Re: notice of Chapter 11

I don't know why I was sent this notice. It refers to UAW. I never paid union dues while employed at G.M. (1972-1988). Never worked at a Pattern Plant. When I left in 1988 I worked at Headquarters in Warren, Mi. Acted as a salary position. Always worked in a salary position. Never was a hourly employee.

I was told no matter what happened to G.M. as long as I had 10 yrs or more my pension was assured.

When I worked at Willow Run it produced Chevy & Pontiac. So, how does that affect me?

I was told the pension fund was operated by an outside independent firm.

My personal opinion is Satern entered my personal residence and removed all personal assets while I was trying to recoup from a stroke & then a car accident.

It is also my opinion my sister-in-law Whoppi (a different gene pool) ~~is~~ has taken personal awards given me for achievements and is now trying to be  
me
