I had a lawyer who told me that my rate was to be set at \$246 a week when we had our hearing I was working elsewhere and could not have known there was a problem until the disability stopped me from working. My lawyer refused to re approach the issue said it was too much trouble it took me years to discharge to lawyer because the judge wouldn't allow it.

I have been highly medicated for several years where I couldn't even remember my own name then for the last 3 years I have spent at least 19 hours a day in bed. I cannot sit or stand for longer than 30 minutes. I have lost everything due to this disability and live on a very small S.S.D. Pension which covers my rent I exist on the \$73.84 a week G-M workers comp check. I have a minor son I support and we live in an area with no public transportation. Our car was repossessed years ago and we cannot afford a new one. Our stove has been turned off for 5 years our landlord has stopped repairs because he wants us to move but we can't. We have no hot water in the kitchen and no water at all in the bathroom since for over a year now. My son starts school each year in clothes from Salvation Army and he is tortured and beat up constantly.

there is more but I am owed these
back movies from Gm. and I ask the
right to pursue this claim

Secondly if General Motors is allowed to
stop paying my workers compensations

first I will not be able to afford my
medications or my doctors visits
my medications co pay is \$258.00, \$58.
and \$46.00

without these medication I will not be
able to live in this pain and I will die
without the workers compensation
money I will be homeless and my
son will be in foster care. We do not
have anyone who will take us in we
are alone. I am not exaggerating any of
this and I beg you to please allow me
to pursue a claim against G.M. allow
me to disput their discharge of my claim

I hope this letter counts as a proof
of claim
