohio Class were, in fact, defective, unsafe and unreliable, because the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

2321. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision because the Ohio Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

2322. The aforementioned concealment was material because if it had been disclosed the Ohio Class would not have bought, leased or retained their vehicles.

2323. The aforementioned representations were material because they were facts that would typically be relied on by a person purchasing, leasing or retaining a new or used motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

2324. The Ohio Class relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements—in purchasing, leasing or retaining the Defective Vehicles.

2325. As a result of their reliance, the Ohio Class members have been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

2326. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the Ohio Class, who are therefore entitled to an award of punitive damages.

ONE HUNDRED ELEVENTH CLAIM FOR RELIEF

IMPLIED WARRANTY IN TORT
(On Behalf of the Ohio Class)

2327. This claim is on behalf of the Ohio Class.

2328. The Vehicles contained a design defect, namely, a faulty ignition system that fails under reasonably foreseeable use, resulting in loss of brakes, power steering, and airbags, among others, as detailed herein more fully.

2329. The design, manufacturing, and/or assembly defects existed at the time these Vehicles containing the defective ignition systems left the possession or control of Old GM.

2330. Based upon the dangerous product defects, Old GM and then New GM failed to meet the expectations of a reasonable consumer. The Vehicles failed their ordinary, intended use because the ignition systems in the Vehicles do not function as a reasonable consumer would expect. Moreover, it presents a serious danger to the Ohio Class that cannot be eliminated without significant cost.

2331. The design defects in the Vehicles were the direct and proximate cause of economic damages to the Ohio Class.

OKLAHOMA

ONE HUNDRED TWELFTH CLAIM FOR RELIEF

VIOLATION OF OKLAHOMA CONSUMER PROTECTION ACT
(OKLA. STAT. TIT. 15 § 751, *et. seq.*)

2332. This claim is on behalf of Class members who are Oklahoma residents (the "Oklahoma Class").

2333. Oklahoma Class members are "persons" under the Oklahoma Consumer Protection Act ("Oklahoma CPA"), OKLA. STAT. TIT. 15 § 752.

2334. Old GM was, and New GM is a "person," "corporation," or "association" within the meaning of OKLA. STAT. TIT. 15 § 15-751(1).

2335. The sale or lease of the Defective Vehicles to the Oklahoma Class members was a "consumer transaction" within the meaning of OKLA. STAT. TIT. 15 § 752, and the Companies' actions as set forth herein occurred in the conduct of trade or commerce.

2336. The Oklahoma CPA declares unlawful, *inter* alia, the following acts or practices when committed in the course of business: "mak[ing] a false or misleading representation, knowingly or with reason to know, as to the characteristics…, uses, [or] benefits, of the subject of a consumer transaction," or making a false representation, "knowingly or with reason to know, that the subject of a consumer transaction is of a particular standard, style or model, if it is of another or "[a]dvertis[ing], knowingly or with reason to know, the subject of a consumer transaction with intent not to sell it as advertised;" and otherwise committing "an unfair or deceptive trade practice." *See* OKLA. STAT. TIT. 15, § 753.

2337. By failing to disclose and actively concealing the dangerous risk of ignition switch movement, engine shutdown, and airbag disabling in Defective Vehicles, the Companies engaged in unfair and deceptive business practices prohibited by the Oklahoma CPA, including: representing that Defective Vehicles have characteristics, uses, benefits, and qualities which they do not have; representing that Defective Vehicles are of a particular standard, quality, and grade when they are not; and advertising Defective Vehicles with the intent not to sell or lease them as advertised; misrepresenting, omitting and engaging in other practices that have deceived or could reasonably be expected to deceive or mislead; and engaging in practices which offend established public policy or are immoral, unethical, oppressive, unscrupulous or substantially injurious to consumers.

2338. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the Oklahoma CPA, and also has successor liability for the violations of Old GM.

2339. As alleged above, both Companies knew of the ignition switch defects, while the Oklahoma Class was deceived by the Companies' omission into believing the Defective

Vehicles were safe, and the information could not have reasonably been known by the consumer.

2340. The Companies knew or should have known that their conduct violated the Oklahoma CPA.

2341. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

2342. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shutdown in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

2343. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

2344. The Companies each owed the Oklahoma Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the Oklahoma Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the Oklahoma Class that contradicted these representations.

2345. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the Oklahoma Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

2346. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the Oklahoma Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Oklahoma Class.

2347. The propensity of the Defective Vehicles to inadvertently shutdown during ordinary operation was material to the Oklahoma Class. Had the Oklahoma Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

2348. The Oklahoma Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The Oklahoma Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective

Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the Oklahoma Class own vehicles that are not safe.

2349. The Oklahoma Class have been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

2350. Oklahoma Class Members risk irreparable injury as a result of the Companies' act and omissions in violation of the Oklahoma CPA, and these violations present a continuing risk to them as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

2351. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

2352. As a direct and proximate result of the Companies' violations of the Oklahoma CPA, the Oklahoma Class has suffered injury-in-fact and/or actual damage.

2353. Oklahoma Class members seek punitive damages against New GM because the Companies' conduct was egregious. The Companies misrepresented the safety and reliability of millions of Defective Vehicles, concealed myriad defects in millions of Defective Vehicles and the systemic safety issues plaguing the Companies, deceived Oklahoma Class members on life-or-death matters, and concealed material facts that only it knew, all to avoid the

expense and public relations nightmare of correcting the serious flaw in its culture and in millions of New GM-branded vehicles. The Companies' egregious conduct warrants punitive damages.

2354. The Companies' conduct as alleged herein was unconscionable since (1) the Companies, knowingly or with reason to know, took advantage of consumers reasonably unable to protect their interests because of their age, physical infirmity, ignorance, illiteracy, inability to understand the language of an agreement or similar factor; (2) at the time the consumer transaction was entered into, Old GM knew or had reason to know that price grossly exceeded the price at which similar vehicles were readily obtainable in similar transactions by like consumers; and (3) Old GM knew or had reason to know that the transaction Old GM induced the consumer to enter into was excessively one-sided in favor of Old GM.

2355. Because the Companies' unconscionable conduct caused injury to Oklahoma Class members, the Oklahoma Class seeks recovery of actual damages, discretionary penalties up to $2,000 per violation, and reasonable attorneys' fees, under OKLA. STAT. TIT. 15 § 761.1. The Oklahoma Class further seeks an order enjoining New GM's unfair and/or deceptive acts or practices, and any other just and proper relief available under the Oklahoma CPA.

ONE HUNDRED THIRTEENTH CLAIM FOR RELIEF

BREACH OF IMPLIED WARRANTY OF MERCHANTABILITY
(12A OKLA. STAT. ANN. § 2-314)

2356. In the event the Court declines to certify a nationwide Class, this claim is on behalf of Class members who are Oklahoma residents.

2357. Old GM and New GM were merchants with respect to motor vehicles.

2358. A warranty that the Defective Vehicles were in merchantable condition was implied by law in the transactions when the Oklahoma Class purchased their Defective Vehicles.

2359. These vehicles, when sold and at all times thereafter, were not merchantable and are not fit for the ordinary purpose for which cars are used. Specifically, the Defective Vehicles are inherently defective in that there are defects in the ignition switch systems that permit sudden unintended shutdown to occur, with the attendant shutdown of power steering and power brakes and the non-deployment of airbags in the event of a collision. .

2360. Old GM and New GM were provided notice of these issues by numerous complaints filed against it, internal investigations, and by numerous individual letters and communications sent by the Oklahoma Class before or within a reasonable amount of time after New GM issued the recall and the allegations of vehicle defects became public.

2361. As a direct and proximate result of Old GM and New GM's breach of the warranties of merchantability, the Oklahoma Class have been damaged in an amount to be proven at trial. New GM also has successor liability for Old GM's breach.

ONE HUNDRED FOURTEENTH CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

2362. In the event the Court declines to certify a nationwide Class, this claim is on behalf of Class members who are Oklahoma residents.

2363. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

2364. The Companies knew these representations were false when made.

2365. The vehicles purchased or leased by the Oklahoma Class were, in fact, defective, unsafe and unreliable, because the vehicles were subject to sudden unintended

shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

2366. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shutdown, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision because the Oklahoma Class relied on the Companies' representations that the vehicles they were purchasing and retaining were safe and free from defects.

2367. The aforementioned concealment was material because if it had been disclosed the Oklahoma Class would not have bought, leased or retained their vehicles.

2368. The aforementioned representations were material because they were facts that would typically be relied on by a person purchasing, leasing or retaining a new or used motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

2369. The Oklahoma Class relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements—in purchasing, leasing or retaining the Defective Vehicles.

2370. As a result of their reliance, the Oklahoma Class members have been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

2371. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the Oklahoma Class, who are therefore entitled to an award of punitive damages.

OREGON

ONE HUNDRED FIFTEENTH CLAIM FOR RELIEF

VIOLATION OF THE OREGON UNLAWFUL TRADE PRACTICES ACT
(OR. REV. STAT. § 646.605, *et. seq.*)

2372. This claim is brought on behalf of Class members who are Oregon residents (the "Oregon Class")

2373. Old GM was, and New GM is, a person within the meaning of OR. REV. STAT. § 646.605(4).

2374. The Defective Vehicles at issue are "goods" obtained primarily for personal family or household purposes within the meaning of OR. REV. STAT. § 646.605(6).

2375. The Oregon Unfair Trade Practices Act ("Oregon UTPA") prohibits a person from, in the course of the person's business, doing any of the following: "(e) Represent[ing] that… goods… have… characteristics… uses, benefits,… or qualities that [they] do not have; (g) Represent[ing] that… goods… are of a particular standard [or] quality… if they are of another; (i) Advertis[ing]… goods or services with intent not to provide [them] as advertised;" and "(u) engag[ing] in any other unfair or deceptive conduct in trade or commerce." OR. REV. STAT. § 646.608(1).

2376. The Companies engaged in unlawful trade practices, including representing that Defective Vehicles have characteristics, uses, benefits, and qualities which they do not have; representing that Defective Vehicles are of a particular standard and quality when they

are not; advertising Defective Vehicles with the intent not to sell them as advertised; and engaging in other unfair or deceptive acts.

2377. The Companies' actions as set forth above occurred in the conduct of trade or commerce.

2378. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the Oregon UTPA, and also has successor liability for the violations of Old GM.

2379. As alleged above, both Companies knew of the ignition switch defects, while the Oregon Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

2380. The Companies knew or should have known that their conduct violated the Oregon UTPA.

2381. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

2382. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shutdown in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

2383. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

2384. The Companies each owed the Oregon Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the Oregon Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the Oregon Class that contradicted these representations.

2385. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the Oregon Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

2386. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Oregon Class.

2387. The propensity of the Defective Vehicles to inadvertently shutdown during ordinary operation was material to the Oregon Class. Had the Oregon Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

2388. The Oregon Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The Oregon Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the Oregon Class own vehicles that are not safe.

2389. The Oregon Class members have been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's

egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in New GM vehicles, has so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

2390. Oregon Class members risk irreparable injury as a result of the Companies' acts and omissions in violation of the Oregon UTPA, and these violations present a continuing risk to the Oregon Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

2391. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

2392. As a direct and proximate result of the Companies' violations of the Oregon UTPA, the Oregon Class has suffered injury-in-fact and/or actual damage.

2393. The Oregon Class is entitled to recover the greater of actual damages or $200 pursuant to OR. REV. STAT. § 646.638(1). The Oregon Class is also entitled to punitive damages because the Companies engaged in conduct amounting to a particularly aggravated, deliberate disregard of the rights of others.

2394. Pursuant to OR. REV. STAT. § 646.638(2), Plaintiffs will mail a copy of the complaint to Oregon's attorney general.

ONE HUNDRED SIXTEENTH CLAIM FOR RELIEF

FRAUD BY CONCEALMENT
(BASED ON OREGON LAW)

2395. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought on behalf of Class members who are Oregon residents.

2396. As set forth above, Old GM concealed and/or suppressed material facts concerning the safety of its vehicles.

2397. Old GM had a duty to disclose these safety issues because it consistently marketed its vehicles as safe and proclaimed that safety was one of Old GM's highest corporate priorities. Once Old GM made representations to the public about safety, it was under a duty to disclose these omitted facts, because where one does speak one must speak the whole truth and not conceal any facts which materially qualify those facts stated. One who volunteers information must be truthful, and the telling of a half-truth calculated to deceive is fraud.

2398. In addition, Old New GM had a duty to disclose these omitted material facts because they were known and/or accessible only to Old GM who had superior knowledge and access to the facts, and Old GM knew they were not known to or reasonably discoverable by Plaintiffs and the Class. These omitted facts were material because they directly impact the safety of the Defective Vehicles. Whether or not a vehicle inadvertently shuts down, and whether a vehicle's power steering, power brakes and airbags become inoperable during ordinary driving conditions, are material safety concerns. Old GM possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles.

2399. Old GM actively concealed and/or suppressed these material facts, in whole or in part, with the intent to induce the Oregon Class to purchase Defective Vehicles at a higher price for the vehicles, which did not match the vehicles' true value.

2400. New GM still has not made full and adequate disclosure and continues to defraud the Oregon Class.

2401. The Oregon Class members were unaware of these omitted material facts and would not have acted as they did if they had known of the concealed and/or suppressed facts. The Oregon Class' actions were justified. Old GM and New GM were in exclusive control of the material facts and such facts were not known to the public or the Oregon Class.

2402. As a result of the concealment and/or suppression of the facts, the Oregon Class sustained damage. For those Oregon Class members who elect to affirm the sale, these damages, include the difference between the actual value of that which the Oregon Class paid and the actual value of that which they received, together with additional damages arising from the sales transaction, amounts expended in reliance upon the fraud, compensation for loss of use and enjoyment of the property, and/or lost profits. Those who want to rescind their purchases are entitled to restitution and consequential damages.

2403. The Companies' acts were done maliciously, oppressively, deliberately, with intent to defraud, and in reckless disregard of the Oregon Class' rights and well-being to enrich the Companies. The Companies' conduct warrants an assessment of punitive damages in an amount sufficient to deter such conduct in the future, which amount is to be determined according to proof.

PENNSYLVANIA

ONE HUNDRED SEVENTEENTH CLAIM FOR RELIEF

VIOLATION OF THE PENNSYLVANIA UNFAIR TRADE PRACTICES AND CONSUMER PROTECTION LAW
(73 P.S. § 201-1, *et. seq.*)

2404. This claim is brought on behalf of Class members who are Pennsylvania residents (the "Pennsylvania Class")

2405. The Class purchased or leased their Defective Vehicles primarily for personal, family or household purposes within the meaning of 73 P.S. § 201-9.2.

2406. All of the acts complained of herein were perpetrated by the Companies in the course of trade or commerce within the meaning of 73 P.S. § 201-2(3).

2407. The Pennsylvania Unfair Trade Practices and Consumer Protection Law ("Pennsylvania CPL") prohibits unfair or deceptive acts or practices, including: (i) "Representing that goods or services have… characteristics,…. Benefits or qualities that they do not have;" (ii) "Representing that goods or services are of a particular standard, quality or grade…if they are of another;:" (iii) "Advertising goods or services with intent not to sell them as advertised;" and (iv) "Engaging in any other fraudulent or deceptive conduct which creates a likelihood of confusion or misunderstanding." 73 P.S. § 201-2(4).

2408. The Companies engaged in unlawful trade practices, including representing that Defective Vehicles have characteristics, uses, benefits, and qualities which they do not have; representing that Defective Vehicles are of a particular standard and quality when they are not; advertising Defective Vehicles with the intent not to sell them as advertised; and engaging in any other fraudulent or deceptive conduct which creates a likelihood of confusion or of misunderstanding.

2409. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or

commerce in violation of the Pennsylvania CPL, and also has successor liability for the violations of Old GM.

2410. As alleged above, both Companies knew of the ignition switch defects, while the Pennsylvania Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

2411. The Companies knew or should have known that their conduct violated the Pennsylvania CPL.

2412. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

2413. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shutdown in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

2414. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. New GM also knew of a serious safety issues and a myriad of serious defects in a host of New GM vehicles. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

2415. The Companies each owed the Pennsylvania Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the Pennsylvania Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the Pennsylvania Class that contradicted these representations.

2416. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the Pennsylvania Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

2417. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the Pennsylvania Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Pennsylvania Class.

2418. The propensity of the Defective Vehicles to inadvertently shutdown during ordinary operation was material to the Pennsylvania Class. Had the Pennsylvania Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

2419. The Pennsylvania Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The Pennsylvania Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the Pennsylvania Class owns vehicles that are not safe.

2420. The Pennsylvania Class has been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls has so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

2421. Pennsylvania Class members risk irreparable injury as a result of the Companies' act and omissions in violation of the Pennsylvania Act, and these violations present a continuing risk to them as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

2422. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

2423. As a direct and proximate result of the Companies' violations of the Pennsylvania CPL, the Pennsylvania Class have suffered injury-in-fact and/or actual damage.

2424. New GM is liable to the Pennsylvania Class for treble their actual damages or $100, whichever is greater, and attorneys' fees, costs. 73 P.S. § 201-9.2(a). The Pennsylvania Class are also entitled to an award of punitive damages given that the Companies' conduct was malicious, wanton, willful, oppressive, or exhibited a reckless indifference to the rights of others.

ONE HUNDRED EIGHTEENTH CLAIM FOR RELIEF

BREACH OF THE IMPLIED WARRANTY OF MERCHANTABILITY
(13 PA. CONS. STAT. ANN. § 2314)

2425. This claim is brought solely on behalf of Class members who are Pennsylvania residents.

2426. Old GM was and New GM is a merchant with respect to motor vehicles.

2427. A warranty that the Defective Vehicles were in merchantable condition was implied by law when Old GM sold the Defective Vehicles to Plaintiffs and the Class.

2428. These vehicles, when sold and at all times thereafter, were not in merchantable condition and are not fit for the ordinary purpose for which cars are used. Specifically, the Defective Vehicles are inherently defective in that there are defects in the ignition switch systems that permit sudden unintended stalling to occur during ordinary driving conditions; when the vehicles stall, the power brakes and power steering become inoperable and the vehicles' airbags will not deploy,

2429. Old GM and New GM were provided notice of these issues by numerous complaints filed against it, by its own internal investigations, and by numerous individual letters and communications sent by the Pennsylvania Class before or within a reasonable amount of time after New GM issued the recall and the allegations of vehicle defects became public.

2430. As a direct and proximate result of Old GM and New GM's breach of the warranties of merchantability, the Pennsylvania Class has been damaged in an amount to be proven at trial.

ONE HUNDRED NINETEENTH CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

2431. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought on behalf of Class members who are Pennsylvania residents.

2432. As set forth above, both Old GM and New GM concealed and/or suppressed material facts concerning the safety of the Defective Vehicles.

2433. Both Companies had a duty to disclose these safety issues because they consistently marketed their vehicles as safe and proclaimed that safety was one of the Companies' highest corporate priorities. Once the Companies made representations to the public about safety, they were under a duty to disclose these omitted facts, because where one does speak one must speak the whole truth and not conceal any facts which materially qualify those facts stated. One who volunteers information must be truthful, and the telling of a half-truth calculated to deceive is fraud.

2434. In addition, the Companies had a duty to disclose these omitted material facts because they were known and/or accessible only to the Companies who had superior knowledge and access to the facts, and the Companies new they were not known to or reasonably discoverable by the Pennsylvania Class. These omitted facts were material because they directly impact the safety of the Defective Vehicles. Whether or not a vehicle inadvertently shuts down, and whether a vehicle's power steering, power brakes and airbags become inoperable during ordinary driving conditions, are material safety concerns. The

Companies possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles.

2435. The Companies actively concealed and/or suppressed these material facts with the intent to induce the Pennsylvania Class to purchase Defective Vehicles at a higher price for the vehicles, which did not match the vehicles' true value. The Companies also concealed and withheld the information in order to prevent a public relations nightmare and harm to the Companies' profits that would result from disclosure.

2436. New GM still has not made full and adequate disclosure and continues to defraud the Pennsylvania Class.

2437. The Pennsylvania Class was unaware of these omitted material facts and would not have acted as they did if they had known of the concealed and/or suppressed facts. The Pennsylvania Class' actions were justified. The Companies were in exclusive control of the material facts and such facts were not known to the public or the Pennsylvania Class.

2438. As a result of the concealment and/or suppression of the facts, the Pennsylvania Class sustained damage. For those who elect to affirm the sale, these damages include the difference between the actual value of that which the Class member paid and the actual value of that which she received, together with additional damages arising from the sales transaction, amounts expended in reliance upon the fraud, compensation for loss of use and enjoyment of the property, and/or lost profits. Those who want to rescind the purchase are entitled to restitution and consequential damages.

2439. The Companies' acts were done maliciously, oppressively, deliberately, with intent to defraud, and in reckless disregard of the Pennsylvania Class' rights and well-being to enrich the Companies. The Companies' conduct warrants an assessment of punitive damages

in an amount sufficient to deter such conduct in the future, which amount is to be determined according to proof.

RHODE ISLAND

ONE HUNDRED TWENTIETH CLAIM FOR RELIEF

VIOLATION OF THE RHODE ISLAND UNFAIR TRADE PRACTICES AND CONSUMER PROTECTION ACT
(R.I. GEN. LAWS § 6-13.1, *et. seq.*)

2440. This claim is brought solely on behalf of Class members who are Rhode Island residents (the "Rhode Island Class").

2441. The Rhode Island Class members purchased or leased one or more Defective Vehicles primarily for personal, family, or household purposes within the meaning of R.I. GEN. LAWS § 6-13.1-5.2(a).

2442. Rhode Island's Unfair Trade Practices and Consumer Protection Act ("Rhode Island CPA") prohibits "unfair or deceptive acts or practices in the conduct of any trade or commerce" including: "(v) Representing that goods or services have sponsorship, approval, characteristics, ingredients, uses, benefits, or quantities that they do not have"; "(vii) Representing that goods or services are of a particular standard, quality, or grade…, if they are of another"; "(ix) Advertising goods or services with intent not to sell them as advertised"; "(xii) Engaging in any other conduct that similarly creates a likelihood of confusion or of misunderstanding"; "(xiii) Engaging in any act or practice that is unfair or deceptive to the consumer"; and "(xiv) Using any other methods, acts or practices which mislead or deceive members of the public in a material respect." R.I. GEN. LAWS § 6-13.1-1(6).

2443. The Companies engaged in unlawful trade practices, including: (1) representing that the Defective Vehicles have characteristics, uses, benefits, and qualities which they do not have; (2) representing that the Defective Vehicles are of a particular

standard and quality when they are not; (3) advertising the Defective Vehicles with the intent not to sell them as advertised; and (4) otherwise engaging in conduct that is unfair or deceptive and likely to deceive.

2444. The Companies' actions as set forth above occurred in the conduct of trade or commerce.

2445. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression or omission of any material fact with intent that others rely upon such concealment, suppression or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the Rhode Island CPA, and also has successor liability for the violations of Old GM.

2446. As alleged above, both Companies knew of the ignition switch defects, while the Rhode Island Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

2447. The Companies knew or should have known that their conduct violated the Rhode Island CPA.

2448. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

2449. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shutdown in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

2450. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

2451. The Companies each owed the Rhode Island Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the Rhode Island Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the Rhode Island Class that contradicted these representations.

2452. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the Rhode Island Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

2453. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the Rhode Island Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Rhode Island Class.

2454. The propensity of the Defective Vehicles to inadvertently shutdown during ordinary operation was material to the Rhode Island Class. Had they known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

2455. The Rhode Island Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The Rhode Island Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the Rhode Island Class owns vehicles that are not safe.

2456. The Rhode Island Class have been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's egregious and widely-

publicized conduct and the never-ending and piecemeal nature of New GM's recalls has so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

2457. The Rhode Island Class members risk irreparable injury as a result of the Companies' act and omissions in violation of the Rhode Island CPA, and these violations present a continuing risk to them as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

2458. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

2459. As a direct and proximate result of the Companies' violations of the Rhode Island CPA, the Rhode Island Class have suffered injury-in-fact and/or actual damage.

2460. The Rhode Island Class are entitled to recover the greater of actual damages or $200 pursuant to R.I. GEN. LAWS § 6-13.1-5.2(a). The Rhode Island Class also seeks punitive damages in the discretion of the Court because of the Companies' egregious disregard of consumer and public safety and its long-running concealment of the serious safety defects and their tragic consequences.

ONE HUNDRED TWENTY-FIRST CLAIM FOR RELIEF

BREACH OF THE IMPLIED WARRANTY OF MERCHANTABILITY
(R.I. GEN. LAWS § 6A-2-314)

2461. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought on behalf of Class members who are Rhode Island residents.

2462. Old GM and New GM were merchants with respect to motor vehicles.

2463. A warranty that the Defective Vehicles were in merchantable condition was implied by law when the Rhode Island Class purchased their Defective Vehicles.

2464. These vehicles, when sold and at all times thereafter, were not in merchantable condition and are not fit for the ordinary purpose for which cars are used. Specifically, the Defective Vehicles are inherently defective in that there are defects in the ignition switch systems that permit sudden unintended stalling to occur during ordinary driving conditions; when the vehicles stall, the power brakes and power steering become inoperable and the vehicles' airbags will not deploy,

2465. Old GM was provided notice of these issues by numerous complaints filed against it, by its own internal investigations, and by numerous individual letters and communications sent by the Rhode Island Class before or within a reasonable amount of time after New GM issued the recall and the allegations of vehicle defects became public.

2466. As a direct and proximate result of Old GM's breach of the warranties of merchantability, the Rhode Island Class has been damaged in an amount to be proven at trial.

ONE HUNDRED TWENTY-SECOND CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

2467. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought on behalf of Class members who are Rhode Island residents.

2468. As set forth above, Both Old GM and New GM concealed and/or suppressed material facts concerning the safety of the Defective Vehicles.

2469. The Companies had a duty to disclose these safety issues because they consistently marketed their vehicles as safe and proclaimed that safety was one of the Companies' highest corporate priorities. Once the Companies made representations to the public about safety, they were under a duty to disclose these omitted facts, because where one does speak one must speak the whole truth and not conceal any facts which materially qualify

those facts stated. One who volunteers information must be truthful, and the telling of a half-truth calculated to deceive is fraud.

2470. In addition, the Companies had a duty to disclose these omitted material facts because they were known and/or accessible only to the Companies who had superior knowledge and access to the facts, and the Companies knew they were not known to or reasonably discoverable by the Rhode Island Class. These omitted facts were material because they directly impact the safety of the Defective Vehicles. Whether or not a vehicle inadvertently shuts down, and whether a vehicle's power steering, power brakes and airbags become inoperable during ordinary driving conditions, are material safety concerns. The Companies possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles.

2471. The Companies actively concealed and/or suppressed these material facts with the intent to induce the Rhode Island Class to purchase Defective Vehicles at a higher price for the vehicles, which did not match the vehicles' true value. The Companies also concealed and withheld the information in order to prevent a public relations nightmare and harm to the Companies' profits that would result from disclosure.

2472. The Rhode Island Class members were unaware of these omitted material facts and would not have acted as they did if they had known of the concealed and/or suppressed facts. The Rhode Island Class' actions were justified. The Companies were in exclusive control of the material facts and such facts were not known to the public or the Rhode Island Class.

2473. As a result of the concealment and/or suppression of the facts, the Rhode Island Class sustained damage. For those who elect to affirm the sale, these damages include

the difference between the actual value of that which the Rhode Island Class member paid and the actual value of what she received, together with additional damages arising from the sales transaction, amounts expended in reliance upon the fraud, compensation for loss of use and enjoyment of the property, and/or lost profits. Those who want to rescind the purchase are entitled to restitution and consequential damages.

2474. The Companies' acts were done maliciously, oppressively, deliberately, with intent to defraud, and in reckless disregard of the Rhode Island Class' rights and well-being to enrich New GM. New GM's conduct warrants an assessment of punitive damages in an amount sufficient to deter such conduct in the future, which amount is to be determined according to proof.

SOUTH CAROLINA

ONE HUNDRED TWENTY-THIRD CLAIM FOR RELIEF

VIOLATIONS OF THE SOUTH CAROLINA UNFAIR TRADE PRACTICES ACT (S.C. CODE ANN. § 39-5-10, *et. seq.*)

2475. This claim is brought on behalf of Class members who are South Carolina residents (the "South Carolina Class").

2476. Old GM was, and New GM is, a "person" under S.C. CODE ANN. § 39-5-10.

2477. The South Carolina Unfair Trade Practices Act ("South Carolina UTPA") prohibits "unfair or deceptive acts or practices in the conduct of any trade or commerce.…" S.C. CODE § 39-5-20(a). The Companies engaged in unfair and deceptive acts or practices and violated the South Carolina UTPA by failing to disclose and actively concealing the dangerous risk caused by the ignition switch defects in the Defective Vehicles.

2478. The Companies' actions as set forth above occurred in the conduct of trade or commerce.

2479. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression, or omission of any material fact with intent that others rely upon such concealment, suppression, or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the South Carolina UTPA, and also has successor liability for the violations of Old GM.

2480. As alleged above, both Companies knew of the ignition switch defects, while the South Carolina Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

2481. The Companies knew or should have known that their conduct violated the South Carolina UTPA.

2482. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

2483. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shut down in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

2484. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

2485. The Companies each owed the South Carolina Class a duty to disclose the defective nature of the Defective Vehicles, including the dangerous risks posed by the defective ignition switches, because the Companies:

a. Possessed exclusive knowledge of the defects rendering the Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with the Defective Vehicles in order to hide the life-threatening problems from Plaintiff; and/or

c. Made incomplete representations about the safety and reliability of the Defective Vehicles, while purposefully withholding material facts from Plaintiffs and the Class that contradicted these representations.

2486. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the South Carolina Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

2487. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the South Carolina Class, about the true safety and reliability

of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the South Carolina Class.

2488. The propensity of the Defective Vehicles to inadvertently shut down during ordinary operation was material to the South Carolina Class. Had the South Carolina Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

2489. All members of the South Carolina Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The South Carolina Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the South Carolina Class own vehicles that are not safe.

2490. The South Carolina Class have been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of New GM's failure to timely disclose and remedy the serious defects. New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls has so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

2491. South Carolina Class Members risk irreparable injury as a result of the Companies' act and omissions in violation of the South Carolina UTPA, and these violations

present a continuing risk to the South Carolina Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

2492. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

2493. As a direct and proximate result of the Companies' violations of the South Carolina UTPA, the South Carolina Class members have suffered injury-in-fact and/or actual damage.

2494. Pursuant to S.C. CODE ANN. § 39-5-140(a), the South Carolina Class seeks monetary relief against New GM to recover for their economic losses. Because the Companies' actions were willful and knowing, the South Carolina Class members' damages should be trebled. *Id.*

2495. The South Carolina Class further alleges that the Companies' malicious and deliberate conduct warrants an assessment of punitive damages because the Companies carried out despicable conduct with willful and conscious disregard of the rights and safety of others, subjecting the South Carolina Class to cruel and unjust hardship as a result. The Companies intentionally and willfully misrepresented the safety and reliability of the Defective Vehicles, deceived the South Carolina Class on life-or-death matters, and concealed material facts that only they knew, all to avoid the expense and public relations nightmare of correcting a deadly flaw in the Defective Vehicles they repeatedly promised the South Carolina Class was safe. New GM's unlawful conduct constitutes malice, oppression, and fraud warranting punitive damages.

2496. The South Carolina Class further seeks an order enjoining New GM's unfair or deceptive acts or practices.

ONE HUNDRED TWENTY-FOURTH CLAIM FOR RELIEF

BREACH OF THE IMPLIED WARRANTY OF MERCHANTABILITY (S.C. CODE § 36-2-314)

2497. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought on behalf of the South Carolina Class.

2498. Old GM and New GM are merchants with respect to motor vehicles under S.C. CODE § 36-2-314.

2499. Under S.C. CODE § 36-2-314, a warranty that the Defective Vehicles were in merchantable condition was implied by law when the South Carolina Class purchased the vehicles.

2500. These vehicles, when sold and at all times thereafter, were not in merchantable condition and are not fit for the ordinary purpose for which cars are used. Specifically, the Defective Vehicles are inherently defective in that there are defects in the ignition switch systems that permit sudden unintended stalling to occur during ordinary driving conditions; when the vehicles stall, the power brakes and power steering become inoperable and the vehicles' airbags will not deploy,

2501. Old GM and New GM were provided notice of these issues by numerous complaints filed against them, their own internal investigations, and by numerous individual letters and communications sent by the South Carolina Class members before or within a reasonable amount of time after New GM issued the recall and the allegations of vehicle defects became public.

2502. As a direct and proximate result of Old GM and New GM's breach of the warranty of merchantability, Plaintiffs and the Class have been damaged in an amount to be proven at trial.

ONE HUNDRED TWENTY-FIFTH CLAIM FOR RELIEF

VIOLATIONS OF THE SOUTH CAROLINA REGULATION OF MANUFACTURERS, DISTRIBUTORS, AND DEALERS ACT
(S.C. CODE ANN. § 56-15-10, *et. seq.*)

2503. This claim is brought solely on behalf of the South Carolina Class.

2504. Old GM and New GM were "manufacturer[s]" as set forth in S.C. CODE ANN. § 56-15-10, as they were engaged in the business of manufacturing or assembling new and unused motor vehicles.

2505. Old GM and New GM participated in unfair or deceptive acts or practices that violated the South Carolina Regulation of Manufacturers, Distributors, and Dealers Act ("Dealers Act"), S.C. CODE ANN. § 56-15-30.

2506. Old GM and New GM engaged in actions which were arbitrary, in bad faith, unconscionable, and which caused damage to Plaintiffs, the Class, and to the public.

2507. Old GM and New GM's bad faith and unconscionable actions include, but are not limited to: (1) representing that Defective Vehicles have characteristics, uses, benefits, and qualities which they do not have, (2) representing that Defective Vehicles are of a particular standard, quality, and grade when they are not, (3) advertising Defective Vehicles with the intent not to sell them as advertised, (4) representing that a transaction involving Defective Vehicles confers or involves rights, remedies, and obligations which it does not, and (5) representing that the subject of a transaction involving Defective Vehicles has been supplied in accordance with a previous representation when it has not.

2508. Old GM and New GM resorted to and used false and misleading advertisements in connection with its business. As alleged above, Old GM and New GM made numerous material statements about the safety and reliability of Defective Vehicles that

were either false or misleading. Each of these statements contributed to the deceptive context of Old GM and New GM's unlawful advertising and representations as a whole.

2509. Pursuant to S.C. CODE ANN. § 56-15-110(2), members of the South Carolina Class bring this action on behalf of themselves as the action is one of common or general interest to many persons and the parties are too numerous to bring them all before the court.

2510. The South Carolina Class members are entitled to double the actual damages, the cost of the suit, attorney's fees pursuant to S.C. CODE ANN. § 56-15-110. The South Carolina Class also seeks injunctive relief under S.C. CODE ANN. § 56-15-110. The South Carolina Class also seeks treble damages because Old GM and New GM acted maliciously.

SOUTH DAKOTA

ONE HUNDRED TWENTY-SIXTH CLAIM FOR RELIEF

VIOLATION OF THE SOUTH DAKOTA DECEPTIVE TRADE PRACTICES AND CONSUMER PROTECTION LAW (S.D. CODIFIED LAWS § 37-24-6)

2511. This claim is brought on behalf of Class members who are South Dakota residents (the "South Dakota Class").

2512. The South Dakota Deceptive Trade Practices and Consumer Protection Law ("South Dakota CPL") prohibits deceptive acts or practices, which are defined for relevant purposes to include "[k]nowingly act, use, or employ any deceptive act or practice, fraud, false pretense, false promises, or misrepresentation or to conceal, suppress, or omit any material fact in connection with the sale or advertisement of any merchandise, regardless of whether any person has in fact been misled, deceived, or damaged thereby [.]" S.D. CODIFIED LAWS § 37-24-6(1). The conduct of Old GM and New GM as set forth herein constitutes deceptive acts or practices, fraud, false promises, misrepresentation, concealment, suppression, and omission of material facts in violation of S.D. Codified Laws § 37-24-6 and 37-24-31,

including, but not limited to, Old GM and New GM's manufacture and sale of vehicles with an ignition switch defect which the Old GM and New GM failed to adequately investigate, disclose, and remedy, the Companies' misrepresentations and omissions regarding the safety and reliability of the Defective Vehicles, and the Companies' misrepresentations concerning a host of other defects and safety issues.

2513. The Companies' actions as set forth above occurred in the conduct of trade or commerce.

2514. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression, or omission of any material fact with intent that others rely upon such concealment, suppression, or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the South Dakota CPL, and also has successor liability for the violations of Old GM.

2515. As alleged above, both Companies knew of the ignition switch defects, while the South Dakota Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

2516. The Companies knew or should have known that their conduct violated the South Dakota CPL.

2517. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

2518. Old GM and New GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM and New GM deliberately withheld the information about the vehicles' propensity to inadvertently shut down in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

2519. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

2520. The Companies each owed the South Dakota Class a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the South Dakota Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the South Dakota Class that contradicted these representations.

2521. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the South Dakota Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

2522. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the South Dakota Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the South Dakota Class.

2523. The propensity of the Defective Vehicles to inadvertently shut down during ordinary operation was material to the South Dakota Class. Had the South Dakota Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

2524. All members of the South Dakota Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The South Dakota Class overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the South Dakota Class own vehicles that are not safe.

2525. The South Dakota Class members have been damaged by Old GM and New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of Old GM and New GM's failure to timely disclose and remedy the serious defects. Old GM and New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in Old GM and New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

2526. South Dakota Class Members risk irreparable injury as a result of the Companies' act and omissions in violation of the South Dakota CPL, and these violations present a continuing risk to the South Dakota Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

2527. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

2528. As a direct and proximate result of the Companies' violations of the South Dakota CPL, the South Dakota Class members have suffered injury-in-fact and/or actual damage.

2529. Under S.D. CODIFIED LAWS § 37-24-31, the South Dakota Class is entitled to a recovery of their actual damages suffered as a result of New GM's acts and practices, including the acts and practices of Old GM for which New GM has successor liability.

ONE HUNDRED TWENTY-SEVENTH CLAIM FOR RELIEF

BREACH OF THE IMPLIED WARRANTY OF MERCHANTABILITY
(S.D. CODIFIED LAWS § 57a-2-314)

2530. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought on behalf of the South Dakota Class.

2531. Old GM and New GM were merchants with respect to motor vehicles.

2532. South Dakota law imposed a warranty that the Defective Vehicles were merchantable when the South Dakota Class purchased their Defective Vehicles.

2533. These vehicles, when sold and at all times thereafter, were not merchantable and are not fit for the ordinary purpose for which cars are used. Specifically, the Defective Vehicles are inherently defective in that there are defects in the ignition switch systems that permit sudden unintended shutdown to occur, with the attendant shut down of power steering and power brakes and the non-deployment of airbags in the event of a collision.

2534. As a direct and proximate result of Old GM and New GM's breach of the implied warranty of merchantability, Plaintiffs and the Class have been damaged in an amount to be proven at trial.

ONE HUNDRED TWENTY-EIGHTH CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

2535. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought on behalf of the South Dakota Class.

2536. As set forth above, both Old GM and New GM concealed and/or suppressed material facts concerning the safety of the Defective Vehicles.

2537. The Companies had a duty to disclose these safety issues because they consistently marketed their vehicles as safe and proclaimed that safety was one of the

Companies' highest corporate priorities. Once the Companies made representations to the public about safety, they were under a duty to disclose these omitted facts, because where one does speak one must speak the whole truth and not conceal any facts which materially qualify those facts stated. One who volunteers information must be truthful, and the telling of a half-truth calculated to deceive is fraud.

2538. In addition, the Companies had a duty to disclose these omitted material facts because they were known and/or accessible only to the Companies who had superior knowledge and access to the facts, and the Companies knew they were not known to or reasonably discoverable by the South Dakota Class. These omitted facts were material because they directly impact the safety of the Defective Vehicles. Whether or not a vehicle inadvertently shuts down, and whether a vehicle's power steering, power brakes and airbags become inoperable during ordinary driving conditions, are material safety concerns. The Companies possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles.

2539. The Companies actively concealed and/or suppressed these material facts with the intent to induce the South Dakota Class to purchase Defective Vehicles at a higher price for the vehicles, which did not match the vehicles' true value. The Companies also concealed and withheld the information in order to prevent a public relations nightmare and harm to the Companies' profits that would result from disclosure.

2540. The South Dakota Class members were unaware of these omitted material facts and would not have acted as they did if they had known of the concealed and/or suppressed facts. The South Dakota Class' actions were justified. The Companies were in exclusive

control of the material facts and such facts were not known to the public or the South Dakota Class.

2541. As a result of the concealment and/or suppression of the facts, the South Dakota Class sustained damage. For those the South Dakota Class members who elect to affirm the sale, these damages include the difference between the actual value of that which members of the South Dakota Class paid and the actual value of that which they received, together with additional damages arising from the sales transaction, amounts expended in reliance upon the fraud, compensation for loss of use and enjoyment of the property, and/or lost profits. For those members of the South Dakota Class who want to rescind the purchase, then those South Dakota Class members are entitled to restitution and consequential damages.

2542. The Companies' acts were done maliciously, oppressively, deliberately, with intent to defraud, and in reckless disregard of the South Dakota Class's rights and well-being to enrich Old GM and New GM. Old GM and New GM's conduct warrants an assessment of punitive damages in an amount sufficient to deter such conduct in the future, which amount is to be determined according to proof.

TENNESSEE

ONE HUNDRED TWENTY-NINTH CLAIM FOR RELIEF

VIOLATION OF TENNESSEE CONSUMER PROTECTION ACT
(TENN. CODE ANN. § 47-18-101, *et. seq.*)

2543. This claim is brought on behalf of Class members who are Tennessee residents (the "Tennessee Class").

2544. Tennessee Class members are "natural person[s]" and "consumer[s]" within the meaning of TENN. CODE ANN. § 47-18-103(2).

2545. Old GM was, and New GM is, a "person" within the meaning of TENN. CODE ANN. § 47-18-103(2) (the "Act").

2546. All of the Companies' conduct complained of herein affected "trade," "commerce" or "consumer transactions" within the meaning of TENN. CODE ANN. § 47-18-103(19).

2547. The Tennessee Consumer Protection Act ("Tennessee CPA") prohibits "[u]nfair or deceptive acts or practices affecting the conduct of any trade or commerce," including but not limited to: "(5) Representing that goods or services have… characteristics, [or]… benefits… that they do not have…;" "(7) Representing that goods or services are of a particular standard, quality or grade… if they are of another;" and "Advertising goods or services with intent not to sell them as advertised." TENN. CODE ANN. § 47-18-104. The Companies violated the Tennessee CPA by engaging in unfair or deceptive acts, including representing that Defective Vehicles have characteristics or benefits that they did not have; representing that Defective Vehicles are of a particular standard, quality, or grade when they are of another; and advertising Defective Vehicles with intent not to sell them as advertised.

2548. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression, or omission of any material fact with intent that others rely upon such concealment, suppression, or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or

commerce in violation of the Tennessee CPA, and also has successor liability for the violations of Old GM.

2549. As alleged above, both Companies knew of the ignition switch defects, while the Tennessee Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

2550. The Companies knew or should have known that their conduct violated the Tennessee CPA.

2551. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

2552. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shut down in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

2553. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

2554. The Companies each owed Tennessee Class members a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the Tennessee Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the Tennessee Class that contradicted these representations.

2555. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the Tennessee Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

2556. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the Tennessee Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Tennessee Class.

2557. The propensity of the Defective Vehicles to inadvertently shut down during ordinary operation was material to the Tennessee Class. Had the Tennessee Class members known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

2558. All members of the Tennessee Class suffered ascertainable loss caused by the Companies' failure to disclose material information. The Tennessee Class members overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and the Tennessee Class members own vehicles that are not safe.

2559. Tennessee Class members have been damaged by New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of Old GM and New GM's failure to timely disclose and remedy the serious defects. Old GM and New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in Old GM and New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

2560. Plaintiffs and Tennessee Class members risk irreparable injury as a result of the Companies' act and omissions in violation of the Tennessee CPA, and these violations present a continuing risk to the Tennessee Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

2561. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

2562. As a direct and proximate result of the Companies' violations of the Tennessee CPA, the Tennessee Class members have suffered injury-in-fact and/or actual damage.

2563. Pursuant to TENN. CODE § 47-18-109(a), the Tennessee Class seeks monetary relief against New GM measured as actual damages in an amount to be determined at trial, treble damages as a result of the Companies' willful or knowing violations, and any other just and proper relief available under the Tennessee CPA.

ONE HUNDRED THIRTIETH CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

2564. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought on behalf of the Tennessee Class.

2565. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

2566. The Companies knew these representations were false when made.

2567. The vehicles purchased or leased by the Tennessee Class were, in fact, defective, unsafe, and unreliable, because the vehicles were subject to sudden unintended shut down, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

2568. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shut down, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision because the Tennessee Class members relied on the Companies' representations that the vehicles they purchased and retained were safe and free from defects.

2569. The aforementioned concealment was material because if it had been disclosed the Tennessee Class members would not have bought, leased or retained the vehicles.

2570. The aforementioned representations were material because they were facts that would typically be relied on by a person purchasing, leasing or retaining a new or used motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

2571. The Tennessee Class relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements—in purchasing, leasing or retaining the Defective Vehicles.

2572. As a result of their reliance, Tennessee Class members have been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

2573. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the Tennessee Class. The Tennessee Class members are therefore entitled to an award of punitive damages.

TEXAS

ONE HUNDRED THIRTY-FIRST CLAIM FOR RELIEF

VIOLATIONS OF THE TEXAS DECEPTIVE TRADE PRACTICES — CONSUMER PROTECTION ACT
(TEX. BUS. & COM. CODE §§ 17.41, *et. seq.*)

2574. This claim is brought on behalf of Class members who are Texas residents (the "Texas Class").

2575. Members of the Texas Class are individuals, partnerships, and corporations with assets of less than $25 million (or are controlled by corporations or entities with less than $25 million in assets). *See* TEX. BUS. & COM. CODE § 17.41,

2576. The Texas Deceptive Trade Practices-Consumer Protection Act ("Texas DTPA") prohibits "[f]alse, misleading, or deceptive acts or practices in the conduct of any trade or commerce," TEX. BUS. & COM. CODE § 17.46(a), and an "unconscionable action or course of action," which means "an act or practice which, to a consumer's detriment, takes advantage of the lack of knowledge, ability, experience, or capacity of the consumer to a grossly unfair degree." TEX. BUS. & COM. CODE § 17.45(5); TEX. BUS. & COM. CODE § 17.50(a)(3). The Companies have committed false, misleading, unconscionable and deceptive acts or practices in the conduct of trade or commerce.

2577. The Companies also violated the Texas DTPA by (1) representing that the Defective Vehicles have characteristics, uses, benefits, and qualities which they do not have; (2) representing that the Defective Vehicles are of a particular standard, quality, and grade when they are not; (3) advertising the Defective Vehicles with the intent not to sell them as advertised; and (4) failing to disclose information concerning the Defective Vehicles with the intent to induce consumers to purchase or lease the Defective Vehicles.

2578. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression, or omission of any material fact with intent that others rely upon such concealment,

suppression, or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or commerce in violation of the Texas DTPA, and also has successor liability for the violations of Old GM.

2579. As alleged above, both Companies knew of the ignition switch defects, while the Texas Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

2580. The Companies knew or should have known that their conduct violated the Texas DTPA.

2581. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

2582. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shut down in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

2583. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

2584. The Companies each owed Texas Class members a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the Texas Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the Texas Class that contradicted these representations.

2585. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the Texas Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

2586. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the Texas Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Texas Class.

2587. The propensity of the Defective Vehicles to inadvertently shut down during ordinary operation was material to the Texas Class. Had Texas Class members known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

2588. All members of the Texas Class suffered ascertainable loss caused by the Companies' failure to disclose material information. Texas Class members overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and Texas Class members own vehicles that are not safe.

2589. Texas Class members have been damaged by Old GM and New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of Old GM and New GM's failure to timely disclose and remedy the serious defects. Old GM and New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in Old GM and New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

2590. Texas Class members risk irreparable injury as a result of the Companies' act and omissions in violation of the Texas DTPA, and these violations present a continuing risk to the Texas Class as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

2591. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

2592. As a direct and proximate result of the Companies' violations of the Texas DTPA, Texas Class members have suffered injury-in-fact and/or actual damage.

2593. Pursuant to TEX. BUS. & COM. CODE § 17.50(a)(1) and (b), the Texas Class seeks monetary relief against New GM measured as actual damages in an amount to be determined at trial, treble damages for the Companies' knowing violations of the Texas DTPA, and any other just and proper relief available under the Texas DTPA.

2594. For those Texas Class members who wish to rescind their purchases, they are entitled under TEX. BUS. & COM. CODE § 17.50(b)(4) to rescission and other relief necessary to restore any money or property that was acquired from them based on violations of the Texas DTPA.

2595. The Texas Class also seeks court costs and attorneys' fees under § 17.50(d) of the Texas DTPA.

2596. Texas Plaintiffs have complied with the notice requirement set forth in TEX. BUS. & COM. CODE § 17.505(a) by virtue of the notice previously provided in the context of the underlying action styled *Ramirez, et al. v. GM*, 2:14-cv-02344-JVS-AN (C.D. Cal.), and other underlying actions, as well as additional notice in the form of a demand letter sent on October 12, 2014.

2597. Upon filing this Complaint and as required by TEX. BUS. & COM. CODE § 17.501, Plaintiffs will provide the consumer protection division of the Attorney General's office a copy of the demand letter and a copy of the complaint.

ONE HUNDRED THIRTY-SECOND CLAIM FOR RELIEF

BREACH OF THE IMPLIED WARRANTY OF MERCHANTABILITY
(TEX. BUS. & COM. CODE § 2.314)

2598. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought on behalf of the Texas Class.

2599. Old GM and New GM were merchants with respect to motor vehicles under TEX. BUS. & COM. CODE § 2.104.

2600. Under TEX. BUS. & COM. CODE § 2.314, a warranty that the Defective Vehicles were in merchantable condition was implied by law in the transactions in which Texas Class members purchased their Defective Vehicles.

2601. Old GM and New GM impliedly warranted that the vehicles were of good and merchantable quality and fit, and safe for their ordinary intended use—transporting the driver and passengers in reasonable safety during normal operation, and without unduly endangering them or members of the public.

2602. These vehicles, when sold and at all times thereafter, were not merchantable and are not fit for the ordinary purpose for which cars are used. Specifically, the Defective Vehicles are inherently defective in that there are defects in the ignition switch systems that permit sudden unintended shutdown to occur, with the attendant shut down of power steering and power brakes and the non-deployment of airbags in the event of a collision.

2603. As a direct and proximate result of Old GM and New GM's breach of the implied warranty of merchantability, Texas Class members have been damaged in an amount to be proven at trial.

ONE HUNDRED THIRTY-THIRD CLAIM FOR RELIEF

FRAUD BY CONCEALMENT

2604. In the event the Court declines to certify a nationwide Class under Michigan law, this claim is brought on behalf of the Texas Class.

2605. As described above, Old GM and New GM made material omissions and affirmative misrepresentations regarding the Defective Vehicles.

2606. The Companies knew these representations were false when made.

2607. The vehicles purchased or leased by the Texas Class were, in fact, defective, unsafe, and unreliable, because the vehicles were subject to sudden unintended shut down, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision.

2608. The Companies had a duty to disclose that these vehicles were defective, unsafe and unreliable in that the vehicles were subject to sudden unintended shut down, with the attendant loss of power steering, power brakes, and the non-deployment of airbags in the event of a collision because Texas Class members relied on the Companies' representations that the vehicles they were purchasing were safe.

2609. The aforementioned concealment was material because if it had been disclosed Texas Class members would not have bought, leased, or retained their vehicles, or would have paid less for the vehicles.

2610. The aforementioned representations were material because they were facts that would typically be relied on by a person purchasing, leasing, or retaining a new or used motor vehicle. The Companies knew or recklessly disregarded that their representations were false because they knew that people had died as the result of the vehicles' defective ignition switch

systems. The Companies intentionally made the false statements in order to sell vehicles and avoid the expense and public relations nightmare of a recall.

2611. Texas Class members relied on the Companies' reputation—along with their failure to disclose the ignition switch system problems and the Companies' affirmative assurance that its vehicles were safe and reliable and other similar false statements—in purchasing, leasing or retaining the Defective Vehicles.

2612. As a result of their reliance, Texas Class members have been injured in an amount to be proven at trial, including, but not limited to, their lost benefit of the bargain and overpayment at the time of purchase and/or the diminished value of their vehicles.

2613. The Companies' conduct was knowing, intentional, with malice, demonstrated a complete lack of care, and was in reckless disregard for the rights of the Texas Class. Texas Class members are therefore entitled to an award of punitive damages.

UTAH

ONE HUNDRED THIRTY-FOURTH CLAIM FOR RELIEF

VIOLATION OF UTAH CONSUMER SALES PRACTICES ACT
(UTAH CODE ANN. § 13-11-1, *et. seq.*)

2614. This claim is brought on behalf of Class members who are Utah residents (the "Utah Class").

2615. Old GM was and New GM is a "supplier" under the Utah Consumer Sales Practices Act ("Utah CSPA"), UTAH CODE ANN. § 13-11-3.

2616. Utah Class members are "persons" under UTAH CODE ANN. § 13-11-3.

2617. The sale of the Defective Vehicles to the Utah Class members was a "consumer transaction" within the meaning of UTAH CODE ANN. § 13-11-3.

2618. The Utah CSPA makes unlawful any "deceptive act or practice by a supplier in connection with a consumer transaction" under UTAH CODE ANN. § 13-11-4. Specifically, "a supplier commits a deceptive act or practice if the supplier knowingly or intentionally: (a) indicates that the subject of a consumer transaction has sponsorship, approval, performance characteristics, accessories, uses, or benefits, if it has not" or "(b) indicates that the subject of a consumer transaction is of a particular standard, quality, grade, style, or model, if it is not." UTAH CODE ANN. § 13-11-4. "An unconscionable act or practice by a supplier in connection with a consumer transaction" also violates the Utah CSPA. UTAH CODE ANN. § 13-11-5.

2619. The Companies committed deceptive acts or practices in the conduct of trade or commerce, by, among other things, engaging in unconscionable acts, representing that the Defective Vehicles have characteristics, uses, benefits, and qualities which they do not have; and representing that the Defective Vehicles are of a particular standard, quality, and grade when they are not

2620. In the course of their business, both Old GM and New GM willfully failed to disclose and actively concealed the dangerous ignition switch defects in the Defective Vehicles as described herein and otherwise engaged in activities with a tendency or capacity to deceive. Old GM and New GM also engaged in unlawful trade practices by employing deception, deceptive acts or practices, fraud, misrepresentations, or concealment, suppression, or omission of any material fact with intent that others rely upon such concealment, suppression, or omission, in connection with the sale of Defective Vehicles. New GM is directly liable for engaging in unfair and deceptive acts or practices in the conduct of trade or

commerce in violation of the Utah CSPA, and also has successor liability for the violations of Old GM.

2621. As alleged above, both Companies knew of the ignition switch defects, while the Utah Class was deceived by the Companies' omission into believing the Defective Vehicles were safe, and the information could not have reasonably been known by the consumer.

2622. The Companies knew or should have known that their conduct violated the Utah CSPA.

2623. As alleged above, the Companies made material statements about the safety and reliability of Defective Vehicles that were either false or misleading.

2624. Old GM engaged in a deceptive trade practice when it failed to disclose material information concerning the Defective Vehicles which it knew at the time of the sale. Old GM deliberately withheld the information about the vehicles' propensity to inadvertently shut down in order to ensure that consumers would purchase its vehicles and to induce the consumer to enter into a transaction.

2625. From its inception in 2009, New GM has known of the ignition switch defects that exist in millions of Defective Vehicles sold in the United States. But, to protect its profits and to avoid remediation costs and a public relations nightmare, New GM concealed the defects and their tragic consequences and allowed unsuspecting new and used car purchasers to continue to buy the Defective Vehicles and allowed all Defective Vehicle owners to continue driving highly dangerous vehicles.

2626. The Companies each owed Utah Class members a duty to disclose the defective nature of Defective Vehicles, including the dangerous risk of ignition switch movement, engine shutdown, and disabled safety airbags, because they:

a. Possessed exclusive knowledge of the defects rendering Defective Vehicles inherently more dangerous and unreliable than similar vehicles;

b. Intentionally concealed the hazardous situation with Defective Vehicles through their deceptive marketing campaign and recall program that they designed to hide the life-threatening problems from the Utah Class; and/or

c. Made incomplete representations about the safety and reliability of Defective Vehicles generally, and the ignition switch in particular, while purposefully withholding material facts from the Utah Class that contradicted these representations.

2627. The Defective Vehicles posed and/or pose an unreasonable risk of death or serious bodily injury to the Utah Class, passengers, other motorists, pedestrians, and the public at large, because they are susceptible to incidents of sudden and unintended engine shutdown.

2628. The Companies' unfair or deceptive acts or practices were likely to deceive reasonable consumers, including the Utah Class, about the true safety and reliability of Defective Vehicles. The Companies intentionally and knowingly misrepresented material facts regarding the Defective Vehicles with an intent to mislead the Utah Class.

2629. The propensity of the Defective Vehicles to inadvertently shut down during ordinary operation was material to Utah Class members. Had the Utah Class known that their vehicles had these serious safety defects, they would either not have purchased their Defective Vehicles, or would have paid less for them than they did.

2630. All members of the Utah Class suffered ascertainable loss caused by the Companies' failure to disclose material information. Utah Class members overpaid for their vehicles and did not receive the benefit of their bargain. As the result of the concealment and failure to remedy the serious safety defect, and the piecemeal and serial nature of the recalls, the value of their Defective Vehicles has diminished now that the safety issues in the Defective Vehicles, and the many other serious safety issues and myriad defects in the Companies' vehicles have come to light, and Utah Class members own vehicles that are not safe.

2631. Utah Class members have been damaged by Old GM and New GM's misrepresentations, concealment, and non-disclosure of the ignition switch defects in the Defective Vehicles, as they are now holding vehicles whose value has greatly diminished because of Old GM and New GM's failure to timely disclose and remedy the serious defects. Old GM and New GM's egregious and widely-publicized conduct and the never-ending and piecemeal nature of New GM's recalls, and the many other serious defects in Old GM and New GM vehicles, have so tarnished the Defective Vehicles that no reasonable consumer would purchase them—let alone pay what would otherwise be fair market value for the vehicles.

2632. Utah Class members risk irreparable injury as a result of the Companies' act and omissions in violation of the Utah CSPA, and these violations present a continuing risk to Utah Class members as well as to the general public. The Companies' unlawful acts and practices complained of herein affect the public interest.

2633. The recalls and repairs instituted by New GM have not been adequate. The recall is not an effective remedy and is not offered for all Defective Vehicles.

2634. As a direct and proximate result of the Companies' violations of the Utah CSPA, Utah Class members have suffered injury-in-fact and/or actual damage.
