OBJECTION TO DEBTORS' 179th OMNIBUS OBJECTION TO CLAIMS
(Welfare Benefits Claims of Retired and Former Salaried and Executive Employees)

TO THE HONORABLE ROBERT E. GERBER,
UNITED STATES BANKRUPTCY JUDGE:

Comes now Larry Schramm (a/k/a Larry P. Schramm), creditor and claimant against Motors Liquidation Company ("MLC") (f/k/a General Motors Corporation, "Old GM"), and a retired salaried engineer from Old GM, who respectfully files this OBJECTION TO DEBTORS' 179TH OMNIBUS OBJECTION TO CLAIMS.

Relief Requested

Debtors' 179th Omnibus Objection to Claims seeks entry of an order disallowing and expunging certain welfare benefits claims listed on that filing's original Exhibit "A", claims as filed by retired and former salaried and executive employees. Included on that list is Claim # 63452 in the amount of \$299,679.00 filed by Larry Schramm, Proof of Claim copy attached for reference. Creditor Claimant Schramm requests the Debtors'

proposed order not be allowed, thereby preserving Creditor Claimant's right to financial consideration for the value of diminished and cancelled welfare and healthcare benefits in retirement.

Background

Creditor Claimant Schramm spent his entire adult working career at Old GM from age 19 through 56, holding many managerial and non managerial positions in manufacturing, finance, marketing, HR, technical and engineering areas . An early retirement package was tendered by the Old GM and he accepted an early retirement offer in September, 2008, then transitioning to retirement pension and benefits starting October, 2008. He retired as a Lead Engineer responsible for Hybrid Vehicles - High Voltage cables and connectors for all GM Hybrid vehicles worldwide from the Product Engineering group.

It has been further determined by the U.S. Department of Labor that the tendered early retirement offer by the Old GM has been certified and is considered a separation because of lack of work. The separation is covered under the Trade Act of 1974 and was certified on April 30, 2010. The petition number is TAW72121 with an impact date of August 14, 2008 which is before the Creditor Claimant Schramm accepted the early retirement offer. Had the Creditor Claimant Schramm know of the changes for this separation, the early retirement decision would have been different. A copy of the petition is attached to this document.

Debtors argue "Accrued Benefits Have Been Assumed by New GM"

Healthcare benefits provided by New GM in 2010 are significantly different and diminished as compared to those provided in 2009 and earlier and at time of retirement. Medical insurance premiums paid by Creditor Claimant Schramm were \$1920 more in 2010 than 2009. The health insurance option was changed from a menu of health care options that included a Health Maintenance Organization (HMO) to a high deductible healthcare option only. The new "Consumer Driven Healthcare" policy has deductibles

of \$2,500 per person / \$5,000 per family initially and then the claimant continues to be responsible for 20% of the next \$10,000 of expenses. This increase in health care costs represents an increase for basic medical coverage from about 8% of retirement pension to over 30%, an approximate 400% increase, just for basic health care.

When factoring in the elimination of Dental, Vision and Extended Care Hospitalization which have been completely eliminated in 2010, the total out of pocket expenses increase even further decreasing the retirement benefit that is now consumed for all health care expenses.

GM published documents indicate healthcare costs to GM were reduced by \$1360 per covered person from 2009 to 2010 (see the attached Claim for more detail). This significant increase in liability to Creditor Claimant Schramm should not be categorized and concluded as "Accrued Benefits Have Been Assumed by New GM" based on these facts, especially if one is on the "paying end".

Debtors argue "Benefit Modification Claims Should Be Disallowed As Debtors Had Right to Amend Or Terminate Each Benefit Plan"

There is little doubt that many GM documents stated, "GM reserves the right to amend or terminate benefit plans.....", or similar language. However, the voluntary retirement by Creditor Claimant Schramm in 2008 should not be subject to changing the terms of the retirement contract "ex post facto". Changing benefits or any provision of an employment and/or retirement contract is on firm legal ground for future agreements when both parties agree but Old GM being allowed to change the provisions unilaterally after the fact undermines the entire contractual process that American business is founded on. Part of the standard retirement negotiations was the provision that Creditor Claimant Schramm could never be re-employed as an employee by GM. In the referenced *Sprague v. General Motors Corp.* case, the court stated:

To vest benefits is to render them forever unalterable. Because vesting of welfare plan benefits is not required by law, an employer's commitment to vest such benefits is not to be inferred lightly; the intent to vest "must be found in the plan documents and must be stated in clear and express language".

In the case of Creditor Claimant Schramm, the special early retirement was accepted with the understanding that pension and retirement benefits, and the inability of Schramm to ever be rehired by GM, were contractual obligations of both parties. Why should Old GM not be bound to their contractual obligations? Because they patently state they have the right to terminate or amend at will? If provisions of any contract are allowed to be changed unilaterally, then what value does the contractual process have? Had Creditor Claimant Schramm known that GM was to be allowed (in the future) to unilaterally change the provisions without any negotiations, then the decision to retire would have been very different.

Discussion

The Court is being asked to consider the employment and retirement agreement between Schramm and Old GM, one where professional manufacturing, financial, marketing, HR, and engineering services were tendered by Schramm for many years in return for a mix of present and future salary compensation and benefits. These benefits were accrued during active employment as part of a "total compensation package" for the benefit and use in retirement. At any time either Schramm or Old GM had the ability to end the employment agreement if the value and/or compensation for the services were not agreeable to either party. Retirement benefits are an integral part of one's compensation package. If the legal system does not uphold the ability to negotiate a contractual agreement regarding benefits in the future (retirement), then why should anyone have faith in the legal system to uphold any contractual obligation? The very foundation of American business is predicated on this fact. Had Creditor Claimant Schramm known GM had the ability to walk away from these contractual obligations and would terminate

these benefits, he would not have accepted an early retirement package, especially one that prevents him from ever accepting re-employment with GM in the future.

Summary

In summary, Creditor Claimant Schramm respectfully asks the Court to deny DEBTORS' 179th OMNIBUS OBJECTION TO CLAIMS and preserve his claim to allow entitlement to the retirement welfare benefits he worked so hard to earn.

Creditor Claimant reserves the right to modify, revise, or supplement the above referenced figures and calculations.
